Resolution Celebrating the 250th Anniversary of the United States of America

WHEREAS, *on July 4, 1776, the Second Continental Congress, comprised of fifty-six patriots, adopted the Declaration of Independence, boldly affirming that all people are endowed by their Creator with unalienable rights and launching the great American experiment of liberty, self-government, and human dignity; and*

WHEREAS, *the United States was founded as a constitutional republic and the Constitution of the United States stands as one of the greatest governing documents in human history, establishing a framework of limited government, separation of powers, individual liberty, self-defense, and the rule of law that has preserved freedom and prosperity for generations of Americans; and*

WHEREAS, *the continued success of the United States depends not only upon its institutions, but upon the character, virtue, and civic responsibility of its citizens, who are called to preserve the blessings of liberty for future generations. Consideration of a Participation Agreement with the City of Fort Worth to Pay Assessments to Public Improvement District Number 23 - Panther Island

***** CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider a Participation Agreement with the City of Fort Worth to voluntarily pay assessments associated with Public Improvement District Number 23 – Panther Island.

BACKGROUND

The City of Fort Worth created Operating Public Improvement District (O-PID) Number 23 – Panther Island on February 24, 2006, with an assessment anticipated for fiscal year 2027. The purpose of the O-PID is to fund the following:

1. Enhancements to improve District operations and maintenance for green spaces, public areas, and the canal public realm; ensure clean and safe functions across the District; and address potential ongoing or capital maintenance needs related to the District's infrastructure and water recreation.
2. Improvements to enhance the District's community including, without limitation, litter abatement, illegal dumping, landscaping, promotional sign and banner programs, lighting, and various other streetscape and capital improvements, including streets, sidewalks, roadways, and rights-of-way.
3. Improvements that promote safety and security within the District, without limitation, security lighting, security camera installation, additional security patrols, safety technologies, street calming measures and capital improvements to improve pedestrian, bike, and transit shelter safety.
4. Additional special supplemental services for improvement and promotion of the District, including services relating to advertising, promotion, health and sanitation, water and wastewater, public safety, security, business development, and cultural enhancements.
5. Payment of expenses incurred in the establishment, administration, and operation of the District.
6. Any other improvements and services to the District as allowed pursuant to the Code for a home-rule municipal corporation.

While public property owners are not subject to O-PID assessments, ownership of multiple tracts of land within the O-PID boundary by Tarrant Regional Water District, Tarrant County College District, Tarrant County, and City of Fort Worth is a special circumstance. Through Panther Island Vision 2.0, the public property owners and other stakeholders have collaborated on a development strategy and anticipate that the value and future disposition of these properties will benefit from the creation of an O-PID. As a result, voluntary Participation Agreements of the Public Entities are proposed. The Tarrant Regional Water District Board approved their participation on March 25, 2025, and ratified on November 18, 2025, with an estimated $136,318 annual contribution. The City approved their participation on March 10, 2026, with an estimated $662 contribution. Tarrant County and Tarrant County College are being asked to consider similar commitments based on landholdings.

The current interim state of development and schedules for construction of public infrastructure require an implementation strategy to avoid unduly burdening the existing properties with the most significant improvements. As a result, the petition for creation includes a ramp up strategy for the assessment rate as follows:

Threshold	Levy Limit (Per $100 valuation)	Anticipated FY
N/A	2 cents	N/A
TRWD contract authorization for Canal C Phase 1	5 cents	FY 2027
$50M in private development delivered	16.5 cents	FY 2029

All other public property owners have agreed to voluntarily contribute at the full maximum rate of $0.165 beginning in FY2026, in advance of the City Council assessment. This rate would continue in FY2027 and 2028 and revert to the adopted assessment thereafter unless otherwise agreed at that time.

This will allow establishment of the reserve, governance, litter abatement, initial landscaping and signage, and activation. Tarrant County will have a seat on the PID Advisory Board that will provide stakeholder input to service plans and budgets. TRWD will serve as the PID manager for at least the initial year with long-term governance to be established thereafter.

The District Attorney's Office has reviewed this agreement as to form.

FISCAL IMPACT

Tarrant County’s annual contribution is expected to be approximately $787.00. Funding is available in T2600-2026 Unclaimed Electric Cooperative Credit/1140100000 Non-Departmental/569011 Professional Services

PARTICIPATION AGREEMENT TO PAY ASSESSMENTS - PUBLIC IMPROVEMENT DISTRICT NUMBER 23, CITY OF FORT WORTH, TEXAS

(Panther Island O-PID)

This **PARTICIPATION AGREEMENT TO PAY ASSESSMENTS - PUBLIC IMPROVEMENT DISTRICT NUMBER 23, CITY OF FORT WORTH, TEXAS** (**"Agreement"**) is entered into by and between the **CITY OF FORT WORTH, TEXAS** (**"City"**), a Texas home-rule municipal corporation, and **TARRANT COUNTY** (**"County"**), a Texas _____. The City and County may each be referred to herein individually as a party and collectively as the parties.

Recitals

A. The City and County, in conjunction with private landowners, are cooperatively pursuing creation of an operating public improvement district ("**O-PID**") in accordance with the Public Improvement District Assessment Act, Texas Local Government Code Chapter 372 (the "**Act**"), and with the City's Policy for Operating Public Improvements Districts ("**O-PID Policy**"), to undertake identified public improvement projects conferring special benefit on the definable part of the City generally known as Panther Island ("**Panther Island O-PID**" or "**O-PID**"), with the understanding that creation and operation of such O-PID shall be contingent on, and subject to, City Council approval and the adoption of a governing Resolution ("**O-PID Resolution**").

B. Establishment of the Panther Island O-PID will finance and pay for construction and maintenance of public improvements within and specially benefitting the O-PID, at least in part, through special assessments on taxable real property contained in the O-PID, with such improvements anticipated to spur and accelerate development of property in the Panther Island O-PID, increasing values and tax revenues for both the City and the County along with other benefits to the parties and the public.

C. Under the Act and authorities construing the same, the properties liable for paying assessment must be specially benefitted by PID-funded improvements.

D. Pursuant to the Texas Constitution, personal or real property owned by County is not subject to state or local taxation, but Section 372.014(b) of the Act allows exempt jurisdictions, such as County, to pay special assessments by contract.

E. County owns real property located within boundaries of the Panther Island O-PID and desires to have its real property benefit from the O-PID-funded public improvements. It therefore agrees to pay special assessments related to the Panther Island O-PID through a contract with the City as allowed under the Act.

NOW, THEREFORE, for and in consideration of the mutual agreements and conditions set forth herein, the sufficiency of which is hereby acknowledged, the City and County do contract, covenant and agree as follows:

1. INCORPORATION OF RECITALS.

The parties agree that the recitals set forth above are true and correct and form the basis upon which they have entered into this Agreement.

2. MANAGEMENT, OPERATION, ADMINISTRATION OF PANTHER ISLAND O-PID BY CITY.

A. Conformance with the Act and O-PID Policy. The Panther Island PID will be managed, operated, and administered by the City, directly or through a contracted third party, in accordance with the Act.

B. Voluntary Contribution Established by this Agreement for FY2026 Only..

i. For FY2026 only, County agrees to pay to the O-PID a voluntary contribution of $0.165 per $100 in valuation on all real property that it owns within the boundaries in lieu of assessments provided the City's Council has approved and adopted the O-PID Resolution before June 1, 2026.

ii. The FY2026 contribution shall be determined and invoiced in accordance with Section 2.C.

C. County Assessments After the Adoption of the O-PID Resolution are Established by the Agreement.

i. County agrees to pay assessment on all real property that it owns within the boundaries of the O-PID in amounts calculated as though such real property were subject to taxation, with the process for determining and collecting such assessments set forth in this Section 2.C. which governs the calculation and collection of assessments for County as a tax-exempt property owner.

ii. Calculation of County's assessment shall be determined annually by multiplying the assessment rate by the value of each parcel of County property as detailed below except for FY2027 and 2028 where the

assessment rate for County shall be $0.165 per $100 irrespective of the rate established by the City's Council.

iii. Thereafter, unless agreed otherwise in writing, the assessment rate for County shall be the same as that applicable to taxable property within the O-PID and reflect the rate established by City Council each year in approval of the then-current service and assessment plan for the Panther Island O-PID ("**Assessment Rate**"), provided however, that the rate may not be greater than the not-to-exceed assessment rate reflected in the O-PID Resolution.

iv. For purposes of calculating assessments on County, City staff will use the total market value of each County-owned tract as shown on the appraisal records of the Tarrant Appraisal District (the "**TAD Market Value**"). A list of each County-owned parcel of real property within the O-PID and subject to assessment is attached a "**Exhibit A**" which is incorporated herein ("**County Tracts**").

v. It is anticipated that County may sell one of or more of the County Tracts during the term of this Agreement. Only those parcels owned by County as of January 1 of the year in which assessments are being calculated and billed will be subject to assessment under this Agreement. To the extent a former County Tract is owned by a non-exempt party as of January 1, such new owner shall be liable for assessment in accordance with the O-PID Ordinance and the then-current service and assessment plan for the O-PID. Nothing in this Agreement will preclude County and any buyer of a County Tract from allocating the assessment on a pro rata basis for the year of sale.

vi. On October 1 of each year (or as soon thereafter as practicable), City staff will send an assessment invoice to County with the invoice designed to show value and assessment information for all County Tracts broken out on a parcel-by-parcel basis. Payment of the invoice shall be due in accordance with the same deadlines and other general terms applicable to invoices issued by and payable to the Tarrant County Assessor Collector, provided, however, that payment shall be made directly to the City.

vii. Payments received under this Agreement will be deposited by the City to a fund or account dedicated solely for the benefit of the Panther Island O-PID.

viii. In the event of non-payment of assessments by County, the City shall give written notice of the non-payment to County. If the non-payment is not cured with sixty (60) days of receipt of written notice, then the City may institute a breach of contract action against County for collection of the unpaid assessments. Further, County agrees to waive both its immunity to suit and immunity to liability solely for the limited purpose of the City to collect any unpaid assessments.

3. TERM.

This Agreement shall take effect on the date as of which both parties have executed it and shall expire on the expiration or termination of the Panther Island O-PID, unless this Agreement is terminated earlier as provided herein.

4. TERMINATION.

A. The parties acknowledge and agree that proper budgeting for the improvements within the O-PID requires advance planning and that limitation of termination rights hereunder is therefore reasonable.

B. Because assessments are calculated based on ownership and values as of January 1 each year, but invoices do not issue until October 1 for that same year, either party may terminate this Agreement with respect to the then-current year by providing written notice on or before April 1, in order to afford 180 days' notice prior to the commencement of the O-PID's fiscal year and issuance of invoices. If notice of termination is provided after April 1, such notice shall be considered to take effect as of January 1 of the immediately succeeding year. In the event County terminates this Agreement, County will, at the same time written notice is given to the City, provide copies of the aforementioned written notice of termination to (i) each member of the any advisory board, should one exist, and (ii) the management company of the Panther Island O-PID, should one be in operation.

C. Effect of Termination. Termination shall not reduce or absolve County's liability for payment of assessment invoices preceding the date of County's termination notice, and County's shall be entitled to benefits of the O-PID through the effective date of termination.

5. RESPONSIBILITY FOR ACTS.

The City and the County shall each be responsible for the sole negligent acts of their officers, agents, employees or separate contractors. In the event of joint and concurrent negligence of both the City and the County, responsibility, if any, shall be

apportioned proportionately based on each party's relative fault as determined by a court of competent jurisdiction. Unless otherwise explicitly provided herein, neither party waives any governmental powers or immunities or any other defenses available to each individually.

6. NOTICES.

All written notices called for or required by this Agreement shall be addressed to the following, or such other party or address as either party may subsequently designate in writing, by certified mail, postage prepaid, or by hand delivery:

City:	**County :**
City of Fort Worth Attn: City Manager 100 Fort Worth Trail Fort Worth, Texas 76102	Tarrant County Attn: County Administrator PO Box 9061011 Fort Worth, Texas 76102

7. NO WAIVER.

The failure of either party to insist upon the performance of any term or provision of this Agreement or to exercise any right granted hereunder shall not constitute a waiver of that party's right to insist upon appropriate performance or to assert any such right on any future occasion.

8. VENUE AND JURISDICTION.

If any action, whether real or asserted, at law or in equity, arises on the basis of any provision of this Agreement, venue for such action shall lie in state courts located in Tarrant County, Texas or in the United States District Court for the Northern District of Texas – Fort Worth Division. This Agreement shall be construed in accordance with the laws of the State of Texas.

9. NO THIRD-PARTY RIGHTS.

The provisions and conditions of this Agreement are solely for the benefit of the City and the County and are not intended to create any rights, contractual or otherwise, to any other person or entity.

10. FORCE MAJEURE.

The parties shall exercise every reasonable effort to meet their respective obligations as set forth in this Agreement, but shall not be held liable for any delay in or omission of performance due to force majeure or other causes beyond their reasonable control, including, but not limited to, compliance with any government law, ordinance or regulation, acts of God, acts of omission, fires, strikes, lockouts, national disasters, wars, riots, material or labor restrictions, transportation problems and/or any other cause beyond the reasonable control of either party.

11. REVIEW OF COUNSEL.

The parties acknowledge that each party and its counsel have had the opportunity to review and revise this Agreement and agree that, in the event of any dispute over the meaning or application of any provision of this Agreement, this Agreement shall be interpreted fairly and reasonably, and neither more strongly for or against any party, regardless of the actual drafter of this Agreement.

12. CAPTIONS.

Captions and headings used in this Agreement are for reference purposes only and shall not be deemed a part of this Agreement.

13. ELECTRONIC SIGNATURES.

This Agreement may be executed by electronic signature, which will be considered as an original signature for all purposes and have the same force and effect as an original signature. For these purposes, “electronic signature” means electronically scanned and transmitted versions (e.g. via email or other electronic transmission) of an original signature, or signatures electronically inserted via software such as Adobe Sign.

14. COUNTERPARTS.

This Agreement may be executed in multiple counterparts, each of which shall be considered an original, but all of which shall constitute one instrument.

15. ENTIRETY OF AGREEMENT.

This Agreement, including any exhibits attached hereto and any documents incorporated herein by reference, contains the entire understanding and agreement between the City and the County as to the matters contained herein. Any prior or contemporaneous oral or written agreement is hereby declared null and void to the extent in conflict with any provision of this Agreement. Notwithstanding anything to the contrary herein, this Agreement shall not be amended unless executed in writing by both parties and approved by the City Council of the City in an open meeting held in accordance with Chapter 551 of the Texas Government Code.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable County Judge and Commissioners Court
Tarrant County, Texas

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Tarrant County, Texas (the County) as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated March 12, 2026. Our report includes a reference to other auditors who audited the financial statements of the Tarrant County Hospital District (TCHD) and the My Health My Resources of Tarrant County (MHMRTC), as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Federal and State Program; Report on Internal Control over Compliance; and Report on the Schedule of Expenditures of Federal and State Awards Required by the Uniform Guidance and Texas Grant Management Standards

The Honorable County Judge and Commissioners Court
Tarrant County, Texas

Report on Compliance for Each Major Federal and State Program

Opinion on Each Major Federal and State Program

We have audited Tarrant County's (the County)'s compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* and the Texas Grant Management Standards (TxGMS) that could have a direct and material effect on each of the County's major federal and state programs for the year ended September 30, 2025. The County's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended September 30, 2025.

Basis for Opinion on Each Major Federal and State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and TxGMS. Our responsibilities under those standards, the Uniform Guidance, and TxGMS are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of the County's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the County's federal and state programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and TxGMS will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County's compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and TxGMS we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and TxGMS, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and TxGMS. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal and State Awards Required by the Uniform Guidance and TxGMS

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our report thereon dated March 12, 2026, which contained unmodified opinions on those financial statements. Our report includes reference to other auditors who audited the financial statements of the Tarrant County Hospital District and My Health My Resources of Tarrant County, which represent all of the aggregate discretely presented component units, as described in our report on the County's basic financial statements.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statement. The accompanying schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by the Uniform Guidance and TxGMS and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal and state awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Notes to Schedule of Expenditures of Federal Awards

Note 1. Basis of Accounting and Summary of Significant Accounting Policies

The schedule of expenditures of federal awards (the "Schedule") was prepared on the modified accrual basis of accounting. Amounts reported as expenditures in the accompanying Schedule may not agree with the amounts reported in the related federal financial reports filed with the grantor agencies because of accruals, which would be included in the next report filed with the agency.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and accordingly, when such funds are received, they are recorded as unavailable revenues until earned. The accompanying Schedule is presented on the modified accrual basis of accounting.

The County participates in numerous federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustments by the grantor agencies; therefore, to the extent that the County has not complied with rules and regulations governing the grants, refund of any money received may be required and the collectability of any related receivable at year-end maybe impaired.

Note 2. De Minimis Indirect Cost Rate

The County did not elect to use the 15% de minimis indirect cost rate for federal grant programs.

Note 3. Period of Availability

The period of availability for federal funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extends 30 to 90 days beyond the federal project period ending date, in accordance with provisions in the OMB Compliance Supplement.

Re: Auditor's Report – Review of Financial and System Controls, Justice of the Peace, Precinct 7

In accordance with the Local Government Code, the Auditor's Office reviewed financial and system controls implemented by the Justice of the Peace, Precinct 7, for the six-month period ending March 31, 2026. During this period, the justice court staff recorded receipts totaling approximately $967,000. The scope and methodology of our work is described in greater detail on the following page.

As a result of our review, we observed that financial and system controls were adequate, and procedures complied with relevant statutes and policies. We discussed less significant matters, including minor human errors, with management. Corrective action was taken.

We appreciate the cooperation of the justice court staff during the review. Please contact me if you have any questions.

Sincerely,

Re: Management Response — Review of Financial and Systems Controls
Justice of the Peace, Precinct 7

Dear Ms. Buchanan,

I acknowledge receipt of the Tarrant County Auditor's *Review of Financial and Systems Controls* for the six-month period ending March 31, 2026. I am pleased that the review concluded that the financial and system controls within Justice of the Peace, Precinct 7 were adequate and that our procedures complied with all applicable statutes and county policies. 1

The less significant matters noted during the engagement—primarily minor human errors—were addressed promptly, and corrective actions have already been implemented. We remain committed to maintaining strong internal controls, accurate recordkeeping, and ongoing transparency in the management of all court receipts and disbursements on behalf of the residents of Tarrant County.

I want to recognize Court Manager Haley Goff, Assistant Court Manager Adahli Perez Gone, and the entire Precinct 7 staff for their diligence and cooperation throughout this audit. Their professionalism and daily commitment to accountability are reflected in the positive outcome of this review.

We appreciate the partnership of your office and thank you and your team for the courtesy and professionalism extended during this engagement.

Respectfully,

Honorable Kenneth D. Sanders

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The accompanying financial statements reflect the funds and accounts of the financial reporting entity Tarrant County, Texas (the "County"), as of April 2026 and for the seven months then ended. Other components of the County not included in the accompanying financial statements include, Tarrant County Hospital District, Tarrant County Mental Health and Behavioral Health Services, Tarrant County Industrial Development Corporation, Tarrant County Health Facilities Development Corporation, Tarrant County Cultural Education Facilities Finance Corporation, and Tarrant County Housing Financing Corporation. These components are technically a part of the "reporting entity" because of the budgetary oversight responsibility by the Commissioners' Court of Tarrant County. These components however are unrelated to the financial condition and results of operations of the County, and have been excluded from the accompanying financial statements. Separate financial statements of these entities are available upon request.

Revenue Recognition

Revenue is generally recognized on the modified accrual basis. Under this method of accounting, revenues are recognized when susceptible to accrual, i.e., both measurable and available. The primary revenue sources susceptible to accrual are property taxes, fines and fees due to fee offices which are recognized as unavailable revenue until cash is received. Other sources are generally not measurable until received in cash.

Expenditure Recognition

Expenditures are recorded when incurred. Expenditures for principal and interest on long-term debt are recorded when due. The accrual basis of accounting is utilized in the proprietary funds. Encumbrances are not included as expenditures.

Budget Basis Reporting

The budget is prepared utilizing a modified cash basis of accounting, with adjustments for encumbrances, as allowed by state statutes. Budget basis information is presented in the accompanying "Budgetary Information" section at a summary level. Budget information at the legal level of control is available upon request.

Investment Income Allocation

To maximize investment earnings on "idle" cash and cash equivalents, a "pooled cash" concept is utilized. Under this concept nearly all deposits are maintained in the same bank account and are invested on a daily basis. Generally, interest earnings are allocated to each fund based on the funds relative percentage of the total pool.

Pension Liability

The net pension liability was actuarially valued as of December 31, 2024. The net pension liability is reported as $115,939,101 in the annual comprehensive financial report for the fiscal year ended September 30, 2025.

OPEB Liability

The total OPEB liability was actuarially measured as of September 30, 2024. The total OPEB liability is reported as $172,463,468 in the annual comprehensive financial report for the fiscal year ended September 30, 2025.

Compensated Absences

The liability for compensated absences consists of accumulated earned unpaid vacation and sick leave that is more likely than not to be used in future periods. The total compensated absences liability is reported as $78,210,409 in the annual comprehensive financial report for the fiscal year ended September 30, 2025.

Deferred Outflows/Inflows of Resources

Deferred outflows of resources apply to future periods and will not be recognized as an expense/expenditure until then. Deferred inflows of resources apply to future periods and will be recognized as a revenue at that time.

Incurred but Not Reported

Included in the "Other Liabilities" of the Internal Service fund's Employee Benefits is $8,555,000 of estimated incurred but not reported medical and drug claims.

Leases

The County, as a lessee, recognizes a lease liability and an intangible right to use lease asset as well as capital outlay and other financing source. The County, as lessor, recognizes a lease receivable and a deferred inflow of resources.

Subscription Based Information Technology Arrangements

The County recognizes a subscription liability and an intangible right to use subscription asset as well as capital outlay and other financing source.

II. BASIS OF PRESENTATION

The accounts of the County are organized and operated on the basis of funds, each of which is considered a separate accounting entity. Government resources are allocated to and accounted for in individual funds based on the purpose for which they are to be spent and the means by which spending activities are controlled.

Funds are classified into three categories: Governmental, Proprietary and Fiduciary. Each category is divided into separate fund types. The following fund types are used by the County.

Governmental Funds: Used to account for all or most of a government's general activity. Activity is reported using the current financial resources measurement focus and the modified accrual basis of accounting.

General Fund – used to account for the general operations of the County.

Road and Bridge Fund – used to account for the collection and expenditure of those monies designated to be spent for acquisition, construction and maintenance of county roads and bridges.

Debt Service Fund – used to account for accumulation of resources and for the payment of general long-term debt principal, interest, and related costs.

Capital Projects Funds – used to account for financial resources to be used for the acquisition and/or construction of facilities, equipment, software and infrastructure.

Grant Funds – used to account for the activities conducted under the many grant agreements between the County and various state and federal organizations.

Other Governmental Funds – used to account for specific revenue sources which are legally restricted to expenditures for specified purposes.

Proprietary Funds: Used to account for operations that are financed in a manner similar to those in the private sector. Activity is reported using the economic resources measurement focus and accrual basis of accounting. Internal Service funds are a type of proprietary fund used to account for self insurance activities. The County operates the following five internal service funds.

Self Insurance Fund – used to account for expenditures of bond proceeds received in fiscal year 1998 for the county self insured general liability claims.

Workers Compensation – used to account for workers compensation claims. Prior to the establishment of the self insurance fund, this fund was used for general liability and automobile/property damage claims.

County Clerk Professional Liability Fund – used to account for the County Clerk's errors and omissions self insurance.

District Clerk Professional Liability Fund – used to account for the District Clerk's errors and omissions self insurance.

Employee Benefits Fund – used to account for Tarrant County employee benefits.

Fiduciary Funds: Used to account for assets held by the County in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs.

State Comptroller Funds – used to account for monies received on behalf of, and subsequently remitted to the State Comptroller.

Other Custodial Funds – used to account for assets held in a fiduciary capacity for others and includes property taxes collected and remitted for other entities, statutory fees collected on behalf of other governments, funds held in the registry of the court, collateral for securing bail bonds, monies on account for inmate commissary purchases, and funds seized by law enforcement agencies.

Community Supervision and Corrections – used to account for the State agency funds in the County depository and restitution collected as a condition of probation payable to injured parties.

III. NEGATIVE CASH BALANCES

The following funds have negative cash balances at the balance sheet date. This occurs when expenditures exceed revenue collection. The General Fund has advanced money to these Funds thereby, allowing for continued operation of the related programs. These advances by the General Fund have been reflected in the accompanying combined balance sheet as due from other funds. The advances also represent a loss of investment earnings to the General Fund and are not a reimbursable item by the grantor under reimbursing grant agreements.

Most negative cash balances arise in the County's reimbursing grant programs. These programs require the payment of expenditures prior to the reimbursement by the grantor. These cash deficits have existed for years and do not create any major concerns. However, this information is helpful to the reader of the financial statements to provide a fuller understanding of the details of County operations.

