A G E N D A

The following information comprises the agenda for the regular meeting of the City Council of the City of Redlands at the times noted below in the City Council Chambers, Civic Center, 35 Cajon Street, Redlands, California, on:

TUESDAY, JULY 16, 2024

To join via Zoom on a computer, laptop, or smart device
Please visit www.zoom.us, click on Join a Meeting
Enter the **Meeting ID 824 4618 0187**, then run the Zoom launcher
To join via Zoom with audio only (cell phone or landline):
Dial **1-877-853-5247**
Enter the **Meeting ID 824 4618 0187**

Should the City lose connectivity on Zoom, we will halt the meeting until it can be restored. To check on the status of remote connectivity in the event of an outage, go to the City's website at www.cityofredlands.org or to the City's Facebook page at @CityofRedlands or the Instagram page at @CityofRedlands_CityHall.

In the event the City cannot reestablish Zoom connectivity in a reasonable amount of time, the mayor will adjourn the meeting to a future date.

***PLEASE NOTE**:* Anyone desiring to speak on an agendized item at this meeting may do so during the consideration of that item. Due to time constraints and the number of persons who may wish to give oral testimony, public comments will be limited to three (3) minutes.

- **To provide comment while participating from Council Chambers:**
  - Although it is not required, speakers are encouraged to submit a "Speaker Sign Up Sheet" before the meeting is convened. Forms are available in the Office of the City Clerk or in Council Chambers.
  - After the meeting has convened, you may place the speaker form in the basket at the table along the north wall of the Chambers. Please do not disturb the City Clerk while the meeting is in progress.

- **To provide comment through Zoom (on a computer, laptop, or smart device)**:
  - Click the "Raise Hand" button and the moderator will unmute you when it is your turn to speak

- **To provide comment via audio only (cell phone or landline)**:
  - Dial *9 to "Raise Hand". The moderator will identify you by your area code and last 3 numbers of your telephone number when it is your turn to speak.

PLEASE SILENCE CELL PHONES, PAGERS AND OTHER ELECTRONIC COMMUNICATION DEVICES UPON ENTERING THE CHAMBERS

Recycled Paper

5:00 P.M.

A. **Call City Council Meeting to Order.**

B. **Public Comment**
(Any person wishing to provide public comment on a closed session matter may do so at this time.)

C. **Recess City Council Meeting to a Closed Session**

1. Conference with legal counsel: Existing Litigation - Government Code §54956.9(d)(1)
(City Attorney Garcia)
Four Cases:

   a. Sedlick, et al. v. City of Redlands, et al., U.S. District Court, Central District, Case No. 5:23-cv-00457-JGB-KKx
   b. Navarrete v. City of Redlands, San Bernardino Superior Court, Case No. CIVSB2207828
   c. Salcido v. City of Redlands, San Bernardino Superior Court, Case No. CIVSB2218452
   d. Holzer v. City of Redlands, et. al., San Bernardino Superior Court, Case No. CIVSB2322787

2. a. Conference with Labor Negotiator – Government Code §54957.6
(Assistant City Manager McConnell)

Agency Negotiators:	Mayor Tejeda and Mayor Pro Tempore Barich
Unrepresented Employees:	City Manager

6:00 P.M.

D. **Reconvene City Council Meeting**

E. ***Invocation by Council Member Saucedo- Pledge of Allegiance***
(In keeping with long-standing traditions of legislative invocations, this City Council meeting may include a brief invocation. Such invocations are not intended to proselytize or advance any one, or to disparage any other, faith or belief. Neither the City nor the City Council endorses any particular religious belief or form of invocation.)

F. **Closed Session Report**
(No reportable action taken in closed session unless otherwise announced by the City Attorney at this time.)

G. **Public Comment - City Council**
(At this time, the City Council will provide an opportunity for the public to address them on any subject, within the jurisdiction of the City Council, which is not already scheduled on this agenda. However, any matter that requires action will be referred to staff for a report and possible action at a subsequent meeting. Comments will be limited to three {3} minutes.)

H. **Consent Calendar**
(The following routine items have been recommended for approval and will be acted upon simultaneously unless separate discussion and/or action is requested by a Councilmember or a member of the audience.)

Recycled Paper

1. Approve the regular meeting minutes of July 2, 2024 (City Clerk Donaldson)

2. Approve recommendation for the appointments of Stephen Crane and Don Young to serve on the Citizens' Measure T Oversight Committee (Mayor Tejeda)

3. Approve recommendations for the appointment of Rick Cummings and Edie Punt to serve on the Cultural Arts Commission (Mayor Tejeda)

4. Disclosure of Settlement Agreement and Release of All Claims - Lissette Atkinson v. City of Redlands; San Bernardino County Superior Court Case No. CIVSB 2224706 (City Attorney Garcia)

5. Adopt Resolution No. 8612 to receive an annual report of City of Redlands surplus lands (Assistant City Manager Boatman)

6. Approve First Amendment to the Public Works Contract with AME Builders, Inc. doing business as AME Roofing for the repair and replacement of the City's Emergency Operations Center roof and rooftop HVAC units to incorporate required federal contract provisions (Fire Chief Sessler)

7. Approve the purchase of a Genset Generator from Cummins Inc. in the amount of $72,565.61 (Fire Chief Sessler)

8. Approve the Intergovernmental/Piggyback purchase of a Dell PowerStore Storage Area Network in the amount of $163,402 from Sidepath (Management Services/Finance Director Garcia)

9. Approve an Intergovernmental/Piggyback purchase of a Rubrik Data Protection Solution services pack for $218,005 from ePlus (Management Services/Finance Director Garcia)

10. Approve Resolution No. 8613 to authorize a one-year Extension of Time to the expiration date of Conditional Use Permit No. 1136 with associated entitlements to construct a church facility and school that includes nine buildings totaling 102,574 square-feet of floor area and related site improvements on 19.46 gross acres of vacant land. The project site is located on the north side of Lugonia Avenue, and approximately 300 feet west of Dearborn Street, in the Residential Estate (R-E) District (APNs: 0168-161-02-0000 and 0168-161-03-0000) (Development Services Director Desatnik)

11. Adoption of Ordinance No. 2972 levying special taxes within the City of Redlands Community Facilities District No. 2004-1 (Development Services Director Desatnik)

12. Approve Resolution No. 8614 to authorize a one-year time extension to the expiration date of Commission Review and Approval No. 918 for the construction of a 12,585 square-foot supportive housing facility (assisted living for seniors) with 28 beds, and related on-site improvements including driveways, parking lot, landscaping, and lighting on a one-acre property. The project site is a vacant lot located on the north side of North Place (APN: 0173-011-39-0000), approximately 400 feet east of S. Center Street, in the Residential Suburban (R-S) District (Development Services Director Desatnik)

13. Reject all bids for the Recycled Water for California Street Orange Groves Project, Project No. S531021, and direct staff to solicit new bids for the project (Municipal Utilities and Engineering Director Harris)

14. Adopt Ordinance No. 2962 and Ordinance No. 2968 related to Development Impact Fees Adjustments (Municipal Utilities and Engineering Director Harris)

Recycled Paper

15. Approve the termination of the Non-Potable Irrigation Water System Memorandum of Understanding with the San Bernardino Community College District and determine that this action is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act (Municipal Utilities and Engineering Director Harris)

16. Approve Amendment No. 1 to the San Bernardino County Transportation Authority (SBCTA) Master License Agreement (Contract No. 23-1002930) for City utilities within SBCTA rights-of-way, and determine that approval of the amendment is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act (Municipal Utilities and Engineering Director Harris)

17. Approve a Professional Services Agreement with Willdan Engineering for code enforcement services for an amount not-to-exceed $160,000 (Facilities and Community Services Director Crocker)

18. Accept the sculpture artwork donation "*Reflections"* by artist Saim Caglayan, from Tampa Tarzana, LLC (Facilities and Community Services Director Crocker)

19. Approve the in-kind support request of $6,848 from Kid's Cures Foundation, for the Downtown Redlands Artwalk to be held on October 27, 2024; a request to close East State and 5th Street; and determine that the approval of the request is exempt from environmental review pursuant to Section 15311(c) of the state's guidelines implementing the California Environmental Quality Act (Facilities and Community Services Crocker)

20. Approve the request to hold Vibe Health and Wellness Festival event hosted by University of Redlands, Alliance For Community Transformation and Wellness (ACTW) on September 29, 2024, within Sylvan Park and the surrounding area; authorize street closures related to the event; approve a request for in-kind support in the amount of $13,820 related to the event and determine that the approval of the request is exempt from environmental review pursuant to Section 15311(c) of the state's guidelines implementing the California Environmental Quality Act (Facilities and Community Services Director Crocker)

I. **Communications**

1. Redlands Conservancy Report presented by Executive Director Sherli Leonard (Facilities and Community Services Director Crocker)

J. **Public Hearings**

1. Public Hearing to consider Resolution No. 8611- Delinquent Municipal Services Account Report (Mayor to declare the meeting open as a public hearing)

   A. Resolution No. 8611 will approve the Delinquent Municipal Services Account Report and submittal of the Report to the Auditor-Controller of San Bernardino County for Lien Processing (Management Services/Finance Director Garcia)

2. Public Hearing to consider Resolution No. 8618 - Delinquent Administrative Citation and Fine Report
(Mayor to declare the meeting open as a public hearing)

   A. Resolution No. 8618 will adopt the Delinquent Administration Citation Fine Report and submittal to the Auditor-Controller of San Bernardino County for Lien Processing (Facilities and Community Services Director Crocker)

Recycled Paper

3. Public Hearing to consider the following applications for a used automobile sales and service facility located on a 18.56 gross acre site located on the west side of New York Street at West Brockton Avenue, approximately 1000 feet north of West Colton Avenue (APNs: 0169-011-38-0000 and 0169-011-39-0000) in the General Commercial (EV/CG) District of the East Valley Corridor Specific Plan.
(Mayor to declare meeting open as a public hearing)

   A. Consideration of **Resolution No. 8615** for adoption of a **Mitigated Negative Declaration** and Mitigation Monitoring & Reporting Program prepared for the project in accordance with Section 15074 of the California Environmental Quality Act, and adoption of a Socio-Economic Cost/Benefit Study prepared in accordance with Measure "U."
   B. Consideration of **Resolution No. 8616** for **Amendment No. 52 to the East Valley Corridor Specific Plan** – A proposal to amend Section EV3.0713 of the East Valley Corridor Specific Plan (Specific Plan 40) to allow sales of pre-owned automobiles as a conditionally permitted land use, without related sales of new automobiles, within the Commercial General (EV/CG) District.
   C. Consideration of **Resolution No. 8617** for approval of **Conditional Use Permit No. 1179 and Commission Review & Approval No. 962** – A request to establish a pre-owned automobile sales and service/reconditioning facility within the Commercial General (EV/CG) District of the East Valley Corridor Specific Plan, and construction of a pre-owned automobile sales and service/reconditioning facility (consisting of a 4,958 square-foot sales building, a 39,621 square-foot service/reconditioning building, a 3,708 square-foot quality control building with private carwash, a private fuel tank/dispenser, and a six acre outdoor vehicle storage area). Related site improvements include customer and employee parking lots, driveways, landscape areas, lighting. walls and fences, and vehicle display and storage areas. (Development Services Director Desatnik)

4. Public hearing to consider Planned Development No. 7; Lot Merger No. 8
(Mayor to declare meeting as public hearing)

   A. Construction of a 357,610 square-foot warehouse (including 6,000 square feet of office space) and related site improvements including parking lots, loading docks, landscaping, walls and fences, lighting, stormwater drainage facilities, and utility connections on approximately 16 net acres located at 1101 California Street on the west side of California Street between Lugonia Avenue and Interstate 10 (APNs: 0292-033-11-0000 and 0292-033-13-0000);

   B. Mitigated Negative Declaration and corresponding Mitigation Monitoring and Reporting Program prepared for the project in accordance with Section 15074 of the CEQA Guidelines; and the Socio-Economic Cost/Benefit Study prepared for the project in accordance with Measure U (Development Services Director Desatnik)

K. **New Business**

1. Consideration of a sole source purchase with Horizon Structures, LLC for a modular kennel building not to exceed the amount of $275,000, an additional appropriation of the same, and authorize the City Manager or his designee to execute all documents pertaining to the purchase (Facilities and Community Services Director Crocker)

2. Consideration of a request to establish restricted parking zones on 3rd Street and Al Harris Lane, and determine this action is exempt from environmental review pursuant to Section 15061(b)(3) of the guidelines implementing the California Environmental Quality Act (Municipal Utilities and Engineering Director Harris)

Recycled Paper

3. Consideration of Resolution No. 8610 to adopt a Mitigated Negative Declaration and Mitigation Monitoring/Reporting Program prepared for the proposed Sunset Reservoir Replacement Project in accordance with Section 15074 of the California Environmental Quality Act Guidelines (Municipal Utilities and Engineering Director Harris)

4. Consideration of a Master Service and Purchasing Agreement with Axon Enterprise, Inc. to purchase 105 Taser 10 conductive electrical weapons and required accessories for a total amount not to exceed of $549,724.94, and authorize the Police Chief to sign the agreement (Police Chief Tolber)

L. **Individual Council Member Announcements and/or Reports on Activities**
(No collective discussion or action.)

M. **Adjournment**
The next regular meeting of the City Council will be held on September 3, 2024.

If you challenge any proposed development entitlement listed on this agenda in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the City Council at or prior to this public hearing.

In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, please contact Goutam Dobey, of the Municipal Utilities and Engineering Department at (909) 798-7584 ext 2. Notification 48 hours prior to the meeting will enable the City to make reasonable arrangements to ensure accessibility to this meeting.

(28 CFR 35.102-35.104 ADA Title II)

Any writings or documents distributed to a majority of the City Council regarding an open session agenda item less than 72 hours before this meeting are available for public inspection at the City Clerk's Office or at the dais of the City Clerk once the open session begins.

Staff reports or other written documentation relating to items referred to on the agenda are available at the A. K. Smiley Public Library, 125 West Vine Street, Redlands, California, and on the City's website referenced below.

Regular meetings are televised live on Redlands TV Channel 3 (Spectrum) and Channel 35 (Frontier) and re-broadcast at 7:00 P.M. the following Wednesday, Friday and Sunday; and at 9:00 A.M. Thursday, Saturday and Monday. Meetings are also streamed live and archived for later viewing on demand on the City's website at www.cityofredlands.org. Agendas, staff reports and minutes of the City Council of the City of Redlands are available online at: www.cityofredlands.org.

City Council Meeting **H. 1.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve the regular meeting minutes of July 2, 2024 (City Clerk Donaldson)

MOTION:

I move to approve the regular meeting minutes of July 2, 2024.

Attachments

Regular meeting minutes of June 2, 2024

MINUTES

Regular meeting of the City Council of the City of Redlands held in the Council Chambers, Civic Center, 35 Cajon Street, on July 2, 2024 at 5:00 P.M.

Present: Eddie Tejeda, Mayor
Paul Barich, Mayor Pro Tempore
Denise Davis, Council Member
Jenna Guzman-Lowery, Council Member
Mario Saucedo, Council Member

Staff: Charles M. Duggan, Jr., City Manager; Yvette M. Abich Garcia, City Attorney; Jeanne Donaldson, City Clerk; Phillip Doolittle, City Treasurer; Chris Boatman, Assistant City Manager; Danielle Garcia, Management Services/Finance Director; Brian Desatnik, Development Services Director; John Harris, Municipal Utilities and Engineering Director; Rich Sessler, Fire Chief; Rachel Tolber, Police Chief; Tabitha Crocker, Facilities and Community Services Director; Robert Meteau, HR/Risk Management Director

Mayor Tejeda called the meeting to order and explained that comments could be presented in-person, via Zoom, via cell phone or landline. He offered the public an opportunity to provide comment on any item on the agenda for the closed session.

PUBLIC COMMENT

Raising Questions - Steve Rogers wondered why the performance evaluations for the City Manager and the City Attorney were being considered at this time, when it seemed to him the contracts were not due for negotiation. He raised concerns about the labor negotiation team and asked for resolution to what he called a simple matter of a dispute he had with the City.

CLOSED SESSION

Conference with legal counsel: Existing Litigation - Government Code §54956.9(d)(1)
(City Attorney Garcia)
Two Cases:

a. Atkinson v. City of Redlands, et al., San Bernardino Superior Court Case No. CIVSB2224706
b. Coyote Aviation Corporation, et al. v. City of Redlands, et al., San Bernardino Superior Court, Case No. CIVSB2418252

a. Performance Evaluations of Public Employees – Government Code §54957(b)(1)
Positions: City Attorney and City Manager

b. Conference with Labor Negotiator – Government Code §54957.6
(Assistant City Manager McConnell)

Agency Negotiators:	Mayor Tejeda and Mayor Pro Tempore Barich
Unrepresented Employees:	City Manager

RECONVENE CITY COUNCIL MEETING

The meeting reconvened at 6:12 P.M. with an invocation by Council Member Guzman-Lowery followed by the pledge of allegiance to the American flag.

CLOSED SESSION REPORT

City Attorney Garcia announced that under Item Closed Session, C-1a, consideration of Atkinson v. City of Redlands, et al., San Bernardino Superior Court Case No. CIVSB2224706, the City Council unanimously approved to settle the lawsuit with Ms. Atkinson in the amount of $175,000 and the cost of mediation, by motion of Mayor Pro Tem Barich, seconded by Council Member Saucedo. There was no reportable action taken on all other closed session matters.

PRESENTATIONS

Redlands Pet Adoption

Animal Services Supervisor Jodi Kroeger and Kennel Attendant Hailey Stuck introduced "Rosa", a two-year-old female Pit Bull, who is available for adoption, along with forty-three other dogs and fifteen cats at the Redlands Animal Shelter. Ms. Kroeger informed the Council there had been eighteen dogs and thirty cats adopted in June 2024. She announced the Shelter was full, and all dog adoption fees would be waived.

Juneteenth Proclamation

Council Member Saucedo presented Juneteenth Proclamations to Bishop Green, Maria Saucedo, LaRena García, Shawn Zambrows, and Jay Strovall.

PUBLIC COMMENT

Various Concerns - Steve Rogers read from a letter he sent to the Council Members, regarding the City's delegation of engineering duties, and he asked for a follow-up response to matters he discussed with Police Chief Tolber and HR/Risk Management Director Meteau. He requested written confirmation from BB&K that the matter was closed.

City Manager Duggan clarified that the State Board of Professional Engineers declined to take any action on the complaint submitted by Mr. Rogers.

RPOA and Event Activities - Jeff Frisch, representing the Redlands Police Officers Association (RPOA) expressed frustration with the group who organized an event held last weekend at Sylvan Park where coloring sheets were distributed depicting a burning police car. Police officers, working the event, found it very offensive, and they were disappointed with those Council Members who attended and appeared to support the activities. He said the RPOA consistently strives to foster relationships within the community, especially with young people.

Pride Awareness Event - Ashley Williamson and Felipe Albertao spoke about the coloring page distributed at the Pride awareness event and said the images represented the history of the Stonewall incident in New York.

U.S. Flag Donation - Dr. Ramarrishna Tadi donated a United States flag that had been flown at the U.S. capital.

South Mountain Water Shares - Elizabeth Long said the City should not be in the business of selling water shares and, in particular, she opposed the recent sale of the South Mountain water shares. David Armstrong said he was still waiting for answers to why the City sold off the shares, along with 55 acres of land, and he thought it was poor optics for the Council to consider raising water rates at this time. Zoom caller Shay also asked for answers, and he urged the City to suspend action to increase water rates.

City Manager Duggan announced that everyone with questions about the sale of South Mountain water shares was welcome to attend the Utilities Advisory Committee meeting scheduled for later this month, where the City can respond in full. He pointed out that staff had responded to Mr. Armstrong earlier in the day, and before taking any action to sell the shares, the City received an appraisal and legal advice.

City Vehicles - Dennis Bell questioned why some City employees were driving 4-wheel drive trucks, since he thought it unnecessary and a waste of money.

RUSD Summer Meals Program - Alyssa Cummings and Jennifer Petty announced the Redlands Unified School District (RUSD) summer meal program was in full swing, and they encouraged all families with children to come to one of their locations throughout the City, where meals will be enjoyed onsite.

Separation of Church and State - Bruce Laycook urged the Council to be mindful of the importance of separation of church and state.

Pride Flag - Anthony Dodd pointed out there are two city flagpoles in front of City Hall, and he urged the Council to fly the pride flag.

CONSENT CALENDAR

Minutes

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Denise Davis, the City Council unanimously approved, by roll call vote, the regular meeting minutes of June 18, 2024.

Vote: 5 - 0 Passed

Juneteenth Proclamation

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Denise Davis, the City Council unanimously authorized, by roll call vote, the issuance of a Proclamation recognizing Juneteenth..

Vote: 5 - 0 Passed

Resolution No. 8597 Records Retention Schedule

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Denise Davis, the City Council unanimously adopted, by roll call vote, Resolution No. 8597 concerning a Records Retention Schedule and rescinding Resolution No. 6576.

Vote: 5 - 0 Passed

Resolution No. 8608 Appropriations Limit for Fiscal Year 2024-2025

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Denise Davis, the City Council unanimously adopted, by roll call vote, Resolution No. 8608 establishing an Appropriations Limit for Fiscal Year 2024-2025 pursuant to Article XIII B of the California Constitution.

Vote: 5 - 0 Passed

Annual Payment RPD Fingerprint Identification Services

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Denise Davis, the City Council unanimously authorized, by roll call vote, the annual payment to San Bernardino County Sheriff's Department (Cal-ID/Identix) in the amount of $84,926 for Redlands Police Department's Fingerprint Identification Services.

Vote: 5 - 0 Passed

Resolution No. 8603 Street Vacation No. 194

This item was pulled from tonight's meeting to allow staff time to conduct additional research. The matter will be scheduled for a future meeting.

As public comment, Duncan Shantz, the owner of Jadeland Developments, offered some historical context related to his request to vacate portions of Mecca Street adjacent to the parcels he owns, which, he said, will allow potential future property improvements or development of the properties without further concern about encroachment into the public right-of-way.

MOU RUSD School Resource Officer Program

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Denise Davis, the City Council unanimously approved, by roll call vote, the Memorandum of Understanding between the City of Redlands and the Redlands Unified School District for the School Resource Officer Program.

Vote: 5 - 0 Passed

Adopt Ordinance Nos. 2969 and 2970 Assessments for LMD and SLD

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Denise Davis, the City Council unanimously adopted, by roll call vote, Ordinance No. 2969, confirming a diagram and assessment for the 2024-2025 Fiscal Year in connection with Landscape Maintenance District No. 1; and adopted Ordinance No. 2970, confirming a diagram and assessment for the 2024-2025 Fiscal Year in connection with Street Lighting District No. 1.

Vote: 5 - 0 Passed

Equipment Rental Agreement

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Denise Davis, the City Council unanimously determined, by roll call vote, that approval of the rental agreement is exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15061(b)(3) of the CEQA guidelines; approved the equipment lease with C5 Equipment Rentals for the 3-month rental extension of a D8 Dozer in the amount of $53,160; and approved a sole source purchase order modification to a not-to-exceed total of $141,760.

Vote: 5 - 0 Passed

In-kind Support for the Jagannath Rath Yatra Event

Facilities and Community Services Director Crocker introduced the request for in-kind support in the amount of $8,446 relating to the Jagannath Rath Yatra event hosted by the Shri Darshan on July 13, 2024 and the request to close Church St., E Colton Ave., Division St., and E High Ave. for the event. As public comment, Dennis Bell noted he thought this was the first year the event was scheduled in Redlands, and he urged the Council to focus on paying the bills and addressing more critical needs, rather than approving every in-kind request presented to them.

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Mario Saucedo, the City Council unanimously determined, by roll call vote, that approval of the request for the event Jagannath Rath Yatra is exempt from environmental review pursuant to Section 15311 of the State's guidelines implementing the California Environmental Quality Act; authorized and approved a request for in-kind support in the amount of $8,446.00 relating to this event; and authorized the temporary closure of Church St., E Colton Ave., Division St., and E High Ave., on July 13, 2024.

Vote: 5 - 0 Passed

Resolution No. 8605 FY 24/25 - FY 28/29 Five-Year Measure I CIP

Municipal Utilities and Engineering Director Harris reviewed Resolution No. 8605 for the FY 24/25 through FY 28/29 Five-Year Measure I Capital Improvement Plan, explaining this was an administrative action, so the City is eligible to receive funds. As public comment, Steve Rogers asked if the amount listed in the staff report as $20 million was a typo. Director Harris confirmed it was a typo and the amount should be listed as $2 million. Dennis Bell stated that SBCTA was working on a tax measure to go before the voters related to Measure I, and he said the program needs a thorough audit, because in his opinion, there was very little to show for the funds that had been collected.

On motion of Council Member Mario Saucedo, seconded by Council Member Jenna Guzman-Lowery, the City Council unanimously determined, by roll call vote, that approval of Resolution No.8605 is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act; and approved Resolution No. 8605 for the Fiscal Year 24/25 through Fiscal Year 28/29 Five-Year Measure I Capital Improvement Plan.

Vote: 5 - 0 Passed

Sampling and Special Analytical Services Agreement

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Denise Davis, the City Council unanimously determined, by roll call vote, that approval of a Professional Services Agreement with ALS Group USA, Corp. is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act; and approved the Professional Services Agreement with ALS Group USA, Corp. for sampling and special analytical services with an initial one (1) year term in the amount of $34,000, with options to extend for two (2) additional one-year terms, for a total potential amount not-to-exceed $102,000.

Vote: 5 - 0 Passed

COMMUNICATIONS

Use of Zoom and Teleconferencing

Council Member Saucedo opened the discussion related to the use of Zoom and Teleconferencing under Assembly Bill (AB) 2449 for City Council and Planning Commission meetings. He explained that he brought this item back for the Council to evaluate the policy again because of the hate speech received by three Zoom callers during the May 7, 2024 Council meeting. He thought open dialogue with the public would be useful.

On July 25, 2023, the City Council authorized the continued use of Zoom and allowed remote participation pursuant to AB 2449 for all meetings of the City Council and Planning Commission. City Manager Duggan offered three options to consider, including: 1)

Continue the use of Zoom for all meetings of the City Council and Planning Commission and to comply with teleconferencing requirements as described in AB 2449; 2) Authorize the continued use of Zoom only when City Council members or Planning Commissioners are complying with the requirements of AB 2449; 3) Discontinue the use of Zoom for all meetings of the City Council and the Planning Commission (and all commissions, boards and committees) and only allow remote participation under the Brown Act's traditional, pre-pandemic teleconferencing rules. Staff conducted a brief survey to determine how many municipalities in the surrounding area exercise remote participation under AB 2449 for City Council meetings. Of the 14 municipalities contacted, three use AB 2449, eleven follow traditional Brown Act rules.

As public comment, seventeen people, including Germaine Miles, Michael Paisner, Chamber of Commerce Executive Director Evan Sanford, Maria Bruner representing Assemblymember Eloise Reyes, Jen Kim, Felipe Albertao, Rudi Whitmore, Marcella Wallin, Valerie Taber, Laura Kreneck, Trisha Keeling, Ashley Williamson, Ryan, Eddie D., Amber, Gregory Brittain, and Jennifer Maravillas spoke in support of continuing Zoom as a way to engage the public, promote equal and fair access, and they thought the benefits far outweighed any fears of hate speech from Zoom callers or any technical glitches that might be experienced. Several people said the City should be encouraging public participation, not discouraging it.

City Attorney Garcia added that speech, even hate speech, was protected under the 1st Amendment. Council Members voiced their perspectives and agreed that Zoom was a valuable tool for all kinds of people, including parents of young children and those whose work schedules prevented them from attending in person. They recognized the desired goal was to promote transparency and offer access to everyone, and there was added value as remote attendees were helping to reduce their carbon footprint.

On motion of Mayor Pro Tempore Paul Barich, seconded by Council Member Jenna Guzman-Lowery, the City Council unanimously authorized, by roll call vote, the continued use of Zoom for all meetings of the City Council and Planning Commission and to comply with teleconferencing requirements as described in AB 2449.

Vote: 5 - 0 Passed

League of California Cities Annual Conference Voting Delegate

City Manager Duggan reviewed the need to designate a voting delegate and an alternate to the 2024 League of California Cities Annual Conference scheduled to occur October 16-18, 2024 in Long Beach.

On motion of Mayor Pro Tempore Paul Barich, seconded by Mayor Eddie Tejeda, the City Council unanimously designated, by roll call vote, Council Member Mario Saucedo to serve as the voting delegate; and designated Council Member Denise Davis to serve as the alternate voting delegate for the League of California Cities 2024 Annual Conference.

Vote: 5 - 0 Passed

Mayor Tejeda called for a brief recess at 8:16 P.M. The meeting reconvened at 8:21 P.M.

PUBLIC HEARINGS

Development Off-street Parking Facility for Trucks

Mayor Tejeda opened the public hearing and called on Principal Planner Sean Reilly, of Development Services, for a summary of Resolution No. 8606 related to applications for a four-acre parcel located at 2407 W. Lugonia Avenue within the Special Development (EV/SD) District of the East Valley Corridor Specific Plan, as submitted by the Applicant, LBA RVI-COMPANY XLVII, LLC. The applications included: 1) Planned Development No. 9, to establish permitted uses, conditionally permitted, and development standards consistent with the Commercial Industrial (EV/IC) District of the East Valley Corridor Specific Plan to allow development of an off-street parking facility for trucks, trailers, cabs and other fleet vehicles; and 2) Conditional Use Permit (CUP) No. 1194, for authorization to operate an off-street truck parking facility with existing on-site improvements (paving, storm water detention facilities, landscaping, site lighting, fencing and gate) and the construction of a proposed 310 square-foot guard house with restroom facilities.

On April 23, 2024, the Planning Commission voted 5 to 0 recommending that the City Council approve Planned Development No. 9 and on May 28, 2024, the Commission voted 5 to 0 recommending that the Council approve CUP No. 1194. The applicant, represented by Jonathan Shardlow, addressed Council Member questions, stating the developer had been able to remedy noise complaints, and he thanked staff for their time and assistance. There were no written comments received and with no further discussion, Mayor Tejeda closed the public hearing.

On motion of Mayor Pro Tempore Paul Barich, seconded by Council Member Jenna Guzman-Lowery, the City Council unanimously determined, by roll call vote, the project qualifies for exemption from environmental review in accordance with Section 15303 (New Construction of Small Structures) and 153332 (Infill Development) of the California Environmental Quality Act (CEQA) Guidelines; and adopted Resolution No. 8606 to approve Planned Development No. 9 and Conditional Use Permit No. 9 for 2407 West Lugonia Avenue.

Vote: 5 - 0 Passed

Resolution No. 8571, Ordinance No. 2962, and Ordinance No. 2968 DIF Adjustments

Mayor Tejeda declared the meeting open as a public hearing and called on Municipal Utilities and Engineering Director Harris for a report on Resolution No. 8571 which will adopt the Development Impact Fee (DIF) Nexus Study completed by DTA. Ordinance No. 2962 was prepared to amend the Redlands Municipal Code for public facilities (fire, police, library, and government), open space and parks, transportation improvements, storm drain facilities, water facilities, water rights, solid waste facilities, and sewer facilities. Ordinance No. 2962 determines that the specific amounts of fees for new development are to be established by the City Council. Ordinance No. 2968 was prepared to establish the specific amounts of DIF for new development. These ordinances apply to the Redlands Municipal Code's chapters 3.32, 3.44, 3.48, 3.54, 3.56, 3.60, 3.70, and 13.40, with a proposed effective

date of sixty days after adoption of the ordinances.

The Nexus Study analyzed appropriate fees to fund additional infrastructure and services necessary to support new growth. The DIF study analyzed fees identified in the Redlands Municipal Code. The updated DIF study was prepared and finalized by David Taussig and Associates, Inc. (DTA) on May 2, 2024, and will update the 2017 and 2018 DIF studies. In addition to the fees analyzed in the 2017 and 2018 DIF studies, the proposed DIF study will also include updated fees for water facilities, solid waste facilities, sewer facilities, and acquisition of water stocks and water rights. The fees shall be evaluated periodically to ensure appropriate revenue is collected from development projects to support expanded services. Nehal Thumar and Andrea Roess, of DTA, responded to Council Member questions related to the DIF charges and the legal justification under the code. The study process established a baseline, considered facility needs, incorporated facility master plans and quantified impacts.

As public comment, Jonathan Shardlow, of NAIOP, said these were big policy decisions, and he asked the Council to hold off approval tonight to allow for more time to engage stakeholders. Ana Gromis, representing the Building Industry Association of Southern California (BIA), requested the Council amend the effective date of the proposed DIF update to begin on January 1, 2025, rather than 60 days after adoption, as it would be unfair to add unanticipated costs to projects that are beginning construction or are currently in the later stages of review by planning and engineering staff. Steve Rogers complained that the City's facility master plans were not sufficient, as they were merely guidelines, and he thought the City was seriously undercharging for development impacts. James Brownyard, of Desert Valleys Builders Association, added they were still striving to understand the study results, and he pointed out the fees associated with water supply and the replacement fire station were listed incorrectly and should be corrected. Gregory Brittain opposed increasing fees, adding that California's median home price was 2nd highest in the nation. Two written comments were received from Jonathan Shardlow of NAIOP and Carlos Rodreguez of BIA, requesting the Council delay approval of the DIF Adjustments. With no further discussion, Mayor Tejeda closed the public hearing.

Council Members discussed several topics, including compliance with Measure U, the voter-approved measure relating to growth management, the consideration of delaying the effective date to January 1, 2025 and how that might affect projects currently in the pipeline, and establishing a set of new fees to address shortfalls. Any new fee adjustments would require an additional Nexus Study, and the report must include data supporting any changes.

On motion of Council Member Mario Saucedo, seconded by Mayor Eddie Tejeda, the City Council unanimously determined, by roll call vote, that the adoption of Resolution No. 8571, and the introduction of Ordinance No. 2962, and Ordinance No. 2968 is exempt from environmental review pursuant to Sections 15061(b)(3) of the California Environmental Quality Act; approved Resolution No. 8571, introduced Ordinance No. 2962; and introduced Ordinance No. 2968, verbally amending Section 13, setting the effective date to January 1, 2025, related to Development Impact Fees Adjustments.

Vote: 5 - 0 Passed

Ordinance Nos 2964 and 2965 Water Utility and Wastewater Utility Rate Adjustments

Mayor Tejeda opened the public hearing and called on Municipal Utilities and Engineering Director Harris for a presentation of Ordinance No. 2964 and Ordinance No. 2965 Amending Chapters 3.52 and 3.62 of the Redlands Municipal Code relating to Water Utility and Wastewater Utility Rate Adjustments. He offered background on the Utility Advisory Committee (UAC) and said the seven members of UAC worked with Municipal Utilities and Engineering (MUED) staff and the City's Utility Rate Consultant, Raftelis, to develop rate recommendations that provide adequate revenue to recover costs for services, are equitable to all customer classes, comply with state and federal laws, and are easily explained to customers. The UAC serves in an advisory capacity to the City Council.

The rate review process began by introducing the UAC to the MUED structure, water and wastewater utilities, and 6-year Capital Improvement Program (CIP). The UAC reviewed historic and projected operating, maintenance, and CIP costs necessary to provide high-quality services for Redlands' utility customers. Raftelis presented a financial analysis including multi-year revenue projections, target reserve balances, and annual labor and material cost escalations. Several rate scenarios were modeled and considered by the UAC which ultimately recommended the following revenue adjustments:

Potable Water Utility: 2% increase in FY 24/25; 2% increase in FY 25/26
Non-Potable Water Utility: 0% increase in FY 24/25; 0% increase in FY 25/26
Wastewater Utility: 10% increase in FY 24/25; 10% increase in FY 25/26

The increases will be applied to customer classifications proportionally based on the demands placed on each utility and will generate the additional revenue necessary to continue providing water and wastewater utility services for all Redlands customers.

On May 7, 2024, City Council adopted Resolution No. 8583, a notice of intent to increase water utility and wastewater utility rates and directed staff to issue a Public Hearing Proposition 218 notice and protest procedures detailed in Resolution No. 7128. The Proposition 218 notice and Resolution No. 7128 were mailed to each Redlands property owner and each water utility and wastewater utility customer on May 10, 2024. The notice provides rate increase protest directions, with one written protest per identified parcel or property to be counted for determining whether a majority protest exists.

As public comment, Elizabeth Longo, Mario Lopez, Gregory Brittain, Steve Rogers, and Jennifer Maravillas opposed the rate increases, citing the negative impacts on family budgets, especially on those with fixed incomes, and the outdated procedures for submitting a protest. Andy Hoder recalled a time when the Wastewater Treatment Plant (WWTP) was facing a catastrophic failure, and he said that even though he didn't like the idea of higher rates, the WWTP needed to be fixed. UAC members Dick Corneille and Dan Jimenez defended the recommendations, explaining that there was not only the upfront cost of the WWTP Project itself, but there was also the cost of maintenance. Dennis Bell attributed the rate increase to failed leadership, and he pointed out the consultant estimated the total cost was $110 million and not $45 million as stated by staff. Director Harris responded by saying that yes, the ultimate total cost of the project was estimated at $110 million, but the cost to perform the immediate needs was accurately stated at $45 million.

City Clerk Donaldson informed the Council that 19,973 properties received a Proposition 218 notice with directions to make a formal protest. She announced that her office received 73 written protests declaring their opposition to a water and wastewater rate increase. This number is insufficient to meet the 50% plus one (or 11,172), required for a successful Proposition 218 protest to stop implementation of the new rates. With no further comments, the Mayor closed the hearing. Council Member discussion focused on concerns raised by public comments and the serious need to address the WWTP repairs. They asked staff to look into establishing an assistance program and to consider ways to effectively educate the community.

On motion of Council Member Denise Davis, seconded by Mayor Pro Tempore Paul Barich, the City Council unanimously adopted, by roll call vote, Ordinance No. 2964, and Ordinance No. 2965 to amend Redlands Municipal Code Chapters 3.52 and 3.62 relating to Water Utility and Wastewater Utility rate adjustments.

Vote: 5 - 0 Passed

NEW BUSINESS

Greenhouse Gas Inventory Update and Progress Report

Assistant Planner Jazmin Serrato, of Development Services, provided a brief overview of the Greenhouse Gas (GHG) Inventory Update and Progress Report related to the Climate Action Plan Update project. The two primary objectives of the Climate Action Plan Update are 1) To monitor/benchmark progress toward the 2030 and 2035 GHG reduction targets established in the City's 2017 Climate Action Plan, which was prepared concurrently with the 2035 General Plan and consistent with previous State GHG reduction goals; and 2) To update the 2017 Climate Action Plan to reflect the latest climate science and State guidance, as well as align with new City and State targets for 2030 and 2045. As a "qualified" GHG reduction plan, the updated Climate Action Plan will provide unified City actions, and CEQA clearance for streamlining future projects.

She introduced Mayu Tanaka, Senior Associate with Dyett & Bhatia for a more thorough and detailed update related to the GHG reduction goals and the potential GHG reduction strategies and policies. Her presentation was broken into three parts, including background and purpose, GHG progress report and discussion and suggestions for strategies. Through a series of slides, she offered case examples, key regulations taken since the City's 2017 CAP and provided a summary of framework strategies: 1) Transportation and natural gas remain the largest contributors; 2) Agencies cannot eliminate solid waste and wastewater emissions entirely, and reductions are somewhat limited; and 3) CARB recommends prioritizing strategies that electrify transportation, decarbonize buildings, and reduce vehicle miles traveled (VMT)

As public comment, Michael Paisner offered a short history lesson about climate change, listing statistics, and added that these ideas are not new, and not radical, and he thanked the City for prioritizing this matter. Bruce Laycook raised several questions about the state's laws which have dramatically forced a reduction of rooftop solar, and he urged the Council to support any efforts to incentivize rooftop solar to help lower net electricity bills. Dick Corneille, of ANCA, fully supported the update report and said the group was

looking forward to participating with the project in the future. Gregory Brittain said that climate change theory was a hoax and not based on real facts and the public was being forced to eliminate the use of their cars. Council Members voiced their appreciation of the very informative update.

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Denise Davis, the City Council unanimously approved, by roll call vote, to accept and file the Climate Action Plan progress report.

Vote: 5 - 0 Passed

Ordinance No. 2972 Levying Special Taxes CFD No. 2004-1

Development Services Director Desatnik presented Ordinance No. 2972 for levying special taxes within the City of Redlands Community Facilities District (CFD) No. 2004-1. The ordinance is required to levy the special tax in accordance with the California Streets and Highways Code, and it sets the maximum FY 24/25 CFD tax rates.

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Mario Saucedo, the City Council unanimously introduced, by roll call vote, Ordinance No. 2972 levying special taxes within the City of Redlands Community Facilities District No. 2004-1.

Vote: 5 - 0 Passed

Residential Refuse Bins Agreement

Facilities and Community Services Director Crocker reported on an agreement with Schaefer Plastics North America, LLC for supply and delivery of residential refuse bins for an amount not-to-exceed $536,984.64 for a period of one year, with two additional one-year renewal options, for a total amount not-to-exceed $1,610,953.92.

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Denise Davis, the City Council unanimously approved, by roll call vote, an agreement with Schaefer Plastics North America, LLC for supply and delivery of residential refuse bins in an amount not-to-exceed $536,984.64 for a period of one year, with two additional one-year renewal options, for a total amount not-to-exceed $1,610,953.92.

Vote: 5 - 0 Passed

Professional Services Agreement West Yost & Associates, Inc

Municipal Utilities and Engineering Director Harris introduced the Professional Services Agreement with West Yost & Associates, Inc. for recycled water, non-potable water, and cross-connection program support services with an initial term of one year and a value not-to-exceed $355,000, with options to extend for two additional one-year terms for a total potential amount not-to-exceed $1,065,000. Since only one bid was received, staff was requesting the Council approve an exception to Redlands Municipal Code, due to the

fact that re-soliciting the bid was unlikely to yield different results, given the specialized nature of the services.

On motion of Council Member Jenna Guzman-Lowery, seconded by Council Member Mario Saucedo, the City Council unanimously determined, by roll call vote, that approval of the Professional Services Agreement with West Yost & Associates, Inc. is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act; approved an exception to Redlands Municipal Code Section 2.16.180(B) and not require MUED staff to solicit additional Request for Bid; and approved the Professional Services Agreement with West Yost & Associates, Inc. for recycled water, non-potable water, and cross-connection program support services with an initial term of one (1) year and a value not-to-exceed $355,000, with options to extend for two (2) additional one-year terms.

Vote: 5 - 0 Passed

Joint Utility Laboratory Support Services Agreement

Municipal Utilities and Engineering Director Harris reviewed the Professional Services Agreement with Eurofins Eaton Analytical, LLC for support services at the Joint Utility Laboratory for a total potential amount not-to-exceed $360,000.

On motion of Mayor Pro Tempore Paul Barich, seconded by Council Member Jenna Guzman-Lowery, the City Council unanimously determined, by roll call vote, that approval of a Professional Services Agreement with Eurofins Eaton Analytical, LLC. is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act; and approved a Professional Services Agreement with Eurofins Eaton Analytical, LLC for Joint Utility Laboratory support services for a total potential amount not-to-exceed $360,000.

Vote: 5 - 0 Passed

Resolution No. 8609 Notice of Intent to Increase Solid Waste Utility Service Rates

Assistant City Manager Boatman offered background on Resolution No. 8609 to provide notice of intent to increase solid waste utility service rates and to direct staff to issue the required Proposition 218 notice establishing a public hearing date and location. The City periodically adjusts solid waste service rates to keep pace with the increasing cost of providing these services. The last time that the City reviewed Solid Waste Rates was 2017, and it has only adjusted solid waste rates ten times over the last thirty years. Garth Schultz, of R3 Consulting Group, Inc. presented a report detailing the methodology, findings, and recommendations related to the Solid Waste Service Enterprise Fund and associated solid waste service rates. Senate Bill (SB) 1383 is State of California legislation approved in 2016 that requires a reduction in organic waste (food waste, green waste, paper products, etc.) disposed of in landfills by seventy-five percent (75%), and an increase in edible food recovery by twenty percent (20%) by 2025.

Staff and R3 held two meetings with the Municipal Utilities Commission (Commission), on March 18, 2024 and April 15, 2024 to present draft findings and to receive feedback

and recommendations. The Commission voted unanimously on April 15, 2024 to forward R3's recommended adjustments to the City's solid waste services to the City Council. Commission Chair Steve Stockton summarized the work of the Commission, adding that every member was very sensitive about increasing the rates, and they worked to drive down the slope with a goal of under 10%, which they were able to do. The Commission and staff recommended the following solid waste utility service rate increases:

Nine percent (9%) rate increase January 1, 2025; Nine percent (9%) rate increase January 1, 2026; Nine percent (9%) rate increase January 1, 2027; Four percent (4%) rate increase January 1, 2028.

As public comment, Andy Hoder asked if the City was generating any money on recyclables or was it a losing proposition. Assistant Director Boatman responded by saying the program used to be profitable but not any longer. He added that the City works with vendors who divert the recyclables instead of the materials going straight to the landfill. This is done in order to meet the diversion rates and be in compliance with the state.

On motion of Council Member Mario Saucedo, seconded by Mayor Pro Tempore Paul Barich, the City Council unanimously determined, by roll call vote, that the adoption of Resolution No. 8609 is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act; adopted Resolution No. 8609 providing notice of intent to increase solid waste utility service rates; and directed staff to issue the required Proposition 218 notice for a public hearing. The notice will set a public hearing date of September 3, 2024, at which time the City Council will consider a solid waste rate increase. Should the City Council approve the recommendation, rates will take effect in January 2025.

Vote: 5 - 0 Passed

COUNCIL MEMBER ANNOUNCEMENTS AND ACTIVITIES

Council Member Saucedo and Mayor Pro Tem Barich thanked the Redlands Police Department for all the good work they are doing to engage the community and to build relationships.

ADJOURNMENT

There being no further action required the meeting adjourned at 11:07 P.M. The next regular meeting of the City of Redlands City Council will be held on July 16, 2024.

City Council Meeting **H. 2.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve recommendation for the appointments of Stephen Crane and Don Young to serve on the Citizens' Measure T Oversight Committee (Mayor Tejeda)

MOTION:

1. I move to appoint Stephen Crane of the Redlands Association of Safety Management to serve a one-year term as the non-public safety bargaining unit member on the Measure T Oversight Committee beginning July 18, 2024, and ending July 18, 2025.

2. I move to appoint Don Young of the Redlands Association of Management Employees to serve a one-year term as the public safety bargaining unit member on the Measure T Oversight Committee beginning July 18, 2024, and ending July 18, 2025.

RECOMMENDATION:

It is recommended that the City Council consider these appointments to the Measure T Oversight Committee as recommended by Mayor Tejeda for the employee bargaining unit member appointments.

DISCUSSION:

During the City Council meeting on December 1, 2020, Ordinance No. 2916 was adopted adding Chapter 2.72 to the Redlands Municipal Code establishing a Citizens' Measure T Oversight Committee ("Oversight Committee") to serve in an advisory capacity to the city council for the purpose of providing independent advisory review of the proposed expenditure of revenues generated by the City's transactions and use tax. The committee shall advise the City Council regarding the use of transactions and use tax revenue, according to the priorities set forth in each fiscal year adopted budget. The duties of the committee shall include

review of the City's expenditure of revenues received from the one percent (1%) transactions and use tax imposed by Measure T, on an annual basis; act in an advisory capacity to the City Council in all other policy matters pertaining to Measure T funds; and present an annual written report to the City Council.

The Oversight Committee shall consist of seven (7) members. Five (5) citizens of the community shall each represent a council district and be appointed by the Council Member of that corresponding district with approval of the City Council. Two members shall represent the City's employee bargaining units; one representing the public safety bargaining units and one representing the remaining non-public safety bargaining units. The bargaining unit members shall be appointed to one-year terms by the Mayor with approval of the City Council.

The Citizens' Measure T Oversight Committee members from the community are as follows:

- Ruth Cook, District 1
- Edward Ico, District 2
- Edward Millican, District 3
- Toni Momberger, District 4
- Scott Welsh, District 5

City Council Meeting **H. 3.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve recommendations for the appointment of Rick Cummings and Edie Punt to serve on the Cultural Arts Commission (Mayor Tejeda)

MOTION:

1. I move to appoint Rick Cummings to serve the remainder of a four-year term on the Cultural Arts Commission ending January 6, 2026.
2. I move to appoint Edie Punt to serve the remainder of a four-year term on the Cultural Arts Commission ending January 6, 2025.

RECOMMENDATION:

It is recommended by Mayor Tejeda that the City Council consider the appointment of Rick Cummings and Edie Punt to the Cultural Arts Commission to each serve the remainder of a four-year term. Pursuant to the Redlands Municipal Code, appointments to this commission are made by the Mayor and approved by the City Council.

DISCUSSION:

Two vacant seat exists on the Cultural Arts Commission due to the resignations of Commissioners Crystal Lopez and Jina Edwards. A public notice was released on May 28th requesting interested residents to submit an application for the Cultural Arts Commission. In addition, the public notice was concurrently aired on Redlands TV and posted at the community bulletin board at the A. K. Smiley Public Library. The local newspapers also received distribution of the public notices. Seven new applications were received from the recent postings, and two from previous postings.

The Cultural Arts Commission consists of seven members as follows:

- Danielle Giudici Wallis
- Vacant
- Dennis Christensen
- Vacant
- Daniel Rodriguez
- Daniel Gohman
- Margo Mullen

ALTERNATIVE:

The City Council may choose not to support the recommendation and direct staff to seek further applications for consideration.

COMMISSION\BOARD APPLIED FOR

Cultural Arts Commission

Name Jessica L Luck

Address [redacted] Redlands 92374

Telephone (Work) [redacted] (Cell / Home) [redacted]

Email [redacted]

Occupation University Professor and Department Chair

Reasons for desiring to serve – relevant experience and qualifications:

I have always loved the quote carved into the Redlands Bowl Amphitheatre, "Without Vision, A People Perish," which reflects our city's commitment to celebrating and foregrounding music, theater, and the arts—not just for the privileged, but for all our citizens. I have long been a patron of the arts in our community and around the world. I have traveled extensively and spent last year living in Aix-en-Provence, which has an amazing arts agenda throughout the year. I have connections to the arts communities at CSUSB (where I am a professor of literature), University of Redlands, and Crafton Hills. I am excited to use these experiences to collaborate and contribute to the work of this commission to support and enhance our city's vital commitment to the arts.

Signature Jessica L Luck **Date** 1/20/24

Occupation UCLA PhD Candidate in the Department of Art History

Reasons for desiring to serve – relevant experience and qualifications:

I believe that art can be an important learning tool and catalyst for connection. As a child continued exposure to art helped me to understand different points of view, grasp difficult concepts, and ultimately influenced my career choice. As an adult I view visual media as a community building block. I desire to help facilitate meaningful interactions between our citizens and thought provoking artwork. I am currently completing the last year of my art history PhD program at UCLA. I already hold a BA and master's degree in art history. I have worked at 3 different major museums: the Getty, LACMA, and the Benaki museum.

City Council Meeting **H. 4.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Disclosure of Settlement Agreement and Release of All Claims - Lissette Atkinson v. City of Redlands; San Bernardino County Superior Court Case No. CIVSB 2224706 (City Attorney Garcia)

DISCUSSION:

Attached is a copy of the "Settlement Agreement and Release of All Claims," which reflects the terms and conditions for settlement of the above-mentioned litigation as approved by the City Council and City Attorney. In accordance with the City's Municipal Code, and following the spirit of the Brown Act, this matter is on your agenda to notify the public of the settlement negotiated by the City.

SUBMITTED BY:
Yvette M. Abich Garcia, City Attorney

PREPARED BY:
Mayra Shushereba, Administrative Analyst

REVIEWED BY:
Charles M. Duggan, Jr., City Manager
Danielle Garcia, Management Services/Finance Director

Attachments

A. Settlement Agreement

SETTLEMENT AGREEMENT AND RELEASE OF ALL CLAIMS

This Settlement Agreement and General Release ("Agreement") is entered into between the City of Redlands ("City"), its past or present council members, directors, governing body, employees, agents, predecessors, attorneys, divisions, departments, representatives, insurers, successors in interest and assigns, and all persons acting by, through, under and/or in concert with any of them (collectively, the "Defendants"), on the one hand, and Lissette Atkinson ("Atkinson" or "Plaintiff") on the other. The Defendants and Atkinson are collectively referred to as the "Parties" or individually as a "Party" with reference to the following:

RECITALS

A. Atkinson was employed by the City as an Animal Control Officer;

B. Atkinson's employment with the City ended on November 8, 2021, when Atkinson voluntarily resigned her employment;

C. Atkinson filed a complaint with the California Civil Rights Department ("CRD")/Equal Employment Opportunity Commission ("EEOC") against the City (hereinafter "Administrative Charges"), alleging that she was asked impermissible non-job-related questions and given a negative recommendation on the basis of her disability, and the CRD issued Atkinson a Right to Sue notice dated October 25, 2022;

D. On November 3, 2022, Atkinson filed a lawsuit against the Defendants in San Bernardino County Superior Court, Case No. CIVSB2224706 (hereinafter "Lawsuit"). The operative Second Amended Complaint filed on August 8, 2023 alleges (1) failure to accommodate in violation of the Fair Employment and Housing Act ("FEHA"), (2) failure to provide an interactive process in violation of the FEHA, (3) disability discrimination in violation of the FEHA, (4) failure to provide protected leave in violation of the California Family Rights Act, (5) retaliation in violation of the FEHA, (6) failure to prevent discrimination and retaliation in violation of the FEHA, (7) defamation, (8) intentional interference with prospective economic opportunity, (9) negligent interference with prospective economic opportunity, and (10) intentional infliction of emotional distress related to her employment with the City and seeking damages for lost earnings and benefits and emotional distress;

E. Defendants categorically deny any and all of the claims and allegations asserted by Atkinson against Defendants but have been forced to incur significant fees and costs as a result of Atkinson's Lawsuit and therefore wish to avoid incurring any additional litigation expenses;

F. This Agreement is intended to be a full, complete and final settlement of each and every claim, cause of action, appeal, or liability, whether known or unknown, Atkinson may have or may have had against Defendants prior to and up through the date Atkinson executes this Agreement, including, but not limited to the Administrative Charges, and the Lawsuit and any other claims by Atkinson arising out of, or in any way related to Atkinson's employment with the City and/or separation from such employment.

NOW THEREFORE, and in consideration for the promises contained herein, and other good and valuable consideration, receipt of which is acknowledged by the execution of this Agreement, and to avoid unnecessary litigation, it is agreed by and between the Parties as follows:

I. WAIVER AND RELEASE

A. **No Admission of Liability.** This Agreement and compliance with this Agreement shall not in any way be construed as an admission by Defendants or Atkinson of the truth of any allegations, or an admission of any unlawful acts or other liability whatsoever against each other or against any other person or entity. Defendants and Atkinson specifically disclaim any liability to, against each other, or against any other person or entity, on the part of themselves, any related person or any related predecessor corporation or its or their agents, representatives or successors in interest and assigns. This Agreement cannot be used by a Party to demonstrate any admission of liability or wrongdoing by another Party.

B. **Plaintiff's Release of Claims.** Atkinson hereby and forever releases and discharges Defendants, and any past and/or present parent, subsidiary and/or affiliated entities, as well as any past and/or present direct or indirect successors, officers, officials, current and former directors, current and former trustees, heirs, predecessors, assigns, agents, insurers, employees, lay volunteers or representatives, attorneys and representatives, of each and every party, and each of them, past and present ("Releasees"), from any and all causes of action, judgments, liens, indebtedness, damages, losses, claims, liabilities, and demands of whatsoever kind or character, known or unknown, suspected to exist or not suspected to exist, anticipated or not anticipated, whether or not it has been brought before any state or federal court or before any state or federal agency or other governmental entity, including, but not limited to, all of Atkinson's claims arising from or related to or attributable in whole or in part to Atkinson's employment relationship with the City, whenever those claims may have occurred.

Atkinson understands and agrees that this Agreement extends to all disputes or claims of every nature and kind, known or unknown, suspected or unsuspected, past, present or future, arising from or attributable to the above-referred matters and disputes. Atkinson understands and expressly agrees that this Agreement also extends to any other matter, event, or claim occurring prior to the date of execution of this Agreement.

Atkinson understands and agrees that she is waiving any rights she has, may have had, or may have, to pursue any and all remedies available to her under any employment-related or other cause of action against Releasees, including, without limitation, any claims for discrimination, harassment, and/or retaliation, claims under the California Fair Employment and Housing Act (California Government Code section 12900, et seq.), the California Family Rights Act (California Government Code section 12945.2), the Unruh and George Civil Rights Acts (California Civil Code section 51, et seq.), all provisions of the California Labor Code and any wage orders or similar directives or authorities issued by any federal or state authority having enforcement powers, the Constitution of the United States, the Constitution of the State of California, Title VII of the Civil Rights Act of 1964 (42 U.S.C. § 2000e, et seq.), the Age Discrimination in Employment Act (29 U.S.C. § 621, et seq.), the Equal Pay Act (29 U.S.C. § 206(d)), the Fair Labor Standards Act (29 U.S.C. § 201, et seq.), the Family and Medical Leave Act (29 U.S.C. § 2601, et seq.), the Employment Retirement Income Security Act of 1974 (29 U.S.C. § 1001, et seq.),

Sections 1981-88 of Title 42 of the United States Code (42 U.S.C. § 1981, et seq.), the American with Disabilities Act (42 U.S.C. § 12101, et seq.), claims of retaliation or whistle-blowing (including but not limited to California Labor Code section 1102.5, et seq. and Government Code section 12653), claims for breach of any type of contract, including written, oral or implied and, including, but not limited to the Contract, breach of any covenant, promise or representation pertaining to PLAINTIFF's employment, whether expressed or implied, and all other claims arising in contract, tort or equity or under any other statute, whether federal, state or local up to the date of execution of this Agreement (collectively referred to as "Released Claims").

This Agreement does not limit Atkinson's ability to bring an administrative charge with an administrative agency, but Plaintiff expressly waives and releases any right to recover any type of personal relief from Defendants, including monetary damages or reinstatement, in any administrative action or proceeding, whether state or federal, and whether brought by Atkinson or on Atkinson's behalf by an administrative agency, related in any way to the matters released herein. Furthermore, nothing in this Agreement prohibits Atkinson from reporting possible violations of law or regulation to any government agency or entity, including but not limited to the Equal Employment Opportunity Commission, the California Civil Rights Department, the Department of Labor and/or the Department of Justice, or making other disclosures that are protected under the whistleblower provisions of law. Atkinson does not need prior authorization of Defendants to make any such reports or disclosures and is not required to notify Defendants that she has made such reports or disclosures.

C. **Civil Code Section 1542 Waiver.** Atkinson hereby waives any and all rights that she may have pursuant to California Civil Code section 1542, which reads as follows:

> **A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS THAT THE CREDITOR OR RELEASING PARTY DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE AND THAT, IF KNOWN BY HIM OR HER, WOULD HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR OR RELEASED PARTY.**

1. Atkinson hereby expressly waives the provisions of California Civil Code section 1542 and further expressly waives any right to invoke said provisions now or at any time in the future.

2. Atkinson recognizes and acknowledges that factors which have induced her to enter into this Agreement may turn out to be incorrect or to be different from what she had previously anticipated, and she hereby expressly assumes any and all of the risks thereof and further expressly assumes the risks of waiving the rights provided by California Civil Code section 1542.

G. **Release of All Claims Pursuant to Any MOU.** Atkinson hereby expressly waives any and all claims now and forever that she has or may have to rights or benefits pursuant to the Memorandum of Understanding between the City of Redlands and the Redlands Civilian Safety Employee Association (the "MOU"), covering the years 2017 through 2023 or any other MOUs between the City of Redlands and the Redlands Civilian Safety Employee Association. Atkinson

also hereby expressly waives all claims now and forever that she has or may have that are or would be pursued by the Redlands Civilian Safety Employee Association with the Public Employment Relations Board ("PERB"). Moreover, Atkinson specifically acknowledges and agrees that she waives any and all voting rights she may believe she has or she may have regarding any current or future Redlands Civilian Safety Employee Association claims, issues, matters and/or PERB charges or matters.

H. **Effective Date.** The Effective Date of this Agreement shall be the last date on which all of the following occurs: (1) all Parties have signed this Agreement and (2) the Agreement has been fully approved by the City's City Council as specified in Section III(A) below.

I. **Representation of No Pending Claims.** Atkinson represents that, other than the claims described herein, she has not filed any lawsuits, complaints, appeals, claims, applications, or charges against Defendants or the Releasees with any state or federal court, or local, state, or federal agency, or administrative or quasi-administrative tribunal or person, based on any events occurring on or prior to the date of execution of this Agreement.

II. PAYMENT AND DISMISSAL

The Parties agree that upon execution of this Agreement, the Parties shall perform the following acts:

A. Plaintiff and/or her counsel, Luna Legal Firm, shall sign and forward to Defendants' attorneys, Liebert Cassidy Whitmore, 401 West A Street, Suite 1675, a request for dismissal of the Lawsuit with prejudice. Liebert Cassidy Whitmore shall not file the dismissal until payment of the Settlement Proceeds, described in Section II(B)(3) below. The payment of Settlement Proceeds is contingent on Liebert Cassidy Whitmore's receipt of the request for dismissal with prejudice of the Lawsuit.

B. The City shall pay to Atkinson the total sum of one hundred seventy five thousand dollars ($175,000) (the "Settlement Proceeds") to be paid as directed below:

1. One hundred seventy five thousand dollars ($175,000) shall be made payable to "Luna Legal Firm P.C. c/o Lissette Atkinson" as damages for alleged injuries and attorneys' fees, to be reported on Form 1099s as required by law.

2. The payment of the Settlement Proceeds shall be made by the City within 30 days of the Effective Date of this Agreement, provided that: (1) Atkinson or Luna Legal Firm have tendered the signed request for dismissal and (2) both Atkinson and Luna Legal Firm have provided completed Form W-9s prior to payment.

C. The City agrees that it shall pay the entirety of the June 27, 2024 mediation fees paid by Plaintiff in the amount of six thousand three hundred seventy five dollars ($6,375) made payable to Luna Legal Firm P.C. c/o Lissette Atkinson within thirty (30) days of the Effective Date

of this Agreement provided that: (1) Atkinson or Luna Legal Firm have tendered the signed request for dismissal and (2) both Atkinson and Luna Legal Firm have provided completed Form W-9s prior to payment.

III. GENERAL PROVISIONS

A. **City Council Approval.** The Parties understand and agree that this Agreement is contingent upon approval by the City of Redlands' City Council and will not become effective and enforceable unless and until the City Council approves the Agreement.

B. **No Representation of Tax Liabilities.** No Party, including the attorneys for any Party, has made any representations or warranties regarding whether the Settlement Proceeds are subject to taxation. Defendants do not bear any responsibility for tax liability that may arise as a result of the Settlement Proceeds. Atkinson agrees to assume any responsibility for payment of taxes for any of the Settlement Proceeds. Atkinson agrees to indemnify and hold Defendants and all Releasees harmless from any and all tax liability which may become due as a result of the Settlement Proceeds under this Agreement. Plaintiff agrees to be liable for indemnifying and holding Defendants, their agents, attorneys and assigns, harmless from any and all tax liability which may become due as a result of the Settlement Proceeds under this Agreement and/or for any liability that may be incurred as a result of any dispute over payment of the Settlement Proceeds arising between Plaintiff and her counsel, Luna Legal Firm.

D. **Each Party to Bear Own Fees and Costs.** Aside from what is specifically provided for in this Agreement, each Party shall bear their own costs, expenses and attorneys' fees incurred in connection with the proceedings and/or events resulting in and/or preceding this Agreement, or in connection with any other claims made or investigated by either Party against the other in any forum (civil, criminal, administrative or quasi-administrative), and each of the Parties hereto expressly waives any claim for recovery of any such costs, expenses or attorneys' fees from the other Party. Attorneys for all Parties to this Agreement do likewise expressly waive any claim for recovery of costs, expenses and/or attorney's fees from the opposing Party(ies). Neither Party shall be deemed a "prevailing party" by virtue of executing this Agreement.

E. **No Prior Assignments**. Atkinson represents that she has not assigned or transferred, or purported to assign or transfer, to any person or entity, any claim or any portion thereof or interest therein against Defendants.

F. **Enforcement.** This Agreement is made and entered into in the State of California, and shall be governed, interpreted, and enforced under the laws of the State of California. The Parties agree that jurisdiction and/or venue of any action involving the validity, interpretation, or enforcement of this Agreement or any of its terms, provisions, or obligations, or claiming breach thereof, shall exist exclusively in a court or government agency located within the County of San Bernardino, State of California. The Parties further agree that this Agreement may be used as evidence in any subsequent proceeding in which any of the Parties allege a breach of this Agreement or seek to enforce its terms, conditions, provisions, or obligations.

G. **Covenant to Effectuate Agreement.** Each Party hereto agrees to do all things and execute and deliver all instruments and documents necessary to fulfill and effect the provisions of this Agreement and to protect the respective rights of the Parties to this Agreement.

H. **Covenant not to Sue.** To the extent permitted by applicable law, Atkinson promises not to file any lawsuits in any court, or any demand for arbitration, against any of the Releasees as it relates to any Released Claims.

I. **Waiver of Terms of Agreement**. No waiver by any Party of any breach of any term or provision of this Agreement shall be construed to be, nor be, a waiver of any preceding, concurrent or succeeding breach of the same, or any other term or provision hereof. No waiver shall be binding unless in writing and signed by the Party to be charged or held bound. It is further understood and agreed that if, at any time, a breach of any term of this Agreement is asserted by any Party hereto, that Party shall have the right to seek specific performance of that term and/or any other necessary and proper relief, including, but not limited to, damages.

J. **No Duress or Undue Influence.** The Parties represent and agree that they have carefully read and fully understand all of the provisions of this Agreement, and that they are voluntarily, without any duress or undue influence on the part of or on behalf of any Party, entering into this Agreement.

K. **Consultation with Counsel.** The Parties affirm that, prior to execution of this Agreement, they have consulted with their respective legal counsel/representatives concerning the terms and conditions set forth herein, and that they understand the advice provided to them.

L. **Entire Agreement.** This Agreement contains all of the terms and conditions agreed upon by the Parties hereto regarding the subject matter of this Agreement. Any prior agreements, promises, negotiations, or representations, either oral or written, relating to the subject matter of this Agreement, not expressly set forth in this Agreement, are of no force or effect. This Agreement may not be modified unless agreed to and signed by the Parties.

M. **Interpretation.** This Agreement has been jointly negotiated and drafted by counsel for the Parties. The language in this Agreement shall be construed as a whole according to its fair meaning and not strictly for or against any of the Parties.

N. **Severability.** In the event that any one or more provisions of this Agreement shall be declared to be illegal, invalid, unenforceable, and/or void by a court of competent jurisdiction, such provision or portion of this Agreement shall be deemed to be severed and deleted from this Agreement but this Agreement shall in all other respects remain unmodified and continue in force and effect.

O. **No Precedent.** This Agreement is in no way intended, and shall in no way be construed, to restrict rights guaranteed to Defendants under local, state or federal law, rule, policy or agreement or to establish a precedent in this or any other matter, now or in the future.

P. **Non-Disparagement.** Atkinson agrees not to disparage Defendants. "Disparage" as used herein shall mean any communication, oral or written, of false information or the communication of information with reckless disregard to its truth, or falsity.

Nothing in this Agreement prevents Atkinson from discussing or disclosing information about unlawful acts in the workplace, such as harassment or discrimination or any other conduct that Atkinson has reason to believe is unlawful.

R. **Confidentiality and Disclosure of Terms.** Except as disclosed to the Court herein, the Parties each agree to maintain the confidentiality of the negotiations underlying this Agreement to the extent permitted by law, and agree that they shall not voluntarily and publicly discuss the negotiations that led to this Agreement. This provision shall not extend to any information related to the negotiations of this Agreement that Defendants may be required to disclose pursuant to the requirements of the Ralph M. Brown Act, Government Code section 54950, *et seq.*, the California Public Records Act, Government Code section 6250, *et seq.*, Civil Code section 1670.11, and Code of Civil Procedure section 1001 and Government Code section 12964.5 as expanded by SB 331, City of Redlands Municipal Code section 2.60.030, or the provisions of any other law or regulation requiring disclosure of information by public entities.

S. **Execution of Counterparts.** This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. A photocopy or facsimile transmission of the Agreement, including signatures, shall be deemed to constitute evidence of the Agreement having been executed.

PLEASE READ CAREFULLY. THIS SETTLEMENT AGREEMENT AND RELEASE INCLUDES A RELEASE BY LISSETTE ATKINSON OF ALL KNOWN AND UNKNOWN CLAIMS.

IN WITNESS WHEREOF, the Parties hereto have executed the Settlement Agreement and General Release.

12507225.1 RE035-049

City Council Meeting **H. 5.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Adopt Resolution No. 8612 to receive an annual report of City of Redlands surplus lands (Assistant City Manager Boatman)

MOTION(S):

If the City Council determines that staff's recommendation is appropriate, the following motion is provided:

I move to adopt Resolution No. 8612.

RECOMMENDATION:

Staff recommends that the City Council adopt Resolution No. 8612 declaring certain City-owned properties classified as "not surplus" or "exempt property", and determine that adoption of the Resolution is exempt from environmental review pursuant to Section 15061(b)(3) of the State's Guidelines implementing the California Environmental Quality Act.

DISCUSSION:

Assembly Bill (AB) 1486 was approved by the State Legislature and signed by the Governor in the Fall of 2019. AB 1486 made various amendments to Government Code Sections 54220 *et seq*., concerning the process for disposition of surplus land by cities and other local agencies. These new laws became effective on January 1, 2020. As such, these new laws require the City to annually report on surplus land held by the City. The intent of this legislation, is to improve the process for providing notice of surplus land to facilitate the development of affordable housing around the State. The new law requires that any land "not necessary for the agency's use" be declared surplus.

Prior to the disposition of the land, "Agency's use" is defined in the new law as land that is used or planned to be used for the agency's work or operations,

such as a water treatment plant, park, detention basin, or other agency use. The state law definition of “Agency use” expressly excludes commercial or industrial uses, such as non-government retail, entertainment, or office development. If an agency disposes of land to finance such a project or activity, that disposition must go through the surplus land process under the new law.

Resolution No. 8612 includes Exhibit "A", which includes a table of properties that are not surplus, and the agency has a use for each property. Exhibit "B" includes a table of exempt properties with the criteria for exemption.

Adoption of Resolution No. 8612 is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act (CEQA). This section states that a project is exempt from CEQA if it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment. The recommended action is consistent with this section as it only identifies certain property as not surplus and will not have a physical effect on the environment.

ALTERNATIVES:

The City Council may elect not to adopt the resolution or provide alternative direction to staff.

STRATEGIC PLAN:

Not Applicable

SUBMITTED BY:
Christopher Boatman, Assistant City Manager

Resolution No. 8612

RESOLUTION NO. 8612

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF REDLANDS DECLARING CERTAIN CITY-OWNED REAL PROPERTIES NOT SURPLUS PURSUANT TO GOVERNMENT CODE SECTION 54220, ET SEQ.

WHEREAS, the Surplus Property Land Act, Government Code Section 54220, et seq., defines surplus property as land owned by any local agency that is not necessary for the agency's use; and

WHEREAS, staff has completed a review of City-owned property and has identified certain sites that may not be necessary for the City's use as defined in state law; and

WHEREAS, the passage of this resolution will not cause a direct physical change in the environment, nor a reasonably foreseeable indirect physical change in the environment; this action is therefore exempt from further environmental review pursuant to Sections 15061(b)(3) of the California Environmental Quality Act guidelines; and

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Redlands as follows:

Section 1. The City Council hereby determines that approval of this Resolution is exempt from further environmental review pursuant to Sections 15061(b)(3) of the California Environmental Quality Act guidelines as approval of this resolution will not cause a direct physical change to the environment, nor a reasonably foreseeable indirect physical change to the environment.

Section 2. The City Council hereby declares that those certain City-owned properties, and any rights, title, and interest therein, listed in Exhibit "A," attached hereto and incorporated by this reference, are necessary for the City's use and are declared not surplus.

Section 3. The City Council hereby declares that those certain City-owned properties, and any rights, title, and interest therein, listed in Exhibit "B," attached hereto and incorporated by this reference, are exempt from Articles II and III of Government Code Section 54220, et seq.

Section 4. This Resolution shall take effect take effect immediately upon its adoption.

ADOPTED, SIGNED AND APPROVED this 16th day of July, 2024

City Council Meeting **H. 6.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve First Amendment to the Public Works Contract with AME Builders, Inc. doing business as AME Roofing for the repair and replacement of the City's Emergency Operations Center roof and rooftop HVAC units to incorporate required federal contract provisions (Fire Chief Sessler)

MOTION(S):

If the City Council determines that staff's recommendation is appropriate, the following motion is provided:

I approve the First Amendment to the Public Works Contract with AME Builders, Inc. doing business as AME Roofing for the repair and replacement of the City's Emergency Operations Center roof and rooftop HVAC units to incorporate required federal contract provisions.

RECOMMENDATION:

Staff recommends the City Council approve the First Amendment to the Public Works Contract with AME Builders, Inc. dba AME Roofing for the repair and replacement of the City's Emergency Operations Center roof and rooftop HVAC units to incorporate required federal contract provisions.

