Communication

 Item No. 3A.

Approve the Purchase of Self-Contained Breathing Apparatus Equipment with AllStar Fire Equipment Inc.

TO	PREPARED BY
Finance Committee Members	Stephen Davy, Division Chief
DEPARTMENT HEAD APPROVAL	CITY MANAGER APPROVAL
Dan Mielke, Fire Chief	Kristin Griffith, City Manager

RECOMMENDATION

Staff Recommends that the Finance Committee recommend the City Council take the following actions:

1. Approve the purchase of ten (10) Scott X3-Pro Self-Contained Breathing Apparatus units with associated face-pieces and amplifiers, and the exchange of ten (10) 15-year cylinders for ten (10) 30-year cylinders. Items will be purchased through AllStar Fire Equipment, in the amount of \$83,328.68 utilizing the Cal Fire Piggyback Contract.

BACKGROUND/DISCUSSION

The Fire Department requires the replacement and upgrade of its Self-Contained Breathing Apparatus (SCBA) units—including those needed to equip the new Type 1 fire engines currently on order—to ensure firefighter safety, operational readiness, and compliance with current standards. Staff has identified the Scott X3-Pro SCBA system, available through the Cal Fire Piggyback Contract No. 1-22-42-04, which provides competitive pricing and standardized equipment widely utilized by fire agencies across the state.

The proposed purchase includes ten (10) Scott X3-Pro SCBA units, each configured with an aluminum back-frame, padded Kevlar harness, 4500 psig E-Z Flo+ regulator, dual UEBSS, rescue belt, PASS with Pack-Tracker, and RIC/UAC connections. Each unit also includes one (1) AV-3000 HT face piece with amp brackets and one (1) EPIC 3 voice amplifier.

In addition, the Fire Department will trade in ten (10) existing carbon 4500 psi 45-minute cylinders and replace them with ten (10) Scott 30-year, 4500 psig 30-minute cylinders with CGA valve assemblies. These new cylinders will be acquired at a one-time price outside of the contract to extend cylinder life and reduce future replacement costs.

FISCAL IMPACT/SUMMARY

The total cost of \$83,328.68 is included in the Fire Department's FY2025-27 adopted budget. This purchase will be funded through existing appropriations in Fire Operations Fund (Fund 542), with no additional fiscal impact to the General Fund (110).

- Defective or freight-damaged items

In all cases, the ordering agency shall have the option of taking an exchange or receiving a credit or receiving a refund.

The Contractor will be responsible for the credit or replacement of all products, including those covered by manufacturer warranties. The Contractor cannot require the ordering agency to deal directly with the manufacturer.

Mandatory Contract Number 1-22-42-04
Contract User Instructions - ***Supplement 11***

29. RESTOCKING FEES

The Contractor will not impose a restocking fee on the ordering agency for the following situations:

- Items returned that were damaged upon receipt
- Incorrect items shipped
- Items that are returned within thirty (30) calendar days of delivery
- Items that are returned, but exchanged for other items within thirty (30) calendar days

Re-stocking fees for all other reasons shall be 10 percent of the value of the items to be re-stocked.

The packaging and documentation provisions in accordance with Article #27, Return Policy, shall apply to re-stocked items.

The Contractor will not be required to accept returns more than sixty (60) days after delivery. The ordering agency will be responsible for return transportation costs to the Contractor if so, accepted after sixty (60) days after delivery.

31. PAYMENT

A. Terms

Payment terms for this contract are net forty-five (45) days. Payment will be made in accordance with the provisions of the California Prompt Payment Act, Government

Mandatory Contract Number 1-22-42-04
Contract User Instructions - ***Supplement 11***

Code Section 927, et seq. Unless expressly exempted by statute, the Act requires State departments to pay properly submitted, undisputed invoices not more than forty-five (45) days after the date of acceptance of goods, performance of services, or receipt of an undisputed invoice, whichever is later.

B. CAL-Card Use

State departments may use the CAL-Card for the payment of invoices. Use of the CAL-Card requires the execution of a Purchasing Authority Purchase Order (Std. 65) in accordance with Article #12, Purchase Execution and must include all required documentation applicable to the purchase.

The CAL-Card is a payment mechanism, not a procurement approach and, therefore, does not relieve State departments from adhering to all procurement laws, regulations, policies, procedures, and best practices, including those discussed in the State Contracting Manual (SCM) Volume 2. This includes but is not limited to the application of all sales and use tax laws, rules, and policies as applicable to the purchase.

C. State Financial Marketplace

State departments reserve the right to select the form of payment for all procurements, be it either an outright purchase with payment rendered directly by the State, or a financing/lease-purchase or operating lease via the State Financial Marketplace (GS \$Mart and/or Lease \$Mart). If payment is via the financial marketplace, the Contractor will invoice the State department and the State department will approve the invoice and the selected Lender/Lessor for all product listed on the State's procurement document will pay the Contractor on behalf of the State.