COMMISSIONERS COURT COMMUNICATION

Court Date: June 9, 2026	**Court Order #:** {{customNumber.courtOrder}}	**Page:** 1 of 1

Department: Community Development	**Prepared By:** Janel Holt, SHP Manager	**Approved By:** James A. McClinton, Director

SUBJECT:

Consideration to Submit the Fiscal Year 2026 Continuum of Care Grant Applications to Partnership Home for Inclusion in the U.S. Department of Housing and Urban Development's Continuum of Care Program Competition for Tarrant County Community Development Programs

***** CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider the submission of the FY 2026 Continuum of Care Grants Applications to Partnership Home for inclusion in the U.S. Department of Housing and Urban Development's (HUD) Continuum of Care (COC) program competition for continuation of Tarrant County Community Development Continuum of Care Programs.

BACKGROUND

The Partnership Home COC annually conducts a local competition providing funding from the U.S. Department of Housing and Urban Development (HUD), through the COC competitive grants for homeless assistance programs providing housing opportunities and supportive services.

Community Development has historically received funding through this program to fund between eleven (11) to fifteen (15) programs in partnership with local nonprofit agencies assisting with rent and supportive services to around 1,000 local individuals overcoming homelessness. These programs are operated by local nonprofit subrecipients. Community Development is seeking permission to request grant funding in the amount up to $8,000,000 through the COC competition for the continuation and possible expansion of Community Development housing and supportive services programs.

The grant applications are for one-year funding and are eligible for annual renewal. The local competition grant deadline is anticipated quickly and is dependent on the Notice of Funding Opportunity (NOFO) announcement anticipated June 1, 2026 from HUD. A quick turnaround is typically required to submit applications.

If approved, this authorization will permit the Tarrant County Judge to execute on behalf of Tarrant County any documents necessary to submit the grant application, including future addendums.

FISCAL IMPACT

The grant requests are anticipated to be between $7,500,000 and $8,000,000. The required match is generally twenty-five percent (25%) of the expended total program budget. Historically, the costs of administering these grants are paid with CoC and Community Development Block Grant (CDBG). Funded nonprofit agencies are responsible for meeting the majority of match requirements. A 10% administrative fee will be added to the budget, as allowed by HUD.

SUBJECT:

Consideration of Fiscal Year 2025 Continuum of Care Program Grant Agreements between Tarrant County and the U.S. Department of Housing and Urban Development to Support Homeless Assistance Projects Administered by Non-Profit Agencies in Tarrant County

*****CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider two (2) FY 2025 Continuum of Care (CoC) renewal Grant Agreements between Tarrant County and the U.S. Department of Housing and Urban Development (HUD) to continue supporting homeless assistance projects administered by nonprofit agencies in Tarrant County in the amount of $2,166,864.00

BACKGROUND

On March 19, 2024, the Commissioners Court, through Court Order #142818, approved the submission of the Fiscal Year 2024 Continuum of Care grant applications for the continuation and possible expansion of the Community Development permanent supportive housing and rapid rehousing programs.

In Fall 2024, Tarrant County, through the Community Development Department, in conjunction with the City of Fort Worth, City of Arlington, and Partnership Home, applied for funding to support homeless assistance projects. The application was made in response to the U.S. Department of HUD's CoC Homeless Assistance Programs 2-year NOFO and request for proposals.

On April 2, 2025 and April 15, 2025, the Commissioners Court, through Court Order #144934 and #145048, approved FY 2024 Continuum of Care (CoC) Grant Agreements to support the 3CP (Grant #TX0093L6T012417) and TBLA 114 (Grant #TX0113L6T012417) homeless assistance programs in the total amount of $2,138,384.00.

On March 31, 2026, HUD issued the Grant Award Letter for Tarrant County for the FY 2025 TBLA 114 (Grant #TX0113L6T012518) and 3CP (Grant #TX0093L6T012518) CoC Grants through a non-competitive process as required by Congress via the Consolidated Appropriations Act, 2026.

With approval of these two (2) Grant Agreements, Tarrant County will receive $2,166,864.00 in CoC grant funding from HUD. These funds will be awarded to local non-profit agencies, through subrecipient agreements, to support a total of two (2) homeless assistance projects. Annually, these projects assist with rent and supportive services for approximately 400 Tarrant County residents overcoming homelessness. The performance period for each grant is one (1) year from renewal.

The District Attorney’s Office has reviewed the Grant Agreements as to form.

The subrecipient agreements will be presented to the Commissioners Court for approval at a later date, as will the additional Grant Agreements for the remaining nine (9) FY 2025 CoC Grant Renewals as they are released by HUD.

FISCAL IMPACT

Costs of administering each grant are paid with grant funds though each individual grant. Funded agencies must fulfill any match requirements.

13. *Rule of Construction and No Construction Against Drafter*. Notwithstanding anything contained in this agreement, the terms and conditions hereof are to be construed to have full and expansive effect in both interpretation and application, and the parties agree that the principle of interpretation that holds that ambiguities in terms or conditions are construed against the drafter shall not apply in interpreting this agreement.

14. *Severability*. If any part or provision of this agreement is enjoined or held to be void or unenforceable in any jurisdiction, it shall be ineffective as to such jurisdiction and only to the extent of such prohibition or enjoinment and shall not invalidate or affect the legality or enforceability of the remaining provisions and applications of this agreement. In the event the enjoinment of such provisions is stayed, dissolved or reversed, the full terms of this agreement, including such provisions, will automatically become effective. Consideration of Change Order No. 1 to the Construction Contract between Tarrant County and Douglas Dailey Construction LLC for the City of Euless, Texas 50th Year Community Development Block Grant Project

*****CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider approving Change Order No. 1 to the construction contract with Douglas Dailey Construction LLC in the amount of ($5,857.60) for the reconciliation of quantities for the City of Euless, Texas 50th Year Community Development Block Grant (CDBG) Project.

BACKGROUND

On June 11, 2025, Tarrant County Community Development opened bids for a 50th Year Community Development Block Grant (CDBG) project consisting of sewer improvements on Kensinger Court in Euless, Texas. Douglas Dailey Construction LLC submitted the lowest responsive and responsible bid in the amount of $554,900.00.

On September 16, 2025, the Commissioners Court, through Court Order #145920, approved a construction contract with Douglas Dailey Construction LLC for the above-mentioned project. Tarrant County originally certified $552,162.49 in CDBG funds and the City of Euless agreed to contribute $2,737.51.

Approval of Change Order No. 1 will reconcile various contract overruns and underruns. As a result, the original contract amount of $554,900.00 will decrease by $5,857.60, bringing the new total project cost to $549,042.40. Tarrant County originally certified $552,162.49 in CDBG funds and the City of Euless agreed to contribute $2,737.51. The reduction fully absorbs the City's anticipated contribution, and the CDBG funding originally certified by this project will decrease by $3,120.09 for a total of $549,042.40.

FISCAL IMPACT

Funding in the amount of $549,042.40 is available through the Community Development Block Grant (CDBG) #B-24-UC-48-001. Upon approval of the claim for payment under this contract, funds will be drawn from the U.S. Treasury through the U.S. Department of Housing and Urban Development's (HUD's) electronic transfer system to Tarrant County's bank account.

COMMISSIONERS COURT COMMUNICATION

Court Date: June 9, 2026	**Court Order #:**	**Page:** 1 of 3

Department: Community Development	**Prepared By:** Wren Davis, CDBG Program Manager	**Approved By:** James A. McClinton, Director

SUBJECT:

Consideration of Change Order No. 1 to the Construction Contract between Tarrant County and Tex-Pro Construction for the Haltom City, Texas 50th Year Community Development Block Grant Project

*****CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider approving Change Order No. 1 to the construction contract with Tex-Pro Construction in the amount of ($24,273.10) for the reconciliation of quantities for the Haltom City, Texas 50th Year Community Development Block Grant (CDBG) Project.

BACKGROUND

On August 13, 2025, Tarrant County Community Development opened bids for a 50th Year Community Development Block Grant (CDBG) project consisting of water improvements along Eden Avenue in Haltom City, Texas. Tex-Pro Construction submitted the low bid in the amount of $479,669.00.

On November 11, 2025, the Commissioners Court, through Court Order #146226, approved a construction contract with Tex-Pro Construction for the above-mentioned project. Tarrant County originally certified $143,001.00 in CDBG funds and Haltom City agreed to contribute $336,668.00.

Approval of Change Order No. 1 will reconcile various contract overruns and underruns. As a result, the original contract amount of $479,669.00 will change by ($24,273.10), bringing the new total project cost to $455,395.90. Haltom City's original contribution of $336,668.00 will also decrease by ($24,273.10), bringing the City's revised contribution to $312,394.90.

FISCAL IMPACT

Funding in the amount of $143,001.00 is available through the Community Development Block Grant (CDBG) #B-24-UC-48-001. Upon approval of the claim for payment under this contract, funds will be drawn from the U.S. Treasury through the U.S. Department of Housing and Urban Development's (HUD's) electronic transfer system to Tarrant County's bank account.

RE: REVISED PROPOSAL FOR DESIGN AND CONSTRUCTION ADMINISTRATION FOR REPLACEMENT OF (2) EXISTING STROBIC LAB EXHAUST FANS AND (1) EXISTING ROOF MOUNTED OUTSIDE AIR HANDLING UNIT PUBLIC HEALTH FACILITY BUILDING A – BSL3 LAB FORT WORTH, TEXAS

Dear Chad:

After our coordination meeting on April 20, 2026, with the BSL3 Lab Team, we have revised our proposal to provide the mechanical and electrical engineering design for the replacement of (2) existing Strobic Exhaust Fans (Fans A-18A & 18B) and (1) existing 100% Outdoor Air Roof Mounted Air Handling Unit (RTU-A-8) that serve the BSL3 Lab, and are located on the First Floor Roof of the Public Health Facility Building A. If adequate emergency electrical power is available, the replacement Air Handling Unit will also include backup DX cooling and back up electric heat.

This proposal includes Site Investigation, Design, Opinion of Probable Cost, Bidding Services and Construction Administration Services. Commissioning of the new systems will be provided by Others.

Our electrical design to support the new backup cooling and heating loads assumes that there is already adequate space available in existing panelboards. This proposal does not include upgrade of the electrical distribution system capacity to add additional electrical panels.

This proposal also includes a survey and study of the existing emergency power loads in order to determine whether adequate emergency power is available to serve the proposed backup cooling and heating for the replacement Air Handling unit.

We propose to provide the mechanical and electrical engineering design for the referenced project in sufficient detail to receive construction bids from contractors and in sufficient detail to install the systems in accordance with applicable codes. Deliverables will include original drawings (CADD Plots) and specifications prepared for binding separately. Drawings will be sealed by a Registered/Licensed Professional Engineer.

Our Bidding Services will include participation in Pre-Bid Meeting and Bid Evaluation Meeting.

Our Construction Administration will include participation in Pre-Construction Meeting, review of shop drawing submittals, response to construction requests for information and up to (3) site visits during construction to observe the Contractor's progress.

In consideration for the scope described above we propose the following stipulated sum fee:

Survey and Study of Existing Emergency Power Loads	$8,800.00
Site Investigation for Replacement Equipment	$3,000.00
Engineering Design for Replacement Equipment	$43,000.00
Bidding Services	$2,000.00
Construction Administration	$5,500.00
Reimbursables	$1,000.00
Total Fee	$63,300.00

Invoices will be forwarded to your office based upon the percentage of design completed during each billing period and will be due upon receipt of each invoice. Stipulated sum does not include reproduction expenses, other than single copy originals for final drawings. Travel expenses, plotting and reproduction expenses, other than those identified above, will be payable under the same conditions as the stipulated sum.

Our proposal is based on Tarrant County providing the Autocad files of the building floor plans.

If you are in agreement with the scope of work described above and the other terms of this proposal, please issue a Purchase Order for these services. We will consider the receipt of the Purchase Order our notice to proceed.

Thank you for the opportunity to work with you on this project.

Sincerely,

BAIRD, HAMPTON & BROWN, INC.

SUBJECT:

Consideration of Change Order No. 3 to the Fast-Trak Construction, Inc. Construction Services Contract for the Precinct 2 Open Parking Garage Project

***** CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider approval of Change Order No. 3 to the Fast-Trak Construction, Inc. construction services contract for the Precinct 2 Open Parking Garage project.

BACKGROUND

On September 3, 2025, the Commissioners Court, through Court Order #145888, awarded RFP No. F2025172, Construction of Open Parking Garage at Precinct 2, for Facilities Management-Construction Services, to Fast-Trak Construction, Inc. at $1,808,258.38. The purpose of this contract is to hire a qualified construction firm for the construction of a pre-engineered metal building to protect the County's vehicular assets from the elements and comply with County policy. This project requires structural components, electrical, mechanical, plumbing and electronic tradelines

On December 9, 2025, the Commissioners Court, through Court Order #146402, approved Change Order No. 1 to address the realignment of the Precinct 2 water service main associated with the Open Parking Garage project.

On April 14, 2026, the Commissioners Court, through Court Order #146909, approved Change Order No. 2 for additional field modifications associated with the Open Parking Garage project, including paving subgrade revisions, deck ramp modifications, water-filled pier placement, and construction of a compressor room.

Change Order No. 3 decreases the contract by $5,006.93 to finalize project accounting. This change order does not extend the duration of the contract and provides for the following scope of work adjustment:

Proposed Change Order (PCO) #13: Deduct hydroseed scope of work from the contract due to seasonal timing constraints. The hydroseed work may be completed at a later date by Precinct 2, if necessary.
Deduct $5,006.93

Pursuant to the State of Texas Government Code 262.031, the Director of Facilities Management approved this work. The work was approved to prevent schedule delays and possible cost increase impacts to the County related to the construction schedule.

The project has been completed on time and within budget.

FISCAL IMPACT

This reduces the final contract value by $5,006.93 from $1,835,782.53 to $1,830,775.60.

Funding is available in account 45100-2026 Non-Debt Capital/6210200000 Precinct #2 Garage/540000 Capital Outlay.

Original Contract Total	$1,808,258.38
Change Order No. 1	$ 6,970.00
Change Order No. 2	$ 20,554.15
Change Order No. 3	($ 5,006.93)
Revised Contract Total	$1,830,775.60

Docusign Envelope ID: 55D109E5-70B8-4DE6-B8F9-F5B9586BD9A7

applications submitted to THMP on a regular schedule as specified below. The THMP Liaison is responsible for reporting the progress of the following to the DSHS HIV Care Services Consultants monthly, and on the semiannual and the annual report:

1. Attend 80% of monthly regional and weekly huddle calls coordinated by THMP;
2. Attend 100% of required trainings annually, or arrange for appropriate makeup;

    a. ≥ 90% of new and recertification AIDS Drug Assistance Program ("ADAP") applications are accepted by THMP as complete upon initial submission. THMP measures this by checking if all eligibility documents, including acceptable proof of income, proof of Texas residency, and proof of diagnosis, are received by the program via TCT, fax, or mail.
    b. ≥ 90% of ADAP eligibility recertifications and self-attestations are completed on or before the lapse of ADAP program benefits. THMP measures this by checking that the recertification and self-attestation application was received during the client's birth-month/half-birth month before the lapse of ADAP program benefits.
    c. ≥ 90% of Texas Insurance Assistance Program ("TIAP") applications are accepted by THMP as complete upon initial submission for insurance assistance. THMP measures this by reviewing the completeness of the information provided in the insurance tab in TCT or reviewing the front and back copy of the client's insurance card received by the program via TCT, fax or mail.
    d. ≥ 90% of State Pharmacy Assistance Program ("SPAP") applications are accepted by THMP as complete upon initial submission for insurance assistance. THMP measures this by checking if the new applicants have applied for the Part D Low-Income Subsidy through the Social Security Administration before applying to SPAP.
    e. ≥ 90% of Texas Insurance Assistance Program-PLUS ("TIAP-PLUS") applications are accepted by THMP as complete upon initial submission for insurance assistance. THMP measures this by checking if all the required documents, including the insurance client agreement form, the client's monthly premium amount, and the account insurance information are received by the program via TCT, fax, or mail.
    f. ≥ 90% of application entries in the "about you" demographic, relationship, household, client financial, insurance, and case notes in TCT are correct and complete.

Docusign Envelope ID: 55D109E5-70B8-4DE6-B8F9-F5B9586BD9A7

of each subcontract. This memorandum must be designed to facilitate linking individuals who meet DSHS HIV Program eligibility criteria to local sexually transmitted disease ("STD") and tuberculosis ("TB") programs so that such individuals may receive appropriate services from those programs.

EE. Establish formal systems of care and standing procedures for linking clients to primary care to ensure that all clients have a provider for non-HIV-related illnesses.

FF. Ensure non-Adult Safety Net vaccine program ("ASN") subrecipients have a DSHS-approved policy in place for receiving, storing (including a temperature log), and distributing vaccines. All subrecipients, regardless of contract status with ASN, must also document the procedure for ensuring required vaccination data are entered or imported into TCT.

GG. Ensure subrecipients use Outpatient Ambulatory Health Services funds for vaccinations as required by the DSHS Standards of Care and the federally approved HIV Clinical Guidelines.

HH. Ensure subrecipients provide services that are equitably available and accessible to all PLWH needing services and/or care within Grantee's designated Service Area. Grantee shall not set up eligibility criteria that favor one HIV-positive demographic over another. The Grantee will make reasonable efforts to provide office hours and service locations that are accessible to as many clients as possible. HHS Office for Civil Rights provides guidance to grant and cooperative recipients on complying with civil rights laws that prohibit discrimination (see Civil Rights for Individuals and Advocates). H. Miscellaneous. This Agreement constitutes the entire agreement between SAVI and Referrer with respect to the subject matter hereof and

supersedes and terminates any prior agreements or understandings relating to such subject matter. No addendum, waiver, consent, modification, amendment or change of the terms of this Agreement shall bind either party unless in writing and signed by duly authorized officers of SAVI and Referrer. There are no intended third-party beneficiaries of this Agreement. This Agreement may not be assigned by either party without the written permission of the other party. This Agreement, and the rights and duties of the parties, shall be governed by and construed in accordance with the laws of the State of Texas, without giving effect to the conflict of law provisions thereof. Any legal action arising out of or relating to the Agreement shall be brought only in the state or federal courts located in Tarrant County, Texas, and the parties irrevocably consent to the jurisdiction and venue of such courts. Nothing in this Section shall preclude either party from seeking interim or provisional relief from a court of competent jurisdiction, including a temporary restraining order, preliminary injunction or other interim equitable relief. In no event shall either party be liable to the other for any delay or failure to perform hereunder, which delay or failure to perform is due to causes beyond the reasonable control of said party (collectively, "**Force Majeure**"). If there is any such delay, then the periods for completion of the obligations of the party(ies) affected by such event shall be automatically extended by an equitable period of time based on the duration and effect of such Force Majeure. SAVI may receive and sign or otherwise execute purchase orders or similar documents from Referrer after the execution of this Agreement, and the parties agree that the sole purpose of such documents is for Referrer's internal payment processes and that such execution by SAVI does not constitute an acceptance of any of the terms or conditions of such document. Referrer further represents, warrants and agrees that (i) such documents are solely for compliance with its internal purchasing policies, (i) such document is not intended to and shall not add any new terms or conditions or supersede any conflicting terms and conditions in this Agreement, and (iii) Referrer shall not assert any terms or conditions contained in such documents against SAVI.

I. Texas Public Information Act. Referrer advises SAVI that Referrer is a governmental body under Chapter 552 of the Texas Government Code and that certain information that is collected, assembled, or maintained in connection with the transaction of official business by a governmental body is considered public information potentially subject to disclosure pursuant to a valid Texas Public Information Act ("TPIA") request. SAVI's trade secrets, certain financial information, and proprietary information may be subject to an exception to disclosure under Chapter 552 of the Texas Government Code, Subchapter C. If a TPIA request is made on Referrer to disclose SAVI information that may be subject to an exception from disclosure, Referrer will (i) promptly notify SAVI of such request for disclosure, and (ii) decline to release such information and file a written request with the Texas Attorney General's office seeking a determination as to whether such information may be withheld.

J. Compliance with Laws. In providing the services required by this Agreement, SAVI must observe and comply with all applicable federal, state, and local statutes, ordinances, rules, and regulations, including, without limitation, workers' compensation laws, minimum and maximum salary and wage statutes and regulations, and non-discrimination laws and regulations. Consideration to Adopt Revisions to the Salary Administration Guidelines

***** CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider adopting revisions to the Salary Administration Guidelines (SAG) effective June 9, 2026.

BACKGROUND

The SAG provides written salary administration policies and procedures designed to ensure consistency in policy application and salary administration throughout Tarrant County.

On February 10, 2026, the Commissioners Court, through Court Order #146663, approved the current version of the SAG.

The proposed revisions relate to Section VII, T, Road and Bridge Pay. This proposed language clarifies eligibility requirements and conditions under which Road and Bridge Crew employees may receive Road and Bridge Pay during a declared state of disaster or local state of disaster, including the requirement for Commissioners Court authorization.

The proposed changes are outlined in the attached document.

FISCAL IMPACT

Any future fiscal impact associated with Road and Bridge Pay would be contingent upon a declared state of disaster or local state of disaster and subsequent authorization by the Commissioners Court.

PROPOSED TEXT

13. Road and Bridge Pay

Road and Bridge Pay: In the event the Governor of Texas issues pursuant to Texas Government Code section 418.041 a declaration of state of that includes Tarrant County, or the Tarrant County Judge issues pursuant to Texas Government Code section 418.108 a declaration of local disaster, Ex Officio Road Commissioners may temporarily adjust the workweek of any individual employee working for the Ex Officio Road Commissioners' Road and Bridge Crew to require the employee to report to work during a state of disaster or local state of disaster. Road and Bridge Crew employees required to report to work under such circumstances are eligible to receive Road and Bridge Pay. The issuance of a state of disaster or local state of disaster does not guarantee Road and Bridge Pay for employees. The award of any Road and Bridge Pay is contingent upon the employee being payable from the Road and Bridge Maintenance cost center, being a non-exempt employee, and authorization by the Commissioners Court. Exempt employees are not eligible for Road and Bridge Pay. Road and Bridge Crew employees [MK1.1]are eligible to receive Road and Bridge Pay at the rate of one times their current hourly pay rate for time worked during the declaration upon authorization by the Commissioners Court.

MEMORANDUM OF UNDERSTANDING

Between
Second Chance Mentoring dba Real Chance Mentoring
and
Tarrant County Juvenile Services

Second Chance Mentoring dba Real Chance Mentoring ("Provider") will partner with Tarrant County, a political subdivision of the State of Texas (the "County"), acting through Tarrant County Juvenile Services ("TCJS").

This Memorandum of Understanding ("MOU") describes the roles and responsibilities agreed upon by Provider and County beginning June 1, 2026 (the "Effective Date").

1. Overview of Project

Provider will provide the services described in **Exhibit A** ("Scope of Services"), which is attached hereto and incorporated herein for all purposes ("Services"), to youth in or transitioning from the Lynn W. Ross Juvenile Detention Center ("JDC"), youth being served in the Tarrant County Juvenile Justice Alternative Education Program ("JJAEP"), and youth being served on probation (collectively, the "Project").

2. Key Partners

The primary partners on this project are Provider and County.

3. Roles and Responsibilities

Provider will:

- Adhere to all County TCJS policies and protocols, including any applicable rules or regulations promulgated by the Texas Juvenile Justice Department ("TJJD").
- Follow referral pathways established by TCJS if/when a disclosure that requires mandatory reporting occurs.
- As required by Texas Family Code Chapter 261 and Title 37 Texas Administrative Code Chapters 341, 343, 348, 349, and 351, or successor provisions, Provider shall report any allegation or incident of abuse, neglect, exploitation, death or other serious incident involving any child (including but not limited to a juvenile that is under the supervision of County) within twenty-four (24) hours from the time the allegation is made to all of the following:
  - Local law enforcement agency (such as the Tarrant County Sheriff's Office);

- TJJD, by submitting a TJJD Incident Report Form to abuseneglect@tjjd.texas.gov (or if unable to complete the form within twenty-four (24) hours, then by calling toll-free 866-477-8354, followed by submitting the report within twenty-four (24) hours of said call); and

- The Director of TCJS via facsimile number 817-838-4646, and by calling to report at 817-838-4643.

For the purpose of the foregoing provision, an allegation or incident shall include the witnessing or receipt of an oral or written outcry from an alleged victim or other person with reasonable belief or knowledge of an occurrence or an incident of abuse, neglect, exploitation, death, or other serious incident involving a juvenile under the jurisdiction of the juvenile court or of TCJS. Provider agrees to immediately report any serious incidents, accidents, injuries, suspected illegal activities, or catastrophic events to the Director of TCJS at 817-838-4643.

- Ensure all staff who enter the JDC, JJAEP, or who interact with youth under the jurisdiction of TCJS have cleared background checks in accordance with Provider, County, TCJS, and TJJD policy.

- Ensure that all staff who enter the JDC, JJAEP, or who interact with youth under the jurisdiction of TCJS have completed PREA training through TCJS or have provided evidence of such completion through another source that is satisfactory to TCJS.

- Provide youth with a pre- and post-survey to determine understanding and comprehension of materials taught.

- Provider will ensure all facilitators communicate to youth regarding any disclosures made during provision of the Services. If a youth discloses anything that could be dangerous or is otherwise requires mandatory reporting, Provider will ensure that youth understand that Provider must immediately report it to TCJS staff and any others that may be required by law.