DISCUSSION:

In January 2024, bids were solicited for the repair and replacement of the city's Emergency Operations Center (EOC) roof and rooftop HVAC units. The repair and replacement of the EOC's roof and rooftop HVAC units are part of the EOC Renovation Project being funded by the FY22 Emergency Operations Center Grant Program. The California Office of Emergency Services (CalOES) administers the grant program. However, the grant program was passed through to CalOES from the Federal Emergency Management Agency (FEMA).

On April 2, 2024, the City Council approved the Public Works Contract with AME Builders, Inc. dba AME Roofing for the repair and replacement of the roof and rooftop HVAC units for an amount not-to-exceed $425,706. After the contract was awarded, staff realized that the bid solicitation and contract did not include the required federal provisions. To bring the Public Works Contract with AME Builders, Inc. in compliance with all FEMA contract provisions, staff is requesting an amendment to the contract to include the federal requirements as listed in Appendix II Part 200, Title 2 of the “Contract Provisions for Non-Federal Entity Contracts Under Federal Awards.”

ALTERNATIVES:

Council may not approve the First Amendment to the Public Works Contract with AME Builders, Inc. bad AME Roofing and provide alternate direction to staff.

STRATEGIC PLAN:

Priority B - Pubic Health & Safety

SUBMITTED BY:
Rich Sessler, Fire Chief

RECOMMENDED BY:
Charles M. Duggan Jr., City Manager

REVIEWED BY:
Yvette M. Abich Garcia, City Attorney
Danielle Garcia, Management Services/Finance Director

PREPARED BY:
Bruni Reyes, Management Analyst

Fiscal Impact

Revenue Generating: N

Appropriation Required Y/N: N

Discussion:

The approval of the First Amendment to the Public Works Contract with AME Builders, Inc. will only add the federal contract provisions. The cost of the project will not be affected, therefore there will be no fiscal impact.

PUBLIC WORK CONSTRUCTION CONTRACT

This Public Work Construction contract ("Contract") is made and entered into this 16th day of April, 2024, by and between the City of Redlands, a municipal corporation, organized and existing under the laws of the State of California (hereinafter "City"), and AME Builders Inc. dba AME Roofing (hereinafter "Contractor"). City and Contractor are sometimes individually referred to herein as a "Party" and, together, as the "Parties."

In consideration of the mutual promises contained herein, City and Contractor agree as follows:

1. **SCOPE OF WORK:** Contractor shall furnish all materials and will perform all of the work for the following: EOC HVAC Replacement & Roofing Replacement, complete all items as required by the Contract Documents (as herein defined) and Specifications for City's EOC HVAC Replacement & Roofing Replacement Project, Project No. FCS01112024KG (the "Work").

2. **CONTRACT SUM:** City shall pay Contractor the sum of Four Hundred Twenty-Five Thousand Seven Hundred Six Dollars ($425,706) as consideration for its performance of the Work in accordance with the terms and conditions set forth in the Contract Documents. Pursuant to Public Contract Code Section 22300, Contractor has the option to deposit securities with an escrow agent as a substitute for retention of earnings required to be withheld by City pursuant to an escrow agreement as set forth in Public Contract Code section 22300.

3. **TIME FOR COMPLETION:** The Work shall be completed within thirty (30) working day(s) as defined in Section 1-2 of the Standard Specifications for Public Works Construction "Greenbook" from and after the date of City's issuance of a Notice to Proceed to Contractor.

4. **LIQUIDATED DAMAGES:** Contractor's failure to complete the Work within the time allowed will result in damages being sustained by City. Such damages are, and will continue to be, impracticable and extremely difficult to determine. Accordingly, Contractor shall pay to City, or have withheld from monies due to Contractor, the sum of five hundred dollars/cents ($500) for each working day as defined in Section 1-2 of the Standard Specifications for Public Works Construction "Greenbook" in excess of the specified time for completion of the Work. Execution of this Contract shall constitute agreement by City and Contractor that five hundred dollars ($500) per day is the estimated damage to City caused by the failure of Contractor to complete the work within the allowed time. Such sum is liquidated damages and shall not be construed as a penalty, and may be deducted from payments due Contractor if such delay occurs.

5. **CONTRACT DOCUMENTS:** This Contract incorporates by reference the following: Notice Inviting Bids, Instructions to Bidders, Contractor's Proposal, Bid Bond, Agreement, Performance Bond, Labor and Material Bond, Plans, General Conditions, Special Provisions and Specifications, and any addenda thereto (collectively, the "Contract Documents").

6. **ATTORNEYS' FEES:** In the event any action is commenced to enforce or interpret the terms or conditions of this Contract, or the Contract Documents, the prevailing Party in such action, in addition to any costs and other relief, shall be entitled to recover its reasonable attorneys' fees, including fees for use of in-house counsel by a Party.

7. **RESOLUTION OF CONSTRUCTION CLAIMS:** Claims by Contractor in the amount of three hundred seventy five thousand dollars ($375,000) or less shall be made by Contractor and processed by the City pursuant to the provisions of Part 3, Chapter 1, Article 1.5 of the Public Contract Code (commencing with Section 20104). All claims shall be in writing and include the documents necessary to substantiate the claim. Nothing in subdivision (a) of Public Contract Code Section 20104.2 shall extend the time limit or supersede the notice requirements provided in this case from filing claims by Contractor.

8. **ELIGIBILITY OF CONTRACTOR/SUBCONTRACTOR:** Contractor and all of its subcontractors shall abide by California Public Contract Code, Section 6109, and California Labor Code Sections 1777.1 and/or 1777.7, and certify that they are not debarred and are eligible to work on this project.

9. **ASSIGNMENT OF AGREEMENT:** No assignment by a Party of any rights or interests under this Contract shall be binding on another Party without the written consent of the Party sought to be bound.

10. **SUCCESSORS AND ASSIGNS:** City and Contractor each binds itself and their respective successors and assigns in respect to all covenants, agreements, and obligations contained in the Contract Documents.

11. **SEVERABILITY:** Any provision or part of the Contract Documents held to be void or unenforceable under any law or regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon City and Contractor.

IN WITNESS WHEREOF, the Parties hereto have executed this Contract the day and year first written above.

WORKER'S COMPENSATION INSURANCE CERTIFICATION

Description of Contract: City of Redlands
Fire Department
EOC HVAC Replacement and Roofing Replacement
FCS01112024KG

Every employer, except the State, shall secure the payment of compensation in one or more of the following ways:

a. By being insured against liability to pay compensation by one or more insurers duly authorized to write compensation insurance in this State.
b. By securing from the Director of Industrial Relations, a certificate of consent to self-insure, either as an individual employer, or as one employer in a group of employers, which may be given upon furnishing proof satisfactory to the Director of Industrial Relations of ability to self-insure and to pay any compensation that may become due to his or her employees.

CHECK ONE

X I am aware of the provisions of Section 3700 of the Labor Code which requires every employer to be insured against liability for Workers' Compensation or to undertake self-insurance in accordance with the provisions of that Code, and I will comply with such provisions before commencing the performance of the work and activities required or permitted under this Agreement. (Labor Code §1861).

_____I affirm that at all times, in performing the work and activities required or permitted under this Agreement, I shall not employ any person in any manner such that I become subject to the workers' compensation laws of California. However, at any time, if I employ any person such that I become subject to the workers' compensation laws of California, immediately I shall provide the City with a certificate of consent to self-insure, or a certification of workers' compensation insurance.

I certify under penalty of perjury under the laws of the State of California that the information and representations made in this certificate are true and correct.

Dated this 10th day of April, 2024.

(Labor Code Section 1861 provides that the above certificate must be signed and filed by the Contractor with the Owner prior to performing the work of the contract.)

EXECUTED 2 ORIGINAL COUNTERPARTS
BOND NUMBER: 7901181374

FAITHFUL PERFORMANCE BOND

Whereas, the City of Redlands ("City"), State of California, and AME Builders Inc. dba AME Roofing (hereinafter designated as "Principal") have entered into an agreement dated April 16, 2024 ("Agreement") whereby Principal agrees to install and complete certain public improvements (the "Work"), which said Agreement is identified as EOC HVAC Replacement and Roofing Replacement and is hereby referred to and made a part hereof; and

Whereas, said Principal is required under the terms of the Agreement to furnish a bond for the faithful performance of the Work, now, therefore, we, the Principal and, AME Builders Inc. dba AME Roofing, as Surety, are held and firmly bound unto the City in the penal sum of Four Hundred Twenty-Five Thousand Seven Hundred Six Dollars ($425,706) lawful money of the United States, for the payment of which sum we bind ourselves, and our heirs, successors, executors and administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above bounded Principal, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and provisions in the Agreement and any alteration thereof made as therein provided, on his or its part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall faithfully fulfill the one-year guarantee of all materials and workmanship, and shall defend, indemnify and save harmless the City and its elected officials, officers, agents and employees, as therein stipulated, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As a part of the obligation secured hereby and in addition to the face amount specified therefor, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligations, all to be taxed as costs and included in the judgment rendered.

As a condition precedent to the satisfactory completion of the Work, the above obligation shall hold good for a period of one (1) year or longer if required by the Agreement after the acceptance of the work by the City, during which time if the Principal shall fail to make full, complete, and satisfactory repair and replacements and totally protect the City from loss or damage made evident during this period from the date of completion of the Work, and resulting from or caused by defective materials or faulty workmanship, the above obligation in penal sum thereof shall remain in full force and effect. The obligations of Surety hereunder shall continue so long as any obligation of the Principal remains.

Whenever the Principal shall be, and is declared by the City to be, in default under the Agreement, the City having performed the City obligations thereunder, the Surety shall promptly remedy the default, or shall promptly, at the City's option:

1. Complete the Work in accordance with its terms and conditions; or

2. Obtain a bid or bids for completing the Work in accordance with its terms and conditions, and upon determination by Surety of the lowest responsive and responsible bidder, arrange for a contract between such bidder and the City, and make available as work progresses sufficient funds to pay the cost of completion of the Work less the balance of the Agreement price,

but not exceeding, including other costs and damages for which Surety may be liable hereunder, the amount set forth above. The term "balance of the Agreement price," as used in this paragraph, shall mean the total amount payable to the Principal by the City under the Agreement and any modifications thereto, less the amount previously properly paid by the City to the Principal.

Surety expressly agrees that the City may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Principal.

Surety shall not utilize the Principal in completing the Work nor shall Surety accept a bid from the Principal for completion of the Work if the City, when declaring the Principal in default, notifies Surety of the City's objection to the Principal's further participation in the completion of the Work.

No right of action shall accrue on the bond to or for the use of any person or corporation other than the City named herein or the successors or assigns of the City. Any suit under this bond must be instituted within the applicable statute of limitations period.

The said Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement or to the work to be performed thereunder or the Specifications accompanying the same shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Agreement or to the work or to the specifications.

No final settlement between the City and the Principal shall abridge the right of any beneficiary hereunder whose claim may be unsatisfied.

The Principal and Surety agree that if the City is required to engage the services of any attorney in connection with the enforcement of this bond, each shall pay the City's reasonable attorneys' fees incurred, with or without suit, in addition to the above sum.

In witness whereof, this instrument has been duly executed by the Principal and Surety above named, on APRIL 9TH, 2024.

Power of Attorney

KNOW ALL MEN BY THESE PRESENTS THAT:

Nationwide Mutual Insurance Company, an Ohio corporation

hereinafter referred to severally as the "Company" and collectively as "the Companies" does hereby make, constitute and appoint:

PHILIP E VEGA, MYRNA F SMITH, KEVIN VEGA, BRITTON CHRISTIANSEN

each in their individual capacity, its true and lawful attorney-in-fact, with full power and authority to sign, seal, and execute on its behalf any and all bonds and undertakings, and other obligatory instruments of similar nature, in penalties not exceeding the sum of

UNLIMITED

and to bind the Company thereby, as fully and to the same extent as if such instruments were signed by the duly authorized officers of the Company; and all acts of said Attorney pursuant to the authority given are hereby ratified and confirmed.

This power of attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the board of directors of the Company:

"RESOLVED, that the president, or any vice president be, and each hereby is, authorized and empowered to appoint attorneys-in-fact of the Company, and to authorize them to execute and deliver on behalf of the Company any and all bonds, forms, applications, memorandums, undertakings, recognizances, transfers, contracts of indemnity, policies, contracts guaranteeing the fidelity of persons holding positions of public or private trust, and other writings obligatory in nature that the business of the Company may require; and to modify or revoke, with or without cause, any such appointment or authority; provided, however, that the authority granted hereby shall in no way limit the authority of other duly authorized agents to sign and countersign any of said documents on behalf of the Company."

"RESOLVED FURTHER, that such attorneys-in-fact shall have full power and authority to execute and deliver any and all such documents and to bind the Company subject to the terms and limitations of the power of attorney issued to them, and to affix the seal of the Company thereto; provided, however, that said seal shall not be necessary for the validity of any such documents."

This power of attorney is signed and sealed under and by the following bylaws duly adopted by the board of directors of the Company.

Execution of Instruments. Any vice president, any assistant secretary or any assistant treasurer shall have the power and authority to sign or attest all approved documents, instruments, contracts, or other papers in connection with the operation of the business of the company in addition to the chairman of the board, the chief executive officer, president, treasurer or secretary; provided, however, the signature of any of them may be printed, engraved, or stamped on any approved document, contract, instrument, or other papers of the Company.

IN WITNESS WHEREOF, the Company has caused this instrument to be sealed and duly attested by the signature of its officer the 20th day of August, 2021.

Antonio C. Albanese, Vice President of Nationwide Mutual Insurance Company

ACKNOWLEDGMENT

STATE OF NEW YORK COUNTY OF NEW YORK: ss
On this 20th day of August, 2021, before me came the above-named officer for the Company aforesaid, to me personally known to be the officer described in and who executed the preceding instrument, and he acknowledged the execution of the same, and being by me duly sworn, deposes and says, that he is the officer of the Company aforesaid, that the seal affixed hereto is the corporate seal of said Company, and the said corporate seal and his signature were duly affixed and subscribed to said instrument by the authority and direction of said Company.

EXECUTED IN 2 ORIGINAL COUNTERPARTS
BOND NUMBER: 7901181374

LABOR AND MATERIAL BOND

Whereas, the City Council of the City of Redlands, State of California, and AME Builders Inc. dba AME Roofing (hereinafter designated as "Principal") have entered into an agreement (the "Agreement") whereby Principal agrees to install and complete certain designated public improvements (the "Work"), which said agreement, dated April 16, 2024, and identified as EOC HVAC Replacement and Roofing Replacement is hereby referred to and made a part hereof; and

Whereas, under the terms of the Agreement, Principal is required before commencing the performance of the Work, to file a good and sufficient Labor and Material bond with the City of Redlands to secure the claims to which reference is made in Title 3 (commencing with Section 9550) of Part 6 of Division 4 of the Civil Code of the State of California.

Now, therefore, said Principal and the undersigned as corporate surety, are held firmly bound unto the City and all contractors, subcontractors, laborers, material men and other persons employed in the performance of the Agreement and referred to in the aforesaid Code of Civil Procedure in the sum Four Hundred Twenty-Five Thousand Seven Hundred Six Dollars ($425,706) for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor, that said surety will pay the same in an amount not exceeding the amount hereinabove set forth, and also in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall insure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 3 (commencing with Section 9550) of Part 6 of Division 4 of the Civil Code, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement or the specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition.

In witness whereof, this instrument has been duly executed by the Principal and surety above named, on APRIL 9TH, 2024.

Introduction

FEMA grant recipients and subrecipients (also known as non-federal entities or NFEs)[1] will often use contractors to help them carry out work under their awards. These contracts are a commercial transaction between the NFE and its contractor, and FEMA has no contractual relationship with NFEs' contractors. Although FEMA is not a party to the contract, if an NFE is using federal funding to pay for the contract, the NFE must comply with federal laws, including the federal procurement standards.

This Guide is applicable to *all* NFEs purchasing in support of declarations and FEMA awards issued on or after November 12, 2020 and reflects Office of Management and Budget (OMB) revisions to the federal procurement standards.

For FEMA declarations and awards issued between December 26, 2014 and November 11, 2020 please refer to the *Contract Provisions Template*. While the *Contract Provisions Template* is only directly applicable to FEMA's Public Assistance (PA) Program, all FEMA grant recipients and subrecipients are encouraged to review this resource since it provides guidance on the federal procurement under grants regulations.

The federal procurement standards for NFEs are described in Title 2 of the Code of Federal Regulations (C.F.R.), Part 200, sections 200.317-200.327. 2 C.F.R. § 200.327 states that "the non-federal entity's contracts *must contain the applicable provisions* described in Appendix II to this part" (emphasis added).

This Guide is designed to help FEMA grant recipients and subrecipients navigate Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards, including providing mandatory language and/or suggested language for each required contract provision. This Guide also describes contract clauses that FEMA *recommends* in addition to those required by 2 C.F.R. Part 200.

This Guide provides:

- Sample language or references to find sample language for some of the federally required clauses.
- Required language for clauses that require exact language.

[1] Non-federal entity is defined as a state, local government, Indian tribe, institution of higher education, or nonprofit organization carrying out a federal award as a recipient or subrecipient. 2 C.F.R. § 200.1. State is defined as "any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any agency or instrumentality thereof exclusive of local governments." 2 C.F.R. § 200.1. The term "non-state entity" therefore refers to a non-federal entity other than a state, which includes local and tribal governments as well as nonprofit organizations.

- Sample language for some of the federally recommended clauses.

This Guide does *not* provide:

- Sample language for certain federally required or recommended clauses that must be included in accordance with the NFE's applicable laws, rules, and procedures.
- Provisions required by applicable state, tribal, or local laws or rules separate from the federal provisions.

Many of the provisions described in this Guide only apply when certain circumstances are present, such as the type of work being procured, the dollar amount, or the date when it is procured. Each section will describe the applicable requirements.

NOTE: The NFE is solely responsible for ensuring that all language included in its contracts meets the requirements of 2 C.F.R. Part 200, including 2 C.F.R. § 200.327 and Appendix II. While the Contract Provisions Guide provides general guidance, NFEs should reach out to their applicable FEMA grant program representative(s) if they have specific questions on the applicability of the contract provisions to a particular FEMA grant program. NFEs are encouraged to visit www.fema.gov for additional information regarding FEMA grant programs and www.fema.gov/grants/procurement for procurement under grants reference material.

Summary of Applicable Federal Procurement Standards

For the NFE to determine which federal procurement rules to follow, it must first determine whether it is a state entity or a non-state entity. Below are the federal procurement rules applicable to state and non-state entities effective November 12, 2020:

- State entities[2], including their agencies and instrumentalities, must follow their own documented procurement policies and procedures when purchasing under a FEMA award pursuant to 2 C.F.R. § 200.317. These entities must also comply with socioeconomic affirmative steps (2 C.F.R. § 200.321), requirement for domestic preferences for procurement (2 C.F.R. § 200.322), the requirements for procurement of recovered materials (2 C.F.R. § 200. 323) and ensure that all necessary contract provisions are included in their contracts (2 C.F.R § 200.327).
- NFEs other than states (collectively referred to as non-state entities[3]), which include local governments, tribes and eligible private nonprofit organizations, must have documented procurement policies and procedures, which reflect applicable local, state or tribal law, and ensure compliance with the federal requirements listed at 2 C.F.R. §§ 200.318 – 200.327.

[2] A state entity is "any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any agency or instrumentality thereof exclusive of local governments." 2 C.F.R. § 200.1
[3] A non-state entity is any non-federal entity (as defined above) other than a state (as defined above).

In the case of noncompliance with the federal procurement rules, FEMA may apply a remedy, as appropriate, in accordance with its authorities found at 2 C.F.R. § 200.339 *Remedies for Noncompliance*.

Policy and Guidance Document(s) Incorporated and Superseded

This Guide supersedes the Contract Provisions Template and other provisions pertaining to the procurement under grants process in policy or guidance circulated prior to the publication date of the Contract Provisions Guide. This Guide provides the most updated and authoritative information regarding required provisions under Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards and FEMA-recommended contract provisions.

Document Management and Maintenance

FEMA Policy FI-207-21-0001, Contract Provisions Guide, will be reviewed, reissued, revised, and/or rescinded within four years for the issue date. The Procurement Disaster Assistance Team (PDAT), a subcomponent of FEMA's Grant Programs Directorate's (GPD) Policy Division, developed this Guide to provide accurate and updated information to assist both FEMA staff and FEMA award recipients and subrecipients navigate Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards. PDAT is responsible for the management and maintenance of this Guide. Comments and feedback from FEMA personnel and stakeholders regarding this Guide should be directed to the Grants Program Directorate Policy Division at FEMA headquarters (HQ) at FEMA-GPD-Policy@fema.dhs.gov.

Contract Provisions Quick Reference Guide

Tables A and B are designed to help FEMA grant recipients and subrecipients conduct a quick reference of the applicability of a specific contract provision and whether sample contract language is included within this Guide to incorporate within the NFE's contract.

The Tables are divided between the required contract provisions set forth under 2 C.F.R. Part 200 Appendix II and those that FEMA *recommends* in addition to those required by 2 C.F.R. Part 200.

Table A: Required Contract Provisions *(continued next page)*

	Provision (Appendix II Section)	Applicability	Sample Contract Language Included
1	Legal/contractual/administrative remedies for breach of contract	Greater than Simplified Acquisition Threshold (SAT)- $250,000	No. It is based on NFE's procedures.
2	Termination for cause and convenience	Greater than $10,000	No. It is based on NFE's procedures.
3	Equal Employment Opportunity	Construction work	Yes. Exact language from 41 C.F.R. § 60-1.4(b) included.
4	Davis-Bacon Act	Construction work	Yes, via reference to required language at 29 C.F.R. § 5.5(a).
5	Copeland "Anti-Kickback" Act	Construction work greater than $2,000	Yes.
6	Contract Work Hours and Safety Standards Act	Greater than $100,000 + mechanics or laborers	Yes. Exact language required from 29 C.F.R. § 5.5(b).
7	Rights to inventions made under a contract or agreement	Funding agreement	Yes.
8	Clean Air Act and federal Water Pollution Control Act	Greater than $150,000	Yes.
9	Debarment and Suspension	Greater than $25,000	Yes.
10	Byrd Anti-Lobbying Amendment	Greater than $100,000; and Certification required for all contracts greater than $100,000	Yes. Clause and certification.

	Provision (Appendix II Section)	Applicability	Sample Contract Language Included
11	Procurement of Recovered Materials	NFE is a state or political subdivision of a state. Work involves the use of materials and the contract is for more than $10,000.	Yes.
12	Prohibition on Contracting for Covered Telecommunications Equipment or Services	All FEMA declarations and awards issued on or after November 12, 2020.	Yes.
13	Domestic Preferences for Procurements	All FEMA declarations and awards issued on or after November 12, 2020.	Yes.

Table B: Recommended Contract Provisions

	Provision	Applicability	Sample Contract Language Included
1	Access to Records	All	Yes.
2	Contract Changes or Modifications	All	No. It depends on nature of contract and end-item procured.
3	DHS Seal, Logo, and Flags	All	Yes.
4	Compliance with federal Law, Regulations and Executive Orders	All	Yes.
5	No Obligation by Federal Government	All	Yes.
6	Program Fraud and False or Fraudulent Statements or Related Acts	All	Yes.
7	Affirmative Socioeconomic Steps	State entities: all FEMA declarations and awards issued on or after November 12, 2020. Non-state entities: all procurements	Yes.
8	Copyright	All procurements that may involve creation of copyrightable material.	Yes.

Required Contract Provisions

1. Remedies

Contracts for more than the federal simplified acquisition threshold (SAT), the dollar amount below which an NFE may purchase property or services using small purchase methods, currently set at $250,000 for procurements made on or after June 20, 2018,[4] must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and must provide for sanctions and penalties as appropriate.[5]

1.1 Applicability

This contract provision is required for contracts over the SAT, currently set at $250,000 for procurements made on or after June 20, 2018. Although not required for contracts at or below the SAT, FEMA suggests including a remedies provision.

1.2 Additional Considerations

For FEMA's Assistance to Firefighters Grant (AFG) Program, recipients must include a penalty clause in all contracts for any AFG-funded vehicle, regardless of dollar amount. In that situation, the contract must include a clause addressing that non-delivery by the contract's specified date or other vendor nonperformance will require a penalty of no less than $100 per day until such time that the vehicle, compliant with the terms of the contract, has been accepted by the recipient. This penalty clause should, however, account for *force majeure* or acts of god. AFG recipients should refer to the applicable year's Notice of Funding Opportunity (NOFO) for additional information, which can be accessed at FEMA.gov.

2. Termination for Cause and Convenience

Contracts for more than $10,000 must address termination for cause and for convenience by the non-federal entity, including how it will be carried out and the basis for settlement.[6]

2.1 Applicability

This contract provision is required for procurements exceeding $10,000. FEMA suggests including a termination for cause and for convenience in all contracts even when not required.

---

[4] *See* FEMA Grant Programs Directorate Information Bulletin No. 434, Increases and Changes to the Micro-Purchase and Simplified Acquisition Thresholds (Aug. 28, 2018), https://www.fema.gov/sites/default/files/2020-08/ib_434_changes_micro_purch_simp_acquisition_thresholds.pdf. For procurements subject to 2 C.F.R. Part 200 that were made before June 20, 2018, the SAT was $150,000.

[5] 2 C.F.R. Part 200, Appendix II, § A.

[6] *See* 2 C.F.R. Part 200, Appendix II, § B.

3. Equal Employment Opportunity

Any contract that uses federal funds to pay for construction work is a "federally assisted construction contract" and must include the equal opportunity clause found in 2 C.F.R. Part 200, unless otherwise stated in 41 C.F.R. Part 60.[7]

3.1 Applicability

This contract provision is required for all procurements that meet the definition of a "federally assisted construction contract."

3.2 Key Definitions

- *Federally Assisted Construction Contract:* The regulation at 41 C.F.R. § 60-1.3 defines a *federally assisted construction contract* as "any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any federal program involving a grant, contract, loan, insurance or guarantee, or undertaken pursuant to any federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work."

- *Construction Work:* The regulation at 41 C.F.R. § 60-1.3 defines *construction work* as "the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction."

- *Contract:* The regulation at 41 C.F.R. § 60-1.3 defines *contract* as "any Government contract or subcontract or any federally assisted construction contract or subcontract."

- Additional definitions pertaining to this contract provision can be found at 41 C.F.R. § 60-1.3.

3.3 Required Language

The regulation at 41 C.F.R. § 60-1.4(b) requires, except as otherwise provided or exempted in 41 C.F.R. Part 60, the insertion of the following contract clause: "During the performance of this contract, the contractor agrees as follows:

> (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual

[7] *See* 2 C.F.R. Part 200, Appendix II, § C.

orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other

sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided,* that if the applicant so participating is a state or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings."

4. Davis-Bacon Act

This statute requires that contractors must pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in the Secretary of Labor's wage determination. Additionally, contractors are required to pay wages at least once per week.[8] Additional requirements are listed below, and relevant definitions are at 29 C.F.R. § 5.2. NFEs should refer to the applicable NOFO or other program guidance or contact their applicable FEMA grant representative for additional information on how to implement this requirement.

4.1 Applicability

When required by the federal program legislation, prime construction contracts over $2,000 awarded by NFEs must include a provision for compliance with the Davis-Bacon Act.[9]

The Davis-Bacon Act only applies to the Emergency Management Performance Grant Program,[10] Homeland Security Grant Program,[11] Nonprofit Security Grant Program,[12] Tribal Homeland Security Grant Program,[13] Port Security Grant Program,[14] Transit Security Grant Program,[15] Intercity Passenger Rail Program,[16] and Rehabilitation of High Hazard Potential Dams Program.[17] Unless otherwise stated in a program's authorizing statute, it *does not* apply to other FEMA grant and cooperative agreement programs, including the PA Program. .

[8] *See id.*; 40 U.S.C. §§ 3141-3144 and 3146-3148. The Davis-Bacon Act is supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering federally Financed and Assisted Construction)
[9] 2 C.F.R. Part 200, Appendix II, § D.
[10] *See* section 611(j)(9) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), Pub. L. No. 93-288 (codified as amended at 42 U.S.C. § 5196(j)(9)).
[11] *See* section 2008(b)(4)(B)(ii) of the Homeland Security Act of 2002, Pub. L. No. 107-296 (codified as amended at 6 U.S.C. § 609(b)(4)(B)(ii)) (citing to section 611(j)(9) of the Stafford Act).
[12] *Id.* The Davis-Bacon Act only applies to the Nonprofit Security Grant Program (NSGP) where that program is funded as a carve-out of the appropriations for the Homeland Security Grant Program (HSGP). *See, e.g.,* Department of Homeland Security Appropriations Act, 2020, Pub. L. No. 116-93, Title III, Protection, Preparedness, Response, and Recovery, Federal Emergency Management Agency, Federal Assistance §§ 1-2. *Compare id. with* section 2009 of the Homeland Security Act of 2002 (6 U.S.C. § 609a) (authorizing NSPG as a stand-alone program where the Davis-Bacon Act does not apply, but as of the date of publication of this document, NSGP has not been funded as a standalone program).
[13] *See* section 2008(b)(4)(B)(ii) of the Homeland Security Act of 2002.
[14] *See* section 102 of the Maritime Transportation Security Act of 2002 (MTSA), Pub. L. No. 107-295 (codified as amended at 46 U.S.C. § 70107); 46 U.S.C. § 70107(b)(2). While the MTSA requires that PSGP construction activities are carried out consistent with section 611(j)(8) of the Stafford Act, a subsequent amendment to the Stafford Act by section 3 of Pub. L. No. 109-308 in 2006 redesignated the text of section 611(j)(8) to 611(j)(9). The cross-reference in the MTSA has not been updated.
[15] *See* section 1406 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (9/11 Act), Pub. L. No. 110-53 (6 U.S.C. § 1135) (applying the requirements of section 49 U.S.C. § 5307); 49 U.S.C. § 5333 (applying the Davis-Bacon Act to grants provided under 49 U.S.C. § 5307).
[16] *See* section 1513(h) of the 9/11 Act (6 U.S.C. § 1163(h)) (citing to 49 U.S.C. § 24312, which requires compliance with the Davis-Bacon Act).
[17] *See* section 8A(d)(2)(E) of the National Dam Safety Program Act (codified as amended at 33 U.S.C. § 467f-2(d)(2)(E)) (requiring compliance with 42 U.S.C. § 5196(j)(9), which is section 611(j)(9) of the Stafford Act that applies the Davis-Bacon Act).

4.2 Additional Requirements

If applicable, in addition to the requirements mentioned in the beginning of this section, the NFE must do the following:

- Place a copy of the Department of Labor's current prevailing wage determination in each solicitation. Contracts or subcontracts must be awarded on the condition that the prevailing wage determination is accepted. The non-federal entity must report all suspected or reported violations to the federal awarding agency.[18]

- Include a provision for compliance with the Copeland "Anti-Kickback" Act for all contracts subject to the Davis-Bacon Act.[19] *See* Required Contract Provisions, Section 5. Copeland Anti-Kickback Act in this Guide for additional information. According to 29 C.F.R. § 5.5(a)(5), the regulatory requirements for the Copeland "Anti-Kickback" Act are incorporated by reference into the required contract provision, so a separate contract provision is not necessary. However, the NFE may include a separate contract provision specific to the Copeland "Anti-Kickback" Act.

- Per Department of Labor's implementing regulations for the Davis-Bacon Act, the NFEs contractor and any subcontractors are required to insert, or incorporate by reference, the clauses contained at 29 C.F.R. § 5.5(a)(1)-(10)[20] into any subcontracts.

- Follow the other requirements of the Davis-Bacon Act and implementing regulations.[21]

4.3 Required Language[22]

If applicable per the standard described above, the NFE must include the provisions at 29 C.F.R. § 5.5(a)(1)-(10) in full into all applicable contracts, and all applicable contractors must include these provisions in full in any subcontracts.[23]

5. Copeland "Anti-Kickback" Act

The Copeland "Anti-Kickback" Act prohibits workers on construction contracts from giving up wages that they are owed.[24] Additional requirements are listed below, and relevant definitions are at 29 C.F.R. § 3.2. The applicable implementing regulations are intended to assist with enforcement of the

[18] 2 C.F.R. Part 200, Appendix II, § D.
[19] 2 C.F.R. Part 200, Appendix II, § D.
[20] 29 C.F.R. § 5.5(a)(6).
[21] 40 U.S.C. §§ 3141-3144, 3146-3148; 29 C.F.R. Part 5.
[22] 29 C.F.R. § 5.5(a).
[23] 29 C.F.R. § 5.5(a)(1), (6).
[24] *See id.*; 40 U.S.C. § 3145. The Copeland "Anti-Kickback" Act is supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States).

Davis-Bacon Act's minimum wage provisions as well as various statutes with similar minimum wage provisions for federally assisted construction.[25]

5.1 Applicability

For all prime construction contracts above $2,000, when the Davis-Bacon Act also applies,[26] NFEs must include a provision in contracts and subcontracts for compliance with the Copeland "Anti-Kickback" Act.[27] This requirement applies to all prime construction contracts above $2,000 in situations where the Davis-Bacon Act also applies.[28] In situations where the Davis-Bacon Act does not apply, neither does the Copeland "Anti-Kickback" Act. As described in section A.4 regarding the Davis-Bacon Act, this provision only applies to certain FEMA grant and cooperative agreement programs. Please reference that list discussed above. Of note, it does not apply to the PA Program.

5.2 Additional Requirements

If applicable, the NFE must do the following:

- Include a provision for compliance with the Copeland "Anti-Kickback" Act.[29] According to the Davis-Bacon Act implementing regulations, the requirements for the Copeland "Anti-Kickback" Act are incorporated into the required contract provision for the Davis-Bacon Act by reference.[30] Therefore, a separate contract provision is not necessary. However, the NFE may include a separate contract provision specific to the Copeland "Anti-Kickback" Act with language suggested below.

- The Copeland "Anti-Kickback Act" prohibits each contractor or subcontractor from any form of persuading a person employed in construction, completion, or repair of public work to give up any part of their rightful compensation. The NFE must report all suspected or reported violations of the Copeland "Anti-Kickback Act" to FEMA.[31]

- Each contractor and subcontractor must provide weekly reports of the wages paid during the prior week's payroll period to each employee covered by the "Copeland Anti-Kickback" Act and the Davis-Bacon Act. The reports must be delivered to a representative of a federal or state agency in charge at the building or work site by the contractor or subcontractor within seven days of the payroll period's payment date.[32]

[25] *See* 29 C.F.R. § 3.1.
[26] *See* 2 C.F.R. Part 200, Appendix II, § D; 29 C.F.R. §§ 3.1, 3.3(c).
[27] 2 C.F.R. Part 200, Appendix II, § D.
[28] *See* 2 C.F.R. Part 200, Appendix II, § D; 29 C.F.R. § 3.3(c).
[29] *See* 29 C.F.R. § 3.11.
[30] 29 C.F.R. § 5.5(a)(5).
[31] *See* 2 C.F.R. Part 200, Appendix II, § D.
[32] *See* 29 C.F.R. § 3.4.

- Follow the other requirements of the Copeland "Anti-Kickback" Act and implementing regulations.[33]

5.3 Suggested Language

The following provides a sample contract clause:

> "Compliance with the Copeland "Anti-Kickback" Act.
>
> Contractor. The contractor shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. Part 3 as may be applicable, which are incorporated by reference into this contract.
>
> Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.
>
> Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12."

6. Contract Work Hours and Safety Standards Act

Where applicable,[34] all contracts awarded by the NFE of more than $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with statutory requirements on work hours and safety standards.[35] Under 40 U.S.C. § 3702, each contractor must base wages for every mechanic and laborer on a standard 40-hour work week. Work over 40 hours is allowed, so long as the worker is paid at least one and a half times the base pay rate for all hours worked over 40 hours in the work week. Additionally, for construction work, under 40 U.S.C. § 3704, work surroundings and conditions for laborers and mechanics must not be unsanitary or unsafe. Relevant definitions are at 40 U.S.C. § 3701 and 29 C.F.R. § 5.2.

6.1 Applicability

This required contract provision applies to all procurements over $100,000 that involve the employment of mechanics, laborers, and construction work.[36] These requirements *do not* apply to

[33] 18 U.S.C. § 874; 40 U.S.C. § 3145; 29 C.F.R. Part 3.
[34] *See* 40 U.S.C. §§ 3701-3708.
[35] 40 U.S.C. §§ 3702, 3704. The Contract Work Hours and Safety Standards Act is supplemented by Department of Labor regulations at 29 C.F.R. Part 5. *See* 2 C.F.R. Part 200, Appendix II, § E.
[36] 41 C.F.R. Part 60-1.3.

the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.[37]

6.2 Additional Requirements

If applicable per the standard described above, the non-federal entity must include the provisions at 29 C.F.R. § 5.5(b)(1)-(4), verbatim, into all applicable contracts, and all applicable contractors must include these provisions, in full, into any subcontracts.[38]

In addition to the required language from 29 C.F.R. § 5.5(b)(1)-(4), in any contract subject only to the Contract Work Hours and Safety Standards Act and not to any other statutes cited in 29 C.F.R. § 5.1, the NFE must also insert a clause meeting the requirements of 29 C.F.R. § 5.5(c). Specific language is not required, but FEMA has provided suggested language below.

6.3 Required Language

For the required contract provision, the language from 29 C.F.R. § 5.5(b)(1)-(4) is provided here for ease of reference:

> "Compliance with the Contract Work Hours and Safety Standards Act.
>
> (1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.
>
> (2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of $27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.
>
> (3) *Withholding for unpaid wages and liquidated damages.* The (insert name of grant recipient or subrecipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other

[37] 2 C.F.R. Part 200, Appendix II, § E.
[38] 29 C.F.R. § 5.5(b)(1), (4).

federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section."

6.4 Suggested Language

For contracts that are only subject to Contract Work Hours and Safety Standards Act and are not subject to the other statutes in 29 C.F.R. § 5.1 where an additional contract provision is required, FEMA suggests including the following language:

"Further Compliance with the Contract Work Hours and Safety Standards Act.

(1) The contractor or subcontractor shall maintain payrolls and basic payroll records during the course of the work and shall preserve them for a period of three years from the completion of the contract for all laborers and mechanics, including guards and watchmen, working on the contract. Such records shall contain the name and address of each such employee, social security number, correct classifications, hourly rates of wages paid, daily and weekly number of hours worked, deductions made, and actual wages paid.

(2) Records to be maintained under this provision shall be made available by the contractor or subcontractor for inspection, copying, or transcription by authorized representatives of the Department of Homeland Security, the Federal Emergency Management Agency, and the Department of Labor, and the contractor or subcontractor will permit such representatives to interview employees during working hours on the job."

7. Rights to Inventions Made Under a Contract or Agreement

This contract provision outlines the rules governing the ownership of inventions created using federal funds. If the FEMA award meets the definition of funding agreement[39] and the NFE enters into any contract involving substitution of parties, assignment or performance of experimental, developmental, or research work under that funding agreement, then the NFE must comply with the requirements of 37 C.F.R. Part 401 and any implementing regulations issued by FEMA.

[39] Funding agreement definition found under 37 C.F.R. § 401.2(a).

7.1 Applicability

This provision *does not* apply to all FEMA grant and cooperative agreement programs. NFEs should refer to applicable NOFO or other program guidance or contact their applicable FEMA grant representative to determine if this provision is required for the procurement. However, the Rights to Inventions Made Under a Contract or Agreement clause is not required for procurements under FEMA's PA Program.

7.2 Key Definitions

Funding Agreements: The regulation at 37 C.F.R. § 401.2(a) defines *funding agreement* as "any contract, grant, or cooperative agreement entered into between any federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph."

8. Clean Air Act and Federal Water Pollution Control Act

For contracts over $150,000, contracts must contain a provision requiring contractors to comply with the Clean Air Act[40] and the Federal Water Pollution Control Act.[41] Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency (EPA).[42]

8.1 Applicability

This contract provision is required for all procurements over $150,000.

8.2 Suggested Language

The following provides a sample contract clause:

"Clean Air Act"

The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 *et seq.*

The contractor agrees to report each violation to the (insert name of non-federal entity entering into the contract) and understands and agrees that the (insert name of the non-federal entity entering into the contract) will, in turn, report each violation as required to

[40] 42 U.S.C. §§ 7401-7671q. This also includes all applicable standards, orders, or regulations issued pursuant to the Clean Air Act.
[41] 33 U.S.C. §§ 1251-1387, as amended.
[42] 2 C.F.R. Part 200, Appendix II, § G.

assure notification to the Federal Emergency Management Agency (FEMA), and the appropriate Environmental Protection Agency Regional Office.

The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with federal assistance provided by FEMA.

"Federal Water Pollution Control Act"

The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the federal Water Pollution Control Act, as amended, 33 U.S.C. § 1251 *et seq.*

The contractor agrees to report each violation to the (**insert name of the non-federal entity entering into the contract**) and understands and agrees that the (**insert name of the non-federal entity entering into the contract**) will, in turn, report each violation as required to assure notification to the (**insert name of the pass-through entity, if applicable**), Federal Emergency Management Agency (FEMA), and the appropriate Environmental Protection Agency Regional Office.

The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with federal assistance provided by FEMA."

9. Debarment and Suspension

NFEs contractors and subcontractors are subject to debarment and suspension regulations.[43] Applicable contracts and subcontracts must include a provision requiring compliance with debarment and suspension regulations.[44]

9.1 Applicability

The debarment and suspension clause is required for all contracts and subcontracts for $25,000 or more, all contracts that require the consent of an official of a federal agency, and all contracts for federally required audit services.[45]

NFEs, even for procurements under $25,000, must also comply with the regulation requiring non-state entities to only award contracts to responsible vendors.[46]

[43] 2 C.F.R. Part 180 (implementing Executive Order 12549, Debarment and Suspension (1986) and Executive Order 12689, Debarment and Suspension (1989)); 2 C.F.R. Part 3000 (Department of Homeland Security regulations for Nonprocurement Debarment and Suspension, implementing 2 C.F.R. Part 180).
[44] 2 C.F.R. § 180; 2 C.F.R. Part 200, Appendix II, § H; 2 C.F.R. § 3000.332.
[45] 2 C.F.R. § 180.220(b); 2 C.F.R. § 3000.220.
[46] 2 C.F.R. § 200.318(h). For contracts and subcontracts under $25,000, a contract provision is only required if those contracts or subcontracts are for federally required audit services or require the consent of a federal agency. However, even where a contract provision is not required, non-state entities must still ensure they are only awarding contracts to responsible vendors.

9.2 Additional Requirements

The debarment and suspension regulations restrict awards, subawards, contracts, and subcontracts with parties that are debarred, suspended, or otherwise excluded, or declared ineligible for participation in federal assistance programs and activities.[47]

If applicable, a contract or subcontract must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM). SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties that are debarred, suspended, or otherwise excluded, or declared ineligible under statutory or regulatory authority other than Executive Order 12549.[48] SAM Exclusions can be accessed at www.sam.gov.[49]

In general, an "excluded" party cannot receive a federal grant award or a contract considered to be a "covered transaction," which includes parties that receive federal funding indirectly such as subawards and subcontracts. The key to the exclusion is whether there is a covered transaction. A covered transaction is a nonprocurement transaction at either a primary or secondary tier.[50]

Specifically, a covered transaction includes the following contracts for goods or services under FEMA grant and cooperative agreement programs:

- The contract is at least $25,000.
- The contract requires the approval of FEMA, regardless of amount.
- The contract is for federally required audit services.
- It is a subcontract for $25,000 or more.[51]

9.3 Suggested Language

The following provides a debarment and suspension clause. It also incorporates an optional method of verifying that contractors are not excluded or disqualified[52]:

[47] *See* 2 C.F.R. Part 200, Appendix II, § H; 2 C.F.R. § 200.213. *See also* 2 C.F.R. Parts 180, 3000.
[48] *See* 2 C.F.R. Part 200, Appendix II, § H.
[49] 2 C.F.R. § 180.530.
[50] The regulations at 2 C.F.R. Parts 180 and 3000 are titled "nonprocurement" because they do not apply to procurements by the federal government but rather to federal financial assistance. There are separate debarment and suspension regulations covering procurements by the federal government. However, although the term "covered transactions" under 2 C.F.R. Parts 180 and 3000 *does not* include contracts awarded by the federal government, it *does* include some contracts awarded by recipients and subrecipients.
[51] *See* 2 C.F.R. §§ 180.220, 3000.220.
[52] Per 2 C.F.R. § 180.300, non-federal entity about to enter into an applicable contract, or a contractor about to entire into an applicable subcontract, must verify that the contractor or subcontractor is not excluded or disqualified by doing one of three things: 1) check SAM Exclusions; 2) collect a certification from the contractor or subcontractor; or 3) add a clause or condition to the contract or subcontract. The additional suggested language in this sample clause is for purposes of this requirement.

"Suspension and Debarment

This contract is a covered transaction for purposes of 2 C.F.R. Part 180 and 2 C.F.R. Part 3000. As such, the contractor is required to verify that none of the contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

The contractor must comply with 2 C.F.R. Part 180, subpart C and 2C.F.R. Part 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

This certification is a material representation of fact relied upon by (insert name of recipient/subrecipient/applicant). If it is later determined that the contractor did not comply with 2 C.F.R. Part 180, subpart C and 2 C.F.R. Part 3000, subpart C, in addition to remedies available to (insert name of recipient/subrecipient/applicant), the federal government may pursue available remedies, including but not limited to suspension and/or debarment.

The bidder or proposer agrees to comply with the requirements of 2 C.F.R. Part 180, subpart C and 2 C.F.R. Part 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions."

10. Byrd Anti-Lobbying Amendment

NFEs who intend to award contracts of more than $100,000, and their contractors who intend to award subcontracts of more than $100,000, must include a contract provision prohibiting the use of federal appropriated funds to influence officers or employees of the federal government. Contractors that apply or bid for a contract for more than $100,000 must also file the required certification regarding lobbying.[53]

Each tier certifies to the tier above that it will not and has not used federal appropriated funds to pay any person or organization for influencing or attempting to influence an employee of a federal agency, a Member of Congress, an employee of Congress, or an employee of a Member of Congress in connection with receiving any federal contract, grant, or other award covered by 31 U.S.C. § 1352.

[53] *See* 2 C.F.R. Part 200, Appendix II, § I (citing 31 U.S.C. § 1352); 44 C.F.R. § 18.110.

The required certification form is found in FEMA regulations.[54] Each tier must also disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal funding. These disclosures are forwarded from tier to tier, all the way up to the federal awarding agency.[55]

10.1 Applicability

The Byrd Anti-Lobbying Amendment clause and certification are required for contracts of more than $100,000, and for subcontracts of more than $100,000.

10.2 Suggested Language

The following provides a sample contract clause:

> "Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)
>
> > Contractors who apply or bid for an award of more than $100,000 shall file the required certification. Each tier certifies to the tier above that it will not and has not used federally appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the federal awarding agency."

10.3 Required Certification

10.3.1 REQUIRED CERTIFICATION LANGUAGE

If applicable, contractors must sign and submit the following certification to the NFE with each bid or offer exceeding $100,000:

> "APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING
>
> Certification for Contracts, Grants, Loans, and Cooperative Agreements
>
> The undersigned certifies, to the best of his or her knowledge and belief, that:
>
> > No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee

[54] *See* 44 C.F.R. §§ 18.100, 18.110; 44 C.F.R. Part 18, Appendix A. FEMA's regulations at 44 C.F.R. Part 18 implement the requirements of 31 U.S.C. § 1352 and provides, in Appendix A to Part 18, a copy of the certification that is required to be completed by each entity as described in 31 U.S.C. § 1352.
[55] *See* 44 C.F.R. §§ 18.100, 18.110; 44 C.F.R. Part 18, Appendix B. The specific form for disclosures is referenced in Appendix B to 44 C.F.R. Part 18 and is SF-LLL, also available at https://www.grants.gov/web/grants/forms/sf-424-family.html.

of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, Title 31, U.S.C. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure."

10.3.2 RECOMMENDED SIGNATURE LINE:

At the end of the certification language, FEMA recommends including the following signature line.

"The Contractor,_____, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. Chap. 38, Administrative Remedies for False Claims and Statements, apply to this certification and disclosure, if any.

_____

Signature of Contractor's Authorized Official

_____

Name and Title of Contractor's Authorized Official

_____

Date"

11. Procurement of Recovered Materials

An NFE that is a state agency or an agency of a political subdivision of a state, and the NFE's contractors must comply with Section 6002 of the Solid Waste Disposal Act.[56] Applicable NFEs must include a contract provision requiring compliance with this requirement.[57] This includes contracts awarded by a state agency or political subdivision of a state and its contractors for certain items, as designated by the EPA, with a purchase price greater than $10,000.[58] Indian Tribal Governments and nonprofit organizations are not required to comply with this provision. Additional requirements are listed below.

11.1 Applicability

This required contract provision applies to all procurements over $10,000 made by a state agency or an agency of a political subdivision of a state and its contractors.

11.2 Additional Requirements

The requirements include:

- Procuring only items designated in EPA guidelines[59] that contain the highest practical percentage of recovered materials consistent with maintaining competition, where the purchase price of the item is greater than $10,000, or the value of the amount of items purchased in the preceding fiscal year was greater than $10,000;
- Procuring solid waste management services in a way that maximizes energy and resource recovery; and
- Establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.[60]

11.3 Suggested Language

The following provides a sample contract clause:

> "In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired—

[56] Pub. L. No. 89-272 (1965) (codified as amended by the Resource Conservation and Recovery Act at 42 U.S.C. § 6962). 2 C.F.R. § 200.323.
[57] *See* 2 C.F.R. Part 200, Appendix II, § J (citing 2 C.F.R. § 200.323).
[58] *See* 2 C.F.R. Part 200, Appendix II, § J; 2 C.F.R. § 200.323; 40 C.F.R. Part 247.
[59] 40 C.F.R. Part 247.
[60] 42 U.S.C. § 6962; 2 C.F.R. § 200.323.

Competitively within a timeframe providing forcompliance with the contract performance schedule;

Meeting contract performance requirements; or

At a reasonable price.

Information about this requirement, along with the list of EPA-designated items, is available at EPA's Comprehensive Procurement Guidelines webpage: https://www.epa.gov/smm/comprehensive- procurement-guideline-cpg-program.

The Contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act."

12. Prohibition on Contracting for Covered Telecommunications Equipment or Services

Section 889(b)(1) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (FY2019 NDAA) and 2 C.F.R. § 200.216, as implemented by FEMA Policy 405-143-1, Prohibitions on Expending FEMA Award Funds for Covered Telecommunications Equipment or Services (Interim), prohibit the obligation or expending of federal award funds on certain telecommunication products or from certain entities for national security reasons. Effective August 13, 2020, FEMA recipients and subrecipients, as well as their contractors and subcontractors, *may not* obligate or expend any FEMA award funds to:

a. Procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of any system;

b. Enter into, extend, or renew a contract to procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of any system; or

c. Enter into, extend, or renew contracts with entities that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

12.1 Applicability

For purchases in support of FEMA declarations and awards issued on or after November 12, 2020, all FEMA recipients and subrecipients, and their contractors and subcontractors, are required to include this contract provision in all FEMA-funded contracts and subcontracts, including any purchase orders.[61] FEMA strongly encourages the use of this contract clause for any contracts where

[61] 2 C.F.R. Part 200, Appendix II, § K (citing 2 C.F.R. § 200.216).

FEMA funding will be used regardless of whether the funding is from FEMA declarations or awards issued on or after November 12, 2020.

12.2 Suggested Language

The following provides a sample contract clause:

"Prohibition on Contracting for Covered Telecommunications Equipment or Services

(a) *Definitions.* As used in this clause, the terms backhaul; covered foreign country; covered telecommunications equipment or services; interconnection arrangements; roaming; substantial or essential component; and telecommunications equipment or services have the meaning as defined in FEMA Policy 405-143-1, Prohibitions on Expending FEMA Award Funds for Covered Telecommunications Equipment or Services (Interim), as used in this clause—

(b) *Prohibitions.*

(1) Section 889(b) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019, Pub. L. No. 115-232, and 2 C.F.R. § 200.216 prohibit the head of an executive agency on or after Aug.13, 2020, from obligating or expending grant, cooperative agreement, loan, or loan guarantee funds on certain telecommunications products or from certain entities for national security reasons.

(2) Unless an exception in paragraph (c) of this clause applies, the contractor and its subcontractors may not use grant, cooperative agreement, loan, or loan guarantee funds from the Federal Emergency Management Agency to:

(i) Procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of any system;

(ii) Enter into, extend, or renew a contract to procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of any system;

(iii) Enter into, extend, or renew contracts with entities that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system; or

(iv) Provide, as part of its performance of this contract, subcontract, or other contractual instrument, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

(c) *Exceptions.*

(1) This clause does not prohibit contractors from providing—
(i) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) By necessary implication and regulation, the prohibitions also do not apply to:

(i) Covered telecommunications equipment or services that:

i. Are *not used* as a substantial or essential component of any system; *and*

ii. Are *not used* as critical technology of any system.

(ii) Other telecommunications equipment or services that are not considered covered telecommunications equipment or services.

(d) *Reporting requirement.*

(1) In the event the contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the contractor is notified of such by a subcontractor at any tier or by any other source, the contractor shall report the information in paragraph (d)(2) of this clause to the recipient or subrecipient, unless elsewhere in this contract are established procedures for reporting the information.

(2) The Contractor shall report the following information pursuant to paragraph (d)(1) of this clause:

(i) Within one business day from the date of such identification or notification: The contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: Any further available information about mitigation actions undertaken or recommended. In addition, the contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) *Subcontracts.* The Contractor shall insert the substance of this clause, including this paragraph (e), in all subcontracts and other contractual instruments."

13. Domestic Preferences for Procurements

As appropriate, and to the extent consistent with law, NFEs should, to the greatest extent practicable under a federal award, provide a preference for the purchase, acquisition, or use of goods, products or materials produced in the United States. This includes, but is not limited to, iron, aluminum, steel, cement, and other manufactured products.[62]

13.1 Applicability

For purchases in support of FEMA declarations and awards issued on or after November 12, 2020, all FEMA recipients and subrecipients are required to include in all contracts and purchase orders for work or products a contract provision encouraging domestic preference for procurements.[63]

13.2 Suggested Language

The following provides a sample contract clause:

> "Domestic Preference for Procurements
>
> As appropriate, and to the extent consistent with law, the contractor should, to the greatest extent practicable, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States. This includes, but is not limited to iron, aluminum, steel, cement, and other manufactured products.
>
> For purposes of this clause:
>
> *Produced in the United States* means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
>
> *Manufactured products* mean items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber."

[62] *See* 2 C.F.R. § 200.322.
[63] 2 C.F.R. Part 200, Appendix II, § L (citing 2 C.F.R. § 200.322). The requirements of 2 C.F.R. § 200.322 must also be included in all subawards.

FEMA Recommended Contract Provisions

Appendix II to Part 200 authorizes FEMA to require or recommend additional provisions for NFE contracts. Therefore, FEMA recommends the following:

1. Access to Records

NFEs and their contractors and subcontractors must give the Department of Homeland Security (DHS) and FEMA access to records associated with their awards during the federally required record retention period and as long as the records are retained.[64] All parties agree to comply with DHS provisions about accessing people, places, and things related to the federal financial award as necessary or as required by DHS regulations or other applicable laws and policies.[65] Additionally, for contracts entered into after August 1, 2017, under a major disaster or emergency declaration under Titles IV or V of the Robert T. Stafford Disaster Relief Act, FEMA is prohibited from funding any contracts that prevent audits or internal reviews by the FEMA Administrator or Comptroller General.[66]

1.1 Suggested Language for All Procurements

The following provides a sample contract clause:

> "The Contractor agrees to provide **(insert non-federal entity), (insert name of pass-through entity, if applicable)**, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.
>
> The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.
>
> The Contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.

[64] 2 C.F.R. §§ 200.334, 200.337.
[65] *See* DHS Standard Terms and Conditions, *available at* https://www.dhs.gov/publication/fy15-dhs-standard-terms-and-conditions.
[66] *See* Sections 1202 and 1225 of the Disaster Recovery Reform Act of 2018, Pub. L. No. 115-254.

1.2 Additional Suggested Language Applicable to Contracts Entered into After August 1, 2017 Under a Major Disaster or Emergency Declaration

The following provides a sample contract clause:

> In compliance with section 1225 of the Disaster Recovery Reform Act of 2018, the (insert name of the non-federal entity) and the Contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States."

2. Changes

To be allowable under a FEMA grant or cooperative agreement award, the cost of any contract change, modification, amendment, addendum, change order, or constructive change must be necessary, allocable, within the scope of the grant or cooperative agreement, reasonable for the scope of work, and otherwise allowable.[67]

2.1 Applicability

FEMA recommends that all contracts include a changes clause that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may depend on the nature of the contract and the procured item(s) or service(s). The NFE should also consult their servicing legal counsel to determine whether and how contract changes are permissible under applicable state, local, or tribal laws or regulations.

3. DHS Seal, Logo, and Flags

Recipients must obtain permission before using the DHS seal(s), logos, crests, reproductions of flags, or likenesses of DHS agency officials.[68]

3.1 Applicability

FEMA recommends that all NFEs include in their contracts a statement that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without FEMA's pre-approval.

3.2 Suggested Language

The following provides a sample contract clause:

[67] *See* 2 C.F.R. § 200.403.
[68] *See* DHS Standard Terms and Conditions, *available at* https://www.dhs.gov/publication/fy15-dhs-standard-terms-and-conditions.

"The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval. The contractor shall include this provision in any subcontracts."

4. Compliance with Federal Law, Regulations, And Executive Orders and Acknowledgement of Federal Funding

The NFEs and its contractors are required to comply with all federal laws, regulations, and executive orders. Additionally, recipients must acknowledge their use of federal funding when issuing statements, press releases, requests for proposal, bid invitations, and other documents describing projects or programs funded in whole or in part with federal funds.[69]

4.1 Applicability

FEMA recommends that all NFEs include in their contracts a statement acknowledging that FEMA funding will be used in the contract, as well as a requirement that contractors will comply with all applicable federal law, regulations, executive orders, and FEMA policies, procedures, and directives.

4.2 Suggested Language

The following provides a sample contract clause:

"This is an acknowledgement that FEMA financial assistance will be used to fund all or a portion of the contract. The contractor will comply with all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives."

5. No Obligation by Federal Government

FEMA is not a party to any transaction between a NFE and its contractor. Therefore, FEMA is not subject to any obligations or liable to any party for any matter relating to the contract between an NFE and its contractor.[70]

5.1 Applicability

FEMA recommends that the NFE include a statement in its contract that the federal government *is not* a party to the contract and, thus, *is not* subject to any obligations or liabilities to any party resulting from the contract.

[69] *See* DHS Standard Terms and Conditions, *available at* https://www.dhs.gov/publication/fy15-dhs-standard-terms-and-conditions.
[70] *See, e.g.*, 2 C.F.R. § 200.318(k) (stating that the NFE alone is responsible for the settlement of all contractual and administrative issues arising out of procurements).

5.2 Suggested Language

The following provides a sample contract clause:

> "The federal government is not a party to this contract and is not subject to any obligations or liabilities to the non-federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

6. Program Fraud and False or Fraudulent Statements or Related Acts

NFEs must comply with the requirements of the False Claims Act which prohibits submitting false or fraudulent claims for payment to the federal government.[71] As a part of the contract with a NFE, contractors must acknowledge that 31 U.S.C. Chap. 38, regarding administrative remedies for false claims and statements,[72] applies to their actions under their contract.[73]

6.1 Applicability

FEMA recommends that contracts include a provision prohibiting making false or fraudulent claims to the federal government.

6.2 Suggested Language

The following provides a sample contract clause:

> "The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor's actions pertaining to this contract."

7. Affirmative Socioeconomic Steps

For procurements under FEMA declarations and awards issued on or after November 12, 2020, all NFEs are required to take the six affirmative steps to ensure use of small and minority businesses, women's business enterprises, and labor surplus area firms when possible. One of the six steps is to require the prime contractor, if subcontracts are to be let, to take the five other affirmative steps,[74] For procurements under FEMA declarations and awards issued between December 26, 2014, and November 12, 2020, this requirement *only* applies to non-state entities.

[71] 31 U.S.C. §§ 3729-3733.
[72] 31 U.S.C. §§ 3801-3812 (detailing the administrative remedies for false claims and statements made).
[73] *See* DHS Standard Terms and Conditions, *available at* https://www.dhs.gov/publication/fy15-dhs-standard-terms-and-conditions.
[74] *See* 2 C.F.R. § 200.321; *compare* 2 C.F.R. § 200.317 (2019), *with* 2 C.F.R. § 200.317 *in* Office of Management and Budget, Guidance for Grants and Agreements, 85 Fed. Reg. 49,506, 49,552 (Aug. 13, 2020).

7.1 Applicability

FEMA recommends that applicable NFEs include in their contracts a statement requiring prime contractors, if subcontracts are to be let, to take the required affirmative socioeconomic steps.

7.2 Suggested Language

The following provides a sample contract clause:

> "If subcontracts are to be let, the prime contractor is required to take all necessary steps identified in 2 C.F.R. § 200.321(b)(1)-(5) to ensure that small and minority businesses, women's business enterprises, and labor surplus area firms are used when possible."

8. Copyright and Data Rights

An NFE is required by 2 C.F.R. § 200.315 to provide certain licenses with respect to copyright and data to the federal awarding agency. 2 C.F.R. § 200.315(b) provides to the federal awarding agency "a royalty-free, nonexclusive and irrevocable right to reproduce, publish, or otherwise use [any work that is subject to copyright] for federal purposes, and to authorize others to do so." 2 C.F.R. § 200.315(d) provides to the federal government the rights to "obtain, reproduce, publish, or otherwise use" data produced under a federal award and to authorize others to do the same.

8.1 Applicability

When an NFE enters into a contract requiring a contractor or subcontractor to produce copyrightable subject matter and/or data for the NFE under the award, the NFE should include appropriate copyright and data licenses to meet its obligations under 2 C.F.R. § 200.315(b) and (d), respectively. Work that is subject to copyright, or copyrightable subject matter, includes any written reports or literary works, software and/or source code, music, choreography, pictures or images, graphics, sculptures, videos, motion pictures or other audiovisual works, sound and/or video recordings, and architectural works.[75]

8.2 Suggested Language

The following provides a sample contract clause:

> "License and Delivery of Works Subject to Copyright and Data Rights"
>
> The Contractor grants to the (insert name of the non-federal entity), a paid-up, royalty-free, nonexclusive, irrevocable, worldwide license in data first produced in the performance of this contract to reproduce, publish, or otherwise use, including prepare derivative works, distribute copies to the public, and perform publicly and display publicly such data. For data required by the contract but not first produced in the performance of this contract, the Contractor will identify

[75] *See* 17 U.S.C. § 102.

such data and grant to the (insert name of the non-federal entity) or acquires on its behalf a license of the same scope as for data first produced in the performance of this contract. Data, as used herein, shall include any work subject to copyright under 17 U.S.C. § 102, for example, any written reports or literary works, software and/or source code, music, choreography, pictures or images, graphics, sculptures, videos, motion pictures or other audiovisual works, sound and/or video recordings, and architectural works. Upon or before the completion of this contract, the Contractor will deliver to the (insert name of the non-federal entity) data first produced in the performance of this contract and data required by the contract but not first produced in the performance of this contract in formats acceptable by the (insert name of the non-federal entity)."

Definitions

- **Contract:** A legal instrument by which a FEMA award recipient or subrecipient purchases property or services needed to carry out the project or program under a federal award.[76] A contract, for the purposes of this Guide, does not mean a federal award or subaward.

- **Contractor:** *Contractor* means an entity that receives a contract.[77]

- **Cooperative agreement:** A legal instrument of financial assistance between a federal awarding agency or pass-through entity and a non-Federal entity, that is consistent with 31 U.S.C. 6302-6305.[78]

- **Federal awarding agency**: The federal agency that provides a federal award directly to a non-Federal entity (NFE). The federal awarding agency discussed in this Guide is FEMA.

- **Federal Emergency Management Agency (FEMA):** *FEMA's* statutory mission is to reduce the loss of life and property and protect the Nation from all hazards, including natural disasters, acts of terrorism, and other man-made disasters, by leading and supporting the Nation in a risk-based, comprehensive emergency management system of preparedness, protection, response, recovery, and mitigation.[79] Among other things:

    - FEMA administers its programs and carries out its activities through its headquarters offices in Washington, D.C.; ten Regional Offices; Area Offices for the Pacific, Caribbean, and Alaska; various Recovery Offices; and temporary Joint Field Offices (JFO).

    - FEMA administers numerous assistance programs annually for on a regular basis to increase the Nation's preparedness, readiness and resilience to all hazards. These assistance programs are typically available to NFEs including, but not limited to, states, local governments, Indian Tribes, universities, hospitals, and certain private nonprofit organizations.

    - Each program is governed by the applicable federal law, regulations, executive orders and FEMA program-specific policies. As the Federal awarding agency for these programs, FEMA is responsible for the proper management and administration of these programs as otherwise required by law and enforcing the terms of the agreements it enters with NFEs that receive FEMA financial assistance, consistent with the requirements at 2 C.F.R. Part 200.

[76] 2 C.F.R. § 200.1 *Contracts.*
[77] 2 C.F.R. § 200.1 *Contractor.*
[78] 2 C.F.R. § 200.1 *Cooperative agreement.*
[79] *See* Homeland Security Act of 2002, Pub. L. No. 107-296, § 503 (2002) (codified as amended at 6 U.S.C. § 313).

- **Federal award**: The financial assistance that an NFE receives either directly from a Federal awarding agency or indirectly from a pass-through entity.[80] In this Guide, the term is used interchangeably with "FEMA Award," "grant," and "financial assistance."

- **Grant agreement:** A legal instrument of financial assistance between a Federal awarding agency or pass-through entity and an NFE that, consistent with 31 U.S.C. §§ 6302, 6304: Is used to transfer anything of value from the Federal awarding agency or pass-through entity to the NFE to carry out a public purpose authorized by a law of the United States (*see* 31 U.S.C. § 6101(3)); and does not include an agreement that provides only:

  - Direct United States government cash assistance to an individual;
  - A subsidy;
  - A loan;
  - A loan guarantee; or
  - Insurance.

- **Indian tribe (or "federally recognized Indian tribe")***: Indian tribe* means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. Chapter 33), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians (25 U.S.C. 450b(e)).[81] *See* annually published Bureau of Indian Affairs list of Indian Entities Recognized and Eligible to Receive Services. For the purposes of this Guide, used interchangeably with "Indian Tribal government".

- **Local government:** *Local government*[82] means any unit of government within a state, including a:

  - County
  - Borough
  - Municipality
  - City
  - Town
  - Township
  - Parish
  - Special district
  - School District
  - Intrastate district
  - Council of governments, whether incorporated or not as a nonprofit corporation under state law
  - Local public authority, including any public housing agency under the United States Housing Act of 1937
  - Any other agency or instrumentality of a multi-regional, or intra-state or local government

[80] 2 C.F.R. § 200.1 *Federal award.*
[81] 2 C.F.R. § 200.1 *Indian tribe.*
[82] 2 C.F.R. § 200.1 *Local government.*

- **Non-Federal Entity (NFE):** A state, local government, Indian tribe, Institution of Higher Education, or eligible private nonprofit organization that carries out a federal award as a recipient or subrecipient.[83] In this Guide, NFEs include state and non-state entities.

- **Non-State Entity:** A *non-state entity* is an eligible FEMA award recipient or subrecipient that does not meet the definition of a "state under 2 CFR 200.1.

- **Nonprofit organization** (in this Guide, it is used interchangeably with "Private Nonprofit Organization or PNP"): *Nonprofit organization*[84] means any corporation, trust, association, cooperative, or other organization, not including Institutions of Higher Education, that:

- **Recipient**: An NFE that receives a federal award directly from a Federal awarding agency to carry out an activity under a federal program. The term recipient does not include subrecipients.[85] A recipient is responsible for administering the federal award in accordance with applicable federal laws. Examples of recipients include state, Indian tribe, or territorial governments.

- **Pass-through entity**: A recipient that provides a subaward to a subrecipient to carry out part of a federal program is known as the pass-through entity.[86] Pass-through entities are responsible for processing subawards to subrecipients and ensuring subrecipient compliance with the terms and conditions of the FEMA award agreement.

- **Political Subdivision**: A *political subdivision* means the unit of government that the State determines to have met the State's legislative definition of a political subdivision.[87]

- **Simplified Acquisition Threshold (SAT)***: Simplified acquisition threshold* means the dollar amount below which an NFE may purchase property or services using small purchase methods. NFEs adopt small purchase procedures to expedite the purchase of items costing less than the simplified acquisition threshold. The federal SAT is set by the FAR at 48 C.F.R. Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908.[88] As of June 2018, the federal SAT is $250,000,[89] but is periodically adjusted for inflation.

- **State**: *State* means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any agency or instrumentality thereof exclusive of local governments.[90] In this Guide, state is used interchangeably with "state entity".

[83] 2 C.F.R. § 200.1 *Non-Federal entity.*
[84] 2 C.F.R. § 200.1 *Nonprofit organization.*
[85] 2 C.F.R. § 200.1 *Recipient.*
[86] 2 C.F.R. § 200.1 *Pass-through entity.*
[87] 40 C.F.R. § 35.6015(a) *Political subdivision*
[88] 2 C.F.R. § 200.1 *Simplified acquisition threshold.*
[89] Section 805 codified at 41 U.S.C. § 134; OMB Memo (M-18-18), available at https://www.whitehouse.gov/wp-content/uploads/2018/06/M-18-18.pdf.
[90] 2 C.F.R. § 200.1 *State.* Some hospitals and IHEs as defined by 2 C.F.R. § 200.1 *Hospitals* and 2 C.F.R. § 200.1 *Institutions of Higher Education* respectively, may meet the definition of a State.

- **Subaward:** An award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.[91] In this Guide, the term is used interchangeably with "subgrant."

- **Subrecipient:** An NFE that receives a subaward from a pass-through entity to carry out part of a federal program but does not include an individual that is a beneficiary of such program.[92]

- **Uniform Rules:** The series of regulations found at 2 C.F.R. Part 200 that establishes *Uniform Administrative Requirements, Cost Principles, and Audit Requirements* for federal awards to NFEs. The *Uniform Rules* are referred to by several names throughout the remaining portions of this Guide. Some of the names include standards, requirements, rules, and regulations.

[91] 2 C.F.R. § 200.1 *Subaward.*
[92] 2 C.F.R. § 200.1 *Subrecipient.*

FIRST AMENDMENT TO PUBLIC WORKS CONSTRUCTION CONTRACT

This first amendment ("First Amendment") to the Public Works Construction Contract for the EOC HVAC Replacement & Roofing Replacement, Project No. FCS01112024KG (the "Contract"), dated April 16, 2024, by and between the City of Redlands, a municipal corporation and a general law city ("City"), and AME Builders, Inc. dba AME Roofing ("Contractor"), is made and entered into this 16th day of July, 2024.

RECITALS

WHEREAS, it is the desire of the City and Contractor to amend their existing Contract, specifically to incorporate federal requirements as listed in Appendix II Part 200, Title 2 of the "Contract Provisions for Non-Federal Entity Contracts Under Federal Awards" document; and

WHEREAS, the City Council approved the Contract with the Contractor for work in accordance with the Bid Documents for Project No. FCS01112024KG.

NOW, THEREFORE, in consideration of the mutual promises contained herein City and Contractor agree as follows:

AGREEMENT

Section 1. Paragraph 5 ("Contract Documents") of the Contract is hereby amended to read as follows:

"5. CONTRACT DOCUMENTS: This Contract incorporates by reference the following: Notice Inviting Bids, Instructions to Bidders, Contractor's Proposal, Bid Bond, Agreement, Performance Bond, Labor and Material Bond, Plans, General Conditions, Special Provisions and Specifications, and any addenda thereto (collectively, the "Contract Documents"). The Contract Documents also include the federal requirements as listed in Appendix II Part 200, Title 2 of the "Contract Provisions for Non-Federal Entity Contracts Under Federal Awards" which is attached hereto and incorporated by reference herein as Exhibit A.".

Section 2. This First Amendment adds a new Exhibit "A" to the Contract which is attached hereto as Attachment 1.

Section 3. All other provisions of the Contract shall remain unchanged by this First Amendment and in effect.

[Signatures on following page]

IN WITNESS WHEREOF, the parties have executed this First Amendment, to be effective as of July 16, 2024.

EXHIBIT A

Appendix II to Part 200 – Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

This content is from the eCFR and is authoritative but unofficial.

Displaying title 2, up to date as of 5/06/2024. Title 2 was last amended 5/01/2024.

Title 2 —Grants and Agreements
Subtitle A —Office of Management and Budget Guidance for Grants and Agreements
Chapter II —Office of Management and Budget Guidance
Part 200 —Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non-Federal entity under the Federal award must contain provisions covering the following, as applicable.

(A) Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

(B) All contracts in excess of $10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be effected and the basis for settlement.

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of “federally assisted construction contract” in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 CFR part 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.”

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of “funding agreement” under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or

research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

(H) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

(I) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

(J) See § 200.323.

(K) See § 200.216.

(L) See § 200.322.