D. Payee Data Record

Each State department's accounting office must have a copy of the Contractor's Payee Data Record (Std. 204) in order to process payments. State departments should forward a copy of the Std. 204 to their accounting offices. Without the Std. 204, payment may be unnecessarily delayed. State departments should contact the Contractor for copies of the Payee Data Record.

32. CAL-CARD INVOICING

All CAL-Card invoices are to be processed separately from other payment methods and include the elements identified in Article #30, Invoicing. CAL-Card invoices shall be submitted to the CAL-Card account holder. The total invoice amount for each CAL-Card order must reflect a zero (0) balance due or credit, if applicable, and state "paid by CAL-Card".

33. CALIFORNIA SELLER'S PERMIT

The California seller permit number for the Contractor is listed below. Ordering Agencies can verify that permits are currently valid at the following website: www.cdtfa.ca.gov. State departments must adhere to the file documentation identified in the State Contracting Manual Volume 2.

Contractor Name	Seller Permit #
Allstar Fire Equipment	17-806064

34. WARRANTY

The Contractor must honor all manufacturers' warranties and guarantees for a period of fifteen (15) years (180 months) from the date of acceptance on all products offered as part of this contract. The Contractor shall bear all material and labor costs for repair of equipment defects and failure. The bid price cost shall include the manufacturer's warranty cost.

During the warranty period, the Contractor must:

- Honor all manufacturers' warranties and guarantees on all products offered through the contract.
- Continue to provide warranty service after contract termination until expiration of warranties for products that have been sold under the contract.
- Provide all labor, parts, and travel necessary to keep the products in good operating condition and preserve its operating efficiency in accordance with its technical specifications.
- Pay any necessary shipment and insurance costs.

The warranty services listed shall include all products, maintenance costs and costs of labor, parts, travel, factory overhaul, rehabilitation, transportation, and substitute products, as necessary. If it is necessary to remove any products from an ordering agency's location where on-site warranty is specified, the Contractor will provide substitute products at the time of removal.

Substitute products will be comparable to or better than the products removed. In instances where it is necessary for the Contractor to return the products to the factory, the Contractor will be responsible for all costs of the products from the time it leaves the ordering agency's site until it is returned to the site in good operating condition. Only new standard parts or parts equal in performance to new parts will be used in effecting repairs. Parts that have been replaced will become the property of the Contractor except in instances where the ordering agency chooses to keep the hard drives. Replacement parts installed will become the property of the ordering agency.

Warranty services during the warranty period will not include electrical work external to the products, the furnishing of supplies, or adding or removing accessories, attachments, or

Mandatory Contract Number 1-22-42-04
Contract User Instructions - ***Supplement 11***

other devices not provided under this contract. Warranty services also will not include repair of damage resulting from transportation by the ordering agency between State or local sites or from accident unless the accident is caused by negligent or intentional acts or omissions of the Contractor or its agents.

35. QUALITY ASSURANCE GUARANTEES

The Contractor shall represent and warrant that product provided shall be free from defects in material and workmanship, given normal use and care, over the period of the manufacturer warranty. The terms of this contract will supersede any language to the contrary on purchase orders, invoices, or other sources. Contractor must use new products, parts, and components for all new equipment purchased by the State. The Contractor may use parts that are equal in performance to new parts for warranty replacement repair parts only as long as it does not violate the manufacturer's warranty.

36. EQUIPMENT REPLACEMENT DURING WARRANTY

If the product provided fails to perform in accordance with technical specifications and functional descriptions contained or referenced in the contract agreement and is subject to warranty response three (3) or more times during any ninety (90) day period, the Contractor will upon the ordering agency's request, replace the product at no price. The replacement product(s) will be delivered no later than fifteen (15) working days after the ordering agency's request is received by the Contractor. Replacement goods cannot be used, refurbished, or recycled, and must be of equal or greater value.

37. RECYCLED CONTENT

There is no recycled content associated with this contract.

38. SB/DVBE PARTICIPATION

There is no Small Business (SB) or Disabled Veteran Business Enterprise (DVBE) participation for this contract.

39. VETTED FORMS/CERTIFICATIONS

The DGS-PD, as the awarding department, has assessed the Contractor and subcontractor forms, certifications, and compliance to performing a commercially useful function (CUF) during the solicitation evaluation process. Consequently, when executing purchase documents pursuant to this contract, it is not necessary for State departments operating under statewide contract purchasing authority to conduct a CUF evaluation or request the completion of the following required certifications and forms:

- GenAI Disclosure & Factsheet (STD 1000)
- Bidder Declaration Form (GSPD 05-105)
- DVBE Declaration Form (DGS-PD 843)
- Darfur Contracting Act Form

Mandatory Contract Number 1-22-42-04
Contract User Instructions - ***Supplement 11***

- California Civil Rights Certification Form
- Iran Contracting Act Certification
- Russian Sanctions Agreement
- Federal Debarment

State departments should make a notation of this within their procurement file.