- All Provider staff and volunteers shall consent for TCJS to consult with Department Family Protective Services to check the abuse registry maintained by the State of Texas.

- All Provider staff and volunteers will provide consent for TCJS to complete an electronic criminal history check.

- All Provider staff and volunteers will provide an email copy of any CPS, DFPS, or law enforcement reports made regarding TCJS youth. This will occur no more than 24 hours after disclosures that trigger mandatory reporting are made.

County will:

- Allow for facility space and staff time for the Services during the Term of this MOU, including weekly scheduled Tuesday and Thursday pod access for group mentoring sessions from 4:00 p.m. until 5:00 p.m., and for individual mentoring on days, times,

and locations to be determined. Locations for individual mentoring may include visitation rooms, pod meeting rooms, or such other area or room as may be designated by TCJS.

- Allow for facility space and staff time, as well as create schedule space for youth for the Services, separated by gender and age.
- To the extent practicable, provide advance notice to Provider of any schedule changes, lockdowns, or other events that are likely to impact group and/or individual mentoring schedules.
- To the extent practicable, provide notice to Provider of movement of youth participating in individual mentoring (this includes internal movement within, or release from, the JDC or JJAEP).
- Collaborate with Provider in connecting youth to community resources.
- Participate in reentry mentoring planning meetings, if any.
- Adhere to TCJS and County policies and protocols, as well as follow referral pathways established by TCJS and County if/when a disclosure requiring mandatory reporting occurs.
- Ensure TCJS staff are present in appropriate ratios during all times the Provider is providing the Services so that Provider and its staff or volunteers do not need to engage in behavior management.
- Provide access to PREA training for all staff of Provider who will enter the JJC, JJAEP, or who will interact with youth under the jurisdiction of TCJS.
- Provide clear communication of all TCJS rules and expectations.
- Provide support in identifying youth who may benefit from the Services.
- Support and coordinate group mentoring at the Tarrant County Juvenile Justice Alternative Education Program ("JJAEP").
- Pay for the cost of conducting electronic criminal history checks.

4. Shared Operating Principles and Values

Provider and County share a commitment to positive youth development for youth who are involved in the juvenile justice system, with an emphasis on family involvement and a beneficial impact on long- and short-term public safety. With that shared commitment, both parties commit to the following:

- ***Trauma-Informed Care***: Provider and County commit to practicing trauma-informed care while engaging both staff and youth in this project. This means fostering an

environment of felt safety, following through on commitments, being transparent with youth to an appropriate extent, cultivating an environment for peer support, fostering choices and collaboration, and taking culture and gender into account in all interactions.

- ***Strengths-Based Approach***: Provider will notice and emphasize the assets and opportunities in staff and youth as protective factors against future criminal justice involvement rather than focus on vulnerability, while still addressing common vulnerabilities to increase positive outcomes.

- ***Evidence-Based Practices***: Provider and County are committed to implementing evidence-based practices throughout the Project.

- ***Confidentiality***: Outside of mandated reporting, pre-established protocols, and data sharing agreements, no information about a youth, TCJS, County, or Provider may be shared either between Provider and County or publicly without explicit written consent of the related party and/or their guardian.

- ***Competent Care for All Populations***: During the provision of any services related to the Project, Provider will use culturally appropriate language and will treat all youth fairly and equitably. Provider and County will offer accommodations whenever required and possible for youth with disabilities and will apply best practices as determined by the policies of each organization.

5. Term

This MOU is in effect from the Effective Date until June 1, 2027 (the "Initial Term").. Thereafter, the County may renew this MOU, with adaptations based on feedback from participants, and programmatic and/or business needs identified by either party, for additional one-year terms by providing Provider with written notice (email notice will be acceptable) of renewal no less than thirty (30) days prior to the expiration of the then-current term (any such renewal, a "Renewal Term" and together with the Initial Term, the "Term").

6. Commitment to Partnership

There will not be an exchange of financial assets between the two parties of this MOU as part of the agreement.

Provider will cover all costs associated with curriculum and staff time for training staff and youth.

County will cover all costs associated with space usage, staff supervision of youth during the sessions, and staff time for the staff being trained.

MEMORANDUM OF UNDERSTANDING

Between
The Archway
and
Tarrant County Juvenile Services

The Archway ("Provider") will partner with Tarrant County, a political subdivision of the State of Texas (the "County"), acting through Tarrant County Juvenile Services ("TCJS").

This Memorandum of Understanding ("MOU") describes the roles and responsibilities agreed upon by Provider and County beginning May 28, 2026 (the "Effective Date").

1. Overview of Project

Provider will provide the services described in **Exhibit A** ("Scope of Services"), which is attached hereto and incorporated herein for all purposes ("Services"), to youth in or transitioning from the Lynn W. Ross Juvenile Detention Center ("JDC"), youth being served in the Tarrant County Juvenile Justice Alternative Education Program ("JJAEP"), and youth being served through intake, diversion, deferred prosecution, or on probation (collectively, the "Project").

2. Key Partners

The primary partners on this project are Provider and County.

3. Roles and Responsibilities

Provider will:

- Adhere to all County TCJS policies and protocols, including any applicable rules or regulations promulgated by the Texas Juvenile Justice Department ("TJJD").
- Follow referral pathways established by TCJS if/when a disclosure that requires mandatory reporting occurs.
- As required by Texas Family Code Chapter 261 and Title 37 Texas Administrative Code Chapters 341, 343, 348, 349, and 351, or successor provisions, Provider shall report any allegation or incident of abuse, neglect, exploitation, death or other serious incident involving any child (including but not limited to a juvenile that is under the supervision of County) within twenty-four (24) hours from the time the allegation is made to all of the following:
  - Local law enforcement agency (such as the Tarrant County Sheriff's Office);

- TJJD, by submitting a TJJD Incident Report Form to abuseneglect@tjjd.texas.gov (or if unable to complete the form within twenty-four (24) hours, then by calling toll-free 866-477-8354, followed by submitting the report within twenty-four (24) hours of said call); and

- The Director of TCJS via facsimile number 817-838-4646, and by calling to report at 817-838-4643.

For the purpose of the foregoing provision, an allegation or incident shall include the witnessing or receipt of an oral or written outcry from an alleged victim or other person with reasonable belief or knowledge of an occurrence or an incident of abuse, neglect, exploitation, death, or other serious incident involving a juvenile under the jurisdiction of the juvenile court or of TCJS. Provider agrees to immediately report any serious incidents, accidents, injuries, suspected illegal activities, or catastrophic events to the Director of TCJS at 817-838-4643.

- Ensure all staff who enter the JDC, JJAEP, or who interact with youth under the jurisdiction of TCJS have cleared background checks in accordance with Provider, County, TCJS, and TJJD policy.

- Ensure that all staff who enter the JDC, JJAEP, or who interact with youth under the jurisdiction of TCJS have completed PREA training through TCJS or have provided evidence of such completion through another source that is satisfactory to TCJS.

- Provide youth with a pre- and post-survey to determine understanding and comprehension of materials taught.

- Provider will ensure all facilitators communicate to youth regarding any disclosures made during provision of the Services. If a youth discloses anything that could be dangerous or is otherwise requires mandatory reporting, Provider will ensure that youth understand that Provider must immediately report it to TCJS staff and any others that may be required by law.

- All Provider staff and volunteers shall consent for TCJS to consult with Department Family Protective Services to check the abuse registry maintained by the State of Texas.

- All Provider staff and volunteers will provide consent for TCJS to complete an electronic criminal history check.

- All Provider staff and volunteers will provide an email copy of any CPS, DFPS, or law enforcement reports made regarding TCJS youth. This will occur no more than 24 hours after disclosures that trigger mandatory reporting are made.

County will:

- Provide support in identifying youth who may benefit from the Services delivered in small and/or classroom-sized groups.

- Provide the use of safe facility space for provision of the Services on days, times, and locations to be determined by County.

- For Services delivered in either the JDC or JJAEP, ensure TCJS staff are present in appropriate ratios during all times the Provider is providing the Services so that Provider and its staff or volunteers do not need to engage in behavior management.

- Provide access to PREA training for all staff of Provider who will enter the JJC, JJAEP, or who will interact with youth under the jurisdiction of TCJS.

- Provide clear communication of all TCJS rules and expectations.

- Pay for the cost of conducting electronic criminal history checks.

4. Shared Operating Principles and Values

Provider and County share a commitment to positive youth development for youth who are involved in the juvenile justice system, with an emphasis on family involvement and a beneficial impact on long- and short-term public safety. With that shared commitment, both parties commit to the following:

- ***Trauma-Informed Care***: Provider and County commit to practicing trauma-informed care while engaging both staff and youth in this project. This means fostering an environment of felt safety, following through on commitments, being transparent with youth to an appropriate extent, cultivating an environment for peer support, fostering choices and collaboration, and taking culture and gender into account in all interactions.

- ***Strengths-Based Approach***: Provider will notice and emphasize the assets and opportunities in staff and youth as protective factors against future criminal justice involvement rather than focus on vulnerability, while still addressing common vulnerabilities to increase positive outcomes.

- ***Evidence-Based Practices***: Provider and County are committed to implementing evidence-based practices throughout the Project.

- ***Confidentiality***: Outside of mandated reporting, pre-established protocols, and data sharing agreements, no information about a youth, TCJS, County, or Provider may be shared either between Provider and County or publicly without explicit written consent of the related party and/or their guardian.

- ***Competent Care for All Populations***: During the provision of any services related to the Project, Provider will use culturally appropriate language and will treat all youth fairly and equitably. Provider and County will offer accommodations whenever required and possible for youth with disabilities and will apply best practices as determined by the policies of each organization.

5. Term

This MOU is in effect from the Effective Date until June 1, 2027 (the "Initial Term"). Thereafter, the County may renew this MOU, with adaptations based on feedback from participants, and programmatic and/or business needs identified by either party, for additional one-year terms by providing Provider with written notice (email notice will be acceptable) of renewal no less than thirty (30) days prior to the expiration of the then-current term (any such renewal, a "Renewal Term" and together with the Initial Term, the "Term").

6. Commitment to Partnership

There will not be an exchange of financial assets between the two parties of this MOU as part of the agreement.

Provider will cover all costs associated with curriculum and staff time for training staff and youth.

MEMORANDUM OF UNDERSTANDING WITH PARTICIPATING LOCAL GOVERNMENTS AND TARRANT COUNTY TO PARTICIPATE IN TECHSHARE LOCAL GOVERNMENT CORPORATION'S TECHSHARE.JUVENILE PROGRAM

I. PARTIES

This Memorandum of Understanding ("MOU") is entered by and between the **Forest Hill Police Department** (the "Participating Local Government") and Tarrant County ("Tarrant County" or "County"), acting by and through their respective governing bodies, pursuant to and under authority of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code and for the purpose of participation in the TechShare Local Government Corporation's Techshare.Juvenile Program ("TechShare.Juvenile"). Tarrant County and any and all other Participating Local Government(s) of the State of Texas adopting this MOU upon a formal order of their respective governing bodies as provided for herein may be referred to in this MOU individually as "Party" and collectively as "Parties."

II. RECITALS

WHEREAS, Participating Local Government desires to enter into this MOU for participation in TechShare.Juvenile, an extended case management system that will allow participating agencies within Tarrant County to view juvenile information statewide;

WHEREAS, The Participating Local Government will have access to TechShare.Juvenile in order to file cases electronically, perform statewide juvenile record searches, and perform other functions as allowed by statutes and role based permissions;

WHEREAS, The Participating Local Government will be required to provide agency IP addresses in order to access TechShare.Juvenile. The basic equipment needed by the Participating Local Government is a firewall capable of supporting a minimum of 3DES or AES encryption capability and IPSec security protocols. The Participating Local Government must ensure that all personal computers used to assess TechShare.Juvenile are updated and contain antivirus software. Further, the encryption standards must be compliant with the federal data encryption standard of FIPS-140-2. Additionally, a 3Mb circuit is recommended. Due to laws governing circuit location and the range of costs between providers, Participating Local Government should contact their telecommunication service provider to determine circuit costs.

SUBJECT:

Consideration of an Interlocal Cooperation Contract between Tarrant County and the Texas Department of State Health Services for the Provision of Mobile Food Inspection Services by the Tarrant County Public Health Department

***** CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider a Interlocal Cooperation Contract, #HHS001719600024, between Tarrant County and the Texas Department of State Health Services (DSHS) for the provision of Mobile Food Inspection Services by the Tarrant County Public Health Department (TCPH).

BACKGROUND

The TCPH Environmental Health Division (EHD) conducts environmental health inspections in the unincorporated regions of Tarrant County, and through approved interlocal agreements, provides inspection services for thirty (30) participating cities, and the Dallas-Fort Worth International Airport.

During the Texas 89th Legislative session, House Bill 2844 transferred regulatory jurisdiction of mobile food vendors to DSHS. As a result, DSHS requires assistance with pre-permitting, routine inspections, compliant investigations, and foodborne illness investigations involving mobile food vendors operating within Tarrant County.

Under this Interlocal Cooperation Contract, TCPH EHD will provide Mobile Food Inspection Services as assigned by DSHS on a reimbursement basis in an amount not to exceed $536,021.00.

The initial term of the contract is July 1, 2026 through August 31, 2027. DSHS may, at its sole discretion, extend the contract for up to four (4) additional one-year terms.

The District Attorney's Office has reviewed this document as to form.

FISCAL IMPACT

All revenue will be placed in the 22300 Public Health Consumer Health Fund.

9.12 SURVIVABILITY

Expiration or termination of the Contract for any reason does not release Performing Agency from any liability or obligation set forth in the Contract that is expressly stated to survive any such expiration or termination, that by its nature would be intended to be applicable following any such expiration or termination, or that is necessary to fulfill the essential purpose of the Contract, including without limitation the provisions regarding warranty, indemnification, confidentiality, and rights and remedies upon termination.

Compliance by the Performing Agency with Chapter 2260 is a condition precedent to the filing of a contested case proceeding under Chapter 2260.

However, the Performing Agency may suspend performance during the pendency of such claim or dispute if the Performing Agency has complied with all provisions of Section 2251.051, Texas Government Code, and such suspension of performance is expressly applicable and authorized under that law.

9.15 NO IMPLIED WAIVER OF PROVISIONS

The failure to enforce, or any delay in the enforcement of, any privileges, rights, defenses, remedies, or immunities available to the System Agency or the State of Texas under the Contract or under applicable law shall not constitute a waiver of such privileges, rights, defenses, remedies, or immunities or be considered as a basis for estoppel. System Agency does not waive any privileges, rights, defenses, or immunities available to System Agency by entering into the Contract or by its conduct prior to or subsequent to entering into the Contract.

Contractor acknowledges and agrees that the Confidential Information is and shall remain the property of HHS. Contractor agrees it acquires no title or rights to the Confidential Information.

Section 5.02 HHS Commitment and Obligations

HHS will not request Contractor to create, maintain, transmit, use or disclose PHI in any manner that would not be permissible under applicable law if done by HHS.

Section 5.03 HHS Right to Inspection

At any time upon reasonable notice to Contractor, or if HHS determines that Contractor has violated this DUA, HHS, directly or through its agent, will have the right to inspect the facilities, systems, books and records of Contractor to monitor compliance with this DUA. For purposes of this subsection, HHS's agent(s) include, without limitation, the HHS Office of the Inspector General, the Office of the Attorney General of Texas, the State Auditor's Office, outside consultants, legal counsel or other designee.

Docusign Envelope ID: 125B64C2-2005-4F85-A82E-63C3D7EE42D2

Section 5.04 Term; Termination of DUA; Survival

This DUA will be effective on the date on which Contractor executes the Base Contract and will terminate upon termination of the Base Contract and as set forth herein. If the Base Contract is extended, this DUA is extended to run concurrent with the Base Contract.

(A) If HHS determines that Contractor has violated a material term of this DUA; HHS may in its sole discretion:

(1) Exercise any of its rights including but not limited to reports, access and inspection under this DUA and/or the Base Contract; or

(2) Require Contractor to submit to a corrective action plan, including a plan for monitoring and plan for reporting as HHS may determine necessary to maintain compliance with this DUA; or

(3) Provide Contractor with a reasonable period to cure the violation as determined by HHS; or

(4) Terminate the DUA and Base Contract immediately and seek relief in a court of competent jurisdiction in Travis County, Texas.

Before exercising any of these options, HHS will provide written notice to Contractor describing the violation and the action it intends to take.

(B) If neither termination nor cure is feasible, HHS shall report the violation to the applicable regulatory authorities.

(C) The duties of Contractor or its Subcontractor under this DUA survive the expiration or termination of this DUA until all the Confidential Information is Destroyed or returned to HHS, as required by this DUA.

Section 5.05 Injunctive Relief

(A) Contractor acknowledges and agrees that HHS may suffer irreparable injury if Contractor or its Subcontractor fails to comply with any of the terms of this DUA with respect to the Confidential Information or a provision of HIPAA or other laws or regulations applicable to Confidential Information.

(B) Contractor further agrees that monetary damages may be inadequate to compensate HHS for Contractor's or its Subcontractor's failure to comply. Accordingly, Contractor agrees that HHS will, in addition to any other remedies available to it at law or in equity, be entitled to seek injunctive relief without posting a bond and without the necessity of demonstrating actual damages, to enforce the terms of this DUA.

Section 5.06 Indemnification

To the extent permitted by the Texas Constitution, laws and rules, and without waiving any immunities or defenses available to CONTRACTOR as a governmental entity, Contractor shall indemnify, defend and hold harmless HHS and its respective Executive Commissioner, employees, Subcontractors, agents (including other state agencies acting on behalf of HHS) or other members of HHS' Workforce (each of the foregoing hereinafter referred to as "Indemnified Party") against all actual and direct losses suffered by the Indemnified Party and all liability to third parties arising from or in connection with any breach of this DUA or from any acts or omissions related to this DUA by Contractor or its employees, directors, officers,

Docusign Envelope ID: 125B64C2-2005-4F85-A82E-63C3D7EE42D2

Subcontractors, or agents or other members of Contractor's Workforce. The duty to indemnify, defend and hold harmless is independent of the duty to insure. Upon demand, Contractor shall reimburse HHS for any and all losses, liabilities, lost profits, fines, penalties, costs or expenses (including costs of required notices, investigation, and mitigation of a Breach, fines or penalties imposed on an Indemnified Party by a regulatory authority, and reasonable attorneys' fees) which may be imposed upon any Indemnified Party to the extent caused by and which results from the Contractor's failure to meet any of its obligations under this DUA. Contractor's obligation to defend, indemnify and hold harmless any Indemnified Party will survive the expiration or termination of this DUA.

Section 5.07 Insurance

(A) As a governmental entity, CONTRACTOR either maintains commercial insurance or self-insures with policy limits in an amount sufficient to cover CONTRACTOR's liability arising under this DUA. CONTRACTOR will either require that the policy name HHS as an additional insured or assign any payments from the insurer related to CONTRACTOR's liability arising under this DUA directly to HHS. HHSC reserves the right to consider alternative means for CONTRACTOR to satisfy CONTRACTOR's financial responsibility under this DUA. Nothing herein shall relieve CONTRACTOR of its financial obligations set forth in this DUA if CONTRACTOR fails to maintain insurance.

(B) Contractor shall provide HHS with written proof that required insurance coverage is in effect, at the request of HHS.

Section 5.08 Entirety of the Contract

This DUA is incorporated by reference into the Base Contract and, together with the Base Contract, constitutes the entire agreement between the parties. No change, waiver, or discharge of obligations arising under those documents will be valid unless in writing and executed by the party against whom such change, waiver, or discharge is sought to be enforced.

Section 5.09 Automatic Amendment and Interpretation

Upon the effective date of any amendment or issuance of additional regulations to any law applicable to Confidential Information, this DUA will automatically be amended so that the obligations imposed on HHS and/or Contractor remain in compliance with such requirements. Any ambiguity in this DUA will be resolved in favor of a meaning that permits HHS and Contractor to comply with laws applicable to Confidential Information.

Section 5.10 Notices; Requests for Approval

All notices and requests for approval related to this DUA must be directed to the HHS Chief Privacy Officer at privacy@hhsc.state.tx.us.

TARRANT COUNTY
COMMISSIONERS COURT COMMUNICATION

Court Date: June 9, 2026	**Court Order #:** {{customNumber.courtOrder}}	**Page:** 1 of 10
Department: Public Health	**Prepared By:** Gary Collins, Contract Specialist	**Approved By:** Amanda Campbell

SUBJECT:

Consideration of a User Agreement with American Type Culture Collection for Distribution and Use of Centers for Disease Control and Prevention-Developed Reagents and Other Materials

***** CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider a User Agreement with American Type Culture Collection to continue to gain access to reagents and control materials free of charge to be used for influenza surveillance and other activities in support of public health laboratory testing.

BACKGROUND

The North Texas Regional Laboratory (NTRL) at Tarrant County Public Health (TCPH) has been working closely with Centers for Disease Control and Prevention (CDC) for years. In 2008, CDC's Influenza Division contracted with the American Type Culture Collection (ATCC) to implement the Influenza Reagent Resource (IRR). The IRR, funded by CDC, is a biological reagent repository established to provide free access to influenza virus strains and research reagents. The IRR resources are available to public health facilities, research institutions, life science companies and other entities, agencies, and institutions.

Primarily, access to IRR reagents allows NTRL to obtain reagents free of charge for influenza Polymerase Chain Reaction (PCR) testing kits developed by CDC. A previous agreement from 2010 has been in effect, but did not go through the Commissioners Court at the time. If the updated User Agreement expires or ends, NTRL must destroy any remaining IRR materials, unless ATCC requests that materials must be returned to them.

With approval of the updated IRR User Agreement, NTRL can continue to order certain reagents free of charge for influenza testing and obtain other materials that may be important for laboratory response during public health emergencies. The User Agreement will be in effect in perpetuity unless terminated by either ATCC or Tarrant County.

USER AGREEMENT

Version 03-01-2026

The Centers for Disease Control and Prevention (CDC) works year round to improve and enhance international influenza surveillance efforts and to build global laboratory capacity in preparation for a future pandemic. In September 2008, CDC's Influenza Division contracted with The American Type Culture Collection ("ATCC®") to implement the Influenza Reagent Resource (IRR). The IRR, funded by CDC, is a biological reagent repository established to provide free access to influenza virus strains and research reagents. Daily operations of the IRR will be performed by ATCC® under the direction of the Influenza Division at the CDC. The IRR resources are available to public health facilities, research institutions, life science companies and other entities, agencies and institutions. In the past, influenza reagents such as virus strains, World Health Organization (WHO) surveillance reagent kits, real time polymerase chain reaction (RT-PCR) kits, and antisera were produced and distributed by the CDC Influenza Division. Now, reagents will be manufactured and distributed by the IRR to increase the availability and accessibility of influenza viruses and reagents for public health purposes.

A Duly Authorized Signatory for the Recipient is required to sign a User Agreement (UA) with ATCC®. Each IRR registrant is required to sign an Acknowledgement of User Agreement form. The UA is an agreement that governs the transfer of research materials between two organizations and use of the research materials. Except as otherwise provided herein, the UA is not intended to limit the distribution of biological materials for non-commercial research purposes, with the exception of Pandemic Influenza Preparedness Biological Material (PIP Biological Material) (See https://www.who.int/publications/i/item/9789241503082). The UA protects the ability of the CDC and ATCC® to supply free reagents for the benefit of the public health community. The document defines the duties of the recipients and their institutions, including the responsibility to properly handle, use, and dispose of the materials according to applicable laws and regulations and restrictions provided herein. The UA also protects the rights of all parties involved in the exchange of biomaterials from the original depositor of the material to the end-user.

This UA has been approved in advance by CDC. In order to ensure rapid processing of registration and expeditious distribution of reagents, changes to this Agreement are discouraged.

TERMS AND CONDITIONS

This Influenza Reagent Resource ("IRR") User Agreement (this "Agreement") is between the RECIPIENT and the American Type Culture Collection, a not-for-profit organization having its offices at 10801 University Blvd. Manassas, Virginia 20110, in its capacity as contractor to, and at the direction of and as an agent for, the Centers for Disease Control and Prevention ("CDC"), an agency of the U.S. Department of Health and Human Services ("HHS"). The IRR is a U.S. Government-funded program, which is separate and distinct from other programs at ATCC®.

TARRANT COUNTY
COMMISSIONERS COURT COMMUNICATION

Court Date: June 9, 2026	**Court Order #:**	**Page:** 1 of 25
Department: Public Health	**Prepared By:** Gary Collins, Contract Specialist	**Approved By:** Amanda Campbell

SUBJECT:

Consideration of Amendment No. 1 to the Public Health Infrastructure Grant/Laboratory Response Network Contract with the Texas Department of State Health Services to Enhance the Laboratory Management Information System Infrastructure and Data Exchange Capabilities

***** CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider Amendment No. 1 to the Public Health Infrastructure Grant/Laboratory Response Network (PHIG/LRN) Contract, #HHS001593800005, with the Texas Department of State Health Services (DSHS) to enhance Laboratory Management Information System (LIMS) infrastructure and data exchange capabilities in Fiscal Years 2025 – 2027.