[78 FR 78608, Dec. 26, 2013, as amended at 79 FR 75888, Dec. 19, 2014; 85 FR 49577, Aug. 13, 2020]

City Council Meeting **H. 7.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve the purchase of a Genset Generator from Cummins Inc. in the amount of $72,565.61 (Fire Chief Sessler)

MOTION(S):

If the City Council determines that staff's recommendation is appropriate, the following motion is provided:

1. I move to approve the purchase of a Genset Generator from Cummins Inc.

RECOMMENDATION:

Staff recommends that the City Council approve the purchase of a C50D6C 50Kw Genset Generator from Cummins Inc. in the amount of $72,565.61 for the Fire Station No. 262 remodel project.

DISCUSSION:

The City of Redlands Fire Department provides services from four stations throughout the City with a minimum daily staffing of 19 personnel. Fire Station 262, located at 1690 Garden Street, on the south side of the city, was constructed as a single-family residence in 1965. The station has been in need of upgrade for many years to address space issues, and develop gender-neutral spaces, ADA-compliant access areas, and energy-efficient design. As backup generators play a critical role in the City's preparedness for power outages and other emergencies, Fire Station No. 262 currently utilizes a 20Kw unit that serves as a backup for outages at the station.

On June 7, 2022, the City Council approved an agreement with PBK-WLC for the professional architectural and engineering services for the Fire Station No. 262 upgrade project. On February 20, 2024, the City Council approved a public works contract with Elegant Construction inc. for the materials and renovation of Fire Station No. 262. The scope of the project included the construction of new

spaces and the remodeling of certain areas within the existing 3,683 SF one-story building and new additions consisting of a fitness room and six crew dormitories. Site improvements consist of CMU retaining walls, tube steel fencing, a crew parking area, and landscaping. With the current additions to the station and the age of the existing generator, it has been determined that the current 20Kw generator should be replaced with a larger 50Kw unit. Staff has determined that the C50D6C 50Kw Genset Generator would be adequate for the fire station and its new and potential future additions.

The purchase of the generator from Cummins Inc. is in accordance with the City's procurement policies regarding cooperative purchasing for products and services with Sourcewell. By utilizing Sourcewell cooperative purchasing, the City can benefit from previously posted bid packages that have been competitively bid and awarded. Agencies can review bid results from more than 50,000 government, education, and nonprofit organizations and draw from the terms and pricing for like units and vehicles. Staff is recommending that the City Council approve the Sourcewell cooperative purchase with Cummins, Inc., (Sourcewell Contract #092222). These contracts have been solicited and awarded in conformance with the City's procurement policies.

ALTERNATIVES:

City Council may elect not to approve the purchase, however, operations and the remodel of the Fire Station remodel project will be adversely affected.

STRATEGIC PLAN:

Priority B - Public Health and Safety

SUBMITTED BY:
Rich Sessler, Fire Chief

RECOMMENDED BY:
Charles M. Duggan Jr., City Manager

REVIEWED BY:
Danielle Garcia, Management Services/Finance Director
Christopher Boatman, Assistant City Manager
Tabitha Crocker, Facilities & Community Services Director
Dana Abramovitz-Daniel, Procurement Manager

PREPARED BY:
Larry Alms, Senior Administrative Assistant

Fiscal Impact

Fiscal Year: FY 2024-25

Amount: $72,566

Budgeted Y/N: Y

Discussion:

The total cost for the generator for the Fire Station 262 remodel is $72,565.61. Funding is included in the Fire Department Capital Outlay Budget.

We are pleased to provide you this quotation based on your inquiry.

Item	Description	Qty
1	C50D6C, Diesel Genset, 60Hz, 50kW-Level 2 Enclosure 70.3 dba @23feet	1
	U.S. EPA, Stationary Emergency Application	
	C50D6C, Diesel Genset, 60Hz, 50kW	
	Duty Rating - Standby Power (ESP)	
	Emission Certification, EPA, Tier 3, NSPS CI Stationary Emergency	
	Listing - UL 2200	
	Warning - Low Coolant Level	
	NFPA 110 Type 10 Level 1 Capable	
	IBC Seismic Certification	
	Exciter/Regulator - Permanent Magnet Generator, 3 Phase Sensor	
	Voltage - 120/240, 1 Phase, 3 Wire	
	Alternator - 60Hz, 8L, 240/120V, 1 Phase, 120C, 40C Ambient	
	Aluminum Sound Attenuated Level 2 Enclosure, with Exhaust System	
	Enclosure Color - Sandstone, Aluminum	
	Enclosure - Wind Load 180 MPH, ASCE7-10	
	Skidbase - Housing Ready	
	Fuel Water Separator	
	Control Mounting - Left Facing	
	PowerCommand 1.1 Controller	
	Gauge - Oil Pressure	
	Analog Meters - AC Output	
	Stop Switch - Emergency	
	Control Display Language - English	
	Load Connection - Single	
	Circuit Breaker, Location A, 70A - 250A, 3P, LSI, 600 Volts AC, 100%, UL	
	Circuit Breaker or Terminal Box (Position B) - None	
	Circuit Breaker or Terminal Box (Position C) - None	
	Engine Governor - Electronic, Isochronous	
	Engine Starter - 12 Volt DC Motor	
	Engine Air Cleaner - Normal Duty	
	Battery Charging Alternator	
	Engine Cooling - Radiator, High Ambient Air Temperature, Ship Fitted	
	Extension - Coolant Drain	
	Engine Coolant - 50% Antifreeze, 50% Water Mixture	
	Coolant Heater

EXCEPTIONS AND CLARIFICATIONS:

This SOURCEWELL PRICING quote was based on verbal requests and this package may or may not fit the owner's application. However, if unforeseen design changes are required, please notify us right away.

Sourcewell Contract #09222-CMM

-

We know of no addendum, Offloading, Installation, Permits, Fuel, and Fuel for testing, NETA & 3rd party testing are to be provided by others.
-
This quote does not include a diesel particulate filter. If a DPF is required to meet emission standard a new quote will be provided.
-
Freight is included on this proposal to the first US destination.
-
We are providing a level 2 enclosure, rated at 70.3 dba @23feet

LEAD TIME:

1.

Submittals 2-4 weeks from receipt of PO
2.

Generator is 28 weeks from receipt of approved submittals and order release for production, subject to extension (s) beyond our control.
3.

ATS is 7 weeks from receipt of approved submittals and order release for production, subject to extension (s) beyond our control.
4.

Lead times may be extended due to supplier constraints and manufacturing restrictions.

Please feel free to contact me if you require any additional information; or if you have any further questions or concerns that I may be of assistance with.

Thank you for choosing Cummins.

SUBMITTALS. An order for the equipment covered by this quotation will be accepted on a hold for release basis. Your order will not be released and scheduled for production until written approval to proceed is received in our office. Such submittal approval shall constitute acceptance of the terms and conditions of this quotation unless the parties otherwise agree in writing.

THERE ARE ADDITIONAL CONTRACT TERMS AND CONDITIONS ATTACHED TO THIS QUOTATION, INCLUDING LIMITATIONS OF WARRANTIES AND LIABILITIES, WHICH ARE EXPRESSLY INCORPORATED HEREIN. BY ACCEPTING THIS QUOTATION, CUSTOMER ACKNOWLEDGES THAT THE CONTRACT TERMS AND CONDITIONS HAVE BEEN READ, FULLY UNDERSTOOD AND ACCEPTED.

TERMS AND CONDITIONS FOR SALE OF POWER GENERATION EQUIPMENT

These Terms and Conditions for Sale of Power Generation Equipment, together with the quote ("Quote"), sales order ("Sales Order"), and/or credit application ("Credit Application") on the front side or attached hereto, are hereinafter collectively referred to as this "Agreement" and shall constitute the entire agreement between the customer identified in the Quote ("Customer") and Cummins Inc. ("Cummins") and supersede any previous representation, statements, agreements or understanding (oral or written) between the parties with respect to the subject matter of this Agreement. Customer shall be deemed to have made an unqualified acceptance of these Terms and Conditions and it shall become a binding agreement between the parties on the earliest of the following to occur: (i) Cummins' receipt of Customer's purchase order or purchase order number; (ii) Customer's signing or acknowledgment of this Agreement; (iii) Cummins' release of equipment to production pursuant to Customer's oral or written instruction or direction; (iv) Customer's payment of any amounts due to Cummins; or (v) any other event constituting acceptance under applicable law. No prior inconsistent course of dealing, course of performance, or usage of trade, if any, constitutes a waiver of, or serves to explain or interpret, the Terms and Conditions set forth in this Agreement. Electronic transactions between Customer and Cummins will be solely governed by the Terms and Conditions of this Agreement, and any terms and conditions on Customer's website or other internet site will be null and void and of no legal effect on Cummins. In the event Customer delivers, references, incorporates by reference, or produces any purchase order or document, specifications, agreement (whether upstream or otherwise), or any other terms and conditions related thereto, then such specifications, terms, document, or other agreement: (i) shall be null and void and of no legal effect on Cummins, and (ii) this Agreement shall remain the governing terms of the transaction.

1. SCOPE. Cummins shall supply power generation equipment and any related parts, materials and/or services expressly identified in this Agreement (collectively, "Equipment"). No additional services, parts or materials are included in this Agreement unless mutually agreed upon by the parties in writing. A Sales Order for Equipment is accepted on a hold for release basis. The Sales Order will not be released and scheduled for production until written approval to proceed is received from Customer. A Quote is limited to the plans and specifications section specifically referenced in the Quote. No other sections shall apply. Additional requirements for administrative items may require additional costs. The Quote does not include off unit wiring, off unit plumbing, offloading, rigging, installation, exhaust insulation or fuel, unless otherwise stated and mutually agreed to in writing by the parties. Unless otherwise agreed by Cummins in writing, this Quote is valid for a maximum period of thirty (30) days from the date appearing on the first page of this Quote ("Quote Validation Period"). At the end of the Quote Validation Period, this Quote will automatically expire unless accepted by Customer prior to the end of the Quote Validation Period. The foregoing notwithstanding, in no event shall this Quote Validation Period be deemed or otherwise considered to be a firm offer period nor to establish an option contract, and Cummins hereby reserves its right to revoke or amend this Quote at any time prior to Customer's acceptance.

2. SHIPPING; DELIVERY; DELAYS. Unless otherwise agreed in writing by the parties, Equipment shall be delivered FOB origin, freight prepaid to first destination. For consumer and mobile products, freight will be charged to Customer. Unless otherwise agreed to in writing by the parties, packaging method, shipping documents and manner, route and carrier and delivery shall be as Cummins deems appropriate. Cummins may deliver in installments. A reasonable storage fee, as determined in Cummins' sole discretion, may be assessed if delivery of the Equipment is delayed, deferred, or refused by Customer. In the event Customer fails to take any or all shipments of Equipment ordered hereunder within thirty (30) days of the agreed upon delivery date, Cummins shall have the right, in its sole discretion to either (i) charge a minimum storage fee in the amount of one and one-half percent (1.5%) per month of the total quoted amount; or (ii) consider the Equipment abandoned and, subject to local laws, may (a) make the Equipment available for auction or sale to other customers or the public, or (b) otherwise use, destroy, or recycle the Equipment at Customer's sole cost and expense. The foregoing remedies shall be without prejudice to Cummins' right to pursue other remedies available under the law, including without limitation, recovery of costs and/or losses incurred due to the storage, auction, sale, destruction, recycling, or otherwise of the Equipment. Offloading, handling, and placement of Equipment and crane services are the responsibility of Customer and not included unless otherwise stated. All shipments are made within normal business hours, Monday through Friday. Any delivery, shipping, installation, or performance dates indicated in this Agreement are estimated and not guaranteed. Further, delivery time is subject to confirmation at time of order and will be in effect after engineering drawings have been approved for production. Cummins shall use commercially reasonable efforts to meet estimated dates, but shall not be liable to customer or any third party for any delay in delivery, shipping, installation, or performance, however occasioned, including any delays in performance that result directly or indirectly from acts of Customer or any unforeseen event, circumstance, or condition beyond Cummins' reasonable control including, but not limited to, acts of God, actions by any government authority, civil strife, fires, floods, windstorms, explosions, riots, natural disasters, embargos, wars, strikes or other labor disturbances, civil commotion, terrorism, sabotage, late delivery by Cummins' suppliers, fuel or other energy shortages, or an inability to obtain necessary labor, materials, supplies, equipment or manufacturing facilities. *AS A RESULT OF COVID-19 RELATED EFFECTS OR INDUSTRY SUPPLY CHAIN DISRUPTIONS, TEMPORARY DELAYS IN DELIVERY, LABOR OR SERVICES FROM CUMMINS AND ITS SUB-SUPPLIERS OR SUBCONTRACTORS MAY OCCUR. AMONG OTHER FACTORS, CUMMINS' DELIVERY OBLIGATIONS ARE SUBJECT TO CORRECT AND PUNCTUAL SUPPLY FROM OUR SUB-SUPPLIERS OR SUBCONTRACTORS, AND CUMMINS RESERVES THE RIGHT TO MAKE PARTIAL DELIVERIES OR MODIFY ITS LABOR OR SERVICE. WHILE CUMMINS SHALL MAKE COMMERCIALLY REASONABLE EFFORTS TO MEET THE DELIVERY, SERVICE OR COMPLETION OBLIGATIONS SET FORTH HEREIN, SUCH DATES ARE SUBJECT TO CHANGE. IN THE EVENT DELIVERY, SHIPPING, INSTALLATION, OR PERFORMANCE IS DELAYED, HOWEVER OCCASSIONED, DUE TO EVENTS BEYOND CUMMINS' REASONABLE CONTROL, THEN THE DATE OF DELIVERY, SHIPPING, INSTALLATION, OR PERFORMANCE FOR THE EQUIPMENT OR SERVICES SHALL BE EQUITABLY EXTENDED FOR A PERIOD EQUAL TO THE TIME LOST, PLUS REASONABLE RAMP-UP.*

3. PAYMENT TERMS; CREDIT; RETAINAGE. Unless otherwise agreed to by the parties in writing and subject to credit approval by Cummins, payments are due thirty (30) days from the date of the invoice. If Customer does not have approved credit with Cummins,

as solely determined by Cummins, payments are due in advance or at the time of supply of the Equipment. If payment is not received when due, in addition to any rights Cummins may have at law, Cummins may charge Customer eighteen percent (18%) interest annually on late payments, or the maximum amount allowed by law. Customer agrees to pay Cummins' costs and expenses (including reasonable attorneys' fees) related to Cummins' enforcement and collection of unpaid invoices, or any other enforcement of this Agreement by Cummins. Retainage is not acceptable nor binding, unless required by statute or accepted and confirmed in writing by Cummins prior to shipment. If Customer fails to make any payments to Cummins when due and payable, and such failure continues for more than sixty (60) days from the date of the invoice, or less if required by applicable law, then Cummins may, at Cummins' sole discretion and without prejudice to any other rights or remedies, either (i) terminate this Agreement; or (ii) postpone delivery of any undelivered Equipment in Cummins' possession and/or suspend its services until payment for unpaid invoices is received.

4. TAXES; EXEMPTIONS. Unless otherwise stated, the Quote excludes all applicable local, state and federal sales and/or use taxes, permits and licensing. Customer must provide a valid resale or exemption certificate prior to shipment of Equipment or applicable taxes will be added to the invoice.

5. TITLE; RISK OF LOSS. Unless otherwise agreed in writing by the parties, title and risk of loss for the Equipment shall pass to Customer upon delivery of the Equipment by Cummins to freight carrier or to Customer at pickup at Cummins' facility.

6. INSPECTION AND ACCEPTANCE. Customer shall inspect the Equipment upon delivery, before offloading, for damage, defects, and shortage. Any and all claims which could have been discovered by such inspection shall be deemed absolutely and unconditionally waived unless noted by Customer on the bill of lading. Where Equipment is alleged to be non-conforming or defective, written notice of defect must be given to Cummins within three (3) days from date of delivery after which time Equipment shall be deemed accepted. Cummins shall have a commercially reasonable period of time in which to correct such non-conformity or defect. If non-conformity or defect is not eliminated to Customer's reasonable satisfaction, Customer may reject the Equipment (but shall protect the Equipment until returned to Cummins) or allow Cummins another opportunity to undertake corrective action. In the event startup of the Equipment is included in the services, acceptance shall be deemed to have occurred upon successful startup.

7. LIEN; SECURITY AGREEMENT. Customer agrees that Cummins retains all statutory lien rights. To secure payment, Customer grants Cummins a Purchase Money Security Interest in the Equipment. If any portion of the balance is due to be paid following delivery, Customer agrees to execute and deliver such security agreement, financing statements, deed of trust and such other documents as Cummins may request from time to time in order to permit Cummins to obtain and maintain a perfected security interest in the Equipment; or in the alternative, Customer grants Cummins a power of attorney to execute and file all financing statements and other documents needed to perfect this security interest. Cummins may record this Agreement, bearing Customer's signature, or copy of this Agreement in lieu of a UCC-1, provided that it shall not constitute an admission by Cummins of the applicability or non-applicability of the UCC nor shall the failure to file this form or a UCC-1 in any way affect, alter, or invalidate any term, provision, obligation or liability under this Agreement. The security interest shall be superseded if Customer and Cummins enter into a separate security agreement for the Equipment. Prior to full payment of the balance due, Equipment will be kept at Customer's location noted in this Agreement, will not be moved without prior notice to Cummins, and is subject to inspection by Cummins at all reasonable times.

05.01.2023

8. CANCELLATION; CHARGES. Orders placed with and accepted by Cummins may not be cancelled except with Cummins' prior written consent. If Customer seeks to cancel all or a portion of an order placed pursuant to this Agreement, and Cummins accepts such cancellation in whole or in part, Customer shall be assessed cancellation charges as follows: (i) 10% of total order price if cancellation is received in Cummins' office after Cummins has provided submittals and prior to releasing equipment to be manufactured; (ii) 25% of total order price if cancellation is received in Cummins' office after receipt of submittal release to order, receipt of a purchase order for a generator already on order with the factory, or is asked to make any hardware changes to the equipment already on order with the factory; (iii) 50% of total order price if cancellation is received in Cummins' office sixty (60) or fewer days before the scheduled shipping date on the order; or (iv) 100% of total order price if cancellation is received in Cummins' office after the equipment has shipped from the manufacturing plant.

9. TERMINATION. Cummins may, at any time, terminate this Agreement for convenience upon sixty (60) days' written notice to Customer. If the Customer defaults by (i) breaching any term of this Agreement, (ii) becoming insolvent or declared bankrupt, or (iii) making an assignment for the benefit of creditors, Cummins may, upon written notice to Customer, immediately terminate this Agreement. Upon such termination for default, Cummins shall immediately cease any further performance under this Agreement, without further obligation or liability to Customer, and Customer shall pay Cummins for any Equipment or services supplied under this Agreement, in accordance with the payment terms detailed in Section 3. If a notice of termination for default has been issued and is later determined, for any reason, that the Customer was not in default, the rights and obligations of the parties shall treat the termination as a termination for convenience.

10. MANUALS. Unless otherwise stated, electronic submittals and electronic operation and maintenance manuals will be provided, and print copies may be available upon Customer's request at an additional cost.

11. TRAINING; START UP SERVICES; INSTALLATION. Startup services, load bank testing, and owner training are not provided unless otherwise stated. Site startup will be subject to the account being current and will be performed during regular Cummins business hours, Monday to Friday. Additional charges may be added for work requested to be done outside standard business hours, on weekends, or holidays. One visit is allowed unless specified otherwise in the Quote. A minimum of two-week prior notice is required to schedule site startups and will be subject to prior commitments and equipment and travel availability. A signed site check sheet confirming readiness will be required, and Cummins personnel may perform an installation audit prior to the startup being completed. Any issues identified by the installation audit shall be corrected at the Customer's expense prior to the start-up. Portable load banks

for site test (if offered in the Quote) are equipped with only 100 feet of cable. Additional lengths may be arranged at an extra cost. Cummins is not responsible for any labor or materials charged by others associated with start-up and installation of Equipment, unless previously agreed upon in writing. Supply of fuel for start-up and/or testing, fill-up of tank after start up, or change of oil is not included unless specified in the Quote. All installation/execution work at the site including, but not limited to: civil, mechanical, electrical, supply of wall thimbles, exhaust extension pipe, elbows, hangers, expansion joints, insulation and cladding materials, fuel/oil/cooling system piping, air ducts, and louvers/dampers is not included unless specified in the Quote. When an enclosure or sub-base fuel tank (or both) are supplied, the openings provided for power cable and fuel piping entries, commonly referred to as "stub-ups", must be sealed at the site by others before commissioning. All applications, inspections and/or approvals by authorities are to be arranged by Customer.

12. MANUFACTURER'S WARRANTY. Equipment purchased hereunder is accompanied by an express written manufacturer's warranty ("Warranty") and, except as expressly provided in this Agreement, is the only warranty offered on the Equipment. A copy of the Warranty is available upon request. While this Agreement and the Warranty are intended to be read and applied in conjunction, where this Agreement and the Warranty conflict, the terms of the Warranty shall prevail.

13. WARRANTY PROCEDURE. Prior to the expiration of the Warranty, Customer must give notice of a warrantable failure to Cummins and deliver the defective Equipment to a Cummins location or other location authorized and designated by Cummins to make the repairs during regular business hours. Cummins shall not be liable for towing charges, maintenance items such as oil filters, belts, hoses, etc., communication expenses, meals, lodging, and incidental expenses incurred by Customer or employees of Customer, "downtime" expenses, overtime expenses, cargo damages and any business costs and losses of revenue resulting from a warrantable failure.

14. LIMITATIONS ON WARRANTIES.

THE REMEDIES PROVIDED IN THE WARRANTY AND THIS AGREEMENT ARE THE SOLE AND EXCLUSIVE WARRANTIES AND REMEDIES PROVIDED BY CUMMINS TO THE CUSTOMER UNDER THIS AGREEMENT. EXCEPT AS SET OUT IN THE WARRANTY AND THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY LAW, CUMMINS EXPRESSLY DISCLAIMS ALL OTHER REPRESENTATIONS, WARRANTIES, ENDORSEMENTS, AND CONDITIONS OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, ANY STATUTORY OR COMMON LAW IMPLIED REPRESENTATIONS, WARRANTIES AND CONDITIONS OF FITNESS FOR A PURPOSE OR MERCHANTABILITY.

The limited warranty does not cover Equipment failures resulting from: (a) inappropriate use relative to designated power rating; (b) inappropriate use relative to application guidelines; (c) inappropriate use of an EPA-SE application generator set relative to EPA's standards; (d) normal wear and tear; (e) improper and/or unauthorized installation; (f) negligence, accidents, or misuse; (g) lack of maintenance or unauthorized or improper repair; (h) noncompliance with any Cummins published guideline or policy; (i) use of improper or contaminated fuels, coolants, or lubricants; (j) improper storage before and after commissioning; (k) owner's delay in making Equipment available after notification of potential Equipment problem; (l) replacement parts and accessories not authorized by Cummins; (m) use of battle short mode; (n) owner or operator abuse or neglect such as: operation without adequate coolant, fuel, or lubricants; over fueling; over speeding; lack of maintenance to lubricating, fueling, cooling, or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, running, or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device; or (o) damage to parts, fixtures, housings, attachments and accessory items that are not part of the generating set.

15. INDEMNITY. Customer shall indemnify, defend and hold harmless Cummins from and against any and all claims, actions, costs, expenses, damages and liabilities, including reasonable attorneys' fees, brought against or incurred by Cummins related to or arising out of this Agreement or the Equipment supplied under this Agreement (collectively, the "Claims"), where such Claims were caused or contributed to by, in whole or in part, the acts, omissions, fault or negligence of the Customer. Customer shall present any Claims covered by this indemnity to its insurance carrier unless Cummins directs that the defense will be handled by Cummins' legal counsel at Customer's expense.

16. LIMITATION OF LIABILITY

NOTWITHSTANDING ANY OTHER TERM OF THIS AGREEMENT, IN NO EVENT SHALL CUMMINS, ITS OFFICERS, DIRECTORS, EMPLOYEES, OR AGENTS BE LIABLE TO CUSTOMER OR ANY THIRD PARTY, WHETHER IN CONTRACT OR IN TORT OR UNDER ANY OTHER LEGAL THEORY (INCLUDING, WITHOUT LIMITATION, STRICT LIABILITY OR NEGLIGENCE), FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, LIQUIDATED, OR CONSEQUENTIAL DAMAGES OF ANY KIND (INCLUDING WITHOUT LIMITATION DOWNTIME, LOSS OF PROFIT OR REVENUE, LOSS OF DATA, LOSS OF OPPORTUNITY, DAMAGE TO GOODWILL, ENHANCED DAMAGES, MONETARY REQUESTS RELATING TO RECALL EXPENSES AND REPAIRS TO PROPERTY, AND/OR DAMAGES CAUSED BY DELAY), OR IN ANY WAY RELATED TO OR ARISING FROM CUMMINS' SUPPLY OF EQUIPMENT UNDER THIS AGREEMENT OR THE USE OR PERFORMANCE OF EQUIPMENT SUPPLIED UNDER THIS AGREEMENT. IN NO EVENT SHALL CUMMINS' LIABILITY TO CUSTOMER OR ANY THIRD PARTY CLAIMING DIRECTLY THROUGH CUSTOMER OR ON CUSTOMER'S BEHALF UNDER THIS AGREEMENT EXCEED THE TOTAL COST OF EQUIPMENT SUPPLIED BY CUMMINS UNDER THIS AGREEMENT GIVING RISE TO THE CLAIM. BY ACCEPTANCE OF THIS AGREEMENT, CUSTOMER ACKNOWLEDGES CUSTOMER'S SOLE REMEDY AGAINST CUMMINS FOR ANY LOSS SHALL BE THE REMEDY PROVIDED HEREIN.

17. DEFAULT; REMEDIES. Customer shall be in breach and default if: (a) any of the payments or amounts due under this Agreement are not paid; (b) Customer fails to comply, perform, or makes any misrepresentation relating to any of the Customer's obligations or covenants under this Agreement; or (c) prior to full payment of the balance due, Customer ceases to do business, becomes insolvent, makes an assignment for the benefit of its creditors, appoints a receiver, commences an action for dissolution or liquidation, or

becomes subject to bankruptcy proceedings, or the Equipment is attached, levied upon, seized under legal process, is subjected to a lien or encumbrance, or transferred by operation of law or otherwise to anyone other than Cummins. Upon the occurrence of any event of Customer's default, Cummins, at its sole option and without notice, shall have the right to exercise concurrently or separately any one or all of the following remedies, which shall be cumulative and not alternative: (a) to declare all sums due, and to become due, under this Agreement immediately due and payable; (b) to commence legal proceedings, including collection actions and specific performance proceedings, to enforce performance by Customer of any and all provisions of this Agreement, and to be awarded damages or injunctive relief for the Customer's breach; (c) to require the Customer to deliver the Equipment to Cummins' branch specified on the face of this Agreement; (d) to exercise one or more of the rights and remedies available to a secured party under applicable law; and (e) to enter, without notice or liability or legal process, onto any premises where the Equipment may be located, using force permitted by law, and there to disconnect, remove and repossess the Equipment, the Customer having waived further right to possession after default. A waiver of any event of default by Cummins shall not be a waiver as to any other or subsequent default.

18. CUSTOMER REPRESENTATIONS; RELIANCE. Customer is responsible for obtaining, at its cost, permits, import licenses, and other consents in relation to the Equipment, and if requested by Cummins, Customer shall make these permits, licenses, and consents available to Cummins prior to shipment. Customer represents that it is familiar with the Equipment and understands operating instructions and agrees to perform routine maintenance services. Until the balance is paid in full, Customer shall care for the Equipment properly, maintain it in good operating condition, repair and appearance; and Customer shall use it safely and within its rated capacity and only for purpose it was designed. Even if Customer’s purchase of Equipment from Cummins under this Agreement is based, in whole or in part, on specifications, technical information, drawings, or written or verbal advice of any type from third parties, Customer has sole responsibility for the accuracy, correctness and completeness of such specifications, technical information, drawings, or advice. Cummins make no warranties or representations respecting the accuracy, correctness and completeness of any specifications, technical information, drawings, advice or other information provided by Cummins. Cummins makes no warranties or representations respecting the suitability, fitness for intended use, compatibility, integration or installation of any Equipment supplied under this Agreement. Customer has sole responsibility for intended use, for installation and design and performance where it is part of a power, propulsion, or other system. Limitation of warranties and remedies and all disclaimers apply to all such technical information, drawings, or advice. Customer acknowledges and agrees by accepting delivery of the Equipment that the Equipment purchased is of the size, design, capacity and manufacture selected by the Customer, and that Customer has relied solely on its own judgment in selecting the Equipment.

19. CONFIDENTIALITY. Each party shall keep confidential any information received from the other that is not generally known to the public and at the time of disclosure, would reasonably be understood by the receiving party to be proprietary or confidential, whether disclosed in oral, written, visual, electronic, or other form, and which the receiving party (or agents) learns in connection with this Agreement including, but not limited to: (a) business plans, strategies, sales, projects and analyses; (b) financial information, pricing, and fee structures; (c) business processes, methods, and models; (d) employee and supplier information; (e) specifications; and (f) the terms and conditions of this Agreement. Each party shall take necessary steps to ensure compliance with this provision by its employees and agents.

20. GOVERNING LAW AND JURISDICTION. This Agreement and all matters arising hereunder shall be governed by, interpreted, and construed in accordance with the laws of the State of Indiana without giving effect to any choice or conflict of law provision. The parties agree that the federal and state courts of the State of Indiana shall have exclusive jurisdiction to settle any dispute or claim arising in connection with this Agreement or any related matter, and hereby waive any right to claim such forum would be inappropriate, including concepts of forum non conveniens.

21. INSURANCE. Upon Customer’s request, Cummins will provide to Customer a Certificate of Insurance evidencing Cummins’ relevant insurance coverage.

22. ASSIGNMENT. This Agreement shall be binding on the parties and their successors and assigns. Customer shall not assign this Agreement without the prior written consent of Cummins.

23. INTELLECTUAL PROPERTY. Any intellectual property rights created by either party, whether independently or jointly, in the course of the performance of this Agreement or otherwise related to Cummins pre-existing intellectual property or subject matter related thereto, shall be Cummins’ property. Customer agrees to assign, and does hereby assign, all right, title, and interest to such intellectual property to Cummins. Any Cummins pre-existing intellectual property shall remain Cummins’ property. Nothing in this Agreement shall be deemed to have given Customer a license or any other rights to use any of the intellectual property rights of Cummins.

24. PRICING. To the extent allowed by law, actual prices invoiced to Customer may vary from the price quoted at the time of order placement, as the same will be adjusted for prices prevailing on the date of shipment due to economic and market conditions at the time of shipment. Subject to local laws, Cummins reserves the right to adjust pricing on goods and services due to input and labor cost changes and/or other unforeseen circumstances beyond Cummins’ control.

25. MISCELLANEOUS. Cummins shall be an independent contractor under this Agreement. All notices under this Agreement shall be in writing and be delivered personally, mailed via first class certified or registered mail, or sent by a nationally recognized express courier service to the addresses set forth in this Agreement. No amendment of this Agreement shall be valid unless it is writing and signed by an authorized representative of the parties hereto. Failure of either party to require performance by the other party of any provision hereof shall in no way affect the right to require such performance at any time thereafter, nor shall the waiver by a party of a breach of any of the provisions hereof constitute a waiver of any succeeding breach. Any provision of this Agreement that is invalid or unenforceable shall not affect the validity or enforceability of the remaining terms hereof. These terms are exclusive and constitute the entire agreement. Customer acknowledges that the provisions were freely negotiated and bargained for, and

Customer has agreed to purchase of the Equipment pursuant to these Terms and Conditions. Acceptance of this Agreement is expressly conditioned on Customer's assent to all such Terms and Conditions. Neither party has relied on any statement, representation, agreement, understanding, or promise made by the other except as expressly set out in this Agreement. In the event Cummins incurs additional charges hereunder due to the acts or omissions of Customer, the additional charges will be passed on to the Customer, as applicable. Headings or other subdivisions of this Agreement are inserted for convenience of reference and shall not limit or affect the legal construction of any provision hereof. The Parties' rights, remedies, and obligations under this Agreement which by their nature are intended to continue beyond the termination or cancellation of this Agreement, including but not limited to the Section 16. Limitation of Liability provision contained herein, shall survive the expiration, termination, or cancellation of this Agreement.

26. COMPLIANCE. Customer shall comply with all laws applicable to its activities under this Agreement, including, without limitation, any and all applicable federal, state, and local anti-bribery, environmental, health, and safety laws and regulations then in effect. Customer acknowledges that the Equipment, and any related technology that are sold or otherwise provided hereunder may be subject to export and other trade controls restricting the sale, export, re-export and/or transfer, directly or indirectly, of such Equipment or technology to certain countries or parties, including, but not limited to, licensing requirements under applicable laws and regulations of the United States, the United Kingdom and other jurisdictions. It is the intention of Cummins to comply with these laws, rules, and regulations. Any other provision of this Agreement to the contrary notwithstanding, Customer shall comply with all such applicable all laws relating to the cross-border movement of goods or technology, and all related orders in effect from time to time, and equivalent measures. Customer shall act as the importer of record with respect to the Equipment and shall not resell, export, re-export, distribute, transfer, or dispose of the Equipment or related technology, directly or indirectly, without first obtaining all necessary written permits, consents, and authorizations and completing such formalities as may be required under such laws, rules, and regulations. In addition, Cummins has in place policies not to distribute its products for use in certain countries based on applicable laws and regulations including but not limited to UN, U.S., UK, and European Union regulations. Customer undertakes to perform its obligations under this Agreement with due regard to these policies. Strict compliance with this provision and all laws of the territory pertaining to the importation, distribution, sales, promotion and marketing of the Equipment is a material consideration for Cummins entering into this Agreement with Customer and continuing this Agreement for its term. Customer represents and warrants that it has not and shall not, directly or through any intermediary, pay, give, promise to give or offer to give anything of value to a government official or representative, a political party official, a candidate for political office, an officer or employee of a public international organization or any other person, individual or entity at the suggestion, request or direction or for the benefit of any of the above-described persons and entities for the purposes of inducing such person to use his influence to assist Cummins in obtaining or retaining business or to benefit Cummins or any other person in any way, and will not otherwise breach any applicable laws relating to anti-bribery. Any failure by Customer to comply with these provisions will constitute a default giving Cummins the right to immediate termination of this Agreement and/or the right to elect not to recognize the warranties associated with the Equipment. Customer shall accept full responsibility for any and all civil or criminal liabilities and costs arising from any breaches of those laws and regulations and will defend, indemnify, and hold Cummins harmless from and against any and all fines, penalties, claim, damages, liabilities, judgments, costs, fees, and expenses incurred by Cummins or its affiliates as a result of Customer's breach.

27. To the extent applicable, this contractor and subcontractor shall abide by the requirements of 41 CFR §§ 60-1.4(a), 60-300.5(a) and 60-741.5(a). These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities and prohibit discrimination against all individuals based on their race, color, religion, sex, sexual orientation, gender identity or national origin. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, protected veteran status or disability. The employee notice requirements set forth in 29 CFR Part 471, Appendix A to Subpart A, are hereby incorporated by reference into this contract.

Sourcewell

Solicitation Number: RFP #092222

CONTRACT

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and Cummins Inc., 500 Jackson Street, Box 3005, Columbus, IN 47201 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Electrical Energy Power Generation Equipment with Related Parts, Supplies, and Services from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

A. EFFECTIVE DATE. This Contract is effective upon the date of the final signature below.

B. EXPIRATION DATE AND EXTENSION. This Contract expires November 22, 2026, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended one additional year upon the request of Sourcewell and written agreement by Supplier.

C. SURVIVAL OF TERMS. Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above.

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer used, close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. All equipment purchased pursuant to this Contract is governed by the express written manufacturer's warranty (the "Warranty") and is the only warranty offered on the equipment. EXCEPT AS OTHERWISE EXPRESSLY SET FORTH IN THE WARRANTY, THERE ARE NO OTHER WARRANTIES, GUARANTEES, OR REPRESENTATIONS OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THE REMEDIES PROVIDED IN THE WARRANTY SHALL BE THE SOLE AND EXCLUSIVE REMEDY FOR BREACH OF WARRANTY. Supplier further warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Request Form will become an amendment to this Contract and will be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements.

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

E. GOVERNING LAW AND VENUE. The governing law and venue for any action related to a Participating Entity's order will be determined by the Participating Entity making the purchase.

7. CUSTOMER SERVICE

A. PRIMARY ACCOUNT REPRESENTATIVE. Supplier will assign an Account Representative to Sourcewell for this Contract and must provide prompt notice to Sourcewell if that person is changed. The Account Representative will be responsible for:

- Maintenance and management of this Contract;
- Timely response to all Sourcewell and Participating Entity inquiries; and
- Business reviews to Sourcewell and Participating Entities, if applicable.

B. BUSINESS REVIEWS. Supplier must perform a minimum of one business review with Sourcewell per contract year. The business review will cover sales to Participating Entities, pricing and contract terms, administrative fees, sales data reports, performance issues, supply issues, customer issues, and any other necessary information.

8. REPORT ON CONTRACT SALES ACTIVITY AND ADMINISTRATIVE FEE PAYMENT

A. CONTRACT SALES ACTIVITY REPORT. Each calendar quarter, Supplier must provide a contract sales activity report (Report) to the Sourcewell Supplier Development Administrator assigned to this Contract. Reports are due no later than 45 days after the end of each calendar quarter. A Report must be provided regardless of the number or amount of sales during that quarter (i.e., if there are no sales, Supplier must submit a report indicating no sales were made).

The Report must contain the following fields:

- Participating Entity Name (e.g., City of Staples Highway Department);
- Participating Entity Physical Street Address;
- Participating Entity City;
- Participating Entity State/Province;
- Participating Entity Zip/Postal Code;
- Participating Entity Contact Name;
- Participating Entity Contact Email Address;
- Participating Entity Contact Telephone Number;
- Sourcewell Assigned Entity/Participating Entity Number;
- Item Purchased Description;
- Item Purchased Price;
- Sourcewell Administrative Fee Applied; and
- Date Purchase was invoiced/sale was recognized as revenue by Supplier.

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

B. ADMINISTRATIVE FEE. In consideration for the support and services provided by Sourcewell, the Supplier will pay an administrative fee to Sourcewell on all Equipment, Products, and Services provided to Participating Entities. The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Supplier agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Supplier is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Supplier in any subsequent solicitation. In the event this Contract is cancelled by either party prior to the Contract's expiration date, the administrative fee payment will be due no more than 30 days from the cancellation date.

9. AUTHORIZED REPRESENTATIVE

Sourcewell's Authorized Representative is its Chief Procurement Officer.

Supplier's Authorized Representative is the person named in the Supplier's Proposal. If Supplier's Authorized Representative changes at any time during this Contract, Supplier must promptly notify Sourcewell in writing.

10. AUDIT, ASSIGNMENT, AMENDMENTS, WAIVER, AND CONTRACT COMPLETE

A. AUDIT. Pursuant to Minnesota Statutes Section 16C.05, subdivision 5, the books, records, documents, and accounting procedures and practices relevant to this Contract are subject to examination by Sourcewell or the Minnesota State Auditor for a minimum of six years from the end of this Contract. This clause extends to Participating Entities as it relates to business conducted by that Participating Entity under this Contract.

B. ASSIGNMENT. Neither party may assign or otherwise transfer its rights or obligations under this Contract without the prior written consent of the other party and a fully executed

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

assignment agreement. Such consent will not be unreasonably withheld. Any prohibited assignment will be invalid.

C. AMENDMENTS. Any amendment to this Contract must be in writing and will not be effective until it has been duly executed by the parties.

D. WAIVER. Failure by either party to take action or assert any right under this Contract will not be deemed a waiver of such right in the event of the continuation or repetition of the circumstances giving rise to such right. Any such waiver must be in writing and signed by the parties.

E. CONTRACT COMPLETE. This Contract represents the complete agreement between the parties. No other understanding regarding this Contract, whether written or oral, may be used to bind either party. For any conflict between the attached Proposal and the terms set out in Articles 1-22 of this Contract, the terms of Articles 1-22 will govern.

F. RELATIONSHIP OF THE PARTIES. The relationship of the parties is one of independent contractors, each free to exercise judgment and discretion with regard to the conduct of their respective businesses. This Contract does not create a partnership, joint venture, or any other relationship such as master-servant, or principal-agent.

11. INDEMNITY AND HOLD HARMLESS

Supplier must indemnify, defend, save, and hold Sourcewell and its Participating Entities, including their agents and employees, harmless from any third party claims or causes of action, including attorneys' fees incurred by Sourcewell or its Participating Entities, arising out of any negligent act or omission or willful misconduct in the performance of this Contract by the Supplier or its agents or employees; this indemnification includes injury or death to person(s) or property alleged to have been caused by some defect in the Equipment, Products, or Services under this Contract to the extent the Equipment, Product, or Service has been used according to its specifications. To the maximum extent permitted by law, in no event will Supplier be liable under this Contract for consequential, incidental, or special damages, including without limitation any lost opportunity damages or lost profits, or savings, loss of use, loss of data, or downtime, even if it has been advised of their possible existence. Sourcewell's responsibility will be governed by the State of Minnesota's Tort Liability Act (Minnesota Statutes Chapter 466) and other applicable law.

12. GOVERNMENT DATA PRACTICES

Supplier and Sourcewell must comply with the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13, as it applies to all data provided by or provided to Sourcewell

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

under this Contract and as it applies to all data created, collected, received, maintained, or disseminated by the Supplier under this Contract.

13. INTELLECTUAL PROPERTY, PUBLICITY, MARKETING, AND ENDORSEMENT

A. INTELLECTUAL PROPERTY

1. *Grant of License.* During the term of this Contract:

   a. Sourcewell grants to Supplier a royalty-free, worldwide, non-exclusive right and license to use the trademark(s) provided to Supplier by Sourcewell in advertising and promotional materials for the purpose of marketing Sourcewell's relationship with Supplier.

   b. Supplier grants to Sourcewell a royalty-free, worldwide, non-exclusive right and license to use Supplier's trademarks in advertising and promotional materials for the purpose of marketing Supplier's relationship with Sourcewell.

2. *Limited Right of Sublicense*. The right and license granted herein includes a limited right of each party to grant sublicenses to their respective subsidiaries, distributors, dealers, resellers, marketing representatives, and agents (collectively "Permitted Sublicensees") in advertising and promotional materials for the purpose of marketing the Parties' relationship to Participating Entities. Any sublicense granted will be subject to the terms and conditions of this Article. Each party will be responsible for any breach of this Article by any of their respective sublicensees.

3. *Use; Quality Control.*

   a. Neither party may alter the other party's trademarks from the form provided and must comply with removal requests as to specific uses of its trademarks or logos.

   b. Each party agrees to use, and to cause its Permitted Sublicensees to use, the other party's trademarks only in good faith and in a dignified manner consistent with such party's use of the trademarks. Upon written notice to the breaching party, the breaching party has 30 days of the date of the written notice to cure the breach or the license will be terminated.

4. *Termination*. Upon the termination of this Contract for any reason, each party, including Permitted Sublicensees, will have 30 days to remove all Trademarks from signage, websites, and the like bearing the other party's name or logo (excepting Sourcewell's pre-printed catalog of suppliers which may be used until the next printing). Supplier must return all marketing and promotional materials, including signage, provided by Sourcewell, or dispose of it according to Sourcewell's written directions.

B. PUBLICITY. Any publicity regarding the subject matter of this Contract must not be released without prior written approval from the Authorized Representatives. Publicity includes notices, informational pamphlets, press releases, research, reports, signs, and similar public notices prepared by or for the Supplier individually or jointly with others, or any subcontractors, with respect to the program, publications, or services provided resulting from this Contract.

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

C. MARKETING. Any direct advertising, marketing, or offers with Participating Entities must be approved by Sourcewell. Send all approval requests to the Sourcewell Supplier Development Administrator assigned to this Contract.

D. ENDORSEMENT. The Supplier must not claim that Sourcewell endorses its Equipment, Products, or Services.

14. GOVERNING LAW, JURISDICTION, AND VENUE

The substantive and procedural laws of the State of Minnesota will govern this Contract. Venue for all legal proceedings arising out of this Contract, or its breach, must be in the appropriate state court in Todd County, Minnesota or federal court in Fergus Falls, Minnesota.

15. FORCE MAJEURE

Neither party to this Contract will be held responsible for delay or default caused by acts of God or other conditions that are beyond that party's reasonable control. A party defaulting under this provision must provide the other party prompt written notice of the default.

16. SEVERABILITY

If any provision of this Contract is found by a court of competent jurisdiction to be illegal, unenforceable, or void then both parties will be relieved from all obligations arising from that provision. If the remainder of this Contract is capable of being performed, it will not be affected by such determination or finding and must be fully performed.

17. PERFORMANCE, DEFAULT, AND REMEDIES

A. PERFORMANCE. During the term of this Contract, the parties will monitor performance and address unresolved contract issues as follows:

1. *Notification.* The parties must promptly notify each other of any known dispute and work in good faith to resolve such dispute within a reasonable period of time. If necessary, Sourcewell and the Supplier will jointly develop a short briefing document that describes the issue(s), relevant impact, and positions of both parties.
2. *Escalation.* If parties are unable to resolve the issue in a timely manner, as specified above, either Sourcewell or Supplier may escalate the resolution of the issue to a higher level of management. The Supplier will have 30 calendar days to cure an outstanding issue.
3. *Performance while Dispute is Pending*. Notwithstanding the existence of a dispute, the Supplier must continue without delay to carry out all of its responsibilities under the Contract that are not affected by the dispute. If the Supplier fails to continue without delay to perform its responsibilities under the Contract, in the accomplishment of all undisputed

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

work, the Supplier will bear any additional costs incurred by Sourcewell and/or its Participating Entities as a result of such failure to proceed.

B. DEFAULT AND REMEDIES. Either of the following constitutes cause to declare this Contract, or any Participating Entity order under this Contract, in default:

1. Nonperformance of contractual requirements, or
2. A material breach of any term or condition of this Contract.

The party claiming default must provide written notice of the default, with 30 calendar days to cure the default. Time allowed for cure will not diminish or eliminate any liability for liquidated or other damages. If the default remains after the opportunity for cure, the non-defaulting party may:

- Exercise any remedy provided by law or equity, or
- Terminate the Contract or any portion thereof, including any orders issued against the Contract.

18. INSURANCE

A. REQUIREMENTS. At its own expense, Supplier must maintain insurance policy(ies) in effect at all times during the performance of this Contract with insurance company(ies) licensed or authorized to do business in the State of Minnesota having an "AM BEST" rating of A- or better, with coverage and limits of insurance not less than the following:

1. *Workers' Compensation and Employer's Liability.*
Workers' Compensation: As required by any applicable law or regulation.
Employer's Liability Insurance: must be provided in amounts not less than listed below:
Minimum limits:
$500,000 each accident for bodily injury by accident
$500,000 policy limit for bodily injury by disease
$500,000 each employee for bodily injury by disease

2. *Commercial General Liability Insurance.* Supplier will maintain insurance covering its operations, with coverage on an occurrence basis, and must be subject to terms no less broad than the Insurance Services Office ("ISO") Commercial General Liability Form CG0001 (2001 or newer edition), or equivalent. At a minimum, coverage must include liability arising from premises, operations, bodily injury and property damage, independent contractors, products-completed operations including construction defect, contractual liability, blanket contractual liability, and personal injury and advertising injury. All required limits, terms and conditions of coverage must be maintained during the term of this Contract.
Minimum Limits:

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

$1,000,000 each occurrence Bodily Injury and Property Damage
$1,000,000 Personal and Advertising Injury
$2,000,000 aggregate for products liability-completed operations
$2,000,000 general aggregate

3. *Commercial Automobile Liability Insurance.* During the term of this Contract, Supplier will maintain insurance covering all owned, hired, and non-owned automobiles in limits of liability not less than indicated below. The coverage must be subject to terms no less broad than ISO Business Auto Coverage Form CA 0001 (2010 edition or newer), or equivalent.

Minimum Limits:
$1,000,000 each accident, combined single limit

4. *Umbrella Insurance*. During the term of this Contract, Supplier will maintain umbrella coverage over Employer's Liability, Commercial General Liability, and Commercial Automobile.

Minimum Limits:
$2,000,000

5. *Professional/Technical, Errors and Omissions, and/or Miscellaneous Professional Liability*. During the term of this Contract, Supplier will maintain coverage for all claims the Supplier may become legally obligated to pay resulting from any actual or alleged negligent act, error, or omission related to Supplier's professional services required under this Contract.

Minimum Limits:
$2,000,000 per claim or event
$2,000,000 – annual aggregate

6. *Network Security and Privacy Liability Insurance*. During the term of this Contract, Supplier will maintain coverage for network security and privacy liability. The coverage may be endorsed on another form of liability coverage or written on a standalone policy. The insurance must cover claims which may arise from failure of Supplier's security resulting in, but not limited to, computer attacks, unauthorized access, disclosure of not public data – including but not limited to, confidential or private information, transmission of a computer virus, or denial of service.

Minimum limits:
$2,000,000 per occurrence
$2,000,000 annual aggregate

Failure of Supplier to maintain the required insurance will constitute a material breach entitling Sourcewell to immediately terminate this Contract for default.

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

B. CERTIFICATES OF INSURANCE. Prior to commencing under this Contract, Supplier must furnish to Sourcewell a certificate of insurance, as evidence of the insurance required under this Contract. Prior to expiration of the policy(ies), renewal certificates must be mailed to Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 or sent to the Sourcewell Supplier Development Administrator assigned to this Contract. The certificates must be signed by a person authorized by the insurer(s) to bind coverage on their behalf.

Failure to request certificates of insurance by Sourcewell, or failure of Supplier to provide certificates of insurance, in no way limits or relieves Supplier of its duties and responsibilities in this Contract.

C. ADDITIONAL INSURED ENDORSEMENT AND PRIMARY AND NON-CONTRIBUTORY INSURANCE CLAUSE. Supplier agrees to list Sourcewell and its Participating Entities, including their officers, agents, and employees, as an additional insured under the Supplier's commercial general liability insurance policy with respect to liability arising out of activities, "operations," or "work" performed by or on behalf of Supplier, and products and completed operations of Supplier. The policy provision(s) or endorsement(s) must further provide that coverage is primary and not excess over or contributory with any other valid, applicable, and collectible insurance or self-insurance in force for the additional insureds.

D. WAIVER OF SUBROGATION. Supplier waives and must require (by endorsement or otherwise) all its insurers to waive subrogation rights against Sourcewell and other additional insureds for losses paid under the insurance policies required by this Contract or other insurance applicable to the Supplier or its subcontractors. The waiver must apply to all deductibles and/or self-insured retentions applicable to the required or any other insurance maintained by the Supplier or its subcontractors. Where permitted by law, Supplier must require similar written express waivers of subrogation and insurance clauses from each of its subcontractors.

E. UMBRELLA/EXCESS LIABILITY/SELF-INSURED RETENTION. The limits required by this Contract can be met by either providing a primary policy or in combination with umbrella/excess liability policy(ies), or self-insured retention.

19. COMPLIANCE

A. LAWS AND REGULATIONS. All Equipment, Products, or Services provided under this Contract must comply fully with applicable federal laws and regulations, and with the laws in the states and provinces in which the Equipment, Products, or Services are sold.

B. LICENSES. Supplier must maintain a valid and current status on all required federal, state/provincial, and local licenses, bonds, and permits required for the operation of the business that the Supplier conducts with Sourcewell and Participating Entities.

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

20. BANKRUPTCY, DEBARMENT, OR SUSPENSION CERTIFICATION

Supplier certifies and warrants that it is not in bankruptcy or that it has previously disclosed in writing certain information to Sourcewell related to bankruptcy actions. If at any time during this Contract Supplier declares bankruptcy, Supplier must immediately notify Sourcewell in writing.

Supplier certifies and warrants that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Supplier certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this Contract. Supplier further warrants that it will provide immediate written notice to Sourcewell if this certification changes at any time.

21. PROVISIONS FOR NON-UNITED STATES FEDERAL ENTITY PROCUREMENTS UNDER UNITED STATES FEDERAL AWARDS OR OTHER AWARDS

Participating Entities that use United States federal grant or FEMA funds to purchase goods or services from this Contract may be subject to additional requirements including the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 C.F.R. § 200. Participating Entities may have additional requirements based on specific funding source terms or conditions. Within this Article, all references to "federal" should be interpreted to mean the United States federal government. The following list only applies when a Participating Entity accesses Supplier's Equipment, Products, or Services with United States federal funds.

A. EQUAL EMPLOYMENT OPPORTUNITY. Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 C.F.R. § 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor." The equal opportunity clause is incorporated herein by reference.

B. DAVIS-BACON ACT, AS AMENDED (40 U.S.C. § 3141-3148). When required by federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. § 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 C.F.R. § 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-federal entity must report all suspected or reported violations to the federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 C.F.R. § 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-federal entity must report all suspected or reported violations to the federal awarding agency. Supplier must be in compliance with all applicable Davis-Bacon Act provisions.

C. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT (40 U.S.C. § 3701-3708). Where applicable, all contracts awarded by the non-federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations (29 C.F.R. § 5). Under 40 U.S.C. § 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. This provision is hereby incorporated by reference into this Contract. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

D. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT. If the federal award meets the definition of "funding agreement" under 37 C.F.R. § 401.2(a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 C.F.R. § 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

E. CLEAN AIR ACT (42 U.S.C. § 7401-7671Q.) AND THE FEDERAL WATER POLLUTION CONTROL ACT (33 U.S.C. § 1251-1387). Contracts and subgrants of amounts in excess of $150,000 require the non-federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. § 7401- 7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. § 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). Supplier certifies that during the term of this Contract will comply with applicable requirements as referenced above.

F. DEBARMENT AND SUSPENSION (EXECUTIVE ORDERS 12549 AND 12689). A contract award (see 2 C.F.R. § 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 C.F.R. §180 that implement Executive Orders 12549 (3 C.F.R. § 1986 Comp., p. 189) and 12689 (3 C.F.R. § 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Supplier certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency.

G. BYRD ANTI-LOBBYING AMENDMENT, AS AMENDED (31 U.S.C. § 1352). Suppliers must file any required certifications. Suppliers must not have used federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Suppliers must disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures are forwarded from tier to tier up to the non-federal award. Suppliers must file all certifications and disclosures required by, and otherwise comply with, the Byrd Anti-Lobbying Amendment (31 U.S.C. § 1352).

H. RECORD RETENTION REQUIREMENTS. To the extent applicable, Supplier must comply with the record retention requirements detailed in 2 C.F.R. § 200.333. The Supplier further certifies that it will retain all records as required by 2 C.F.R. § 200.333 for a period of 3 years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

I. ENERGY POLICY AND CONSERVATION ACT COMPLIANCE. To the extent applicable, Supplier must comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act.

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

J. BUY AMERICAN PROVISIONS COMPLIANCE. To the extent applicable, Supplier must comply with all applicable provisions of the Buy American Act. Purchases made in accordance with the Buy American Act must follow the applicable procurement rules calling for free and open competition.

K. ACCESS TO RECORDS (2 C.F.R. § 200.336). Supplier agrees that duly authorized representatives of a federal agency must have access to any books, documents, papers and records of Supplier that are directly pertinent to Supplier's discharge of its obligations under this Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to Supplier's personnel for the purpose of interview and discussion relating to such documents.

L. PROCUREMENT OF RECOVERED MATERIALS (2 C.F.R. § 200.322). A non-federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. § 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

M. FEDERAL SEAL(S), LOGOS, AND FLAGS. The Supplier cannot use the seal(s), logos, crests, or reproductions of flags or likenesses of Federal agency officials without specific pre-approval.

N. NO OBLIGATION BY FEDERAL GOVERNMENT. The U.S. federal government is not a party to this Contract or any purchase by a Participating Entity and is not subject to any obligations or liabilities to the Participating Entity, Supplier, or any other party pertaining to any matter resulting from the Contract or any purchase by an authorized user.

O. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS. The Contractor acknowledges that 31 U.S.C. 38 (Administrative Remedies for False Claims and Statements) applies to the Supplier's actions pertaining to this Contract or any purchase by a Participating Entity.

P. FEDERAL DEBT. The Supplier certifies that it is non-delinquent in its repayment of any federal debt. Examples of relevant debt include delinquent payroll and other taxes, audit disallowance, and benefit overpayments.

Q. CONFLICTS OF INTEREST. The Supplier must notify the U.S. Office of General Services, Sourcewell, and Participating Entity as soon as possible if this Contract or any aspect related to

DocuSign Envelope ID: AB4A7D23-45D6-4C40-934E-2D084C65EBC0

the anticipated work under this Contract raises an actual or potential conflict of interest (as described in 2 C.F.R. Part 200). The Supplier must explain the actual or potential conflict in writing in sufficient detail so that the U.S. Office of General Services, Sourcewell, and Participating Entity are able to assess the actual or potential conflict; and provide any additional information as necessary or requested.

R. U.S. EXECUTIVE ORDER 13224. The Supplier, and its subcontractors, must comply with U.S. Executive Order 13224 and U.S. Laws that prohibit transactions with and provision of resources and support to individuals and organizations associated with terrorism.

S. PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT. To the extent applicable, Supplier certifies that during the term of this Contract it will comply with applicable requirements of 2 C.F.R. § 200.216.

T. DOMESTIC PREFERENCES FOR PROCUREMENTS. To the extent applicable, Supplier certifies that during the term of this Contract will comply with applicable requirements of 2 C.F.R. § 200.322.

22. CANCELLATION

Sourcewell or Supplier may cancel this Contract at any time, with or without cause, upon 60 days' written notice to the other party. However, Sourcewell may cancel this Contract immediately upon discovery of a material defect in any certification made in Supplier's Proposal. Cancellation of this Contract does not relieve either party of financial, product, or service obligations incurred or accrued prior to cancellation.

Table 2: Company Information and Financial Strength

Line Item	Question	Response *	
10	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	Cummins Inc. Establish in 1919, is a 100 year old American multinational corporation that designs, manufactures, and distributes engines, filtration, and power generation products. Headquartered in Columbus Indiana, Cummins has 14 consecutive years on Ethisphere World's Most Ethical Companies list. Our mission is "Making people's lives better by powering a more prosperous world." Our vision is "Innovating for our customers to power their success". Our values are as follows: INTEGRITY - Doing what you say you will do and doing what is right DIVERSITY AND INCLUSION - Valuing and including our differences in decision making is our competitive advantage CARING - Demonstrating awareness and consideration for the wellbeing of others EXCELLENCE - Always delivering superior results TEAMWORK - Collaborating across teams, functions, businesses and borders to deliver the best work	*
11	What are your company's expectations in the event of an award?	To work with Sourcewell to grow our sales to Sourcewell Members by providing superior products and services at the best price.	*
12	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	See attached 2021 Annual Report. Cummins ranks 149 in the S&P 500	*
13	What is your US market share for the solutions that you are proposing?	Approx 35-40% market share	*
14	What is your Canadian market share for the solutions that you are proposing?	Approx 25% market share	*
15	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	No	*
16	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	Cummins is a vertically integrated manufacturer that owns its sales distribution and service network. Cummins Sales and Service operate across 200 + branch location in the US and Canada. Cummins is unique in our industry as we own our North American distribution. All other competitors sell through 3rd party independent dealers and resellers. We believe by owning our distribution and service network this gives Cummins a competitive advantage as our goal is to optimize and standardize our network to deliver superior products and services to deliver a superior customer experience across the US and Canada	*
17	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	Cummins requires all field service technicians to be trained and certified through its internal training program. Technician levels are grades 1 thru 4 with 4 being the highest level certification.	*
18	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	None	*

Table 3: Industry Recognition & Marketplace Success

Line Item	Question	Response *	
19	Describe any relevant industry awards or recognition that your company has received in the past five years	Cummins' rank on Newsweek's list of America's Most Responsible Companies (2021) Cummins received a perfect score for a 10th consecutive year in the Corporate Equality Index awarded by the Human Rights Campaign. The group is the largest U.S. civil rights organization for lesbian, gay, bisexual and transgender (LGBT) employees. Forbes magazine's list of the Top 25 Employers in America. The list was based on a survey of more than 20,000 American workers at large U.S. firms or institutions. Cummins was named one of the Top 50 Companies for Diversity by Diversity Inc magazine for a ninth consecutive year. Cummins ranked 21st on the magazine's list.	*
20	What percentage of your sales are to the governmental sector in the past three years	Approx 50%	*
21	What percentage of your sales are to the education sector in the past three years	Approx 25%	*
22	List any state, provincial, or cooperative purchasing contracts that you hold. What is the annual sales volume for each of these contracts over the past three years?	Currently we have Sourcewell (Approx $5-6M annual sales), HGAC (Approx $500K annual sales. Equalis ($0 sales to date).	*
23	List any GSA contracts or Standing Offers and Supply Arrangements (SOSA) that you hold. What is the annual sales volume for each of these contracts over the past three years?	We are currently in process of resubmitting to GSA.	*

Table 5: Top Five Government or Education Customers

Line Item 25. Provide a list of your top five government, education, or non-profit customers (entity name is optional), including entity type, the state or province the entity is located in, scope of the project(s), size of transaction(s), and dollar volumes from the past three years.

Entity Name	Entity Type *	State / Province *	Scope of Work *	Size of Transactions *	Dollar Volume Past Three Years *	
US Army	Government	District of Columbia - DC	AAMPS (Advanced Medium Mobile Power Program)	$ 1M avg sale	$100M	*
US Airforce	Government	District of Columbia - DC	BEAR (Basic Expeditionary Airfield Resource)	$850,000 avg sale	$50 M	*
Schools at all levels of education in all 50 states and Canadian Provinces	Education	Alabama - AL	Approx 25% of Cummins Sales occur to Educational customers.	$ 75k avg sale	$1B	*
State Gov't in all 50 states and Canada Provinces	Government	Alabama - AL	Approx 25% of Cummins Sales occur to State Government entities	$100K avg sale	$1B	*
Non Profits in all 50 states and Canadian Provinces	Non-Profit	Alabama - AL	Approx 10% of Cummins Sales occur to Non-Profits	$ 50K avg sale	$50M	*

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
26	Sales force.	Approx 350 Power Generation sales professionals, supported by Project Managers and Service personnel	*
27	Dealer network or other distribution methods.	Cummins operates globally across 190 countries. In North America we conduct business as "Cummins Sales and Service Norther America (CSSNA). In North America we have sales and service personnel operating across 230 branch and parts distribution centers. We feel this gives us strategic control over inventories, parts stocking, and deployments of service personnel that is unique in our industry.	*
28	Service force.	Approx 3400 certified technicians operating across 230 branch/parts/service centers. Our goal is nothing short of service excellence. Service is critical to our business model and that can only be achieved by "continuous improvement" . This applies from response times to parts or service deliveries. In short, doing what we say, when we say, all the time. FOUR POINTS OF THE SERVICE VALUE PROPOSITION 1. Repair Velocity – Enhance Uptime for the Customer. Extensive logistics network provides the availability of parts necessary to deliver timely repairs 2. Repair Quality – Peace of Mind. Our extensive experience dedicated to the Cummins products makes us the service experts. Best-in-class training programs for technicians. 3. Service Excellence – Reliability and Consistency Predictive maintenance solutions utilize data and analytics to preempt failures before they occur. 4. Service Innovation – Flexibility and Creativity. Technicians that remain onsite at customers' places of business and are dedicated to specific customers• Bumper to bumper service capabilities.	*
29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	Orders will be handled by the local CSSNA sales team. The Sourcewell member need simply connect with the national account manager. The account manager will then reach out to the local sales to contact the member. The local sales rep will connect with the Sourcewell member and work with them on product configuration, local codes and standards, application, commissioning and preventative maintenance options.	*
30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	Cummins Sales and Service is committed to providing exceptional sales, service and parts support and preventative maintenance programs for all Cummins engines, generators, and related components. Staffed by Cummins trained and certified professionals, our facilities provide 24/7 emergency call-out service 365 days a year. Our promise is to deliver exceptional products, dependable service, and reliable support, when and where you need it. Our goal is to keep your equipment on the job and operating at its peak efficiency. Please visit our locations page (https://salesandservice.cummins.com/locations)	*
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	100% - Our goal is keep you equipment operating at peak efficiency.	*
32	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	100% - Our goal is keep you equipment operating at peak efficiency.	*
33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	None.	*
34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	None	*
35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	None	*

Table 7: Marketing Plan

Line Item	Question	Response *	
36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	Sourcewell members are our customers. The difference is that we have historically followed the bid/spec process required by state law or policy. We educate and promote Sourcewell to our regional sales teams as a stream-lined process for these existing customers. Enclosed is a sample presentation that we have been presenting quarterly to educate our regional sales teams since 2020.	*
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Cummins uses several different types of digital medium. 1.) CRM - Salesforce based - used to track all customer contact, quotations, orders, project status, billing etc. It is how we track all Sourcewell member projects. 2.) Landing Page - # of hits, indication if our market message/strategy is working. 3.) Cummins Web Page - free access to Technical documentation (PowerSuite) and Application/Technical Seminars (PowerHour)) 4.) WWW.Cummins.com A free, industry leading online tool for power system product sizing and specification generation Targeted Digital - Healthcare/Data Centers/Education/Government Landing Pages - Market specific targeting Flyers - Product Brochures, White papers on application Branch Signage - Local advertising Internal Communication - Focused meetings on specific markets and customers Trade Shows	*
38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	The Sourcewell material is excellent in communicating advantages to members. We simply use that material to educate and inform our own sales force on the advantage to end users. We have also participated in regional events and to learn more about Sourcewell and its members. Customer / Project Tracking - Cummins requires all customer projects be logged into our CRM (SalesForce). We established a tracking mechanism for all Sourcewell quotations / projects. We also require all Sourcewell projects to have specific naming convention as a secondary process check. The CRM tracks from quote to win-loss to project status through closure.	*
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	We use and support several different procurement portals such as Ariba, Oracle, etc	*

Table 8: Value-Added Attributes

Line Item	Question	Response *	

40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Cummins offers a excellent technical platform that is free to all customers (see below). In addition, we offer fee based hands-on Preventative Maintenance training to customers that can be tailored to their needs. Any customer can 1-800-Cummins for service or tech support. In addition, there are free online technical resources available to any customer. These include both live and pre-recorded session such as: PowerHour: topic examples Features of Generator Set Control Based Paralleling NFPA 110 Time to Readiness NEC Code Changes for Emergency Power Systems Specifying Gaseous Generator Sets Introduction to Generator Set Sizing Software Emissions and Air Permitting for Emergency Generator Sets Transfer Switch Operation and Application Paralleling Solutions Generator Set Overcurrent Protection Power Ratings for Emergency Generator Sets Importance and Benefit of Selective Coordination To access the recorded webinars on-demand and download presentations, visit www.Cummins.com. Also, anyone can subscribe to receive PowerHour invitations. Power Suite™ offers the following tools and resources: GenSize™ - Sizing tool to optimize generator sizing and load profile recommendations GenCalc™ - Tools to calculate a range of project parameters including ventilation, short circuit, exhaust pressure, remote cooling and fuel pipe sizing GenSpec™ - Specification development tool to provide a sample specifications for North American and European based applications for Generator Set, ATS and Paralleling applications Tech Library - Technical catalog consisting of specification sheets, data sheets, and drawings for Generator sets, ATS, Remote Monitoring, Networking and Paralleling applications Accredited Continuing Education - Programs that offer educational seminars and webinars to grow your technology and fulfill your continuing professional development requirements	*
41	Describe any technological advances that your proposed products or services offer.	Cummins is a world leader in emissions technology, was the first to introduce micro-processor based genset controls and it's ATS products have the highest interrupt ratings in the industry. Our sales and service personnel are trained and certified to ensure customers receive professional care.	*
42	Describe any “green” initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	Cummins is committed to its Planet 2050 Zero Emissions Strategy. The following are 2030 goal to help achieve that strategy: Reduce absolute greenhouse gas (GHG) emissions from facilities and operations by 50%. Reduce scope 3 absolute lifetime GHG emissions from newly sold products by 25%. Partner with customers to reduce scope 3 GHG emissions from products in the field by 55 million metric tons. Reduce volatile organic compounds emissions from paint and coating operations by 50%. Create a circular lifecycle plan for every part to use less, use better, use again. Generate 25% less waste in facilities and operations as percent of revenue. Reuse or responsibly recycle 100% of packaging plastics and eliminate single-use plastics in dining facilities, employee amenities and events. Reduce absolute water consumption in facilities and operations by 30%.	*
43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	There are two key certifying entities that are important to our industry and our customers. EPA and UL. All Cummins products are EPA certified for emissions compliance. All products are also UL Listed and tested In addition, Cummins has been named one of the world’s top 100 organizations innovating for a better environmental future based on a review of the company’s “Green Patent Portfolio.” The ranking in Sagacious IP’s GREEN100 Index follows Cummins’ record year for global patents of all types in 2020. The company received 312 global patents that year, topping its previous record of 287 reached in 2017. That’s a nearly 9% improvement over Cummins’ previous record and a more than 12% increase over 2019.	*

44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	In concert with the Women's Business Enterprise National Council (WBENC), Cummins is proud to be included on the 20th annual list of America's Top Corporations for Women's Business Enterprises (WBEs), the only national award honoring corporations for world-class supplier diversity programs that reduce barriers and drive growth for women-owned businesses. As the only national award honoring corporations who choose to incorporate policies and programs to enable growth and reduce barriers for women-owned businesses, Cummins is committed to increasing opportunity in markets both domestically and internationally, fueling innovation and empowering communities through economic growth and job creation. WBENC is the largest third-party certifier of businesses owned, controlled, and operated by women in the United States.	*
45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	Cummins is a well known supplier to most Sourcewell members. Cummins is unique in that it owns its North American distributors. Which means members are dealing with Cummins Inc and not a 3rd party dealer or LLC. This gives Cummins direct control over is sales and service organizations. We feel this is a tremendous advantage to Sourcewell members	*

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
46	Do your warranties cover all products, parts, and labor?	Cummins offers a 2 year comprehensive warranty. Additional coverage is available past the 2 years	*
47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	None as long as the product is applied properly and routine maintenance is performed. It would exclude normal wear items such as belts, hoses, filters	*
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Yes	*
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	No	*
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Cummins covers any products supplied by us. If there happened to be 3rd party supplier involved that would be handled internally by Cummins so that end users would not be burdened by that issue	*
51	What are your proposed exchange and return programs and policies?	Cummins does not exchange or accept returned products. In the rare case there is an issue, Cummins will fix in place or replace if the product is still under warranty. We can also provide assistance to facilitate used equipment sales or trade ins.	*
52	Describe any service contract options for the items included in your proposal.	Cummins offers multiple Preventative Maintenance contract options. It really depends upon the application and/or customer requested service.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
53	Describe your payment terms and accepted payment methods.	Net 30 days. Standard commercial purchase order and invoice	*
54	Describe any leasing or financing options available for use by educational or governmental entities.	None at this time	*
55	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	We would provide a commercial quotation in accordance with Sourcewell contract terms. If requested we could also provide a Preventative Maintenance agreement based upon customer application/needs	*
56	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes, we accept P-card and there is no fee.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Cummins has eliminated MSRP and List pricing for Commercial products. What we propose is a cost plus fixed mark-up on all Cummins content. In essence, instead of going from MSRP with a discount to achieve a target margin. We go from cost to achieve the target margin.	*
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Cummins will offer a member price that is approx 6% below Fair Market Value. The sales person will be allowed to go lower than that price if required.	*
59	Describe any quantity or volume discounts or rebate programs that you offer.	None. Most transactions are one-off product or project	*
60	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	All Cummins pricing is based upon a target margin from cost (cost plus). We would maintain that target margin on all Cummins content. We would also offer discounts on any service requested.	*
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Our quotation would include all required items, less installation, that are required to fulfill the project requirements. Itemized pricing is available so that all product and services quoted are accounted for and open for review/discussion.	*
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Cummins quote if based upon FOB factory with Freight allowed to first point of destination in the contiguous 48 states. There may be potential freight charges on 3rd party content, if required.	*
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Freight is allowed to the first destination in the contiguous 48 states. There would be additional cost for any offshore deliveries. We could coordinate shipment or the customer could use their own freight forwarder. There would be no freight charge to the first port in the contiguous US.	*
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	While none are offered in the proposal, we do have freight options for additional cost. Dedicated truck, tandem drivers, etc	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
65	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	Sourcewell members would receive approx 6% lower prices than Fair market value

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	All projects are logged into the Cummins CRM software tool (Salesforce). This tool tracks from inquiry to won/loss to internal project status and finally won project closed. Project status "closed" is the primary sort and this determines the total quarterly sales to members. That sales total (closed in the quarter) is what is used to calculate the Sourcewell fee.	*
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Please see CRM Sourcewell Report. Quarterly sales are tracked in the CRM. These includes the number of open opportunities, projects won, projects lost, projects closed.	*
68	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	1.5% of whole goods sales	*

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *	
69	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	All commercial generator products diesel and natural gas/propane from 10kw to 3.5MW. and Automatic Transfer Switches (ATS) 40 amps to 4000 amps. These are shown by model # on the pricing sheets	*
70	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	Sub categories are parts, accessories, Eng-to-Order solutions. See price sheets	*

Table 14B: Depth and Breadth of Offered Equipment Products and Services

Indicate below if the listed types or classes of equipment, products, and services are offered within your proposal. Provide additional comments in the text box provided, as necessary.