40. GENERATIVE ARTIFICIAL INTELLIGENCE (GENAI) PROCUREMENT PROCEDURES

Contractor does not intend to utilize GenAI as a deliverable. If GenAI is disclosed by the Contractor, state departments must follow the required GenAI purchase procedures outlined in SCM Vol.2, Chapter 23, Generative Artificial Intelligence.

The device shall have an on/off button to allow users to manually power off as needed while on or off air. The on/off shall be covered with a sheath made of silicone material. Voice amplifiers shall have a light to indicate that the device is powered on. The device shall provide audible tones to indicate when the system has been energized, de-energized and to provide a low battery indication.

The amplifier shall contain a custom speaker designed for pushing sound through background noises commonly found at emergency incidents. The device shall not feedback for longer than one second when worn with a level A HAZMAT suit. The device shall be able to provide the NFPA minimum Speech Transmission Index (STI) score requirement of 0.60.

PRESSURE REDUCER WITH CYLINDER CONNECTION

The pressure-reducing regulator shall be mounted at the waist on the back frame and be coupled to the cylinder valve through a fast acting push to connect attachment or CGA. The pressure-reducing regulator shall have an incorporated relief valve, reseal-able over pressurization. The relief valve shall prevent the attached low-pressure hose and facepiece-mounted breathing regulator from being subjected to high pressure.

Resolution to Certify Funding and Affirm Commitment to Implement Projects in FY 2026-27 - FY 2031-32 OCTA Federal Transportation Improvement Program

TO	PREPARED BY
Finance Committee Members	Wade Whitman, Management Analyst I
DEPARTMENT HEAD APPROVAL	CITY MANAGER APPROVAL
Michael Ho, Public Works Director	Kristin Griffith, City Manager

RECOMMENDATION

Staff recommends that the Finance Committee recommend the City Council take the following action:

1. Adopt Resolution Certifying Resources and Affirming Commitment to the 2027 Federal Transportation Improvement Program.

BACKGROUND/DISCUSSION

The Federal Transportation Improvement Program (FTIP) is a short-range program that implements the long-range Regional Transportation Plan (RTP) to improve mobility and air quality. The FTIP comprises projects of regional significance that are currently funded with State or Federal funding or are anticipated to receive State or Federal funding soon. Regionally significant projects would impact regional travel, emissions, and air quality within the Southern California Association of Government (SCAG) region. Development and adoption of the FTIP is required to receive State and Federal funding, and Federal law requires that the FTIP program be updated at least every two years and be financially constrained.

The Orange County Transportation Authority (OCTA) administers the FTIP program for Orange County cities. As required by the Federal Highway Administration (FHWA), the FTIP must be a financially constrained program, meaning project allocations cannot exceed available funds. To help ensure compliance with the requirements of the FTIP program, there is a requirement for agencies that have projects in the FTIP to adopt a resolution certifying that the projects requested for inclusion in the program (FY 2026/27 through 2031/32) are financially constrained and that the agencies are committed to delivering the projects (Attachment A – Resolution).

The City has one project in the FTIP: The Western Extension to The Tracks at Brea Trail (CIP 7946). This project is the final segment that connects the trail near the Brea Creek Channel to the western City limit. On December 4, 2018, the City Council approved the submittal of a grant application for this project which the OCTA Board subsequently approved. The project's scope includes construction of a dual tread trail consisting of a ten (10) foot asphalt bike path and a five foot decomposed granite walking/jogging surface. Additionally, a 15-foot wide easement from Union Pacific is needed to construct these improvements. Constructing these improvements completes the final connection to The Tracks at Brea and will fill the gap in the countywide 66-mile Orange County Loop bicycle trail. Staff recommends the Finance Committee recommend the adoption of the proposed resolution to City Council to maintain eligibility for grant funding to complete this project.

FISCAL IMPACT/SUMMARY

To ensure compliance with the requirements of the FTIP Program, the City must adopt a Resolution certifying that projects requested for inclusion in the Program (FY 2026/27 through FY 2031/32) are financially constrained and that the City is committed to delivering these projects. Therefore, staff recommends the Finance Committee recommend the adoption of the aforementioned Resolution, which affirms the City's commitment to the project's funding and delivery as submitted in the 2027 Federal Transportation Improvement Program. This action has no fiscal impact on the City's General Fund.