BACKGROUND

The North Texas Regional Laboratory (NTRL) at Tarrant County Public Health (TCPH) went live with a Laboratory Information Management System (LIMS) in May of 2019. The current system is called Clinisys Laboratory Solutions (CLS). The system has allowed the laboratory to gain workflow efficiencies and build the foundations for electronic data exchange to report results to submitters, share data internally at TCPH, and with public health partners such as DSHS and the Centers for Disease Control and Prevention (CDC).

This funding opportunity required the preparation of an implementation plan, which included professional services for improving electronic data exchange capabilities. NTRL will increase the number of Electronic Laboratory Reports (ELRs) that are sent to DSHS for notifiable conditions. The same electronic information can also be shared internally to TCPH. Other areas of development will include improvements to existing instrument interfaces as needed and the addition of new ones. Further, the LIMS must be interfaced with the TCPH clinical Electronic Health Records System (EHR) to shorten testing and reporting turnaround times.

On February 4, 2025, the Commissioners Court, through Court Order # 144688, approved submission of a proposed budget and implementation plan for the FY 2025-2027 PHIG/LRN Grant Application to the DSHS for grant funding in the amount of $250,000.00 to enhance the NTRL LIMS infrastructure and data exchange capabilities.

On July 1, 2025, the Commissioners Court, through Court Order # 145414, approved the PHIG/LRN grant agreement for TCPH to receive a total of $250,000.00 in federal funding to support enhancements and expansion of LIMS capabilities. The term of the grant agreement is July 1, 2025, through November 30, 2027.

With approval of Amendment No. 1 to the PHIG LRN Grant Agreement, no additional federal funding is being awarded. TCPH will continue to utilize the existing total award of $250,000.00 to support enhancements and expansion of its Laboratory Information Management System (LIMS) capabilities. Unspent funds from Grant Year 1 have been reallocated to Grant Years 2 and 3 to support project activities. The grant term remains unchanged and continues to run from July 1, 2025, through November 30, 2027. The changes made through this amendment are limited to the reallocation of previously awarded funds, updates to the Scope of Work, revisions to the Budget, and updates to the Contract Affirmations.

The Criminal District Attorney's Office has approved this contract as to form.

FISCAL IMPACT

The existing grant funding remains $250,000.00
This grant does not require a grant match.
Indirect cost is allowed and has been added to the budget.
There is no operating subsidy for this grant.
All associated costs to be paid from Grant-2004 / F0099-2026 / DSHS-Public Health Infrastructure Grant / 5100501000 Health Lab Admin and [F0099-2027 Grant-2004 / F0099-2026 / DSHS-Public Health Infrastructure Grant / 5100501000 Health Lab Admin].

TARRANT COUNTY

COMMISSIONERS COURT COMMUNICATION

Court Date: June 9, 2026	**Court Order #:** {{customNumber.courtOrder}}	**Page:** 1 of 34
Department: Public Health	**Prepared By:** Gary Collins, Contract Specialist	**Approved By:** Amanda Campbell

SUBJECT:

Consideration of Amendment No. 3 to the Public Health Region 2/3 National Syndromic Surveillance Grant Agreement with the Texas Department of State of Health Services to Receive Fiscal Year 2027 Funding for the Tarrant County Public Health North Texas Syndromic Surveillance Program

***** CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider Amendment No. 3 to the Public Health Region (PHR) 2/3 National Syndromic Surveillance Grant Agreement, Contract #HHS001452400001, with the Texas Department of State Health Services (DSHS) to receive FY 2027 funding for the Tarrant County Public Health (TCPH) North Texas Syndromic Surveillance (NTXSS) Program.

BACKGROUND

The TCPH NTXSS Program includes near real-time data on emergency department (ED) visits and emergency medical services (EMS) responses. Hospitals are required to submit syndromic surveillance data to public health under the Centers for Medicare & Medicaid Services (CMS), Promoting Interoperability Program. Syndromic surveillance provides public health officials with a timely system for detecting, understanding, and monitoring health events. By tracking symptoms of patients during ED visits, before a diagnosis is confirmed, public health can detect unusual levels of illness and determine whether a response is warranted. Syndromic surveillance data serves as an early warning system for public health concerns.

This PHR 2/3 National Syndromic Surveillance grant agreement allows TCPH, as part of the NTXSS Program, to submit data to the state syndromic surveillance system, assess and control the quality of the data, recruit new hospitals, maintain the Electronic Surveillance System for the Early Notification of Community-based Epidemics (ESSENCE), and train the users in PHR 2/3 to better use syndromic surveillance for outbreak detection and situational awareness.

I. GRANTEE RESPONSIBILITIES

Grantee will:

A. Provide support to facilities located in the following Texas counties: **Archer, Baylor, Brown, Callahan, Clay, Coleman, Collin, Comanche, Cooke, Cottle, Dallas, Denton, Eastland, Ellis, Erath, Fannin, Fisher, Foard, Grayson, Hardeman, Haskell, Hood, Hunt, Jack, Johnson, Jones, Kaufman, Kent, Knox, Mitchell, Montague, Navarro, Nolan, Palo Pinto, Parker, Rockwall, Runnels, Scurry, Shackelford, Somervell, Stephens, Stonewall, Tarrant, Taylor, Throckmorton, Wichita, Wilbarger, Wise and Young.** Additionally, the Grantee will provide support to the Local Health Departments ("LHDs") in the following cities: **City of Garland and City of Ennis**.

B. Contract with at least two (2) new facilities or LHDs to transmit syndromic data from medical record systems to the North Texas Syndromic Surveillance System ("NTXSS"). The NTXSS hosts the Electronic Surveillance System for Early Notification of Community-Based Epidemics ("ESSENCE®"), a secure system that enables public health agencies to conduct syndromic surveillance and analyze data on a common platform. By adding new facilities in more areas, geographic coverage will increase, which can expand the efficacy of data and information sharing across the NTXSS platform.

   Grantee's syndromic team will submit a copy of the data use agreement(s) ("DUAs") executed by the onboarding entities ("Onboarding Entities' DUAs") to DSHS. The Onboarding Entities' DUAs will document the conditions for sharing confidential information or limited dataset(s) to support public health syndromic surveillance. Grantee will submit these Onboarding Entities' DUAs to DSHS via email by July 31, 2027, to the following email address: syndromic.surveillance@dshs.texas.gov, and to the assigned System Agency Contract Representative.

   The Grantee, in partnership with their NTXSS vendor, will provide technical assistance, including onboard support and guidance on data quality standards, to facilities located in DSHS Public Health Region (PHR) 2/3.

C. Grantee must implement a data quality assurance process following the CDC-developed and published syndromic surveillance messaging guides and submit a Data Quality Report (e.g., tracking spreadsheet for identifying and resolving data quality issues) by July 31, 2027. The Data Quality Report must be submitted to DSHS via email by July 31, 2027, to the following email address: syndromic.surveillance@dshs.texas.gov. The Data Quality Report must include, but is not limited to, the following:

Docusign Envelope ID: CF9E905A-D696-475F-A055-915C78F36ED0

1. If any facility fails to meet a data quality metric, it is listed and identified on the spreadsheet under "Facility Name."
2. The respective data quality metric is filled out (Timeliness, Completeness, Validity).
3. For each noncompliant facility, the Grantee will document a plan for resolution, denote if they have made contact with a point of contact (e.g., IT, the facility), and set a target date for resolution.

D. To foster collaboration, share best practices, and explore enhancements to the ESSENCE® platform, the Grantee must ensure that at least one (1) representative from its syndromic surveillance program attends the bimonthly DSHS Texas Syndromic Surveillance (TxS2) user forum and the InductiveHealth/JHU: Local ESSENCE UserGroup monthly meetings in Fiscal Year (FY) 2027 (defined as August 1, 2026 through July 31, 2027). DSHS will keep attendance records for the bimonthly DSHS TxS2 user forums. The Grantee will participate and present in at least one DSHS-sponsored user forum and submit a list of its representatives who attend the InductiveHealth/JHU: Local ESSENCE User Group monthly meeting to DSHS via email to: syndromic.surveillance@dshs.texas.gov.

E. Ensure that at least one (1) representative from its syndromic surveillance program attends the monthly virtual NSSP Community of Practice calls to gain more insight and understanding from other syndromic surveillance programs on new and emerging methods of supporting and facilitating workforce readiness and development needs. Grantee will submit a list of its representatives that attended any monthly NSSP Community of Practice call ("NSSP Community of Practice Call - Attendance List") to DSHS via email no later than the last business day of each Project FY quarter, to the following email addresses: syndromic.surveillance@dshs.texas.gov and the assigned System Agency Contract Representative.

   Grantee will collaborate with the CDC NSSP team in creating/validating at least one ESSENCE® definition. The Grantee will submit the Jurisdictional Validation form to the following email address: surveillance@dshs.texas.gov by July 31, 2027.

F. Ensure that at least one (1) representative virtually attends the annual CSTE's Syndromic Surveillance Symposium webinar. Grantee will submit a list of representatives who attended the annual webinar ("CSTE's Syndromic Surveillance Symposium - Attendance List") to DSHS via email by July 31, 2027, to the following email addresses: syndromic.surveillance@dshs.texas.gov and the assigned System Agency Contract Representative.

G. Require LHD NTXSS users to participate in each of two (2) webinars hosted by the Grantee that build upon previous training and utilization of the platform. Grantee will conduct these two (2) webinars for LHDs and include the syndromic.surveillance@dshs.texas.gov email address on the webinar invite no later than July 31, 2027. Grantee will require at least one (1) syndromic surveillance contact for each LHD, as identified by the LHD, to attend each

Docusign Envelope ID: CF9E905A-D696-475F-A055-915C78F36ED0

The Webinar Attendance Report must include, but is not limited to, the following information:

1. Attendance sheets for each webinar;
2. Post-training surveys of participants for each webinar to guide the development of further activities (e.g., evaluating knowledge post-training, identifying areas for points of collaboration). Grantee must submit a copy of the post-training survey and attendees' responses to the post-training survey following each webinar; and
3. An action plan addressing any adverse feedback relating to the webinars.

H. In coordination with LHD users in the Tarrant County area and with regional epidemiology meetings conducted by DSHS PHR 2/3 personnel, develop syndrome definitions and monitoring protocols for frequently occurring community health issues.

I. Participate in quarterly meetings with DSHS to review and update contractual obligations, as well as to discuss issues pertaining to the expansion of the state ESSENCE® system. DSHS will record meeting notes for the quarterly meetings.

J. Participate in the development of training materials, guidance, and examples of the benefits of using syndromic surveillance data for new ESSENCE® users.

K. Submit biannual Financial Status Reports ("FSRs"). Grantee's first FSR is due on February 27, 2027, for the period of August 1, 2026, through January 31, 2027. Grantee's second FSR is due on August 31, 2027, for the period of February 1, 2027, through July 31, 2027. Grantee shall electronically submit FSRs to the following email addresses: invoices@dshs.texas.gov; FSRGrants@dshs.texas.gov; and the assigned System Agency Contract Representative.

C. Upon request by System Agency, Grantee shall reasonably revise any performance measure to System Agency's satisfaction and in accordance with the requirements set forth in this Grant Agreement.

IV. INVOICE AND PAYMENT

A. Grantee shall request payments monthly by the last business day of the month following the month in which expenses were incurred and shall use the State of Texas Purchase Voucher (Form B-13 and Form B-13A) located at the following URL: http://www.dshs.texas.gov/grants/forms.shtm. Grantee's final invoice will be due thirty (30) calendar days following the expiration date of the Grant Agreement. Invoices and supporting documentation must be submitted monthly to prevent delays in subsequent months. Grantees that do not incur expenses within a month are required to submit a "zero dollar" invoice on a monthly basis. SECTION 4: KEY GUIDELINES AND CONDITIONS

A. LIMITATIONS: Use of the rate(s) contained in the Agreement is subject to all statutory or administrative limitations and is applicable to a given Federal award or contract only to the extent that funds are available. Acceptance of the rate(s) agreed to herein is predicated upon the following conditions: (1) that no costs other than those incurred by the grantee were included in its indirect cost pool as finally accepted and that such incurred costs are legal obligations of the grantee and allowable under the governing cost principles, (*See* 2 CFR 200, Subpart E); (2) Unallowable costs have been adjusted appropriately when allocating costs identified in the proposal; (3) that the same costs that have been treated as indirect costs have not been claimed as direct costs; (4) that similar types of costs have been accorded consistent treatment; and (5) that the information provided by the grantee which was used as a basis for acceptance of the rate(s) agreed to herein is not subsequently found to be materially inaccurate; (6) that a restricted rate or limit to the indirect cost rate or amount is not required under the enabling statute or by the cognizant federal agency; (7) indirect costs may only be recovered to the extent direct costs were incurred; and (8) the rates cited in this Agreement may be subject to audit. Indirect cost elements and the type of distribution base used in computing the rates are subject to revision when a final rate is negotiated to settle the provisional rate or if unusual circumstances affect the negotiated predetermined rate. In such situations, the rate(s) may be subject to renegotiation at the discretion of the cognizant agency.

B. CHANGES IMPACTING THE INDIRECT COST RATE PROPOSAL: This agreement is based on the organizational structure and the accounting methodology purported by the grantee to be in effect during the Agreement period. Changes which affect the amount of reimbursement resulting from the use of this Agreement require prior approval from the cognizant organization. E. GOVERNMENT COMMISSIONS (REGIONAL PLANNING COMMISSIONS, COUNCILS OF GOVERNMENT, ETC): Title 12 of Texas Local Government Code §391.0115(e) limits your organization's indirect costs to 15% or less of your organization's total expenditures, not including capital expenditures, subcontracts, subawards, and pass-through expense.

SECTION 5: RATE TYPE DEFINITIONS

A. Fixed Carry-forward and Adjustments: A fixed carry-forward rate means an indirect cost rate which has the same characteristics as a predetermined rate, except that the difference between the estimated costs and the actual, allowable costs of the period covered by the rate is carried forward as an adjustment to the rate computation of a subsequent period. When the actual costs for this period are determined, an adjustment will be made to a rate of a future year(s) to compensate for the difference between the costs used to establish the fixed rate and actual costs.

This was an increase of $27,407.00. The term of this agreement was extended through August 31, 2026, and certain attachments were revised.

On November 11, 2025, the Commissioners Court, through Court Order #146258, approved Amendment No. 3 to balance the program budget, which eliminated a position, reduced the lab supply budget from $98,754 to $68,209, and the indirect cost rate was reduced from 15% to 10.72%.

With approval of Amendment No. 4, DSHS will provide FY 2027 grant funding in the amount of $1,518,804.00. The term of this agreement is extended through August 31, 2027, and revises certain attachments.

Grantee shall ensure that all staff conducting field work and designated to disclose the reason s/he is contacting persons (e.g., exposure to someone who tested positive for HIV and wanted to ensure s/he had the ability to be tested, positive test results were received from a provider, laboratory, life insurance company, etc.) complete DSHS-approved training prior to providing such services.

DD. Grantee shall ensure that staff performing under this Contract deliver all reactive test results within the designated timeframes referenced in the DSHS HIV/STD Program POPS. Grantee staff shall ensure the client understands the infection(s) s/he has tested reactive for, is offered appropriate treatment for his/her infection(s) and is linked to other medical and social resources as appropriate (e.g., HIV testing and counseling; Pre-Exposure Prophylaxis (PrEP); doxy PEP; Harm Reduction Services; STD clinical services; partner services; HIV medical and support services; substance use treatment services; and mental health services).

EE. Grantee staff operating under this Contract may be reassigned by DSHS or Grantee to respond to Grantee's rapid response efforts or another PHFU program's response to address and intervene in the transmission of reportable STDs, HIV and/or other infections.

FF. Grantee shall ensure that all persons receiving PHFU (initiated partners, those co-infected with a bacterial STD such as syphilis, gonorrhea, and/or chlamydia, and/or individuals in the social-sexual network of an identified HIV cluster) who have been previously diagnosed with HIV and have no evidence of care for more than twelve (12) months are re-engaged to establish HIV medical services. The activities taken to locate the person must be documented in the designated data system. This includes confirmation that the client attended his/her HIV medical care appointment. All the tasks described in this provision must be completed by a Disease Intervention Specialist (DIS).

GG. For women of childbearing capacity, Grantee shall maintain a procedure to provide technical assistance and guidance for providers and systems of care that ensures testing for syphilis is conducted, at a minimum, at the first prenatal visit, during third trimester, and at delivery as required by Chapter 81, Texas Health and Safety Code, Section 81.090.

HH. Grantee shall ensure that staff attend training identified by DSHS to respond to activities. The training will include planning, implementation and evaluation of rapid response activities.

If the data submitted by Grantee (or otherwise obtained by DSHS) indicates the Grantee's performance does not meet the standards stated in one (1) or more of the objectives, DSHS may (at its sole discretion) require additional measures be taken

Docusign Envelope ID: 3C499A4B-B57E-45F2-9823-4A4052578E5B

by the Grantee to improve performance and Grantee must implement these measures according to a timetable directed by DSHS.

B. **Public Health Follow-Up (PHFU) Program Objectives**

1. For Syphilis Objectives:

   a. Grantee shall ensure that all individuals newly diagnosed with early syphilis are interviewed within seven (7) days of assignment. If data indicates less than 80% of individuals newly diagnosed with early syphilis covered by the scope of this Contract are interviewed as described, DSHS may, at its sole discretion, require additional measures be taken by the Grantee to improve that percentage. In that scenario, Grantee must follow those additional measures and do so according to the timetable mandated by DSHS. "Early syphilis" means all syphilis cases that are determined to be primary, secondary, or early non-primary/non-secondary syphilis. The CDC definition of syphilis is located at: Syphilis, Primary 2018 Case Definition | CDC.

   b. Grantee shall ensure that 70% of individuals newly diagnosed with early syphilis have at least one named partner documented in their case investigation. This includes a partner elicited during an original or reinterview.

   c. Grantee shall ensure that all partners initiated (partners obtained from the interview/case management process with locating information) are notified of the disease exposure. If data indicates less than 0.75 partner notification index for all initiated partners of early syphilis cases, DSHS may, at its sole discretion, require additional measures be taken by the Grantee to improve that percentage. In that scenario, Grantee must follow those additional measures and do so according to the timetable mandated by DSHS.

   d. Grantee shall ensure that all partners notified of early syphilis exposure are tested and treated for syphilis, including incubating syphilis (disease intervention index). If data indicates less than 60% of notified partners are tested and treated as described, DSHS may (at its sole discretion) require additional measures be taken by the Grantee to improve that percentage. In that scenario, Grantee must follow those additional measures and do so according to the timetable mandated by DSHS.

   e. Grantee shall ensure that a treatment index of at least 0.75 is achieved for all interviews conducted on individuals newly diagnosed with early syphilis. If data indicates less than 0.75 treatment index, DSHS may (at its sole discretion) require additional measures be taken by the Grantee to improve that percentage. In that scenario, Grantee must follow those additional measures and do so according to the timetable mandated by DSHS.

   f. Grantee shall ensure that 90% of pregnant women and 85% of women of childbearing capacity with a syphilis morbidity are identified, appropriately followed up with, and treated appropriately more than forty-five (45) days prior to delivery to prevent congenital syphilis as

Docusign Envelope ID: 3C499A4B-B57E-45F2-9823-4A4052578E5B

outlined by DSHS HIV/STD Program POPS, Chapter 23.1.2 and Chapter 23.1.3.

g. Grantee shall ensure that 95% of infants born to a woman with a history of syphilis in their jurisdiction are investigated and reported within thirty (30) days of receiving report of birth as outlined by DSHS HIV/STD Program POPS, Chapter 23.

h. Grantee shall ensure that all women of childbearing capacity identified during public health follow-up activities have a documented pregnancy status. If data suggests that less than 90% of women of childbearing capacity with reactive syphilis labs and less than 80% of notified partners, suspects and contacts of childbearing capacity have a documented pregnancy status, as outlined by DSHS HIV/STD Program POPS Chapter 23.1.1, DSHS may (at its sole discretion) require additional measures be taken by the Grantee to improve that percentage. In that scenario, Grantee must follow those additional measures and do so according to the timetable mandated by DSHS.

2. For HIV Objectives:

a. Grantee shall ensure that all individuals newly diagnosed with HIV are interviewed within seven (7) business days. If data indicates that less than 80% of individuals newly diagnosed with HIV are interviewed as described, DSHS may (at its sole discretion) require additional measures be taken by the Grantee to improve that percentage. In that scenario, Grantee must follow those additional measures and do so according to the timetable mandated by DSHS.

b. Grantee shall ensure that all individuals interviewed who have been newly diagnosed with HIV complete their first HIV medical appointment. If data indicates less than 85% of new HIV-positive clients interviewed complete their first HIV medical appointment, DSHS may (at its sole discretion) require additional measures be taken by the Grantee to improve that percentage. In that scenario, Grantee must follow those additional measures and do so according to the timetable mandated by DSHS.

c. Grantee shall ensure that 70% of individuals newly diagnosed with HIV have at least one named partner documented in their case investigation. This includes a partner elicited during an original or reinterview.

d. Grantee shall ensure that all partners initiated (partners obtained from the interview/case management process with enough locating information to attempt notification) on a new HIV interview are notified of the disease exposure. If data indicates less than 0.75 partner notification index, DSHS may (at its sole discretion) require additional measures be taken by the Grantee to improve that percentage. In that scenario, Grantee must follow those additional measures and do so according to the timetable mandated by DSHS.

Docusign Envelope ID: 3C499A4B-B57E-45F2-9823-4A4052578E5B

TARRANT COUNTY
COMMISSIONERS COURT COMMUNICATION

Court Date: June 9, 2026	**Court Order #:**	**Page:** 1 of 1043
Department: Public Health	**Prepared By:** Gary Collins, Contract Specialist	**Approved By:** Amanda Campbell

SUBJECT:

Consideration of Amendment No. 5 to the Fiscal Year 2022-2026 Grant Agreement with the Texas Health and Human Services Commission for the Tarrant County Public Health Prevention and Early Intervention Community Youth Development Program

***** CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider Amendment No. 5 to the Fiscal Year 2022-2026 Grant Agreement, Contract #HHS0008417005, with the Texas Health and Human Services Commission (HHSC) for the Tarrant County Public Health Prevention and Early Intervention (PEI) Community Youth Development (CYD) program.

BACKGROUND

The CYD Program began in April 1996 to provide support services to youth and their families with the goal of curbing juvenile crime. Grant funding provides assistance to Prevention and Early Intervention (PEI) partners with community-based programs, providing a variety of opportunities to promote positive outcomes for children, youth, and families. Services are provided by sub-awards through reimbursements from the CYD program DFPS grant. The TCPH CYD program provides over-site for these sub-awards.

The Texas Family Code, Section 265.007, authorizes HHSC to award CYD grants to communities with high incidences of juvenile crime. This includes ZIP codes 76106 and 76164 in Tarrant County. The CYD program aligns with the core functions of Public Health by strengthening protective factors, supporting community partnerships, and addressing juvenile delinquency.

On August 17, 2021, the Commissioners Court, through Court Order #136109, approved a Grant Agreement with HHSC for the term of September 1, 2021, through August 31, 2026, with funding not-to-exceed $3,281,250.00 over the term of the contract. In addition, the contract expanded the service area for Tarrant County to include the 76112 and 76119 ZIP codes.

On August 6, 2024, the Commissioners Court, through Court Order #143559, approved NOA No. 2025-01 from DFPS to award Tarrant County $675,000.00 for FY 2025 CYD Program services and the Innovation Grant for Community-Based Child Abuse Prevention (CBCAP). The grant funding period for this award was effective September 1, 2024, through August 31, 2025.

On September 16, 2025, the Commissioners Court, through Court Order #145911, approved NOA No. 2026-01 from DSPS to award Tarrant County $525,000.00 for FY 2026 CYD Program services. The grant funding period for this award was effective September 1, 2025, through August 31, 2026.

With approval of Amendment No. 5, the contract will be updated to reflect a change of agency that occurred by Senate Bill 24, transferring the Community Youth Development program from DFPS to HHSC, requiring the agreement to be amended and restated.

Additionally, this amendment incorporates new HHSC terms, updated program oversight, and administrative changes. Commissioners Court approval is requested to legally authorize Tarrant County's acceptance of the new governing agency, terms, and funding structure.

TEXAS HEALTH AND HUMAN SERVICES GRANT AGREEMENT, CONTRACT NO. HHS000841700005 AMENDMENT NO. 5 AMENDED AND RESTATED CONTRACT

Pursuant to Senate Bill 24 of the 88th Legislature, effective September 1, 2024, the Prevention and Early Intervention Division of the Texas Department of Family and Protective Services ("DFPS") was transferred to the Texas Health and Human Services Commission ("HHSC") and is now Family Support Services ("FSS"). As a result, all grants issued under DFPS Request for Applications (RFA) HHS0008417 moved to HHSC.

Accordingly, the **TEXAS HEALTH AND HUMAN SERVICES COMMISSION** ("System Agency" or "HHSC") and **TARRANT COUNTY** ("Grantee"), collectively referred to herein as the "Parties," now desire to amend and restate HHSC Contract No. HHS000841700005 ("Contract" or "Grant Agreement") for Community Youth Development program services.

I. PURPOSE

The purpose of this Grant Agreement is to implement the Community Youth Development Grant program in the State of Texas.

II. LEGAL AUTHORITY

This Grant Agreement is entered into pursuant to Chapter 137 of the Texas Human Resources Code and U.S. Department of Health and Human Services, Promoting Safe and Stable Families, Title IV-B, Subpart 2 of the Social Security Act.