Line Item	Category or Type	Offered *	Comments	
71	Stationary electrical generation systems, backup or standby generator sets, mobile and ground power units, and trailer mounted generators	(•) Yes ( ) No	Product range is 10-3.5mw	*
72	Parts and accessories, including enclosures, fuel tanks, automatic transfer switches, paralleling equipment, switch gears, connection boxes, controls, alarm modules, batteries, block heaters, and networking tools	(•) Yes ( ) No	All standard options in our offering	*
73	Related services, including design, customization, engineering, commissioning, installation, delivery, maintenance, repair, training and operation, service and maintenance agreements, decommissioning and repurposing, custom shop work, and rental services	(•) Yes ( ) No	Cummins is not in the rental business, however, we do sell rental products.	*

Exceptions to Terms, Conditions, or Specifications Form

Only those Proposer Exceptions to Terms, Conditions, or Specifications that have been accepted by Sourcewell have been incorporated into the contract text.

Documents

Ensure your submission document(s) conforms to the following:

1. Documents in PDF format are preferred. Documents in Word, Excel, or compatible formats may also be provided.

2. Documents should NOT have a security password, as Sourcewell may not be able to open the file. It is your sole responsibility to ensure that the uploaded document(s) are not either defective, corrupted or blank and that the documents can be opened and viewed by Sourcewell.

3. Sourcewell may reject any response where any document(s) cannot be opened and viewed by Sourcewell.

4. If you need to upload more than one (1) document for a single item, you should combine the documents into one zipped file. If the zipped file contains more than one (1) document, ensure each document is named, in relation to the submission format item responding to. For example, if responding to the Marketing Plan category save the document as "Marketing Plan."

Addenda, Terms and Conditions

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.

2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.

3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.

4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.

5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.

6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.

7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.

8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.

9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.

10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.

11. Proposer its employees, agents, and subcontractors are not:
    1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: https://www.treasury.gov/ofac/downloads/sdnlist.pdf;

    2. Included on the government-wide exclusions lists in the United States System for Award Management found at: https://sam.gov/SAM/; or

    3. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated

by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

☑ By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation. - Kirk Adams, Sr. Account Executive – National Accounts, Cummins Inc. (dba Cummins Sales and Service North America)

The Proposer declares that there is an actual or potential Conflict of Interest relating to the preparation of its submission, and/or the Proposer foresees an actual or potential Conflict of Interest in performing the contractual obligations contemplated in the bid.

City Council Meeting **H. 8.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve the Intergovernmental/Piggyback purchase of a Dell PowerStore Storage Area Network in the amount of $163,402 from Sidepath (Management Services/Finance Director Garcia)

MOTION(S):

If the City Council determines that staff's recommendation is appropriate, the following motion is provided:

I move to approve the purchase of a Dell PowerStore Storage Area Network from Sidepath in the amount of $163,402.

RECOMMENDATION:

Staff recommends that the City Council approve the purchase of a Dell PowerStore Area Network from Sidepath in the amount of $163,402 to address our organization's growing need for additional storage capacity.

DISCUSSION:

As our organization continues to expand its digital footprint, the demand for storage capacity has increased significantly. Our current storage infrastructure is approaching its maximum capacity, resulting in performance degradation and potential risks of data loss. It is imperative that we invest in a scalable and reliable storage solution to meet current and future storage requirements.

The Dell PowerStore is renowned for its flexibility, performance, and scalability, making it an ideal solution for organizations experiencing rapid data growth. This storage system utilizes cutting-edge technology to optimize storage efficiency and simplify management.

Some additional benefits of Dell's PowerStore:

- Scalability: The Dell PowerStore offers a scalable architecture that can grow with our organization's needs, ensuring we can easily expand our storage capacity without disruption.
- Performance: With its high-performance capabilities, the Dell PowerStore will improve data access speeds and support faster processing of critical applications, thereby enhancing overall operational efficiency.
- Reliability: Built-in data protection features and advanced security protocols ensure the integrity and confidentiality of our data, minimizing the risk of data loss or breaches.
- Simplicity: The PowerStore platform integrates seamlessly into our existing IT environment, providing a unified storage management interface that simplifies administration and reduces maintenance efforts.

Staff followed the City's procurement guidelines by examining and selecting an existing competitive Best Value RFP cooperative contract agreement with the National Association of State Procurement Officials (NASPO) ValuePoint. NASPO is a non-profit association made up of the directors of the central purchasing offices of the 50 states, District of Columbia and territories of the United States. By utilizing the NASPO ValuePoint cooperative purchasing, the City is able to benefit from the combined purchasing power of more than 50,000 government, education, and nonprofit organizations. The purpose of these cooperative contract programs enable the City to take advantage of preferred pricing and administrative efficiencies. Based on staff's assessment, the hardware and equipment proposed for purchase are recommended to be sourced through this cooperative purchasing agreement.

ALTERNATIVES:

City Council may choose to reject, modify or table the proposed purchase. However, the purchase is recommended in order to ensure the City's backup solution is more scalable.

STRATEGIC PLAN:

N/A

SUBMITTED BY:

Danielle Garcia, Management Services/Finance Director

RECOMMENDED BY:

Charles M. Duggan Jr., City Manager

REVIEWED BY:

Janice McConnell, Assistant City Manager

Dana Abramovitz-Daniel, Procurement Manager

Fiscal Impact

Fiscal Year:	FY2024-25
Revenue Generating:	N
Appropriation Required Y/N:	N
Amount:	163,401.86
Budgeted Y/N:	Y
Account No.:	604900

Discussion:

Funding for this purchase is included in the IT Division's budget for FY 2024-25.

ASSIGNMENT OF NASPO MASTER AGREEMENT 23004

This Assignment Agreement is by and among the State of Minnesota, acting through its Commissioner of Administration (State), Dell Inc., One Dell Way, Round Rock, TX 78682 (Original Contractor), and Dell Marketing L.P., One Dell Way, Mailstop RR1-33 Legal, Round Rock, TX 78682 (Assigned Contractor).

WHEREAS, the State has an agreement with the Original Contractor identified as Contract 23004, effective July 14, 2023, through June 30, 2025 (Contract), to provide Computer Equipment, Peripherals & Related Services; and

WHEREAS, the Original Contractor wishes to assign all its interests in the Contract to the Assigned Contractor; and

WHEREAS, the assignment provision of the Contract provides assignment of the agreement only upon written consent of the State.

NOW, THEREFORE, it is agreed by the parties to amend the Contract as follows:

1. The Assigned Contractor is assigned Contract 23026 to accommodate participating addenda under the Master Agreement.

2. This Assignment Agreement will become effective upon its approval and execution by the parties and approval of the appropriate State officials, pursuant to Minn. Stat. § 16C.05, subd. 2.

3. The State hereby approves the request of the Original Contractor to assign the Assigned Contractor all its interests, rights, and responsibilities, duties, and other provisions set forth in the Contract, which is attached and incorporated as Exhibit A, provided the Original Contractor and the Assigned Contractor agree to all provisions set forth in this Assignment Agreement.

4. Representations and Warranties:

    a. The Original Contractor represents and warrants to the State that it is not in default of any of its obligations under the Contract.

    b. The Assigned Contractor represents and warrants to the State that: (i) as of the effective date of this Assignment Agreement, the Assigned Contractor will have received sufficient information, right to technology, and key personnel sufficient to properly perform the duties, responsibilities, obligations, and all other provisions assigned to it, and (ii) the Assigned Contractor is ready, willing, and able to perform all of the duties, obligations, and responsibilities of the Contract.

    c. The representations and warranties set forth in this Section 4 are for the sole benefit of the State and its permitted assigns and nothing herein, express or implied, is intended to or shall confer upon any other person or entity (including the Original Contractor and the Assigned Contractor) any legal or equitable right, benefit or remedy of any nature whatsoever under or by reason of this Assignment Agreement.

5. The Assigned Contractor accepts assignment of all of the provisions of the Contract.

6. Any and all amounts due to the Original Contractor by a Participating Entity for goods or services provided by the Original Contractor prior to July 14, 2023, under the Contract will be paid to the Original Contractor by the Participating Entity. Any and all amounts due under the Contract on or after July 14, 2023, will be paid to the Assigned Contractor by the Participating Entity and the Original Contractor.

7. When applicable, payment for remaining work and travel expenses from the Contract will be paid at the rates set in the Contract. The amount to be paid to the Assigned Contractor will not exceed the Contract's total costs, minus the

total payments made to the Original Contractor.

8. If applicable, the Assigned Contractor will provide proof of insurance with the coverage and in the amounts called for in the original solicitation document, attached herein.

9. If applicable, the Assigned Contractor will provide a copy of its Affirmative Action Certification as approved by the Minnesota Department of Human Rights.

10. If applicable, the Assigned Contractor will provide a copy of its Equal Pay Certification as approved by the Minnesota Department of Human Rights.

This Assignment Agreement is effective upon the date that the final required signatures are obtained.

IN WITNESS WHEREOF, the parties have caused this Assignment Agreement to be duly executed intending to be bound thereby.

EXHIBIT A: CONTRACT

Attached and incorporated into Exhibit A is the following document(s):

- NASPO Master Agreement 23004.

NASPO ValuePoint Master Agreement No.: 23004

This Contract is between the State of Minnesota, acting through its Commissioner of Administration ("Lead State") and Dell Inc., whose designated business address is One Dell Way, Round Rock, TX 78682 ("Contractor"). State and Contractor may be referred to jointly as "Parties."

Recitals

1. The State of Minnesota, Department of Administration, Office of State Procurement, on behalf of the State of Minnesota and NASPO ValuePoint Cooperative Procurement Program ("NASPO ValuePoint") issued a solicitation to establish Minnesota NASPO ValuePoint Master Agreement(s) ("Contract") with qualified manufacturers for Computer Equipment (Desktops, Laptops, Tablets, Servers, and Storage, including related Peripherals & Services);

2. Contractor provided a response to the Solicitation indicating its interest in and ability to provide the goods or services requested in the Solicitation; and

3. Subsequent to an evaluation in accordance with the terms of the Solicitation and negotiation, the Parties desire to enter into a contract; and

4. All authorized governmental entities in any state or participating US Territory are welcome to use the resulting Master Agreement through NASPO ValuePoint with the approval of the State Chief Procurement Official. Upon final award of the overarching Master Agreement, Contractors are able to sign Participating Addendums (PA) at the option of Participating States. Participating States reserve the right to add state specific terms and conditions and modify the scope of the contract in their Participating Addendum as allowed by the Master Agreement.

Accordingly, the Parties agree as follows:

Contract

1. **Term of Contract**

a. Effective date. July 1, 2023, or the date the Lead State obtains all required signatures under Minn. Stat. § 16C.05, subd. 2, whichever is later.

b. Expiration date. June 30, 2025. This Master Agreement may be extended for up to an additional 36 months, in increments as determined by the Lead State, through a duly executed amendment.

c. If, in the judgment of the Lead State, a follow-on, competitive procurement will be unavoidably delayed beyond the planned date of execution of the follow-on master agreement, this Master Agreement may be extended for a reasonable period of time, not to exceed six months. This subsection shall not be deemed to limit the authority of a Lead State under its state law otherwise to negotiate contract extensions.

2. **Representations and Warranties**

a. Under Minn. Stat. §§ 15.061 and 16C.03, subd. 3, and other applicable law the Lead State is empowered to engage such assistance as deemed necessary.

b. Contractor warrants that it is duly qualified and shall perform its obligations under this Master Agreement in accordance with the commercially reasonable standards of care, skill, and diligence in Contractor's industry, trade, or profession, and in accordance with the specifications set forth in this Master Agreement, to the satisfaction of the Lead State.

c. Contractor warrants that it possesses the legal authority to enter into this Master Agreement and that it has taken all actions required by its procedures, by-laws, and applicable laws to exercise that authority, and to lawfully authorize its undersigned signatory to execute this Master Agreement, or any part thereof, and to bind Contractor to its terms.

3. **Awarded Band(s)**

The solicitation included three product Bands: Band 1, Personal Computing Devices – Windows Operating Systems: Desktops, Laptops, Tablets; and Band 2, Personal Computing Devices – Non-Windows Operating Systems: Desktops, Laptops, Tablets; and Band 3, Servers and Storage. The Contractor is awarded the following Band(s):

Band 1, Personal Computer Devices – Windows Operating Systems
Band 2, Personal Computer Devices - Non-Windows Operating Systems
Band 3, Servers and Storage

4. **Configuration Dollar Limits**

The following configuration limits apply to the Master Agreement. Participating Entities may define their configuration limits in their Participating Addendum. The Participating Entity's Chief Procurement Official may increase or decrease the configuration limits, as defined in their Participating Addendum. The Participating Entity will determine with the Contractor how to approve these modifications to the Product and Service Schedule.

The dollar limits identified below are based on a SINGLE computer/system configuration. This is NOT a restriction on the purchase of multiple configurations (e.g., an entity could purchase 10 laptops at $15,000 each, for a total purchase price of $150,000).

ITEM	CONFIGURATION
Band One	$15,000
Band Two	$15,000
Band Three	$1,000,000
Peripherals	$10,000
Services	Addressed in the Participating Addendum

5. **Restrictions**

The following restrictions apply to the Master Agreement. A Participating Entity may set further restrictions of products in their Participating Addendum. The Participating Entity will determine with the Contractor how to approve these modifications to the Entity's Product and Service Schedule.

a. Software

1. Software is restricted to operating systems and commercial off-the-shelf (COTS) software and is subject to equipment configuration limits.

2. Any software purchased must be related to the procurement of equipment.

3. Software must be pre-loaded or provided as an electronic link with the initial purchase of equipment, except for the exceptions allowed under Paragraph 5.a.4.

4. Software such as middleware which is not always installed on the equipment, but is related to storage and server equipment (Band 3) purchased, is allowed and may be procured after the initial purchase of equipment.

b. General Services

1. Services must be related to the procurement of equipment.

2. Service limits will be addressed by each State.

3. Wireless phone and internet service is not allowed.

4. Managed Print Services are not allowed.

c. Cloud Services

1. Cloud Services are restricted to Services that function as operating systems and software needed to support or configure hardware purchased under the scope of the contract and is subject to equipment configuration limits.

2. Any Cloud Service purchased must be related to the procurement of equipment.

d. Third-Party Products

1. Third-Party Products can be offered only in the Bands they have been awarded. All third-party products must meet the definition(s) of the Band(s) in which they are being offered.

2. Products manufactured by another Contractor holding a Minnesota NASPO ValuePoint Master Agreement for Computer Equipment cannot be offered unless approved by the Lead State.

e. Additional Product/Services

1. Hardware and software required to solely support wide area network (WAN) operation and management are not allowed.

2. Lease/Rentals of equipment may be allowed and will be addressed by each State.

3. Cellular Phone Equipment is not allowed.

4. EPEAT Bronze requirement may be waived, on a State case-by-case basis, if approved by the State's Chief Procurement Officer. EPEAT Bronze requirement does not currently apply to storage.

6. **Authorized Representative**

a. Master Agreement Administrator. The Master Agreement Administrator designated by NASPO ValuePoint and the State of Minnesota, Department of Administration is Elizabeth Randa, Acquisition Management Specialist.

Elizabeth Randa, Acquisition Management Specialist
Department of Administration
Office of State Procurement
112 Administration Building
50 Sherburne Avenue
St. Paul, MN 55155
E-mail: elizabeth.randa@state.mn.us
Phone: 651.201.3122

b. Contractor's Authorized Representative. The Contractor's Authorized Representative is Ashley Salinas, SLED Contract Program Manager.

Ashley Salinas, SLED Contract Program Manager
Dell Inc.
One Dell Way
Round Rock, TX 78682
A.Salinas@dell.com
Phone: 512.542.1237

If the Contractor's Authorized Representative changes at any time during this Contract, the Contractor must immediately notify the Lead State.

7. **Notices**

If one party is required to give notice to the other under the Master Agreement, such notice shall be in writing and shall be effective upon receipt. Delivery may be by certified United States mail or by hand, in which case a signed receipt shall be obtained. An email shall constitute sufficient notice, provided the receipt of the transmission is confirmed by the receiving party. Either party must notify the other of a change in address for notification purposes. All notices to the Lead State shall be addressed to the Master Agreement Administrator.

8. **Exhibits**

The following Exhibits are attached and incorporated into this Contract. In the event of a conflict between the terms of this Contract and its Exhibits, or between Exhibits, the order of precedence is first the Contract, and then in the following order:

Exhibit A: NASPO ValuePoint Terms and Conditions
Exhibit B: Minnesota Terms and Conditions
Exhibit C: Requirement
Exhibit D: Price Schedule
Exhibit E: Contractor Terms and Conditions

9. **Survival of Terms:**

The following clauses survive the expiration or cancellation of this Master Agreement: Indemnification; State Audits; Government Data Practices and Intellectual Property; Publicity and Endorsement; Governing Law, Jurisdiction, and Venue; and Data Disclosure. Any other Contract term that states it shall survive, shall survive.

10. Entire Agreement
This Contract and any written addenda thereto constitute the entire agreement of the parties to the Master Agreement.

1. Contractor
The Contractor certifies that the appropriate person(s) have executed the Contract on behalf of the Contractor as required by applicable articles, bylaws, resolutions, or ordinances.

Exhibit A: NASPO ValuePoint Master Agreement Terms and Conditions

1. **Conflict of Terms/Order of Precedence.**

   a. Any order placed under this Master Agreement shall consist of the following documents:

      1. A Participating Entity's Participating Addendum ("PA");

      2. Minnesota NASPO ValuePoint Master Agreement, as negotiated, including all exhibits;

      3. A Purchase Order issued against a PA (terms and conditions set forth in a Purchase Order will not be deemed to modify, diminish, or otherwise derogate the terms and conditions set forth in a Participating Addendum or Minnesota NASPO ValuePoint Master Agreement).

   b. These documents shall be read to be consistent and complementary. Any conflict among these documents shall be resolved by giving priority to these documents in the order listed above. Contractor terms and conditions that apply to this Master Agreement are only those that are expressly accepted by the Lead State and must be in writing and attached to this Master Agreement as an Exhibit or Attachment.

   c. Contractor terms and conditions may be incorporated if expressly accepted by the Lead State and attached to the Master Agreement as an Exhibit or Attachment, or by written reference (including reference to information contained in a URL or referenced policy). A written reference, including by URL or policy, is incorporated into the Master Agreement only if the Master Agreement expressly identifies that reference. URL's must be explicitly referenced to be incorporated into the Master Agreement. URL's contained within the URL's that are explicitly referenced are not incorporated into the Master Agreement. Any Contractor term or condition incorporated by URL or written reference applies to this Master Agreement only to the extent such term or condition is not prohibited by applicable law. Any change to information contained in a URL or referenced policy will not affect any financial obligation, place any additional material obligation on an ordering entity, or materially diminish an ordering entity's ability to use the product or service.

   d. A written Master Agreement (which may include the contents of the RFP and selected portions of Contractor's response incorporated therein by reference) will constitute the entire agreement of the parties to the Master Agreement. No other terms and conditions shall apply, including terms and conditions listed in the Contractor's response to the RFP, or terms listed or referenced on the Contractor's website not otherwise incorporated into the Master Agreement, in the Contractor quotation/sales order, or in similar documents subsequently provided by the Contractor.

   e. Additional Agreement with NASPO. Upon request by NASPO ValuePoint, awarded Contractor shall enter into a direct contractual relationship with NASPO ValuePoint related to Contractor's obligations to NASPO ValuePoint under the terms of the Master Agreement, the terms of which shall be the same or similar (and not less favorable) than the terms set forth in the Master Agreement.

2. **Definitions.**

   a. **Acceptance** is defined by the applicable commercial code, except Acceptance shall not occur before the completion of delivery in accordance with the Order, installation if required, and a reasonable time for inspection of the Product.

   b. **Accessory** means a product that enhances the user experience but does not extend the functionality of the computer (e.g. mouse pad or monitor stand). For the purposes of this Contract, accessories are considered peripherals.

c. **_____ as a Service (_aaS)** refers to any good provided in a subscription-based model that is defined in the industry as "_____ as a Service". Examples are "Software as a Service", "Infrastructure as a Service", and "Storage as a Service", and shall follow the NIST definitions of those services. ____ as a Service are permitted only when they meet the restrictions found in Paragraph 5.c, above.

d. **Band** means a category of products. There are three product bands which may be awarded through this Contract. Each product band includes related peripherals and services.

e. **Components** are the parts that make up a computer configuration.

f. **Contractor** means the person or entity delivering Products or performing services under the terms and conditions set forth in this Master Agreement.

g. **Configuration** means the combination of hardware and software components that make up the total functioning system.

h. **Customer** (see Purchasing Entity).

i. **Desktop** means a personal computer intended for regular use at a single location. A desktop computer typically comes in several units connected together during installation: (1) the processor, 2) display monitor, and 3) input devices usually a keyboard and a mouse. Desktops, including desktop virtualization endpoints such as zero and thin clients, are included in Bands 1 and 2 of this Contract.

j. **Embedded Software** means one or more software applications which permanently reside on a computing device.

k. **Energy Star®** is a voluntary energy efficiency program sponsored by the U.S. Environmental Protection Agency. The Energy Star program makes it easy to identify energy efficient computers by labeling products that deliver the same or better performance as comparable models while using less energy and saving money. For additional information on the Energy Star program, including product specifications and a list of qualifying products, visit the Energy Star website at http://www.energystar.gov.

l. **EPEAT** is a type-1 ecolabel for identifying and purchasing sustainable IT products. EPEAT-registered products must meet sustainability criteria detailed in voluntary consensus-based standards that are free and publicly available on the Green Electronics Council's website at www.greenelectronicscouncil.org. Products are classified as Bronze, Silver, or Gold based on meeting criteria that address the life cycle of the products. Product life cycle includes material extraction, hazardous substance reduction, end-of-life management, packaging, and corporate sustainability. Only products listed as Active in the online EPEAT Registry are considered to meet the EPEAT criteria.

m. **FOB Destination** means that shipping charges are included in the price of the item and the shipped item becomes the legal property and responsibility of the receiver when it reaches its destination unless there is acceptance testing required.

n. **FOB Inside Delivery** means that shipping charges are included in the price of the item, and that the shipped item becomes the legal property and responsibility of the receiver when it reaches the inside delivery point, which is beyond the front door or loading dock. FOB Inside Delivery is a special shipping arrangement that may include additional fees payable by the Purchasing Entity. FOB Inside Delivery must be annotated on the Purchasing Entity ordering document.

o. **Intellectual Property** means any and all patents, copyrights, service marks, trademarks, trade secrets, trade names, patentable inventions, or other similar proprietary rights, in tangible or intangible form, and all rights, title, and interest therein.

p. **Laptop** means a personal computer for mobile use. A laptop includes a display, keyboard, point device such as a touchpad, and speakers in a single unit. A laptop can be used away from an outlet using a rechargeable battery. Laptops include notebooks, ultrabooks, netbooks, Zero and thin client devices, and computers with mobile operating systems. Laptops are included in Bands 1 and 2 of this Contract.

q. **Lead State** means the State centrally administering any resulting Master Agreement(s).

r. **Mandatory Requirement** is a requirement that the failure to meet results in the rejection of the responder's proposal unless all responders are unable to meet the mandatory requirement. The terms "must" and "shall" identify a mandatory requirement. Any objection to a mandatory requirement should be identified by responders in the Question and Answer period.

s. **Manufacturer** means a company that, as one of its primary business functions, designs, assembles, owns the trademark/patent for, and markets branded computer equipment.

t. **Master Agreement** means the underlying agreement executed by and between the Lead State, acting on behalf of NASPO ValuePoint, and the Contractor.

u. **Middleware** means the software "glue" that helps programs and databases (which may be on different computers) work together. The most basic function of middleware is to enable communication between different pieces of software.

v. **NASPO ValuePoint** is a division of the National Association of State Procurement Officials ("NASPO"), a 501(c)(3) limited liability company. NASPO ValuePoint facilitates administration of the NASPO cooperative group contracting consortium of state chief procurement officials for the benefit of state departments, institutions, agencies, and political subdivisions and other eligible entities (i.e., colleges, school districts, counties, cities, some nonprofit organizations, etc.) for all states, the District of Columbia, and territories of the United States. NASPO ValuePoint is identified in the Master Agreement as the recipient of reports and may perform contract administration functions relating to collecting and receiving reports as well as other contract administration functions as assigned by the Lead State.

w. **Option** means an item of equipment or a feature that may be chosen as an addition to or replacement for standard equipment and features.

x. **Order or Purchase Order** means any purchase order, sales order, contract or other method used by a Purchasing Entity to order the Products.

y. **Participating Addendum** means a bilateral agreement executed by a Contractor and a Participating Entity incorporating this Master Agreement and any other additional Participating Entity specific language or other requirements, e.g. ordering procedures specific to the Participating Entity, other terms and conditions.

z. **Participating Entity** means a state (as well as the District of Columbia and U.S territories), city, county, district, other political subdivision of a State, or a nonprofit organization under the laws of some states properly authorized to enter into a Participating Addendum, that has executed a Participating Addendum.

aa. **Participating State** means a state that has executed a Participating Addendum.

bb. **Partner** means a company, authorized by the Contractor and approved by the Participating Entity, to provide marketing, support, or other authorized contract services on behalf of the Contractor in accordance with the terms and conditions of the Contractor's Master Agreement. A Partner may include, but is not limited to, an agent, subcontractor, fulfillment partner, channel partner, business partner, servicing subcontractor, etc.

cc. **Peripherals** means any hardware product that can be attached to, added within, or networked with personal computers, servers, or storage. Peripherals extend the functionality of a computer without modifying the core components of the system.

dd. **Per Transaction Multiple Unit Discount** means a contractual volume discount based on dollars in a single purchase order or combination of purchase orders submitted at one time by a Participating Entity or multiple entities conducting a cooperative purchase.

ee. **Premium Savings Package(s) (PSP)** are deeply discounted standard configurations available to Purchasing Entities using the Master Agreement. NASPO ValuePoint reserves the right to expand and modify the PSP throughout the life of the contract. For more information see: https://www.naspovaluepoint.org/portfolio/57/.

ff. **Product** means any equipment, software (including embedded software), documentation, service, or other deliverable supplied or created by the Contractor pursuant to this Master Agreement. The term Products, supplies and services, and products and services are used interchangeably in these terms and conditions.

gg. **Purchasing Entity** means a state (including the District of Columbia and U.S. territories), city, county, district, other political subdivision of a state, other public entities domestic or foreign, and nonprofit organizations under the laws of some states if authorized by a Participating Addendum, that issues a Purchase Order under the terms of the Master Agreement, or any Participating Addendum thereto, and becomes financially committed to the purchase.

hh. **Ruggedized** means equipment specifically designed to operate reliably in harsh usage environments and conditions, such as strong vibrations, extreme temperatures, and wet or dusty conditions. Ruggedized equipment may be proposed under the band that most closely fits the equipment being proposed.

ii. **Server** means computer hardware dedicated to run one or more services or applications (as a host) to serve the needs of the users of other computers on a network. Servers may be either physical or virtual. Servers, including server appliances, are included in Band 3 of this Contract. Server appliances have their hardware and software preconfigured by the manufacturer, and include embedded networking components such as those found in blade chassis systems.

jj. **Services** are broadly classified as installation or de-installation, maintenance, support, training, migration, and optimization of products offered or supplied under the Master Agreement. These classifications of services may include, but are not limited to: warranty services, maintenance, installation, de-installation, factory integration (software or hardware components), asset management, recycling or disposal, training and certification, pre-implementation design, disaster recovery planning and support, service desk or helpdesk, imaging, and any other directly related technical support service required for the effective operation of a product offered or supplied. Contractors may offer limited professional services related ONLY to the equipment and configuration of the equipment purchased through the resulting contracts.

EACH PARTICIPATING ENTITY WILL DETERMINE RESTRICTIONS AND NEGOTIATE TERMS FOR SERVICES THROUGH THEIR PARTICIPATING ADDENDUM.

kk. **Software** means, for the purposes of this Contract, commercial operating off the shelf machine-readable object code instructions including microcode, firmware, and operating system software that meet the restrictions specified

in Paragraph 5.a. "Software" applies to all parts of software and documentation, including new releases, updates, and modifications of software.

ll. **Storage** means hardware or a virtual appliance with the ability to store large amounts of data. Storage, including SAN switching necessary for the proper functioning of storage equipment, is included in Band 3 of this Contract

mm. **Storage Area Network (SAN)** is a high-speed special-purpose network (or subnetwork) that interconnects different kinds of data storage devices with associated data servers on behalf of a larger network of users.

nn. **Tablet** means a mobile computer that provides a touchscreen that acts as the primary means of control. Tablets, including notebooks, ultrabooks, and netbooks with touchscreen capabilities, are included in Bands 1 and 2 of this Contract.

oo. **Takeback Program** means the Contractor's process for accepting the return of equipment or other products at the end of the product's life.

pp. **Thin Client** is a lightweight computer that has been optimized for establishing a remote connection with a server-based computing environment.

qq. **Third Party Product** is a good sold by the Contractor that is manufactured by another company. Third Party Products are intended to enhance or supplement a Contractor's own product line, and are not intended to represent more than a third of any Contractor's total sales under this Master Agreement.

rr. **Upgrade** means the replacement of existing software, hardware, or hardware component with a newer version.

ss. **Warranty** means the Manufacturer's general warranty tied to the product at the time of purchase.

tt. **Wide Area Network (WAN)** is a data network that serves users across a broad geographic area and often uses transmission devices provided by common carriers.

3. **Term of the Master Agreement.**

a. The initial term of this Master Agreement is for 2 years. This Master Agreement may be extended beyond the original contract period for 36 additional months at the Lead State's discretion and by mutual agreement and upon review of requirements of Participating Entities, current market conditions, and Contractor performance.

b. The Master Agreement may be extended for a reasonable period of time if in the judgment of the Lead State a follow-on, competitive procurement will be unavoidably delayed (despite good faith efforts) beyond the planned date of execution of the follow-on master agreement. This subsection shall not be deemed to limit the authority of a Lead State under its state law otherwise to negotiate contract extensions.

4. **Amendments.**

The terms of this Master Agreement shall not be waived, altered, modified, supplemented or amended in any manner whatsoever without a written amendment to the Master Agreement executed by the Contractor and Lead State as required by law. Master Agreement amendments will be negotiated by the Lead State with the Contractor whenever necessary to address changes in the terms and conditions, costs, timetable, or increased or decreased scope of work.

5. **Participants and Scope.**

a. Canadian Participation. Subject to the approval of Contractor, any Canadian provincial government or provincially funded entity in Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland and Labrador,

Nova Scotia, Ontario, Prince Edward Island, Quebec, or Saskatchewan, and territorial government or territorial government funded entity in the Northwest Territories, Nunavut, or Yukon, including municipalities, universities, community colleges, school boards, health authorities, housing authorities, agencies, boards, commissions, and crown corporations, may be eligible to use Contractor's Master Agreement. Canadian Participation. Subject to the approval of the Contractor, any Canadian provincial government or provincially funded entity in Ontario, Quebec, Nova Scotia, New Brunswick, Manitoba, British Columbia, Prince Edward Island, Saskatchewan, Alberta, Northwest Territories, Nunavut, Yukon, and Newfoundland and Labrador, including municipalities, universities, community colleges, school boards, health authorities, housing authorities, agencies, boards, commissions, and crown corporations, may be eligible to use Contractor's Master Agreement.

b. Contractor may not deliver Products under this Master Agreement until a Participating Addendum acceptable to the Participating Entity and Contractor is executed. The NASPO ValuePoint Master Agreement Terms and Conditions are applicable to any Order by a Participating Entity (and other Purchasing Entities covered by their Participating Addendum), except to the extent altered, modified, supplemented or amended by a Participating Addendum. By way of illustration and not limitation, this authority may apply to unique delivery and invoicing requirements, confidentiality requirements, defaults on Orders, governing law and venue relating to Orders by a Participating Entity, indemnification, and insurance requirements. Statutory or constitutional requirements relating to availability of funds may require specific language in some Participating Addenda in order to comply with applicable law. The expectation is that these alterations, modifications, supplements, or amendments will be addressed in the Participating Addendum or, with the consent of the Purchasing Entity and Contractor, may be included in the ordering document (e.g. purchase order or contract) used by the Purchasing Entity to place the Order.

c. Use of specific NASPO ValuePoint Master Agreements by state agencies, political subdivisions and other Participating Entities (including cooperatives) authorized by individual state's statutes to use state contracts are subject to the approval of the respective State Chief Procurement Official. Issues of interpretation and eligibility for participation are solely within the authority of the respective State Chief Procurement Official.

d. Obligations under this Master Agreement are limited to those Participating Entities who have signed a Participating Addendum and Purchasing Entities within the scope of those Participating Addenda. States or other entities permitted to participate may use an informal competitive process to determine which Master Agreements to participate in through execution of a Participating Addendum. Financial obligations of Participating Entities who are states are limited to the orders placed by the departments or other state agencies and institutions having available funds. Participating Entities who are states incur no financial obligations on behalf of other Purchasing Entities. Contractor shall email a fully executed PDF copy of each Participating Addendum to PA@naspovaluepoint.org to support documentation of participation and posting in appropriate data bases.

e. NASPO and NASPO ValuePoint are not parties to the Master Agreement.

f. Participating Addenda shall not be construed to amend the following provisions in this Master Agreement between the Lead State and Contractor that prescribe NASPO ValuePoint requirements: Term of the Master Agreement; Amendments; Participants and Scope; Administrative Fee; NASPO ValuePoint Summary and Detailed Usage Reports; NASPO ValuePoint Cooperative Program Marketing and Performance Review; Right to Publish; Price and Rate Guarantee Period; and Individual Customers. Any such language shall be void and of no effect.

g. Participating Entities who are not states may under some circumstances sign their own Participating Addendum, subject to the consent to participation by the Chief Procurement Official of the state where the Participating Entity is located. Coordinate requests for such participation through NASPO ValuePoint. Any permission to participate through execution of a Participating Addendum is not a determination that procurement authority exists in the Participating Entity; they must ensure that they have the requisite procurement authority to execute a Participating Addendum.

h. Resale. "Resale" means any payment in exchange for transfer of tangible goods, software, or assignment of the right to services. Subject to any specific conditions included in the Master Agreement, or as explicitly permitted in a Participating Addendum, Purchasing Entities may not resell Products (the definition of which includes services that are deliverables). Absent any such condition or explicit permission, this limitation does not prohibit: payments by employees of a Purchasing Entity for Products; sales of Products to the general public as surplus property; and fees associated with inventory transactions with other governmental or nonprofit entities and consistent with a Purchasing Entity's laws and regulations. Any sale or transfer permitted by this subsection must be consistent with license rights granted for use of intellectual property.

6. **Individual Customers.**
Except to the extent modified by a Participating Addendum, each Purchasing Entity shall follow the terms and conditions of the Master Agreement and applicable Participating Addendum and will have the same rights and responsibilities for their purchases as the Lead State has in the Master Agreement, including but not limited to, any indemnity or right to recover any costs as such right is defined in the Master Agreement and applicable Participating Addendum for their purchases. Each Purchasing Entity will be responsible for its own charges, fees, and liabilities. The Contractor will apply the charges and invoice each Purchasing Entity individually.

7. **Independent Contractor.**
The Contractor is an independent contractor. Contractor shall have no authorization, express or implied, to bind the Lead State, Participating States, other Participating Entities, or Purchasing Entities to any agreements, settlements, liability or understanding whatsoever, and agrees not to hold itself out as an agent except as expressly set forth herein or as expressly agreed in any Participating Addendum.

8. **Contracting Personnel.**
Contractor must provide adequate contracting personnel to assist states with the completing and processing Participating Addenda. It is preferred that each Contractor be able to provide each Participating Entity with a primary contact person for that Participating Entity.

9. **Changes in Contractor Representation.**
The Contractor must notify the Lead State of changes in the Contractor's key administrative personnel managing the Master Agreement in writing within 10 calendar days of the change. The Lead State reserves the right to approve changes in key personnel, as identified in the Contractor's proposal. Such approval shall not be unreasonably withheld. The Contractor agrees to propose replacement key personnel having substantially equal or better education, training, and experience as was possessed by the key person proposed and evaluated in the Contractor's proposal.

10. **Contractor Verification.**
The Contractor is responsible for delivering products or performing services under the terms and conditions set forth in the Master Agreement. The Contractor must ensure partners utilized in the performance of this contract adhere to all the terms and conditions. The term Partner will be utilized in naming the relationship a Contractor has with another company to market and sell under the contract. Participating Entities will have final determination/approval if a Partner may be approved for that state in the role identified by the Contractor.

11. **Contractor Performance Meeting.**
An annual performance meeting may be held each year with the NASPO ValuePoint Sourcing Team. Historically performance meetings have been held in Minnesota, but the Lead State may hold the meetings in person or virtually at the Lead State's discretion.

All contractors that are invited to participate must send their Primary Account Representative, unless an exception is granted in writing by the Lead State. It is possible that not all contractors will be invited to participate in a performance meeting.

12. Laws and Regulations.
Any and all Products offered and furnished shall comply fully with all applicable Federal, State, and local laws and regulations, including Minn. Stat. § 181.59 prohibiting discrimination and business registration requirements of the Office of the Minnesota Secretary of State. To the extent any purchase is subject to Federal Acquisition Regulations, as may be required by the terms of a federal grant, a Participating Entity and Contractor may include in their Participating Addendum terms that reflect such a requirement.

13. Price and Rate Guarantee Period.
All minimum discounts and rates must be guaranteed for the initial term of the Master Agreement. Following the initial Master Agreement period, any request for minimum discount or rate adjustment must be for a guarantee period as offered by the Contractor, and must be made at least 30 days prior to the effective date. Requests for minimum discount or rate adjustment must include sufficient documentation supporting the request. Any adjustment or amendment to the Master Agreement shall not be effective unless approved by the Lead State. No retroactive adjustments to minimum discounts or rates will be allowed.

14. Premium Savings Package Program.
The Lead State reserves the right to create a Premium Savings Package Program (PSP) as outlined in the Definitions, Paragraph 2.ee of Exhibit A. Participation by Contractor is voluntary. The details and commitments of the PSP will be detailed as a part of any request for Contractor to participate.

15. Services.
Participating Entities must explicitly allow services in their Participating Addenda for the approved services to be allowed under that Participating Addendum. The Participating Addendum by each Participating Entity will address service agreement terms and related travel.

16. Ordering.

a. Master Agreement and purchase order numbers shall be clearly shown on all acknowledgments, packing slips, invoices, and on all correspondence.

b. Purchasing Entities may define entity or project-specific requirements and informally compete the requirement among companies having a Master Agreement on an "as needed" basis. This procedure may also be used when requirements are aggregated or other firm commitments may be made to achieve reductions in pricing. This procedure may be modified in Participating Addenda and adapted to the Purchasing Entity's rules and policies. The Purchasing Entity may in its sole discretion determine which Master Agreement Contractors should be solicited for a quote. The Purchasing Entity may select the quote that it considers most advantageous, cost and other factors considered.

c. Each Purchasing Entity will identify and utilize its own appropriate purchasing procedure and documentation. Contractor is expected to become familiar with the Purchasing Entities' rules, policies, and procedures regarding the ordering of supplies or services contemplated by this Master Agreement.

d. Contractor shall not begin work without a valid Purchase Order or other appropriate commitment document under the law of the Purchasing Entity.

e. Orders may be placed consistent with the terms of this Master Agreement during the term of the Master Agreement.

f. All Orders pursuant to this Master Agreement, at a minimum, shall include:

1. The service description or supplies being delivered;

2. The place and requested time of delivery;

3. A billing address;

4. The name, phone number, and address of the Purchasing Entity representative;

5. The price per hour or other pricing elements consistent with this Master Agreement and the contractor's proposal;

6. A ceiling amount of the order for services being ordered;

7. The Master Agreement identifier; and

8. Statement of Work, when applicable.

g. All communications concerning administration of Orders placed shall be furnished solely to the authorized purchasing agent within the Purchasing Entity's purchasing office, or to such other individual identified in writing in the Order.

h. Orders must be placed pursuant to this Master Agreement prior to the termination date thereof, but may have a delivery date or performance period up to 120 days past the then-current termination date of this Master Agreement. Contractor is reminded that financial obligations of Purchasing Entities payable after the current applicable fiscal year are contingent upon agency funds for that purpose being appropriated, budgeted, and otherwise made available.

i. Notwithstanding the expiration, cancellation or termination of this Master Agreement, Contractor agrees to perform in accordance with the terms of any Orders then outstanding at the time of such expiration or termination. Contractor shall not honor any Orders placed after the expiration, cancellation or termination of this Master Agreement, or otherwise inconsistent with its terms. Orders from any separate indefinite quantity, task orders, or other form of indefinite delivery order arrangement priced against this Master Agreement may not be placed after the expiration or termination of this Master Agreement, notwithstanding the term of any such indefinite delivery order agreement.

17. **Trade-In.**

Any trade-in programs offered during the life of the Master Agreement must be approved by the Lead State. Participating Entities must explicitly allow trade-in programs in their Participating Addenda for the approved programs to be allowed under that Participating Addendum. Trade-in value shall not decrease the discounts offered through the Master Agreement.

18. **Shipping and Delivery.**

a. The prices are the delivered price to any Purchasing Entity for standard 3-5 day shipping. If an order is requested with expedited shipping, the Contractor must provide a firm "not to exceed" price for the expedited shipping on the quote. All deliveries shall be FOB Destination, freight pre-paid, with all transportation and handling charges paid by the Contractor. Responsibility and liability for loss or damage shall remain the Contractor's until final inspection and acceptance when responsibility shall pass to the Purchasing Entity except as to latent defects, fraud and Contractor's warranty obligations. Any order for less than the specified amount is to be shipped with the freight prepaid and added as a separate item on the invoice. Any portion of an Order to be shipped without transportation charges that is back ordered shall be shipped without charge.

b. Specific delivery instructions, including FOB Inside Delivery, will be noted on the order form or Purchase Order. Any damage to the building interior, scratched walls, damage to the freight elevator, etc., will be the responsibility of the Contractor. If damage does occur, it is the responsibility of the Contractor to promptly notify the Purchasing Entity placing the Order.

c. All products must be delivered in the manufacturer's standard package. Costs shall include all packing and crating charges. Cases shall be of durable construction, good condition, properly labeled and suitable in every respect for storage and handling of contents. Each shipment shall be marked with the Purchasing Entity's Purchase Order number and other information sufficient for the Purchasing Entity to properly identify the shipment as outlined in the Participating Addendum of the Purchasing Entity.

19. **Inspection and Acceptance.**

a. Where the Master Agreement, a Participating Addendum, or an Order does not otherwise specify a process for inspection and Acceptance, this section governs. This section is not intended to limit rights and remedies under the applicable commercial code.

b. Acceptance. Purchasing Entity shall determine whether all Products and Services delivered meet the Contractor's published specifications. No payment shall be made for any Products or Services until the Purchasing Entity has accepted the Products or Services. The Purchasing Entity will make every effort to notify the Contractor within thirty (30) calendar days following delivery of non-acceptance of a Product or completion of Service. In the event that the Contractor has not been notified within 30 calendar days from delivery of Product or completion of Service, the Product and Services will be deemed accepted on the 31st day after delivery of Product or completion of Services. Failure to reject upon receipt, however, does not relieve the Contractor of liability for latent or hidden material defects. Acceptance of such goods may be revoked in accordance with the provisions of the applicable commercial code, and the Contractor is liable for any resulting expense incurred by the Purchasing Entity related to the preparation and shipping of Product rejected and returned, or for which Acceptance is revoked. The warranty period shall begin upon Acceptance. If the parties agree to acceptance testing, the terms of subsection (c), below, apply.

c. Acceptance Testing. The Purchasing Entity and the Contractor shall determine if Acceptance Testing is applicable and required for the purchase. "Acceptance Testing" means the process for ascertaining that the Product meets the standard of performance prior to Acceptance by the Purchasing Entity.

1. The Acceptance Testing period shall be thirty (30) calendar days starting from the day after the Product is delivered or, if installed, the day after the Product is installed and Contractor certifies that the Product is ready for Acceptance Testing. If the Product does not meet the standard of performance during the initial period of Acceptance Testing, Purchasing Entity may, at its discretion, continue Acceptance Testing on a day-to-day basis until the standard of performance is met. Upon rejection, the Contractor will have fifteen (15) calendar days to cure the standard of performance issue(s). If after the cure period, the Product still has not met the standard of performance, the Purchasing Entity may, at its option: (a) declare Contractor to be in breach and terminate the Order; (b) demand replacement Product from Contractor at no additional cost to Purchasing Entity; or, (c) continue the cure period for an additional time period agreed upon by the Purchasing Entity and the Contractor.

2. No Product shall be deemed Accepted and no charges shall be paid until the standard of performance is met. Products that do not meet specifications may be rejected. Failure to reject upon receipt, however, does not relieve the Contractor of liability for material (nonconformity that substantially impairs value) latent or hidden defects subsequently revealed when goods are put to use. Acceptance of such goods may be revoked in accordance with the provisions of the applicable commercial code, and the Contractor is liable for any resulting expense incurred by the Purchasing Entity related to the preparation and shipping of Product rejected and returned, or for which Acceptance is revoked. The warranty period shall begin upon Acceptance.

d. If any services do not conform to contract requirements, the Purchasing Entity may require the Contractor to perform the services again in conformity with contract requirements, at no increase in Order amount. When defects cannot be corrected by re-performance, the Purchasing Entity may require the Contractor to take necessary action to ensure that future performance conforms to contract requirements; and reduce the contract price to reflect the reduced value of services performed.

20. **Title of Product.**

a. Definitions. For purposes of this section, the following terms are defined as follows:

1. "Deliverables" means any reports, analyses, scripts, code, or other work results that Contractor delivers to Purchasing Entity within the framework of fulfilling Contractor's obligations to Purchasing Entity.

2. "Equipment" means Contractor-branded hardware products.

3. "Proprietary Rights" means all patents, copyrights, trademarks, trade secrets, and other intellectual property rights of a party.

b. Upon Acceptance by the Purchasing Entity, Contractor shall convey to Purchasing Entity title to the Equipment free and clear of all liens, encumbrances, or other security interests. Purchasing Entity's rights to use the software delivered by Contractor are governed by the terms of the applicable end-user license agreement. Unless different terms have been agreed between the parties, the terms posted on www.dell.com/eula (the "EULA") shall apply. Contractor's EULA must be made available to Purchasing Entities for review prior to negotiating a Participating Addendum or the issuance of an Order and shall meet or exceed the terms set forth in this Master Agreement. Unless expressly otherwise agreed, microcode, firmware or operating system software required to enable the Equipment with which it is shipped to perform its basic or enhanced functions, is licensed for use solely on such Equipment.

c. Contractor grants Purchasing Entity a non-exclusive, non-transferable, irrevocable license to use (without the right to sublicense) the Deliverables provided by Contractor for Purchasing Entity's internal business and governmental purposes, only and solely in accordance with the applicable service specification and subject to this Master Agreement. The grant of this license is subject to Purchasing Entity's compliance with the terms of this Master Agreement and Purchasing Entity's payment of applicable amounts due. Such license shall be perpetual unless granted pursuant to the purchase of a subscription, in which case the license shall be for the term of the subscription. Purchasing Entity may authorize its service providers to use the Deliverables, but solely on Purchasing Entity's behalf, solely for Purchasing Entity's internal business or governmental purposes, and Purchasing Entity shall be responsible for service provider's compliance with these restrictions. This section shall not affect a Purchasing Entity's right to transfer ownership of a product, and transfer, if permitted by Contractor or its licensors, licenses associated with such product, to another individual or entity as part of the Purchasing Entity's surplus program or sale of used products to employees or former employees.

d. Contractor reserves for itself all Proprietary Rights that it has not expressly granted to Purchasing Entity herein. The license granted in this clause 20(c) does not apply to: (i) Equipment; (ii) Contractor-branded generally available software; or (ii) items licensed or otherwise provided under a separate agreement. Contractor is not limited in developing, using, or marketing services or products that are similar to the Deliverables or Professional Services provided hereunder, any service, specification, or, subject to Contractor's confidentiality obligations to Purchasing Entity, in using the Deliverables or performing similar Professional Services for any other projects. Notwithstanding the previous, Contractor's use of Deliverables created specifically for and paid for by a Purchasing Entity is subject to Purchasing Entity approval.

e. Any and all licensing, maintenance, cloud services, or order specific agreements referenced within the terms and conditions of this Master Agreement are agreed to only to the extent that the terms do not conflict with the terms of the Participating Addendum or the terms of the Master Agreement as incorporated into the Participating Addendum, and to the extent the terms are not in conflict with the Participating Entity's applicable laws. In the event of a conflict in the terms and conditions, the conflict shall be resolved as detailed in the Order of Precedence defined herein. Notwithstanding the foregoing, licensing, maintenance, cloud services agreements, or order specific agreements may be further negotiated by the Contractor or, if applicable, the Licensor, and the potential Purchasing Entity, provided the contractual documents are duly executed in writing.

f. If (i) Contractor is or becomes aware of any infringement claim made against a third-party branded product offered by Contractor through this Master Agreement, (ii) the third-party branded product is determined to infringe upon the intellectual property rights of another third party, and (iii) such infringement is not remedied by the third party so that the product is no longer infringing, Contractor shall immediately cease offering the product under this Master Agreement and notify the Lead State, NASPO, Participating Entities, and purchasers of the product.

21. **Warranty.**
The Contractor must ensure warranty service and maintenance for all equipment, including third party products provided. The Contractor must facilitate the Manufacturer or Publisher warranty and maintenance of third party products furnished through the Master Agreement. The Contractor shall provide the warranty service and maintenance for equipment and all peripherals on the Master Agreement.

22. **System Failure or Damage.**
In the event of system failure or damage caused by the Contractor or its Product, the Contractor shall use reasonable efforts to restore or assist in restoring the system to operational capacity. The Contractor shall be responsible under this provision to the extent a 'system' is defined at the time of the Order; otherwise the rights of the Purchasing Entity shall be governed by the Warranty.

23. **Payment.**
Payment after Acceptance is normally made within 30 days following the date the entire order is delivered or the date a correct invoice is received, whichever is later. After 45 days the Contractor may assess overdue account charges up to a maximum rate of one percent per month on the outstanding balance, unless a different late payment amount is specified in a Participating Addendum, Order, or otherwise prescribed by applicable law.

Payments will be remitted by mail or electronically. Payments may be made via a State or political subdivision "Purchasing Card" with no additional charge.

Prices are exclusive of taxes, duties, and fees, unless otherwise quoted. If a withholding tax is required by law, the tax will be added and identified on the applicable invoice. All applicable taxes, duties, and fees must be identified on the quote.

24. **Leasing or Alternative Financing Methods.**
Lease purchase and term leases are allowable only for Purchasing Entities whose rules and regulations permit leasing of software. Individual Purchasing Entities may enter into a lease agreement for the products covered in this Master Agreement, if they have the legal authority to enter into these types of agreements without going through a competitive process and if the applicable PAs permit leasing. No lease agreements will be reviewed or evaluated as part of the RFP evaluation process.

25. **Contract Provisions for Orders Utilizing Federal Funds.**
Pursuant to Appendix II to 2 Code of Federal Regulations (CFR) Part 200, Contract Provisions for Non-Federal Entity Contracts Under Federal Awards, Orders funded with federal funds may have additional contractual requirements or certifications that must be satisfied at the time the Order is placed or upon delivery. These federal requirements may be

proposed by Participating Entities in Participating Addenda and Purchasing Entities for incorporation in Orders placed under this Master Agreement.

26. Self Audit.

The Contractor must conduct at a minimum a quarterly self-audit, unless approved by the Lead State. The audit will sample a minimum of one tenth of one percent (.001) of orders with a maximum of 100 audits per quarter conducted. For example: Up to 1,000 sales = 1 audit; 10,000 sales = 10 audits; Up to 100,000 sales = 100 audits. This will be a random sample of orders and invoices and must include documentation of pricing. Summary findings must be reported to Lead State with actions to correct documented findings.

27. Assignment/Subcontracts.

a. Contractor shall not assign, sell or otherwise transfer all or any part of this Master Agreement without prior written consent from the Lead State, such consent not to be unreasonably withheld.

b. The Lead State, or Participating Entity, shall not assign, delegate or otherwise transfer all or any part of this Master Agreement without prior written consent from Contractor, except for assignment or delegation to a Participating Entity State agency or eligible Purchasing Entity. The Lead State reserves the right to assign any rights or duties, including written assignment of contract administration duties to NASPO ValuePoint and other third parties.

28. Insurance.

a. Contractor shall, during the term of this Master Agreement, maintain in full force and effect, the insurance described in this section. Contractor shall acquire such insurance from an insurance carrier or carriers legally authorized to conduct business in the Lead State and in each Participating Entity's state and having a rating of A-, Class VII or better, in the most recently published edition of A.M. Best's Insurance Reports. Failure to buy and maintain the required insurance may result in this Master Agreement's termination or, at a Participating Entity's option, result in termination of its Participating Addendum.

b. Coverage shall be written on an occurrence basis. The minimum acceptable limits shall be as indicated below:

1. Commercial General Liability covering premises operations, independent contractors, products and completed operations, blanket contractual liability, personal injury (including death), advertising liability, and property damage, with a limit of not less than $1 million per occurrence/$2 million general aggregate;

2. Contractor must comply with any applicable State Workers Compensation or Employers Liability Insurance requirements.

c. Contractor shall pay premiums on all insurance policies. Contractor will use reasonable efforts to give thirty (30) days prior written notice to State prior to cancellation or non-renewal of any of the policies providing such coverage; provided, however that Contractor shall not be obligated to provide such notice if, concurrently with such cancellation or non-renewal, Contractor obtains coverage from different insurer(s) meeting the requirements described herein.

d. Prior to commencement of performance, Contractor shall provide to the Participating Entity a certificate of insurance showing the Contractor's general liability insurance policy or other documentary evidence acceptable to the Lead State that (1) names the Participating Entity as an additional insured, (2) provides that written notice of cancellation shall be delivered in accordance with the policy provisions, and (3) provides that the Contractor's liability insurance policy shall be primary, with any liability insurance of any Participating Entity as secondary and noncontributory. Unless otherwise agreed in any Participating Addendum, other state Participating Entities' rights

and Contractor's obligations are the same as those specified in the first sentence of this subsection except the endorsement is provided to the applicable state.

e. During the term of this Master Agreement, Contractor shall upon request provide to the Lead State and Participating Entities evidence of coverage that meets the requirements of this Section and the applicable Participating Addendum. Failure to provide evidence of coverage, within thirty (30) calendar days of receipt of request may, at the sole option of the Lead State, or any Participating Entity, result in this Master Agreement's termination or the termination of any Participating Addendum.

f. Coverage and limits shall not limit Contractor's liability and obligations under this Master Agreement, any Participating Addendum, or any Purchase Order.

29. **Administrative Fees.**

a. The Contractor shall pay to NASPO ValuePoint, or its assignee, a NASPO ValuePoint Administrative Fee of one-quarter of one percent (0.25% or 0.0025) no later than sixty (60) days following the end of each calendar quarter. The NASPO ValuePoint Administrative Fee shall be submitted quarterly and is based on all sales of products and services under the Master Agreement (less any charges for taxes or shipping). The NASPO ValuePoint Administrative Fee is not negotiable.

b. The NASPO ValuePoint Administrative Fee in this section shall be based on the gross amount of all sales (less any charges for taxes or shipping) at the adjusted prices (if any) in Participating Addenda.

c. Additionally, some states may require an additional fee be paid directly to the state only on purchases made by Purchasing Entities within that state. For all such requests, the fee level, payment method and schedule for such reports and payments will be incorporated into the Participating Addendum that is made a part of the Master Agreement. The Purchasing Entity may allow the Contractor to adjust the Master Agreement pricing to account for these additional fees for purchases made by Purchasing Entities within the jurisdiction of the Participating Entity. All such agreements shall not affect the NASPO ValuePoint Administrative Fee percentage or the prices paid by the Purchasing Entities outside the jurisdiction of the state requesting the additional fee.

30. **NASPO ValuePoint Reports**

a. Sales Data Reporting. In accordance with this section, Contractor shall report to NASPO ValuePoint all Orders under this Master Agreement for which Contractor has invoiced the ordering entity or individual, including Orders invoiced to Participating Entity or Purchasing Entity employees for personal use if such use is permitted by this Master Agreement and the applicable Participating Addendum ("Sales Data"). Timely and complete reporting of Sales Data is a material requirement of this Master Agreement. Reporting requirements, including those related to the format, contents, frequency, or delivery of reports, may be updated by NASPO ValuePoint with reasonable notice to Contractor and without amendment to this Master Agreement. NASPO ValuePoint shall have exclusive ownership of any media on which reports are submitted and shall have a perpetual, irrevocable, non-exclusive, royalty free, and transferable right to display, modify, copy, and otherwise use reports, data, and information provided under this section.

b. Summary Sales Data. "Summary Sales Data" is Sales Data reported as cumulative totals by state. Contractor shall, using the reporting tool or template provided by NASPO ValuePoint, report Summary Sales Data to NASPO ValuePoint for each calendar quarter no later than thirty (30) days following the end of the quarter. If Contractor has no reportable Sales Data for the quarter, Contractor shall submit a zero-sales report.

c. Detailed Sales Data. "Detailed Sales Data" is Sales Data that includes for each Order all information required by the Solicitation or by NASPO ValuePoint, including customer information, Order information, and line-item details.

Contractor shall, using the reporting tool or template provided by NASPO ValuePoint, report Detailed Sales Data to NASPO ValuePoint for each calendar quarter no later than thirty (30) days following the end of the quarter. Detailed Sales Data shall be reported in the format provided in the Solicitation or provided by NASPO ValuePoint. The total sales volume of reported Detailed Sales Data shall be consistent with the total sales volume of reported Summary Sales Data.

d. Sales Data Crosswalks. Reserved.

e. Executive Summary. Contractor shall, upon request by NASPO ValuePoint, provide NASPO ValuePoint with an executive summary that includes but is not limited to a list of states with an active Participating Addendum, states with which Contractor is in negotiations, and any Participating Addendum roll-out or implementation activities and issues. NASPO ValuePoint and Contractor will determine the format and content of the executive summary.

31. **NASPO ValuePoint Cooperative Program Marketing, Training, and Performance Review.**

a. Contractor agrees to work cooperatively with NASPO ValuePoint personnel. Contractor agrees to present plans to NASPO ValuePoint for the education of Contractor's contract administrator(s) and sales/marketing workforce regarding the Master Agreement contract, including the competitive nature of NASPO ValuePoint procurements, the Master agreement and participating addendum process, and the manner in which qualifying entities can participate in the Master Agreement.

b. Contractor agrees, as Participating Addendums become executed, if requested by ValuePoint personnel to provide plans to launch the program within the Participating Entity. Plans will include time frames to launch the agreement and confirmation that the Contractor's website has been updated to properly reflect the contract offer as available in the Participating Entity.

c. Contractor agrees, absent anything to the contrary outlined in a Participating Addendum, to consider customer proposed terms and conditions, as deemed important to the customer, for possible inclusion into the customer agreement. Contractor will ensure that their sales force is aware of this contracting option.

d. Contractor agrees to participate in an annual contract performance review at a location selected by the Lead State and NASPO ValuePoint, which may include a discussion of marketing action plans, target strategies, marketing materials, as well as Contractor reporting and timeliness of payment of administration fees.

e. Contractor acknowledges that the NASPO ValuePoint logos may not be used by Contractor in sales and marketing until a logo use agreement is executed with NASPO ValuePoint.

f. The Lead State expects to evaluate the utilization of the Master Agreement at the annual performance review. Lead State may, in its discretion, cancel the Master Agreement pursuant to Paragraph 42 of Exhibit A, or not exercise an option to renew, when Contractor utilization does not warrant further administration of the Master Agreement. The Lead State may exercise its right to not renew the Master Agreement if contractor fails to record or report revenue for three consecutive quarters, upon 60-calendar day written notice to the Contractor. Cancellation based on nonuse or under-utilization will not occur sooner than two years after award of the Master Agreement. This subsection does not limit the discretionary right of either the Lead State or Contractor to cancel the Master Agreement pursuant to Paragraph 42 of Exhibit A or to terminate for default pursuant to Paragraph 44 of Exhibit A.

g. Contractor agrees to notify the Lead State and NASPO ValuePoint of any contractual most-favored-customer provisions in any Cooperative Purchasing Agreements that may affect the promotion of this Master Agreements or whose terms provide for adjustments to future rates or pricing based on rates, pricing in, or Orders from this master agreement. Upon request of the Lead State or NASPO ValuePoint, Contractor shall provide a copy of any such provisions. For the purposes of this paragraph, Cooperative Purchasing Agreement shall mean a cooperative

purchasing program facilitating public procurement solicitations and agreements using a lead agency model. This does not include contracts with any federal agency or any federal contract.

32. Right to Publish.

Throughout the duration of this Master Agreement, Contractor must secure from the Lead State prior approval for the public release of information that pertains to the potential work or activities covered by the Master Agreement. This limitation does not preclude publication about the award of the Master Agreement or marketing activities consistent with any proposed and accepted marketing plan. The Contractor shall not make any representations of NASPO ValuePoint's opinion or position as to the quality or effectiveness of the services that are the subject of this Master Agreement without prior written consent. Failure to adhere to this requirement may result in termination of the Master Agreement for cause.

33. Records Administration and Audit.

a. The Contractor shall maintain books, records, documents, and other evidence pertaining to this Master Agreement and Orders placed by Purchasing Entities under it to the extent and in such detail as shall adequately reflect performance and administration of payments and fees. Contractor shall permit the Lead State, a Participating Entity, a Purchasing Entity, the federal government (including its grant awarding entities and the U.S. Comptroller General), and any other duly authorized agent of a governmental agency, to audit, inspect, examine, copy and transcribe Contractor's books, documents, papers and records directly pertinent to this Master Agreement or orders placed by a Purchasing Entity under it for the purpose of making audits, examinations, excerpts, and transcriptions. This right shall survive for a period of six (6) years following termination of this Agreement or final payment for any order placed by a Purchasing Entity against this Agreement, whichever is later, or such longer period as is required by the Purchasing Entity's state statutes, to assure compliance with the terms hereof or to evaluate performance hereunder.

b. Without limiting any other remedy available to any governmental entity, the Contractor shall reimburse the applicable Lead State, Participating Entity, or Purchasing Entity for any overpayments inconsistent with the terms of the Master Agreement or Orders or underpayment of fees found as a result of the examination of the Contractor's records.

c. The rights and obligations herein exist in addition to any quality assurance obligation in the Master Agreement requiring the Contractor to self-audit contract obligations and that permits the Lead State to review compliance with those obligations.

34. Indemnification

a. General Indemnity. Contractor shall indemnify, defend (to the extent permitted by a state's Attorney General), and hold harmless an Indemnified Party from any claims or causes of action, including attorney's fees, to the extent arising from Contractor's intentional, willful, or negligent acts or omissions; actions that give rise to strict liability; and actions arising from breach of contract or warranty.

"Indemnified Party" means NASPO, NASPO ValuePoint, the Lead State, Participating Entities, and Purchasing Entities, along with their officers and employees.

The indemnification obligations of this section do not apply in the event the claim or cause of action is the result of the Indemnified Party's sole negligence. This clause will not be construed to bar any legal remedies the Contractor may have for the Indemnified Party's failure to fulfill its obligation under this Contract.

b. Intellectual Property Indemnification.

1. In the event of any such claim by any third party against the Indemnified Party that Products, Software, Services or Deliverables prepared, produced, or branded by Contractor and delivered pursuant to this Master Agreement infringe or misappropriate that third party's U.S. patent, copyright, trade secret, or other intellectual property rights ("Indemnified Claims"), the Indemnified Party shall promptly notify the Contractor. The Contractor, at its own expense, shall indemnify, defend to the extent permitted by the Indemnified Party's laws, and hold harmless the Indemnified Party against any loss, cost, expense, or liability (including legal fees) arising out of such a claim, whether or not such claim is successful against the Indemnified Party.

2. If Contractor receives prompt notice of such a claim that in the Contractor's opinion is likely to result in an adverse ruling, the Contractor shall at its option (1) obtain a right for the Indemnified Party to continue using such Products, Deliverables, or Software or allow Contractor to continue performing the Services; (2) modify such Products, Software, Services, or Deliverables to make them non-infringing without materially affecting their utility or functionality; (3) replace such Products, Software, Services, or Deliverables with a non-infringing equivalent; or (4) refund any pre-paid fees for the allegedly infringing Services that have not been performed or provide a reasonable depreciated or pro rata refund for the allegedly infringing Product, Deliverables, or Software.

3. Notwithstanding the foregoing, Contractor shall have no obligation under this Section for any claim resulting or arising from (1) modifications of the Products, Software, Services, or Deliverables that were not performed by, on behalf of, or at the direction of Contractor; (2) the combination, operation, or use of the Products, Software, Services, or Deliverables in connection with a third-party product, software or service (the combination of which causes the claimed infringement); or (3) Contractor's compliance with Indemnified Party's written specifications or directions, including the incorporation of any software or other materials or processes provided by or requested by Indemnified Party. Contractor's duty to indemnify and defend under this Section is contingent upon: (a) Contractor receiving prompt written notice of the third-party claim or action for which Contractor must indemnify Indemnified Party, (b) Contractor having the right to solely control the defense and resolution of such claim or action, unless the Indemnified Party's law requires approval for a third party to defend the Indemnified Party and such approval is not received, and (c) Indemnified Party's cooperation with Contractor in defending and resolving such claim or action. This Section states Indemnified Party's exclusive remedies for any third-party intellectual property claim or action and nothing in this Master Agreement or elsewhere will obligate Contractor to provide any greater indemnity to Indemnified Party.

35. **Limitations of Liability**

a. The Parties agree that neither Contractor nor the indemnified party shall be liable to each other, regardless of the form of action, for consequential, incidental, indirect, or special damages except any claim related to bodily injury or death; an unauthorized release or breach of not public data as set forth more fully in Minn. Ch. 13; or a claim or demand based on patent, copyright, or other intellectual property infringement.

b. Contractor's liability is limited to 2 times the amount paid by Purchasing Entity to Contractor during the 12 months preceding the date of the dispute concerning any products and services, or $5,000,000, whichever is greater. This limit on liability does not apply to claims for bodily injury or death or for intellectual property infringement.

c. Contractor's obligations under this section shall not extend to any combination of the Product with any other product, system or method, unless the Product, system or method is:

1. provided by the Contractor or the Contractor's subsidiaries or affiliates;

2. specified by the Contractor to work with the Product; or

3. reasonably required, in order to use the Product in its intended manner, and the infringement could not have been avoided by substituting another reasonably available product, system or method capable of performing the same function; or

4. It would be reasonably expected to use the Product in combination with such product, system or method.

36. **License of Pre-Existing Intellectual Property.**
Intentionally deleted.

37. **Assignment of Antitrust Rights.**
Contractor irrevocably assigns to a Participating Entity who is a state any claim for relief or cause of action which the Contractor now has or which may accrue to the Contractor in the future by reason of any violation of state or federal antitrust laws (15 U.S.C. § 1-15 or a Participating Entity's state antitrust provisions), as now in effect and as may be amended from time to time, in connection with any goods or services provided in that state for the purpose of carrying out the Contractor's obligations under this Master Agreement or Participating Addendum, including, at the Participating Entity's option, the right to control any such litigation on such claim for relief or cause of action.

38. **Debarment.**
The Contractor certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (contract) by any governmental department or agency. This certification represents a recurring certification made at the time any Order is placed under this Master Agreement. If the Contractor cannot certify this statement, attach a written explanation for review by the Lead State.

39. **Governing Law and Venue.**

a. The construction and effect of the Master Agreement after award shall be governed by the law of the state serving as Lead State. The construction and effect of any Participating Addendum or Order against the Master Agreement shall be governed by and construed in accordance with the laws of the Participating Entity's or Purchasing Entity's State.

b. Venue for any claim, dispute or action concerning the terms of the Master Agreement shall be in the state serving as Lead State. Venue for any claim, dispute, or action concerning any Order placed against the Master Agreement or the effect of a Participating Addendum shall be in the Purchasing Entity's State.

c. If a claim is brought in a federal forum, then it must be brought and adjudicated solely and exclusively within the United States District Court for (in decreasing order of priority): the Lead State for claims relating to contract performance or administration if the Lead State is a party; a Participating State if a named party; the state where the Participating Entity or Purchasing Entity is located if either is a named party.

40. **Confidentiality, Non-Disclosure, and Injunctive Relief.**

a. Confidentiality. Contractor acknowledges that it and its employees or agents may, in the course of providing a Product under this Master Agreement, be exposed to or acquire information that is confidential to Purchasing Entity or Purchasing Entity's clients.

1. Any and all information of any form that is marked as confidential by one party (the "originating party") and is or would by its nature be deemed confidential obtained by the other party or its employees or agents (the "receiving party") in the performance of this Master Agreement, including, but not necessarily limited to (1) any Purchasing Entity's records, (2) personnel records, and (3) information concerning individuals, is confidential information of the originating party ("Confidential Information").

2. Any reports or other documents or items (including software) that result from the use of the Confidential Information by the receiving party shall be treated in the same manner as the Confidential Information.

3. Confidential Information does not include information that (1) is or becomes (other than by disclosure by the receiving party) publicly known; (2) is furnished by the originating party to others without restrictions similar to those imposed by this Master Agreement; (3) is rightfully in the receiving party's possession without the obligation of nondisclosure prior to the time of its disclosure under this Master Agreement; (4) is obtained from a source other than the originating party without the obligation of confidentiality, (5) is disclosed with the written consent of the originating party or; (6) is independently developed by employees, agents or subcontractors of the receiving party who can be shown to have had no access to the Confidential Information.

b. Non-Disclosure. The receiving party shall hold Confidential Information in confidence, using at least the industry standard of confidentiality, and shall not copy, reproduce, sell, assign, license, market, transfer or otherwise dispose of, give, or disclose Confidential Information to third parties or use Confidential Information for any purposes whatsoever other than what is necessary to the performance of Orders placed under this Master Agreement.

1. Each party shall advise each of its employees and agents of their obligations to keep Confidential Information confidential. Contractor shall use commercially reasonable efforts to assist Purchasing Entity in identifying and preventing any unauthorized use or disclosure of any Confidential Information.

2. Without limiting the generality of the foregoing, the receiving party shall advise the originating party, and the applicable Participating Entity, and the Lead State if the originating party is a Purchasing Entity, and the Lead State if the originating party is a Participating Entity, immediately if the receiving party learns or has reason to believe that any person who has had access to Confidential Information has violated or intends to violate the terms of this Master Agreement, and the receiving party shall at its expense cooperate with advise the originating party in seeking injunctive or other equitable relief in the name of either party against any such person.

3. Except as directed by the originating party, the receiving party will not at any time during or after the term of this Master Agreement disclose, directly or indirectly, any Confidential Information to any person, except in accordance with this Master Agreement, and that upon termination of this Master Agreement or at the originating party's request, the receiving party shall turn over to the originating party all documents, papers, and other matter in the receiving party's possession that embody Confidential Information.

4. Notwithstanding the foregoing, Contractor may keep one copy of such Confidential Information necessary for quality assurance, audits and evidence of the performance of this Master Agreement, and Purchasing Entity may retain Confidential Information to the extent and for the duration required by applicable law.

c. Injunctive Relief. Each party acknowledges that the other party's breach of this section, including disclosure of any Confidential Information, will cause irreparable injury to originating party that is inadequately compensable in damages. Accordingly, the originating party may seek and obtain injunctive relief against the breach or threatened breach of the foregoing undertakings, in addition to any other legal remedies that may be available. Contractor acknowledges and agrees that the covenants contained herein are necessary for the protection of the legitimate business interests of Purchasing Entity and are reasonable in scope and content.

d. Purchasing Entity Law. These provisions shall be applicable only to extent they are not in conflict with the applicable public disclosure laws of any Purchasing Entity.

e. The rights granted Purchasing Entities and Contractor obligations under this section shall also extend to the cooperative's Confidential Information, defined to include Participating Addenda, as well as Orders or transaction data relating to Orders under this Master Agreement that identify the entity/customer, Order dates, line item

descriptions and volumes, and prices/rates. This provision does not apply to disclosure to the Lead State, a Participating State, or any governmental entity exercising an audit, inspection, or examination pursuant to Paragraph 33 of Exhibit A. To the extent permitted by law, Contractor shall notify the Lead State of the identity of any entity seeking access to the Confidential Information described in this subsection.

41. Public Information.
This Master Agreement and all related documents are subject to disclosure pursuant to the Lead State's public information laws.

42. Cancellation.
Unless otherwise set forth in this Master Agreement, this Master Agreement may be canceled by either party upon 60 days written notice prior to the effective date of the cancellation. Further, any Participating Entity may cancel its participation upon 30 days written notice, unless otherwise stated in the Participating Addendum. Cancellation may be in whole or in part. Any cancellation under this provision shall not affect the rights and obligations attending orders outstanding at the time of cancellation, including any right of a Purchasing Entity to indemnification by the Contractor, rights of payment for Products delivered and accepted, rights attending any warranty or default in performance in association with any Order, and requirements for records administration and audit. Cancellation of the Master Agreement due to Contractor default may be immediate as set forth in Paragraph 44 of Exhibit A.

43. Force Majeure.
Neither party to this Master Agreement shall be held responsible for delay or default caused by fire, riot, unusually severe weather, other acts of God, or war which are beyond that party's reasonable control. The Lead State may terminate this Master Agreement after determining such delay or default will reasonably prevent successful performance of the Master Agreement.