III. DURATION

This Grant Agreement is effective on September 1, 2021, and expires on August 31, 2026, unless sooner terminated pursuant to the terms and conditions of the Grant Agreement. This Grant Agreement is not renewable.

IV. SCOPE OF GRANT PROJECT

The Statement of Work to which Grantee is bound is incorporated into and made a part of this Grant Agreement for all purposes and included as **ATTACHMENT A**.

The RFA, including all addenda, is incorporated into and made a part of this Grant Agreement for all purposes and included as **ATTACHMENT H, RFA NO. HHS0008417 INCLUDING ALL ADDENDA**.

V. BUDGET AND INDIRECT COST RATE

The total amount of this Grant Agreement will not exceed **THREE MILLION SIX HUNDRED THOUSAND DOLLARS ($3,600,000.00)**. Grantee is not required to provide matching funds.

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

All expenditures under the Grant Agreement will be in accordance with **ATTACHMENT J, BUDGET WORKBOOK**, to the Grant Agreement and may be updated from time to time. The Annual Budget Expenditure Workbook, maintained by HHSC, reflects the approved categorical budget for each State Fiscal Year budget period during the Grant Agreement term. To revise categorical allocations for a budget period, Grantee shall submit request for categorical budget transfers through PEIRS and any HHSC-approved categorical revisions will be reflected in the Annual Budget Expenditure Workbook.

To be reimbursed, all expenditures must be allowable (such as transportation and insurance) under the terms of **ATTACHMENT H, RFA NO. HHS0008417 INCLUDING ALL ADDENDA**, to the Grant Agreement, and grant funds may not be used for costs that are unallowable such as the services, activities, or costs set forth in Section 2.6 (Prohibitions) of **ATTACHMENT H** of the Grant Agreement.

Indirect Cost Rate: The Grantee's acknowledged or approved Indirect Cost Rate (ICR) is contained within **ATTACHMENT J, BUDGET WORKBOOK**, and the Negotiated Indirect Cost Rate Agreement is attached to this Grant Agreement and incorporated as **ATTACHMENT K**. Grantee must have an approved or acknowledged Indirect Cost Rate in order to recover indirect costs.

If the System Agency approves or acknowledges an updated indirect cost rate, the System Agency will issue an updated Notice to Proceed to incorporate the new rate and the Grant Agreement will be amended to incorporate the new indirect cost rate letter, if applicable, and the budget revised accordingly.

VI. NOTICE TO PROCEED

The State Fiscal Year funding amounts are subject to increase or decrease as funds are appropriated throughout the Grant Agreement term from the federal government, Texas Legislature, or both. The HHSC Contract Representative will issue a written Notice to Proceed ("NTP") annually to Grantee on or around July 1 containing the award amount for the upcoming State Fiscal Year (September 1–August 31). HHSC reserves the right to modify the annual award amount at any time during the Grant Agreement term by issuing a written revised NTP to the Grantee. No expenses may be incurred and no work may begin until HHSC issues an NTP to the Grantee. HHSC may send the NTP to the Grantee by regular mail, electronic mail, or facsimile transmission. Grantee will be notified of a change to the availability of funds through the NTP.

Although the NTP may issue a budget amount less than the total not-to-exceed amount of the Grant Agreement, the NTP must not effectuate a total budget of the Grant Agreement that results in a total not-to-exceed Grant Agreement amount that exceeds the amount specified in Section V (Budget and Indirect Cost Rate) of the Grant Agreement. Such changes to the total not-to-exceed amount specified in the Grant Agreement must be effectuated by amendment. Any expenditures made beyond the dollar amounts specified in the NTP(s) will be at Grantee's sole risk.

2.8 NONSUPPLANTING

Grant funds must be used to supplement existing, new or corresponding programming and related activities. Grant funds may not be used to supplant (replace) existing funds that have been appropriated, allocated, or disbursed for the same purpose. System Agency is a state agency whose authority and appropriations are subject to actions of the Texas Legislature. If System Agency becomes subject to a legislative change, revocation of statutory authority, or lack of appropriated funds that would render either System Agency's or Grantee's delivery or performance under the Grant Agreement impossible or unnecessary, the Grant Agreement will be terminated or cancelled and be deemed null and void. In the event of a termination or cancellation under this Section, System Agency will not be liable to Grantee for any damages that are caused or associated with such termination or cancellation, and System Agency will not be required to give prior notice. Additionally, System Agency will not be liable to Grantee for any remaining unpaid funds under this Grant Agreement at time of termination.

3.2 NO DEBT AGAINST THE STATE

This Grant Agreement will not be construed as creating any debt by or on behalf of the State of Texas.

3.4 REFUNDS AND OVERPAYMENTS

A. At its sole discretion, the System Agency may (i) withhold all or part of any payments to Grantee to offset overpayments, unallowable or ineligible costs made to the Grantee, or if any required financial status report(s) is not submitted by the due date(s); or (ii) require Grantee to promptly refund or credit - within thirty (30) calendar days of written notice – to System Agency any funds erroneously paid by System Agency which are not expressly authorized under the Grant Agreement.

B. "Overpayments" as used in this Section include payments (i) made by the System Agency that exceed the maximum allowable rates; (ii) that are not allowed under applicable laws, rules, or regulations; or (iii) that are otherwise inconsistent with this Grant Agreement, including any unapproved expenditures. Grantee understands and agrees that it shall be liable to the System Agency for any costs disallowed pursuant to financial and compliance audit(s) of funds received under this Grant Agreement. criteria for Allowable Costs. Additional federal requirements apply if this Grant Agreement is funded, in whole or in part, with federal funds.

B. System Agency will reimburse Grantee for actual, allowable, and allocable costs incurred by Grantee in performing the Project, provided the costs are sufficiently documented. Grantee must have incurred a cost prior to claiming reimbursement and within the applicable term to be eligible for reimbursement under this Grant Agreement. At its sole discretion, the System Agency will determine whether costs submitted by Grantee are allowable and eligible for reimbursement. The System Agency may take repayment (recoup) from remaining funds available under this Grant Agreement in amounts necessary to fulfill Grantee's repayment obligations. Grantee and all payments received by Grantee under this Grant Agreement are subject to applicable cost principles, audit requirements, and administrative requirements including applicable provisions under 2 CFR 200, 48 CFR Part 31, and TxGMS.

C. OMB Circulars will be applied with the modifications prescribed by TxGMS with effect given to whichever provision imposes the more stringent requirement in the event of a conflict.

4.2 AUDITS AND FINANCIAL STATEMENTS

A. Audits

i. Grantee understands and agrees that Grantee is subject to any and all applicable audit requirements found in state or federal law or regulation or added by this Grant Agreement.

C. Grantee agrees to execute all papers and to perform such other acts as System Agency may deem necessary to secure for System Agency or its designee the rights herein assigned.
D. In the event that Grantee has any rights in and to the Work Product that cannot be assigned to System Agency, Grantee hereby grants to System Agency an exclusive, worldwide, royalty-free, transferable, irrevocable, and perpetual license, with the right to sublicense, to reproduce, distribute, modify, create derivative works of, publicly perform and publicly display, make, have made, use, sell and offer for sale the Work Product and any products developed by practicing such rights.
E. The foregoing does not apply to Incorporated Pre-existing Works or Third Party IP that are incorporated in the Work Product by Grantee. Grantee shall provide System Agency access during normal business hours to all Grantee materials, premises, and computer files containing the Work Product.

6.2 GRANTEE'S PRE-EXISTING WORKS

A. 6.3 THIRD PARTY IP

A. To the extent that any Third Party IP is included or incorporated in the Work Product by Grantee, Grantee hereby grants to System Agency, or shall obtain from the applicable third party for System Agency's benefit, the irrevocable, perpetual, non-exclusive, worldwide, royalty-free right and license, for System Agency's internal business or governmental purposes only, to use, reproduce, display, perform, distribute copies of, and prepare derivative works based upon such Third Party IP and any derivative works thereof embodied in or delivered to System Agency in conjunction with the Work Product, and to authorize others to do any or all of the foregoing.

C. No action taken by System Agency in exercising remedies or imposing sanctions will constitute or operate as a waiver of any other rights or remedies available to System Agency under the Grant Agreement or pursuant to law. Additionally, no action taken by System Agency in exercising remedies or imposing sanctions will constitute or operate as an acceptance, waiver, or cure of Grantee's breach. Unless expressly authorized by System Agency, Grantee may not be entitled to reimbursement for expenses incurred while the Grant Agreement is suspended or after termination.

i. Material Breach

The System Agency may terminate the Grant Agreement, in whole or in part, if the System Agency determines, in its sole discretion, that Grantee has materially breached the Grant Agreement or has failed to adhere to any laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, whether or not such violation prevents or substantially impairs performance of Grantee's duties under the Grant Agreement. Grantee's misrepresentation in any aspect including, but not limited to, of Grantee's Solicitation Application, if any, or Grantee's addition to the SAM exclusion list (identification in SAM as an excluded entity) may also constitute a material breach of the Grant Agreement.

ii. Failure to Maintain Financial Viability

The System Agency may terminate the Grant Agreement if the System Agency, in its sole discretion, determines that Grantee no longer maintains the financial viability required to complete the services and deliverables, or otherwise fully perform its responsibilities under the Grant Agreement.

9.5 INHERENTLY RELIGIOUS ACTIVITIES

Grantee may not use grant funding to engage in inherently religious activities, such as proselytizing, scripture study, or worship. Grantees may engage in inherently religious activities; however, these activities must be separate in time or location from the grant-funded program. Moreover, grantees must not compel program beneficiaries to participate in inherently religious activities. These requirements apply to all grantees, not just faith-based organizations.

B. THIS PARAGRAPH IS NOT INTENDED TO AND WILL NOT BE CONSTRUED TO REQUIRE GRANTEE TO INDEMNIFY OR HOLD HARMLESS THE STATE OR THE SYSTEM AGENCY FOR ANY CLAIMS OR LIABILITIES RESULTING FROM THE NEGLIGENT ACTS OR OMISSIONS OF THE SYSTEM AGENCY OR ITS EMPLOYEES.

C. FOR THE AVOIDANCE OF DOUBT, SYSTEM AGENCY SHALL NOT INDEMNIFY GRANTEE OR ANY OTHER ENTITY UNDER THE GRANT AGREEMENT.

10.2 INTELLECTUAL PROPERTY

GRANTEE SHALL DEFEND, INDEMNIFY, AND HOLD HARMLESS THE SYSTEM AGENCY AND THE STATE OF TEXAS FROM AND AGAINST ANY AND ALL CLAIMS, VIOLATIONS, MISAPPROPRIATIONS, OR INFRINGEMENT OF ANY PATENT, TRADEMARK, COPYRIGHT, TRADE SECRET, OR OTHER INTELLECTUAL PROPERTY RIGHTS AND/OR OTHER INTANGIBLE PROPERTY, PUBLICITY OR PRIVACY RIGHTS, AND/OR IN CONNECTION WITH OR ARISING FROM:

B. THE DEFENSE SHALL BE COORDINATED BY THE GRANTEE WITH THE OFFICE OF THE TEXAS ATTORNEY GENERAL WHEN TEXAS STATE AGENCIES ARE NAMED DEFENDANTS IN ANY LAWSUIT AND GRANTEE MAY NOT AGREE TO ANY SETTLEMENT WITHOUT FIRST OBTAINING THE CONCURRENCE FROM THE OFFICE OF THE TEXAS ATTORNEY GENERAL.

C. GRANTEE SHALL REIMBURSE SYSTEM AGENCY AND THE STATE OF TEXAS FOR ANY CLAIMS, DAMAGES, COSTS, EXPENSES OR OTHER AMOUNTS, INCLUDING, BUT NOT LIMITED TO, ATTORNEYS' FEES AND COURT COSTS, ARISING FROM ANY SUCH CLAIM. IF THE SYSTEM AGENCY DETERMINES THAT A CONFLICT EXISTS BETWEEN ITS INTERESTS AND THOSE OF GRANTEE OR IF SYSTEM AGENCY IS REQUIRED BY APPLICABLE LAW TO SELECT SEPARATE COUNSEL, SYSTEM AGENCY WILL BE PERMITTED TO SELECT SEPARATE COUNSEL AND GRANTEE SHALL PAY ALL REASONABLE COSTS OF SYSTEM AGENCY'S COUNSEL.

Except as otherwise expressly provided, the Grant Agreement may only be amended by a written Amendment executed by both Parties.

ii. Designating the property to which this Policy applies as a "designated area," which must at least comprise all buildings and structures where activities funded under this Grant Agreement are taking place, as well as Grantee owned, leased, or controlled sidewalks, parking lots, walkways, and attached parking structures immediately adjacent to this designated area;
iii. Applying to all employees and visitors in this designated area; and
iv. Providing for or referring its employees to tobacco use cessation services.

B. If Grantee cannot meet these minimum standards, it must obtain a waiver from the System Agency.

11.5 INSURANCE AND BONDS

Unless otherwise specified in this Contract, Grantee shall acquire and maintain, for the duration of this Contract, insurance coverage necessary to ensure proper fulfillment of this Contract and potential liabilities thereunder with financially sound and reputable insurers licensed by the Texas Department of Insurance, in the type and amount customarily carried within the industry as determined by the System Agency. Grantee shall provide evidence of insurance as required under this Contract, including a schedule of coverage or underwriter's schedules establishing to the satisfaction of the System Agency the nature and extent of coverage granted by each such policy, upon request by the System Agency. In the event that any policy is determined by the System Agency to be deficient to comply with the terms of this Contract, Grantee shall secure such additional policies or coverage as the System Agency may reasonably request or that are required by law or regulation. If coverage expires during the term of this Contract, Grantee must produce renewal certificates for each type of coverage. In addition, if required by System Agency, Grantee must obtain and have on file a blanket fidelity bond that indemnifies System Agency against the loss or theft of any grant funds, including applicable matching funds. The fidelity bond must cover the entirety of the grant term and any subsequent renewals. The failure of Grantee to comply with these requirements may subject Grantee to remedial or corrective actions detailed in section 10.1, General Indemnity, above.

These and all other insurance requirements under the Grant apply to both Grantee and its Subcontractors, if any. Grantee is responsible for ensuring its Subcontractors' compliance with all requirements.

11.6 LIMITATION ON AUTHORITY

A. Grantee shall not have any authority to act for or on behalf of the System Agency or the State of Texas except as expressly provided for in the Grant Agreement; no other authority, power, or use is granted or implied. Grantee may not incur any debt, obligation, expense, or liability of any kind on behalf of System Agency or the State of Texas.
B. Grantee may not rely upon implied authority and is not granted authority under the Grant Agreement to:
i. Make public policy on behalf of the System Agency;
ii. Promulgate, amend, or disregard administrative regulations or program policy decisions made by State and federal agencies responsible for administration of a System Agency program; or
iii. Unilaterally communicate or negotiate with any federal or state agency or the Texas Legislature on behalf of the System Agency regarding System Agency programs or

the Grant Agreement. However, upon System Agency request and with reasonable notice from System Agency to the Grantee, the Grantee shall assist the System Agency in communications and negotiations regarding the Work under the Grant Agreement with state and federal governments.

11.7 CHANGE IN LAWS AND COMPLIANCE WITH LAWS

Grantee shall comply with all laws, regulations, requirements, and guidelines applicable to a Grantee providing services and products required by the Grant Agreement to the State of Texas, as these laws, regulations, requirements, and guidelines currently exist and as amended throughout the term of the Grant Agreement. Notwithstanding Section 11.1, Amendments, above, System Agency reserves the right, in its sole discretion, to unilaterally amend the Grant Agreement to incorporate any modifications necessary for System Agency's compliance, as an agency of the State of Texas, with all applicable state and federal laws, regulations, requirements and guidelines.

11.8 SUBCONTRACTORS

Grantee may not subcontract any or all of the Work and/or obligations under the Grant Agreement without prior written approval of the System Agency. Subcontracts, if any, entered into by the Grantee shall be in writing and be subject to the requirements of the Grant Agreement. Should Grantee subcontract any of the services required in the Grant Agreement, Grantee expressly understands and acknowledges System Agency is in no manner liable to any subcontractor(s) of Grantee. In no event shall this provision relieve Grantee of the responsibility for ensuring that the services performed under all subcontracts are rendered in compliance with the Grant Agreement.

11.9 PERMITTING AND LICENSURE

At Grantee's sole expense, Grantee shall procure and maintain for the duration of this Grant Agreement any state, county, city, or federal license, authorization, insurance, waiver, permit, qualification or certification required by statute, ordinance, law, or regulation to be held by Grantee to provide the goods or services required by this Grant Agreement. Grantee shall be responsible for payment of all taxes, assessments, fees, premiums, permits, and licenses required by law. Grantee shall be responsible for payment of any such government obligations not paid by its Subcontractors during performance of this Grant Agreement.

11.10 INDEPENDENT CONTRACTOR

Grantee and Grantee's employees, representatives, agents, Subcontractors, suppliers, and third-party service providers shall serve as independent contractors in providing the services under the Grant Agreement. Neither Grantee nor System Agency is an agent of the other and neither may make any commitments on the other party's behalf. The Grantee is not a "governmental body" solely by virtue of this Grant Agreement or receipt of grant funds under this Grant Agreement. Grantee shall have no claim against System Agency for vacation pay, sick leave, retirement benefits, social security, worker's compensation, health or disability benefits, unemployment insurance benefits, or employee benefits of any kind. The Grant Agreement shall not create any joint venture, partnership, agency, or employment relationship between Grantee and System Agency.

11.11 GOVERNING LAW AND VENUE

The Grant Agreement shall be governed by and construed in accordance with the laws of the State of Texas, without regard to the conflicts of law provisions. The venue of any suit

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

arising under the Grant Agreement is fixed in any court of competent jurisdiction of Travis County, Texas, unless the specific venue is otherwise identified in a statute which directly names or otherwise identifies its applicability to the System Agency.

11.12 SEVERABILITY

If any provision contained in this Grant Agreement is held to be unenforceable by a court of law or equity, such construction will not affect the legality, validity, or enforceability of any other provision or provisions of this Grant Agreement. It is the intent and agreement of the Parties this Grant Agreement shall be deemed amended by modifying such provision to the extent necessary to render it valid, legal and enforceable while preserving its intent or, if such modification is not possible, by substituting another provision that is valid, legal and enforceable and that achieves the same objective. All other provisions of this Grant Agreement will continue in full force and effect.

11.13 SURVIVABILITY

Expiration or termination of the Grant Agreement for any reason does not release Grantee from any liability or obligation set forth in the Grant Agreement that is expressly stated to survive any such expiration or termination, that by its nature would be intended to be applicable following any such expiration or termination, or that is necessary to fulfill the essential purpose of the Grant Agreement, including without limitation the provisions regarding return of grant funds, audit requirements, records retention, public information, warranty, indemnification, confidentiality, and rights and remedies upon termination.

11.14 FORCE MAJEURE

Neither Grantee nor System Agency shall be liable to the other for any delay in, or failure of performance, of any requirement included in the Grant Agreement caused by force majeure. The existence of such causes of delay or failure shall extend the period of performance until after the causes of delay or failure have been removed provided the non-performing party exercises all reasonable due diligence to perform. Force majeure is defined as acts of God, war, fires, explosions, hurricanes, floods, failure of transportation, or other causes that are beyond the reasonable control of either party and that by exercise of due foresight such party could not reasonably have been expected to avoid, and which, by the exercise of all reasonable due diligence, such party is unable to overcome.

11.15 NO IMPLIED WAIVER OF PROVISIONS

The failure of the System Agency to object to or to take affirmative action with respect to any conduct of the Grantee which is in violation or breach of the terms of the Grant Agreement shall not be construed as a waiver of the violation or breach, or of any future violation or breach.

11.16 FUNDING DISCLAIMERS AND LABELING

A. Grantee shall not use System Agency's name or refer to System Agency directly or indirectly in any media appearance, public service announcement, or disclosure relating to this Grant Agreement including any promotional material without first obtaining written consent from System Agency. The foregoing prohibition includes, without limitation, the placement of banners, pop-up ads, or other advertisements promoting Grantee's or a third party's products, services, workshops, trainings, or other commercial offerings on any website portal or internet-based service or software application hosted or managed by Grantee. This does not limit the Grantee's responsibility to comply with obligations related to the Texas Public Information Act or Texas Open Meetings Act.

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

B. In general, no publication (including websites, reports, projects, etc.) may convey System Agency's recognition or endorsement of the Grantee's project without prior written approval from System Agency. Publications funded in part or wholly by HHS grant funding must include a statement that "HHS and neither any of its components operate, control, are responsible for, or necessarily endorse, this publication (including, without limitation, its content, technical infrastructure, and policies, and any services or tools provided)" at HHS's request.

11.17 MEDIA RELEASES

A. Grantee shall not use System Agency's name, logo, or other likeness in any press release, marketing material or other announcement without System Agency's prior written approval. System Agency does not endorse any vendor, commodity, or service. Grantee is not authorized to make or participate in any media releases or public announcements pertaining to this Grant Agreement or the Services to which they relate without System Agency's prior written consent, and then only in accordance with explicit written instruction from System Agency.

B. Grantee may publish, at its sole expense, results of Grantee performance under the Grant Agreement with the System Agency's prior review and approval, which the System Agency may exercise at its sole discretion. Any publication (written, visual, or sound) will acknowledge the support received from the System Agency and any Federal agency, as appropriate.

11.18 PROHIBITION ON NON-COMPETE RESTRICTIONS

Grantee shall not require any employees or Subcontractors to agree to any conditions, such as non-compete clauses or other contractual arrangements, that would limit or restrict such persons or entities from employment or contracting with the State of Texas.

11.19 SOVEREIGN IMMUNITY

Nothing in the Grant Agreement will be construed as a waiver of the System Agency's or the State's sovereign immunity. This Grant Agreement shall not constitute or be construed as a waiver of any of the privileges, rights, defenses, remedies, or immunities available to the System Agency or the State of Texas. The failure to enforce, or any delay in the enforcement, of any privileges, rights, defenses, remedies, or immunities available to the System Agency or the State of Texas under the Grant Agreement or under applicable law shall not constitute a waiver of such privileges, rights, defenses, remedies, or immunities or be considered as a basis for estoppel. System Agency does not waive any privileges, rights, defenses, or immunities available to System Agency by entering into the Grant Agreement or by its conduct prior to or subsequent to entering into the Grant Agreement.

11.20 ENTIRE CONTRACT AND MODIFICATION

The Grant Agreement constitutes the entire agreement of the Parties and is intended as a complete and exclusive statement of the promises, representations, negotiations, discussions, and other agreements that may have been made in connection with the subject matter hereof. Any additional or conflicting terms in any future document incorporated into the Grant Agreement will be harmonized with this Grant Agreement to the extent possible.

11.21 COUNTERPARTS

This Grant Agreement may be executed in any number of counterparts, each of which will be an original, and all such counterparts will together constitute but one and the same Grant Agreement.

Subcontractors, or agents or other members of Contractor's Workforce. The duty to indemnify, defend and hold harmless is independent of the duty to insure. Upon demand, Contractor shall reimburse HHS for any and all losses, liabilities, lost profits, fines, penalties, costs or expenses (including costs of required notices, investigation, and mitigation of a Breach, fines or penalties imposed on an Indemnified Party by a regulatory authority, and reasonable attorneys' fees) which may be imposed upon any Indemnified Party to the extent caused by and which results from the Contractor's failure to meet any of its obligations under this DUA. Contractor's obligation to defend, indemnify and hold harmless any Indemnified Party will survive the expiration or termination of this DUA.

Section 5.07 Insurance

(A) As a governmental entity, CONTRACTOR either maintains commercial insurance or self-insures with policy limits in an amount sufficient to cover CONTRACTOR's liability arising under this DUA. CONTRACTOR will either require that the policy name HHS as an additional insured or assign any payments from the insurer related to CONTRACTOR's liability arising under this DUA directly to HHS. HHSC reserves the right to consider alternative means for CONTRACTOR to satisfy CONTRACTOR's financial responsibility under this DUA. Nothing herein shall relieve CONTRACTOR of its financial obligations set forth in this DUA if CONTRACTOR fails to maintain insurance.

(B) Contractor shall provide HHS with written proof that required insurance coverage is in effect, at the request of HHS.

Section 5.08 Entirety of the Contract

This DUA is incorporated by reference into the Base Contract and, together with the Base Contract, constitutes the entire agreement between the parties. No change, waiver, or discharge of obligations arising under those documents will be valid unless in writing and executed by the party against whom such change, waiver, or discharge is sought to be enforced.

Section 5.09 Automatic Amendment and Interpretation

Upon the effective date of any amendment or issuance of additional regulations to any law applicable to Confidential Information, this DUA will automatically be amended so that the obligations imposed on HHS and/or Contractor remain in compliance with such requirements. Any ambiguity in this DUA will be resolved in favor of a meaning that permits HHS and Contractor to comply with laws applicable to Confidential Information.

Section 5.10 Notices; Requests for Approval

All notices and requests for approval related to this DUA must be directed to the HHS Chief Privacy Officer at privacy@hhsc.state.tx.us.

ARTICLE II. SCOPE OF GRANT AWARD

2.1 PROGRAM BACKGROUND

A. PEI partners with community-based programs and agencies across the state to provide a variety of opportunities to promote positive outcomes for Children, Youth, and Families. These programs are free of charge to the public and participation is voluntary. As part of its array of prevention programming, PEI funds community level CYD programming in communities throughout the state.

B. The CYD Program was established in 1995 with funds authorized by the 74th Legislature to assist communities in alleviating conditions in the family and community that lead to juvenile crime. In 2015, the CYD statute moved to the Texas Family Code from the Texas Human Resources Code without any amendments and is as follows:

> Sec. 265.057. COMMUNITY YOUTH DEVELOPMENT GRANTS. (a) Subject to available funding, the department shall award Community Youth Development grants to communities identified by incidence of crime. The department shall give priority in awarding grants under this section to areas of the state in which there is a high incidence of juvenile crime.
>
> (b) The purpose of a grant under this section is to assist a community in alleviating conditions in the family and community that lead to juvenile crime.

C. The program has expanded over the last 25 years and supports Youth by fostering safe spaces, positive relationships, and structured opportunities to build developmental assets and skills. These supports lead to strengthened connection, engagement, and contribution to their community. PEI has adopted a Positive Youth Development approach for CYD to meet the goal of assisting communities in alleviating conditions in the family and community that lead to juvenile crime. This approach encompasses more than solely providing early intervention or preventing risk behaviors that lead to juvenile crime; it also builds skills, attributes, and developmental assets that are needed to prepare young people to grow into thriving adults.

2.2 GRANT OVERVIEW

2.2.1 Service Delivery Area (SDA)

A. Under this RFA, Applicant may propose one or more ZIP Codes within the same county per Application. CYD is a community focused program, covering one or more ZIP Codes per SDA. The proposed SDA is based upon how the Applicant defines its Community. If Applicant proposes more than one ZIP Code within a county, the Applicant must justify need in each of the proposed ZIP Codes. If Applicant would like to propose services in more than one county, a separate Application must be submitted for each county. Applicant may also choose to submit separate Applications for each ZIP Code.

B. Grantee should propose ZIP Code(s) identified as benefiting from CYD based on data from the Community Maltreatment Risk Maps, as well as the Applicant's Community Strengths and Needs Assessment. The Community Maltreatment Risk Maps are tools that use risk-mapping and geographically-based risk and resiliency models to illustrate the distribution of maltreatment rates in the state by ZIP Code. These maps were designed to identify and allocate resources in communities that may benefit from additional resources.

2.2.2 Available Funding

A. The total amount of funding anticipated annually for the CYD Grant is $8,400,000. DFPS anticipates making twelve (12) to twenty (20) awards. Annual awards per individual Grant may range between $300,000 and $600,000. The estimated minimum award for the five-year Period of Performance is $1,500,000 and the estimated maximum award is $3,000,000. To account for potential increases to available funding, this RFA is valued at up to $52.5 million for the five-year period. DFPS may not fully fund Applications to ensure that funds are available for the broadest possible array of Communities. DFPS will award only one Applicant per ZIP Code(s) for this RFA.

B. Grants awarded from this RFA are on a cost-reimbursement basis. Under the cost-reimbursement method of funding, Grantees are required to finance operations with their own funds. DFPS will reimburse Grantees for actual cash disbursements supported by adequate documentation. DFPS will only reimburse for those actual, allowable, and allocable expenses that occur within the Period of Performance.

C. CYD services are funded with State general revenue and funds from the U.S Department of Health and Human Services, Promoting Safe and Stable Families, Title IV-B, Subpart 2 of the Social Security Act; CFDA 93.556. The exact amount of State or federal funding is determined at the end of each subsequent fiscal year. DFPS will provide the Grantee, in writing, the exact amount of federal or State dollars used to fund the Grant upon written request from the Grantee. DFPS reserves the right to fund this RFA with other state or federal sources during the lifecycle of the Grant. The Grantee will be considered a Sub-Recipient.

D. DFPS reserves the right to increase funding for Grantees through supplemental amendments if PEI identifies additional funds at any time during the Period of Performance. Alternatively, DFPS may reduce awards or cancel a Grant Agreement if funding is decreased during the Period of Performance. Any increase or decrease in number of awards or funding amounts are at DFPS' sole discretion.

2.2.3 Period of Performance

A. The Period of Performance for this Grant is five years and is expected to begin **September 1, 2021** and be effective through **August 31, 2026**.

B. DFPS anticipates that the initial term of any Grant Agreement resulting from this RFA shall be for a period of five (5) years (base term). Following the base term, DFPS, at its sole option, may extend any resulting Grant Agreement for one additional 12-month term to complete a new RFA or transition to a new Grantee.

2.3 ELIGIBLE APPLICANTS

Applicant must be a nonprofit organization as defined by the Texas Business Organization Code, Chapter 22, or a governmental entity.

2.4 PROGRAM OBJECTIVES

A. The goal of CYD is to support Youth by fostering safe spaces, positive relationships, and structured opportunities to build assets and skills. These supports lead to strengthened connections, engagement, and contribution to the community.

B. CYD provides an array of Positive Youth Development program opportunities such as Mentoring, Youth Leadership Development, and Post-High School Readiness in select ZIP Codes. Supports offered under CYD should meet the DFPS goal to increase Protective Factors and Developmental Assets, thus increasing the likelihood of positive outcomes for Youth. Protective Factors in this context are a broad set of characteristics and environmental supports that increase an individual's ability to avoid risks and promote social and emotional competence to thrive in all aspects of life, now and in the future.

   Protective Factors as defined by the Office of Juvenile Justice and Delinquency Prevention (OJJDP) are typically organized into the following domains:

   1. Individual;
   2. Family;
   3. Peer;
   4. School; and
   5. Community.

C. CYD uses a Positive Youth Development Framework
   According to the Interagency Working Group on Youth Programs, "Positive Youth Development is an intentional, pro-social approach that engages Youth within their communities, schools, organizations, peer groups, and families in a manner that is productive and constructive; recognizes, utilizes, and enhances young people's strengths; and promotes positive outcomes for young people by providing opportunities, fostering positive relationships, and furnishing the support needed to build on their leadership strength." A Positive Youth Development (PYD) approach moves beyond solely preventing and removing risk behaviors to understanding the skills, attributes, and developmental assets that are needed to prepare young people to grow into thriving adults. PYD engages Youth as resources to be nurtured, rather than focusing on a problem to be changed.

   Several frameworks have been developed that can help programs easily and effectively incorporate Positive Youth Development into their ongoing work with Youth. Once such framework is the Developmental Assets framework from the Search Institute. The framework, based in research in Youth development, resiliency, and prevention, identifies 40 internal and external assets that have been shown to lead to thriving behaviors in Youth, reduce Youth engagement in risk-behaviors, and increase resiliency.

   Programs under this RFA must be intentionally designed and built to promote the growth of these 40 Developmental Assets in Youth. Applicants should link each Program Component (Required Programming and Ancillary Programming) to one or more of the 40 Developmental Assets.

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

DFPS will award grants to Applicants who agree to utilize CYD to promote Positive Youth Development and build Developmental Assets and other Protective Factors in Youth.

2.5 SCOPE OF WORK

A. The Grantee agrees to adhere to the requirements outlined in Article II Scope of Grant Award in the provision of services to Participants under this Grant.

B. The Applicant should propose programming and collaborative efforts and activities to meet the objectives described in Section 2.4.

2.5.1 Community Strengths and Needs Assessment (CSNA)

The CSNA is an evaluation developed and utilized by the Applicant to identify community strengths, needs, assets, and gaps in available Youth programming to determine the most appropriate priorities and program array for the local CYD program.

A. For the purposes of the CSNA, the term 'Community' refers foremost to the proposed CYD ZIP Code(s), but may also address a larger district, the city or the county.

B. Applicant must complete and submit a CSNA to identify local community needs for strengthening Positive Youth Development.

C. Applicant should develop a prioritized list of recommended programming based on the needs and gaps identified by the community through the CSNA.

D. Applicant should use the list of recommendations provided below to design the CSNA and inform the overall CYD offerings.

E. CSNA Guidelines:

1. Preparing the CSNA:
   a. The CSNA should be focused on supporting Positive Youth Development and promoting Protective Factors of Youth ages 6-17;
   b. Applicant should describe the need for programming for Youth and their Caregivers within the community;
   c. Applicant should recommend opportunities that do not duplicate activities or programming already provided in the proposed ZIP Code(s) through other funding sources;
   d. Applicant should recommend programming and activities to fill gaps in opportunities or complement other programing offered in the proposed ZIP Code(s);
   e. Applicant should articulate the proportion of total Index Youth served that will receive CYD Required Programming (Section 2.5.10.A);
   f. All information gathered in the CSNA should relate to and be analyzed in terms of the issues in the Service Delivery Area that impact Positive Youth Development;

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

g. The CSNA should include information about the Community's attitudes and expectations of its Youth, typically gathered through Community data collection (e.g., focus groups, surveys, and interviews);
h. The CSNA should identify the local assets, strengths, and Protective Factors in place within the Community;
i. The CSNA should be a collaborative effort involving the Local Coalition supporting CYD;
j. The CSNA recommendations must be based on Community input and input from local Youth;
k. YAC Youth must be involved in the development and implementation of the CSNA; and
l. Applicants that do not have a YAC should include community Youth in the first submission of the CSNA and include YAC Youth thereafter;

2. The Grantee must make the CSNA publicly available to interested parties. Examples include: posting on organization's website, presenting results in public forums or local workgroups, and distributing to community stakeholders.
3. Texas Juvenile Justice Department (TJJD) data indicates African American and Hispanic Youth are disproportionately referred to the juvenile justice system. In 2015, African American Youth in Texas were three times more likely to be referred to the juvenile justice system, despite being a third of the population size of their white counterparts. Similarly, Hispanic Youth in Texas are 50% more likely than their white counterparts to be referred to the Juvenile Justice System (2016 – TJJD). Likewise, while the Texas Youth population is nearly split between males and females, nearly three quarters of juvenile justice referrals are for male Youth. (2019 – TJJD).
   The CSNA should identify which Youth in the proposed service area are disproportionately referred to the juvenile justice system and characteristics of Youth that have the potential to be underrepresented in the program. If an Applicant has previously served Youth in a proposed service area, the CSNA should identify characteristics of the population served (race, ethnicity, gender) relative to community Youth characteristics. Using this data, the Applicant should outline plans for Youth recruitment and outreach to reach potentially underrepresented groups and how it will align programming in the **Exhibit D, Project Work Plan**.

4. The CSNA must be updated and submitted every two years per schedule outlined below, with specific dates to be determined or as otherwise determined by DFPS.

Table 2	CSNA Submission Schedule
Timeline	**Action**
With submission of RFA Application	Submit Initial CSNA as Attachment D-1 to Exhibit D, Project Work Plan
Fiscal Year 2022 (Sept. 2021 – August 2022)	Implementation of CSNA Action Plan
Fiscal Year 2023 (Sept. 2022 – August 2023)	CSNA due in Spring 2023
Fiscal Year 2024 (Sept. 2023 – August 2024)	Implementation of CSNA Action Plan

Fiscal Year 2026 (Sept. 2025 – August 2026)	Implementation of CSNA Action Plan

5. If the updated CSNA reveals that any programming or activities no longer meet needs or are redundant due to newly available programming, the Grantee must identify new programming or activities in the Conclusions, Recommendations, and CSNA Action Plan component of the CSNA. If programming continues to be a good match for the community's needs, the Grantee may continue to provide or Subaward for those program opportunities.

F. Essential CSNA Components

PEI requires all the following components to be included in the Applicant's CSNA, as outlined in **Exhibit E, CYD CSNA Tool Kit**:

1. **Title Page** provides the Applicant's name, date, and title.
2. **Introduction** provides background information as to the CSNA's purpose, history, area of focus, timeframe, and any sponsors, supporters, and partners.
3. **Community Description** provides a comprehensive overview of the Community's history, demographics, geographic boundaries, service area, map, and any other key Community data points.
4. **Data Collection Methods** describes how and where the data was collected, including from whom and a description of the instrument(s) or data collection tool questions.
5. **Data Analysis** provides an overview of how the data was analyzed. This overview should be appropriate for the CSNA's audience. For example, "Program Staff analyzed interview notes for common themes."
6. **Results** includes a discussion and illustration of findings and a comparison to county, regional, state, or national level data. This section should be the bulk of the CSNA and should address gaps in programming.
7. **Implications of Findings** includes a discussion of the identified needs, including the prioritization of those needs and how they impact the community.
8. **Conclusions, Recommendations and CSNA Action Plan** includes a recap of the CSNA's purpose, primary findings, and any limitations. This section describes how the results should shape the CYD program array to address issues or facilitate community collaborative efforts to improve the community. Conclusion must include recommendations and the associated CNSA Action Plan. The CSNA Action Plan is a narrative outlining next steps for implementing recommendations from the CSNA to better align future CYD activities and program opportunities with community needs.
9. **References** provides a complete list of references.
10. **Appendices** could include data collection instruments (not data), lists of community partners or sponsors, recruitment materials, maps, data tables, etc.

G. Data Collection methods and Data Sources

1. Applicant should use a variety of methods to collect data for the CSNA. These methods include focus groups, surveys (online, paper, mailed, or telephone), community forums, interviewing key informants, using additional existing data from schools, etc.
2. Applicant should gather information from the community and not just existing CYD Participants and stakeholders.

2.5.2 Logic Model

A Logic Model is a program map. It is a simple, logical illustration of what the program does, why, and how the Applicant will know if the program is successful. There are a wide variety of Logic Model formats, but most have the same key components including: resources or inputs, activities, Outputs, Outcomes, and impact. A good Logic Model demonstrates the Applicant's program Theory of Change in a measurable format.

A. Each Applicant should submit a Logic Model for CYD with the Application.
B. Applicants should update the Logic Model if any component changes such as program activities or resources, or at least annually with annual submission of the **Exhibit D, Project Work Plan**.
C. Applicant may use any Logic Model format. Suggested sources for development of a Logic Model include, but are not limited to:
   1. W.K. Kellogg Foundation, Kellogg Foundation-Logic Model Development Guide
   2. Family Resource Information, Education, and Network Development Service, https://friendsnrc.org/evaluation/logic-models/
   3. The University of Kansas, https://ctb.ku.edu/en/table-of-contents/overview/models-for-community-health-and-development/logic-model-development/main

2.5.3 Eligible Population

A. The eligible population requirements are described below:

   1. Grantee will serve Youth ages 6-17 and their Families who live in or attend public school in the proposed ZIP Code(s) or attend school at a public middle or high school located outside of the proposed ZIP Code(s) that has at least 30% enrollment from the ZIP Code(s.)
   2. The target age range for Youth served is 10 - 17 years. Youth under age 6 are not eligible for CYD. Youth served from ages 6-9 cannot exceed 30% of the Performance Measure for annual unduplicated Index Youth served.

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

3. Youth who turn 18 years old during the school year will be permitted to participate in CYD until meeting program goals or the end of the current fiscal year, provided they were 6-17 years old when first enrolled in CYD.
4. Family members of Index Youth are eligible if the goal of the activity or opportunity involves promoting Positive Youth Development or increasing Protective Factors of Youth.
5. Youth who spend a significant amount of time in an SDA but do not meet the above eligibility criteria. For example, a Youth who spends regular time at a recreation center or with a relative in the Grantee's SDA. This flexible approach allows CYD to reach Youth who consider the Grantee's SDA part of their community and provide them with CYD opportunities. Grantee must provide justification on the PEI enrollment form that Index Youth is eligible under this flexible approach.
6. Youth who are currently on probation are not eligible for the CYD program. A Youth is eligible 12 months post probation. Youth whose cases are pre-adjudicated, informally adjudicated, or whose adjudication has been deferred are eligible to participate in CYD. At a minimum, Grantees must complete the YPQA Basics Training within year one of the Grant. In-person training on the YPQA Basics is highly preferred but may be completed virtually if necessary and justification is provided in **Exhibit D, Project Work Plan**. The Grantee's employees, Subawardee employees, or DFPS pre-approved volunteers who are primarily responsible for delivering the direct service program and related components must be adults 18 years or older.

C. The Applicant should develop, provide, and manage a staffing plan to ensure delivery of competent and robust programming and continuity of programs in the event of a vacancy. The plan should address the following:

2.5.10 Required Programming

A. Required CYD Program Components

Each Grantee must implement the following Youth-focused opportunities: Mentoring, Youth Advisory Committee (YAC), Youth Leadership Development (YLD), and Post-High School Readiness (PHSR).

1. Mentoring

Research affirms the significant positive effects that quality Mentoring relationships have on the developmental outcomes and opportunities for young people. Mentoring takes place between young persons (i.e., mentees) and older or more experienced persons (i.e., mentors) who are acting in a non-professional helping capacity to provide support that benefits one or more areas of the mentee's development. Mentoring must primarily focus on facilitating an ongoing positive relationship between the Youth and a caring adult role model who provides help to the younger person as he or she goes through life. Following the Elements of Effective Practice for Mentoring research from the National Mentoring Partnership, each mentor program should have a Theory of Change that explains how the Mentoring, and the activities that mentors and mentees engage in, will result in the desired outcomes at the Participant and Community level.

The Applicant must have program guidelines for its Mentoring program. These guidelines should include requirements for:

a. Recruitment (mentors and mentees): Description of eligibility requirements; expectations for Mentoring relationship and outcomes; target audience for recruitment, and; methods of recruitment.
b. Screening: Description of application and interview process; criteria for accepting or disqualifying applicants; assessing safety and suitability for Youth; comprehensive background check; references check; written agreement with expectations for length of relationship and frequency of meeting.
c. Training: Description of required number of training hours and mode of training to be used. Training content must include:
    i. allowable contact between a mentor and mentee (e.g., only at school or in community);
    ii. a definition of Mentoring;
    iii. the role of a mentor and a mentee;
    iv. guidelines for any financial transactions to include gifts;
    v. sources of assistance available to support mentors;

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

vi. initiation and termination or closure of mentoring relationship;

vii. warning signs and problem solving for certain mentee behaviors or crises (e.g., self-harm, suicidal ideation, aggression, etc.);

viii. risk management policies (appropriate physical contact, safety, transportation of mentees, mandatory reporting requirements, confidentiality and anonymity, money, photos and social media use, emergency procedures, etc.); and

ix. expectations for the frequency of connecting and length relationship for both the mentor and mentee.

d. Matching and Initiating Mentor Relationship: Description of matching process should consider characteristics of mentor and mentee; Program staff member present for initial in-person meeting between the mentor and mentee to sign commitment agreement consenting to the Applicant's rules and requirements (e.g., frequency, intensity and duration of match meetings, roles of each person involved in the mentoring relationship, frequency of contact with program staff), and risk management policies; Parental notification and consent process.

e. Monitoring and Support: Description of supervision, support, and feedback provided to mentors; program staff follow up with mentor and mentee after meeting; regularly assess fitness of match; program staff provides mentors with access to relevant community resources for Youth and referral agencies.

f. Relationship closure: Description of procedure to manage, document, and notify Participants of anticipated and unanticipated closures; program conducts exit interview with mentors and mentees; program has a written policy and procedure for managing re-matching; review of program rules for post-closure contact.

g. Additional mentor program requirements and restrictions:

i. Peer mentoring and family mentoring programs do NOT satisfy this requirement.

ii. Mentoring must be conducted in individual or small group settings. The ratio of Mentoring for group settings should be no greater than four Youth to one mentor.

iii. Most Mentoring should be in person, Grantee must provide justification for any virtual programming.

2. Youth Advisory Committee (YAC):

The YAC is an advisory body of young leaders currently participating the CYD program.

a. The goal of the YAC is to promote the voice and choice of a consistent group of young leaders through structured, monthly, Youth-led meetings.

b. The YAC will provide input, give feedback, and participate in decision-making to help shape their local CYD program, as well as assess and address the needs of their Community by planning and implementing meaningful service learning projects.

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

c. The YAC must include 10-20 Youth, comprised of both middle- and high-school Youth between the ages of 13 and 17.

d. The YAC must meet monthly, at a minimum, and must have between 10 and 20 Youth in attendance at each meeting, with the expectation that Youth are consistently attending and participating in YAC meetings. Typically, at least an hour per monthly meeting is needed to accomplish the goals of the YAC.

e. Applicant should indicate the types of locations where meetings will take place and how they will ensure the safety of Youth at the location, as well as ensure transportation to and from the meetings and address any barriers to recruitment or consistent participation and engagement.

f. YAC Youth must be engaged in outreach and awareness efforts and involved in the development and implementation of the CSNA for CYD:

   i. Outreach and Awareness – YAC Youth must be involved in promoting the CYD programming within their Communities to engage additional Youth into CYD. This could include, but is not limited to, engaging YAC members in planning and implementation of program recruitment strategy, conducting outreach and awareness activities, and developing marketing materials.

   ii. Active Participation related to CSNA – YAC Youth must be involved in the development and implementation of the CSNA. Youth must be involved in collecting feedback from local Youth, including CYD Participants, about needs for CYD programs and activities, and the impact of CYD on Positive Youth Development.

g. YAC Youth must receive Youth Leadership Development (YLD) in addition to participating on the YAC.

h. To ensure YAC goals for Youth safety, engagement, participation, leadership skill and community building are met, each CYD program must have a dedicated staff member as the YAC Coordinator.

i. The YAC is intended to be a singular advisory body. If grantee chooses to facilitate two or more independent YAC groups that meet separately, a monthly opportunity must be provided for all YAC members to meet as a singular advisory body.

j. Selected YAC Youth must participate in the annual CYD Youth Summit. Pending available funding, typically 6 Youth (3 male, 3 female) will be chosen from each contract, with 1 chaperone per 3 Youth. YAC Coordinator must attend as one of the chaperones and provide any needed support to Youth while at Youth Summit or needed by the Youth Summit coordinating body. The Youth Summit is intended to strengthen local YAC and develop leadership skills, while

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

networking with other YAC Youth from across the state. YAC Youth participation will be at the discretion of the CYD Youth Summit grantee.

3. Youth Leadership Development (YLD)

Youth Leadership Development is part of the Youth development process and supports young people in developing: the ability to analyze their own strengths and weaknesses, set personal and vocational goals, and have the self-esteem, confidence, motivation, and abilities to carry them out (including the ability to establish support networks in order to fully participate in Community life and effect positive social change); and the ability to guide or direct others on a course of action, influence the opinions and behaviors of others, and serve as a role model. The YLD program component must view Youth as resources and build on their strengths and capabilities to develop within their own community

a. The YLD program component should be intentionally designed as a multi-week experience that provides participants a comprehensive understanding of leadership history, philosophies, attitudes, and skills and that allows opportunities for hands-on application and practice.
b. To meet the requirements of YLD, each program must contain all three of the following elements:

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

Table 3	YLD Elements
Element	**Element Description**
1. Leadership Knowledge	An examination of leadership history, leadership philosophies, key leadership characteristics, and leadership styles. This element may include self-assessments, activities focused on developing a personal leadership philosophy, leadership case studies, book clubs featuring specific leaders or leadership practices, etc.
2. Leadership Skill Building	The opportunity to learn about and practice key leadership skills in a safe, supportive environment. This element should include leadership skill activities, practice, and reflection. Leadership skills might include, but are not limited to: teambuilding, communication, conflict resolution, goal-setting, responsible decision making, problem solving, embracing diversity, time management, creative thinking, project planning.
3. Leadership in Action	Putting leadership skills into action through real-life application. This might include Youth-led projects, service learning opportunities, other project-based learning opportunities, etc.
(Adapted from ***Designing Student Leadership Programs: Transforming the Leadership Potential of Youth*** by Mariam G. MacGregor)	

c. YLD programs should be created with a Scope and Sequence that provide opportunities for Youth to engage in all three of the above elements over the course of the program cycle, however that is defined by the Applicant (3 months, 6 months, 12 months, etc.) A general Scope and Sequence for a multi-week program must be mapped out before the YLD program begins that identifies which YLD elements are being addressed each week of the YLD program cycle. Please refer to **Exhibit G, YLD Scope and Sequence** for a template and example Scope and Sequence of a multi-week YLD program incorporating all three YLD elements. Applicant should include YLD Scope and Sequence in **Exhibit D, Project Work Plan**.
d. If a program does not contain each of the elements listed above over the course of the program cycle, it does not meet the criteria of YLD and should be recorded in PEIRS as 'Curriculum-Based Life Skills' or 'Life Skills Non-Curriculum.'
e. Grantee must offer YLD to Youth at least one time per calendar month.
f. The YAC group alone does not satisfy the requirement for a Youth Leadership Development program. While all YAC participants must participate in YLD, the Grantee must offer a YLD program that is separate and distinct from the YAC with the capacity to serve additional Youth.