44. Defaults and Remedies.

a. The occurrence of any of the following events shall be an event of default under this Master Agreement:

1. Nonperformance of contractual requirements; or

2. A material breach of this Master Agreement; or

3. Any certification, representation or warranty by Contractor in response to the RFP or in this Master Agreement that proves to be untrue or materially misleading; or

4. Institution of proceedings under any bankruptcy, insolvency, court-ordered reorganization or similar law, by or against Contractor, or the appointment of a receiver or similar officer for Contractor or any of its property, which is not vacated or fully stayed within thirty (30) calendar days after the institution or occurrence thereof; or

5. Any default specified in another section of this Master Agreement.

b. Upon the occurrence of an event of default, except for material breach, the Lead State shall issue a written notice of default, identifying the nature of the default, and providing a period of 30 calendar days in which Contractor shall have an opportunity to cure the default. The Lead State shall not be required to provide advance written notice or a cure period and may immediately terminate this Master Agreement in whole or in part if the Lead State, in its sole discretion, determines that it is reasonably necessary to preserve public safety or prevent immediate public crisis. Time allowed for cure shall not diminish or eliminate Contractor's liability for damages, including liquidated damages to the extent provided for under this Master Agreement. The Lead State may immediately terminate this Master Agreement upon material breach of the Master Agreement by Contractor.

c. If Contractor is afforded an opportunity to cure and fails to cure the default within the period specified in the written notice of default, Contractor shall be in breach of its obligations under this Master Agreement and the Lead State shall have the right to exercise any or all of the following remedies:

1. Exercise any remedy provided by law; and
2. Terminate this Master Agreement and any related contracts or portions thereof; and
3. Impose liquidated damages as provided in this Master Agreement; and
4. Suspend Contractor from being able to respond to future bid solicitations; and
5. Suspend Contractor's performance; and
6. Withhold payment until the default is remedied.

d. Unless otherwise specified in the Participating Addendum, in the event of a default under a Participating Addendum, a Participating Entity shall provide a written notice of default as described in this section and shall have all of the rights and remedies under this paragraph regarding its participation in the Master Agreement, in addition to those set forth in its Participating Addendum. Unless otherwise specified in a Purchase Order, a Purchasing Entity shall provide written notice of default as described in this section and have all of the rights and remedies under this paragraph and any applicable Participating Addendum with respect to an Order placed by the Purchasing Entity. Nothing in these Master Agreement Terms and Conditions shall be construed to limit the rights and remedies available to a Purchasing Entity under the applicable commercial code.

45. **Waiver of Breach.**
Failure of the Lead State, Participating Entity, or Purchasing Entity to declare a default or enforce any rights and remedies shall not operate as a waiver under this Master Agreement or Participating Addendum. Any waiver by the Lead State, Participating Entity, or Purchasing Entity must be in writing. Waiver by the Lead State or Participating Entity of any default, right or remedy under this Master Agreement or Participating Addendum, or by Purchasing Entity with respect to any Purchase Order, or breach of any terms or requirements of this Master Agreement, a Participating Addendum, or Purchase Order shall not be construed or operate as a waiver of any subsequent default or breach of such term or requirement, or of any other term or requirement under this Master Agreement, Participating Addendum, or Purchase Order.

46. **Notices.**
If one party is required to give notice to the other under the Master Agreement, such notice shall be in writing and shall be effective upon receipt. Delivery may be by certified United States mail or by hand, in which case a signed receipt shall be obtained. A facsimile or electronic transmission shall constitute sufficient notice, provided the receipt of the transmission is confirmed by the receiving party. Either party must notify the other of a change in address for notification purposes. All notices to the Lead State shall be addressed as follows:

Elizabeth Randa, Acquisition Management Specialist
112 Administration Bldg.
50 Sherburne Avenue
St. Paul, MN 55155
elizabeth.randa@state.mn.us

47. **No Waiver of Sovereign Immunity.**
In no event shall this Master Agreement, any Participating Addendum or any contract or any Purchase Order issued thereunder, or any act of the Lead State, a Participating Entity, or a Purchasing Entity be a waiver of any form of defense

or immunity, whether sovereign immunity, governmental immunity, immunity based on the Eleventh Amendment to the Constitution of the United States or otherwise, from any claim or from the jurisdiction of any court.

This section applies to a claim brought against the Participating Entities who are states only to the extent Congress has appropriately abrogated the state's sovereign immunity and is not consent by the state to be sued in federal court. This section is also not a waiver by the state of any form of immunity, including but not limited to sovereign immunity and immunity based on the Eleventh Amendment to the Constitution of the United States.

Exhibit B: Minnesota Terms and Conditions

1. **Change Requests.**

The Lead State reserves the right to request, during the term of the Master Agreement, changes to the products offered within the Band(s). Products introduced during the term of the Master Agreement shall go through a formal review process. The process for updating the products offered within a Band is outlined in Paragraph 2 of Exhibit B. The Contractor shall evaluate and recommend products for which agencies have an expressed need. The Lead State shall require the Contractor to provide a summary of its research of those products being recommended for inclusion in the Master Agreement as well as defining how adding the product will enhance the Master Agreement. The Lead State may request that products, other than those recommended, are added to the Master Agreement.

In the event that the Lead State desires to add new products and services that are not included in the original Master Agreement, the Lead State requires that independent manufacturers and resellers cooperate with the already established Contractor in order to meet the Lead State's requirements. Evidence of the need to add products or services should be demonstrated to the Lead State. The Master Agreement shall be modified via supplement or amendment. The Lead State will negotiate the inclusion of the products and services with the Contractor. No products or services will be added to the Master Agreement without the Lead State's prior approval.

2. **Product and Service Schedule (PSS).**

a. Creating the Product and Service Schedule (PSS). Contractor will use the attached sample PSS to create and maintain a complete listing of all products and services offered under the Master Agreement. The PSS must conform to the contracted minimum discounts. Contractor may create and maintain a separate PSS for a Participating Entity based on the requirements and restrictions of the Participating Entity.

Contractors are encouraged to provide remote learning bundles for K-12 Education. These bundles can be included in the response to the PSS.

b. Maintaining the PSS.

1. In General. Throughout the term of the Master Agreement, on a quarterly basis, Contractor may update the PSS to make model changes, add new products or services, or remove obsolete or discontinued products or services. Any updates to the PSS must conform to the Master Agreement requirements, including the scope of the Master Agreement and contracted minimum discounts.

2. Process. Contractor must provide notification to the Lead State of any changes to their PSS using the attached Action Request Form (ARF).

a) The Lead State does not need to approve Contractor's request to make model changes, add their own manufactured products, or remove discontinued or obsolete products or services, and Contractor does not need the Lead State's approval prior to posting an updated PSS.

b) The Lead State must approve Contractor's request to add new third party manufacturers to Contractor's PSS. If the proposed third-party manufacturer holds a NASPO Master Agreement for Computer Equipment, Contractor must obtain written authorization from that manufacturer. Contractor must have the Lead State's approval prior to posting the updated PSS.

c) Contractor must maintain a historic record of all past PSSs on their dedicated NASPO ValuePoint website.

d) Pursuant to the audit provisions of the Master Agreement, upon the request of NASPO ValuePoint, the Lead State, or a Participating Entity, Contractor must provide an historic version of any Baseline Price List.

3. **Purchase Orders.**
There will be no minimum order requirements or charges to process an individual purchase order. The Participating Addendum number and the PO number must appear on all documents (e.g., invoices, packing slips, etc.). The Ordering Entity's purchase order constitutes a binding contract.

4. **Risk of Loss or Damage.**
The Purchasing Entity is relieved of all risks of loss or damage to the goods or equipment during periods of transportation, and installation by the Contractor and in the possession of the Contractor or their authorized agent.

5. **Payment Card Industry Data Security Standard and Cardholder Information Security.**
Contractor assures all of its Network Components, Applications, Servers, and Subcontractors (if any) comply with the Payment Card Industry Data Security Standard ("PCIDSS"). "Network Components" shall include, but are not limited to, Contractor's firewalls, switches, routers, wireless access points, network appliances, and other security appliances; "Applications" shall include, but are not limited to, all purchased and custom external (web) applications. "Servers" shall include, but are not limited to, all of Contractor's web, database, authentication, DNS, mail, proxy, and NTP servers. "Cardholder Data" shall mean any personally identifiable data associated with a cardholder, including, by way of example and without limitation, a cardholder's account number, expiration date, name, address, social security number, or telephone number.

Subcontractors (if any) must be responsible for the security of all Cardholder Data in its possession; and will only use Cardholder Data for assisting cardholders in completing a transaction, providing fraud control services, or for other uses specifically required by law. Contractor must have a business continuity program which conforms to PCIDSS to protect Cardholder Data in the event of a major disruption in its operations or in the event of any other disaster or system failure which may occur to operations; will continue to safeguard Cardholder Data in the event this Agreement terminates or expires; and ensure that a representative or agent of the payment card industry and a representative or agent of the Purchasing Entity shall be provided with full cooperation and access to conduct a thorough security review of Contractor's operations, systems, records, procedures, rules, and practices in the event of a security intrusion in order to validate compliance with PCIDSS.

6. **Foreign Outsourcing of Work.**
Upon request, the Contractor is required to provide information regarding the location of where services, data storage, and location of data processing under the Master Agreement will be performed.

7. **State Audits (Minn. Stat. § 16C.05, subd. 5).**
The books, records, documents, and accounting procedures and practices of the Contractor or other party, that are relevant to the Master Agreement or transaction are subject to examination by the contracting agency and either the Lead State's Legislative Auditor or State Auditor as appropriate for a minimum of six years after the end of the Master Agreement or transaction. The Lead State reserves the right to authorize delegate(s) to audit this Master Agreement and transactions.

8. **Certification of Nondiscrimination (in accordance with Minn. Stat. § 16C.053).**
If the value of this Contract, including all extensions, is $50,000 or more, Contractor certifies it does not engage in and has no present plans to engage in discrimination against Israel, or against persons or entities doing business in Israel, when making decisions related to the operation of the contractor's business. For purposes of this section, "discrimination" includes but is not limited to engaging in refusals to deal, terminating business activities, or other actions that are intended to limit commercial relations with Israel, or persons or entities doing business in Israel, when such actions are taken in a manner that in any way discriminates on the basis of nationality or national origin and is not based on a valid business reason.

9. Human Rights/Affirmative Action.

The Lead State requires affirmative action compliance by its Contractors in accordance with Minn. Stat. § 363A.36 and Minn. R. 5000.3400 to 5000.3600.

a. Covered Contracts and Contractors. If the Contract exceeds $100,000 and the Contractor employed more than 40 full-time employees on a single working day during the previous 12 months in Minnesota or in the state where it has its principal place of business, then the Contractor must comply with the requirements of Minn. Stat. § 363A.36 and Minn. R. 5000.3400-5000.3600.

b. Minn. R. 5000.3400-5000.3600 implement Minn. Stat. § 363A.36. These rules include, but are not limited to, criteria for contents, approval, and implementation of affirmative action plans; procedures for issuing certificates of compliance and criteria for determining a contractor's compliance status; procedures for addressing deficiencies, sanctions, and notice and hearing; annual compliance reports; procedures for compliance review; and contract consequences for noncompliance. The specific criteria for approval or rejection of an affirmative action plan are contained in various provisions of Minn. R. 5000.3400 5000.3600 including, but not limited to, parts 5000.3420-5000.3500 and parts 5000.3552 5000.3559.

c. Disabled Workers. Minn. R. 5000.3550 provides the Contractor must comply with the following affirmative action requirements for disabled workers.

AFFIRMATIVE ACTION FOR DISABLED WORKERS

(a) The Contractor must not discriminate against any employee or applicant for employment because of physical or mental disability in regard to any position for which the employee or applicant for employment is qualified. The Contractor agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified disabled persons without discrimination based upon their physical or mental disability in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.

(b) The Contractor agrees to comply with the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.

(c) In the event of the Contractor's noncompliance with the requirements of this clause, actions for noncompliance may be taken in accordance with Minn. Stat. § 363A.36 and the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.

(d) The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the commissioner of the Minnesota Department of Human Rights. Such notices must state the Contractor's obligation under the law to take affirmative action to employ and advance in employment qualified disabled employees and applicants for employment, and the rights of applicants and employees.

(e) The Contractor must notify each labor union or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the Contractor is bound by the terms of Minn. Stat. § 363A.36 of the Minnesota Human Rights Act and is committed to take affirmative action to employ and advance in employment physically and mentally disabled persons.

d. Consequences. The consequences of a Contractor's failure to implement its affirmative action plan or make a good faith effort to do so include, but are not limited to, suspension or revocation of a certificate of compliance by

the commissioner, refusal by the commissioner to approve subsequent plans, and termination of all or part of the Contract by the commissioner or the State.

e. Certification. The Contractor hereby certifies that it is in compliance with the requirements of Minn. Stat. § 363A.36, subd. 1 and Minn. R. 5000.3400-5000.3600 and is aware of the consequences for noncompliance. It is agreed between the parties that Minn. Stat. 363.36 and Minn. R. 5000.3400 to 5000.3600 are incorporated into any contract between these parties based upon this specification or any modification of it. A copy of Minn. Stat. § 363A.36 and Minn. R. 5000.3400 to 5000.3600 are available upon request from the contracting agency.

10. **Equal Pay Certification.**
If required by Minn. Stat. §363A.44, the Contractor must have a current Equal Pay Certificate prior to Contract execution. If Contractor's Equal Pay Certificate expires during the term of this Contract, Contractor must promptly re-apply for an Equal Pay Certificate with the Minnesota Department of Human Rights and notify the State's Authorized Representative once the Contractor has received the renewed Equal Pay Certificate. If Contractor claims to be exempt, the Lead State may require Contractor to verify its exempt status.

11. **Americans with Disabilities Act (ADA).**
Products provided under the Master Agreement must comply with the requirements of the Americans with Disabilities Act (ADA). The Contractor's catalog and other marketing materials utilized to offer products under the Master Agreement must state when a product is not in compliance. If any descriptive marketing materials are silent as to these requirements, the Contractor agrees that the customer can assume the product meets or exceeds the ADA requirements.

12. **Nonvisual Access Standards.**
Pursuant to Minn. Stat. § 16C.145, the Contractor shall comply with the following nonvisual technology access standards:

a. That the effective interactive control and use of the technology, including the operating system applications programs, prompts, and format of the data presented, are readily achievable by nonvisual means;

b. That the nonvisual access technology must be compatible with information technology used by other individuals with whom the blind or visually impaired individual must interact;

c. That nonvisual access technology must be integrated into networks used to share communications among employees, program participants, and the public; and

d. That the nonvisual access technology must have the capability of providing equivalent access by nonvisual means to telecommunications or other interconnected network services used by persons who are not blind or visually impaired.

These standards do not require the installation of software or peripheral devices used for nonvisual access when the information technology is being used by individuals who are not blind or visually impaired.

13. **Accessibility Standards.**
Contractor acknowledges and is fully aware that the Lead State (Executive branch state agencies) has developed IT Accessibility Standard effective September 1, 2010. The standard entails, in part, the Web Content Accessibility Guidelines (WCAG) and Section 508 which can be viewed at: https://mn.gov/mnit/government/policies/accessibility/.

The Standards apply to web sites, software applications, electronic reports and output documentation, training delivered in electronic formats (including, but not limited to, documents, videos, and webinars), among others. As upgrades are made to the software, products, or subscriptions available through this Contract, the Contractor agrees to

develop functionality which supports accessibility. If any issues arise due to nonconformance with the above-mentioned accessibility Standards, the Contractor agrees to provide alternative solutions upon request at no additional charge to the State.

When updates or upgrades are made to the products or services available through this Contract, the Contractor agrees to document how the changes will impact or improve the product's or service's accessibility and usability. This documentation, upon request, must be provided to the Lead State in advance of the change, occurring within an agreed upon timeframe sufficient for the state to review the changes and either approve them or request a remediation plan from the Contractor. Contractor warrants that its Products comply with the above-mentioned accessibility Standards and agrees to indemnify, defend, and hold harmless the Lead State against any claims related to non-compliance of Contractor's Product with the above-mentioned accessibility Standards. If agreed-upon updates fail to improve the product or service's accessibility or usability as planned, the failure to comply with this requirement may be cause for contract cancellation or for the Lead State to consider the Contractor in default.

14. **Conflict Minerals.**
Contractor agrees to provide information upon request regarding adherence to the Conflict Minerals section of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Section 1502).

See: http://beta.congress.gov/111/bills/hr4173/111hr4173enr.pdf#page=838
http://www.sec.gov/news/press/2012/2012-163.htm

15. **Hazardous Substances.**
To the extent that the goods to be supplied by the Contractor contain or may create hazardous substances, harmful physical agents or infectious agents as set forth in applicable state and federal laws and regulations, the Contractor must provide Material Safety Data Sheets regarding those substances. A copy must be included with each delivery.

16. **Copyrighted Material Waiver.**
The Lead State reserves the right to use, reproduce and publish proposals in any manner necessary for State agencies and local units of government to access the responses, including but not limited to photocopying, State Intranet/Internet postings, broadcast faxing, and direct mailing. In the event that the response contains copyrighted or trademarked materials, it is the responder's responsibility to obtain permission for the Lead State to reproduce and publish the information, regardless of whether the responder is the manufacturer or reseller of the products listed in the materials. By signing its response, the responder certifies that it has obtained all necessary approvals for the reproduction and distribution of the contents of its response and agrees to indemnify, protect, save and hold the Lead State, its representatives and employees harmless from any and all claims arising from the violation of this section and agrees to pay all legal fees incurred by the Lead State in the defense of any such action.

17. **Publicity.**
The Contractor shall make no representations of the State's opinion or position as to the quality or effectiveness of the products or services that are the subject of the Master Agreement without the prior written consent of the State's Assistant Director or designee of Office of State Procurement. Representations include any publicity, including but not limited to advertisements, notices, press releases, reports, signs, and similar public notices.

18. **Performance While Dispute is Pending.**
Notwithstanding the existence of a dispute, the parties shall continue without delay to carry out all of their responsibilities under the Master Agreement that are not affected by the dispute. If a party fails to continue without delay to perform its responsibilities under the Master Agreement, in the accomplishment of all undisputed work, any additional cost incurred by the other parties as a result of such failure to proceed shall be borne by the responsible party.

19. Organizational Conflicts of Interest.
An organizational conflict of interest exists when, because of existing or planned activities or because of relationships with other persons:

a. the Contractor is unable or potentially unable to render impartial assistance or advice to the State;

b. the Contractor's objectivity in performing the work is or might be otherwise impaired; or

c. the Contractor has an unfair competitive advantage.

The Contractor agrees that if an organizational conflict of interest is discovered after award, an immediate and full disclosure in writing shall be made to the Assistant Director of the Lead State's Department of Administration's Office of State Procurement that shall include a description of the action the Contractor has taken or proposes to take to avoid or mitigate such conflicts. If an organizational conflict of interest is determined to exist, the Lead State may, at its discretion, cancel the Master Agreement. In the event the Contractor was aware of an organizational conflict of interest prior to the award of the Master Agreement and did not disclose the conflict to the Master Agreement Administrator, the Lead State may terminate the Master Agreement for default. The provisions of this clause shall be included in all subcontracts for work to be performed, and the terms "Contract," "Contractor," "Master Agreement", "Master Agreement Administrator" and "Contract Administrator" modified appropriately to preserve the State's rights.

20. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion

a. Certification regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions. Instructions for certification:

1. By signing and submitting this proposal, the prospective lower tier participant [responder] is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to whom this proposal [response] is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.

4. The terms covered transaction, debarred, suspended, ineligible lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverages section of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this response that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction [subcontract equal to or exceeding $25,000] with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled, "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion – Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the list of parties excluded from federal procurement and nonprocurement programs.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and debarment.

b. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions.

1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

21. **Government Data Practices.**

The Contractor and the Lead State must comply with the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13, (and where applicable, if the Lead State contracting party is part of the judicial branch, with the Rules of Public Access to Records of the Judicial Branch promulgated by the Minnesota Supreme Court as the same may be amended from time to time) as it applies to all data provided by the Lead State to the Contractor and all data provided to the Lead State by the Contractor. In addition, the Minnesota Government Data Practices Act applies to all data created, collected, received, stored, used, maintained, or disseminated by the Contractor in accordance with the Master Agreement that is private, nonpublic, protected nonpublic, or confidential as defined by the Minnesota Government Data Practices Act, Ch. 13 (and where applicable, that is not accessible to the public under the Rules of Public Access to Records of the Judicial Branch).

In the event the Contractor receives a request to release the data referred to in this article, the Contractor must immediately notify the Lead State. The Lead State will give the Contractor instructions concerning the release of the data to the requesting party before the data is released. The civil remedies of Minn. Stat. § 13.08, apply to the release of the data by either the Contractor or the Lead State.

The Contractor agrees to indemnify, save, and hold the Lead State, its agent and employees, harmless from all claims arising out of, resulting from, or in any manner attributable to any violation of any provision of the Minnesota

Government Data Practices Act (and where applicable, the Rules of Public Access to Records of the Judicial Branch), including legal fees and disbursements paid or incurred to enforce this provision of the Master Agreement. In the event that the Contractor subcontracts any or all of the work to be performed under the Master Agreement, the Contractor shall retain responsibility under the terms of this article for such work.

22. **Survivability.**
Certain rights and duties of the Lead State and Contractor will survive the expiration or cancellation of the RFP and resulting Master Agreement. These rights and duties include but are not limited to paragraphs: Indemnification; Limitations of Liability; State Audits; Government Data Practices; Governing Law and Venue; Publicity; and Administrative Fees.

23. **Severability.**
If any provision of the Master Agreement, including items incorporated by reference, is found to be illegal, unenforceable, or void, then both the Lead State and the Contractor shall be relieved of all obligations arising under such provisions. If the remainder of the Master Agreement is capable of performance it shall not be affected by such declaration or finding and shall be fully performed.

Exhibit C: Requirements

1. **Contractor Verification.**
Contractor must be a manufacturer of a Product in the Band(s) it is awarded a Master Agreement. "Re-branding" a product that is manufactured by another company does not meet this requirement. If the Contractor ceases production, sells or assigns their manufacturing to another vendor, or otherwise no longer manufactures a product during the life of the Master Agreement the Lead State reserves the right to terminate the Contractor's Master Agreement.

2. **Warranty and Maintenance.**
Contractor must ensure warranty service and maintenance for all equipment, including third party products provided. The Contractor must facilitate the Manufacturer or Publisher warranty and maintenance of third party products furnished through the Master Agreement. The Contractor shall provide the warranty service and maintenance for equipment and all peripherals on the Master Agreement.

3. **Website.**
Contractor must develop and maintain a URL to a web site specific to the awarded Master Agreement. Contractor's Master Agreement website must offer twenty-four (24) hours per day, seven (7) days per week availability, except for regularly scheduled maintenance times. The website must be separate from the Contractor's commercially available (i.e., public) on-line catalog and ordering systems. No other items or pricing may be shown on the website without written approval from the Lead State

a. Mandatory Specifications:

- Designated Baseline Price List(s) (e.g., MSRP, List, or Education)
- Product and Service Schedule (PSS)
- Product specifications, pricing, and configuration aids for the major product categories proposed that can be used to obtain an on-line quote,
- Service options and service agreements available on the contract. Please refer to Paragraph 5.
- Contact information for order placement, service concerns (warranty and maintenance), problem reporting, and billing concerns
- Sales representatives for participating entities
- Links to environmental certification, including but not limited to take-back/recycling programs, EPEAT, Energy Star, etc.

b. Desirable Specifications:

- Purchase order tracking
- Information on accessibility and accessible products
- Signed Master Agreement
- Online ordering capability with the ability to remember multiple ship to locations (if applicable to product)
- List of approved partners, if applicable

Within 30 calendar days of the notice of intent to award a Master Agreement, Contractor must provide a sample URL of the Master Agreement webpage to the Lead State for review and approval. The Lead State will review and determine acceptability of the website format and data. If the information is determined to be unacceptable or incorrect, the Contractor will have 15 calendar days to provide revisions to the Lead State. After the Lead State approves the website, Contractor may not make material changes to the website without notifying the Lead State through the ARF process and receiving written approval of the changes.

4. **Environmental Certifications.**
Contractor must include environmental or supply chain responsibility certifications and registrations for products sold through this Contract on their website. Contractor must provide these certifications and registrations for specific products to Participating Entities upon request.

5. **EPEAT Registration.**
Contractor agrees that applicable products offered that have EPEAT Standards provided under the Master Agreement must have achieved a minimum EPEAT Bronze registration. This requirement does not apply to Band 3.

Contractor may propose the addition of a product that has not yet achieved a minimum EPEAT Bronze registration. The Lead State, in its sole discretion may require Contractor to provide the following documentation to support the addition of the proposed product:

- A letter from the Green Electronics Council (GEC) on GEC's letterhead confirming that the verification process is underway; or
- A copy of Contractor's GEC contract, Conformity Assurance Board (CAB) contract, and a letter from Contractor's CAB stating that the relevant product has been registered with the CAB and that verification is underway.

The Lead State reserves the right to reject the inclusion of such product, or if approved, require Contractor to remove the product at a later date if the product does not achieve a minimum EPEAT Bronze registration. The Contractor must remove any products that subsequently exit the verification process without achieving EPEAT Bronze or greater from the Master Agreement.

6. **Third-Party Products.**
Some products offered may be manufactured by a third party. Contractor, however, must provide or facilitate the warranty service and maintenance for all Third-Party Products on the Master Agreement either directly or pass-through from the manufacturer. Contractor may not offer products manufactured by another Contractor holding a Minnesota NASPO ValuePoint Master Agreement for Computer Equipment without approval from the Lead State. Warranty for third-party products must be provided by the Contractor. Warranty documents for products manufactured by a third party are preferred to be delivered to the Participating Entity with the products. Contractor can only offer Third-Party Products in a Band they have been awarded.

Third-Party Products are intended to enhance or supplement a Contractor's own product line, and are not intended to represent more than a third of Contractor's total sales under this Master Agreement. The Lead State may limit the sale of Third-Party Products through the Master Agreement during the life of the Master Agreement should Third-Party Product sales be determined to consistently exceed one third of the total sales under this Master Agreement. Such limitation may take the form of any action the Lead State so chooses, up to and including non-renewal or cancellation of the Master Agreement.

7. **Partner Utilization.**
If utilizing partners, the Contractor is responsible for the partners providing products and services, as well as warranty service and maintenance for equipment the partner provides. Participating Entities have the option of utilizing partners. Contractor must provide a Participating Entity a copy of its plan for partner utilization upon request. Contractor must make available a list of approved partners for each Participating Entity. Participating Entities must approve specific Partners as outlined within the relevant Participating Addendum, and only partners approved by the Participating Entity may be deployed. The Participating Entity will define the process to add and remove partners in their Participating Addendum.

8. **2019 National Defense Authorization Act, Section 889(f)(3).**
Under the 2019 National Defense Authorization Act, Section 889(f)(3), the US military is prohibited from purchasing video surveillance and telecommunications equipment from certain Chinese-owned technology firms. While US state are

not subject to this act, there is increasing concern for the security of state data. Contractor certifies for the term of this Master Agreement that it is not subject to laws, rules, or policies potentially requiring disclosure of, or provision of access to, customer data to foreign governments or entities controlled by foreign governments, and that Contractor's Products do not contain, include, or utilize components or services supplied by any entity subject to the same. Contractor also certifies that its Products do not contain, include, or utilize any covered technology prohibited under Section 889 of the National Defense Authorization Act, as amended.

Optional: Lease Rates

Dell Financial Services (DFS') payment solutions offer flexible end-of term options designed to suit each entity's unique needs. Payment terms are generally from 24 through 60 months and are tailored to match the essential useful life of the equipment to the payment term. Payments can be billed monthly, quarterly, semi-annually or annually.

DFS payment solution rates are adjusted quarterly in accordance with a formula based on fluctuations in treasury notes. Our rates are a function of several factors including estimates of future residual values, prevailing interest rates, borrowing costs, general and administrative expenses, and solution structure. Once a payment schedule has commenced, the rate remains constant for the term of the schedule.

Exhibit E: Contractor Terms and Conditions

Attached by reference as Exhibit E are the following Contractor document(s):

- **Software Licenses.** Customer's rights to use the Software delivered by Supplier are governed by the terms of the applicable end-user license agreement. Unless different terms have been agreed between the parties, the terms posted on www.dell.com/eula (the "EULA") shall apply. Supplier will provide a hard copy of the applicable terms upon request. Unless expressly otherwise agreed, microcode, firmware or operating system software required to enable the Equipment with which it is shipped to perform its basic or enhanced functions, is licensed for use solely on such Equipment.

- **Dell Return Policy.** Customer may return Products to Supplier pursuant to the return policy at www.dell.com/returnspolicy.

- **Equipment Warranty.** Unless provided otherwise in a Schedule, additional terms governing the limited warranties for Equipment are found at https://www.dell.com/learn/us/en/uscorp1/terms-of-sale-commercial-and-public-sector-warranties?c=us&l=en&s=corp or in the applicable documentation or Product Notice for the specific Equipment.

- **Product- and Service-Specific Terms.** Scope and details of Services and Product-specific terms are specified in the applicable standard service description that is attached to or referred in a Schedule or Quote, or is made available through the then-current Supplier website for product- or service-specific terms, currently located at www.dell.com/offeringspecificterms. Such standard descriptions are from time to time referred to as "Service Description(s)", "Product Notices" or "Service Briefs." The version of the applicable document that is effective as of the date of the applicable Quote, shall be deemed incorporated into the Order. Scope and details of customized Professional Services not covered by such a standard description shall be documented in a mutually agreed Statement of Work ("SOW").

These Contractor terms and conditions are being provided for **informational purposes only**. They are intended to be negotiated by Contractor and a Participating Entity as part of a Participating Addendum, or by Contractor and a Purchasing Entity as part of an Order, and shall apply only as agreed to in writing by the parties. Unless such terms are expressly accepted in writing, terms in the following document(s) that derogate the application to a Purchasing Entity of a corresponding term in this Master Agreement or applicable Participating Addendum shall be deemed void.

STATE OF CALIFORNIA
PARTICIPATING ADDENDUM NUMBER 7-23-70-55-01

Computer Equipment, Peripherals & Related Services
Minnesota NASPO ValuePoint Master Agreement Number 23026
Dell Marketing L.P. (Contractor)

This Participating Addendum Number 7-23-70-55-01 is entered into between the State of California, Department of General Services (hereafter referred to as "State" or "DGS") and Dell Marketing L.P. (hereafter referred to as "Contractor") under the lead state of Minnesota NASPO ValuePoint Master Agreement Number 23026.

1. SCOPE

A. This Participating Addendum covers the purchase of computer equipment (desktops, laptops, tablets, servers, and storage, including related peripherals & services) under the Minnesota NASPO ValuePoint Master Agreement. The Minnesota NASPO ValuePoint Master Agreement is hereby incorporated by reference. Product/service categories included under this Participating Addendum are identified in Section 5 (Available Products and Services).

B. This Participating Addendum is available for use by California state agencies and local governments. A local government is defined as any city, county, city and county, district, or other local governmental body, school district or corporation empowered to expend public funds. The State Agency Listing (https://www.ca.gov/agenciesall/) provides a comprehensive list of state agencies.

C. Each local government is to make its own determination whether this Participating Addendum and the Minnesota NASPO ValuePoint Master Agreement are consistent with its procurement policies and regulations.

2. TERM

A. The term of this Participating Addendum shall begin February 1, 2024, or upon signature approval by the State whichever occurs later, and will end June 30, 2025, or upon termination by the State, whichever occurs first.

B. Lead state amendments to extend the NASPO ValuePoint Master Agreement term date are not automatically incorporated into this Participating Addendum. Extension(s) to the term of this Participating Addendum will be through a written amendment upon mutual agreement between the State and the Contractor.

C. Order placement and execution shall be on or before the expiration of this Participating Addendum. However, delivery of products or completion of services may be up to 120 days after the Participating Addendum expiration date.

3. TERMS AND CONDITIONS/INCORPORATION OF DOCUMENTS

A. Terms and conditions listed below are hereby incorporated by reference and made a part of this Participating Addendum as if attached herein and shall apply to the purchase of goods or services made under this Participating Addendum.

1) General Provisions – Information Technology (GSPD-401IT) effective 6/21/2022

B. Terms can be viewed on the DGS Procurement Division website (https://www.dgs.ca.gov/PD/Resources/Page-Content/Procurement-Division-Resources-List-Folder/Required-Language-for-Solicitations-and-Contracts).

4. ORDER OF PRECEDENCE

A. In the event of any inconsistency between the articles, attachments, or provisions which constitute this agreement, the following descending order of precedence shall apply:

1) California Participating Addendum Number 7-23-70-55-01
2) Minnesota NASPO ValuePoint Master Agreement Number 23026

5. AVAILABLE PRODUCTS AND SERVICES

A. The following product and service offerings from the Minnesota NASPO ValuePoint Master Agreement Number 23026 are allowed under this Participating Addendum:

1) Band 1, Personal Computing Devices – Windows Operating Systems: Desktops, Laptops, Tablets
2) Band 2, Personal Computing Devices – Non-Windows Operating Systems: Desktops, Laptops, Tablets
3) Band 3, Servers and Storage

6. RESTRICTIONS/DISALLOWED PRODUCTS AND SERVICES

A. Configuration limits: The dollar limits identified below are based on a SINGLE computer/system configuration. This is NOT a restriction on the purchase of multiple configurations (e.g., an entity could purchase 10 laptops at $15,000 each, for a total purchase price of $150,000).

ITEM	CONFIGURATION
Band 1	$15,000
Band 2	$15,000
Band 3	$1,000,000
Peripherals	$10,000
Services	Addressed in the customer specific Purchase Orders

B. Services must be related to the procurement of equipment.

C. The following restrictions apply to state agency purchases under this Participating Addendum:

1) Product and service categories that are available on mandatory California statewide contracts cannot be purchased from this Participating Addendum by state agencies without an exemption. State agencies are responsible for obtaining a mandatory statewide contract exemption from DGS prior to issuing a purchase order.

2) Service-only purchases are disallowed. (Exception: Equipment maintenance service purchases are allowed).

3) Services that fall within the definition of "public works" as defined in Public Contract Code section 1101 and Labor Code section 1720 are disallowed under this Participating Addendum and must be procured by alternate means. This restriction is not applicable to local governments.

4) Leasing/rental is not allowed.

5) Professional services are not allowed.

6) Cloud services are not allowed.

7. PRICING

A. Contractor's pricing is outlined in the Minnesota NASPO ValuePoint Master Agreement Number 23026.

B. Contractor shall notify the State Contract Administrator of any amendments and pricing adjustments approved and executed by the state of Minnesota.

8. AUTHORIZED RESELLERS

A. Contractor may use State-approved Authorized Resellers under this Participating Addendum for sales and service functions as defined herein.

1) Authorized Resellers must accept purchase orders and accept payment from ordering agencies for products and services offered under this Participating Addendum.

2) Authorized Resellers are responsible for sending a copy of all purchase orders and invoices to the Contractor for compliance with quarterly usage reporting and administrative fee requirements.

3) All purchase documents to Authorized Resellers shall reference the Participating Addendum Number and Contractor Name.

B. Contractor shall be responsible for successful performance and compliance with all requirements in accordance with the terms and conditions under this Participating Addendum, even if work is performed by Authorized Resellers. All State policies, guidelines, and requirements shall apply to Authorized Resellers.

C. Contractor will be the sole point of contact with regard to Participating Addendum contractual matters, reporting, and administrative fee requirements.

D. Subject to the approval of the State, Authorized Resellers may be added on a quarterly basis during the term of the Participating Addendum. Contractors shall notify the State in writing of any deleted Authorized Resellers or changes to current Authorized Resellers' information at any time.

E. Contractor will be required to submit Authorized Reseller requests, in a format specified by the State, to the State Contract Administrator for approval.

F. State-approved Authorized Resellers will be posted on the State's Cal eProcure website.

9. SUBCONTRACTORS

A. Nothing contained in this Participating Addendum or otherwise, shall create any contractual relation between the State and any subcontractors, and no subcontract shall relieve Contractor of its responsibilities and obligations hereunder. Contractor agrees to be as fully responsible to the State for the acts and omissions of its subcontractors and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the Contractor. Contractor's obligation to pay its subcontractors is an independent obligation from the State's obligation to make payments to the Contractor.

B. Contractor shall perform the work contemplated with resources available within its own organization and no portion of the work shall be subcontracted except for subcontractors listed on the Bidder Declaration (GSPD-05-105) provided to ordering agencies at the time an order is quoted.

C. As the prime Contractor, Contractor is responsible for reports and fees required by the terms and conditions of the NASPO ValuePoint Master Agreement and Participating Addendum.

D. Any subcontract in excess of $25,000, entered into as a result of this Participating Addendum, shall contain all the provisions stipulated in this Participating Addendum to be applicable to subcontractors.

10. ORDERING AGENCY RESPONSIBILITIES

A. State agency and local government use of this Participating Addendum is optional.

B. State agencies and local governments must follow the ordering procedures outlined within the User Instructions guide, administered by the State Contract Administrator, to execute orders against this Participating Addendum. User Instructions are posted on the State's Cal eProcure website.

C. All purchase orders executed under this Participating Addendum shall include the Participating Addendum Number 7-23-70-55-01.

11. STATE AGENCY BUY RECYCLED CAMPAIGN (SABRC)

A. State agencies are required to report purchases made within the eleven product categories in the California Department of Resources Recycling and Recovery's State Agency Buy Recycled Campaign (SABRC) per Public Contract Code sections 12200-12217.

B. Contractor will be required to complete and return a Postconsumer Recycled-Content Certification form (https://calrecycle.ca.gov/buyrecycled/stateagency/vendored/form74guide/) upon request by the state agency.

12. DELIVERY

A. Delivery shall occur within 30 days after receipt of order, or as negotiated between ordering agency and Contractor and included in the purchase order, or as otherwise stipulated in the NASPO ValuePoint Master Agreement.

B. Free On Board (F.O.B.) Destination, freight prepaid by the Contractor, to the ordering agency's receiving point.

13. INVOICING AND PAYMENT

A. Payment will be made in accordance with IT General Provisions Paragraph 30 (Required Payment Date).

B. Invoices shall be sent to the address identified in the ordering agency's purchase order. The Participating Addendum Number and ordering agency purchase order number shall appear on each invoice for all purchases placed under this Participating Addendum.

C. Contractor does not accept the State of California credit card (CAL-Card) for payment of invoices.

14. USAGE REPORTING

A. Contractor shall submit usage reports on a quarterly basis to the State Contract Administrator for all California entity purchases using the report template attached hereto as Attachment A. The report is due even when there is no activity.

B. The State Contract Administrator reserves the right to modify Attachment A and require Contractor to provide additional order information during the course of this Participating Addendum.

C. The report shall be an Excel spreadsheet transmitted electronically to the DGS Cooperatives mailbox (PDCooperatives@dgs.ca.gov).

D. Any report that does not follow the required format or that excludes information will be deemed incomplete. Contractor will be responsible for submitting corrected reports within five (5) business days of the date of written notification from the State.

E. Tax must not be included in the report, even if it is on the purchase order.

F. Reports are due for each quarter as follows:

Reporting Period	Due Date
January 1 to March 31	April 30
April 1 to June 30	July 31
July 1 to September 30	October 31
October 1 to December 31	January 31

G. Failure to meet reporting requirements and submit the reports on a timely basis shall constitute grounds for suspension of this Participating Addendum.

H. Time extensions may be approved only if all due reports have been submitted to the State.

15. ADMINISTRATIVE FEE

A. Contractor is required to remit to DGS an administrative fee amount equal to 1.25% of the sales for the quarterly reporting period less freight, taxes, returned products and credits. (For example, if the net sales for the reporting quarter totals $100,000.00, the incentive fee due to DGS would be $1,250.00.)

B. The administrative fee shall not be included as an adjustment to Contractor's NASPO ValuePoint Master Agreement pricing.

C. The administrative fee shall not be invoiced or charged to the ordering agency.

D. Payment of the administrative fee is due irrespective of payment status from ordering agencies.

E. Payment may be made in the form of an electronic payment using the LPA Payment Portal website (https://www.dgs.ca.gov/PD/Services/Page-Content/Procurement-Division-Services-List-Folder/Access-LPA-Payment-Portal) or by submitting a check payable to the State of California, Department of General Services.

F. Administrative fee payments made by check must include the Participating Addendum Number on the check and be submitted to the following address:

Department of General Services
Procurement Division
Attn: MAPS Payment Processing
707 Third Street, 2nd Floor
West Sacramento, CA 95605

G. Administrative fee payments are due for each quarter as follows:

Reporting Period	Due Date
January 1 to March 31	April 30
April 1 to June 30	July 31
July 1 to September 30	October 31
October 1 to December 31	January 31

H. Failure to meet administrative fee requirements and submit fees on a timely basis shall constitute grounds for suspension of this Participating Addendum.

16. CONTRACT MANAGEMENT

A. The primary Contractor Contract Manager for this Participating Addendum shall be as follows:

Contractor	Contract Manager
Name:	Ashley Salinas
Phone:	(512) 542-1237
Fax:	n/a
Email	A.Salinas@dell.com
Address:	Dell Marketing L.P. Attn: Ashley Salinas One Dell Way Round Rock, TX 78682

B. The State Contract Administrator for this Participating Addendum shall be as follows:

State	Contract Administrator
Name:	Katelynne Leisenring
Phone:	(279) 946-8129
Email	katelynne.leisenring@dgs.ca.gov
Address:	State of California Department of General Services Procurement Division 707 Third Street, 2nd Floor, MS 2-202 West Sacramento, CA 95605

C. Should the contact information for either party change, the party will provide written notice with updated information no later than ten (10) business days after the change.

17. TERMINATION OF AGREEMENT

The State may terminate this Participating Addendum at any time upon 30 days prior written notice to the Contractor. Upon termination or other expiration of this Participating Addendum, each party will assist the other party in orderly termination of the Participating Addendum and the transfer of all assets, tangible, and intangible, as may facilitate the orderly, non-disrupted business continuation of each party. This provision shall not relieve the Contractor of the obligation to perform under any purchase order or other similar ordering document executed prior to the termination becoming effective.

18. AMENDMENT

No amendment or variation of the terms of this Participating Addendum shall be valid unless made in writing, signed by the parties, and approved as required. No oral understanding or agreement not incorporated in the Participating Addendum is binding on any of the parties.

19. NEWS RELEASES

Unless otherwise exempted, news releases, endorsements, advertising, and social media content pertaining to this Participating Addendum shall not be made without prior written approval from the State.

20. EXECUTIVE ORDER N-6-22 – RUSSIA SANCTIONS

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. "Economic Sanctions" refers to sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law. The EO directs state agencies to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine Contractor is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this Participating Addendum. The State shall provide Contractor advance written notice of such termination, allowing Contractor at least thirty (30) calendar days to provide a written response. Termination shall be at the sole discretion of the State.

21. AGREEMENT

A. This Participating Addendum and the Master Agreement together with its exhibits and/or amendments, set forth the entire agreement between the parties with respect to the subject matter of all previous communications, representations, or agreements, whether oral or written, with respect to the subject matter hereof. Terms and conditions inconsistent with, contrary or in addition to the terms and conditions of this Participating Addendum and the Master Agreement, together with its exhibits and/or amendments, shall not be added to or incorporated into this Participating Addendum or the Master Agreement and its exhibits and/or amendments, by any subsequent purchase order or otherwise, and any such attempts to add or incorporate such terms and conditions are hereby rejected. The terms and conditions of this Participating Addendum and the Master Agreement and its exhibits and/or amendments shall prevail and govern in the case of any such inconsistent or additional terms.

B. By signing this Participating Addendum, Contractor agrees to offer the same products/services available on the Minnesota NASPO ValuePoint Master Agreement Number 23026, at prices equal to or lower than the prices on that agreement.

IN WITNESS WHEREOF, the parties have executed this Participating Addendum as of the date of execution by both parties below.

City Council Meeting **H. 9.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve an Intergovernmental/Piggyback purchase of a Rubrik Data Protection Solution services pack for $218,005 from ePlus (Management Services/Finance Director Garcia)

MOTION(S):

If the City Council determines that staff's recommendation is appropriate, the following motion is provided:

I move to approve the purchase of Rubrik Data Protection Solution from ePlus for $218,005.

RECOMMENDATION:

Staff recommends that the City Council approve the purchase of Rubrik Data Protection Solution from ePlus for a term of 3 years, effective July 16, 2024, in the amount of $218,005 to enhance our organization's data backup and recovery capabilities.

DISCUSSION:

Technology standards are critical in order for the City and the Police Department to maintain daily operations without service interruptions. Currently, the City and Police Department are both operating under separate backup and recovery solutions which adds a challenge to IT with supporting the systems.

An investment in Rubrik's backup appliance will enhance our data backup and recovery capabilities. This will act as a single management interface to support all City system backup efforts. Rubrik is recognized for its comprehensive data management and protection features, including:

- Simplicity: Intuitive user interface and automated workflows streamline operations.
- Scalability: Ability to scale with our growing data needs seamlessly.
- Security: Robust encryption and compliance with industry standards ensure data integrity.
- Efficiency: Faster backup and recovery times reduce downtime and operational disruptions.
- Cloud Integration: Facilitates hybrid and multi-cloud strategies, enhancing flexibility.

The purchase of a Rubrik backup appliance represents a strategic investment in our organization's data management infrastructure. It will enhance our ability to protect and recover critical data efficiently while positioning us for future growth and compliance with data protection regulations.

Staff followed the City's procurement guidelines by examining and selecting an existing competitive Best Value RFP cooperative contract agreement with the National Association of State Procurement Officials (NASPO) ValuePoint. NASPO is a non-profit association made up of the directors of the central purchasing offices of the 50 states, District of Columbia and territories of the United States. By utilizing the NASPO ValuePoint cooperative purchasing, the City is able to benefit from the combined purchasing power of more than 50,000 government, education, and nonprofit organizations. The purpose of these cooperative contract programs enable the City to take advantage of preferred pricing and administrative efficiencies. Based on staff's assessment, the hardware and equipment proposed for purchase are recommended to be sourced through this cooperative purchasing agreement.

ALTERNATIVES:

City Council may choose to reject, modify or table the proposed purchase. However, the purchase is recommended in order to ensure the City's backup solution is more scalable.

STRATEGIC PLAN:

All orders are governed by your organization's signed agreement with ePlus or applicable public sector contract; if there is no such agreement the Customer Terms and Conditions for Products and/or Services located at www.ePlus.com govern. No additional or contrary terms in a purchase order shall apply, and ePlus' performance shall not be deemed acceptance of any preprinted PO terms. Use of software, subscription services or other products resold by ePlus is subject to manufacturer/publisher end user agreements or subscription terms. Any periodic payment obligations for specific offerings, along with customer-incurred overages, consumption fees, add-ons, quantity adjustments and automatic renewals are non-cancelable for any reason except by public sector customers required by law to terminate due to non-appropriation of funds.

PLEASE NOTE: Recent supply chain disruption and tariffs on certain imports are causing price increases for many IT products, with little or no notice, and beyond ePlus' control. As a result, this quote is subject to change without notice, even before the expiration date reflected above. Related manufacturer policy changes may result in orders being non-cancelable and products non-returnable except in accordance with the manufacturer warranty. Please confirm pricing and other restrictions prior to order placement. Unless freight amount is indicated, or is zero, freight will be added to the invoice. Unless Bill-To company is exempt from Sales Tax, it will be added to the invoice. Recognizing that the global pandemic has disrupted operations for many organizations, ePlus will ship products for delivery in accordance with customer's written ship-to instructions and products will be deemed delivered notwithstanding any failure of customer personnel to sign for receipt due to facility closing or otherwise.

(Revision 16 June 2016)

This document includes salient or non-standard provisions extracted from NASPO/ValuePoint Model Contract for Cloud Services.

February 17, 2016.

Attachment A: NASPO ValuePoint Master Agreement Terms and Conditions

1. Master Agreement Order of Precedence

a. Any Order placed under this Master Agreement shall consist of the following documents:

(1) A Participating Entity's Participating Addendum[1] ("PA");
(2) NASPO ValuePoint Master Agreement Terms & Conditions, including the applicable Exhibits[2] to the Master Agreement;
(3) The Solicitation;
(4) Contractor's response to the Solicitation, as revised (if permitted) and accepted by the Lead State; and
(5) A Service Level Agreement issued against the Participating Addendum.

b. These documents shall be read to be consistent and complementary. Any conflict among these documents shall be resolved by giving priority to these documents in the order listed above. Contractor terms and conditions that apply to this Master Agreement are only those that are expressly accepted by the Lead State and must be in writing and attached to this Master Agreement as an Exhibit or Attachment.

2. Definitions - Unless otherwise provided in this Master Agreement, capitalized terms will have the meanings given to those terms in this Section.

Confidential Information means any and all information of any form that is marked as confidential or would by its nature be deemed confidential obtained by Contractor or its employees or agents in the performance of this Master Agreement, including, but not necessarily limited to (1) any Purchasing Entity's records, (2) personnel records, and (3) information concerning individuals, is confidential information of Purchasing Entity.

Contractor means the person or entity providing solutions under the terms and conditions set forth in this Master Agreement. Contractor also includes its employees, subcontractors, agents and affiliates who are providing the services agreed to under the

[1] A Sample Participating Addendum will be published after the contracts have been awarded.
[2] The Exhibits comprise the terms and conditions for the service models: PaaS, IaaS, and PaaS.

Master Agreement.

Data means all information, whether in oral or written (including electronic) form, created by or in any way originating with a Participating Entity or Purchasing Entity, and all information that is the output of any computer processing, or other electronic manipulation, of any information that was created by or in any way originating with a Participating Entity or Purchasing Entity, in the course of using and configuring the Services provided under this Agreement.

Data Breach means any actual or reasonably suspected non-authorized access to or acquisition of computerized Non-Public Data or Personal Data that compromises the security, confidentiality, or integrity of the Non-Public Data or Personal Data, or the ability of Purchasing Entity to access the Non-Public Data or Personal Data.

Data Categorization means the process of risk assessment of Data. See also “High Risk Data”, “Moderate Risk Data” and “Low Risk Data”.

Disabling Code means computer instructions or programs, subroutines, code, instructions, data or functions, (including but not limited to viruses, worms, date bombs or time bombs), including but not limited to other programs, data storage, computer libraries and programs that self-replicate without manual intervention, instructions programmed to activate at a predetermined time or upon a specified event, and/or programs purporting to do a meaningful function but designed for a different function, that alter, destroy, inhibit, damage, interrupt, interfere with or hinder the operation of the Purchasing Entity’s’ software, applications and/or its end users processing environment, the system in which it resides, or any other software or data on such system or any other system with which it is capable of communicating.

Fulfillment Partner means a third-party contractor qualified and authorized by Contractor, and approved by the Participating State under a Participating Addendum, who may, to the extent authorized by Contractor, fulfill any of the requirements of this Master Agreement including but not limited to providing Services under this Master Agreement and billing Customers directly for such Services. Contractor may, upon written notice to the Participating State, add or delete authorized Fulfillment Partners as necessary at any time during the contract term. Fulfillment Partner has no authority to amend this Master Agreement or to bind Contractor to any additional terms and conditions.

High Risk Data is as defined in FIPS PUB 199, Standards for Security Categorization of Federal Information and Information Systems (“High Impact Data”).

Infrastructure as a Service (IaaS) as used in this Master Agreement is defined the capability provided to the consumer to provision processing, storage, networks, and other fundamental computing resources where the consumer is able to deploy and run

arbitrary software, which can include operating systems and applications. The consumer does not manage or control the underlying cloud infrastructure but has control over operating systems, storage, deployed applications; and possibly limited control of select networking components (e.g., host firewalls).

Intellectual Property means any and all patents, copyrights, service marks, trademarks, trade secrets, trade names, patentable inventions, or other similar proprietary rights, in tangible or intangible form, and all rights, title, and interest therein.

Lead State means the State centrally administering the solicitation and any resulting Master Agreement(s).

Low Risk Data is as defined in FIPS PUB 199, Standards for Security Categorization of Federal Information and Information Systems ("Low Impact Data").

Master Agreement means this agreement executed by and between the Lead State, acting on behalf of NASPO ValuePoint, and the Contractor, as now or hereafter amended.

Moderate Risk Data is as defined in FIPS PUB 199, Standards for Security Categorization of Federal Information and Information Systems ("Moderate Impact Data").

NASPO ValuePoint is the NASPO ValuePoint Cooperative Purchasing Program, facilitated by the NASPO Cooperative Purchasing Organization LLC, a 501(c)(3) limited liability company (doing business as NASPO ValuePoint) is a subsidiary organization the National Association of State Procurement Officials (NASPO), the sole member of NASPO ValuePoint. The NASPO ValuePoint Cooperative Purchasing Organization facilitates administration of the cooperative group contracting consortium of state chief procurement officials for the benefit of state departments, institutions, agencies, and political subdivisions and other eligible entities (i.e., colleges, school districts, counties, cities, some nonprofit organizations, etc.) for all states and the District of Columbia. The NASPO ValuePoint Cooperative Development Team is identified in the Master Agreement as the recipient of reports and may be performing contract administration functions as assigned by the Lead State.

Non-Public Data means High Risk Data and Moderate Risk Data that is not subject to distribution to the public as public information. It is deemed to be sensitive and confidential by the Purchasing Entity because it contains information that is exempt by statute, ordinance or administrative rule from access by the general public as public information.

Participating Addendum means a bilateral agreement executed by a Contractor and a Participating Entity incorporating this Master Agreement and any other additional Participating Entity specific language or other requirements, e.g. ordering procedures

specific to the Participating Entity, other terms and conditions.

Participating Entity means a state, or other legal entity, properly authorized to enter into a Participating Addendum.

Participating State means a state, the District of Columbia, or one of the territories of the United States that is listed in the Request for Proposal as intending to participate. Upon execution of the Participating Addendum, a Participating State becomes a Participating Entity.

Personal Data means data alone or in combination that includes information relating to an individual that identifies the individual by name, identifying number, mark or description can be readily associated with a particular individual and which is not a public record. Personal Information may include the following personally identifiable information (PII): government-issued identification numbers (e.g., Social Security, driver's license, passport); financial account information, including account number, credit or debit card numbers; or Protected Health Information (PHI) relating to a person.

Platform as a Service (PaaS) as used in this Master Agreement is defined as the capability provided to the consumer to deploy onto the cloud infrastructure consumer-created or -acquired applications created using programming languages and tools supported by the provider. This capability does not necessarily preclude the use of compatible programming languages, libraries, services, and tools from other sources. The consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, or storage, but has control over the deployed applications and possibly application hosting environment configurations.

Product means any deliverable under this Master Agreement, including Services, software, and any incidental tangible goods.

Protected Health Information (PHI) means individually identifiable health information transmitted by electronic media, maintained in electronic media, or transmitted or maintained in any other form or medium. PHI excludes education records covered by the Family Educational Rights and Privacy Act (FERPA), as amended, 20 U.S.C. 1232g, records described at 20 U.S.C. 1232g(a)(4)(B)(iv) and employment records held by a covered entity in its role as employer. PHI may also include information that is a subset of health information, including demographic information collected from an individual, and (1) is created or received by a health care provider, health plan, employer or health care clearinghouse; and (2) relates to the past, present or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present or future payment for the provision of health care to an individual; and (a) that identifies the individual; or (b) with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

Purchasing Entity means a state, city, county, district, other political subdivision of a State, and a nonprofit organization under the laws of some states if authorized by a Participating Addendum, who issues a Purchase Order against the Master Agreement and becomes financially committed to the purchase.

Services mean any of the specifications described in the Scope of Services that are supplied or created by the Contractor pursuant to this Master Agreement.

Security Incident means the possible or actual unauthorized access to a Purchasing Entity's Non-Public Data and Personal Data the Contractor believes could reasonably result in the use, disclosure or theft of a Purchasing Entity's Non-Public Data within the possession or control of the Contractor. A Security Incident also includes a major security breach to the Contractor's system, regardless if Contractor is aware of unauthorized access to a Purchasing Entity's Non-Public Data. A Security Incident may or may not turn into a Data Breach.

Service Level Agreement (SLA) means a written agreement between both the Purchasing Entity and the Contractor that is subject to the terms and conditions in this Master Agreement and relevant Participating Addendum unless otherwise expressly agreed in writing between the Purchasing Entity and the Contractor. SLAs should include: (1) the technical service level performance promises, (i.e. metrics for performance and intervals for measure), (2) description of service quality, (3) identification of roles and responsibilities, (4) remedies, such as credits, and (5) an explanation of how remedies or credits are calculated and issued.

Software as a Service (SaaS) as used in this Master Agreement is defined as the capability provided to the consumer to use the Contractor's applications running on a Contractor's infrastructure (commonly referred to as 'cloud infrastructure). The applications are accessible from various client devices through a thin client interface such as a Web browser (e.g., Web-based email), or a program interface. The consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, storage, or even individual application capabilities, with the possible exception of limited user-specific application configuration settings.

Solicitation means the documents used by the State of Utah, as the Lead State, to obtain Contractor's Proposal.

Statement of Work means a written statement in a solicitation document or contract that describes the Purchasing Entity's service needs and expectations.

6. Discount Guarantee Period: All discounts must be guaranteed for the entire term of the Master Agreement. Participating Entities and Purchasing Entities shall receive the immediate benefit of price or rate reduction of the services provided under this Master Agreement. A price or rate reduction will apply automatically to the Master Agreement

and an amendment is not necessary.

8. Confidentiality, Non-Disclosure, and Injunctive Relief

a. Confidentiality. Contractor acknowledges that it and its employees or agents may, in the course of providing a Product under this Master Agreement, be exposed to or acquire information that is confidential to Purchasing Entity's or Purchasing Entity's clients. Any reports or other documents or items (including software) that result from the use of the Confidential Information by Contractor shall be treated in the same manner as the Confidential Information. Confidential Information does not include information that (1) is or becomes (other than by disclosure by Contractor) publicly known; (2) is furnished by Purchasing Entity to others without restrictions similar to those imposed by this Master Agreement; (3) is rightfully in Contractor's possession without the obligation of nondisclosure prior to the time of its disclosure under this Master Agreement; (4) is obtained from a source other than Purchasing Entity without the obligation of confidentiality, (5) is disclosed with the written consent of Purchasing Entity or; (6) is independently developed by employees, agents or subcontractors of Contractor who can be shown to have had no access to the Confidential Information.

b. Non-Disclosure. Contractor shall hold Confidential Information in confidence, using at least the industry standard of confidentiality, and shall not copy, reproduce, sell, assign, license, market, transfer or otherwise dispose of, give, or disclose Confidential Information to third parties or use Confidential Information for any purposes whatsoever other than what is necessary to the performance of Orders placed under this Master Agreement. Contractor shall advise each of its employees and agents of their obligations to keep Confidential Information confidential. Contractor shall use commercially reasonable efforts to assist Purchasing Entity in identifying and preventing any unauthorized use or disclosure of any Confidential Information. Without limiting the generality of the foregoing, Contractor shall advise Purchasing Entity, applicable Participating Entity, and the Lead State immediately if Contractor learns or has reason to believe that any person who has had access to Confidential Information has violated or intends to violate the terms of this Master Agreement, and Contractor shall at its expense cooperate with Purchasing Entity in seeking injunctive or other equitable relief in the name of Purchasing Entity or Contractor against any such person. Except as directed by Purchasing Entity, Contractor will not at any time during or after the term of this Master Agreement disclose, directly or indirectly, any Confidential Information to any person, except in accordance with this Master Agreement, and that upon termination of this Master Agreement or at Purchasing Entity's request, Contractor shall turn over to Purchasing Entity all documents, papers, and other matter in Contractor's possession that embody Confidential Information. Notwithstanding the foregoing, Contractor may keep one copy of such Confidential Information necessary for quality assurance, audits and evidence of the performance of this Master Agreement.

c. Injunctive Relief. Contractor acknowledges that breach of this section, including disclosure of any Confidential Information, will cause irreparable injury to Purchasing

Entity that is inadequately compensable in damages. Accordingly, Purchasing Entity may seek and obtain injunctive relief against the breach or threatened breach of the foregoing undertakings, in addition to any other legal remedies that may be available. Contractor acknowledges and agrees that the covenants contained herein are necessary for the protection of the legitimate business interests of Purchasing Entity and are reasonable in scope and content.

d. Purchasing Entity Law. These provisions shall be applicable only to extent they are not in conflict with the applicable public disclosure laws of any Purchasing Entity.

9. Right to Publish: Throughout the duration of this Master Agreement, Contractor must secure prior approval from the Lead State or Participating Entity for the release of any information that pertains to the potential work or activities covered by the Master Agreement , including but not limited to reference to or use of the Lead State or a Participating Entity's name, Great Seal of the State, Coat of Arms, any Agency or other subunits of the State government, or any State official or employee, for commercial promotion which is strictly prohibited. News releases or release of broadcast e-mails pertaining to this Master Agreement or Participating Addendum shall not be made without prior written approval of the Lead State or a Participating Entity.

The Contractor shall not make any representations of NASPO ValuePoint's opinion or position as to the quality or effectiveness of the services that are the subject of this Master Agreement without prior written consent. Failure to adhere to this requirement may result in termination of the Master Agreement for cause.

11. Changes in Contractor Representation: The Contractor must notify the Lead State of changes in the Contractor's key administrative personnel, in writing within 10 calendar days of the change. The Lead State reserves the right to approve changes in key personnel, as identified in the Contractor's proposal. The Contractor agrees to propose replacement key personnel having substantially equal or better education, training, and experience as was possessed by the key person proposed and evaluated in the Contractor's proposal.

13. Indemnification and Limitation of Liability

a. The Contractor shall defend, indemnify and hold harmless NASPO, NASPO ValuePoint, the Lead State, Participating Entities, and Purchasing Entities, along with their officers, agents, and employees as well as any person or entity for which they may be liable, from and against claims, damages or causes of action including reasonable attorneys' fees and related costs for any death, bodily injury, or damage to real or tangible property arising directly or indirectly from the negligent or wrongful act(s), error(s), or omission(s) of the Contractor, its employees or subcontractors or volunteers, at any tier, relating to the performance under the Master Agreement.

b. Indemnification – Intellectual Property. The Contractor shall defend, indemnify and hold harmless NASPO, NASPO ValuePoint, the Lead State, Participating Entities, Purchasing Entities, along with their officers, agents, and employees as well as any

person or entity for which they may be liable ("Indemnified Party"), from and against claims, damages or causes of action including reasonable attorneys' fees and related costs arising out of the claim that the Product or its use, infringes Intellectual Property rights ("Intellectual Property Claim") of another person or entity.

(1) The Contractor's obligations under this section shall not extend to:

a. Any use of the Services provided hereunder not contemplated in the product documentation.
b. Any use of the Services provided hereunder in combination with other products not contemplated hereunder or in the documentation, any use of modification of the Services provided hereunder except as permitted by this Agreement.

(2) The Indemnified Party shall notify the Contractor within a reasonable time after receiving notice of an Intellectual Property Claim. Even if the Indemnified Party fails to provide reasonable notice, the Contractor shall not be relieved from its obligations unless the Contractor can demonstrate that it was prejudiced in defending the Intellectual Property Claim resulting in increased expenses or loss to the Contractor and then only to the extent of the prejudice or expenses. If the Contractor promptly and reasonably investigates and defends any Intellectual Property Claim, it shall have control over the defense and settlement of it. However, the Indemnified Party must consent in writing for any money damages or obligations for which it may be responsible. The Indemnified Party shall furnish, at the Contractor's reasonable request and expense, information and assistance necessary for such defense. If the Contractor fails to vigorously pursue the defense or settlement of the Intellectual Property Claim, the Indemnified Party may assume the defense or settlement of it and the Contractor shall be liable for all costs and expenses, including reasonable attorneys' fees and related costs, incurred by the Indemnified Party in the pursuit of the Intellectual Property Claim. Unless otherwise agreed in writing, this section is not subject to any limitations of liability in this Master Agreement or in any other document executed in conjunction with this Master Agreement.

b. Except as otherwise set forth in the Indemnification Paragraphs above, the limit of liability shall be as follows:

i. Contractor's liability for any claim, loss or liability arising out of, or connected with the Services provided, and whether based upon default, or other liability such as breach of contract, warranty, negligence, misrepresentation or otherwise, shall in no case exceed direct damages in: (i) an amount equal to two (2) times the charges specified in the Purchase Order for the Services, or parts thereof forming the basis of the Purchasing Entity's claim, (said amount not to exceed a total of twelve (12) months charges payable under the applicable

Purchase Order) or (ii) two million dollars ($2,000,000), whichever is greater.
ii. The Purchasing Entity may retain such monies from any amount due Contractor as may be necessary to satisfy any claim for damages, costs and the like asserted against the Purchasing Entity unless Contractor at the time of the presentation of claim shall demonstrate to the Purchasing Entity's satisfaction that sufficient monies are set aside by the Contractor in the form of a bond or through insurance coverage to cover associated damages and other costs.
iii. Notwithstanding the above, neither the Contractor nor the Purchasing Entity shall be liable for any consequential, indirect or special damages of any kind which may result directly or indirectly from such performance, including, without limitation, damages resulting from loss of use or loss of profit by the Purchasing Entity, the Contractor, or by others.

iv. The limitations of liability in Section 43 will not apply to claims for bodily injury or death as set forth in Section 13, and Section 30 when made applicable under a specific purchase order.

16. Insurance

a. Unless otherwise agreed in a Participating Addendum, Contractor shall, during the term of this Master Agreement, maintain in full force and effect, the insurance described in this section. Contractor shall acquire such insurance from an insurance carrier or carriers licensed to conduct business in each Participating Entity's state and having a rating of A-, Class VII or better, in the most recently published edition of Best's Reports. Failure to buy and maintain the required insurance may result in this Master Agreement's termination or, at a Participating Entity's option, result in termination of its Participating Addendum.

b. Coverage shall be written on an occurrence basis. The minimum acceptable limits shall be as indicated below, with no deductible for each of the following categories:

(1) Commercial General Liability covering premises operations, independent contractors, products and completed operations, blanket contractual liability, personal injury (including death), advertising liability, and property damage, with a limit of not less than $1 million per occurrence/$3 million general aggregate;

(2) CLOUD MINIMUM INSURANCE COVERAGE:

Level of Risk	**Data Breach and Privacy/Cyber Liability including Technology Errors and Omissions** Minimum Insurance Coverage	**Crime Insurance** Minimum Insurance Coverage
Low	$2,000,000	$2,000,000

Moderate	$5,000,000	$5,000,000
High	$10,000,000	$10,000,000

(3) Contractor must comply with any applicable State Workers Compensation or Employers Liability Insurance requirements.

(4) Professional Liability. As applicable, Professional Liability Insurance Policy in the minimum amount of $1,000,000 per occurrence and $1,000,000 in the aggregate, written on an occurrence form that provides coverage for its work undertaken pursuant to each Participating Addendum.

c. Contractor shall pay premiums on all insurance policies. Such policies shall also reference this Master Agreement and shall have a condition that they not be revoked by the insurer until thirty (30) calendar days after notice of intended revocation thereof shall have been given to Purchasing Entity and Participating Entity by the Contractor.

d. Prior to commencement of performance, Contractor shall provide to the Lead State a written endorsement to the Contractor's general liability insurance policy or other documentary evidence acceptable to the Lead State that (1) names the Participating States identified in the Request for Proposal as additional insureds, (2) provides that no material alteration, cancellation, non-renewal, or expiration of the coverage contained in such policy shall have effect unless the named Participating State has been given at least thirty (30) days prior written notice, and (3) provides that the Contractor's liability insurance policy shall be primary, with any liability insurance of any Participating State as secondary and noncontributory. Unless otherwise agreed in any Participating Addendum, the Participating Entity's rights and Contractor's obligations are the same as those specified in the first sentence of this subsection. Before performance of any Purchase Order issued after execution of a Participating Addendum authorizing it, the Contractor shall provide to a Purchasing Entity or Participating Entity who requests it the same information described in this subsection.

e. Contractor shall furnish to the Lead State, Participating Entity, and, on request, the Purchasing Entity copies of certificates of all required insurance within thirty (30) calendar days of the execution of this Master Agreement, the execution of a Participating Addendum, or the Purchase Order's effective date and prior to performing any work. The insurance certificate shall provide the following information: the name and address of the insured; name, address, telephone number and signature of the authorized agent; name of the insurance company (authorized to operate in all states); a description of coverage in detailed standard terminology (including policy period, policy number, limits of liability, exclusions and endorsements); and an acknowledgment of the requirement for notice of cancellation. Copies of renewal certificates of all required insurance shall be furnished within thirty (30) days after any renewal date. These certificates of insurance must expressly indicate compliance with each and every insurance requirement specified in this section. Failure to provide evidence of coverage

may, at sole option of the Lead State, or any Participating Entity, result in this Master Agreement's termination or the termination of any Participating Addendum.

f. Coverage and limits shall not limit Contractor's liability and obligations under this Master Agreement, any Participating Addendum, or any Purchase Order.

17. Laws and Regulations: Any and all Services offered and furnished shall comply fully with all applicable Federal and State laws and regulations.

The federal and state laws, regulations, policies, standards, and guidelines that Contractors doing business with the Participating Entities must be aware of, include, but not limited to: Criminal Justice Information Services (CJIS) Security Policy; Federal Educational Rights and Privacy Act (FERPA); Federal Information Security Management Act (FISMA); National Institute of Technology Standards; Gramm-Leach-Bliley Act (GLB) Act; Health Insurance Portability and Accountability Act (HIPAA); Health Information Technology for Economic and Clinical Health Act (HITECH); IRS Publication 1075; Payment Card Industry Data Security Standard (PCI DSS); Sarbanes-Oxley Act (SOX); Electronic Communications Privacy Act, Stored Communications Act and the PATRIOT Act. The list is intentionally United States-centric, and is not intended to be all-inclusive. Further, since laws, regulations, requirements and industry guidelines change, consulting definitive sources to assure a clear understanding of compliance requirements is critical. Many State Entities have additional program compliance requirements that must be considered in addressing compliance. (e.g., DMV Privacy Act, Public Service Law, etc.).

20. Participants and Scope

a. Contractor may not deliver Services under this Master Agreement until a Participating Addendum acceptable to the Participating Entity and Contractor is executed. The NASPO ValuePoint Master Agreement Terms and Conditions are applicable to any Order by a Participating Entity (and other Purchasing Entities covered by their Participating Addendum), except to the extent altered, modified, supplemented or amended by a Participating Addendum. By way of illustration and not limitation, this authority may apply to unique delivery and invoicing requirements, confidentiality requirements, defaults on Orders, governing law and venue relating to Orders by a Participating Entity, indemnification, and insurance requirements. Statutory or constitutional requirements relating to availability of funds may require specific language in some Participating Addenda in order to comply with applicable law. The expectation is that these alterations, modifications, supplements, or amendments will be addressed in the Participating Addendum or, with the consent of the Purchasing Entity and Contractor, may be included in the ordering document (e.g. purchase order or contract) used by the Purchasing Entity to place the Order.

b. Subject to subsection 20c and a Participating Entity's Participating Addendum, the use of specific NASPO ValuePoint cooperative Master Agreements by state agencies, political subdivisions and other Participating Entities (including cooperatives) authorized

by individual state's statutes to use state contracts is subject to the approval of the respective State Chief Procurement Official.

c. Unless otherwise stipulated in a Participating Entity's Participating Addendum, specific services accessed through the NASPO ValuePoint cooperative Master Agreements for Cloud Services by state executive branch agencies, as required by a Participating Entity's statutes, are subject to the authority and approval of the Participating Entity's Chief Information Officer's Office[3].

d. Obligations under this Master Agreement are limited to those Participating Entities who have signed a Participating Addendum and Purchasing Entities within the scope of those Participating Addenda. Financial obligations of Participating States are limited to the orders placed by the departments or other state agencies and institutions having available funds. Participating States incur no financial obligations on behalf of political subdivisions.

e. NASPO ValuePoint is not a party to the Master Agreement. It is a nonprofit cooperative purchasing organization assisting states in administering the NASPO ValuePoint cooperative purchasing program for state government departments, institutions, agencies and political subdivisions (e.g., colleges, school districts, counties, cities, etc.) for all 50 states, the District of Columbia and the territories of the United States.

f. Participating Addenda shall not be construed to amend the terms of this Master Agreement between the Lead State and Contractor.

g. Participating Entities who are not states may under some circumstances sign their own Participating Addendum, subject to the approval of participation by the Chief Procurement Official of the state where the Participating Entity is located. Coordinate requests for such participation through NASPO ValuePoint. Any permission to participate through execution of a Participating Addendum is not a determination that procurement authority exists in the Participating Entity; they must ensure that they have the requisite procurement authority to execute a Participating Addendum.

h. Resale. Subject to any explicit permission in a Participating Addendum, Purchasing Entities may not resell goods, software, or Services obtained under this Master Agreement. This limitation does not prohibit: payments by employees of a Purchasing Entity as explicitly permitted under this agreement; sales of goods to the general public as surplus property; and fees associated with inventory transactions with other governmental or nonprofit entities under cooperative agreements and consistent with a Purchasing Entity's laws and regulations. Any sale or transfer permitted by this

[3] Chief Information Officer means the individual designated by the Governor with Executive Branch, enterprise-wide responsibility for the leadership and management of information technology resources of a state.

subsection must be consistent with license rights granted for use of intellectual property.

22. Data Access Controls: Contractor will provide access to Purchasing Entity's Data only to those Contractor employees, contractors and subcontractors ("Contractor Staff") who need to access the Data to fulfill Contractor's obligations under this Agreement. Contractor shall not access a Purchasing Entity's user accounts or Data, except on the course of data center operations, response to service or technical issues, as required by the express terms of this Master Agreement, or at a Purchasing Entity's written request.

Contractor may not share a Purchasing Entity's Data with its parent corporation, other affiliates, or any other third party without the Purchasing Entity's express written consent.

Contractor will ensure that, prior to being granted access to the Data, Contractor Staff who perform work under this Agreement have successfully completed annual instruction of a nature sufficient to enable them to effectively comply with all Data protection provisions of this Agreement; and possess all qualifications appropriate to the nature of the employees' duties and the sensitivity of the Data they will be handling.

23. Operations Management: Contractor shall maintain the administrative, physical, technical, and procedural infrastructure associated with the provision of the Product in a manner that is, at all times during the term of this Master Agreement, at a level equal to or more stringent than those specified in the Solicitation. Contractor must maintain any certifications required under the Solicitation.

24. Public Information: This Master Agreement and all related documents are subject to disclosure pursuant to the Purchasing Entity's public information laws.

26. Records Administration and Audit.

a. The Contractor shall maintain books, records, documents, and other evidence pertaining to this Master Agreement and orders placed by Purchasing Entities under it to the extent and in such detail as shall adequately reflect performance and administration of payments and fees. Contractor shall permit the Lead State, a Participating Entity, a Purchasing Entity, the federal government (including its grant awarding entities and the U.S. Comptroller General), and any other duly authorized agent of a governmental agency, to audit, inspect, examine, copy and/or transcribe Contractor's books, documents, papers and records directly pertinent to this Master Agreement or orders placed by a Purchasing Entity under it for the purpose of making audits, examinations, excerpts, and transcriptions. This right shall survive for a period of six (6) years following termination of this Agreement or final payment for any order placed by a Purchasing Entity against this Agreement, whichever is later, to assure compliance with the terms hereof or to evaluate performance hereunder.

b. Without limiting any other remedy available to any governmental entity, the

Contractor shall reimburse the applicable Lead State, Participating Entity, or Purchasing Entity for any overpayments inconsistent with the terms of the Master Agreement or orders or underpayment of fees found as a result of the examination of the Contractor's records.

c. The rights and obligations herein exist in addition to any quality assurance obligation in the Master Agreement requiring the Contractor to self-audit contract obligations and that permits the Lead State to review compliance with those obligations.

d. The Contractor shall allow the Purchasing Entity to audit conformance to the Master Agreement and applicable Participating Addendum terms. The purchasing entity may perform this audit or contract with a third party at its discretion and at the purchasing entity's expense.

27. Administrative Fees: The Contractor shall pay to NASPO ValuePoint, or its assignee, a NASPO ValuePoint Administrative Fee of one-quarter of one percent (0.25% or 0.0025) no later than 60 days following the end of each calendar quarter. The NASPO ValuePoint Administrative Fee shall be submitted quarterly and is based on sales of the Services. The NASPO ValuePoint Administrative Fee is not negotiable. This fee is to be included as part of the pricing submitted with proposal.

Additionally, some states may require an additional administrative fee be paid directly to the state on purchases made by Purchasing Entities within that state. For all such requests, the fee level, payment method and schedule for such reports and payments will be incorporated into the Participating Addendum that is made a part of the Master Agreement. The Contractor may adjust the Master Agreement pricing accordingly for purchases made by Purchasing Entities within the jurisdiction of the state. All such agreements shall not affect the NASPO ValuePoint Administrative Fee percentage or the prices paid by the Purchasing Entities outside the jurisdiction of the state requesting the additional fee. The NASPO ValuePoint Administrative Fee shall be based on the gross amount of all sales at the adjusted prices (if any) in Participating Addenda.

28. System Failure or Damage: In the event of system failure or damage caused by Contractor or its Services, the Contractor agrees to use its best efforts to restore or assist in restoring the system to operational capacity.

29. Title to Product: If access to the Product requires an application program interface (API), Contractor shall convey to Purchasing Entity an irrevocable and perpetual license to use the API.

30. Data Privacy: When required by a specific purchase order issued under this Agreement or a Participating Addendum and accepted by the Contractor, the Contractor must comply with all applicable laws related to data privacy and security, including IRS Pub 1075. Prior to entering into a SLA with a Purchasing Entity, the Contractor and

Purchasing Entity must cooperate and hold a meeting to determine the Data Categorization to determine whether the Contractor will hold, store, or process High Risk Data, Moderate Risk Data and Low Risk Data. The Contractor must document the Data Categorization in the SLA or Statement of Work.

31. Warranty: At a minimum the Contractor must warrant the following:

a. Contractor has acquired any and all rights, grants, assignments, conveyances, licenses, permissions, and authorization for the Contractor to provide the Services described in this Master Agreement.

b. Contractor will perform materially as described in this Master Agreement, SLA, Statement of Work, including any performance representations contained in the Contractor's response to the Solicitation by the Lead State.

c. Contractor represents and warrants that the representations contained in its response to the Solicitation by the Lead State.

d. The Contractor will not interfere with a Purchasing Entity's access to and use of the Services it acquires from this Master Agreement.

e. The Services provided by the Contractor are compatible with and will operate successfully with any environment (including web browser and operating system) specified by the Contractor in its response to the Solicitation by the Lead State.

f. The Contractor warrants that the Products it provides under this Master Agreement are free of malware. The Contractor must use industry-leading technology to detect and remove worms, Trojans, rootkits, rogues, dialers, spyware, etc.

32. Transition Assistance:

a. The Contractor shall reasonably cooperate with other parties in connection with all Services to be delivered under this Master Agreement, including without limitation any successor service provider to whom a Purchasing Entity's Data is transferred in connection with the termination or expiration of this Master Agreement. The Contractor shall assist a Purchasing Entity in exporting and extracting a Purchasing Entity's Data, in a format usable without the use of the Services and as agreed by a Purchasing Entity, at no additional cost to the Purchasing Entity. Any transition services requested by a Purchasing Entity involving additional knowledge transfer and support may be subject to a separate transition Statement of Work.

b. A Purchasing Entity and the Contractor shall, when reasonable, create a Transition Plan Document identifying the transition services to be provided and including a Statement of Work if applicable.

c. The Contractor must maintain the confidentiality and security of a Purchasing Entity's Data during the transition services and thereafter as required by the Purchasing Entity.

35. Debarment : The Contractor certifies, to the best of its knowledge, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (contract) by any governmental department or agency. This certification represents a recurring certification made at the time any Order is placed under this Master Agreement. If the Contractor cannot certify this statement, attach a written explanation for review by the Lead State.

37. Governing Law and Venue

a. The procurement, evaluation, and award of the Master Agreement shall be governed by and construed in accordance with the laws of the Lead State sponsoring and administering the procurement. The construction and effect of the Master Agreement after award shall be governed by the law of the state serving as Lead State (in most cases also the Lead State). The construction and effect of any Participating Addendum or Order against the Master Agreement shall be governed by and construed in accordance with the laws of the Participating Entity's or Purchasing Entity's State.

b. Unless otherwise specified in the RFP, the venue for any protest, claim, dispute or action relating to the procurement, evaluation, and award is in the Lead State. Venue for any claim, dispute or action concerning the terms of the Master Agreement shall be in the state serving as Lead State. Venue for any claim, dispute, or action concerning any Order placed against the Master Agreement or the effect of a Participating Addendum shall be in the Purchasing Entity's State.

c. If a claim is brought in a federal forum, then it must be brought and adjudicated solely and exclusively within the United States District Court for (in decreasing order of priority): the Lead State for claims relating to the procurement, evaluation, award, or contract performance or administration if the Lead State is a party; the Participating State if a named party; the Participating Entity state if a named party; or the Purchasing Entity state if a named party.

d. This section is also not a waiver by the Participating State of any form of immunity, including but not limited to sovereign immunity and immunity based on the Eleventh Amendment to the Constitution of the United States.

40. Contract Provisions for Orders Utilizing Federal Funds: Pursuant to Appendix II to 2 Code of Federal Regulations (CFR) Part 200, Contract Provisions for Non-Federal Entity Contracts Under Federal Awards, Orders funded with federal funds may have

additional contractual requirements or certifications that must be satisfied at the time the Order is placed or upon delivery. These federal requirements may be proposed by Participating Entities in Participating Addenda and Purchasing Entities for incorporation in Orders placed under this master agreement.

42. NASPO ValuePoint Summary and Detailed Usage Reports: In addition to other reports that may be required by this solicitation, the Contractor shall provide the following NASPO ValuePoint reports.

a. Summary Sales Data. The Contractor shall submit quarterly sales reports directly to NASPO ValuePoint using the NASPO ValuePoint Quarterly Sales/Administrative Fee Reporting Tool found at http://www.naspo.org/WNCPO/Calculator.aspx. Any/all sales made under the contract shall be reported as cumulative totals by state. Even if Contractor experiences zero sales during a calendar quarter, a report is still required. Reports shall be due no later than 30 day following the end of the calendar quarter (as specified in the reporting tool).

b. Detailed Sales Data. Contractor shall also report detailed sales data by: (1) state; (2) entity/customer type, e.g. local government, higher education, K12, non-profit; (3) Purchasing Entity name; (4) Purchasing Entity bill-to and ship-to locations; (4) Purchasing Entity and Contractor Purchase Order identifier/number(s); (5) Purchase Order Type (e.g. sales order, credit, return, upgrade, determined by industry practices); (6) Purchase Order date; (7) Ship Date; (8) and line item description, including product number if used. The report shall be submitted in any form required by the solicitation. Reports are due on a quarterly basis and must be received by the Lead State and NASPO ValuePoint Cooperative Development Team no later than thirty (30) days after the end of the reporting period. Reports shall be delivered to the Lead State and to the NASPO ValuePoint Cooperative Development Team electronically through a designated portal, email, CD-Rom, flash drive or other method as determined by the Lead State and NASPO ValuePoint. Detailed sales data reports shall include sales information for all sales under Participating Addenda executed under this Master Agreement. The format for the detailed sales data report is in shown in Attachment F.

c. Reportable sales for the summary sales data report and detailed sales data report includes sales to employees for personal use where authorized by the solicitation and the Participating Addendum. Report data for employees should be limited to ONLY the state and entity they are participating under the authority of (state and agency, city, county, school district, etc.) and the amount of sales. No personal identification numbers, e.g. names, addresses, social security numbers or any other numerical identifier, may be submitted with any report.

d. Contractor shall provide the NASPO ValuePoint Cooperative Development Coordinator with an executive summary each quarter that includes, at a minimum, a list

of states with an active Participating Addendum, states that Contractor is in negotiations with and any PA roll out or implementation activities and issues. NASPO ValuePoint Cooperative Development Coordinator and Contractor will determine the format and content of the executive summary. The executive summary is due 30 days after the conclusion of each calendar quarter.

e. Timely submission of these reports is a material requirement of the Master Agreement. The recipient of the reports shall have exclusive ownership of the media containing the reports. The Lead State and NASPO ValuePoint shall have a perpetual, irrevocable, non-exclusive, royalty free, transferable right to display, modify, copy, and otherwise use reports, data and information provided under this section.

f. If requested by a Participating Entity, the Contractor must provide detailed sales data within the Participating State.

43. Entire Agreement: This Master Agreement, along with any attachment, contains the entire understanding of the parties hereto with respect to the Master Agreement unless a term is modified in a Participating Addendum with a Participating Entity. No click-through, or other end user terms and conditions or agreements required by the Contractor ("Additional Terms") provided with any Services hereunder shall be binding on Participating Entities or Purchasing Entities, even if use of such Services requires an affirmative "acceptance" of those Additional Terms before access is permitted.

Exhibit 1 to the Master Agreement: Software-as-a-Service

1. **Data Ownership:** The Purchasing Entity will own all right, title and interest in its data that is related to the Services provided by this Master Agreement. The Contractor shall not access Purchasing Entity user accounts or Purchasing Entity data, except (1) in the course of data center operations, (2) in response to service or technical issues, (3) as required by the express terms of this Master Agreement, Participating Addendum, SLA, and/or other contract documents, or (4) at the Purchasing Entity's written request.

Contractor shall not collect, access, or use user-specific Purchasing Entity Data except as strictly necessary to provide Service to the Purchasing Entity. No information regarding a Purchasing Entity's use of the Service may be disclosed, provided, rented or sold to any third party for any reason unless required by law or regulation or by an order of a court of competent jurisdiction. This obligation shall survive and extend beyond the term of this Master Agreement.

2. **Data Protection:** Protection of personal privacy and data shall be an integral part of the business activities of the Contractor to ensure there is no inappropriate or unauthorized use of Purchasing Entity information at any time. To this end, the Contractor shall safeguard the confidentiality, integrity and availability of Purchasing Entity information and comply with the following conditions:

    a. The Contractor shall implement and maintain appropriate administrative, technical and organizational security measures to safeguard against unauthorized access, disclosure or theft of Personal Data and Non-Public Data. Such security measures shall be in accordance with recognized industry practice and not less stringent than the measures the Contractor applies to its own Personal Data and Non-Public Data of similar kind.

    b. All data obtained by the Contractor in the performance of the Master Agreement shall become and remain the property of the Purchasing Entity.

    c. All Personal Data shall be encrypted at rest and in transit with controlled access. Unless otherwise stipulated, the Contractor is responsible for encryption of the Personal Data. Any stipulation of responsibilities will identify specific roles and responsibilities and shall be included in the service level agreement (SLA), or otherwise made a part of the Master Agreement.

    d. Unless otherwise stipulated, the Contractor shall encrypt all Non-Public Data at rest and in transit. The Purchasing Entity shall identify data it deems as Non-Public Data to the Contractor. The level of protection and encryption for all Non-Public Data shall be identified in the SLA.

    e. At no time shall any data or processes — that either belong to or are intended for the use of a Purchasing Entity or its officers, agents or employees — be copied, disclosed or retained by the Contractor or any party related to the Contractor for subsequent use in any transaction that does not include the Purchasing Entity.

f. The Contractor shall not use any information collected in connection with the Services issued from this Master Agreement for any purpose other than fulfilling the Services.

3. **Data Location:** The Contractor shall provide its services to the Purchasing Entity and its end users solely from data centers in the U.S. Storage of Purchasing Entity data at rest shall be located solely in data centers in the U.S. The Contractor shall not allow its personnel or contractors to store Purchasing Entity data on portable devices, including personal computers, except for devices that are used and kept only at its U.S. data centers. The Contractor shall permit its personnel and contractors to access Purchasing Entity data remotely only as required to provide technical support. The Contractor may provide technical user support on a 24/7 basis using a Follow the Sun model, unless otherwise prohibited in a Participating Addendum.

4. **Security Incident or Data Breach Notification:**

   a. Incident Response: Contractor may need to communicate with outside parties regarding a security incident, which may include contacting law enforcement, fielding media inquiries and seeking external expertise as mutually agreed upon, defined by law or contained in the contract. Discussing security incidents with the Purchasing Entity should be handled on an urgent as needed basis, as part of Contractor's communication and mitigation processes as mutually agreed upon, defined by law or contained in the Master Agreement.

   b. Security Incident Reporting Requirements: The Contractor shall report a security incident to the Purchasing Entity identified contact immediately as soon as possible or promptly without out reasonable delay, or as defined in the SLA.

   c. Breach Reporting Requirements: If the Contractor has actual knowledge of a confirmed data breach that affects the security of any purchasing entity's content that is subject to applicable data breach notification law, the Contractor shall (1) as soon as possible or promptly without out reasonable delay notify the Purchasing Entity, unless shorter time is required by applicable law, and (2) take commercially reasonable measures to address the data breach in a timely manner.

5. **Personal Data Breach Responsibilities:** This section only applies when a Data Breach occurs with respect to Personal Data within the possession or control of the Contractor.

   a. The Contractor, unless stipulated otherwise, shall immediately notify the appropriate Purchasing Entity identified contact by telephone in accordance with the agreed upon security plan or security procedures if it reasonably believes there has been a security incident.

   b. The Contractor, unless stipulated otherwise, shall promptly notify the appropriate Purchasing Entity identified contact within 48 hours or sooner by telephone, unless shorter time is required by applicable law, if it has confirmed that there is, or reasonably believes that there has been a Data Breach. The Contractor shall (1) cooperate with the Purchasing Entity as reasonably requested by the Purchasing Entity to investigate and resolve the Data Breach, (2) promptly implement necessary remedial measures, if necessary, and (3)

document responsive actions taken related to the Data Breach, including any post-incident review of events and actions taken to make changes in business practices in providing the services, if necessary.

6. **Notification of Legal Requests**: If legally permissible, the Contractor shall contact the Purchasing Entity upon receipt of any electronic discovery, litigation holds, discovery searches and expert testimonies related to the Purchasing Entity's data under the Master Agreement, or which in any way might reasonably require access to the data of the Purchasing Entity. The Contractor shall not respond to subpoenas, service of process and other legal requests related to the Purchasing Entity without first notifying and obtaining the approval of the Purchasing Entity, unless prohibited by law. .

7. **Termination and Suspension of Service**:

a. In the event of a termination of the Master Agreement or applicable Participating Addendum, the Contractor shall implement an orderly return of purchasing entity's data in a CSV or another mutually agreeable format at a time agreed to by the parties or allow the Purchasing Entity to extract it's data and the subsequent secure disposal of purchasing entity's data.

b. During any period of service suspension, the Contractor shall not take any action to intentionally erase or otherwise dispose of any of the Purchasing Entity's data.

c. In the event of termination of any services or agreement in entirety, the Contractor shall not take any action to intentionally erase purchasing entity's data for a period of:

- 10 days after the effective date of termination, if the termination is in accordance with the contract period
- 30 days after the effective date of termination, if the termination is for convenience
- • 60 days after the effective date of termination, if the termination is for cause

After such period, the Contractor shall have no obligation to maintain or provide any purchasing entity's data and shall thereafter, unless legally prohibited, delete all purchasing entity's data in its systems or otherwise in its possession or under its control.

d. The purchasing entity shall be entitled to any post termination assistance generally made available with respect to the services, unless a unique data retrieval arrangement has been established as part of an SLA.

e. Upon termination of the Services or the Agreement in its entirety, Contractor shall securely dispose of all Purchasing Entity's data in all of its forms, such as disk, CD/ DVD,

backup tape and paper, unless stipulated otherwise by the Purchasing Entity. Data shall be permanently deleted and shall not be recoverable, according to National Institute of Standards and Technology (NIST)-approved methods. Certificates of destruction shall be provided to the Purchasing Entity.

8. **Background Checks:** Upon the request of the Purchasing Entity, the Contractor shall conduct criminal background checks and not utilize any staff, including subcontractors, to fulfill the obligations of the Master Agreement who have been convicted of any crime of dishonesty, including but not limited to criminal fraud, or otherwise convicted of any felony or misdemeanor offense for which incarceration for up to 1 year is an authorized penalty. The Contractor shall promote and maintain an awareness of the importance of securing the Purchasing Entity's information among the Contractor's employees and agents. If any of the stated personnel providing services under a Participating Addendum is not acceptable to the Purchasing Entity in its sole opinion as a result of the background or criminal history investigation, the Purchasing Entity, in its' sole option shall have the right to either (1) request immediate replacement of the person, or (2) immediately terminate the Participating Addendum and any related service agreement.

9. **Access to Security Logs and Reports:** The Contractor shall provide reports on a schedule specified in the SLA to the Purchasing Entity in a format as specified in the SLA agreed to by both the Contractor and the Purchasing Entity. Reports shall include latency statistics, user access, user access IP address, user access history and security logs for all public jurisdiction files related to this Master Agreement and applicable Participating Addendum.

10. **Contract Audit:** The Contractor shall allow the Purchasing Entity to audit conformance to the Master Agreement terms. The Purchasing Entity may perform this audit or contract with a third party at its discretion and at the Purchasing Entity's expense.

11. **Data Center Audit**: The Contractor shall perform an independent audit of its data centers at least annually at its expense, and provide an unredacted version of the audit report upon request to a Purchasing Entity. The Contractor may remove its proprietary information from the unredacted version. A Service Organization Control (SOC) 2 audit report or approved equivalent sets the minimum level of a third-party audit.

12. **Change Control and Advance Notice:** The Contractor shall give a minimum forty eight (48) hour advance notice (or as determined by a Purchasing Entity and included in the SLA) to the Purchasing Entity of any upgrades (e.g., major upgrades, minor upgrades, system changes) that may impact service availability and performance. A major upgrade is a replacement of hardware, software or firmware with a newer or better version in order to bring the system up to date or to improve its characteristics. It usually includes a new version number.

Contractor will make updates and upgrades available to Purchasing Entity at no additional costs when Contractor makes such updates and upgrades generally available to its users.

No update, upgrade or other charge to the Service may decrease the Service's functionality, adversely affect Purchasing Entity's use of or access to the Service, or increase the cost of the Service to the Purchasing Entity.

Contractor will notify the Purchasing Entity at least sixty (60) days in advance prior to any major update or upgrade.

13. **Security:** As requested by a Purchasing Entity, the Contractor shall disclose its non-proprietary system security plans (SSP) or security processes and technical limitations to the Purchasing Entity such that adequate protection and flexibility can be attained between the Purchasing Entity and the Contractor. For example: virus checking and port sniffing — the Purchasing Entity and the Contractor shall understand each other's roles and responsibilities.

14. **Non-disclosure and Separation of Duties:** The Contractor shall enforce separation of job duties, require commercially reasonable non-disclosure agreements, and limit staff knowledge of Purchasing Entity data to that which is absolutely necessary to perform job duties.

15. **Import and Export of Data:** The Purchasing Entity shall have the ability to import or export data in piecemeal or in entirety at its discretion without interference from the Contractor at any time during the term of Contractor's contract with the Purchasing Entity. This includes the ability for the Purchasing Entity to import or export data to/from other Contractors. Contractor shall specify if Purchasing Entity is required to provide its' own tools for this purpose, including the optional purchase of Contractors tools if Contractors applications are not able to provide this functionality directly.

16. **Responsibilities and Uptime Guarantee**: The Contractor shall be responsible for the acquisition and operation of all hardware, software and network support related to the services being provided. The technical and professional activities required for establishing, managing and maintaining the environments are the responsibilities of the Contractor. The system shall be available 24/7/365 (with agreed-upon maintenance downtime), and provide service to customers as defined in the SLA.

17. **Subcontractor Disclosure**: Contractor shall identify all of its strategic business partners related to services provided under this Master Agreement, including but not limited to all subcontractors or other entities or individuals who may be a party to a joint venture or similar agreement with the Contractor, and who shall be involved in any application development and/or operations.

18. **Right to Remove Individuals:** The Purchasing Entity shall have the right at any time to require that the Contractor remove from interaction with Purchasing Entity any Contractor representative who the Purchasing Entity believes is detrimental to its working relationship with the Contractor. The Purchasing Entity shall provide the Contractor with notice of its determination, and the reasons it requests the removal. If the Purchasing Entity signifies that a potential security violation exists with respect to the request, the Contractor shall immediately

remove such individual. The Contractor shall not assign the person to any aspect of the Master Agreement or future work orders without the Purchasing Entity's consent.

19. **Business Continuity and Disaster Recovery:** The Contractor shall provide a business continuity and disaster recovery plan upon request and ensure that the Purchasing Entity's recovery time objective (RTO) of XXX hours/days is met. (XXX hour/days shall be provided to Contractor by the Purchasing Entity.) Contractor must work with the Purchasing Entity to perform an annual Disaster Recovery test and take action to correct any issues detected during the test in a time frame mutually agreed between the Contractor and the Purchasing Entity.

20. **Compliance with Accessibility Standards**: The Contractor shall comply with and adhere to Accessibility Standards of Section 508 Amendment to the Rehabilitation Act of 1973, or any other state laws or administrative regulations identified by the Participating Entity.

21. **Web Services:** The Contractor shall use Web services exclusively to interface with the Purchasing Entity's data in near real time.

22. **Encryption of Data at Rest:** The Contractor shall ensure hard drive encryption consistent with validated cryptography standards as referenced in FIPS 140-2, Security Requirements for Cryptographic Modules for all Personal Data, unless the Purchasing Entity approves in writing for the storage of Personal Data on a Contractor portable device in order to accomplish work as defined in the statement of work.

23. Subscription Terms: Contractor grants to a Purchasing Entity a license to: (i) access and use the Service for its business purposes; (ii) for SaaS, use underlying software as embodied or used in the Service; and (iii) view, copy, upload and download (where applicable), and use Contractor's documentation.

No Contractor terms, including standard click through license or website terms or use of privacy policy, shall apply to Purchasing Entities unless such terms are included in this Master Agreement.

Exhibit 2 to the Master Agreement: Platform-as-a-Service

1. **Data Ownership:** The Purchasing Entity will own all right, title and interest in its data that is related to the Services provided by this Master Agreement. The Contractor shall not access Purchasing Entity user accounts or Purchasing Entity data, except (1) in the course of data center operations, (2) in response to service or technical issues, (3) as required by the express terms of this Master Agreement, Participating Addendum, SLA, and/or other contract documents, or (4) at the Purchasing Entity's written request.

Contractor shall not collect, access, or use user-specific Purchasing Entity Data except as strictly necessary to provide Service to the Purchasing Entity. No information regarding a Purchasing Entity's use of the Service may be disclosed, provided, rented or sold to any third party for any reason unless required by law or regulation or by an order of a court of competent jurisdiction. This obligation shall survive and extend beyond the term of this Master Agreement.

2. **Data Protection:** Protection of personal privacy and data shall be an integral part of the business activities of the Contractor to ensure there is no inappropriate or unauthorized use of Purchasing Entity information at any time. To this end, the Contractor shall safeguard the confidentiality, integrity and availability of Purchasing Entity information and comply with the following conditions:

    a. The Contractor shall implement and maintain appropriate administrative, technical and organizational security measures to safeguard against unauthorized access, disclosure or theft of Personal Data and Non-Public Data. Such security measures shall be in accordance with recognized industry practice and not less stringent than the measures the Contractor applies to its own Personal Data and Non-Public Data of similar kind.

    b. All data obtained by the Contractor in the performance of the Master Agreement shall become and remain the property of the Purchasing Entity.

    c. All Personal Data shall be encrypted at rest and in transit with controlled access. Unless otherwise stipulated, the Contractor is responsible for encryption of the Personal Data. Any stipulation of responsibilities will identify specific roles and responsibilities and shall be included in the service level agreement (SLA), or otherwise made a part of the Master Agreement.

    d. Unless otherwise stipulated, the Contractor shall encrypt all Non-Public Data at rest and in transit. The Purchasing Entity shall identify data it deems as Non-Public Data to the Contractor. The level of protection and encryption for all Non-Public Data shall be identified in the SLA.

    e. At no time shall any data or processes — that either belong to or are intended for the use of a Purchasing Entity or its officers, agents or employees — be copied, disclosed or retained by the Contractor or any party related to the Contractor for subsequent use in any transaction that does not include the Purchasing Entity.

f. The Contractor shall not use any information collected in connection with the Services issued from this Master Agreement for any purpose other than fulfilling the Services.

3. **Data Location:** The Contractor shall provide its services to the Purchasing Entity and its end users solely from data centers in the U.S. Storage of Purchasing Entity data at rest shall be located solely in data centers in the U.S. The Contractor shall not allow its personnel or contractors to store Purchasing Entity data on portable devices, including personal computers, except for devices that are used and kept only at its U.S. data centers. The Contractor shall permit its personnel and contractors to access Purchasing Entity data remotely only as required to provide technical support. The Contractor may provide technical user support on a 24/7 basis using a Follow the Sun model, unless otherwise prohibited in a Participating Addendum.

4. **Security Incident or Data Breach Notification:** The Contractor shall inform the Purchasing Entity of any security incident or data breach within the possession and control of the Contractor and related to the service provided under the Master Agreement, Participating Addendum, or SLA. Such notice shall include, to the best of Contractor's knowledge at that time, the persons affected, their identities, and the Confidential Information and Data disclosed, or shall include if this information is unknown.

    a. Incident Response: The Contractor may need to communicate with outside parties regarding a security incident, which may include contacting law enforcement, fielding media inquiries and seeking external expertise as mutually agreed upon, defined by law or contained in the Master Agreement, Participating Addendum, or SLA. Discussing security incidents with the Purchasing Entity should be handled on an urgent as-needed basis, as part of Contractor's communication and mitigation processes as mutually agreed, defined by law or contained in the Master Agreement, Participating Addendum, or SLA.

    b. Security Incident Reporting Requirements: Unless otherwise stipulated, the Contractor shall immediately report a security incident related to its service under the Master Agreement, Participating Addendum, or SLA to the appropriate Purchasing Entity.

    c. Breach Reporting Requirements: If the Contractor has actual knowledge of a confirmed data breach that affects the security of any Purchasing Entity data that is subject to applicable data breach notification law, the Contractor shall (1) promptly notify the appropriate Purchasing Entity within 48 hours or sooner, unless shorter time is required by applicable law, and (2) take commercially reasonable measures to address the data breach in a timely manner

5. **Breach Responsibilities:** This section only applies when a Data Breach occurs with respect to Personal Data within the possession or control of the Contractor.

    a. The Contractor, unless stipulated otherwise, shall immediately notify the appropriate Purchasing Entity identified contact by telephone in accordance with the agreed upon security plan or security procedures if it reasonably believes there has been a security incident.

b. The Contractor, unless stipulated otherwise, shall promptly notify the appropriate Purchasing Entity identified contact within 24 hours or sooner by telephone, unless shorter time is required by applicable law, if it has confirmed that there is, or reasonably believes that there has been a data breach. The Contractor shall (1) cooperate with the Purchasing Entity as reasonably requested by the Purchasing Entity to investigate and resolve the data breach, (2) promptly implement necessary remedial measures, if necessary, and (3) document responsive actions taken related to the data breach, including any post-incident review of events and actions taken to make changes in business practices in providing the services, if necessary.

6. **Notification of Legal Requests**: If legally permissible, the Contractor shall contact the Purchasing Entity upon receipt of any electronic discovery, litigation holds, discovery searches and expert testimonies related to the Purchasing Entity's data under the Master Agreement, or which in any way might reasonably require access to the data of the Purchasing Entity. The Contractor shall not respond to subpoenas, service of process and other legal requests related to the Purchasing Entity without first notifying and obtaining the approval of the Purchasing Entity, unless prohibited by law.

7. **Termination and Suspension of Service**:

a. In the event of an early termination of the Master Agreement, Participating or SLA, Contractor shall allow for the Purchasing Entity to retrieve its digital content and provide for the subsequent secure disposal of the Purchasing Entity's digital content.

b. During any period of service suspension, the Contractor shall not take any action to intentionally erase or otherwise dispose of any of the Purchasing Entity's data.

c. In the event of early termination of any Services or agreement in entirety, the Contractor shall not take any action to intentionally erase any Purchasing Entity's data for a period of 1) 45 days after the effective date of termination, if the termination is for convenience; or 2) 60 days after the effective date of termination, if the termination is for cause. After such day period, the Contractor shall have no obligation to maintain or provide any Purchasing Entity data and shall thereafter, unless legally prohibited, delete all Purchasing Entity data in its systems or otherwise in its possession or under its control. In the event of either termination for cause, the Contractor will impose no fees for access and retrieval of digital content to the Purchasing Entity.

d. The Purchasing Entity shall be entitled to any post termination assistance generally made available with respect to the services, unless a unique data retrieval arrangement has been established as part of an SLA.

e. Upon termination of the Services or the Agreement in its entirety, Contractor shall securely dispose of all Purchasing Entity's data in all of its forms, such as disk, CD/ DVD, backup tape and paper, unless stipulated otherwise by the Purchasing Entity. Data shall be permanently deleted and shall not be recoverable, according to National Institute of

Standards and Technology (NIST)-approved methods. Certificates of destruction shall be provided to the Purchasing Entity.

8. **Background Checks:**

   a. Upon the request of the Purchasing Entity, the Contractor shall conduct criminal background checks and not utilize any staff, including subcontractors, to fulfill the obligations of the Master Agreement who have been convicted of any crime of dishonesty, including but not limited to criminal fraud, or otherwise convicted of any felony or misdemeanor offense for which incarceration for up to 1 year is an authorized penalty. The Contractor shall promote and maintain an awareness of the importance of securing the Purchasing Entity's information among the Contractor's employees and agents.

   b. The Contractor and the Purchasing Entity recognize that security responsibilities are shared. The Contractor is responsible for providing a secure infrastructure. The Purchasing Entity is responsible for its secure guest operating system, firewalls and other logs captured within the guest operating system. Specific shared responsibilities are identified within the SLA.

   c. If any of the stated personnel providing services under a Participating Addendum is not acceptable to the Purchasing Entity in its sole opinion as a result of the background or criminal history investigation, the Purchasing Entity, in its' sole option shall have the right to either (1) request immediate replacement of the person, or (2) immediately terminate the Participating Addendum and any related service agreement.

9. **Access to Security Logs and Reports:**

   a. The Contractor shall provide reports on a schedule specified in the SLA to the Purchasing Entity in a format as specified in the SLA and agreed to by both the Contractor and the Purchasing Entity. Reports will include latency statistics, user access, user access IP address, user access history and security logs for all Purchasing Entity files related to the Master Agreement, Participating Addendum, or SLA.

   b. The Contractor and the Purchasing Entity recognize that security responsibilities are shared. The Contractor is responsible for providing a secure infrastructure. The Purchasing Entity is responsible for its secure guest operating system, firewalls and other logs captured within the guest operating system. Specific shared responsibilities are identified within the SLA.

10. **Contract Audit:** The Contractor shall allow the Purchasing Entity to audit conformance to the Master Agreement terms. The Purchasing Entity may perform this audit or contract with a third party at its discretion and at the Purchasing Entity's expense.

11. **Data Center Audit**: The Contractor shall perform an independent audit of its data centers at least annually at its expense, and provide an unredacted version of the audit report upon

request to a Purchasing Entity. The Contractor may remove its proprietary information from the unredacted version. A Service Organization Control (SOC) 2 audit report or approved equivalent sets the minimum level of a third-party audit.

12. **Change Control and Advance Notice:** The Contractor shall give a minimum forty eight (48) hour advance notice (or as determined by a Purchasing Entity and included in the SLA) to the Purchasing Entity of any upgrades (e.g., major upgrades, minor upgrades, system changes) that may impact service availability and performance. A major upgrade is a replacement of hardware, software or firmware with a newer or better version in order to bring the system up to date or to improve its characteristics. It usually includes a new version number.

Contractor will make updates and upgrades available to Purchasing Entity at no additional costs when Contractor makes such updates and upgrades generally available to its users.

No update, upgrade or other charge to the Service may decrease the Service's functionality, adversely affect Purchasing Entity's use of or access to the Service, or increase the cost of the Service to the Purchasing Entity.

Contractor will notify the Purchasing Entity at least sixty (60) days in advance prior to any major update or upgrade.

13. **Security:** As requested by a Purchasing Entity, the Contractor shall disclose its non-proprietary system security plans (SSP) or security processes and technical limitations to the Purchasing Entity such that adequate protection and flexibility can be attained between the Purchasing Entity and the Contractor. For example: virus checking and port sniffing — the Purchasing Entity and the Contractor shall understand each other's roles and responsibilities.

14. **Non-disclosure and Separation of Duties:** The Contractor shall enforce separation of job duties, require commercially reasonable non-disclosure agreements, and limit staff knowledge of Purchasing Entity data to that which is absolutely necessary to perform job duties.

15. **Import and Export of Data:** The Purchasing Entity shall have the ability to import or export data in piecemeal or in entirety at its discretion without interference from the Contractor at any time during the term of Contractor's contract with the Purchasing Entity. This includes the ability for the Purchasing Entity to import or export data to/from other Contractors. Contractor shall specify if Purchasing Entity is required to provide its' own tools for this purpose, including the optional purchase of Contractors tools if Contractors applications are not able to provide this functionality directly.
16. **Responsibilities and Uptime Guarantee**: The Contractor shall be responsible for the acquisition and operation of all hardware, software and network support related to the services being provided. The technical and professional activities required for establishing, managing and maintaining the environments are the responsibilities of the Contractor. The system shall be available 24/7/365 (with agreed-upon maintenance downtime), and provide service to customers as defined in the SLA.

17. **Subcontractor Disclosure**: Contractor shall identify all of its strategic business partners related to services provided under this Master Agreement, including but not limited to all subcontractors or other entities or individuals who may be a party to a joint venture or similar agreement with the Contractor, and who shall be involved in any application development and/or operations.

18. **Business Continuity and Disaster Recovery:** The Contractor shall provide a business continuity and disaster recovery plan upon request and ensure that the Purchasing Entity's recovery time objective (RTO) of XXX hours/days is met. (XXX hour/days shall be provided to Contractor by the Purchasing Entity.) Contractor must work with the Purchasing Entity to perform an annual Disaster Recovery test and take action to correct any issues detected during the test in a time frame mutually agreed between the Contractor and the Purchasing Entity.

19. **Compliance with Accessibility Standards**: The Contractor shall comply with and adhere to Accessibility Standards of Section 508 Amendment to the Rehabilitation Act of 1973 or any other state laws or administrative regulations identified by the Participating Entity..

20. **Web Services:** The Contractor shall use Web services exclusively to interface with the Purchasing Entity's data in near real time.

21. **Encryption of Data at Rest:** The Contractor shall ensure hard drive encryption consistent with validated cryptography standards as referenced in FIPS 140-2, Security Requirements for Cryptographic Modules for all Personal Data as identified in the SLA, unless the Contractor presents a justifiable position that is approved by the Purchasing Entity that Personal Data, is required to be stored on a Contractor portable device in order to accomplish work as defined in the scope of work.

22. Subscription Terms: Contractor grants to a Purchasing Entity a license to: (i) access and use the Service for its business purposes; (ii) for PaaS, use underlying software as embodied or used in the Service; and (iii) view, copy, upload and download (where applicable), and use Contractor's documentation.

No Contractor terms, including standard click through license or website terms or use of privacy policy, shall apply to Purchasing Entities unless such terms are included in this Master Agreement.

Exhibit 3 to the Master Agreement: Infrastructure-as-a-Service

1. **Data Ownership:** The Purchasing Entity will own all right, title and interest in its data that is related to the Services provided by this Master Agreement. The Contractor shall not access Purchasing Entity user accounts or Purchasing Entity data, except (1) in the course of data center operations, (2) in response to service or technical issues, (3) as required by the express terms of this Master Agreement, Participating Addendum, SLA, and/or other contract documents, or (4) at the Purchasing Entity's written request.

Contractor shall not collect, access, or use user-specific Purchasing Entity Data except as strictly necessary to provide Service to the Purchasing Entity. No information regarding a Purchasing Entity's use of the Service may be disclosed, provided, rented or sold to any third party for any reason unless required by law or regulation or by an order of a court of competent jurisdiction. This obligation shall survive and extend beyond the term of this Master Agreement.

2. **Data Protection:** Protection of personal privacy and data shall be an integral part of the business activities of the Contractor to ensure there is no inappropriate or unauthorized use of Purchasing Entity information at any time. To this end, the Contractor shall safeguard the confidentiality, integrity and availability of Purchasing Entity information and comply with the following conditions:

    a. The Contractor shall implement and maintain appropriate administrative, technical and organizational security measures to safeguard against unauthorized access, disclosure or theft of Personal Data and Non-Public Data. Such security measures shall be in accordance with recognized industry practice and not less stringent than the measures the Contractor applies to its own Personal Data and Non-Public Data of similar kind.

    b. All data obtained by the Contractor in the performance of the Master Agreement shall become and remain the property of the Purchasing Entity.

    c. All Personal Data shall be encrypted at rest and in transit with controlled access. Unless otherwise stipulated, the Contractor is responsible for encryption of the Personal Data. Any stipulation of responsibilities will identify specific roles and responsibilities and shall be included in the service level agreement (SLA), or otherwise made a part of the Master Agreement.

    d. Unless otherwise stipulated, the Contractor shall encrypt all Non-Public Data at rest and in transit. The Purchasing Entity shall identify data it deems as Non-Public Data to the Contractor. The level of protection and encryption for all Non-Public Data shall be identified in the SLA.

    e. At no time shall any data or processes — that either belong to or are intended for the use of a Purchasing Entity or its officers, agents or employees — be copied, disclosed or retained by the Contractor or any party related to the Contractor for subsequent use in any transaction that does not include the Purchasing Entity.

f. The Contractor shall not use any information collected in connection with the Services issued from this Master Agreement for any purpose other than fulfilling the Services.

3. **Data Location:** The Contractor shall provide its services to the Purchasing Entity and its end users solely from data centers in the U.S. Storage of Purchasing Entity data at rest shall be located solely in data centers in the U.S. The Contractor shall not allow its personnel or contractors to store Purchasing Entity data on portable devices, including personal computers, except for devices that are used and kept only at its U.S. data centers. The Contractor shall permit its personnel and contractors to access Purchasing Entity data remotely only as required to provide technical support. The Contractor may provide technical user support on a 24/7 basis using a Follow the Sun model, unless otherwise prohibited in a Participating Addendum.

4. **Security Incident or Data Breach Notification:** The Contractor shall inform the Purchasing Entity of any security incident or data breach related to Purchasing Entity's Data within the possession or control of the Contractor and related to the service provided under the Master Agreement, Participating Addendum, or SLA. Such notice shall include, to the best of Contractor's knowledge at that time, the persons affected, their identities, and the Confidential Information and Data disclosed, or shall include if this information is unknown.

   a. Security Incident Reporting Requirements: The Contractor shall report a security incident to the Purchasing Entity identified contact immediately as soon as possible or promptly without out reasonable delay, or as defined in the SLA.

   b. Breach Reporting Requirements: If the Contractor has actual knowledge of a confirmed data breach that affects the security of any purchasing entity's content that is subject to applicable data breach notification law, the Contractor shall (1) as soon as possible or promptly without out reasonable delay notify the Purchasing Entity, unless shorter time is required by applicable law, and (2) take commercially reasonable measures to address the data breach in a timely manner.

5. **Breach Responsibilities:** This section only applies when a Data Breach occurs with respect to Personal Data within the possession or control of the Contractor and related to the service provided under the Master Agreement, Participating Addendum, or SLA.

   a. The Contractor, unless stipulated otherwise, shall immediately notify the appropriate Purchasing Entity identified contact by telephone in accordance with the agreed upon security plan or security procedures if it reasonably believes there has been a security incident.

   b. The Contractor, unless stipulated otherwise, shall promptly notify the appropriate Purchasing Entity identified contact within 48 hours or sooner by telephone, unless shorter time is required by applicable law, if it has confirmed that there is, or reasonably believes that there has been a data breach. The Contractor shall (1) cooperate with the Purchasing Entity as reasonably requested by the Purchasing Entity to investigate and resolve the Data Breach, (2) promptly implement necessary remedial measures, if necessary, and (3) document responsive actions taken related to the Data Breach, including any post-incident

review of events and actions taken to make changes in business practices in providing the services, if necessary.

6. **Notification of Legal Requests**: If legally permissible, the Contractor shall contact the Purchasing Entity upon receipt of any electronic discovery, litigation holds, discovery searches and expert testimonies related to the Purchasing Entity's data under the Master Agreement, or which in any way might reasonably require access to the data of the Purchasing Entity. The Contractor shall not respond to subpoenas, service of process and other legal requests related to the Purchasing Entity without first notifying and obtaining the approval of the Purchasing Entity, unless prohibited by law.

7. **Termination and Suspension of Service**:

   a. In the event of an early termination of the Master Agreement, Participating or SLA, Contractor shall allow for the Purchasing Entity to retrieve its digital content and provide for the subsequent secure disposal of the Purchasing Entity's digital content.

   b. During any period of service suspension, the Contractor shall not take any action to intentionally erase or otherwise dispose of any of the Purchasing Entity's data.

   c. In the event of early termination of any Services or agreement in entirety, the Contractor shall not take any action to intentionally erase any Purchasing Entity's data for a period of 1) 45 days after the effective date of termination, if the termination is for convenience; or 2) 60 days after the effective date of termination, if the termination is for cause. After such day period, the Contractor shall have no obligation to maintain or provide any Purchasing Entity data and shall thereafter, unless legally prohibited, delete all Purchasing Entity data in its systems or otherwise in its possession or under its control. In the event of either termination for cause, the Contractor will impose no fees for access and retrieval of digital content to the Purchasing Entity.

   d. The Purchasing Entity shall be entitled to any post termination assistance generally made available with respect to the services, unless a unique data retrieval arrangement has been established as part of an SLA.

   e. Upon termination of the Services or the Agreement in its entirety, Contractor shall securely dispose of all Purchasing Entity's data in all of its forms, such as disk, CD/ DVD, backup tape and paper, unless stipulated otherwise by the Purchasing Entity. Data shall be permanently deleted and shall not be recoverable, according to National Institute of Standards and Technology (NIST)-approved methods. Certificates of destruction shall be provided to the Purchasing Entity.

8. **Background Checks:**

   a. Upon the request of the Purchasing Entity, the Contractor shall conduct criminal background checks and not utilize any staff, including subcontractors, to fulfill the obligations of the Master Agreement who have been convicted of any crime of dishonesty,

including but not limited to criminal fraud, or otherwise convicted of any felony or misdemeanor offense for which incarceration for up to 1 year is an authorized penalty. The Contractor shall promote and maintain an awareness of the importance of securing the Purchasing Entity's information among the Contractor's employees and agents.

b. The Contractor and the Purchasing Entity recognize that security responsibilities are shared. The Contractor is responsible for providing a secure infrastructure. The Purchasing Entity is responsible for its secure guest operating system, firewalls and other logs captured within the guest operating system. Specific shared responsibilities are identified within the SLA.

c. If any of the stated personnel providing services under a Participating Addendum is not acceptable to the Purchasing Entity in its sole opinion as a result of the background or criminal history investigation, the Purchasing Entity, in its' sole option shall have the right to either (1) request immediate replacement of the person, or (2) immediately terminate the Participating Addendum and any related service agreement.

9. **Access to Security Logs and Reports:**

   a. The Contractor shall provide reports on a schedule specified in the SLA to the Contractor directly related to the infrastructure that the Contractor controls upon which the Purchasing Entity's account resides. Unless otherwise agreed to in the SLA, the Contractor shall provide the public jurisdiction a history or all API calls for the Purchasing Entity account that includes the identity of the API caller, the time of the API call, the source IP address of the API caller, the request parameters and the response elements returned by the Contractor. The report will be sufficient to enable the Purchasing Entity to perform security analysis, resource change tracking and compliance auditing

   b. The Contractor and the Purchasing Entity recognize that security responsibilities are shared. The Contractor is responsible for providing a secure infrastructure. The Purchasing Entity is responsible for its secure guest operating system, firewalls and other logs captured within the guest operating system. Specific shared responsibilities are identified within the SLA.

10. **Contract Audit:** The Contractor shall allow the Purchasing Entity to audit conformance to the Master Agreement terms. The Purchasing Entity may perform this audit or contract with a third party at its discretion and at the Purchasing Entity's expense.
11. **Data Center Audit**: The Contractor shall perform an independent audit of its data centers at least annually and at its own expense, and provide an unredacted version of the audit report upon request. The Contractor may remove its proprietary information from the unredacted version. For example, a Service Organization Control (SOC) 2 audit report would be sufficient.

12. **Change Control and Advance Notice:** The Contractor shall give a minimum forty eight (48) hour advance notice (or as determined by a Purchasing Entity and included in the SLA) to the Purchasing Entity of any upgrades (e.g., major upgrades, minor upgrades, system changes) that

may impact service availability and performance. A major upgrade is a replacement of hardware, software or firmware with a newer or better version in order to bring the system up to date or to improve its characteristics. It usually includes a new version number.

Contractor will make updates and upgrades available to Purchasing Entity at no additional costs when Contractor makes such updates and upgrades generally available to its users.

No update, upgrade or other charge to the Service may decrease the Service's functionality, adversely affect Purchasing Entity's use of or access to the Service, or increase the cost of the Service to the Purchasing Entity.

Contractor will notify the Purchasing Entity at least sixty (60) days in advance prior to any major update or upgrade.

13. **Security:** As requested by a Purchasing Entity, the Contractor shall disclose its non-proprietary system security plans (SSP) or security processes and technical limitations to the Purchasing Entity such that adequate protection and flexibility can be attained between the Purchasing Entity and the Contractor. For example: virus checking and port sniffing — the Purchasing Entity and the Contractor shall understand each other's roles and responsibilities.

14. **Non-disclosure and Separation of Duties:** The Contractor shall enforce separation of job duties, require commercially reasonable non-disclosure agreements, and limit staff knowledge of Purchasing Entity data to that which is absolutely necessary to perform job duties.

15. **Import and Export of Data:** The Purchasing Entity shall have the ability to import or export data in piecemeal or in entirety at its discretion without interference from the Contractor at any time during the term of Contractor's contract with the Purchasing Entity. This includes the ability for the Purchasing Entity to import or export data to/from other Contractors. Contractor shall specify if Purchasing Entity is required to provide its' own tools for this purpose, including the optional purchase of Contractors tools if Contractors applications are not able to provide this functionality directly.

16. **Responsibilities and Uptime Guarantee**: The Contractor shall be responsible for the acquisition and operation of all hardware, software and network support related to the services being provided. The technical and professional activities required for establishing, managing and maintaining the environments are the responsibilities of the Contractor. The system shall be available 24/7/365 (with agreed-upon maintenance downtime), and provide service to customers as defined in the SLA.
17. **Subcontractor Disclosure**: Contractor shall identify all of its strategic business partners related to services provided under this Master Agreement, including but not limited to all subcontractors or other entities or individuals who may be a party to a joint venture or similar agreement with the Contractor, and who shall be involved in any application development and/or operations.

18. **Business Continuity and Disaster Recovery:** The Contractor shall provide a business continuity and disaster recovery plan upon request and ensure that the Purchasing Entity's recovery time objective (RTO) of XXX hours/days is met. (XXX hour/days shall be provided to Contractor by the Purchasing Entity.) Contractor must work with the Purchasing Entity to perform an annual Disaster Recovery test and take action to correct any issues detected during the test in a time frame mutually agreed between the Contractor and the Purchasing Entity.

19. **Subscription Terms:** Contractor grants to a Purchasing Entity a license to: (i) access and use the Service for its business purposes; (ii) for IaaS, use underlying software as embodied or used in the Service; and (iii) view, copy, upload and download (where applicable), and use Contractor's documentation.

No Contractor terms, including standard click through license or website terms or use of privacy policy, shall apply to Purchasing Entities unless such terms are included in this Master Agreement via amendment.

Attachment B – Identification of Service Models Matrix

Offerors must complete the following form to identify the service models your firm offers under this RFP. You may provide a list of the different SaaS, IaaS, and/or PaaS services that you offer, including the Categorization of Risk that you have the ability to store and secure. This document is to provide purchasing entities and eligible users a quick snap shot of the cloud solutions your firm provides.

Service Model:	Low Risk Data	Moderate Risk Data	High Risk Data	Deployment Models Offered:
Saas	Varies by Manufacturer Offer	Varies by Manufacturer Offer	Varies by Manufacturer Offer	AODocs, CA Technologies, DocuSign, FireEye, Google, QTS, Salesforce, SAP, ServiceNow, Virtru, VMware
IaaS	Varies by Manufacturer Offer	Varies by Manufacturer Offer	Varies by Manufacturer Offer	FireEye, Google, QTS, Virtustream, VMware
PaaS	Varies by Manufacturer Offer	Varies by Manufacturer Offer	Varies by Manufacturer Offer	Google, QTS, Salesforce, SAP, ServiceNow, Virtustream

Carahsoft's solution providers each have different forms and procedures for providing solutions and services with varying levels of data management for each solution. Please see Carahsoft's Technical Response for additional information regarding risk data management of low, moderate, and high risk data.

STATE OF CALIFORNIA
PARTICIPATING ADDENDUM NUMBER 7-17-70-40-05
AMENDMENT 3

Cloud Solutions

Utah NASPO ValuePoint Master Agreement Number AR2472

Carahsoft Technology Corporation (Contractor)

The parties mutually agree to amend Participating Addendum 7-17-70-40-05 as follows:

1) **Section 7. PRICING** is revised to read as follows:

   A. Contractor's pricing is outlined in the Utah NASPO ValuePoint Master Agreement Number AR2472.

2) **Section 16. CONTRACT MANAGEMENT, subparagraph A** is revised to read as follows:

   A. The primary Contractor Contract Manager for this Participating Addendum shall be as follows:

Contractor	**Contract Manager**
Name:	Mariah Edwards
Phone:	(818) 449-3729
Email:	Mariah.Edwards@carahsoft.com
Address:	Carahsoft Technology Corporation Mariah Edwards 11493 Sunset Hills Road, Suite 100 Resto, VA 20190

3) **Section 18. EXECUTIVE ORDER N-6-22 – RUSSIA SANCTIONS** is hereby added to read as follows:

18. EXECUTIVE ORDER N-6-22 – RUSSIA SANCTIONS

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. "Economic Sanctions" refers to sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law. The EO directs state agencies to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine Contractor is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this Participating Addendum. The State shall provide Contractor advance written notice of such termination, allowing Contractor at least thirty (30) calendar days to provide a written response. Termination shall be at the sole discretion of the State.

All other terms and conditions of the Participating Addendum shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have executed this Amendment as of the date of execution by both parties below.

STATE OF CALIFORNIA
PARTICIPATING ADDENDUM NUMBER 7-17-70-40-05
AMENDMENT 2

Cloud Solutions
Utah NASPO ValuePoint Master Agreement Number AR2472
Carahsoft Technology Corp. (Contractor)

The parties mutually agree to amend Participating Addendum 7-17-70-40-05 as follows:

1) **Section 3. TERMS AND CONDITIONS/INCORPORATION OF DOCUMENTS** is updated to read as follows:

   A. Terms and conditions listed below are hereby incorporated by reference and made a part of this Participating Addendum as if attached herein and shall apply to the purchase of goods or services made under this Participating Addendum. Terms can be viewed on the DGS Procurement Division website (https://www.dgs.ca.gov/PD/Resources/Page-Content/Procurement-Division-Resources-List-Folder/Model-Contract-Language).

      i. General Provisions – Information Technology (GSPD-401IT) effective 9/5/2014.
      ii. Cloud Computing Software as a Service (SaaS) General Provisions effective 6/7/2019.
      iii. Cloud Computing Special Provisions for Software as a Service (SaaS) effective 03/15/18.
      iv. Cloud Computing Special Provisions for Infrastructure as a Service (IaaS) & Platform as a Service (PaaS), effective 05/11/16.

2) **Section 5. AVAILABLE PRODUCTS AND SERVICES** is updated to read as follows:

   A. The following service offerings from the Utah NASPO ValuePoint Master Agreement Number AR2472 are allowed under this Participating Addendum:

      1) Software as a Service (SaaS)
      2) Infrastructure as a Service (IaaS)
      3) Platform as a Service (PaaS)

3) **Section 6. RESTRICTIONS/DISALLOWED PRODUCTS AND SERVICES (STATE AGENCIES ONLY)** is updated to read as follows:

   A. The following product/service offerings are disallowed for state agencies under this Participating Addendum:

      1) Value Added Services, including Additional Value Added Services such as Maintenance Services; Deployment Services; Consulting/Advisory Services; Architectural Design Services; Statement of Work Services; Partner Services, and Training Deployment Services

B. Product and service categories that are available on mandatory California statewide contracts cannot be purchased from this Participating Addendum by State agencies without an exemption. Prior to issuing a purchase order, State agencies are responsible for obtaining an exemption from DGS, and/or California Department of Technology (CDT).

C. State agencies must first obtain approval by the California Department of Technology (CDT) to use this Participating Addendum for Infrastructure as a Service (IaaS) and/or Platform as a Service (PaaS) purchases in accordance with Technology Letter 17-06 (www.cdt.ca.gov/wp-content/uploads/2017/08/TL-17-06.pdf).

4) **Section 14. CONTRACT MANAGEMENT subpart A** is updated to read as follows:

A. The primary Contractor Contract Manager for this Participating Addendum shall be as follows:

Contractor:	Carahsoft Technology Corp.
Name:	Alex Cord
Phone:	703-871-8500
E-Mail:	Alex.Cord@Carahsoft.com
Address:	11493 Sunset Hills Road, Suite 100 Reston, VA 20190

5) **Section 9 FULFILLMENT PARTNERS/AUTHORIZED RESELLERS** is updated to read as follows:

A. Contractor may use State-approved Authorized Resellers under this Participating Addendum for sales and service functions as defined herein.

1) Orders may be placed with the Contractor or Authorized Resellers.

2) Authorized Resellers must accept purchase orders and accept payment from ordering agencies for products and services offered under this Participating Addendum.

3) Authorized Resellers are responsible for sending a copy of all purchase orders and invoices to the Contractor for compliance with quarterly usage reporting and administrative fee requirements.

4) All purchase documents to Authorized Resellers shall reference the Participating Addendum Number and Contractor Name.

B. Contractor shall be responsible for successful performance and compliance with all requirements in accordance with the terms and conditions under this Participating Addendum, even if work is performed by Authorized Resellers. All State policies, guidelines, and requirements shall apply to Authorized Resellers.

C. Contractor will be the sole point of contact with regard to Participating Addendum contractual matters, reporting, and administrative fee requirements.

D. Subject to the approval of the State, Authorized Resellers may be added on a quarterly basis during the term of the contract. Contractors shall notify the State of any deleted Authorized Resellers or changes to current Authorized Resellers' contact information in writing at any time during the contract term.

E. Contractor will be required to submit Authorized Reseller requests, in a format specified by the State, to the State Contract Administrator for approval.

F. State-approved Authorized Resellers will be posted on the State's Cal eProcure website.

All other terms and conditions of the Participating Addendum shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have executed this Amendment as of the date of execution by both parties below.

For invoicing purposes, each State Accounting office must have a copy of the reseller's Payee Data Record (Std. 204) in order to process payment of the invoice. Agencies should forward a copy of the Std. 204 to their respective accounting office. Without the Std. 204, payment may be unnecessarily delayed.

AUTHORIZED RESELLERS ARE RESPONSIBLE FOR SENDING A COPY OF ALL PURCHASE ORDERS TO QUEST MEDIA & SUPPLIES, INC. FOR COOPERATIVE AGREEMENTS (NASPO VALUEPOINT) QUARTERLY REPORTING REQUIREMENTS. When issuing an order to an authorized reseller listed on Cooperative Agreements, it is the agency's responsibility to ensure that the reseller holds a valid California Seller's Permit.

NOTE: Contractor shall be responsible for successful performance and compliance with all requirements in accordance with the terms and conditions under this Participating Addendum, even if work is performed by Authorized Resellers. All State policies, guidelines, and requirements shall apply to Authorized Resellers.

All other terms and conditions of the Participating Addendum shall remain the same.

IN WITNESS WHEREOF, the parties have executed this Participating Addendum Amendment as of the date of execution by both parties below.

Participating State:
State of California,
Department of General Services

By: _____

for Name: Angela Shell

Title: Deputy Director

Date: May 1, 2018

Contractor:
Carahsoft Technology Corp.

By: _____

STATE OF CALIFORNIA
PARTICIPATING ADDENDUM NO. 7-17-70-40-05

Cloud Solutions

Utah NASPO ValuePoint Master Agreement No. AR2472

Carahsoft Technology Corp.

This Participating Addendum Number 7-17-70-40-05 is entered into between the State of California, Department of General Services (hereafter referred to as "State" or "DGS") and Carahsoft Technology Corp. (hereafter referred to as "Contractor") under the lead State of Utah NASPO ValuePoint Master Agreement Number AR2472.

1. SCOPE

A. This Participating Addendum covers the purchase of Cloud Solutions under the Utah NASPO ValuePoint Master Agreement. The Utah NASPO ValuePoint Master Agreement Number AR2472 is hereby incorporated by reference. The cloud solution services are identified in Section 5 (Available Services).

B. This Participating Addendum is available for use by all State Agencies including the Executive, Judicial and Legislative branches, and will include all California political subdivisions/local governments. A subdivision/local government is defined as any city, county, city and county, district, or other local governmental body or corporation, including the California State Universities (CSU) and University of California (UC) systems, K-12 schools and community colleges empowered to expend public funds.

C. Each political subdivision/local government is to make its own determination whether this Participating Addendum and the Utah NASPO ValuePoint Master Agreement are consistent with its procurement policies and regulations.

2. TERM

A. The term of this Participating Addendum shall begin upon signature approval by the State and will end September 15, 2026, or upon termination by the State, whichever occurs first.

B. Lead State amendments to extend the Master Price Agreement term date are not automatically incorporated into this Participating Addendum. Extension(s) to the term of this Participating Addendum will be through a written amendment upon mutual agreement between the State and the Contractor.

3. TERMS AND CONDITIONS/INCORPORATION OF DOCUMENTS

A. Terms and conditions listed below are hereby incorporated by reference and made a part of this Participating Addendum as if attached herein and shall apply to the purchase of services made under this Participating Addendum.

1) **General Provisions – Information Technology (GSPD-401IT),** effective 9/5/2014. The twelve (12) page document can be viewed at: http://www.documents.dgs.ca.gov/pd/poliproc/GSPD401IT14_0905.pdf. Exception: Article 11 of the General Provisions – Information Technology, is superseded by Section 4 (Order of Precedence) below.

2) **Cloud Computing Special Provisions for Software as a Service (SaaS),** effective 9/3/14. The five (5) page document can be viewed at: http://www.documents.dgs.ca.gov/pd/poliproc/CLOUDCOMPUTINGSERVICESSPECIALPROVISIONS_14_0903.docx

4. ORDER OF PRECEDENCE

In the event of any inconsistency between the articles, attachments, or provisions which constitute this agreement, the following descending order of precedence shall apply:

A. California Participating Addendum Number 7-17-70-40-05
B. Utah NASPO ValuePoint Master Agreement Number AR2472
C. Utah Solicitation CH16012 including all Addendums
D. Contractor's response to Utah's Solicitation

5. AVAILABLE SERVICES

The following service offering from the Utah NASPO ValuePoint Master Agreement Number AR2472 are allowed under this Participating Addendum:

Software as a Service (SaaS)

6. RESTRICTIONS/DISALLOWED SERVICES – These restrictions are not applicable to political subdivisions/local governments.

A. The following service offerings are prohibited under this Participating Addendum:

1. Infrastructure as a Service (IaaS)
2. Platform as a Service (PaaS)
3. Value Added Services, including Additional Value Added Services such as Maintenance Services; Deployment Services; Consulting/Advisory Services; Architectural Design Services; Statement of Work Services; Partner Services, and Training Deployment Services

B. Product and service categories that are available on mandatory California statewide contracts cannot be purchased from this Participating Addendum by State Departments without an exemption. Prior to issuing a purchase order, State Departments are responsible for obtaining an exemption from DGS, and/or California Department of Technology (CDT).

7. PRICING

A. Contractor shall submit a Price Schedule identifying all services offered under this Participating Addendum for the State's approval.

B. The Price Schedule shall include the following:

1) Service Category (SaaS) Description
2) List Price
3) Discount off List Price
4) Contract Price

C. Contractor shall obtain prior approval from Utah NASPO ValuePoint Contract Administrator, and submit a written notice of price increases/decreases and a revised Price List for the State's approval.

D. State-approved Price List will be posted on the State's Cal eProcure website.

8. SERVICE ADDITIONS/DELETIONS

A. Contractor may add or delete services introduced or removed from the market by the manufacturer under the following conditions:

1) Service is within existing awarded categories under the NASPO ValuePoint Master Price Agreement;
2) Contractor has obtained prior approval from the Utah NASPO ValuePoint Contract Administrator; and
3) Contractor receives written approval from the California State Contract Administrator.

B. Contractor shall submit a written notice of service (s) additions/deletions and a revised Price Schedule for the State's approval.

9. FULFILLMENT PARTNERS/AUTHORIZED RESELLERS

Authorized Resellers are available for this Participating Addendum:

ISSUE PURCHASE ORDER TO

Orders may be placed with Carahsoft Technology Corp. or with an Authorized Reseller as indicated below:

Orders placed with Carahsoft Technology Corp.

SUBMIT ORDERS TO:

Carahsoft Technology Corp.
1860 Michael Faraday Drive, Suite 100

Contact: Karina Woods
Phone: 703/871-8500
Fax No.: 703/871-8505
E-mail: OM@carahsoft.com

Orders placed with an Authorized Reseller must be addressed as shown below, and payment must be made payable to the Authorized Reseller identified on the invoice as shown below:

Fax No.: 916/200-0353
E-mail: bear.williams@tabordasolutions.com

For invoicing purposes, each State Accounting office must have a copy of the reseller's Payee Data Record (Std. 204) in order to process payment of the invoice. Agencies should forward a copy of the Std. 204 to their respective accounting office. Without the Std. 204, payment may be unnecessarily delayed.

AUTHORIZED RESELLERS ARE RESPONSIBLE FOR SENDING A COPY OF ALL PURCHASE ORDERS TO CARAHSOFT TECHNOLOGY CORP. FOR COOPERATIVE AGREEMENTS (NASPO VALUEPOINT) QUARTERLY REPORTING REQUIREMENTS.

When issuing an order to an authorized reseller listed on Cooperative Agreements, it is the agency's responsibility to ensure that the reseller holds a valid California Seller's Permit.

NOTE: Contractor shall be responsible for successful performance and compliance with all requirements in accordance with the terms and conditions under this Participating Addendum, even if work is performed by Servicing Subcontractors. All State policies, guidelines, and requirements shall apply to Authorized Resellers.

10. ORDERING AGENCY RESPONSIBILITIES

A. State department and political subdivision/local government use of this Participating Addendum is optional.

B. State departments and political subdivision/local governments must follow the ordering procedures outlined within the User Instructions guide, administered by the State Contract Administrator, to execute orders against this Participating Addendum.

11. INVOICING AND PAYMENT

A. Payment terms for this Participating Addendum are net forty-five (45) days. Payment will be made in accordance with IT General Provisions Paragraph 30 (Required Payment Date).

B. Invoices shall be sent to the address identified in the Ordering Agency's purchase order. The State Participating Addendum Number and Ordering Agency Purchase Order Number shall appear on each invoice for all purchases placed under this Participating Addendum.

C. Contractor will accept the State of California credit card (CAL-Card) for payment of invoices.

12. USAGE REPORTING

A. Contractor shall submit usage reports on a quarterly basis to the State Contract Administrator for all California entity purchases using the report template attached hereto as Attachment A. The report is due even when there is no activity.

B. The report shall be an Excel spreadsheet transmitted electronically to the DGS mailbox at PDCooperatives@dgs.ca.gov.

C. Any report that does not follow the required format or that excludes information will be deemed incomplete. Contractor will be responsible for submitting corrected reports within five business days of the date of written notification from the State.

D. Tax must not be included in the report, even if it is on the purchase order.

E. Reports are due for each quarter as follows:

Reporting Period	Due Date
JUL 1 to SEP 30	OCT 31
OCT 1 to DEC 31	JAN 31
JAN 1 to MAR 31	APR 30
APR 1 to JUN 30	JUL 31

F. Failure to meet reporting requirements and submit the reports on a timely basis shall constitute grounds for suspension of this contract.

G. Amendments for term extensions may be approved only if all due reports have been submitted to the State.

13. ADMINISTRATIVE FEE

A. Contractor shall submit a check, payable to the State of California, remitted to the Cooperative Agreement Unit for the calculated amount equal to one percent (0.01) of the sales for the quarterly period.

B. Contractor must include the Participating Addendum Number on the check. Those checks submitted to the State without the Participating Addendum Number will be returned to Contractor for additional identifying information.

C. Administrative fee checks shall be submitted to:

State of California
Department of General Services, Procurement Division
Attention: Cooperative Agreement Program
707 3rd Street, 2nd Floor, MS 2-202
West Sacramento, CA 95605

D. The administrative fee shall not be included as an adjustment to Contractor's NASPO ValuePoint Master Agreement pricing.

E. The administrative fee shall not be invoiced or charged to the ordering agency.

F. Payment of the administrative fee is due irrespective of payment status on orders or service contracts from a purchasing entity.

G. Administrative fee checks are due for each quarter as follows:

JUL 1 to SEP 30	OCT 31
OCT 1 to DEC 31	JAN 31
JAN 1 to MAR 31	APR 30
APR 1 to JUN 30	JUL 31

H. Failure to meet administrative fee requirements and submit fees on a timely basis shall constitute grounds for suspension of this contract.

14. CONTRACT MANAGEMENT

A. The primary Contractor Contract Manager for this Participating Addendum shall be as follows:

Contractor:	Carahsoft Technology Corp.
Name:	Jack Dixon
Phone:	703-230-7545
Fax:	703-871-8505
E-Mail:	naspo@carahsoft.com
Address:	1860 Michael Faraday Drive, Ste 100 Reston, VA 20190

B. The State Contract Administrator for this Participating Addendum shall be as follows:

Name:	Yolanda Tutt
Phone:	916.375.4408
Fax:	916.375.4663
E-Mail:	yolanda.tutt@dgs.ca.gov
Address:	State of California Department of General Services Procurement Division 707 Third Street, 2nd Floor, MS 2-202 West Sacramento, CA 95605

C. Should the contact information for either party change, the party will provide written notice with updated information no later than ten business days after the change.

15. Termination of Agreement

The State may terminate this Participating Addendum at any time upon 30 days prior written notice to the Contractor. Upon termination or other expiration of this Participating Addendum, each party will assist the other party in orderly termination of the Participating Addendum and the transfer of all assets, tangible and intangible, as may facilitate the orderly, nondisrupted business continuation of each party. This provision shall not relieve the Contractor of the obligation to perform under any purchase order or other similar ordering document executed prior to the termination becoming effective.

16. Amendment

No amendment or variation of the terms of this Participating Addendum shall be valid unless made in writing, signed by the parties and approved as required. No oral understanding or agreement not incorporated in the Participating Addendum is binding on any of the parties.

17. Agreement

A. This Participating Addendum and the Master Agreement together with its exhibits and/or amendments, set forth the entire agreement between the parties with respect to the subject matter of all previous communications, representations or agreements, whether oral or written, with respect to the subject matter hereof. Terms and conditions inconsistent with, contrary or in addition to the terms and conditions of this Participating Addendum and the Master Agreement, together with its exhibits and/or amendments, shall not be added to or incorporated into this Participating Addendum or the Master Agreement and its exhibits and/or amendments, by any subsequent purchase order or otherwise, and any such attempts to add or incorporate such terms and conditions are hereby rejected. The terms and conditions of this Participating Addendum and the Master Agreement and its exhibits and/or amendments shall prevail and govern in the case of any such inconsistent or additional terms.

B. By signing below Contractor agrees to offer the same services as on the Utah NASPO ValuePoint Master Agreement Number AR2472, at prices equal to or lower than the prices on that contract.

C. IN WITNESS WHEREOF, the parties have executed this Participating Addendum as of the date of execution by both parties below.

City Council Meeting **H. 10.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve Resolution No. 8613 to authorize a one-year Extension of Time to the expiration date of Conditional Use Permit No. 1136 with associated entitlements to construct a church facility and school that includes nine buildings totaling 102,574 square-feet of floor area and related site improvements on 19.46 gross acres of vacant land. The project site is located on the north side of Lugonia Avenue, and approximately 300 feet west of Dearborn Street, in the Residential Estate (R-E) District (APNs: 0168-161-02-0000 and 0168-161-03-0000) (Development Services Director Desatnik)

MOTION(S):

If the City Council determines that staff's recommendation is appropriate, the following motion is provided:

I move to adopt Resolution No. 8613 to approve a one-year extension of time for Conditional Use Permit No. 1136 and associated entitlements.

RECOMMENDATION:

Staff recommends that the City Council adopt Resolution No. 8613 to approve a one-year Extension of Time for Conditional Use Permit No. 1136 and Lot Line Adjustment No. 659 for the construction of a proposed religious facility, elementary school, and related site improvements located on the north side of Lugonia Avenue, approximately 300 feet west of Dearborn Street, in the Residential Estate (R-E) District (APNs: 0168-161-02-0000 and 0168-161-03-0000).

DISCUSSION:

The approved project includes the construction of a new church and school facility with nine buildings totaling approximately 102,547 square-feet and related site improvements: an administration/preschool building, sanctuary building, parish hall, five classroom buildings (preschool through 8th grades), maintenance building, parking lots, and recreation and athletic facilities (basketball courts, playing fields, etc.). The entitlement also includes Lot Line Adjustment No. 659 to merge two parcels into one single 19.46-acre parcel for development purposes. The project site is located within the Residential Estate (R-E) District. See Attachment A (Location Map), Attachment B (Project Plans), and Attachment C (Planning Commission Staff Report).

The Redlands Planning Commission approved Conditional Use Permit No. 1136 and Lot Line Adjustment No. 659 on October 5, 2022, and the Conditions of Approval were included in Resolution No. 1590 (Attachment D). The approval of the subject entitlements will expire on October 5, 2024, unless a grading or building permit has been issued to commence construction of the project, or an extension of time is granted. The applicant currently has two building permits under review in Plan Check, but permits are not expected to be issued and construction is not expected to begin prior to October 5, 2024.

Approval of the time extension will make the new expiration date for this project October 5, 2025. No changes to the project are proposed, and the original Conditions of Approval remain applicable for the project. The applicant has indicated the approval of a one-year time extension will provide additional time to continue processing the building and grading plans currently in the plan check process.