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

4. Post-High School Readiness (PHSR)

   a. Post-High School Readiness refers broadly to preparing young people for their transition from school to the multiple pathways after high school graduation, equipping Youth with the experiences and skills necessary to successfully manage the responsibilities required upon entering college, career, and workplace environments. Readiness is achieved by acquiring the learning competencies, intellectual capacities and experiences essential for all students to become lifelong learners; positive contributors to their families, workplaces and communities, as well as to become successfully-engaged citizens of a global 21st century.

   b. Examples of Post-High School Readiness include, but are not limited, to:

      i. Career exploration and workforce readiness:
      Provide a realistic view of work along with necessary skills and workplace ethics to successfully maintain employment. Activities to promote career planning and acquisition of workplace skills, including vocational training and academic planning specific to career goals. Assessment and planning integrates school experiences (coursework, extracurricular activities and vocational or career assessments) with community experiences (volunteer work, regular employment, job shadowing, and job fairs) toward career objectives. Other activities include: job search assistance, interviewing skills training, assistance with disability-related accommodations, and job-finding training (including résumé preparation, information on non-traditional career opportunities, and job application completion.)

      ii. College readiness:
      Provides the level of preparation needed for young people to enroll and succeed in postsecondary education. Activities offered should promote college planning skills in young people, which may include awareness of and preparation for school applications, pre-requisite testing, scholarship application and financial planning, college campus culture, intellectual norms in the academic environment, decision-making and assessing risky behavior, and expectations for engagement. Other activities could include college campus visits, test preparation, discussing expectations with current college students, and scholarship search assistance.

      iii. Curriculum-based life skills:
      Provide Youth activities that are based upon a written curriculum for individual skills development including, but not limited to, communication, self-control, anger management, problem solving, adapting to change, choosing friends wisely, healthy relationships, and independent living. Activities offered should promote healthy decision-making, goal-setting, budget planning and financial literacy, healthy eating and nutrition, digital and civic literacy, healthy living and wellness, and self-advocacy.

      iv. Life Skills Non-Curriculum:
      Provide Youth with social, personal, and vocational skills and opportunities to help them achieve economic success, avoid involvement in criminal activity, and increase social competencies, e.g., conflict resolution, anger

management, healthy relationships, career exploration, and interviewing skills.

B. Ancillary CYD Program Components

Ancillary programming is optional and selected by the Applicant to complement the CYD program. CYD programming must promote Protective Factors in Youth and are based on the funding priorities identified in the CSNA.

Examples of ancillary CYD programming include:

1. Youth-based curriculum class: Activities provided to Youth that are based upon a written curriculum.
2. Family-Based Curriculum Class: Provided to the registered Index Youth or Caregiver along with their Family member(s.) These services are part of a specific written curriculum, e.g., family skills building, family effectiveness training, etc. These family programs encourage family unity, communication, improved decision-making skills and reduce family conflict.
3. Family focused activity: Activity based, involve the Youth and at least one other Family member, and are not part of a written curriculum or counseling.
4. Sports and Movement: Rewarding, challenging, and age-appropriate activities provided to Youth in a safe, structured, and positive environment, with the intent of promoting Positive Youth Development by way of a socializing effect through which Youth develop positive qualities. Examples may include organized sports or athletic activity, personal fitness, dance or movement. Boxing is not allowed.
5. Arts and Cultural Enrichment: Programming to increase awareness, explore skill building, as well as develop and express creativity through developmentally-appropriate activities involving visual or performance arts, culture, culinary arts, creative writing, digital arts, crafts or music.
6. Academic Support: Designed to increase Youth engagement in the learning process, improved academic performance, Science, Technology, Engineering and Math (STEM) skill development, and bonding to the school (e.g., cooperative learning techniques," experiential learning" strategies, tutoring and basic skill building).
7. Service Planning and Coordination: A strength-based approach that helps Youth assess their individual and developmental needs, identify available resources, and set goals to achieve specific desired outcomes leading to a healthy sense of self-reliance and interdependence with their community. Identifiable strengths and resources include family, cultural, spiritual, and other types of social and community-based assets and networks.

C. Family and Primary Caregiver Engagement Requirements:

1. Family engagement is associated with improved program outcomes. Parental involvement increases Youth participation in after-school programs, influences constructive Caregiver involvement in the home, and increases Protective Factors. Furthermore, father-figure involvement is linked to decreased drug use and decreased delinquent behavior.

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

2. Applicant must demonstrate a commitment to the meaningful involvement of Families and Primary Caregivers in CYD. There are several options to engage Families and Caregivers, with the intent to bring Youth and Families or Caregivers together in a meaningful way. The strategies that work best will depend on the dynamics of the Community served. Strategies may include Primary Caregiver leadership opportunities (volunteering at Youth-led events, participating alongside Youth on the local coalition, etc.), collaborative Parent Café or Youth Café events, family service learning, family nights, and many other strategies. Some ideas for Family or Primary Caregiver engagement can be found at:

   https://cdn.ymaws.com/nafsce.org/resource/resmgr/Toolkits/Boston_Engaging_Families_Out.pdf.
3. Applicants must outline a plan for Family and Caregiver engagement in **Exhibit D, Project Work Plan**, outlining anticipated strategies and timelines for implementation.
4. At a minimum, one Family or Primary Caregiver event should be held each month of the fiscal year.
5. All Family or Primary Caregiver events will be recorded in PEIRS under 'Events.'
6. Activities or workshops serving only the Primary Caregiver such as parenting training or parenting skills classes, counseling, or stand-alone Parent Cafés will not fulfill the Family and Primary Caregiver engagement requirement of this RFA. If these services are identified as a need in a specific community, the Applicant should work in conjunction with their local Family And Youth Success (FAYS) grantee as a resource and referral for these services.
7. Grantee may hold Family-inclusive opportunities that allow Index Youth and Caregivers to come together for a portion of the activity and split into Caregiver- and Youth-specific groups engage in deeper learning, if appropriate.

D. Additional Program Requirements

1. Focus on Out-of-School Time Programming
   a. Under this grant, most of the programming during the school year should be offered during Out-of-School Time hours. This includes before school, afterschool, evenings and weekends. Programming that takes place while Youth are on summer break or other school breaks will vary by community and should align with programming gaps and Community needs.
   b. There are greater opportunities for Youth to be left unsupervised during Out-of-School Time hours, which increase the opportunities for Youth to engage in risky behaviors such as substance abuse or juvenile crime (McCombs, Whitaker, & Yoo, 2017[1].) According to a 2019 report released by the Council For A Strong America, the majority of juvenile crime in Texas occurs between the hours of 2:00PM and 6:00PM. It benefits both Youth and their Communities to ensure Youth have access to enriching programming, safe spaces, and caring adults during Out-of-School Time hours. Programming during Out-of-School Time not only reduces the likelihood Youth will engage in risky behaviors, but

also promotes increased academic performance, school connectedness, positive identity development, social-emotional skill development, physical and mental health, and civic development (Mahoney, Vandell, Simpkins, & Zarrett, 2009[2].)

2. Each CYD program should provide opportunities for Youth to increase developmental assets through participation. Each proposed program component (required and ancillary) should directly link to one or more of the Search Institute's identified 40 Developmental Assets:
   a. External Assets
      i. Support
         a. Family support

         a. Creative activities
         b. Youth programs
         c. Religious community
         d. Time at home

3. Grantee must ensure that Youth are not denied or delayed services due to a wait list. The Grantee must have referral policies and procedures in place that provide alternative service options either through the Grantee or through other community resources when the Grantee is at capacity.
4. Applicant should offer programming that reflect a mix of intensive activities that serve a limited number of Youth (e.g. one on one Mentoring) with lower intensity activities that serve a higher number of Youth (e.g. group recreation).
5. Grantee must provide programming or activities each month of the fiscal year, including during the summer months. Programming for summer months may be offered through a Sub Awardee if needed.
6. Youth may not participate solely in one-time activities. If one-time activities are planned, they should be an added value for Youth already participating in other CYD services or for outreach and recruitments purposes and cannot be a stand-alone service.

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

7. Applicant must submit documentation of evidence-base, research or information on each proposed program with a curriculum by completing the **Exhibit H, PEI Evidence-Based Program Ranking Tool.** Grantee may not provide programming with empirical evidence or theoretical basis indicating that the practice constitutes a risk of harm to those receiving it.
8. Grantee must ensure services are easily accessible to Youth. Applicant must offer programming at times and places that meet the needs of local Youth. In addition, the Grantee must address any Youth transportation barriers or needs, and coordinate or provide transportation of Youth to participate in CYD activities. Transportation costs are reimbursable under this RFA.
9. Grantee must outline educational benefits of any planned field trips and how the field trips align with the goals of CYD in their Project Work Plan. Field trips must not expose the Participants to any unnecessary safety risks. Grantees are responsible for securing any necessary permission from Participant Caregivers related to travel or field trips.
10. Services are intended to be face-to-face in person. DFPS requires justification for any proposed virtual services.

2.5.11 Recruitment and Outreach

A. Applicants should develop outreach plans and strategies to connect to eligible Youth. In addition to standard means of program outreach and marketing, such as Program Staff giving out brochures, utilizing social media, and sharing program information at events, outreach to eligible Families within the community should involve innovative and targeted approaches. Innovative means could include, but are not limited to, use of Youth or alumni to distribute program material and hosting community awareness seminars.

B. Applicants should propose how they will alleviate barriers to engagement and participation. Outreach and retention plans should include consideration of Community context and information gathered from the CSNA such as Youth with the potential to be underrepresented in programming such as young men or Youth of color. The Applicant should elaborate on the proposed incentives, how they were chosen, and how they will benefit the Participants and CYD. For information on effective incentive types and strategies, please consult the field guide and webinar slides available here: http://www.buildingbetterprograms.org/2016/12/14/using-incentives-in-human-services-field-guide-literature-review-and-webinar/.

C. Grantee must add their services to their Region's 2-1-1 Area Information Center and must update their information appropriately within 30 days of any changes in the scope of their program. Subawardee information should also be available on the Texas 2-1-1 website.

2.5.12 Service Authorization and Enrollment

Grantee must have an enrollment process to include completion of the PEI enrollment form, which includes service authorization and Primary Caregiver's signed consent to participate, a review of eligibility criteria, and any additional surveys and assessments as required by PEI. Grantee is required to complete all fields of program forms in their entirety, including any social security number fields. If a participant refuses to provide their social security number

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

or any other required fields, Grantee must document refusal on the form. The expectation is that Grantees make a good faith effort to obtain social security numbers and other information listed on the program form. Items with an asterisk on program forms are required fields in the database; however, the expectation is that the form is completed thoroughly. Primary Caregivers must sign program forms giving consent for services prior to the provision of services. Applicant must document their enrollment process in **Exhibit D, Project Work Plan.**

2.5.13 Annual Data Authorization

Grantee must obtain a new data authorization form for each Participant either each fiscal year or program year after beginning services, or on each one-year anniversary of enrollment in the program, for as long as they continue to receive services.

2.5.14 Close of Program Participation

Grantee must have a closure process to include collection of any required surveys and documenting any additional referrals. Grantee must document closure through the discharge form and in the PEIRS database or other data reporting tools. Youth who have not received services in over 90 days should be discharged from the program.

2.5.15 Required Record Keeping

Participant case records and Grantee service documentation must be maintained by Grantee in order maintain details of services requested by DFPS and to support programming efforts and improvements.

A. Applicant will track all CYD activities provided in accordance with the Applicant's approved **Exhibit D, Project Work Plan**.
B. Applicant must ensure that all service documentation is complete, accurate, and maintained in an organized fashion.
C. Applicant must maintain records in a manner which protects the confidentiality of the Families being served.
D. The Applicant must maintain individual Participant records.
E. The Applicant must ensure compliance with all record keeping requirements stated in this document.
F. All records must be maintained in a central location and made available and accessible to DFPS without limitations.
G. Records may be maintained electronically; however, Applicant must be able to promptly produce an easily-legible hard copy of any records, if requested by DFPS. Any records maintained electronically must be able to be produced in a portable format such as a Comma Separated Values (CSV) file.
H. Referrals Tracking

    1. Grantee must develop and maintain a tracking system to record Participants referred to the Grantee for CYD. Documentation must include:
        a. Date of Referral;
        b. Origin of the Referral;
        c. Participant eligibility for services; and

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

d. Date Participant began program.

2. Grantee must also track reasons that services were not provided or that a Participant did not engage in the program or was determined to be ineligible.

I. Participant Case Record and Service Documentation

1. Grantee must maintain the following forms in the Participant record:

a. Enrollment form;

b. Annual Data Authorization form;

c. Required PEI assessments and surveys;

d. Assessments and surveys required by agency and Program Model (if applicable);

e. Service activity documentation; and

f. Service referrals.

2.5.16 Surveys

A. Prior to service delivery, the Grantee will provide a pre-service survey to the Youth. The survey may be provided either shortly before or at the beginning of services. Grantee must enter the survey data into the PEIRS database within the required data entry timeframe.

2.5.17 Community and Systems Support Requirements

A. Local Coalition Overview

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

1. Grantee must create or participate in an existing community-based collaborative, coalition, committee or group. The Local Coalition may be exclusively focused on CYD services, or it may have a broader Community mission with CYD as one focus area. It is up to the Applicant to choose the structure that will best meet the needs of the community.
2. While a Local Coalition may have many goals, Youth must be actively involved in collaborative leadership and decision-making. Youth should assume shared responsibility with appropriate levels of support and should carry out Youth-initiated activities. The Applicant should reference Hart's Ladder of Participation for more information. Examples may include: Youth research locations for a community event and present to the group for shared decision-making, Youth develop a new program flyer and present to coalition for input, Youth are responsible for sharing YAC activities in the last quarter, Youth co-lead or lead coalition.

B. Local Coalition Goals:
   1. Review and assist with the CSNA to determine program gaps and opportunities to meet the needs of the Community and avoid duplication of existing services.
   2. Determine how to integrate and promote CYD into the Community. Examples may include: outreach events, community events, utilizing existing resources, identifying external funding sources, and connecting to community stakeholders and other existing family support systems.
   3. Encourage collaboration among area agencies to provide an integrated means of identifying barriers to program delivery and finding solutions to these barriers, providing a diverse menu of resources to meet a range of Youth and family needs. Examples of barriers may include: transportation, basic needs, child care for younger siblings of Participants or when there is a programming need, recruitment, retention or timing and location of programming.
   4. Work collectively to promote Positive Youth Development in the Community. Examples may include: participation in community-wide prevention and awareness efforts such as local Youth mental health, healthy relationships, substance abuse, human trafficking, and Youth safety.
   5. Include diverse social service agency representatives such as Texas Juvenile Justice Division (TJJD), Child Protective Services (CPS), CYD Grantees, other PEI and DFPS Grantees who are serving the same geographic area as the Grantee, local school representatives, community resource and collaboration group (CRCG) members, mental and physical healthcare service providers, law enforcement, as well as area residents and service recipients, businesses, the faith-based community, community leaders and Youth. A local coalition does not consist of CYD Grantees alone.

C. Other Local Coalition Requirements

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

Updates about the Local Coalition activities must be submitted to PEI in the quarterly reports including participation by active members and how coalition efforts are responding to the ongoing needs of CYD services.
2. Applicant should include a proposed collaboration plan in the Application that includes a list of entities that will participate in the Local Coalition.

4. The Applicant should choose a name that best fits the Local Coalition.

To learn more about the FAYS program in your community visit the Help and Hope website: http://www.helpandhope.org/.

C. Through partnership and awareness of other Grantees' service array, Applicant will avoid duplication of services and create a continuum of services in the community. Grantee must try to avoid duplication of any existing State or federal programs. To learn more about other PEI Grantees in your community visit: https://www.dfps.state.tx.us/Prevention_and_Early_Intervention/About_Prevention_and_Early_Intervention/programs.asp

A. FUNDING AVAILABILITY.

1. This Contract is contingent upon the continued availability of funding. If funds become unavailable through the lack of appropriations, legislative or executive budget cuts, amendment of the Appropriations Act, state agency consolidation or any other disruptions of current appropriations, DFPS will reduce or terminate this Contract.
2. DFPS is prohibited from incurring obligations in excess of amounts lawfully appropriated by the Texas Legislature over the course of a biennium.

B. PROMPT PAYMENT.

DFPS will pay Grantee according to the Prompt Payment Act, Texas Government Code Chapter 2251, unless the terms of a federal contract, grant, regulation, or statute prevent the DFPS from making a timely payment with federal funds.

C. TRAVEL EXPENSES.

Travel expenses authorized by this Contract will be reimbursed according to the rates set by the State of Texas TexTravel (or its successor) program. Furthermore, DFPS reserves the right to reimburse at a rate equal to the rate DFPS employees receive even if the rates set by the State of Texas TexTravel are higher.

D. NO DEBT AGAINST THE STATE.

For Grantees that are not governmental entities, this Contract will not be construed as creating any debt by or on behalf of the State of Texas.

E. DEBT TO STATE.

If a law prohibits the Texas Comptroller of Public Accounts from making a payment, the Grantee acknowledges that DFPS' payments under the Contract will be applied toward eliminating the Grantee's debt or delinquency, regardless of when it arises.

F. RECAPTURE OF FUNDS.

Grantee agrees that:

1. DFPS will withhold all or part of any payments to Grantee to offset overpayments made to Grantee. Overpayments, as used in this Section, include payments made by DFPS that exceed the maximum allowable rates, not allowed under applicable laws, rules, or regulations or that are otherwise inconsistent with this Contract, including any unapproved expenditures;

3. Reimbursement of such disallowed costs will be paid by Grantee from funds which were not provided or otherwise made available to Grantee under this Contract or from a source of federal funds derived from programs administered by DFPS or the State of Texas.

G. FINANCIAL REMEDIES.

In addition to any other remedy under law, DFPS reserves the right to implement financial remedies based on monitoring or audit findings related to violations of this Contract's requirements including recovery of all actual damages DFPS accrues as a result of a Grantee's noncompliance. As applicable to this Contract, additional financial remedies or liquidated damages may be provided for in this Contract's Supplemental and Special Conditions.

H. ALLOWABLE COSTS.

DFPS will reimburse the allowable costs incurred in performing the Contract that are sufficiently documented. Grantee must have incurred a cost prior to claiming reimbursement and within the applicable term to be eligible for reimbursement under this Contract. DFPS will determine whether costs submitted by Grantee are allowable and eligible for reimbursement. If DFPS has paid funds to Grantee for unallowable or ineligible costs, DFPS will notify Grantee in writing, and Grantee shall return the funds to DFPS within 30 calendar days of the date of this written notice. DFPS will withhold all or part of any payments to Grantee to offset reimbursement for any unallowable or ineligible expenditure that Grantee has not refunded to DFPS, or if financial status report(s) required under the Financial Status Reports section are not submitted by the due date(s). DFPS will take repayment (recoup) from funds available under this Contract in amounts necessary to fulfill Grantee's repayment obligations. COMMUNITY YOUTH DEVELOPMENT

Community Strengths and Needs Assessment Toolkit and Data Sources

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

INTRODUCTION

The Texas Department of Family and Protective Services (DFPS), Prevention and Early Interventions (PEI) division funds a variety of programs to help prevent abuse, neglect, delinquency, and truancy of children. Community Youth Development (CYD) programs must include Mentoring, facilitating a Youth Advisory Committee, fostering Youth Leadership Development, and providing opportunities for Parent Involvement. Additional CYD services may be conducted if the required Community Strength and Needs Assessment (CSNA), detailed below, identifies specific needs.

Each site must conduct and submit a CSNA to identify local needs; CSNAs are updated and submitted every two years or as otherwise determined by DFPS throughout the funding cycle. According to Request for Proposals (RFP) for CYD, the CSNA must be:

- used to develop service needs,
- focused on juvenile delinquency prevention and protective factors,
- developed with input from community, including youth and Local Coalition, and
- publicly available.

NEEDS ASSESSMENT

What is a community needs assessment?

While there are many youth-focused evidence-based prevention models and interventions, as well as holistic positive youth development programs, a challenge in juvenile justice prevention is choosing the best model or approach or program that will address the needs of youth and their families in the community. In order to select the best possible program and/or services needed, a comprehensive needs assessment is key in order to understand a community's strengths, needs, assets and resource gaps. A community needs assessment provides local stakeholders with the necessary information to allow for informed decision-making to take place on the most pressing needs by prioritizing and identifying subsequent approaches to address those concerns.

A needs assessment is a tool that can be used to understand a community's needs and assets.

Through the assessment process, information can be gathered to describe youth development programs and services in the community, the impact on youth community members, current efforts already taking place, and gaps in community resources in regard to the youth services, opportunities, programs and services available. The results of a needs assessment is utilized to make informed decisions, as well as inform community members and stakeholders about youth. A strengths and needs assessment is a tool used to survey available services, knowledge, perceptions, and attitudes of a target audience on a specific topic area. The data collected through this needs assessment will help to gather key information about young people's knowledge, experience, and perceptions; available services for youth in schools and the community; and available resources to support young people's development to adulthood. This information will assist the local CYD program in identifying strengths and gaps in service provision and resources, while also identifying what is working to allow Grantees to better leverage resources to achieve desired outcomes. The needs assessment alerts CYD staff members to what is happening in their organization and community. While the local CYD will benefit from the information learned from the assessment and will report these findings to the PEI staff, there a variety of other audiences that would benefit from what is learned through the assessment. All CYD staff could consider publishing a report of the findings in the local newspaper, school district newsletter, or other publications of general distribution, or use the findings to secure additional funding for other projects.

METHODS

To standardize the process of the CSNA review, a CSNA checklist and evaluation tool was developed (See Appendix A). The tool was derived from various sources that outline necessary components in a community needs assessment process, as well as recommended components of a CSNA report. Additionally, the evaluation team reflected on decades of professional experience in conducting community assessments.

The checklist is comprised of two sections – the ***essential components checklist*** and the ***deconstructed essential components***. The initial portion of the checklist contains a listing of the essential components for a CSNA report, with the caveat that in some cases a funding source might have a preferred outline an assessment report should follow. The deconstructed essential components breaks down each component into the building blocks which together construct a complete component. The checklist and deconstructed components can be used together or separately, as a guide, checklist, or an evaluative tool. However used, it is important to remember the contexts in which a CSNA occurs can vary widely and have small or large impacts on the assessment itself and thereby the final report.

The essential components are as follows:

- **Title Page**
    - A title page identifies the authoring organization, the report date, and a title which should reflect the community about which the data within is referring to, e.g., *2019 Brazos Valley Health Assessment*.
- **Introduction**
    - The introduction should provide the reader with background information as to the assessment's purpose/history, area/topic of focus, timeframe, and sponsors/supporters/partners.
- **Community description**
    - This component describes the community using details such as an overview of the community's history, demographics, geographic boundaries, service area, etc. It should be comprehensive enough that someone who does not live in the community can get a fairly accurate picture of the community. Common sources for information that could be incorporated include the Chamber of Commerce, U.S. Census Bureau, county or city websites, etc. Depending on the community, it is often helpful to include a map.
- **Data collection methods**
    - Describing the data collection strategy includes providing step-by-step protocol for how the data was collected, including from whom, a description of the instrument(s) or data collection tool questions, if the data was collected in person, online, by mail, etc., and if it was quantitative or qualitative data. It is generally accepted to also discuss who collected the data (e.g. community partners, staff, researchers, graduate students, youth, etc.) and how they were trained.
- **Data analysis**
    - A long, scientific explanation of statistical analyses is not necessarily needed, the level of explanation for data analysis should be appropriate for the report's audience. However, an overview of how the data was analyzed is appropriate. For example, if interviews were conducted, then the data analysis explanation might be similar to: "Thirty interviews were conducted for the Pretendville Community Strength and Needs Assessment in 2018. Those interviewed included community leaders, local health and human service providers, and community residents. Special effort was made to include community representatives to provide voice for youth and senior citizens. Interview notes were analyzed for common themes……"

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

- **Results**
    - The results component should be the bulk of the assessment report and should include a discussion of findings (respondent profiles (demographics of participants), response rates, summary of survey responses); illustrations which supplement findings (graphs/charts); and comparison to county, regional, state, and/or national level data if available. It can be easily organized by topic area (health and wellness, substance abuse, crime, access to health care, etc.) and/or data collection method (survey, interview, focus group, etc.). It is be important to refer across the methods when interview data supports similar findings in an online survey or secondary data. This component is also where the discovery of any gaps in services should discussed.
- **Implication of findings**
    - When writing the implication of findings, the needs which have been identified should be discussed, including the prioritization of those needs and what they mean for/how they impact the community.
- **Conclusion & Recommendations**
    - Provide a brief recap of the CSNA's purpose, primary findings, any limitations in the assessment's methodology or results; and for the CYD program, describe how results should be used to adapt CYD services to address issues or facilitate community collaborative efforts to improve the community. Conclude with recommendations and associated action steps. Action steps should be used to encourage future activities and furthering progress to achieve common goals.
- **References**
    - The assessment report should provide a complete list of references, especially of secondary data was utilized to describe the community or as a comparison source for primary data collection results. Do not forget that if an item is on the reference page, then that reference should be cited within the assessment report's text as well.
- **Appendices**
    - In some cases pictures, maps, or data tables are too large for inclusion within the test portion of the report or would take too much space resulting in a report that does not flow well. A suggestion is to move this information to an appendix and refer to it within the full text of the document. Appendices could also include items such as data collection instruments (not data!), lists of community partners/sponsors, recruitment materials, etc.

APPENDIX C

COMMUNITY STRENGTHS AND NEEDS ASSESSMENT REPORT TEMPLATE

The following provides a template for the report sequence and general descriptions of information to include in your community strengths and needs assessment (CSNA) report. This template is based on an extensive literature review and the expertise of the Evaluation Team. This template addresses only the CSNA report and does not include required components for the overall Community Youth Development (CYD) implementation plan.