In accordance with RMC Section 18.192.090, the City Council may grant a one-year extension of time, and not to exceed a total number of three (3) extensions. This is the applicant’s first request for a time extension.

ALTERNATIVES:

The City Council may deny the request, which would result in the expiration of Conditional Use Permit No. 1136 and associated entitlements. This would require the applicant to resubmit an entirely new development application.

STRATEGIC PLAN:

Not applicable.

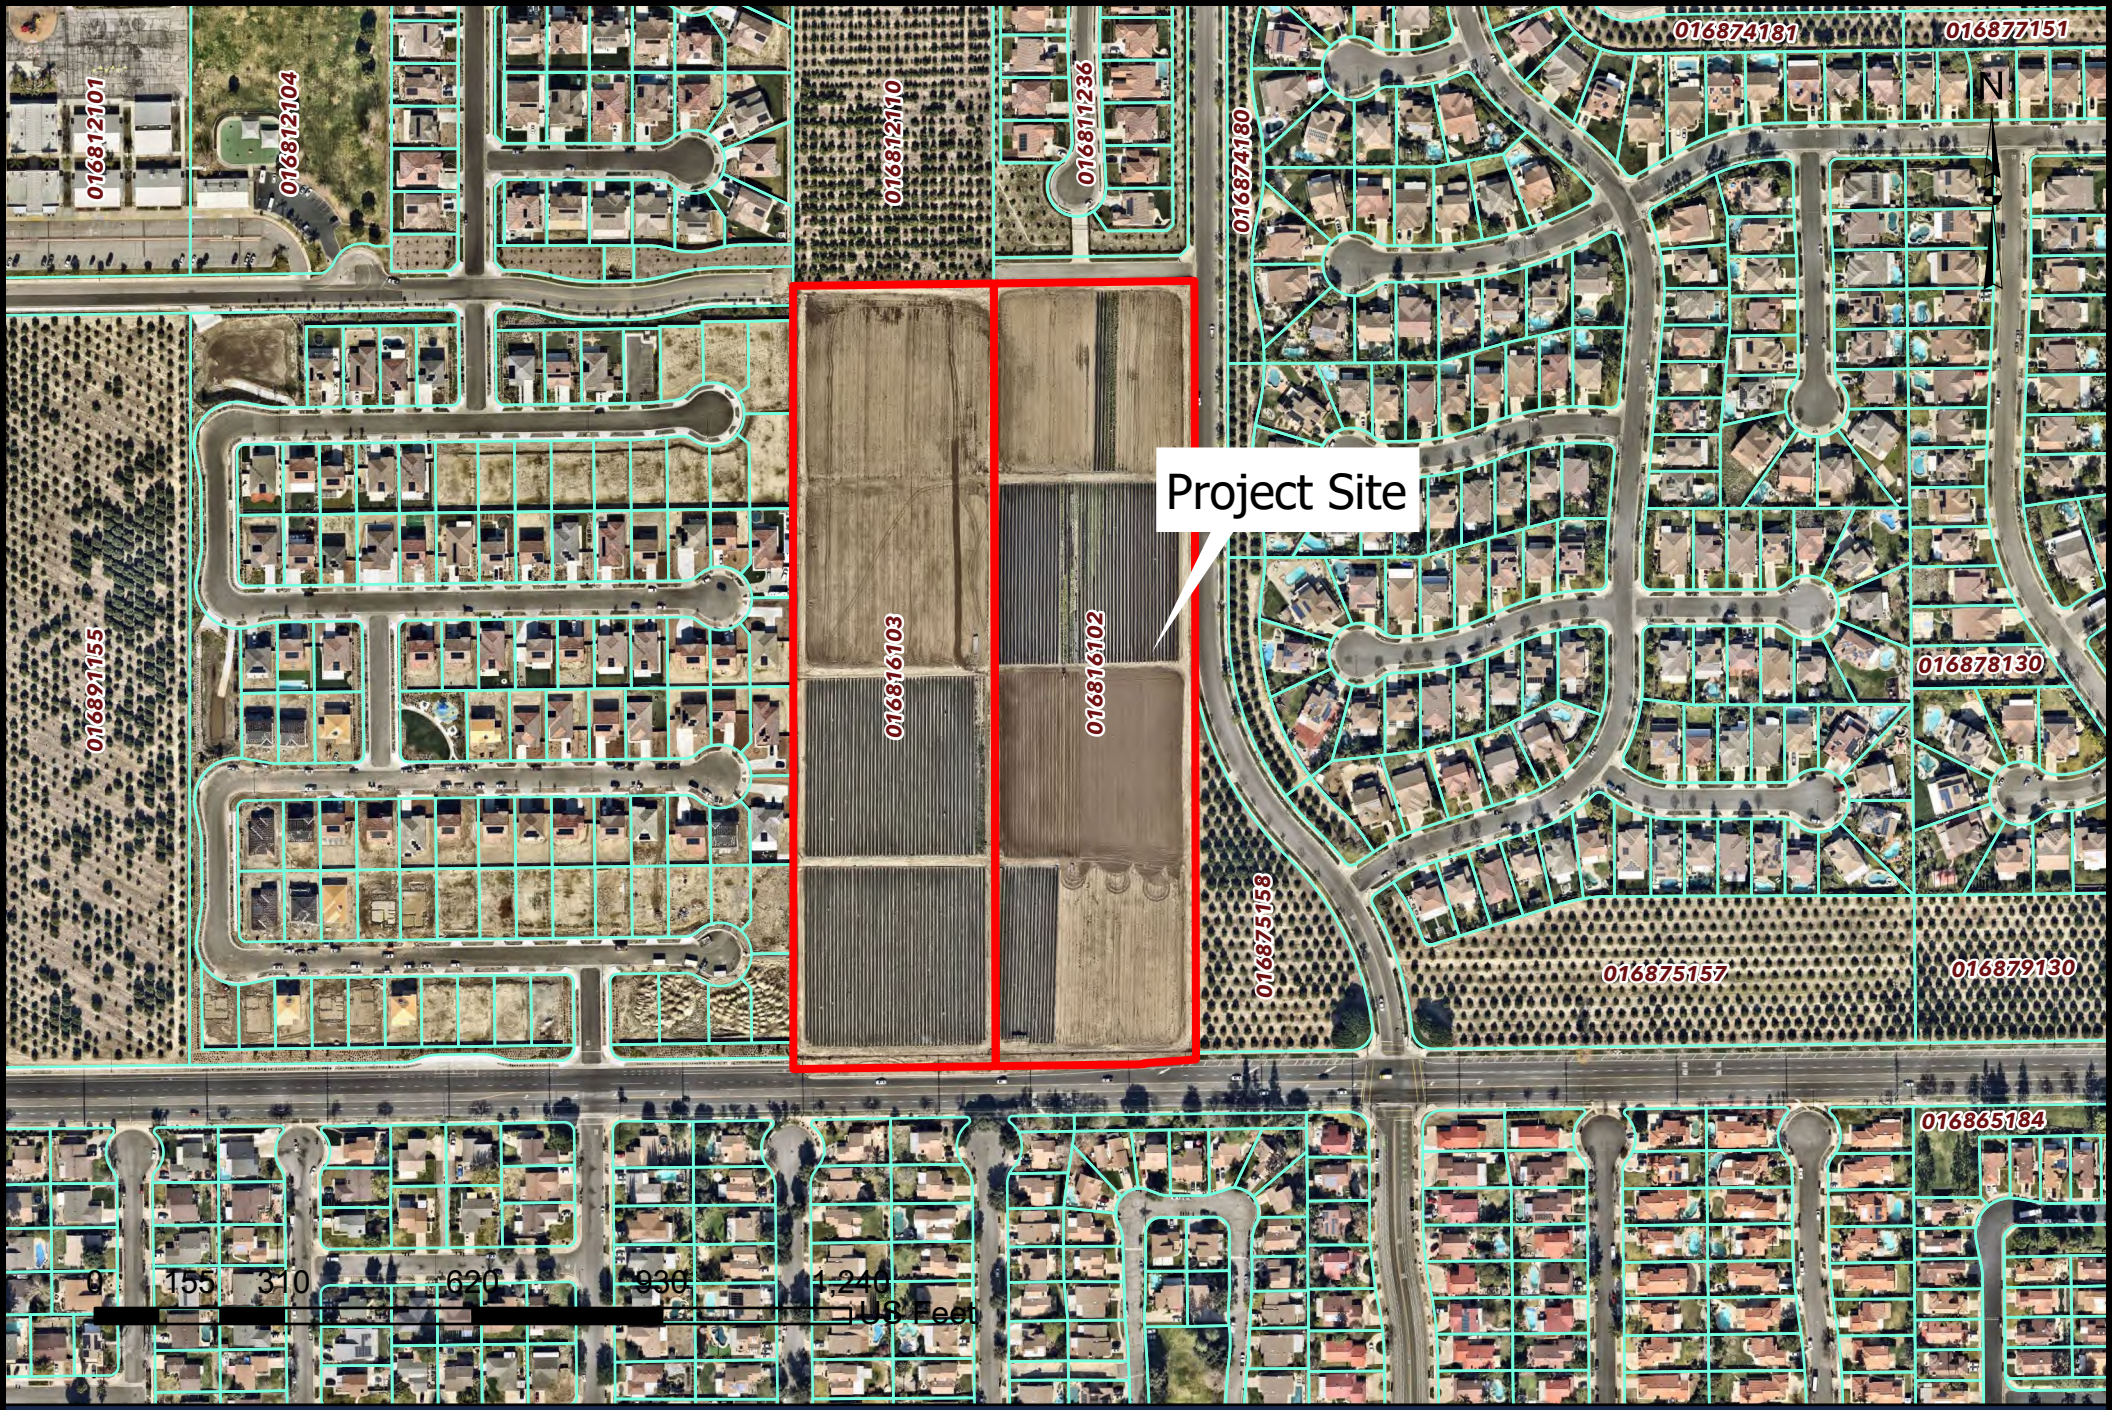
SUBMITTED BY:
Brian Desatnik, Development Services Director

RECOMMENDED BY:
Charles M. Duggan Jr., City Manager

REVIEWED BY:
Yvette M. Abich Garcia, City Attorney
Christopher Boatman, Assistant City Manager
Danielle Garcia, Management Services/Finance Director

PREPARED BY:
Jazmin Serrato, Assistant Planner

Fiscal Impact



Fiscal Year:	23-24
Revenue Generating:	No
Appropriation Required Y/N:	No

Discussion:

No fiscal impact. The applicant paid the applicable application filing fee.

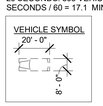
TRAFFIC FLOW

VEHICLE QUEUING / STACKING - STUDENT PICKUP & DROP OFF



PARENTS OR GUARDIANS ARRIVING IN VEHICLE TO DROP-OFF OR PICKUP STUDENT(S) WILL ENTER DRIVE ENTRY AT SOUTH DEARBORN STREET MAKING A LEFTHAND TURN AND PROCEED THROUGH DRIVE AISLE AS SHOWN ON SITE PLAN. VEHICLE WILL PULL UP TO THE FRONT OF THE DROP-OFF / PICKUP LOADING ZONE OR STACK BEHIND OTHER ARRIVED VEHICLES.

VEHICLE WILL DEPART THE DROP-OFF /PICKUP LOADING ZONE, AND HEAD TO DRIVE ENTRY A TO EXIT SITE EITHER AT RIGHT ONLY LUGONIA OR MAKE EITHER A RIGHTHAND OR LEFTHAND TURN TO GET BACK ON DEARBORN STREET.

TOTAL CARS IN QUE ASSUMING SCHOOL AT FULL CAPACITY 20 STUDENTS/CLASSROOM X 23 CLASSROOMS = 460 STUDENTS. ASSUME 33% OF STUDENTS HAVE SIBLING OR CARPOOL AND ZERO ABSENCES = 460 X . 67 = 308 VEHICLES.

6 CARS CAN DROP A STUDENT OFF AT ONCE. EACH DROP REQUIRES 20 SECONDS. 308 VEHICLES / 6 = 51.3 DROPS X 20 SECONDS = 1,026 SECONDS / 60 = 17.1 MIN DROP OFF PER VEHICLE

VEHICLE SYMBOL

VEHICLE QUEUING WILL START ONCE CLASSROOM BUILDINGS ARE COMPLETED IN PHASE II AND QUEUING WILL BE AT ITS MAXIMUM WHEN CLASSROOMS IN PHASE IV ARE COMPLETED AND OCCUPIED TO HOUSE STUDENTS DURING THE SCHOOL YEAR.

PARENTS OR GUARDIANS ARRIVING IN VEHICLE TO DROP-OFF OR PICKUP STUDENT(S) WILL ENTER DRIVE ENTRY A FROM DEARBORN STREET AND PROCEED THROUGH DRIVE AISLE AS SHOWN ON SITE PLAN. VEHICLE WILL PULL UP TO THE FRONT OF THE DROP-OFF/PICKUP LOADING ZONE OR STACK BEHIND OTHER ARRIVED VEHICLES.

VEHICLE WILL DEPART THE DROP-OFF/PICKUP LOADING ZONE, AND HEAD TO MAIN ENTRY DRIVEWAY AT LUGONIA AVENUE TO EXIT SITE MAKING A RIGHTHAND TURN. DRIVEWAY B WILL BE CLOSED DURING DROP-OFF AND PICKUP TIMES.

A TOTAL OF 2,494 LINEAL FEET OF QUEUING LENGTH IS SHOWN COMPLYING WITH THE CITY OF REDLANDS ENGINEERING DEPARTMENT REQUIREMENT OF 1,200 LINEAL FEET MINIMUM:

A. ON-SITE QUEUING LENGTH IS APPROXIMATELY 694 LINEAL FEET (ABOUT 35 VEHICLES AT 20' ON CENTER)

B. OFF-SITE QUEUING LENGTH IS APPROXIMATELY 1,800 LINEAL FEET(ABOUT 64 VEHICLES AT 28' ON CENTER)

TOTAL VEHICLES = 99 VEHICLES

REQUEST FOR PLANNING COMMISSION ACTION

Planning Commission **Agenda Item NO. 5. C.**

Meeting Date: 10/11/2022

APPLICANT:

HOLY NAME OF JESUS CATHOLIC COMMUNITY
(PROJECT PLANNER: SEAN REILLY, PRINCIPAL PLANNER)

1. Consideration of an **Initial Study** and **Mitigated Negative Declaration** determination for the proposed project in accordance California Environmental Quality Act (CEQA) Guidelines.

2. **Lot Line Adjustment (Lot Merger) No. 659** – A request to merge two parcels, each approximately into one single 19.46-acre parcel for the construction of a church and school facility, which includes nine buildings. The project is located on the north side of Lugonia Avenue, and approximately 300 feet west of Dearborn Street, in the Residential Estate (R-E) District (APNs: 0168-161-02-0000 and 0168-161-03-0000).

3. **PUBLIC HEARING** to consider **Conditional Use Permit No. 1136** – A proposal to construct a church and school facility which includes nine buildings totaling 102,574 square feet of building area on 19.46 gross acres. Proposed buildings include a sanctuary building, a parish hall, an administration/preschool building, five classroom buildings and a maintenance building. The project is located on the north side of Lugonia Avenue, and approximately 300 feet west of Dearborn Street, in the Residential Estate (R-E) District (APNs: 0168-161-02-0000 and 0168-161-03-0000).

SYNOPSIS

1. General Plan Designation:	Very Low Density Residential
2. Existing Zoning:	Residential Estate (R-E)
3. Surrounding Zoning:	North: R-E East: R-E South: Single-Family Residential (R-1) West: R-E – Planned Residential Development
4. Existing Land Use:	The site is currently undeveloped agricultural property.
5. Surrounding Land Use:	North: Single-family residential neighborhoods and one lot with citrus grove East: Single-family residential neighborhoods South: Single-family residential neighborhoods West: Single-family residential neighborhoods
6. Area / Topography:	The vacant site is approximately 19.46 gross acres, currently occupied by an existing agricultural operation with no structures, and slopes downward slightly (2.5%) toward the northwest.
7. Environmental Determination:	An Initial Study was prepared, and a Mitigated Negative Declaration is recommended in accordance with the California Environmental Quality Act.

8. Socio-Economic Cost / Benefit Study:	The project is exempt from Measure U and no Socio-Economic Cost/Benefit Study is required.	
9. Planning Commission Submittal Dates:	(A) Date Submitted: (B) Date Accepted As Complete: (C) Planning Commission Meeting:	August 8,2019 June 9, 2022 September 13, 2022

PROPOSAL

The applicant is proposing to construct a new church and school facility with nine buildings totaling approximately 102,547 square feet. The proposed project includes an administration/preschool building, sanctuary building, parish hall, five classroom buildings (preschool through 8th grades), maintenance building, parking lots, recreation/athletic facilities (basketballl courts, playing fields, etc.). The project is located on the north of East Lugonia Avenue and approximately 300 feet west of Dearborn Street (see Attachment A – Location Map and Aerial Photo). Parking is provided on the southern portion of the site adjacent to Lugonia Avenue and on the east side of the site adjacent to Dearborn Street. A Lot Line Adjustment (Lot Merger) is included to combine two parcels into one to accommodate the future construction.

A complete set of project development plans are provided including Site Plan (Attachment B), Floor Plans (Attachment C), Architectural Elevations (Attachment D-1) and Color Renderings (Attachment D-2), Phasing Plan (Attachment E), and Landscape Plan (Attachment F). Additional project details and phasing are included in the table below.

Table 1: Proposed Project Features and Phases

Project Elements	*Purpose / Land Use*	*Building Area (square-feet)*
Phase 1		
Parish Hall Building No. 2	Indoor gathering assembly classrooms	33,925
Eastern Parking Area	340 Vehicle Spaces	
Stormwater Basin	Water Recharge	
Pavilion	Outdoor Gatherings	
Lugonia Avenue	Road widening and median	
Phase 2		
Admin/Preschool – Building 3	Admin/Preschool	9,222
Classroom – Building 4A	School	6,834
Classroom – Building 5A	School	7,425
Maintenance Building	Storage	840
Playground Area	Outdoor Gatherings/Play	
Basketball Courts	Outdoor Gatherings/Play	
Student Gathering Area	Outdoor Gathering Space	
Phase 3		
Sanctuary – Building No. 1	Church/Religious	26,282
Track and Play Field	Sporting Activities	
Southern Parking Area	180 Vehicle Spaces	
Meditation Garden	Outdoor Gathering Space	
Phase 4		
Classroom – Building 4B	School	6,834
Classroom – Building 5B	School	7,425
Classroom – Building 6	School	3,060

	Total Building Area	**102,547**

BACKGROUND

Aerial photos indicate that this site has been used for agricultural since at least 1938. Photos from 1938 to 2005 show what appears to be citrus growing on the site and in 2009, portions of the citrus have been removed from the eastern portion of the project site. County Assessors records show that this property was owned by the Hinckley family since at least 1976. The church purchased, the site in 2010, and the site has continued to be used for agriculture and is currently used for growing field crops. In October 2019, the property owner submitted a development application for the Holy Name of Jesus Church and School.

ANALYSIS

A) General Plan

The project site is currently designated as “Very Low Density Residential” in the 2035 Redlands General Plan (see Attachment G). The intent of this land use category is to encourage limited, low-density residential development that preserves hillsides, limits grading and vegetation removal, and allows beneficial agricultural use. The proposed project will be consistent with the General Plan policies listed below.

2-P.25: Encourage a variety of uses and activities, such as a mix of commercial, office, restaurant, specialty retail, and residential uses, and civic, cultural, and entertainment activities to attract visitors and residents from across the community by creating a lively, interesting social environment.

4-A.50: Ensure that opportunities are available for community-oriented services.

4-P.7: Promote a diversity of compatible land uses throughout the city, providing opportunities for the development of a range of businesses, services, residential types, and public facilities to meet the needs of the community.

5-A.20: Provide pedestrian routes between offices, neighborhoods, Downtown, and Transit Villages. Plan for direct connections from the interiors of residential tracts to neighboring parks, schools, retail, and other services using sidewalks, trails, and paseos.

B) Zoning

The project site is within the R-E, Residential Estate zone (see Attachment H-1), and is consistent with the General Plan designation. RMC Section 18.192.020 lists both private educational facilities and religious places of worship, and are allowable subject to approval of a Conditional Use Permit. The proposed project is a new religious facility with an adjoining educational facility (pre-school through eighth grade levels). As such, the proposed use is allowable subject to approval of a Conditional Use Permit.

C) Redlands Municipal Airport Land Use Compatibility Plan

The City of Redlands has adopted an Airport Land Use Compatibility Plan (ALUCP) which is intended to address land use compatibility between the Redlands Municipal Airport and

surrounding properties. The ALUCP includes five Compatibility Zones (A, B1, B2, C, and D) each with differing criteria and requirements for land development. The Compatibility Zones are based upon airport traffic patterns, land uses, and distinct geographic features, among other things. Compatibility Zone A is the most restrictive in terms of allowable land uses, criteria, and conditions, while Compatibility Zone D is the least restrictive.

The project site is located approximately 4,000 feet (or 0.75 mile) south of the airport runway, which places approximately half of the project site (northern portion) within Airport Zone D, Other Airport Environs (see Attachment H-2), defined as "other areas within the airport vicinity which are overflown less frequently or at a higher altitude by aircraft arriving and departing the airport." Zone D has negligible risk to persons and property on the ground, but there is a potential for annoyance from overflights. The average ambient noise level on the project site is approximately 55 decibels, which is entirely compatible with the noise compatibility policies in the General Plan as well as in the ALUCP. Within Zone D, there are no restrictions on land uses, except for those that are “hazards to flight” (e.g., physical, visual, and electronic forms of interference with the safety of aircraft flight) of which there will be none from the proposed project. There are no limits placed on building occupancies or the numbers of persons per acre within Zone D, and there are no requirements for open land within Zone D. There are no potentially significant environmental impacts as discussed in the Initial Study (see Attachment K-1).

The proposed project includes some building elements that exceed 60 feet tall. However, these building elements are all located on the southern portion of the project site, and are clearly outside any designated airport compatibility zones. Due to portions of the project being located within Compatibility Zone D, there is a Condition of Approval (No. 33) that requires the applicant to notify the Federal Aviation Administration's Obstruction Evaluation Division for review and approval of structures (e.g., buildings, tall light poles or field lighting, etc.), prior to permit issuance for above-ground structures.

D) Conditional Use Permit

The proposed project includes religious and school buildings composed of an administration/preschool building, sanctuary building, parish hall building, five classroom buildings for preschool through 8th grade, and a maintenance building as well as associated outdoor amenities such as play areas and sports courts.

Operational Characteristics: During the week, the site would primarily operate as a school, though smaller morning masses would take place during the week in the sanctuary and church offices within the parish hall would be in operation during the day. Weekday evenings, religious education classes and small group classes would be held in the parish hall. Weekend operations would primarily be church based with several masses planned throughout the day on Sunday. Saturdays, one mass will be held in the afternoon in the sanctuary. The sanctuary may also be used for weddings and Quinceañeras during the day. Weekend and evening uses of the parish hall include receptions, fundraisers, religious education classes and group meetings when mass within the sanctuary is not being held. Proposed operational characteristics are summarized below.

School Facility:

- Approximately five staff would serve the preschool.
- Approximately 24 staff would serve 1st through 8th grade.
- The first phase of the school would serve approximately 300 students.

- At complete buildout, the school would serve a maximum of 530 students.
- All students would be permitted on campus starting at 7:00 AM for breakfast. Classes will be held Monday through Friday, beginning at approximately 7:30 AM and ending at 3:15 PM.
- After-school care will be available and provided until 5:30 PM.

Church Facility:

- Several Masses will be held on Sundays (e.g., 7:00 AM, 9:00 AM, 11:30 AM, 1:30 PM and 5:00 PM), each approximately one hour duration.
- Mass on Saturday (e.g., 5:00 PM).
- Additional masses on Mondays through Fridays (e.g., 8:00 AM until 10:00 AM). Attendance would usually be approximately 60 to 70 people for weekday mass
- Additional services will be held during the week on occasion, such as funerals and prayer services. Attendance is expected to be under 100 people for these services.
- On Saturdays, weddings and Quinceañeras may also be held (e.g., beginning at 10:00 AM and 1:00 PM), each for approximately one hour duration. Typical attendance is expected to be less than 100 people for these services.
- Several days during the year, services inside the church may go later than 10:00 PM (such as Holy Saturday, Midnight mass, and the Feast of Our Lady of Guadalupe, among others). These services would be held indoors and typically at a capacity of 60-70% of the church building.
- No other events will take place on the school campus or parish hall on Sundays when mass is being held in the church.

Parish Hall and Offices:

- Monday through Friday, church offices will be open from 8:00 AM to 5:00 PM, with 10 to 15 staff members.
- The parish hall will be used mostly on evenings and weekends when mass is not being held in the sanctuary. The parish hall will be used during weeknights for small group meetings (between 30 and 50 people).
- Weekend and evening uses of the parish hall include receptions, fundraisers, religious education classes, and group meetings.

Outdoor events:

- Outside events similar to those of most public schools are expected, such as fiestas, carnivals, outdoor services and mass, and sporting events. Most of these will take place on the weekends and will end before 10:00 PM.

Development Standards: The proposed project will be consistent with the applicable development standards for the Residential Estate (R-E) district. Several Development Standards are discussed in the report below. For a complete list of applicable development standards, see Attachment I - Table of Development Standards.

Building Heights: In the R-E zone, the maximum building height limit is 35 feet. All proposed buildings will have a maximum building height of less than 35 feet except for the sanctuary building. Most of the sanctuary building is approximately 35 feet tall (however, decorative elements such as scalloped parapets on all four sides of the building will project above 35 feet). The building also features a bell tower topped with a cross that will extend up to 66 feet tall. RMC Section 18.152.030 includes exceptions for churches, steeples, and other architectural elements that may be allowed above the maximum height for the zone. Based on this exception, the height of the sanctuary and all other buildings will comply and can be approved.

Building Setbacks: All buildings will meet or exceed the setback requirements for the Residential Estate (R-E) District, including front yard (25 ft.), rear yard (25 ft.), side yards (10 ft.), and

parking lot distance from roadways (25 ft.). The project will provide all required setbacks as summarized in the table below. All buildings and parking areas are clearly outside the setbacks.

Table 2. Summary of Building Setbacks

Sanctuary	216’ from Lugonia Avenue
Parish Hall	172’ from Dearborn Street
School Administration Building	173 feet from Dearborn Street, 364’ from Pennsylvania Avenue
Storage Building	330’ from Pennsylvania, 198’ from the western property line
Classroom 5B	20’ side yard setback from the western side of the project

Parking: The sanctuary assembly area is the facility on-site that generates the most attendance on the weekend and requires the most parking. Based on the applicant’s stated operational characteristics, mass in the sanctuary and large events in the parish hall would not coincide. Use of the parish hall during mass on Sunday would be ancillary, meaning, attendees of activities at the parish hall on a Sunday would be parishioners already at the site for church services and therefore the parking to facilitate the full capacity of both, the sanctuary and the parish hall is not necessary. The calculation for parking onsite is based on the use that generates the highest need for parking (the sanctuary in this case). Churches require a parking ratio of 1 parking space for every three fixed seats. The sanctuary building has 1,454 fixed seats which would require a total of 485 parking spaces. As designed, the site provides 520 parking spaces, exceeding this requirement. Thirteen of these stalls are ADA-accessible spaces, three of which are designed as van-accessible spaces. To ensure onsite parking is available, Condition of Approval No. 14 has been added, requiring that no events are to be held in the parish hall during scheduled mass times at the sanctuary. As designed, the project will comply with the parking requirements of the Municipal Code.

Site Access: The project is located near the northwest corner of N. Dearborn Street and E. Lugonia Avenue (300 feet to the west). The project includes three driveways, one on Lugonia Avenue (south side of project site) and two on Dearborn Street (east side of project site).

- The main access to the project site is located on the south side from Lugonia Avenue. The vehicular access is designed as two 26-foot wide driveways side-by-side, and separated by a median to allow two lanes in and two lanes out. This driveway is designed to allow only right-turn in and right-turn out access. Within the Lugonia Avenue right-of-way, the project will construct a solid raised median with landscaping (within the existing two-way left-turn lane) which will prevent left turns into the project site.

- On Dearborn Street, a driveway will be located near the center of the site (approximately 715 feet north of Lugonia Avenue and 460 feet south of Pennsylvania Avenue). This driveway, like the main access on Lugonia Avenue, is designed to allow two lanes in and two lanes out. Turn movements will not be restricted at this driveway.

- A third driveway will also be constructed on Dearborn Street, located at the northwest portion of the project site. This is a smaller driveway with a single lane in and single lane out, with no restricted turn movements.

- No project access driveways will be constructed on Pennsylvania Avenue (north side of project

site). Pennsylvania Avenue will provide a single travel lane for partial access across the northerly boundary of the project site, but will not be fully constructed at its full width; this is due to the inability to obtain the necessary right-of-way (along the north side of Pennsylvania Avenue opposite the project site) to allow the construction of the full street width. The project will be required to dedicate a portion of the right-of-way and construct the Pennsylvania Avenue improvements along the project's frontage (i.e., the south half of Pennsylvania Avenue). Street improvements will include curb, gutter, sidewalk, a terminus (where the street currently ends), and landscape only, which will allow pedestrian connectivity across the entire northern side of the project site.

Student Drop-off and Pickup: The applicant has provided a diagram showing how vehicles would approach the site for student pickup (Attachment B). Based upon this diagram, vehicles would approach the site from the north. The purpose of this is to avoid queuing onto Lugonia Avenue and left turns into the parking lot. Approaching vehicles would make a right turn into the southernmost driveway on Dearborn Street. Once inside the parking lot, cars would follow the internal circulation pattern to the front of the school area for drop-off. From there, drivers could exit by making a right turn exiting to Dearborn Street. During student pickup and drop-off times, the parking lot would be available that would allow parents to park and wait (thereby reducing queuing outside the project site). Following the construction of the southerly parking area (Phase 3), vehicles will be able to exit onto Lugonia Avenue (right turn only) at the south end of the site.

Landscape Plan: The Preliminary Landscape Plan (Attachment F) includes the proposed plant and tree palettes. Overall, the site is heavily landscaped with a total of 40.6% (or 330,056 square feet) of the entire project site with landscaping. The plan has a total of 509 trees and a variety of shrubs that will be planted throughout the site. The proposed landscaping will be drought-tolerant and will be required to adhere to the City's Water Efficient Landscaping Ordinance and the Redlands Municipal Code landscaping requirements. A condition of approval requires plant selections that will not attract heavy concentrations of birds near the airport.

The proposed landscape plan substantially complies with the requirements for parking lot landscaping, and 9.3% (or 18,886 square-feet) of landscaping is provided within the parking lot, which exceeds the minimum requirement of 7% for the parking lot. A 25-foot landscape buffer will be installed adjacent to both Lugonia Avenue and Dearborn Street, which will include berms and shrubs, to screen vehicles within the parking areas. Trees included within the parking area have been selected from the City approved parking lot tree list and include Palo Verde, Swan Hill Olive, Australian Willow, and Orchid trees.

Proposed Architectural Design: The project is designed with a Mission Revival style of architecture and includes a variety of architectural elements. The proposed designs of the buildings comply with the City's Architectural Design Guidelines for new development projects. See Attachment J for a table of the design guidelines and how the proposed project will meet the suggested guidelines.

The primary exterior finish for all buildings is white, smooth stucco walls with clay roof tiles. Other architectural elements used for the sanctuary and parish hall buildings include scalloped parapets, exposed rafter tails, arched window openings with multi-paned windows and a broad cornice treatment. The sanctuary building features a bell tower element adorned with a cross that extends to over 60 feet tall as a primary element. The rooflines of the parish hall and sanctuary are varied and include tile roofs for most of the building. In other areas of these buildings, scalloped parapet walls and corniced parapet walls are decorative and will screen rooftop mechanical equipment. The architectural features provided for the sanctuary and parish hall are carried throughout the project into classroom buildings, though they are slightly less

adorned. The color pallet and materials used, such as the tile roofing and white stucco are used throughout, and exposed rafters are included on all buildings. Classrooms include pitched roofs and corniced parapet walls to screen rooftop equipment.

E) Lot Merger

A Lot Merger is required as the project site currently consists of two separate parcels, and the proposal would result in one totaling 19.46 acres for development. The merging of the lots will be consistent with the RMC and will meet the code requirements for minimum width, depth, and lot area. A Condition of Approval has been added requiring the recordation of the Lot Merger/Lot Line Adjustment prior to the issuance of a building permit.

Table 3. Development Standards for Lot Lie Adjustment

Development Standard	*Required*	*Provided*	*Complies?*
Lot Width	100 ft. minimum	658 ft.	Yes
Lot Depth	120 ft. minimum	1,285 ft.	Yes
Lot Area	14,000 sq. ft. minimum	847,751 sq. ft. (19.46 acres)	Yes

F) Socio-Economic Cost/Benefit Study

Measure U includes a requirement to prepare a Socio-Economic Cost/Benefit Study, which would generally apply to development projects involving new construction exceeding 5,000 square-feet of floor area. On December 3, 2019, the City Council adopted Resolution No. 8051 determining that non-residential projects filed by nonprofit organizations shall be exempt from Measure U. Based upon this determination, the proposed project for a new church and school facility is not required to prepare a Socio-Economic Cost/Benefit Study.

ENVIRONMENTAL REVIEW

Initial Study & Mitigated Negative Declaration: The Initial Study (Attachment K-1) prepared for the project is based on Appendix G of the CEQA Guidelines, and includes all the standard topics of analysis including: aesthetics; air quality; cultural resources; energy; geology and soils; greenhouse gas emissions; hazards and hazardous materials; hydrology and water quality; land use and planning; noise; population and housing; public services; transportation; tribal cultural resources; and utilities and service systems. The document was prepared using the appropriate criteria and thresholds for a Mitigated Negative Declaration (MND) in compliance with CEQA.

Public Review & Comment Period: The required 30-day public review and comment period began on June 9, 2022 and ended on July 8, 2022. The Notice of Intent was published in a local newspaper as well as posted to OPR's State Clearinghouse website for CEQA documents (SCH No. 2022060178). The Initial Study and related documents are also posted on the City's webpage for environmental documents at https://www.cityofredlands.org/post/environmental-documents.

Mitigation Measures: The Mitigation Monitoring/Reporting Program (Attachment K-2) includes a total of seven (7) mitigation measures pertaining to Cultural Resources, Hazards and Hazardous

Materials, and Tribal Cultural Resources. All mitigation measures and project design features pertain to the construction phases of the project and will ensure that the environmental effects of the project will remain less than significant. No mitigation measures are necessary for any operational aspects of the project or will need future monitoring. After mitigation, no potentially significant impacts were identified as a result of the project, and the mitigation measures will be incorporated into the project as mandatory Conditions of Approval.

Public Comments: The City received a total of 102 comment letters during the 30-day public review/comment period. A total of 98 letters were from residents and parishioners of the church in support of the project. Two (2) letters were from adjacent residents in opposition to the project and cited concerns related to traffic on Lugonia Avenue, crime, and construction dust. Two State agencies, the California Department of Fish and Wildlife (CDFW) and the Department of Toxic Substances Control (DTSC), commented on the project.

CDFW provided comments related to potential presence of nesting birds, burrowing owls and San Bernardino Kangaroo Rat on the project site. The biological study prepared for the project included a habitat suitability assessment for nesting birds, Burrowing owl, California gnatcatcher, raptors, and small mammals such as the San Bernardino Kangaroo Rat (SBKR) and Los Angeles Pocket mouse and concluded that no nesting birds or habitat occurs onsite for any of the previously noted birds or mammals. The project site is agricultural in nature and there has been no lapse in the agricultural use of the site, which has precluded and would likely preclude nesting birds as well as burrowing owls in the future from nesting on the site. Similarly, SBKR prefers fallow agricultural fields. Active agricultural fields or the water in the fields are not typical habitat for SBKR. The biological study prepared for the project found that the above-referenced species and habitats are very unlikely to be present on the project site; however, in an abundance of caution, the surveys by CDFW will be required as Condition of Approval Nos. 38, 39, 40, and 41.

DTSC requested identification of whether there were any current or historic releases of hazardous substances onsite and requested that the presence of hazardous materials related to building materials such as lead based paints and asbestos be discussed. A Phase I Environmental Assessment was prepared for the project and concluded that no releases have occurred onsite. No structures are onsite and therefore, no release of toxic substances related to building materials would occur. However, due to the current and historic agricultural uses of the site, the existing use was categorized as a Recognized Environmental Concern as discussed in the IS/MND, and as the DTSC mentions should be done in their letter. As such, Mitigation Measure HAZ-1 was incorporated which would require the applicant to prepare a Phase II site investigation for the project. The Phase II will include soil and water testing for signs of contamination and comparison of lab results with local, state and federal regulatory guidelines to determine what, if any, remediation may be necessary.

Comments from local transit provider Omnitrans included a request for an ADA-accessible bus stop to be placed adjacent to the project site. Based on this request, Condition of Approval No. 34 has been added that requires the applicant to coordinate with Omnitrans to provide the requested improvements.

All comments have been reviewed by the City's environmental consultant, and the consultant has prepared a Response to Comments document that includes all comments and detailed responses (see Attachment K-3). There is no information or substantial evidence before the City indicating any potentially significant environmental effects may occur as a result of the proposed project. The proposed mitigation measures are adequate to address all environmental impacts

of the project, and the MND is the appropriate environmental document and determination for the project.

FINDINGS

The relevant Findings for all requested entitlements are included in the resolution attached to this staff report.

RECOMMENDATIONS

Based on the analysis above, staff recommends that the Planning Commission adopt Resolution No. 1590 (Attachment L-1) to adopt and certify the environmental document (Mitigated Negative Declaration) for the proposed project, approve Lot Line Adjustment No. 640, and approve Conditional Use Permit No. 1136.

MOTIONS

If the Planning Commission deems it appropriate, staff recommends the following motion:

> "I move to adopt Resolution No. 1590 and adopt the Mitigated Negative Declaration prepared for the project, and approve Lot Line Adjustment No. 640 and Conditional Use Permit No. 1138, based on the findings contained in the resolution and the attached conditions of approval."

RESOLUTION NO. 1590

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF REDLANDS APPROVING CONDITIONAL USE PERMIT NO. 1136 AND LOT LINE ADJUSTMENT NO 659 FOR A PROPOSED RELIGIOUS FACILITY AND ELEMENTARY SCHOOL PROJECT LOCATED NEAR THE NORTHWEST CORNER OF EAST LUGONIA AVENUE AND DEARBORN STREET.

WHEREAS, the Holy Name of Jesus Catholic Community ("Applicant") has submitted a development application for Conditional Use Permit No. 1136 to construct a church and school facility which includes nine buildings totaling 102,574 square feet of building area on 19.46 gross acres of land located on the north side of Lugonia Avenue, and approximately 300 feet west of Dearborn Street, in the Residential Estate (R-E) District (APNs: 0168-161-02-0000 and 0168-161-03-0000); and

WHEREAS, the Applicant has also submitted an application for Lot Line Adjustment No. 659 to merge two parcels into a single 19.4 acre parcel for development purposes; and

WHEREAS, the above-referenced applications filed with the City of Redlands are referred to hereinafter as the "Project" and "Project Entitlements"; and

WHEREAS, an Initial Study and Mitigated Negative Declaration was prepared for the Project and circulated for public review for a period of thirty days beginning on June 9, 2022, and ending on July 8, 2022; and

WHEREAS on September 23, 2022, notice of the Planning Commission's public hearing for the Project and the related Project Entitlements was published in the Redlands Daily Facts and notices were mailed to property owners within a 300-foot radius; and

WHEREAS, on October 5, 2022, the Planning Commission held a public hearing and considered the staff report, oral report, the testimony and the written evidence submitted by staff, the applicant and by members of the public; and

WHEREAS, the Project is subject to the California Environmental Quality Act (CEQA), the City has prepared an Initial Study for the Project in accordance with the State CEQA Guidelines, exercised its own independent judgment and analysis and there is no substantial evidence that the proposed project may have a significant effect on the environment, the custodian of records is the Planning Division of the Development Services Department, and a Mitigated Negative Declaration has been prepared in accordance with the State CEQA Guidelines; and

WHEREAS, the proposed land use is permitted in the R-E, Estate Residential zoning district (subject to approval of a Conditional Use Permit) wherein the project site is located; and

WHEREAS, following the public hearing on October 5, 2022, the Planning Commission determined that approval of the proposal is in the best interests of the public health, safety and general welfare.

NOW, THEREFORE, BE IT RESOLVED BY THE PLANNING COMMISSION OF THE CITY OF REDLANDS AS FOLLOWS:

SECTION 1. RECOMMENDATION ON ENVIRONMENTAL DETERMINATION. The Planning Commission recommends adoption of a Mitigated Negative Declaration for the Project in accordance with the California Environmental Quality Act (CEQA). The City as the Lead Agency has prepared an Initial Study in accordance with the State CEQA Guidelines, there is no substantial evidence that the proposed project may have a significant effect on the environment, and a Mitigated Negative Declaration with Mitigation Monitoring/Reporting Program is the appropriate environmental determination.

SECTION 2. GENERAL PLAN CONSISTENCY. The proposed Project is consistent with the existing General Plan land use designation as 'Very Low Density Residential' and applicable policies for the 19.4 acres located near the northwest corner of N. Dearborn Street and Lugonia Avenue.

SECTION 3. Findings for Approval of Conditional Use Permit No. 1136. The proposed Conditional Use Permit No. 1136 is hereby approved based upon the following findings, and subject to the Conditions of Approval from the Development Services Department (Exhibit "A") and Development Services Land Use Engineering Division (Exhibit "B") attached hereto:

1. That the proposed development will not adversely affect the applicable land use plans of the city.

The proposed project will not result in any changes to applicable land use plans and is consistent with several Principles and Actions in the 2035 General Plan. The project will operate within the requirements of the R-E (Residential Estate) District and the Very Low Residential Density land use designation of the General Plan.

2. That the proposed development will not be detrimental to the public health, safety and welfare.

The proposed project will not be detrimental to public health, safety and welfare. The proposed project will be constructed in compliance with all applicable design and engineering requirements, including the California Building Code, California Fire Code, applicable provisions of the Redlands Municipal Code, and all applicable site design and engineering standards. The proposed project will provide desirable church and school services which are an overall benefit to the City. The project will construct sidewalks and roadway improvements adjacent to the project that will increase public safety, health and welfare. These improvements include road widening and a median on Lugonia Avenue and a new sidewalk on Pennsylvania which will provide an east to west pedestrian connection for neighborhoods on the north of the project. There will be no anticipated conflicts or hazards in terms of vehicle traffic or pedestrians traveling along Lugonia Avenue, Dearborn Street, or nearby intersections.

3. That the proposed development will comply to the maximum extent feasible with the regulations of the city's general plan, the applicable zoning district and the city's development standards.

The proposed development will comply to the maximum extent feasible with the regulations of the City's 2035 General Plan, the applicable zoning district, and the City's development standards. The General Plan designation for the project site is Very Low Density Residential, and the Residential Estate (R-E) zoning permits religious and educational facilities subject to a Conditional Use Permit. The conceptual site plan indicates the proposed development will be in conformance with the applicable development standards of the R-E, Residential Estate zone and applicable design and development standards.

4. That the proposed development is appropriate at the proposed location.

The project is located on an undeveloped agricultural lot that is surrounded by residential development. The project will provide a private preschool through eighth grade school, a church building and a parish hall for meeting and events on the east side of the City. The addition of the type of community services provided by private schools and churches in this location are desirable and serve will contribute to a beneficial mix of land uses in a primarily residential area. The project location allows access from Lugonia avenue which will be a fully improved Minor Arterial street. The parcel's size is suitable to allow the type of development necessary to build the proposed facility and allow adequate separation of uses from the buildings on site to the adjacent residential uses.

SECTION 4. PROJECT APPROVAL. The Planning Commission of the City of Redlands hereby approves Conditional Use Permit No. 1136 and Lot Line Adjustment No. 659, subject to the Conditions of Approval attached hereto as Exhibit "A" and Exhibit "B."

SECTION 5. EFFECTIVE DATE. This Resolution shall become effective upon adoption.

ADOPTED, SIGNED, AND APPROVED this 5th day of October, 2022.

Steven Frasher, Chair
Planning Commission

ATTEST:

Linda McCasland, Secretary to the Planning Commission

I, Linda McCasland, Secretary to the Planning Commission of the City of Redlands, hereby certify that the foregoing resolution was duly adopted by the Planning Commission at a regular meeting thereof held on the 5th day of October, 2022, by the following vote:

AYES: 6
NOES: 0
ABSENT: 1
ABSTAIN: 0

Linda McCasland,
Secretary to the Planning Commission

EXHIBIT A
CONDITIONS OF APPROVAL
DEVELOPMENT SERVICES DEPARTMENT
CONDITIONAL USE PERMIT NO. 1136

Planning Division

1. This permit/approval for Conditional Use Permit No. 1136 authorizes construction and operation of a church facility and school facility including nine buildings totaling 102,574 square feet on 19.46 gross acres. Proposed buildings include a sanctuary building, a parish hall, an administration/preschool building, five classroom buildings, and a maintenance building. The project site is located on the north side of East Lugonia Avenue, and approximately 300 feet west of Dearborn Street, in the Residential Estate (R-E) District (APNs: 0168-161-02-0000 and 0168-161-03-0000).

2. This permit/approval for a Conditional Use Permit shall automatically expire 24 months after the approval date (will expire on October 5, 2024) unless Developer has diligently developed the proposed project, as shown by the issuance for a grading, foundation, engineering, or building permit(s). An extension of time may be granted in accordance with Section 18.92.090 of the Redlands Municipal Code. The city council may, upon submittal of a written application for a time extension by the holder of the permit and prior to the expiration date, grant a one (1) year extension of time; provided, however, that the total number of extensions shall not exceed three.

3. Pursuant to Government Code Section 66020(d), certain fees, dedications, reservations or exactions imposed by the City as a condition of approval of this project are subject to a statutory ninety (90) day protest period. Please be advised that the ninety (90) day protest period for those fees, dedications, reservations and exactions which are subject to Government Code Section 66020(a) has commenced to run on the date this project was approved by the City.

4. The applicant for this permit, and its successors and assigns, shall defend, indemnify and hold harmless the City of Redlands, and its elected officials, officers, agents and employees, from and against any and all claims, actions, and proceedings to attack, set aside, void or annul the approval of this permit by the City, or brought against the City due to acts or omissions in any way connected to the applicant's project that is the subject of this permit. This indemnification shall include, but not be limited to, damages, fees, costs, liabilities, and expenses incurred in such actions or proceedings, including damages for the injury to property or persons, including death of a person, and any award of attorneys' fees. In the event any such action is commenced to attack, set aside, void or annul all, or any, provisions of this permit, or is commenced for any other reason against the City for acts or omissions relating to the applicant's project, within fourteen (14) City business days of the same, the applicant shall file with the City a performance bond or irrevocable letter of credit (together, the "Security") in a form satisfactory to the City and in the amount of Three Hundred Thousand Dollars ($300,000), to ensure applicant's performance of its defense and indemnity obligations under this condition. The failure of the applicant to provide the

Security shall be deemed an express acknowledgement and agreement by the applicant that the City shall have the authority and right, without objection by the applicant, to revoke all entitlements granted for the project pursuant to this permit. The City shall have no liability to the applicant for the exercise of City's right to revoke this permit.

5. By signing and/or using this permit, the permittee acknowledges all of the conditions imposed and accepts this permit subject to those conditions and with full awareness of the applicable provisions of the Redlands Municipal Code including Title 15 (Buildings and Construction), Title 16 (General Plan), Title 17 (Subdivision Regulations), and Title 18 (Zoning Regulations). Failure of the permittee to sign these conditions does not affect their enforceability by the City or other responsible entity. These conditions are binding upon all future property owners and occupants of the subject property.

6. This permit/approval is granted for the project plans dated August 29, 2022 ("the plans") on file with the Planning Division. The project shall conform to the plans, except as otherwise specified in these conditions.

7. The issuance of any permits shall comply with all applicable provisions of the Redlands Municipal Code.

8. All plans submitted to the City shall reflect all Planning Commission and/or City Council approvals and any other changes required by the Commission, Council and/or staff. This condition applies to site plans, landscape plans, elevations, grading, and all other illustrations, text, or plans submitted to the City in connection with the project.

9. No Certificate of Occupancy shall be granted for a building or phase, or building permit shall receive final approval and signature, until all applicable Conditions of Approval have been satisfied for that building or phase.

10. The applicant shall not make any modifications or changes during construction that are in conflict or contrary to the project's approved site design, grading plan, landscape plan, or building elevations without first consulting with the Development Services Director or designee.

11. A copy of the approved Conditions of Approval shall be included on the cover page of the construction plans submitted to the Building Division.

12. The applicant shall comply with all applicable federal, state, and local laws. Violations or convictions of any of those laws in connection with the use may be cause for revocation of this permit.

13. Developer shall provide off-street parking for the project, including the number/types of spaces, stall dimensions, paving, striping, location, and access, as required by the Redlands Municipal Code. Prior to issuance of a building permit for any building, the Developer shall provide the typical drive aisle width and typical parking space dimensions for each row of parking (within each parking area, lot, garage, or structure) shown on the Site Plan, Floor

Plan, and Civil Plans. Prior to issuance of an engineering permit for streets and off-site improvements, the Developer shall provide the typical parking space dimensions for each row of parking (for each on-street parking area or row) shown on the Street Improvement Plans.

14. No events shall be held within the parish hall during scheduled weekend mass in the sanctuary. Use of the parish hall shall be limited to only allow ancillary/incidental activities related to scheduled mass within the sanctuary.

15. Developer may not modify any use approved by this permit unless the Planning Division determines that Developer has provided the parking required by the Redlands Municipal Code for the modified use.

16. Prior to issuance of a building permit, Developer shall submit final exterior building material(s) and color scheme for review and approval by the City Planner or designee. Plans submitted by Developer with building permit applications shall show on the building elevation sheets: all exterior building materials and colors, including product and finish manufacturer name, color name and number, and surface finish type (such as: stucco with sand finish, plaster with smooth finish, etc.); trim features and dimensions around doors, windows, and other openings; exterior lighting, including all fixtures, models and numbers, and light cut sheets or manufacturer sheets; and rooftop equipment screening.

17. Prior to issuance of a building permit for a building, Developer shall submit landscape and irrigation construction plans. Developer shall coordinate with staff to finalize the precise planting plan, including but not limited to: specifying landscape screening for any ground-mounted equipment or utilities; clustering or greater density of planting around focal points (e.g., major entries and intersection corners); accommodating the required corner cutoff area where driveways intersect streets; and avoiding excessive use of decorative rock, gravel, or wood chips as a substitute for organic groundcover.

18. All landscaped areas noted on the site plan shall be permanently maintained with healthy planting material, and whenever necessary shall be replanted with suitable vegetation. Shrubs, hedges, groundcovers, screening landscape, etc., shall be required to be maintained and/or replaced on the subject properties in substantial conformance with the approved landscape planting plan. A qualified arborist or horticulturist may be consulted.

19. Trees shall be allowed to grow to the full genetic height and habit (trees shall not be topped or overly trimmed). Trees shall be maintained using standard arboriculture practices. Trees shall be required to be maintained and/or replaced on the subject properties in substantial conformance with the approved tree planting plan. A qualified arborist or horticulturist may be consulted.

20. Plans submitted for plan check shall include an exterior lighting plan, including fixture and pole designs, for review and approval by the Development Services Director or designee. Prior to building permit issuance, a lighting and photometric plan shall be submitted demonstrating that adequate lighting ranges will be provided throughout the development

without creating light spillover, light pollution, or conflicts with surrounding factors such as tree locations, off-site or adjacent lighting.

21. Prior to issuance of building permits, Developer shall demonstrate that light poles will not conflict with tree locations. Developer shall submit a plan showing both the lighting and landscape on the same sheet. Fixtures on exterior light poles shall direct lighting downward (e.g., contain a flat lens and/or have shielding that directs light downward and contains glare).

22. The Final Landscape Plans shall incorporate the following:

a. The landscape plan shall comply with all requirements for landscaping in pursuant to the Redlands Municipal Code including Section 15.54 Water Efficient Landscape Requirements.
b. The landscape plans shall be detailed and show the specific distribution, size, and amount of each species of trees, shrubs, and groundcover;
c. All plant material shall be sized so that the landscaping has an attractive appearance at the time of installation and a mature appearance within three (3) years;
d. Trees with a trunk height of not less than six feet (6') shall be installed in the planters at each end of an aisle, at three (3) space intervals throughout the parking area, and at twenty-foot (20') intervals along the periphery of the parking area. Within parking areas, trees may be clustered in groups to achieve a more natural setting provided the total number of trees meets the previous planting requirements;
e. At least fifty percent (50%) of the trees shall be an evergreen variety and shall be evenly distributed throughout the parking area;
f. At least fifty percent (50%) of the trees shall be fifteen (15) gallon in size, twenty five percent (25%) shall be twenty-four-inch (24") box size, and twenty five percent (25%) shall be thirty-six-inch (36") box in size. All trees shall meet the following minimum caliper sizes. If the caliper size cannot be met at the container size, then the developer shall increase the container size to meet the required caliper;
g. All trees identified on the landscape plan are to be maintained and the trimming or maintenance of them shall serve the purpose to bring them into a full canopy type configuration. If applicant/developer fails to maintain and trim said trees to allow for full canopy type configuration, applicant/developer shall be in violation of its conditions of approval and subject to enforcement as allowed by law;
h. All landscape planters that are ten feet (10') or less in width shall utilize measures such as root barriers or other deep watering system to minimize heaving of parking area pavement and curbs by tree roots; and
i. An automatic irrigation system shall be utilized to irrigate the site's approved landscape design;
j. Where automobile bumpers overhang landscaped planters, two feet (2') of clear areas unobstructed by trees or shrubs shall be provided for overhang.

k. A solid hedge row to be maintained at a height of 3 feet, upon maturity, shall be planted along the perimeter of the parking lot, where adjacent to the public right-of-way to screen the parking lot.

23. The landscape architect responsible for the design of the project's landscape plan shall review and certify, prior to a request by the applicant for a final occupancy inspection, that the installed landscaping meets the specifications of the approved landscape plan, except as modified in the conditions of approval.

24. Prior to the issuance of building permits, the applicant shall submit plans detailing that roof screening is of adequate height to screen any roof-top equipment from public view on all sides, subject to review and approval by the Development Services Director. Screening of air conditioning units and other equipment on the buildings shall be incorporated into or compatible with the architectural design of the buildings. All equipment shall be screened from public view of adjacent roadways and freeways. Plumbing vents, ducts and other appurtenances protruding from the roof of structures shall be placed so that they will not be visible from the front of the property or other major public vantage points. Developer shall include a note on the construction plumbing drawings of exterior elevations to indicate to contractors that roof features shall be grouped and located in the described manner. Roof vents shall be shown on construction drawings and painted to match roof material color.

25. Any gutters, downspouts, pipes, and other drainage appurtenances shall be designed and shall be placed (e.g., internal to the building or inside the exterior walls) so that they will not be visible from the front of the property (i.e., from public right-of-way) or other major public vantage points.

26. Utility meters shall be fully screened and incorporated into the overall architectural design of the building (e.g., interior room, cabinet with wing wall, or equivalent complete screening). Any enclosures or screening shall be architecturally treated to match the exterior of the attached structure.

27. The project site shall be kept in a weed and dust free condition throughout all periods of construction.

28. The applicant shall obtain a Minor Exception Permit prior to the issuance of a building permit for any walls or fences exceeding six feet (6'0") in height.

29. Prior to issuance of any building or engineering permit for any building or phase of the project, the Developer shall prepare and submit a Construction Parking Management Plan for all contractors, workers, and deliveries related to the project site. The Construction Parking Management Plan shall identify areas of the project site, surrounding private properties (with property owner's authorization), and surrounding public streets that construction personnel may utilize. Deliveries of construction materials, equipment, trailers, vehicles, etc., shall be performed on the project site to the extent practicable, and avoid the use of public streets and rights-of-way if possible. The Developer and/or on-site primary general contractor (superintendent) shall have responsibility for monitoring and enforcing

the approved parking management plan. The plan shall be subject to review and approval by the City Planner or designee, and may be modified by the City after approval to mitigate any unanticipated impacts or public nuisance conditions.

30. Prior to any use of any public street or right-of-way for construction-related activities, the Developer shall submit and receive approval for a Traffic Control Plan. Developer shall be responsible for repairing, replacing, or financially compensating any damages to public rights-of-way (including but not limited to paving, sidewalks, driveways, curbs and gutters, storm drain facilities, parkway landscape, street trees, public utilities, etc.) to the satisfaction of the Director(s) of the Municipal Utilities & Engineering Department and/or the Facilities & Community Services Department, or their designee(s), as applicable.

31. Developer shall arrange for materials collection during construction, demolition, and occupancy with the City's Solid Waste Division, or Developer shall arrange for self-hauling to an authorized facility.

32. Prior to the issuance of a building permit, Lot Line Adjustment No. 659 shall be recorded.

33. Bus Stop: Prior to issuance of any building or engineering (site improvement) permits, Developer shall coordinate placement of the bus stop on the Site Plan (i.e., existing, new or relocated bus stop location along Lugonia Avenue abutting the project site), in accordance with RMC Section 18.224.020(F). Developer shall coordinate placement of bus stop improvements on the Site Plan in cooperation with Omnitrans and the City, and Developer shall construct the necessary improvements to accommodate an ADA-compliant bus stop in front of the project to include a 25-foot length of 10-foot-wide sidewalk to provide a passenger boarding area and to accommodate a possible bus shelter in the future.

34. Bicycle Facilities: New nonresidential and multi-family (of 10 or more units) developments shall install bicycle racks or secured lockers at a rate of one per thirty (30) parking spaces with a minimum of a three (3) space bicycle rack. Plans submitted to Plan Check shall include information and specifications to verify this requirement has been met.

35. Before placing or constructing any signs on the project property, Developer shall obtain a sign permit from the City. Sign locations and illumination are subject to review and approval by the Planning Division under separate permit.

36. Prior to the issuance of a building permit for the second phase of the project (school buildings), the applicant shall provide a detailed student pick up and drop off plan. The plan shall include details for staffing, traffic management on site and parent information distribution.

Airport-Related Conditions of Approval

37. A portion of the project site is in the vicinity of the Redlands Municipal Airport, within Airport Zone D (Other Airport Environs). The following conditions shall be applicable to the project:

a. Notice of Proposed Construction or Alteration. All applicants for structures within an Airport Overlay Zone shall be required to file a Form(s) 7460-1 "Notice of Proposed Construction or Alteration" with the Federal Aviation Administration (FAA) pursuant to Part 77 of the Federal Aviation Regulations (14 CFR Part 77) as may be required for each building or structure (including but not limited to athletic field light poles). No building permit shall be issued for any structure subject to 14 CFR Part 77 unless and until the developer submits to the Development Services Director, or designee, proof of submission of the Notice of Proposed Construction or Alteration and copies of all documentation received from the FAA in response to such Notice including the determination and any final decision of the FAA as to whether the proposed structure would be an obstruction or hazard to air navigation.

b. Obstruction Determination. In the event the FAA determines that one or more of the proposed structures would be an obstruction to air navigation, a building permit for the structure may be issued subject to the applicant complying with all applicable provisions of the Redlands Municipal Code and 14 CFR Part 77. If the FAA imposes any conditions or requirements upon the proposed structure as part of its determination, including but not limited to lighting or marking (painting) requirements, the applicant shall demonstrate compliance with such conditions or requirements on the plans submitted for building permit approval.

c. The applicant must coordinate with the FAA and file their Form 7460 concerning construction and height restrictions, both permanent and those that are temporary caused by construction (i.e., crane, construction equipment, etc.). The Form 7460 can be found on the FAA's Obstruction Evaluation/Airport Airspace Analysis website at 'https://oeaaa.faa.gov/oeaaa/external/portal.jsp'.

d. Developer shall file a Form(s) 7460-2 "Notice of Actual Construction or Alteration" within five (5) days after each new building or other structure (e.g., athletic field light poles) reaches its maximum height after completion of construction.

38. Prior to issuance of any building permits, the Developer shall include on all construction plans any and all recommendations and/or requirements from the Federal Aviation Administration regarding structure marking and/or lighting (in accordance with FAA Advisory Circular AC 70/7460-1K, "Obstruction Marking and Lighting").

39. All outdoor lighting installed shall be hooded or shielded to prevent either the spillage of lumens or reflection into the sky. Outdoor lighting shall be downward facing and have high cut-off lenses or fixtures. This requirement pertains to all outdoor lighting including, but not limited to, the following: parking lot lighting, roadway or drive aisle light poles, athletic field light poles, fixtures on buildings or other structures, and all other methods of substantial outdoor lighting.

40. The following uses shall be prohibited:

a. Any use which would direct a steady light or flashing light of red, white, green, blue, yellow, or amber colors associated with airport operations toward an aircraft engaged in an initial straight climb following takeoff or toward an aircraft engaged in a straight final approach toward landing at an airport, other than an FAA-approved navigational signal light or visual approach slope indicator.

b. Any use which would cause sunlight to be reflected towards an aircraft engaged in an initial straight climb following takeoff or towards an aircraft engaged in a straight final approach toward landing at an airport.

c. Any use which would generate smoke or water vapor or which would attract large concentrations of birds, or which may otherwise affect safe air navigation within the area defined as a two (2) mile radius around the boundaries of the Redlands Municipal Airport. Such uses include: landscaping utilizing water features; aquaculture; outdoor production of cereal grains, sunflower, and row crops; composting operations; wastewater management facilities; artificial marshes; trash transfer stations that are open on one or more sides; recycling centers containing putrescible wastes; construction and demolition debris facilities; fly ash disposal; and incinerators.

d. Any use which would generate electrical interference that may be detrimental to the operation of aircraft and/or aircraft instrumentation.

e. Highly noise-sensitive outdoor nonresidential uses.

f. Any use which results in a hazard to flight, including physical (e.g., tall objects), visual, and electronic forms of interference with the safety of aircraft operations.

41. A Deed Notice regarding an airport in the vicinity (Redlands Municipal Airport) shall be recorded on each title(s) of the subject property.

42. The project may contain an above-ground water runoff detention basin or system, which shall not contain permanent surface water or attract wildlife. All stormwater basins or facilities shall be designed and maintained to provide for a maximum 48-hour detention period following the design storm, and remain totally dry between rainfalls. Vegetation in and around the basins (within Airport Zone D) that would provide food or cover for birds would be incompatible with airport operations, and shall not be utilized in project landscaping. Trees shall be spaced so to prevent large expanses of contiguous canopy, when mature. Landscaping in and around the basin(s) shall not include trees or shrubs that produce seeds, fruit, or berries.

a. Proposed landscape plans shall be reviewed for airport compatibility (i.e., not provide attractants to birds or wildlife) prior to permit issuance. Staff may require

modifications or changes to the conceptual landscape plan to ensure compatibility with airport and flight operations.

b. A notice sign shall be permanently affixed to each stormwater basin(s) with the following language: "There is an airport nearby. This stormwater basin is designed to hold stormwater for only 48 hours and not attract birds. Proper maintenance is necessary to avoid bird strikes with aircraft." The sign shall also include the name, telephone number, or other contact information of the person or entity responsible to monitor and maintain the stormwater basin (i.e., to prevent or reduce overgrowth).

43. This approved project that has been evaluated consists of the project description as listed on Condition No. 1. For those portions of the project site within Airport Zone D (Other Airport Environs): any increase in building area, change in use to any higher-intensity use, change in building location, new proposed buildings or other exterior structures (including but not limited to exterior building additions, light poles, antennas, and any other structures) may require additional evaluation of consistency with the Redlands ALUCP compatibility criteria, at the discretion of the Development Services Director.

Environmental Conditions of Approval

44. Applicant shall ensure that impacts to nesting bird species at the project site are avoided through the implementation of preconstruction surveys, ongoing monitoring, and if necessary, establishment of minimization measures.

A. Applicant shall designate a biologist (Designated Biologist) experienced in: identifying local and migratory bird species of special concern; conducting bird surveys using appropriate survey methodology; nesting surveying techniques, recognizing breeding and nesting behaviors, locating nests and breeding territories, and identifying nesting stages and nest success; determining/establishing appropriate avoidance and minimization measures; and monitoring the efficacy of implemented avoidance and minimization measures.

B. Surveys shall be conducted by the Designated Biologist at the appropriate time of day/night, during appropriate weather conditions, no more than 3 days prior to the initiation of project activities. Surveys shall encompass all suitable areas including trees, shrubs, bare ground, burrows, cavities, and structures. Survey duration shall take into consideration the size of the project site; density, and complexity of the habitat; number of survey participants; survey techniques employed; and shall be sufficient to ensure the data collected is complete and accurate. If a nest is suspected, but not confirmed, the Designated Biologist shall establish a disturbance-free buffer until additional surveys can be completed, or until the location can be inferred based on observations. If a nest is observed, but thought to be inactive, the Designated Biologist shall monitor the nest for one hour (four hours for raptors during the non-breeding season) prior to approaching the nest to determine status. The Designated Biologist shall use their best professional judgement regarding the monitoring period and whether approaching the nest is appropriate.

C. When an active nest is confirmed, the Designated Biologist shall immediately establish a conservative avoidance buffer surrounding the nest based on their best professional judgement and experience. The Designated Biologist shall monitor the nest at the onset of project activities, and at the onset of any changes in such project activities (e.g., increase in number or type of equipment, change in equipment usage, etc.) to determine the efficacy of the buffer. If the Designated Biologist determines that such project activities may be causing an adverse reaction, the Designated Biologist shall adjust the buffer accordingly or implement alternative avoidance and minimization measures, such as redirecting or rescheduling construction or erecting sound barriers.

45. Applicant shall designate a burrowing owl biologist (Designated Biologist) that is knowledgeable about the burrowing owl, including its natural history, habitat requirements, seasonal movements, and range, to survey and monitor for burrowing owls prior to project activities. The Designated Biologist shall complete necessary surveys, impact assessments, and associated reports following the recommendations and guidelines provided within the Staff Report on Burrowing Owl Mitigation (Department of Fish and Game, March 2012) or similar approach. The survey(s) shall encompass the entire project site and a 150-meter buffer surrounding it, and it shall occur at a time of the day when most burrowing owls are active. Pre-construction burrowing owl surveys shall also be conducted by the Designated Biologist 3 days prior to the start of project activities.

If pre-construction surveys confirm occupied burrowing owl habitat in or adjoining areas subject to project activities, the Applicant shall inform CDFW immediately of the burrowing owl(s) location and status. The Applicant will avoid all impacts to burrowing owls onsite. A Burrowing Owl Protection Plan (plan) will be prepared by a qualified biologist, which must be approved by CDFW prior to initiating the project. The Applicant shall conduct an impact assessment, in accordance with Staff Report on Burrowing Owl Mitigation prior to commencing project activities, to assist in the development of avoidance, minimization, and mitigation measures. Mitigation may include acquisition and in-perpetuity conservation of occupied burrowing owl habitat. To avoid direct take of owls, the Designated Biologist shall establish a conservative avoidance buffer and monitoring shall occur, if deemed necessary, based on identified activities. If relocation/passive exclusion is deemed necessary Applicant shall prepare a Burrowing Owl Exclusion Plan for CDFW review and approval, in accordance with Staff Report on Burrowing Owl Mitigation (Department of Fish and Game, March 2012).

46. The Applicant shall assess potential impacts to SBKR through the implementation of pre-project, protocol-level trapping surveys (completed by a permitted biologist). Trapping shall be completed at the appropriate time of year, during appropriate temperatures, according to the biologist's permit requirements, and shall be designed to provide a comprehensive analysis of the site's potential occupancy. If SBKR are present, the Applicant shall suspend all project activities within areas potentially occupied by SBKR and shall seek appropriate authorization prior to project implementation. This includes an incidental take permit (ITP) or other CESA authorization.

47. If SBKR are present within or adjacent to the project site, the Applicant shall ensure nighttime construction lighting and noise does not impact wildlife outside of the project area. If nighttime construction is required, Applicant shall submit to CDFW for review and approval a Light and Noise Attenuation Plan no later than 30 days prior to commencement of project activities. The plan shall be prepared by a qualified biologist, familiar with local species, and shall include project-specific avoidance and minimization measures designed to minimize impacts to wildlife adjacent to the project area, including having a qualified biologist monitor the adjacent habitats during all nighttime construction and implementing shielding techniques such as the use of fence slats, netting, mesh, or tarps.

All permanent lighting shall be designed and installed to prevent light spillover into adjacent habitat. Applicant shall not install lighting (e.g., street lighting, sports lighting, trail lighting, etc.) that produces illuminance (lux) outside of the project area, onto adjacent habitat. Applicant shall ensure any new lighting installations use wildlife friendly lighting (e.g., amber LEDs or low-pressure sodium) and incorporates shielding so that lighting can be directed onto the Project site and away from the adjacent habitat. Proposed lighting may incorporate newer technologies associated with lower brightness levels, user activation (motion sensing), and/or designated hours of operation. Wildlife friendly lighting (e.g., amber LEDs, low-pressure sodium bulbs, solar powered pavement markers, and/or other technology that diminishes blue-light emissions) should be included to additionally reduce impacts to wildlife in adjacent natural areas.

48. CUL-1 In the event that cultural resources are discovered during project activities, all work in the immediate vicinity of the find (within a 60-foot buffer) shall cease, the City shall be notified, and a qualified archaeologist meeting Secretary of Interior standards shall be hired to assess the find. Work on the other portions of the project outside of the buffered area may continue during this assessment period. Additionally, the San Manuel Band of Mission Indians Cultural Resources Department (SMBMI) shall be contacted, as detailed within TCR-1, regarding any pre-contact and/or post-contact finds and be provided information after the archaeologist makes his/her initial assessment of the nature of the find, so as to provide Tribal input to the City with regards to significance and treatment.

49. CUL-2 If significant pre-contact and/or post-contact cultural resources, as defined by CEQA (as amended, 2015), are discovered and avoidance cannot be ensured, the archaeologist shall develop a Monitoring and Treatment Plan, the drafts of which shall be provided to SMBMI and the City for review and comment, as detailed within TCR-1. The archaeologist shall monitor the remainder of the project and implement the Plan accordingly.

50. SM-1 The applicant shall provide an assessment as to whether grading for the proposed project will impact underlying soil units or geologic formations that have a moderate to high potential to yield fossiliferous materials, prior to issuance of a grading permit. If the potential for fossil discovery is moderate to high, require applicants to provide a paleontological monitor during rough grading of the project.

51. SM-2 The applicant shall establish a procedure for the management of paleontological materials found on-site during development, including the following provisions:

a. If materials are found on-site during grading, require that work be halted until a qualified professional evaluates the find to determine if it represents a significant paleontological resource.

b. If the resource is determined to be significant, the paleontologist shall supervise removal of the material and determine the most appropriate archival storage of the material.

c. Appropriate materials shall be prepared, catalogued, and archived at the applicant's expense and shall be retained within San Bernardino County if feasible.

52. HAZ-1: The Project applicant shall prepare a Phase II site investigation for the Project which shall evaluate the potential environmental impacts identified during the Phase I Environmental Site Assessment. The Phase II site investigation shall be conducted and evaluated by a licensed professional prior to issuance of a grading permit for construction and earthwork activities. If soil and/or groundwater contamination is identified above the applicable Regional Water Board's ESLs, the findings of the Phase II investigation shall be submitted to the local and state regulatory agency for determination of potential remediation requirements. Remediation shall be performed in accordance with the regulatory agency requirements for the protection of public health and the environment. Remediation for identified contamination could include, but is not limited to, source removal The findings of the Phase II site investigation shall be used for development of a project-specific Construction Risk Management Plan (CRMP). The CRMP shall delineate specific soil and groundwater management and disposal procedures, construction worker health and safety requirements, and contingency measures in case unknown contamination is encountered during construction.

53. SM-1: Improvements at the Project driveways are Project design features which shall be constructed by the Project. Site-adjacent roadway improvements shall be constructed in conjunction with the Project.

54. SM-2: On-site and site-adjacent improvements including Project driveways, roadway design, traffic signing and striping, and traffic control improvements relating to the proposed Project should be constructed in accordance with applicable engineering standards and to the satisfaction of the City of Redlands.

55. SM-3: Sight distance at Project access points would comply with applicable City of Redlands/California Department of Transportation sight distance standards. The final grading, landscaping, and street improvement plans would demonstrate that sight distance standards are met.

56. TCR-1: Prior to the issuance of any ground disturbance-related permits (such as grading permits), the project developer/applicant shall provide the lead agency evidence of agreements for a qualified archaeological monitor that has at least 3 years of regional experience and agreements with the consulting tribe(s) for Tribal monitor(s) representing tribe(s) that participated in consultation with the Lead Agency. Tribal monitors shall be present for all project related ground-disturbing activities (which includes ground disturbing

activities such as tree/shrub removal and planting, clearing/grubbing, grading, excavation, trenching, compaction, fence/gate removal, drainage and irrigation removal, hardscape removal (benches, signage, boulders, walls, seat walls, fountains, etc.), and archaeological surveys, testing, and data recovery.