About This Template

This template is designed to provide a table of contents and detailed outline of required information in a CSNA report. This template offers one example of a logical sequence for the required information, but this should not be considered the only format option. There is no required or suggested length for this report. The following should be considered when writing your report.

- The report should include a table of contents and clear section headings and subheadings.
- All data should be clearly sourced.
- The CSNA report must be widely disseminated to the public, including those with limited Internet access, in order to be considered complete and conducted, as determined by DFPS/PEI/CYD definition.
- It is important to write succinctly.
- Ensure detailed information is easily understood to non-health care readers.
- Appendices with additional details are encouraged to supplement the report.
- The use of graphs, maps and tables are encouraged for some sections of the report.

The template below provides both the recommended outline, in bold, and suggestions, in italics.

Table of Contents and Recommended Content

I. Executive Summary

Considerations: This section should be limited to one or two pages and include the following.

- *a short description of the community*
- *a short description of the overall CSNA process, including:*
  - *time frame from beginning to completion*
  - *key partners*
  - *the source for public health input*
  - *the process for seeking input from the medically underserved, chronically ill and low-income populations*
  - *very short description or list of key sources of secondary data*
  - *very short description of process for primary data collection*
- *list of identified health issues based on secondary and data analysis*
- *short description of process to prioritize the health issues, including a list of key partners that participated*
- *a summary list of those health issues prioritized for action*
- *contact information for questions or involvement*

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

II. Introduction

III. Community Description

a. Description of the community served by the hospital facility

i. Geography
   1. list of counties
   2. ZIP codes
   3. square miles

ii. Population (may include additional information as an appendix)
   1. total
   2. population density
   3. demographic description

iii. Unique community characteristics
   1. colleges, tourism, etc.

iv. Other youth services available in the same community area
   1. federal designation for medically underserved
   2. community youth services center
   3. other youth programs, specialty providers

Considerations: This section should succinctly present the community and the youth services within. Several concise tables, maps and graphs would be appropriate. However, it is important to only include important and relevant information. Include a narrative summary of the demographic information. Additional geographic and population data may be included in an appendix. The unique community characteristics should be in narrative format and should help the reader to better understand the community. What makes it special or unique? What makes the citizens proud of their community? This section does not need to be lengthy but should be compelling.

A short description and list of other key youth services/programs provideers available in the same community area should be included in this section. This information should help the reader understand the broader youth services/programs community. Lengthy lists of community youth resources may be appropriate for an appendix.

IV. Data Collection Methods

a. a description of the process and methods used to conduct the assessment including:
   i. identification of the personnel involved in planning by title, organization
   ii. description of the overall planned approach for developing and conducting the assessment
   iii. description of the process used to collect secondary data
   iv. description of the process used to develop and collect primary data

b. Data and information sources for secondary data (see Data Sources Table in Appendices)
   i. agency or organization
   ii. retrieval date
   iii. year of data available and used
   iv. Web address
   v. rationale for use of these data sources

c. Data and information sources for primary data collection
   i. description of type of methodology (interviews, survey, focus group)
   ii. rationale for methodology selection
   iii. setting(s) of primary data collection
   iv. list specific target populations
   v. response rate by setting and population (number interviewed, numerator and denominator of surveys sent and returned — include percentage and actual numbers)

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

vi. description and list of successful approaches and identification
vii. description and list of barriers, challenges and unsuccessful approaches

Considerations: This section is very important for compliance. The information presented will provide evidence of a comprehensive and systematic approach to the CSNA. Locally collected data, collected from state departments such as health, education, and criminal justice help to clarify and expand on national report numbers. This can include but not be limited to: Local crime statistics, School district high school graduation, School district school readiness, Employers and employment opportunities, Child care providers, Public benefits usage (SNAP, TANF, etc.), Input directly collected from low-income people, etc.,. Any tool used to collect primary data should be included as an appendix. The public health expert or faculty from an area college may be able to review this section and provide specific guidance.

V. Data Analysis

a. Analytical methods used to identify the community health needs
   i. description
   ii. statistical tests or processes
   iii. qualitative data collection or processes
   iv. group consensus processes

Considerations: This section is perhaps one of the most difficult for practitioners. There are experts in the community that have experience in basic statistical tests beneficial in assessing the primary data. Seek these individuals out if needed. Most secondary sources of data include some descriptive statistics, although this information often is separate from the key fact sheets.
The description of how to group consensus should include how participation and input from community partners, hospital leadership, citizens and public health experts was achieved. If the participant list is extensive, include the key participants in this section and refer to Section IV. If specific process tools were used, identify and describe those tools. It also may be appropriate to include a sample tool as an appendix. The public health expert or faculty from an area college may be able to review this section and provide specific guidance.

VI. Results

a. Present overall findings
   i. Respondent profiles
   ii. Response rates
   iii. Summary of survey responses
b. Illustrations of findings (graphs/charts)
   i. Comparison with other communities/counties/state/national data

Considerations: This section is very important for compliance. It is acceptable and encouraged that gaps in information be identified and explained. It may not be possible to collect specific information on specific topics. Documenting gaps demonstrates an understanding about the issue and efforts to gather information. It is important to note that health topics that are deemed important through group input but lack data define that the issue still should be included in the prioritization of health issues. If any consultants, faculty from area colleges or other third-party agents assisted with the CSNA, specific information must be included in this section.

VII. Community Inventory

a. Discussion of community strengths
b. Description of existing youth service facilities within the same community description, including specialty services
   i. Representative organizations
      1. name
      2. title
      3. organization
      4. describe the nature of representation: what organizations, populations and qualifications represent this population

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

5. describe leadership role, if applicable

c. Description of existing youth service facilities within the same community
   i. Individual(s) included with expertise in youth
      1. name
      2. title
      3. affiliation(s)
      4. brief description of individual's knowledge or expertise
      5. describe leadership role, if applicable
d. Other resources available to meet the community youth needs identified

Considerations: None

VIII. Gaps in Services

a. Discussion of identified gaps in services within the community

Considerations: In this section, clearly identify participation and input from community partners, key leaders, citizens and youth experts. The description of how input was sought and collected from the stakeholders and citizens, especially the lower socioeconomic status, medically underserved and chronically ill, should be thoroughly described. It will be important to reiterate how each contributed and at which phases in the assessment. This is this section that should include all detailed information about partnering organizations and individuals. If that list is extensive, include the key participants in this section and then list all participants and their required information in an appendix. This section may be written as a short narrative and then may include a roster-format with the above information, either in the report or as an appendix.

IX. **Other Collected Data**

X. **Implications of Findings** ***(Note: this section will complement the implementation plan.)***

a. identified youth issues through assessment process
b. process to prioritize youth issues
   i. description of process
   ii. use of any tools (e.g. prioritization matrix)
c. list of priority youth issues identified and description of why these issues were identified
d. description of rationale used not to address identified youth issues

Considerations: This section is very important for compliance. In this section, clearly identify very specific and detailed information; it is essential for compliance that all relevant information be included. This section should be used to establish the foundation for the implementation plan. The format likely will be narrative passages; however, do not make the reader sort through lengthy narrative. This section should be compelling for the reader.

XI. Recommendations

Considerations: This section should include succinct but complete inventories of available resources. If the list is too extensive, include key resources in this section and the full listing as an appendix.

XII. Conclusions

XIII. References

a. **List all references.** Make sure they are cited within the text of the report as well.

XIV. Appendices

a. model or approach for CSNA process (e.g. the county health rankings model)

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

b. additional demographic or population information
c. additional secondary reports, maps and graphs
d. primary data collection tool (e.g. survey)
e. summary of primary data analysis
f. tools used to prioritize health issues
g. complete community resource inventory

Considerations: This section should be very neatly and carefully ordered to provide the reader immediate access to more detailed information that is not included in the report. Each document should be labeled as a separate appendix. The appendices provided throughout this template only are suggestions; there are no specific requirements for appendices

XV. Dissemination Plan

a. description and date of report release to public
b. list of websites, including URL
c. describe the process to provide printed copies upon request
d. describe the process to share information with the broad community, including the underserved and lower socioeconomic populations

Considerations: Efforts to disseminate the report to the public and to underserved, low-income, youth and families or unique subgroups should be thoroughly described. This section is very important for ensuring accountability. In this section, clearly identify very specific and detailed information. The format likely will be short narrative passages with dot points and lists. Do not make the reader sort through lengthy narrative. It is essential for compliance that all specific methods and exact locations (websites or geographic) of the report be listed in addition to the instructions for obtaining a printed copy. If your community has a significant population of limited-English proficient citizens, a translated version of the report (or key sections) should be considered.

Tips for Creating Graphs and Tables

Each graph or table should be able to stand alone and provide complete information without explanation. There are many options to embellish graphs; use these options sparingly because a simple, clear, concise graph often is more effective at displaying data than a highly intricate, colorful graph. The following tips and resources will provide additional information.

- Consider your audience: what is the point you are trying to convey?
- Check the data, verify the accuracy and completeness.
- Include a legend, unless the graph is very basic.
- Explain encodings: a color code is only helpful with a key.
- Label axes, even if it seems obvious to you.
- Include units of measure in the graph. If this becomes too cluttered, you may have too many data points.
- Include data sources and dates.

PEI Evidence-Based Program Ranking Tool

About the Evidence-Based Program (EBP) Ranking Tool:
The Evidence-Based Program Ranking Tool was developed by PEI to help programs move towards Evidence-Based and Promising Practice Programs. The tool allows Respondents to propose programs with an emerging research and evaluation base that may not yet have been reviewed by a traditional clearinghouse. In addition, the tool ensures fit between a program's evidence and implementation. PEI's research round table, a group of experts in the field of child maltreatment prevention, developed and reviewed the tool for this purpose.

Section I: Evidence-Based Program Description
All Respondents must complete this section of the ranking tool. Proposed Program Models will be evaluated for rigor and appropriateness for the goals of this procurement.

Appendix I: List of PEI's Approved Evidence-Based and Promising Practices

Name of Program	AVANCE Parent-Child Education Program (PCEP)
Description	AVANCE's philosophy is based on the premise that education must begin in the home and that the parent is the child's first and most important teacher. The ***PCEP*** fosters parenting knowledge and skills through a nine- month, intensive bilingual parenting curriculum that aims to have a direct impact on a young child's physical, emotional, social, and cognitive development. Parents/primary caregivers are taught how to make toys out of common household materials and how to use them as tools to teach their children school readiness skills and concepts. Monthly home visits are also conducted to observe parent-child interactions and provide guidance in the home on learning through play. Along with the parenting education component, parents/primary caregivers are supported in meeting their personal growth, developmental and educational goals to foster economic stability. While parents/primary caregivers attend classes, their children under the age of three are provided with early childhood enrichment in a developmentally appropriate classroom setting which aims to build the academic, social, and physical foundation necessary for school readiness.
Target Population	Parents/primary caregivers with children from birth to age three, pregnant women and/or partners of pregnant women, especially those with challenges such as poverty; illiteracy; teen parenthood; geographic and social marginalization; and toxic stress
Age Range	0-3
Recommended Dosage	Weekly three-hour classes comprised of 27 bilingual parenting lessons, toy making classes and a community education speaker
Setting	Home, Community Agency, School

Name of Program	Effective Black Parenting (EBPP)
Description	EBPP is a parenting skill-building program created specifically for parents of African-American children. It was originally designed as a 15-session program to be used with small groups of parents. A one-day seminar version of the program for large numbers of parents has been created. ***EBPP*** is disseminated via instructor training workshops conducted nationwide.

Level 4 Triple P helps parents learn strategies that promote social competence and self- regulation in children as well as decrease problem behavior. During the course of the program, parents are encouraged to keep track of their children's behavior, as well as their own behavior, and to reflect on what is working with their parenting plan and what is not working so well. They then work with their practitioner to fine tune their plan. Level 4 Triple P practitioners are trained to work with parents' strengths and to provide a supportive, non-judgmental environment where a parent can continually improve their parenting skills. Level 4 Triple P is offered in several different formats (e.g., individual, group, self-directed, and online). The CEBC evaluated the standard version of Level 4 Triple P as described above and not any other variations (including early teen versions or those for children with developmental delays).

ICSQ Instructions

Every business entity should have internal controls. Internal controls consist of the policies and procedures that a business entity develops and implements to ensure that assets (such as cash and equipment) are safeguarded, that expenditure transactions (such as purchases) are authorized, and that financial data are accurately recorded. Another way of saying this is that a system of internal controls helps to ensure that assets that belong to the business entity are used only for authorized business purposes.

A system of internal controls is not designed primarily to detect errors but rather to reduce the opportunity for errors or dishonesty to occur. In an effective system of internal controls, no one person should carry out all phases of a business transaction from beginning to end. For example, if one person were permitted to order supplies, receive the supplies, write a check to pay for the supplies, and record the transaction in the accounting records, then there would be no protection against either fraud or errors.

A system of internal controls frequently may be improved by physical safeguards (acting as compensatory controls). Computers help to improve the efficiency and accuracy of record keeping functions. Cash registers, safes, and pre-numbered business forms are very helpful in safeguarding cash and establishing responsibility for it. Any system of internal controls must be supervised with care if it is to function effectively.

The Internal Control Structure Questionnaire (ICSQ) consists of a series of questions related to the processes and procedures for handling cash receipts, cash disbursements, physical inventory, file maintenance, etc. Responses to the questions included in the ICSQ allow for an assessment of the effectiveness of the procedures described as compared to best practices and/or specific state and federal guidelines.

Instructions for Submitting the ICSQ

An up-to-date ICSQ is required to be submitted with each new proposal to contract and grant application with the Department of Family and Protective Services (DFPS).

No two-sided copies will be accepted. No pamphlets or books will be accepted (except for required financial reports or audits). Responses must be typed or printed. All attachments must be clearly numbered.

Instructions for Completing the ICSQ

The ICSQ has been divided into several sections, as follows:

SECTION I: FINANCIAL POSITION

This section requests background information about the business entity, including the financial system used to maintain the accounting records; preparation of financial statements; the most recent audit report and management letter; certification of the organization not having any outstanding liabilities, loans or taxes, and the organization's ability to obtain credit when needed. These questions are related to the business entity's likelihood of providing continuous services for the duration of the contract or grant.

Question 4:
A non-Federal entity that expends $ 750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit, conducted for that year in accordance with the provisions of §200.501 of the Uniform Grant Guidance (UGG). The state requires a for profit entity to conduct a specific engagement that mirrors the provisions of the above referenced audits. For more information about this requirement please see the Code of Federal Regulations PART 200--UNIFORM ADMINISTRATIVE REQUIREMENTS, COST PRINCIPLES, AND AUDIT REQUIREMENTS FOR FEDERAL AWARDS - §200.501 Audit Requirements. You may access this information by clicking this link.

SECTION II: INTERNAL CONTROLS

This section addresses Internal Controls as described below:

II. A. GENERAL/ACCOUNTING CONTROLS

The general accounting section addresses file maintenance and the contractor's or grantee's responsibility to meet contract terms and state/federal regulations.

Accounting controls assist with the safeguarding of assets (cash and fixed assets) and the reliability of financial records. The objective sought in the control of cash receipts is to ensure that all cash that is receivable by the business entity is collected and recorded without loss. The system of controlling cash payments should be designed to ensure that no unauthorized payments are made. Control is accomplished by division of responsibility to achieve independent verification of transactions without duplication of effort.

Question 1:
Cost allocation ensures that costs are properly allocated to a specific funding source and that all costs are properly identified.

Cost allocation is required when a cost will benefit more than one contract or funding source. If cost allocation is necessary, contractors and grantees must use reasonable methods of allocating costs consistently. Any cost allocation method used should be a reasonable reflection of actual business operations.

Question 3:
Each non-Federal entity receiving Federal award dollars is required to have the financial management systems in operation that are specified in §200.302 of the Uniform Grant Guidance. Click here to review these applicable financial management systems.

Questions 6-7:
It is a good business practice to require authorized individuals to approve purchases or electronic transactions made on behalf of their department. Designating separate individuals to sign checks or authorize payments, approve purchases, prepare payments, reconcile internal accounts to the general ledger, control assets, and receive cash is also a good business practice. For smaller staffs, it may be necessary to identify compensating controls where adequate separation of duties is not possible.

Questions 8-9:
All costs that are reported or billed to a funding source should be reconciled with the general ledger (the book or file that contains all the organization's accounts) as well as bank account transaction records.

Questions 10-16:
If the business entity's accounting system is automated, please complete questions 9 - 15 to provide detail as to who has access to the accounting system and how the system is protected.

Questions 17-26:
These are examples of internal controls that act as safeguards against unauthorized expenditures or check disbursement.

Question 27:
§200.320 of the Uniform Grant Guidance specifies that all non-Federal entities that receive Federal grant dollars must use one of the methods of procurement listed in the UGG. You may click here to review the acceptable procurement methods that are listed.

Questions 28-29:
It is a best practice to maintain supporting documents with each disbursement. Alternatively, supporting documents should be numbered, clearly referenced, and filed for easy retrieval.

Question 30:
If more than one funding source is to be used to reimburse a cost, then it is extremely important that the invoice documents how the cost is to be allocated.

Question 31:
To ensure funds are fully protected, contractors and grantees should understand their coverage limits and confirm that their financial institution is FDIC-insured. The standard insurance amount currently is $250,000 per depositor. The

$250,000 limit is permanent for certain retirement accounts (includes IRAs) and is temporary for all other deposit accounts through December 31, 2013.

Question 32:
Contractors and grantees should reference the applicable Texas Administrative Code (TAC) or the Uniform Grant Guidance (UGG) to identify costs and expenditures that are not allowable.

Question 33:
An element of a good file maintenance process is having a systematic approach to filing the numerous contract documents that flow through a business entity. A systematic filing approach decreases the risk of lost documents and provides a central place for documents that pertain to a specific contract.

Question 34 (a) and (b):
(a) §200.303 of the Uniform Grant Guidance provides a list of certain Internal Control processes that must be in place for all non-Federal entities receiving Federal grant dollars. The list of Internal Control processes may be viewed by clicking this link.

(b) An important protective measure to safeguard sensitive information is controlling physical access to the information or records related to your contracts and grant awards. All contract and grant information must be cared for with the appropriate level of physical and electronic security. Procedural safeguards ensure adequate controls against unauthorized access, fraudulent activity, disclosure, loss or damage, whether accidental or deliberate, as well as to ensure the availability, integrity, authenticity, and confidentiality of information. Procedural safeguards may include adequate separation of duties, limiting physical access (e.g., storing information in a safe or fireproof filing cabinet, locks on doors or filing cabinets, passwords) or computer-related controls dealing with access privilege.

II. B. PERSONNEL

Questions 35-36:
Each business entity should have written personnel policies that are made available to all employees. The policies need to be consistently applied and should include all federally mandated policies related to human resource issues.

Questions 37-41:
The Uniform Grant Guidance addresses when documentation may be necessary to support salaries and wages. The UGG further states that when the allocation of direct service delivery staff salaries between programs and contracts must be documented.

Question 42:
DFPS requires contractor and grantee employees who will have or currently have direct contact with clients or access to client records, prior to such contact or access, to disclose and release, or cause its subawardees or subcontractors of DFPS grant services to disclose and release, any allegation alleging an act of abuse, neglect or exploitation of children, the elderly, or person with disabilities, as well as any criminal history or any current criminal indictment. It is the policy of DFPS to require background checks concerning criminal and DFPS abuse/neglect history on potential contractors and grantees, contractors and grantees, their employees, subawardees or subcontractors of DFPS grant services, and volunteers.

II. C. TRAVEL (Travel Costs Paid with DFPS Funds)

Question 43:
Travel expenses for which reimbursement will be requested from DFPS must conform to the current state travel requirements and rates for lodging, meals, and personal vehicle mileage unless otherwise specified in the grant agreement. Supporting documentation for travel expenses must include receipts for the following expenses: parking fees, hotel lodging, taxis, and airfare. Travel costs may be billed at the current approved General Services Administration (GSA) rate in effect for the service date on the invoice, if allowed in the grant agreement. Rates may be found at: https://www.gsa.gov/travel-resources . Mileage rates may be found at: http://www.gsa.gov/mileage

Docusign Envelope ID: 88A4D9DD-A236-411A-B4FE-52B704A262AC

II. D. EQUIPMENT

Questions 44-49:
Equipment is defined in 45 Code of Federal Regulations (CFR) Part 74 and the Uniform Grant Guidance (UGG).

It is a federal requirement that a physical inventory be taken at least once every two years for equipment acquired with federal funds.

The disposition of all equipment purchased with federal funds must be made according to appropriate regulations and departmental policies, as per the Uniform Grant Guidance (UGG). Equipment purchased using DFPS contract funds is subject to an equitable claim by the state (DFPS) at contract closure. No disposition should take place without prior notification to DFPS contract management.

II. E. Subawards and subcontracts for DFPS grant services

This section must be completed if DFPS funds are or will be provided to subawardees or subcontractors for DFPS grant services.

Question 50:
The selection procedures for subaward or subcontract for DFPS grant services should reflect a system in which the best entity is fairly and objectively selected. Procedures should clearly identify the method of selection utilized (e.g., competitive selection or bidding, direct grant, request for application).

The selection process should also include established criteria to evaluate potential awards, ranking method, and the consideration of past performance factors.

Monitoring procedures should be sufficient to ensure that subawardees or subcontractors consistently provide quality services by measuring performance against well-documented outcome expectations. The monitoring function should focus on the outcomes of services provided with an appropriate emphasis on subcontractor/subaward monitoring in proportion to the amount/extent of the services provided. Procedures should adequately describe who is responsible for monitoring, how often monitoring occurs, the monitoring process to include follow-up procedures when corrective action is required. It is also a good business practice to include an ongoing system for ensuring that funds are spent appropriately.

Question 51:
Pass-through entity means a non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

Question-52:
DFPS is committed to encouraging participation and increased opportunities for any minority and women-owned business that is certified as a Historically Underutilized Business (HUB). DFPS encourages contractors and grantees who have contracts of $100,000 or more to do the same and maintain documentation of their process and results.

Question 53:
DFPS requires contractor and grantee employees who will have or currently have direct contact with clients or access to client records, prior to such contact or access, to disclose and release, or cause its subawardees or subcontractors to disclose and release, any allegation alleging an act of abuse, neglect or exploitation of children, the elderly, or person with disabilities, as well as any criminal history or any current criminal indictment. It is the policy of DFPS to require background checks concerning criminal and DFPS abuse/neglect history on potential contractors and grantees, contractors and grantees, their employees, subawardees and subcontractors for DFPS grant services, and volunteers.

II. F. RELATED-PARTY TRANSACTIONS

Questions 54-68:
This section deals with doing business with related parties. A related party is a person or business entity related to the contractor or grantee entity by blood, marriage, adoption, common ownership, or any association which permits either entity to exert power or influence (control), either directly or indirectly, over the other. Two or more individuals or business entities constitute related parties whenever they are affiliated or associated in a manner that entails some degree of legal control or practical influence of one over the other. This affiliation or association may be based on common ownership, past or present mutual interests in healthcare or other types of enterprises, or family ties. In determining whether a related party relationship exists with the contractor or grantee, the tests of common ownership and control are applied separately. Control exists where an individual or business entity has power, directly or indirectly, significantly to influence or direct the actions or policies of a business entity or institution. If the elements of common ownership or control are not present in both business entities, the entities are deemed not to be related to each other. The existence of an immediate family relationship will create an irrefutable presumption of relatedness through control or attribution of ownership or equity interests where the significance tests are met. The following persons are considered immediate family: (1) husband and wife; (2) natural parent, child and sibling; (3) adopted child and adoptive parent; (4) stepparent, stepchild, stepsister, and stepbrother; (5) father-in-law, mother-in-law, brother-in-law, son-in-law, sister-in-law, and daughter-in-law; (6) grandparent and grandchild; (7) uncles and aunts by blood or marriage; (8) nephew and nieces by blood or marriage; and (9) first cousins. (40 TAC §732.240)

Related party transactions include the purchase/lease of facilities, services, equipment, or supplies from the related party's central office or related business entities. The allowable cost in a related-party transaction will be examined to determine their reasonableness, meaning that such cost must not exceed the price of comparable services, facilities, equipment or supplies if they were to be purchased from a non-related vendor on the open market.

EXHIBIT V- CYD Guidelines for Allowable Food Costs

I. Basic Guidelines found in CFR 200.438 Entertainment cost:

Costs of entertainment, including amusement, diversion, and social activities and any associated costs are unallowable, except where specific costs that might otherwise be considered entertainment have a programmatic purpose and are authorized either in the approved budget for the Federal award or with prior written approval of the Federal awarding agency.

II. Food Costs for CYD Participants

PEI allows the costs of snacks and meals only when they are necessary and part of the delivery of Prevention and Early Intervention programming. Food costs must be shown as necessary to carrying out the purpose of the award. Out- of-School Time programs are the most common example of a CYD opportunity during which food for Participants, such as a snack, may be a reasonable cost. Recognition ceremonies celebrating the successes of Participants may also incur reasonable food costs. Food and meal costs for Participants are unallowable when they become the central activity.

Generally, food itself should not be used as a reward or incentive however an event such as a Youth picnic with food for program cycle completion could be allowable. Similarly a drawing for a small restaurant gift card that has nutritious menus options for Youth completing a CYD survey or returning Data Authorization forms by a due date could be allowable.