Prior to the issuance of any ground disturbance-related permits (such as grading permits), the Lead Agency shall contact and coordinate with consulting Tribe(s) as reasonably determined by the Lead Agency to facilitate communications with the Project developer/applicant so that all Parties can develop a mutually-acceptable Archaeological and Tribal Monitoring and Treatment Plan which includes the scope of monitoring, scheduling of monitors from individual consulting Tribe(s), and the course of action for inadvertent discoveries. The Plan shall include a research design shall be developed in accordance with current professional archaeology standards. Any mitigation plan that results in the removal of cultural resources (artifacts, ecofacts, features, etc.) from their original provenience shall also include a comprehensive discussion of resource processing, analysis, curation, and reporting protocols and obligations. This Plan shall be approved and adopted by the Lead Agency prior to the of any ground disturbance-related permits. The Plan's implementation in the field shall be enforced by the Lead Agency for the life of the Project's ground disturbing activities.

57. TCR-2: If an archaeological deposit or tribal cultural resource is discovered within the Project area, ground disturbing activities shall be suspended 100 feet around the resource(s) and, if necessary, an Environmentally Sensitive Area (ESA) physical demarcation/barrier constructed. Representatives from the Participating Tribes, the Archaeological Monitor, the Project applicant/developer, and the Lead Agency shall confer regarding treatment of the discovered resource(s). No historic or prehistoric resources identified during monitoring will require preservation; however, all discoveries must be assessed for archaeological or cultural significance in adherence to CEQA, and if determined to be CEQA-significant, additional mitigation measures may be required to reduce the effect of grading impacts. Following the securing of the discovery site from further disturbance, the archaeological consultant, in conjunction with tribal representatives, will adhere to the stipulation for inadvertent discoveries within the Archaeological and Tribal Monitoring and Treatment Plan. This evaluation process may include archaeological excavations or test trenches, basic recordation, non-destructive methods for analysis of artifacts, and Native American participation in the site assessment. If that evaluation process concludes that the discovered resources are CEQA significant, then the stipulations of TCR-3 will be implemented for treatment and disposition. All final reports regarding the resource recovery fieldwork are to be submitted to the local CHRIS Information Center, the Lead Agency, and Consulting Tribe(s).

58. TCR-3: California Public Resources Code 21074 defines "tribal cultural resources. In brief, a resource is a "tribal cultural resource" if it is either: (I) Sites, features, places, cultural landscapes, sacred places, and objects with cultural value to a tribe that are listed, or determined to be eligible for listing, in the national or state register of historical resources, or listed in a local register of historic resources. Pub. Resources Code, § 21074 (a) In the event that Tribal Cultural Resources or Items of Cultural Patrimony are inadvertently discovered during the course of grading for this project, the following procedures will be carried out for treatment and disposition of the discoveries:

- The landowner(s) shall relinquish ownership of all cultural resources, including sacred items, burial goods, and all archaeological artifacts and non-human remains as part of the required mitigation for impacts to tribal cultural resources. The applicant shall relinquish the artifacts through one or more of the following methods and provide the City of Redlands with evidence of same:

  a) Complete avoidance and preservation in situ, or reburial of the resources in a location onsite. This shall include measures and provisions to protect the future reburial area from any future impacts. Reburial shall not occur until all cataloguing and basic recordation have been completed.

  b) A curation agreement with an appropriate qualified repository within San Bernardino County or Riverside County that meets federal standards per 36 CFR Part 79 and therefore would be professionally curated and made available to other archaeologists/researchers for further study. The collections and associated records shall be transferred, including title, to an appropriate curation facility within Riverside County, to be accompanied by payment of the fees necessary for permanent curation.

  c) If more than one Native American Group is involved with the project and cannot come to a consensus as to the disposition of cultural materials, they shall be curated qualified repository within San Bernardino County or Riverside County that meets federal standards per 36 CFR Part 79 by default.

  Should reburial of collected cultural items be preferred, it shall not occur until after the Phase IV monitoring report has been submitted to the City of Redlands. Should curation be preferred, the developer/permit applicant is responsible for all costs and the repository and curation method shall be described in the Phase IV monitoring report.

52. MM TCR-4: Discovery and Treatment of Human Remains Health and Safety Code §7050.5.

  a) In the event of discovery or recognition of any human remains in any location other than a dedicated cemetery, there shall be no further excavation or disturbance of the site or any nearby area reasonably suspected to overlie adjacent remains until the coroner of the county in which the human remains are discovered has determined, in accordance with Chapter 10 (commencing with Section 27 460) of Part 3 of Division 2 of Title 3 of the Government Code, that the remains are not subject to the provisions of Section 27491 of the Government Code or any other related provisions of law concerning investigation of the circumstances, manner and cause of any death, and the recommendations concerning the treatment and disposition of the human remains have been made to the person responsible for the excavation, or to his or her authorized representative, in the manner provided in Section 5097.98 of the Public Resources Code. The coroner shall make his or her determination within two working days from the time the person responsible for the excavation, or his or

her authorized representative, notifies the coroner of the discovery or recognition of the human remains.

b) If the coroner determines that the remains are not subject to his or her authority and if the coroner recognizes the human remains to be those of a Native American, or has reason to believe that they are those of a Native American, he or she shall contact, by telephone within 24 hours, the Native American Heritage Commission.

Inadvertent Discovery of Native American Human Remains: Public Resources Code §5097.98 This code invests the NAHC with the authority to designate a Most Likely Descendant (MLD) when Native American human remains and any associated grave items are inadvertently discovered:

c) Whenever the commission receives notification of a discovery of Native American human remains from a county coroner pursuant to subdivision (c) of Section 7050.5 of the Health and Safety Code, it shall immediately notify those persons it believes to be most likely descended from the deceased Native American. The descendants may, with the permission of the owner of the land, or his or her authorized representative, inspect the site of the discovery of the Native American human remains and may recommend to the owner or the person responsible for the excavation work means for treatment or disposition, with appropriate dignity, of the human remains and any associated grave goods. The descendants shall complete their inspection and make recommendations or preferences for treatment within 48 hours of being granted access to the site.

d) Upon the discovery of Native American remains, the landowner shall ensure that the immediate vicinity, according to generally accepted cultural or archaeological standards or practices, where the Native American human remains are located, is not damaged or disturbed by further development activity until the landowner has discussed and conferred, as prescribed in this section, with the most likely descendants regarding their recommendations, if applicable, taking into account the possibility of multiple human remains. The landowner shall discuss and confer with the descendants all reasonable options regarding the descendants' preferences for treatment.

(1) The descendants' preferences for treatment may include the following:

(A) The nondestructive removal and analysis of human remains and items associated with Native American human remains.

(B) Preservation of Native American human remains .and associated items in place.

(C) Relinquishment of Native American human remains and associated items to the descendants for treatment.

(D) Other culturally appropriate treatment.

(2) The parties may also mutually agree to extend discussions, taking into account the possibility that additional or multiple Native American human remains, as defined in this section, are located in the project area, providing a basis for additional treatment measures.

e) For the purposes of this section, "conferral" or "discuss and confer" means the meaningful and timely discussion and careful consideration of the views of each party, in a manner that is cognizant of all parties' cultural values, and where feasible, seeking agreement. Each party shall recognize the other's needs and concerns for confidentiality of information provided to the other.

f) (1) Human remains of a Native American may be an inhumation or cremation, and in any state of decomposition or skeletal completeness.

(2) Any items associated with the human remains that are placed or buried with the Native American human remains are to be treated in the same manner as the remains, but do not by themselves constitute human remains.

Building & Safety Division

59. When the Entitlement Review is approved submit complete construction drawings including structural calculations, energy calculations and a soils report to Building and Safety at the One Stop Permit Center for plan review in accordance with the current edition of the California Building and Fire Codes including all local ordinances and standards which are effective at the time of Plan Check Submittal.

60. The new structures are required to be equipped with automatic fire sprinklers and fire alarm per the CBC/CFC NFPA 13, NFPA 72 and the current Redlands Municipal Code.

61. Allowable building areas, based on type of construction and occupancy shall be based on the latest edition of the California Building Code.

62. Disabled access for the site and buildings must be in accordance with the State of California and ADA regulations.

Other City Departments/Divisions

63. The attached conditions of approval from the following City Departments/Divisions are applicable to the project, and are hereby incorporated by reference:

a. Development Services/Land Use Engineering Division (Exhibit B)

Brian Desatnik
Development Services Director

EXHIBIT B
CONDITIONS OF APPROVAL
DEVELOPMENT SERVICES DEPARTMENT
LAND USE ENGINEERING DIVISION

[Attached]

REDLANDS DEVELOPMENT SERVICES DEPARTMENT
LAND USE ENGINEERING
DEVELOPMENT REQUIREMENTS
CONDITIONAL USE PERMIT NO. 1136

Date of P.C. Meeting:	**October 5, 2022**
Applicant:	**Holy Name of Jesus Catholic Community**
Location:	**North Side of Lugonia Avenue (SR 38), Approximately 300 Feet West of Dearborn Street**
Project Description:	**Construct a Church and School Facility Comprised of Eight Buildings Totaling Approximately 161,804 Square Feet**

The applicant shall comply with the following engineering requirements to allow for the orderly development of the surrounding area and for public health and safety.

All requirements for development shall be consistent with requirements set forth in the General Plan; applicable sections of Redlands Municipal Code; latest edition of "Redlands Standard Specifications and Detail Drawings for Design and Construction of Public Improvements"; latest edition of American Public Works Association "Standard Plans for Public Works" and "Standard Specifications for Public Works Construction – Greenbook"; latest edition of "Redlands Water Systems Standard Specifications"; latest edition of "Redlands Sanitary Sewer Systems Standard Specifications"; and current Redlands policies and guidelines relative to development projects.

A. The following items are required prior to issuance of the GRADING PERMIT.

1. Pay plan check fee as established per resolution. The amount will be determined at plan check submittal.

2. Plans required to be submitted include:
   a. Precise Grading Plan. Grading plans shall be coordinated with the existing and proposed off-site improvements. (RMC 15.04)
   b. SWPPP/Erosion Control Plan. Erosion/Sediment Control Plan shall be submitted for review and approval. A copy of the project's Storm Water Pollution Prevention Plan (SWPPP) shall be submitted for review. SWPPP Best Management Practices (BMPs) to prevent and control discharges to the municipal separate storm sewer (drain) system shall be in effect for the entire duration of project construction to its completion and acceptance by the City. (RMC 13.54)
   c. Water Quality Management Plan. Submit final Water Quality Management Plan (WQMP) for review and approval. WQMP shall consist of post construction Best Management Practices (BMPs) prepared in accordance with the requirements and guidelines of the San Bernardino County Stormwater Program. The requirements of the WQMP shall remain in effect throughout the life of the project. (California State Order No. R8-2010-0036)

All plans used as reference for design shall be listed on title sheet of all plans with reference numbers. All plans shall be submitted on 24" x 36" size sheets. Six (6) copies of each are required. After final review, grading and SWPPP plans shall be submitted on 24" x 36" size, min. 4 mil, mylar sheets for City's approval.

3. Submission of plan sets shall be complete and include all required engineering designs and drawings listed in No. 2 above. All plans submitted shall be substantially complete, and no plan check queue place-holder plans will be accepted. An incomplete plan submittal will not be accepted for plan check.

4. All support documentation shall be submitted with the plans to be checked. Submission shall include:
   a. Hydrology Report and Hydrologic Calculations; (RMC 18.192.050)
   b. Geotechnical Report; (RMC 15.04)
   c. Easement Documents. (RMC 18.192.050)

5. The post-construction stormwater discharge rate (Q) from a 100 year storm event shall not be greater than the pre-construction stormwater discharge rate (Q).

6. A final WQMP that is in substantial conformance with the preliminary WQMP and in full conformance with the WQMP Guidance Document shall be submitted and approved prior to the approval of precise grading plans.

7. Cash cleanup deposit shall be submitted ($1,000.00). Deposit will be reimbursed after the work is completed and accepted by the City upon written request. (RMC 12.16.290)

8. Truck route permit is required for all construction vehicles 5 tons and over gross vehicular weight (e.g. concrete trucks) using streets other than established truck routes. (RMC 10.54)

   NOTE: Cash cleanup deposit and truck route permit submitted during the grading process could be transferred to be used during building construction or off-site improvement construction if it is within the time limit specified in the truck route permit, otherwise a new truck route permit must be issued.

9. For all development requiring coverage under the state of California General Storm Water Permit, in effect at the time of permit issuance, and whom have filed with the State Board a Notice of Intent (NOI), a copy of the Waste Discharge Identification Number (WDID) and NOI shall be submitted for review and file. Call (866) 563-3107.(RMC 13.54)

10. The Final WQMP shall also include a site trash plan detailing the installation, operation, and maintenance of a Full Capture System (FCS) for loose trash. The intent of the FCS is to capture loose trash preventing the trash from entering the site storm drains and basins. BMPs or devices used as FCS devices shall require acceptance by the City Engineer. Full Capture Systems are defined as treatment

controls (either a single device or a series of devices) capable of trapping all particles 5 mm or greater. In addition, the FCS shall trap trash from the greater of:

a. A flow not less than the peak flow rate, Q, resulting from a one-year, one-hour, storm. Precipitation intensity shall be determined using the NOAA ATLAS 14 Point Precipitation Frequency Estimates web site; or
b. A flow rate equal to the on-site storm water conveyance system including pipes, channels, and swales.

B. The following items are required prior to RECORDATION OF TRACT/PARCEL MAP.

No map is required for this application.

C. The following items are required prior to issuance of the BUILDING PERMIT.

1. Pay plan check fee as established per resolution. The amount is to be determined at plan check submittal.

2. Plans required to be submitted shall include:
   a. Street Improvement;
   b. Pavement Striping Plans (including reflectorized pavement markers);
   c. Street Tree Installation – Street trees shall be provided as per the approved Street Tree List;
   d. Street Light Installation – Provide street lighting plan which show approved locations of service pedestal(s), conduits, street lights, appurtenances, and any necessary detail by Southern California Edison Company; and
   e. Potable Water Main Installation.

   All plans used as reference for design shall be listed on title sheet of all plans with reference numbers. All plans shall be submitted on 24" x 36" size sheets. Three (3) copies of each are required. After final review, plans shall be submitted on 24" x 36" size, min. 4 mil, mylar sheets for City's approval.

3. Submission of plan sets shall be complete and include all required engineering designs and drawings listed in No. 2 above. All plans submitted shall be substantially complete, and no plan check queue place-holder plans will be accepted. An incomplete plan submittal will not be accepted for plan check.

5. Finalize and obtain all necessary onsite and offsite permissions, permits, easements, right-of-way, and properties in order to satisfy the conditions of approval for this project. Such items may include:
   a. Encroachment Permits from Caltrans and other agencies.

6. All off-site improvements shall be designed by owner's Civil Engineer in accordance with City Standard Specifications and Detail Drawings and Standard

Specifications for Public Works Construction (Green Book) latest revision thereof. All existing utilities shall be pot-holed to determine the actual depth if no signed plan is available. Field notes will be submitted at time of submitting the plan for review and plan checking.

7. The approximate locations of existing underground utilities shall be shown on the improvement/site/grading plans. The utilities shall be plotted from record and field data. The City of Redlands and the Engineer assume no liability as to the exact location of said lines where locations are not shown.

8. Provide pad certification and compaction report to the Building and Safety Department.

9. Pay the required development impact fees per ordinance in effect at time of issuing the building permit. The exact amount will be determined based upon the review of the final building plan or project information. Development Impact Fees shall include:
   - Transportation Facilities; (RMC 3.54)
   - Fire Facilities; (RMC 3.60)
   - General Government Facilities; (RMC 3.60)
   - Police Facilities; (RMC 3.60)
   - Storm Drain Facilities; (RMC 3.56)
   - Water Capital Improvement Charge; (RMC 3.48)
   - Water Source Acquisition Charge; (RMC 13.40)
   - Sewer Capital Improvement Charge; (RMC 3.44)
   - Solid Waste Capital Improvement Charge; (RMC 3.70) and
   - Water/Sewer Frontage Charges. (RMC 13.44 and 13.12.)

10. Final City approved mylars for all public improvements shall be on file with the Municipal Utilities and Engineering Department.

11. Although this project will have an on-going inspection throughout construction, a final inspection for all off-site improvements must be scheduled by developer to certify that these improvements comply with City specifications. (RMC 12.16.090)

12. Requirements for Lugonia Avenue [SR 38] (RMC 18.192.050):
See Section C15 for Traffic Study requirements.

    a. Dedicate to provide for a 52 foot half street right-of-way width;
    b. Construct standard curb and gutter 40 feet north side of street centerline;
    c. Provide full depth construction/reconstruction consistent with the City standard or alternative method of street rehabilitation as accepted by the City Engineer between the new curb and gutter to the street centerline verified through a geotechnical report;
    d. Construct property line adjacent sidewalk along the entire street frontage and ramps at all curb returns;

e. Install LED ornamental streetlights [LEOTEK (GCJ2-20H-MV-WW-2-GY-1A-WL-PCR7-CR) or approved equal], with the equivalent illumination of a 150 watt sodium vapor street light. Prepare and submit a separate street lighting plan for City approval. Streetlight spacing shall be determined by the City of design specifications. Location of the lights will be determined at time of plan preparation. Coordinate with City staff for guidance at that time. Prepare and submit a separate street lighting plan for City and Caltrans approval;
f. Provide street trees spaced every 40 feet avoiding sewer and water laterals. Prepare and submit a separate street tree plan for City and Caltrans approval;
g. Construct underwalk drain, if necessary;
h. Use traffic index of 9.0; and
i. Install residential/commercial fire hydrants as required by the Redlands Fire Department.
j. All improvements identified in C15 of these requirements shall be constructed prior to the beginning of site operations.

13. Requirements for Dearborn Street RMC 18.192.050):
See Section C15 for Traffic Study requirements.

a. Dedicate to provide for 32 foot half street right-of-way width including a corner cutoff at the property line return to accommodate a 25 foot radius curb return and pedestrian ramp at Pennsylvania Street;
b. Provide full depth construction/reconstruction consistent with the City standard or alternative method of street rehabilitation as accepted by the City Engineer between the new curb and gutter to the street centerline verified through a geotechnical report;
c. Construct property line adjacent sidewalk along the street frontage to join existing sidewalk approximately 700 feet south of the Pennsylvania Street centerline and ramps at all curb returns;
d. Provide street trees spaced every 40 feet avoiding sewer and water laterals. Prepare and submit a separate street tree plan for City approval;
e. Construct underwalk drain, if necessary;
f. Use traffic index of 6.0; and
g. Install residential/commercial fire hydrants as required by the Redlands Fire Department.
h. All improvements identified in C15 of these requirements shall be constructed prior to the beginning of site operations.

14. Requirements for Pennsylvania Avenue (RMC 18.192.050):

a. Dedicate to provide for a 32 foot half street right-of-way width with an alignment as accepted by the City Engineer;
b. Construct standard curb and gutter 20 feet south side of street centerline with an alignment as accepted by the City Engineer;

c. Provide full depth construction/reconstruction from Dearborn Street to the current street terminus consistent with the City standard or alternative method of street rehabilitation as accepted by the City Engineer between the new curb and gutter to the street centerline verified through a geotechnical report;
d. Install LED ornamental streetlights [LEOTEK (GCJ1-20H-MV-WW-2-GY-580-WL-PCR7) or approved equal], with the equivalent illumination of a 100 watt sodium vapor street light. Prepare and submit a separate street lighting plan for City approval. Streetlight spacing shall be determined by the City of design specifications. Location of the lights will be determined at time of plan preparation. Coordinate with City staff for guidance at that time. Prepare and submit a separate street lighting plan for City approval;
e. Provide street trees spaced every 40 feet avoiding sewer and water laterals. Prepare and submit a separate street tree plan for City approval;
f. Complete full street width street terminus and rip-rap.;
g. Construct underwalk drain, if necessary;
h. Use traffic index of 6.0;
i. Install a minimum 8 inch diameter potable water main including necessary valves and appurtenances; and
j. Install residential/commercial fire hydrants as required by the Redlands Fire Department.

15. Project phasing as described in Traffic Impact Analysis prepared by Ganddini Group, Inc. dated 11/08/21 is as follows:

The proposed project is anticipated to be built in four (4) phases. For the purposes of the construction, Phase 1 consists of the preliminary church building and the Dearborn Street driveway; Phase 2 consists of some of the educational buildings and playgrounds; Phase 3 consists of the secondary church building and the playing fields; and Phase 4 consists of the remaining educational buildings.

Below are the phased off-site and on-site requirements:

Judson Street (NS) at San Bernardino Avenue (EW)

- Restripe the westbound approach and receiving lanes to accommodate one additional lane such that the interim configuration consists of one shared left turn/through lane and one shared through/right turn lane.
- Restripe the eastbound approach and receiving lanes to provide lateral shift of the centerline to accommodate westbound lanes.

Dearborn Street (NS) at Project North Driveway (EW)

- Install eastbound stop control.
- Construct the eastbound approach to provide full access and consist of one shared left-right turn lane.

Dearborn Street (NS) at Project South Driveway (EW)

- Install eastbound stop control.
- Construct the eastbound approach to provide full access and consist of one left turn lane and one right turn lane.

Project East Driveway (NS) at Lugonia Avenue (EW)

- Install southbound stop control.
- Construct the southbound approach to provide restricted access to consist of one right turn only lane.
- Construct additional westbound lane adjacent to project south frontage to provide one through lane and one shared through/right turn lane.
- Construct raised median in the existing two-way left turn lane on Lugonia Avenue.

Dearborn Street (NS) at Lugonia Avenue (EW)

- Revise striping for westbound lanes to include a right-turn only lane at intersection approach.

Dearborn Street (NS) at Lugonia Avenue (EW)

- Restripe eastbound left turn storage lane lengthened from 130 to 200 feet.

Dearborn Street (NS) at Project South Driveway (EW)

- Left turn prohibited for trucks, post sign R3-2 (modified – FOR TRUCKS).

Church Street (NS) at San Bernardino Avenue (EW)

- Restripe the westbound approach and receiving lanes to accommodate one shared left turn/through lane, one through lane, and one de facto right turn lane.

Judson Street (NS) at Colton Avenue (EW)

- Restripe the westbound approach and receiving lanes to accommodate one shared left turn/through lane and one shared through/right turn lane.

Revelation Way (NS) at Lugonia Avenue (EW)

- Install signing and pavement markings on the northbound approach to accommodate right turn only.
- Install signing and pavement markings on the southbound approach to accommodate right turn only.

16. Provide for adequate drainage facilities. The applicant shall provide and submit all necessary hydrology/hydraulic studies and calculations in accordance with the San Bernardino County Hydrology Manual. (RMC 192.050)

17. All irrigation lines that exist within any street right-of-way shall be replaced with ductile iron, cement mortar lined and coated steel, or as approved by City Engineer. (RMC 18.192.050)

18. Install reduced pressure principle backflow devices as required by City Engineer. (RMC 13.20)

19. Install onsite fire line with double detector check valve backflow devices at service connection satisfactory to the City Fire Department. (RMC 13.20)

20. Comply with the Solid Waste Recycling Access Act of 1991 (AB 1327) and install double solid waste bin enclosure(s). Submit a plan prepared by a licensed engineer showing bin enclosure(s) location on the site plan with solid waste truck turning and/or turnaround track template superimposed.

21. Submit recycling plans for site demolition/construction for review and approval in accordance with Chapter 13.66 of the Redlands Municipal Code.

22. Applicant shall comply with all appropriate Redlands Municipal Airport Land Use Compatibility Plan requirements.

23. Dedication documents shall be prepared by a licensed Land Surveyor or registered Civil Engineer (registered prior to January 1982) and must be submitted for review and approval before recordation. (California B&P Code 8761 and CCR 4411)

24. Improvement bonds must be posted for the total estimated cost of off-site improvements as follows (RMC 18.192.050B):

Performance	100% security (due prior to building permit issuance)
(Warranty)	10% security (due at acceptance of improvements)
Labor and Materials	50% security (due prior to building permit issuance)

Acceptable security forms: Surety Bond(s), Letter of Credit from a qualified bank or institution, Cash Deposits, or Set Aside Letter (savings account) in City's name subject to approval of the City Attorney and Finance Director.

25. The 10% warranty security will be retained for one year after acceptance of public improvements by the City for warranty of off-site work. (RMC 18.192.050B and 12.20.100)

26. Execute Public Improvement Agreement. (RMC 12.22.060)

D. The following items are required prior to approval of APPLICATION FOR WATER SERVICE CONNECTION and prior to WATER METER INSTALLATION.

1. Pay the Water Capital Improvement Charge; (RMC 3.48.030)

2. Pay the Water Source Acquisition Charge; (RMC 13.40)

3. Pay the Water/Sewer Frontage Charges. (RMC 13.12.010)

4. Pay the Water Meter Charge. (Redlands Ordinance No. 2830)

E. The following items are required prior to issuance of the ENCROACHMENT PERMIT.

1. Cash cleanup deposit shall be submitted ($1,000.00). Deposit will be reimbursed after the work is completed and accepted by the City upon written request. (Required unless previously submitted under Sections A, B or C.) (RMC 12.16.290)

2. Truck route permit is required for all construction vehicles 5 tons and over gross vehicular weight (e.g. concrete trucks) using streets other than established truck routes. (RMC 10.54)

3. Section 4216/4217 of the Government Code requires a Dig Alert Identification Number be issued before a "Permit to Excavate" will be valid. For your Dig Alert Identification Number, call Underground Service Alert toll free, 1-800-227-2600, two (2) working days prior to conducting any excavation. (RMC 12.20.120)

4. Encroachment Permit application and two (2) sets of City approved plans must be submitted for all off-site improvements. Encroachment Permit fees shall be paid prior to issuance of Encroachment Permit. (RMC 12.16.010)

5. A California OSHA Permit Number for all work that is 5 feet deep or deeper shall be provided. Call (909)383-4321. (RMC 12.16.040)

6. A copy of soils report is required with recommendation for the final pavement structural section to be submitted prior to placing of the street pavement. The report shall include test results and boring/sampling locations.

7. A traffic control plan shall be prepared in accordance with the latest revision of CA MUTCD or W.A.T.C.H. manual, submitted and accepted by the City Engineer prior to issuance of an encroachment permit. The plan shall show all required construction signage, warning devices, road closures, detours, delineation, phasing schedules and anticipated durations of closures and detours for any work within the public right-of-way. The plans shall provide names and

24-hour phone numbers of individuals who can be contacted regarding traffic control measures.

8. Improvement bonds must be posted for the total estimated cost of off-site improvements as follows:

Performance	100% security (due prior to building permit issuance)
(Warranty)	10% security (due at acceptance of improvements)
Labor and Materials	50% security (due prior to building permit issuance)

Acceptable security forms: Surety Bond(s), Letter of Credit from a qualified bank or institution, Cash Deposits, or Set Aside Letter (savings account) in City's name subject to approval of the City Attorney and Finance Director.

9. Execute Public Improvement Agreement.

10. The 10% warranty security will be retained for one year after acceptance of public improvements by the City for warranty of off-site work.

F. The following items are required prior to issuance of CERTIFICATE OF OCCUPANCY.

1. All requirements as described in Sections A, B, C, D and E of these conditions of approval shall be met.

2. All work shall be completed to the satisfaction of the City Engineer. All as-built plans shall be delivered to the Municipal Utilities and Engineering Department for review and approval.

3. The Engineer of Record shall file a Final Certification for all grading and improvements relating to the project development.

4. Owner's Licensed Land Surveyor shall reset survey points, monuments, record corners, and centerline ties that were destroyed during construction and shall file Corner Records for those points prior to completion of the project with San Bernardino County Surveyor. Copies of information shall be furnished to the Municipal Utilities and Engineering Department. [California B&P Code 8762, 8767, 8768, 8771, and 8773(b)]

5. A list of as-built infrastructure improvement quantities shall be provided in the Excel format provided by the City showing quantities for each street segment (i.e. pavement, curb and gutter, sidewalk, etc.)

6. Streets may be required to have a seal coat applied at the option of the City Engineer. Type of seal coat is to be determined by the City Engineer.

7. Resurface existing roadway as directed by the City Engineer due to utility installations and construction damage.

8. Existing striping shall be removed and replaced as necessary. New striping and pavement markings shall be installed as required by the City Engineer.

9. Owner/Developer shall provide recycling receipts as required by the recycling plan.

10. While it is understood that this project will be phased with construction of various buildings occurring over a period of time, construction of all improvements identified in C15 of these requirements shall be cocomplete prior to the beginning of site operations.

11. Prior to beginning of school operations, a site ingress/egress plan shall be submitted for approval by the Development Services Director.

G. The following items are required prior to release of SECURITIES/WARRANTIES/DEPOSITS.

1. Prior to the release of the securities for the project, all improvements shall be reviewed and accepted by the City Engineer.

2. Tie sheets shall be submitted for all monuments found and/or set in the public right-of-way.

3. The release of securities/warranties/deposits must be requested in writing to the City Engineer. Allow 30 days for processing.

RESOLUTION NO. 8613

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF REDLANDS APPROVING A ONE-YEAR EXTENSION OF THE EXPIRATION DATE FOR CONDITIONAL USE PERMIT NO. 1136 WITH ASSOCIATED ENTITLEMENTS TO MERGE TWO PARCELS INTO ONE SINGLE 19.46-ACRE PARCEL FOR THE CONSTRUCTION OF A RELIGIOUS FACILITY, ELEMENTARY SCHOOL, AND RELATED SITE IMPROVEMENTS LOCATED ON THE NORTH SIDE OF LUGONIA AVENUE, AND APPROXIMATELY 300 FEET WEST OF DEARBORN STREET (APN: 0168-161-02-0000, 0168-161-03-0000).

WHEREAS, Michael Vargas, applicant, has submitted an application for Extension of Time No. 1 to construct the project approved with Conditional Use Permit No. 1136 and Lot Line Adjustment No. 659 for the construction of a church and school facility which includes nine buildings totaling 102,574 square feet of building area on 19.46 gross acres and related site improvements located on the north side of Lugonia Avenue, approximately 300 feet west of Dearborn Street, in the Residential Estate (R-E) District (APNs: 0168-161-02-0000 and 0168-161-03-0000); and

WHEREAS, on October 5, 2022, the Redlands Planning Commission held a public hearing, and adopted Resolution No. 1590 to approve Conditional Use Permit No. 1136, Lot Line Adjustment No. 659, and the associated Socio-Economic Cost/Benefit Study for the project; and

WHEREAS, Redlands Municipal Code section 18.192.090 permits an applicant to request a one-year extension of time to extend the expiration date for a Conditional Use Permit, provided the total number of such one-year extensions do not exceed three; and

WHEREAS, the applicant intends to develop the project approved by Conditional Use Permit No. 1136, and requests the extension due to a change of ownership; and

WHEREAS, following the meeting for the extension of time to Conditional Use Permit No. 1136, the City Council determined that the approval of the requested one-year extension of time is in the best interests of the public health, safety, and general welfare.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF REDLANDS AS FOLLOWS:

SECTION 1. California Environmental Quality Act. Approval of this Resolution is exempt from further environmental review pursuant to Section 15061(b)(3) of the State Guidelines implementing the California Environmental Quality Act, as there is no possibility of any potentially significant environmental effects as a result of the time extension. Planning Commission Resolution No. 1590 was adopted on October 5, 2022, and determined the project was exempt from environmental review in accordance with the California Environmental Quality Act. There are no changes proposed to the approved project as part of the extension of time.

SECTION 2. Approval of Extension of Time. The proposed one-year extension of time for Conditional Use Permit No. 1136, with associated entitlements, is hereby approved in accordance with Redlands Municipal Code Section 18.192.090(A).

SECTION 3. Expiration Date. The new expiration date for Conditional Use Permit No. 1136 shall be October 5, 2025. The project shall remain subject to all original Conditions of Approval (contained in Planning Commission Resolution No. 1590).

SECTION 4. Effective Date. This Resolution shall become effective upon adoption.

ADOPTED, SIGNED AND APPROVED this 16th day of July, 2024.

City Council Meeting **H. 11.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Adoption of Ordinance No. 2972 levying special taxes within the City of Redlands Community Facilities District No. 2004-1 (Development Services Director Desatnik)

MOTION(S):

If the City Council determines that staff's recommendation is appropriate, the following motion is provided:

I move to adopt Ordinance No. 2972.

RECOMMENDATION:

It is recommended the City Council consider adoption of Ordinance No. 2972 establishing the maximum tax rates for Community Facilities District No. 2004-1, and authorizing the City Clerk to file necessary information with the County Auditor/Controller for Fiscal Year 24/25.

DISCUSSION:

The proposed ordinance and staff report prepared for the introduction of this ordinance are available in the City Clerk's office.

ALTERNATIVES:

The Council may continue this matter in order to allow additional time to review Ordinance No. 2972.

ORDINANCE NO. 2972

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF REDLANDS LEVYING SPECIAL TAXES WITHIN CITY OF REDLANDS COMMUNITY FACILITIES DISTRICT NO. 2004-1 (TRACT MAP NO. 16408; TRACT MAP NO. 16287; TENTATIVE TRACT MAP NO. 17253; PARCEL MAP NO. 17353; COMMISSION REVIEW AND APPROVAL (CRA) NO. 826; TRACT MAP NO. 16806; PARCEL MAP NO. 18208; PARCEL MAP NO. 19371; TRACT MAP NO. 16465; TRACT MAP NO. 16627; TRACT MAP NO. 18979; TRACT MAP NO. 19975; TRACT MAP NO. 20079; TRACT MAP NO. 18882; PARCEL MAP NO. 19496; PARCEL MAP NO. 18536-1; TRACT MAP NO. 18988; TRACT MAP NO. 17022; PARCEL MAP NO. 19465; TRACT MAP NO. 19942; TRACT MAP NO. 19956; TRACT MAP NO. 20126; PARCEL MAP NO. 19981; PARCEL MAP NO. 18536; CONDITIONAL USE PERMIT (CUP) NO. 1129; TRACT MAP NO. 20065; TRACT MAP NO. 20257, PLANNED DEVELOPMENT NO. 4.. TRACT MAP NO. 20065, AND TRACT MAP NO. 20336.

WHEREAS, the City Council of the City of Redlands (the "City") has formed City of Redlands Community Facilities District No. 2004-1 (Tract Map No. 16408 – Centex Homes) and annexed Tract Map No. 16287 (Annexation No. 1), Tentative Tract Map No. 17253 (Annexation No. 3), Parcel Map No. 17353 (Annexation No. 4), CRA No. 826 (Annexation No. 5), Tract Map No. 16806 (Annexation No. 8), Parcel Map No. 18208 (Annexation No. 9), Parcel Map No. 19371 (Annexation No. 11), Tract Map No. 16465, Tract Map No. 16627, Tract Map No. 18979, Tract Map No. 19975 and Tract Map No. 20079 (Annexation No. 12), Tract Map No. 18882 (Annexation No. 13), Parcel Map No. 19496 (Annexation No. 14), Parcel Map No. 18536-1 (Annexation No. 15), Tract Map No. 18988 (Annexation No. 16), Tract Map No. 17022 (Annexation No. 17), Parcel Map No. 19465 (Annexation No. 18), Tract Map No. 19942 (Annexation No. 19), Tract Map No. 19956 (Annexation No. 20), Tract Map No. 20126 (Annexation No. 21), Parcel Map No. 19981 (Annexation No. 22), Parcel Map No. 18536 (Annexation No. 23), CUP No. 1129 (Annexation No. 24), Tract Map No. 20065 (Annexation No. 25), Tract Map No. 20257 (Annexation No. 26), Planned Development No. 4 (Annexation No. 27), and Tract Map No. 20336 (Annexation No. 29) into the City of Redlands Community Facilities District No. 2004-1 (the "Community Facilities District"), under and pursuant to the Mello-Roos Community Facilities Act of 1982 (the "Act"); and

WHEREAS, the City Council, as the legislative body of the Community Facilities District, is authorized under the Act to levy special taxes (the "Special Taxes") to pay for the costs of certain facilities and to authorize the issuance of bonds secured by the Special Taxes under the Act; and

WHEREAS, the City Council, pursuant to Ordinance No. 2584, adopted by the City Council of the City on August 3, 2004, and Resolution No. 6481, adopted on May 2, 2006, authorized and levied the Special Taxes within the Community Facilities District; and

WHEREAS, Section 53340 of the Act provides that the legislative body of a community facilities district may provide, by resolution, for the levy of the special tax in the current year or future tax years at the same rate or at a lower rate than the rate provided by ordinance, if the resolution is adopted and a certified list of all parcels subject to the special tax levy including the amount of the tax to be levied on each parcel for the applicable tax year, is filed by the clerk or other official designated by the legislative body with the county auditor on or before the 10th day of August of that tax year; and

WHEREAS, the City Council desires to levy the Special Taxes within the Community Facilities District for Fiscal Year 2024-2025;

NOW, THEREFORE, the City Council of the City of Redlands ORDAINS as follows:

Section 1. All of the above recitals are true and correct.

Section 2. The City Council hereby levies the Special Taxes for the Fiscal Year 2024-2025 at the applied rates, up to the maximum, and with respect to the parcels as set forth in Exhibit A and Exhibit B hereto; provided, however, that the City Manager or the Finance Director of the City is hereby authorized, prior to the submission to the San Bernardino County Auditor/Controller and upon consultation with the City's special tax consultant, Webb Municipal Finance, LLC (a) to make any necessary modifications to such Special Taxes to correct any errors, omissions or inconsistencies in the listing or categorization of parcels to be taxed (provided that any such modifications shall not result in an increase in the Special Tax applicable to any category of parcels), or (b) to lower such Special Tax rates to the extent such officer deems necessary upon receipt of the final pricing information. The City Clerk of the City is hereby authorized and directed to file with the San Bernardino County Auditor/Controller no later than August 10, 2022, a certified list of all parcels subject to the Special Tax levy including the amount of the Special Tax to be levied on each parcel for Fiscal Year 2024-2025.

Section 3. The officers and agents of the City are, and each of them hereby is, authorized and directed to execute and deliver any and all documents and instruments and to do and cause to be done any and all acts and things necessary or proper for carrying out the levy of the Special Taxes for Fiscal Year 2024-2025 as provided in this Resolution.

Section 4. All actions heretofore taken by the officers and agents of the City with respect to the levy of the Special Taxes for Fiscal Year 2024-2025 are hereby approved, confirmed and ratified.

Section 5. All of the collections of the special tax shall be used as provided for in the Act and the Resolution of Formation.

Section 6. The special tax shall be collected in the same manner as ordinary ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure, sale and lien priority in case of delinquency as is provided for ad valorem taxes, as such procedure may be modified by law from time to time.

Section 7. The City Council hereby determines that the adoption of this ordinance is exempt from review under the California Environmental Quality Act ("CEQA") pursuant to State CEQA Guidelines section 15061(b)(3) because this City Council determines that it can be seen with certainty that approval of this ordinance will have no direct or indirect impact on the physical environment, and that approval of this ordinance is not a "project" under CEQA as that term is defined in Public Resources Code section 21065.

Section 8. Severability. If any section, sentence, clause or phrase of this ordinance or the application thereof to any entity, person or circumstance is held for any reason to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect other provisions or

applications of this ordinance which can be given effect without the invalid provisions or application, and to this end the provisions of this ordinance are severable. The City Council of the City of Redlands hereby declares that it would have adopted this ordinance and each section, sentence, clause or phrase thereof, irrespective of the fact that any one or more section, subsections, sentences, clauses or phrases be declared invalid or unconstitutional.

Section 9. The Mayor shall sign this ordinance and the City Clerk shall certify to the adoption of this ordinance and shall cause it, or a summary of it, to be published once in a newspaper of general circulation within the City, and thereafter, this ordinance shall take effect as provided by law.

City Council Meeting **H. 12.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve Resolution No. 8614 to authorize a one-year time extension to the expiration date of Commission Review and Approval No. 918 for the construction of a 12,585 square-foot supportive housing facility (assisted living for seniors) with 28 beds, and related on-site improvements including driveways, parking lot, landscaping, and lighting on a one-acre property. The project site is a vacant lot located on the north side of North Place (APN: 0173-011-39-0000), approximately 400 feet east of S. Center Street, in the Residential Suburban (R-S) District (Development Services Director Desatnik)

MOTION(S):

If the City Council determines that staff's recommendation is appropriate, the following motion is provided:

"I move to adopt Resolution No. 8614 to approve a one-year extension of time for Commission Review and Approval No. 918."

RECOMMENDATION:

Staff recommends that the City Council adopt Resolution No. 8614 to approve a one-year extension of time for Commission Review and Approval No. 918 for the construction of a 12,585 square-foot supportive housing facility (assisted living for seniors) with 28 beds, and related on-site improvements located on the north side of North Place (APN: 0173-011-39-0000), approximately 400 feet east of S. Center Street, in the Residential Suburban (R-S) District.

DISCUSSION:

The approved project includes the construction of a 12,585 square-foot supportive housing facility (assisted living for seniors) with 28 beds and related site improvements, including driveways, parking lot, landscaping, and lighting on a one-acre property. The project is located on the north side of North Place (APN: 0173-011-39-0000) within the Residential Suburban (R-S) District. See Attachment A (Location Map), Attachment B (Project Plans), and Attachment C (Planning Commission Staff Report).

The Redlands Planning Commission approved Commission Review and Approval No. 918 on September 13, 2022, and the Conditions of Approval were included in Resolution No. 1588 (see Attachment D). The approval of the subject entitlements will expire on September 13, 2024, unless a grading or building permit has been issued to commence construction of the project, or an extension of time is granted. The applicant currently has no building permits under review in plan check and is actively searching for an investor to fund the development.

Approval of the time extension will make the new expiration date for this project September 13, 2025. No changes to the project are proposed, and the original Conditions of Approval remain applicable for the project. The applicant has indicated the approval of a one-year time extension will provide additional time to find an investor and begin the process of submitting building and grading plans for plan check.

In accordance with RMC Section 18.12.130, a Commission Review & Approval permit shall expire two (2) years from the date of approval unless the holder of the permit obtains a permit and begins construction or obtains an extension of time. The City Council may grant a one-year extension of time, not to exceed a total number of three (3) extensions. This is the applicant’s first request for a time extension.

ALTERNATIVES:

The City Council may deny the request, which would result in the expiration of Commission Review and Approval No. 918. This would require the applicant to resubmit an entirely new development application.

STRATEGIC PLAN:

Not applicable.

SUBMITTED BY:
Brian Desatnik, Development Services Director

RECOMMENDED BY:
Charles M. Duggan Jr., City Manager

REVIEWED BY:
Yvette M. Abich Garcia, City Attorney
Christopher Boatman, Assistant City Manager
Danielle Garcia, Management Services/Finance Director

PREPARED BY:
Jazmin Serrato, Assistant Planner

Fiscal Impact

Fiscal Year:	23-24
Revenue Generating:	No
Appropriation Required Y/N:	No

Discussion:

No fiscal impact. The applicant paid the applicable application filing fee.

ARCHITECTURAL GENERAL NOTES

1. THESE DRAWINGS AND OTHER CONTRACTS ARE INSTRUMENTS OF PROFESSIONAL SERVICES, NEVERTHELESS, THEY ARE THE PROPERTY OF MCNAUGHTON ARCHITECTURE, INC. THESE CONTRACT DOCUMENT MAY NOT BE USED WITHOUT THE WRITTEN AUTHORIZATION OF THE ARCHITECT,

2. CONSTRUCTION OF THIS PROJECT SHALL BE IN COMPLIANCE WITH ALL APPLICABLE CODES, ORDINANCES AND REGULATIONS OF THE JURISDICTION IN WHICH IT IS TO BE CONSTRUCTED.

3. ALL LABOR, MATERIAL AND WORKMANSHIP SHALL COMPLY WITH ALL APPLICABLE CODES AND REGULATIONS. IF ANY DISCREPANCIES OCCUR ON THESE DRAWINGS, THE MOST STRINGENT REQUIREMENTS SHALL GOVERN.

4. CONTRACTOR AND SUBCONTRACTORS SHALL TAKE ALL NECESSARY PRECAUTIONARY MEASURES TO PROTECT THE PUBLIC AND PRIVATE PROPERTIES NEARBY FROM ANY DAMAGE AS A RESULT OF ACTIVITIES IN CONNECTION WITH THE CONSTRUCTION OF THIS PROJECT.

5. IN THE CASE OF CONSTRUCTION IN TOPOGRAPHICALLY OR ENVIRONMENTALLY DELICATE AREAS, THE CONTRACTOR SHALL TAKE ALL REASONABLE PRECAUTIONARY MEASURE TO PROTECT AND PRESERVE SUCH AREAS. ALL EXISTING TREES, VEGETATION, AND OTHER PHYSICAL FEATURE EXISTING WITHIN THE PROJECT SHALL BE PROTECTED FROM DAMAGE DURING THE EXECUTION OF THE WORK OF THIS PROJECT UNLESS SPECIFICALLY INDICATED TO BE REMOVED. IF ANY UNFORESEEN OR UNEXPECTED CONDITIONS SUCH AS UNDERGROUND FUEL STORAGE TANKS, OR HAZARDOUS WASTES OF ANY SORT ARE ENCOUNTERED DURING THE CONSTRUCTION OF THE PROJECT THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE ARCHITECT.

6. OWNER & CONTRACTOR TO COORDINATE LOCATION OF ARE AVAILABLE TO CONTRACTOR FOR ADMINISTRATION & STAGING OF THE PROJECT THROUGHOUT THE CONSTRUCTION PROCESS.

7. THE CONTRACTOR AND SUBCONTRACTORS SHALL TAKE ALL PRECAUTIONS POSSIBLE TO CONTROL DUST RAISED DUE TO EARTHWORK AND OTHER ACTIVITIES THROUGHOUT THE CONSTRUCTION PROCESS. PROPER DUST ABATEMENT MEASURE ARE CRITICAL TO AVOID POSSIBLE DIRT AND DUST POLLUTION DAMAGE TO THE EXISTING BUILDINGS ON THE SITE AND TO SURROUNDINGS,

8. CONTRACTOR AND SUBCONTRACTORS SHALL KEEP CONSTRUCTION AND MATERIAL STORAGE AREAS IN A NEAT AND ORDERLY CONDITION FREE FROM ACCUMULATION OF DEBRIS.

9. IF CONTRACTOR OR SUBCONTRACTORS DISCOVER ANY DISCREPANCIES, ERRORS, OR OMISSIONS IN THESE DRAWINGS, OR QUESTIONS REGARDING THEIR INTENT, THE ARCHITECT SHALL BE NOTIFIED AT ONCE FOR CLARIFICATION.

10. THE CONTRACTOR SHALL VERIFY ALL EXISTING CONDITIONS PRIOR TO COMMENCEMENT OF CONSTRUCTION, DISCREPANCIES BETWEEN ACTUAL CONDITIONS AND CONDITIONS SHOWN ON THE PLANS SHALL BE BROUGHT TO THE ARCHITECTS ATTENTION IMMEDIATELY.

11. THE CONTRACTOR SHALL BE RESPONSIBLE FOR FOR VERIFYING THE LOCATION OF EXISTING SITE UTILITIES AND UTILITY ELEMENTS. ALL COORDINATION FOR UTILITY DEVELOPMENT (ELECTRICAL, WATER, GAS, SEWER, AND TELEPHONE. ETC.)

12. THE CONTRACTOR IS RESPONSIBLE FOR PRODUCING A WEATHERTIGHT BUILDING - DETAILS AND OMISSIONS FROM DRAWINGS NOTWITHSTANDING. ALL DRAWING CONFLICTS OR CONDITIONS CONTRARY TO THE CREATION OF A WEATHERTIGHT BUILDING ARE TO BE BROUGHT TO THE IMMEDIATE ATTENTION OF THE ARCHITECT. IF A CONFLICT AMONG CONSTRUCTION DRAWINGS SHOULD OCCUR, THE LARGEST SCALE DRAWING SHALL GOVERN.

13. DO NOT ATTEMPT TO DETERMINE ANSWERS TO DIMENSIONAL QUESTIONS FROM THE ISSUE PRINTS OF THIS PROJECT. REFER QUESTIONS REGARDING DIMENSIONS TO THE ARCHITECT.

14. ALL FINISHING COLORS, TEXTURES, AND PATTERNS ARE TO BE SELECTED BY THE ARCHITECT AND SAMPLES SUBMITTED FOR ARCHITECTS'S APPROVAL PRIOR TO INSTALLATION AND/OR APPLICATION.

15. ALL FINISH GRADES SHALL SLOPE DOWNLOAD A MINIMUM OF 5% FOR A DISTANCE OF TEN FEET FROM THE BUILDING TO ENSURE PROPER DRAINAGE AWAY FROM THE BUILDING. FINISHING FLOOR SHALL BE A MINIMUM OF SIX INCHES ABOVE GRADE AT CONCRETE SLABS,

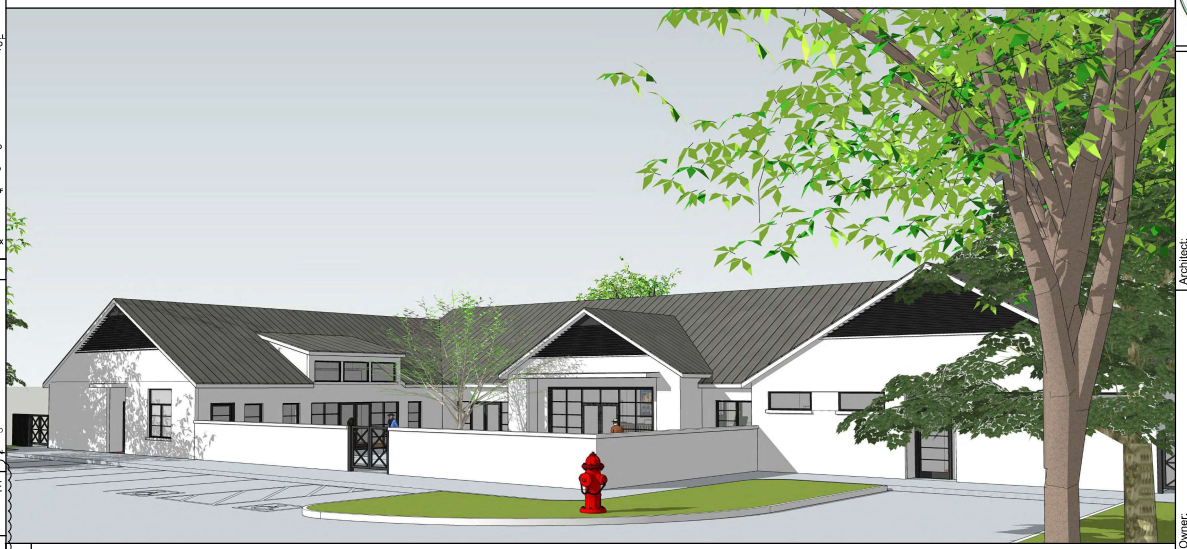
CITY OF REDLANDS STANDARD CONSTRUCTION NOTES:

BUSINESS LICENSE REQUIREMENT FOR ARCHITECTS, ENGINEERS CONTRACTORS AND SUB CONTRACTORS PER CITY OF REDLANDS ORDINANCE: **5.04.090: BUSINESS LICENSE REQUIREMENT.**

IT IS UNLAWFUL FOR ANY PERSON, WHETHER AS PRINCIPAL OR AGENT, CLERK OR EMPLOYEE, EITHER FOR HIMSELF OR FOR ANY OTHER PERSON, OR FOR ANY BODY CORPORATE, OR AS AN OFFICER OF ANY CORPORATION, OR OTHERWISE TO COMMENCE OR CARRY ON ANY LAWFUL BUSINESS, TRADE, CALLING, PROFESSION OR OCCUPATION IN THE CITY WITHOUT FIRST HAVING PROCURED A LICENSE FROM THIS CITY SO TO DO OR WITHOUT COMPLYING WITH ANY AND ALL REGULATIONS OF SUCH TRADE, CALLING, PROFESSION OR OCCUPATION CONTAINED IN THIS CHAPTER AND CHAPTER 5.08 OF THIS TITLE (PRIOR CODE 211)

"NEW CONSTRUCTION SHALL MEET OR EXCEED THE MINIMUM REQUIREMENTS OF THE CALIFORNIA BUILDING CODES' 2013 EDITIONS THAT INCLUDE THE RESIDENTIAL, PLUMBING, MECHANICAL, ELECTRICAL, FIRE, GREEN BUILDING STANDARDS AND ENERGY' COMMISSION SERIES. IN CASES WHERE THE CODES MAY CONFLICT WITH THE PROVISIONS IN THESE PLANS OR SPECIFICATIONS, THE MORE RESTRICTIVE PROVISIONS SHALL GOVERN'. CALL FOR ALL REQUIRED INSPECTIONS PRIOR TO CONCEALING WORK.

"ANYONE WHO IS INVOLVED WITH THE CONSTRUCTION OF THIS PROJECT SHALL COMPLY WITH ALL APPLICABLE BEST MANAGEMENT PRACTICES (BMP) TO CONTAIN OR PREVENT ANY ILLEGAL DISCHARGES OR STORM-WATER POLLUTION WITHIN THE PROJECT BOUNDARY UNTIL THE PROJECT IS COMPLETED AND ACCEPTED BY THE PUBLIC WORKS INSPECTOR OF THE CITY."



"RECYCLING OF CONSTRUCTION AND DEMOLITION DEBRIS IS REQUIRED AS MANDATED BY AB 939 AND SB 1066 AND AS AMENDED BY CITY OF REDLANDS ORDINANCE 2544."

"CONSTRUCTION ACTIVITY NOISE SHALL BE LIMITED TO THE HOURS BETWEEN 7:00 A.M AND 8:00 P.M. MONDAY THROUGH SATURDAY. RMO 8.06.060"

"EVERY PERMIT ISSUED UNDER THE PROVISIONS OF THESE PLANS SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THE BUILDING OR WORK AUTHORIZED BY SUCH PERMIT IS NOT COMMENCED WITHIN 180 DAYS FROM DATE OF SUCH PERMIT, OR IF THE BUILDING OR WORK AUTHORIZED BY SUCH PERMIT IS SUSPENDED OR ABANDONED FOR A PERIOD OF 180 DAYS OR MORE DAYS AFTER WORK IS COMMENCED.

"THE CHIEF BUILDING OFFICIAL MAY EXTEND THE TIME FOR COMMENCEMENT OF WORK FOR A PERIOD NOT EXCEEDING 180 DAYS UPON WRITTEN REQUEST BY THE PERMITTEE PROVIDING EVIDENCE OF THE CIRCUMSTANCES BEYOND THE CONTROL OF THE PERMITTEE WHICH HAVE PREVENTED WORK FROM COMMENCING.

"IT SHALL BE THE RESPONSIBILITY OF THE PERMITEE TO SHOW EVIDENCE OF "START OF CONSTRUCTION" BY ARRANGING FOR BUILDING INSPECTIONS WITHIN 180 DAYS AFTER ISSUANCE OF PERMIT AND TO VERIFY NON SUSPENSION OR ABANDONMENT OF WORK BY ARRANGING FOR BUILDING INSPECTIONS WHICH WILL SHOW THE WORK IS PROGRESSING WITHIN ANY 180 DAY TIME PERIOD.

1 PERSPECTIVE

PROJECT INFORMATION

PROJECT DESCRIPTION

Project is intended to open a resident care facility for the elderly to serve 28 clients ages 60 and over. Facility will be an assisted living center providing 24-hour non-medical care and supervision to its residents. Care provided will include assistance with bathing, grooming, dressing, meal preparation, arrangements for transportation to and from medical appointments and any other activities of daily life. Any medical care needed will be arranged through licensed agencies and professionals. Awake staff will be present at the facility 24 hours per day, 7 days per week. Three meals per day with snacks will be provided for the residents and staff will arrange daily activities with a published monthly calendar for families to join. Applicant will pursue a license from the State of California, Community Care Licensing Division once a CUP is approved. Facility will be run in accordance with state regulations and will be inspected annually by CCLD.
Project includes suite style living with private bathrooms for each bedroom as well as access to a secure private patio. Indoor/outdoor dinning optimizes common areas for family gatherings and potlucks. Open kitchen allows residents to partake in meal preparation and emulates a home like environment. Sun Room offers private sitting area for residents to read or spend time with their families in a more private setting. A separate office, laundry, employee break room and medication room are also present in the facility.
Property owner has an existing assisted living located in Redlands next to Sylvan Park. Proposed project on North Place will model the existing facility. Planning Commission is welcome to arrange a tour of the existing facility to see the quality of project proposed.

PROJECT SUMMARY

Residential Care Facility for the Elderly (R-2.1) , 28 Residents, 8 Employees on the largest shift, 14 bedrooms, 15 bathrooms, 17 parking spaces, 2 accessible spaces including (1) van accessible, Awake Staff 24/7

LANDSCAPE CALCULATION

LOT AREA : 43,620 SF
LANDSCAPE (EXCLUDE <5' PLANTER) : 9,771.5 SF

OVERALL LANDSCAPE : 9,771.5 / 43,620 = 0.224 = 22.4%

PARKING AREA : 18,403.6 SF
LANDSCAPE (PARKING AREA) : 5,163.1

PARKING AREA LANDSCAPE : 5,163.1 / 18,403.6 = 0.28 = 28%

MAINTENANCE RESPONSIBILITY NOTE:

THE OWNER WILL BE RESPONSIBLE FOR ALL MAINTENANCE AND WATER MANAGEMENT WITHIN THEIR PROPERTY.

WATER CONSERVATION STATEMENT:

FINAL LANDSCAPE PLANS MEET ALL WATER CONSERVATION REQUIREMENTS SET FORTH IN BOTH THE CITY AND STATE ORDINANCES. THE FINAL PLANS WILL ACHIEVE THESE GOALS THROUGH THE USE OF HIGHLY EFFICIENT DRIPLINES AND/ OR EMITTERS AND TREE BUBBLERS TO ALL PLANTED AREAS, COMBINED WITH A "SMART" E.T. BASED CONTROLLER AND RAIN SHUT-OFF DEVICE. THE CONTROLLER WILL RECEIVE E.T. INFORMATION THAT WILL ALLOW THE CONTROLLER TO UP-DATE R.C.V. RUN TIMES ON A DAILY BASIS THEREBY REDUCING THE NEED FOR MANUALLY ADJUSTING THE CONTROLLER FOR WEEKLY OR SEASONAL WEATHER CHANGES

City of Redlands
REQUEST FOR PLANNING COMMISSION ACTION

Planning Commission **Agenda Item NO. 5. B.**

Meeting Date: 09/13/2022

APPLICANT:

REDLANDS ASSISTED LIVING, LLC
(PROJECT PLANNER: BRIAN FOOTE, CITY PLANNER/PLANNING MANAGER)

PUBLIC HEARING for a **Socio-Economic Cost/Benefit Study** and **Commission Review & Approval No. 918** - A request to construct a 12,585 square-foot supportive housing facility (assisted living for seniors) with 28 beds, and related on-site improvements including driveways, parking lot, landscaping, and lighting on a one-acre property. The project site is a vacant lot located on the north side of North Place (APN: 0173-011-39-0000), and approximately 400 feet east of S. Center Street and 415 feet west of S. Buena Vista Street, in the Residential Suburban (R-S) District. The project qualifies for exemption from environmental review in accordance with Section 15332 (In-Fill Development Projects) of the California Environmental Quality Act (CEQA) Guidelines.

SYNOPSIS

1. General Plan Designation:	Low Density Residential	
2. Existing Zoning:	Residential Suburban (R-S)	
3. Surrounding Zoning:	North, East, South, West: Residential Suburban (R-S) district	
4. Existing Land Use:	The subject property is currently vacant and unimproved.	
5. Surrounding Land Use:	North, East, South, West: Single-family residential neighborhood	
6. Area / Topography:	The project site is flat and level, and slopes approximately 3.3% to the northwest.	
7. Environmental Determination:	Exempt from CEQA pursuant to Section 15332 (In-Fill Development Projects) of the CEQA Guidelines.	
8. Socio-Economic Cost / Benefit Study:	A Socio-Economic Cost/Benefit Study was prepared and found a positive cost/benefit ratio of +1.03 for the project.	
9. Planning Commission Submittal Dates:	(A) Date Submitted: (B) Date Accepted As Complete: (C) Planning Commission Meeting:	January 29, 2020 February 11, 2021 September 13, 2022

PROPOSAL

The applicant proposes to construct a 12,585 square foot assisted living senior care facility for residents age 60 and older with associated on-site improvements including driveways, parking lot, landscaping, and lighting on a one acre site. The project site is located on the north side of North Place and approximately 400 feet east of Center Street in the R-S, Residential Suburban District (see Attachment A – Location Map). The proposed facility will contain 28 beds and will provide assistance and level of care as needed to residents including assistance with bathing, meal preparation, arrangements with transportation, and assistance with daily life activities (see

Attachment B – Project Plans). The facility will provide 24-hour non-medical care and supervision to its residents, and any medical care will be arranged through licensed agencies and professionals. The facility will have staff present 24 hours daily, seven days per week to provide personal and supportive services to its residents.

BACKGROUND

Property History: There is no entitlement history related to the subject property. The project site is currently vacant and unimproved. The historic aerial photographs from 1938 showed the project site with orchards, which were removed sometime before 1959. The historic aerial photograph from 1959 shows the project site vacant and unimproved.

Housing Crisis Act of 2019: The "Housing Crisis Act of 2019" (SB 330 and SB 8) is applicable to the proposed project. The proposal for an assisted living facility for seniors is defined as "Supportive Housing" according to the Housing Crisis Act of 2019. State law was amended so that Supportive Housing and Transitional Housing facilities, as defined, could be built and operated in various residential land use districts, but with fewer zoning restrictions imposed by local agencies that had historically discouraged such facilities in residential areas (including single-family neighborhoods).

Government Code section 65589.5(h) defines a "housing development project" to include "transitional housing or supportive housing." The term *supportive housing* means housing with no limit on length of stay, that is occupied by the target population, and that is linked to an onsite or offsite service that assists the supportive housing resident in retaining the housing, improving his or her health status, and maximizing his or her ability to live and, when possible, work in the community. The term *target population* means persons with low incomes who have one or more disabilities, and includes adults, elderly persons, emancipated minors, families with children, young adults aging out of the foster care system, veterans, and homeless people (among other populations).

Current State law also now imposes a higher standard upon a local agency if a qualified housing project is being considered for denial by the decision-making body. Government Code section 65589.5(j) states:

> "When a proposed housing development project complies with applicable, objective general plan, zoning, and subdivision standards and criteria, including design review standards, in effect at the time that the application was deemed complete, but the local agency proposes to disapprove the project or to impose a condition that the project be developed at a lower density, the local agency shall base its decision regarding the proposed housing development project upon written findings supported by a preponderance of the evidence on the record that both of the following conditions exist:
>
> > (A) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a “specific, adverse impact” means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.
> >
> > (B) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density."

It should be noted that the required findings needed for approval of a Commission Review & Approval permit pertain to the site plan and proposed improvements needed for site development (and do not consider the proposed land use itself). In this case, the proposed residential care facility for seniors qualifies as a Supportive Housing project and is considered a permitted use in a residential zone, according to current State law.

ANALYSIS

A) General Plan Consistency

The project site is located within the 'Low Density Residential' land use designation of the General Plan, which allows for up to 6.0 dwelling units per acre (see Attachment C – General Plan Land Use Map). The intent of this land use category is to provide for areas of single-family residential development. The proposed facility will be developed as a one-story structure and is designed to blend with the surrounding neighborhood characteristics. The proposed use is consistent with the following General Plan policies (Chapter 4: Livable Community).

4-P.16: Promote a variety of housing types to serve the diverse needs of the community.

4-A.10: Promote availability of senior and independent assisted living facilities to meet the needs of the community's aging population, distributed equitably throughout the community.

2021-2029 Housing Element: The city's updated Housing Element was recently adopted by the City Council in February 2022 (although the document is not yet certified and is still undergoing review by the California Department of Housing & Community Development for certification). The new Housing Element encourages new construction and the provision of supportive housing for target populations, as defined. Supportive and transitional housing is to be treated similarly to other types of residential uses.

B) Zoning

The project site is located within the R-S, Residential Suburban District (see Attachment D), which is intended to provide an environment conductive to the development of low density single-family homes. The proposed facility will meet all applicable development standards of the R-S district as summarized in Table 1 (next page). A detailed list of R-S development standards is provided in Attachment E, Table of R-S Development Standards.

Table 1. Summary of Development Standards for the R-S District

Development Standards	*Requirement*	*Proposed*	*Complies?*
Lot Area	10,000 sq. ft. min.	43,620 sq. ft.	Yes
Lot Width	85 ft. min.	164’8”	Yes
Lot Depth	100 ft. min.	240'2"	Yes
Building Height	2 ½ stories or 35 ft. max.	24’2”	Yes
Front Setback	25 ft. min, and 40 ft. max.	Exceeds 40 ft. (flag lot)	N/A
Rear Setback	25 ft. min.	25 ft.	Yes
Side Setback	10 ft. min.	North: 12'2" and South: 12'0"	Yes
Lot Coverage	30% max.	29.8%	Yes
Parking Lot Landscaping	7% min.	28%	Yes

C) Commission Review & Approval

Proposed Land Use: The proposed land use as a residential care facility with 28 beds for clients (e.g., seniors) qualifies as a Supportive Housing project under current State law, and therefore is considered a permitted use in the existing Residential Suburban (R-S) zone. Characteristics of the proposed use are primarily residential (i.e., a long-term assisted living facility). While there are some employees that will work in shifts at the proposed facility, the clients will be seniors that reside there permanently on a long-term basis yet need various levels of assistance to perform their activities of daily living.

Operational Characteristics: The facility will contain 28 beds and have eight employees present on the largest shift. Staff will be available on-site every day, 24 hours daily, to provide assistance with daily living activities and care activities. The facility will not provide any medical care; any medical care or treatment will be coordinated through licensed agencies and professionals.

Staff will arrange daily activities for residents and will have a published monthly calendar for families to join. Any planned activities for the residents will take place during daytime hours. The proposed visiting hours are encouraged from 10:00 a.m. to 8:00 p.m. daily. However, residents may receive visits at any time. The applicant has stated that they expect two visitors per day on average.

Parking: The proposed use is similar to a convalescent hospital/nursing home which requires one (1) space per three (3) beds and one (1) space per each employee on the largest shift. The applicant has indicated that during the largest shift there will be eight (8) employees present at the facility. The proposed project meets the minimum parking requirements as shown on the table below.

Table 2. Parking Summary

Proposed Use	*Parking Ratio*	*Requirement*	*Provided*
Convalescent hospital/nursing home	1 space per 3 beds	10 spaces	10
Facility employees	8 employees	8 spaces	8
TOTAL:		18 spaces	18

Vehicle Access & Circulation: The subject property and the neighboring property located on APN: 0173-011-40-0000 are both located on a flagged shaped lot. Access to the project site will be provided via a shared access driveway with the adjacent neighboring property (APN: 0173-011-40-0000). The property owner for the adjacent property (located on APN: 0173-011-40-0000) has reviewed the project plans and is okay with improvements that are shown on their property including the shared access driveway, the curb and gutter, and the landscaping planters. The proposed access easement will provide a combined 26-foot driveway for both properties for ingress and egress. Vehicles that enter the driveway on North Place will have access to the project site via the two-way driveway that merges into the project site.

At the front entrance of the facility there is a six (6') foot tall security gate proposed to secure the property and monitor the individuals who enter the facility. A six (6') foot CMU block wall in the style Santa Barbara and the color Swiss coffee white is proposed throughout the property to screen the proposed use and the parking lot from the adjacent neighboring properties.

Landscaping: Perimeter landscaping is proposed throughout the project site (see Attachment F – Landscaping Plans). As shown on the landscaping plans, the project site will be providing landscaping improvements on the adjacent flagged shaped property that is located on APN: 0173-011-40-0000. The landscaping improvements that are located along the shared access driveway will provide a cohesive entrance to the proposed assisted care facility.

The proposed plant palette will consist of a combination of trees, shrubs, and ground cover. The landscaped plan includes a total of 58 trees consisting of Dwarf Naval Orange (24" box), Australian Willow (15 gallon and 24" box), Maidenhair tree (24" box and 36" box), Muskogee Crape Myrtle (24" box), Samuel Somer Magnolia (36" box), Saucer Magnolia (24" box), and Japanese Black Pine (24" box) trees. The landscaping plans provides approximately 5,163 square feet of landscaping within the parking lot area (or approximately 28%) of landscaping within the parking lot area, which exceed the minimum 7% parking lot area landscaping requirement. Overall the site provides 9,771 square feet of landscaping (or 22.4%) utilizing a combination of trees, shrubs, perennials, accept plans, and ground cover.

Elevation and Design: The proposed assisted care facility will be a one-story facility that is designed to resemble a residential structure. The property is located on a flagged shape lot and will be screened from view. The proposed building will have a synthetic smooth stucco finish in the color dove gray with aluminum clad windows (in the color charcoal gray) and a standing seam metal roof (in the color charcoal gray). Throughout the building, a wide variety of windows are proposed to provide natural lighting for each room within the facility. In addition, each room has an exterior door for ingress and egress purposes. Below the roof pitch, the building will have horizontal metal louvers (in the color black) to add texture and character to the overall design of the building. Along the front entrance of the building, a courtyard area and a pondless water feature is proposed to create a welcoming environment for the residents or visitors. At the rear of the property (east side of the building), an attached covered patio cover is proposed, a garden space, and a lattice gazebo to provide a tranquil outdoor recreation area.

D) Architectural Review Criteria

RMC Section 18.12.170 provides that the Planning Commission shall review the aspects of the design based on the criteria listed below. In addition, the city has adopted Architectural Design Guidelines (see Attachment G - Table of Architectural Design Guidelines) to provide additional guidance to developers. It is intended that design submittals be compatible with the character of

adjacent and surrounding developments, and that they be of comparable composition, materials, textures, and colors. The proposal will be consistent with the code requirements as well as the applicable Architectural Design Guidelines.

1. Site layout, orientation, location of structures and relationship to one another, as well as open spaces and topography.

The proposed development consists of the construction of a 12,585 square foot assisted care facility on a 1-acre parcel. Access to the project site will be provided via a shared access driveway on North Place Drive that will be shared with the adjacent property located on APN: 0173-011-40-0000. The proposed assisted care facility will be screened from view as the project site is located on a flagged shaped lot. The project is consistent with the development standards for the R-S (Residential Suburban) zoning district in terms of lot coverage, setbacks, building height, etc. The proposed assisted care facility has been designed to resemble a single-family residential structure to be compatible with the residential structures that are located within the vicinity of the project site.

2. Harmonious relationship of building with existing and proposed adjoining developments.

The project site is located within the R-S (Residential Suburban) zoning district which is primarily intended for the construction of single-family residential uses. The properties to the north, east, south, and west are also located within the R-S zoning district and are developed as single-family residential structures. The proposed assisted care facility will be a one-story building that will utilize exterior materials and finishes that are compatible with the characteristics of the surrounding neighborhood. The proposed building will be screened from the public right-of-way as the subject property is located on a flag-shaped lot.

3. Maximum height, area, setbacks and overall mass of building, as well as other structures such as walls, screens, towers or signs, and effective concealment of all mechanical equipment.

The proposed development meets the development standards for the R-S (Residential Suburban) zoning district and is consistent with the General Plan land use designation. The height of the proposed assisted care facility is approximately 24 feet to the pitch of the roof. The maximum height within the R-S District is two and one-half (2 ½) stories or thirty-five feet (35’), and the proposed facility is consistent with the building height of the adjacent residential homes. The proposed project complies with the setback requirements and the lot coverage requirements for the R-S District. The project site will be secured through a six (6’) foot CMU Santa Barbara style block wall in the color Swiss coffee white to screen the parking lot and project site from the surrounding uses.

4. Harmony of construction materials and colors in relation to all exterior elevations.

The proposed assisted care facility has been designed as a rustic modern house will have a synthetic smooth stucco finish in the color dove gray with aluminum clad windows in the color charcoal gray. The building will have a standing seam metal roof in the color charcoal gray and underneath the pitch of the roof the building incorporates black metal louvers. The building provides a variety of windows and doors that provide internal and external access to the bedrooms. Overall, the building has a simple design with a hipped roof, varying roof lines, and double hung windows.

5. Location and type of planting, with due regard for the preservation of specimen trees upon a site.

The proposed development provides perimeter landscaping throughout the project site, including along the shared access driveway. The project will include a combination of trees, shrubs, groundcover, and accent plants. The site is required to provide at least 7% of landscaping within the parking area and the site provides 5,163 square feet of landscaping (or 28% of parking lot landscaping). Overall, the site provides 9,771 square feet of landscaping, which is approximately 22.4% of landscaping throughout the project site. The landscape plan consists of a combination of 15-gallon, 24” box, and 36” box trees, 5-gallon size shrubs, and a combination of perennials and ground cover. A total of 58 trees are proposed throughout the site and approximately 19 trees are located within the parking lot consisting of Dwarf Navel Orange, Australian Willow, Maidenhair tree, Muskogee Crape Myrtle, Samuel Sommer Magnolia, Saucer Magnolia, and Japanese Black Pine. An underground retention basin is located along the northwest corner of the project site which will be filled with gravel and will have a combination of trees, shrubs, and groundcover surrounding the underground retention basin. Overall, the landscaping plan shows a wide range of plant materials such as trees, shrubs, perennials, and ground cover to provide a variety of accent plants.

6. Design and appropriateness of signs in relation to the architectural style of the building.

The proposed assisted care facility is located within the R-S (Residential Suburban) zoning district and any proposed signage will utilize the sign code criteria for the A-P (Administrative and Professional Office) District which applies to nonresidential uses within any residential district where permitted by a conditional use permit. Any future signage will be reviewed administratively and would require a sign permit application. A Commission Sign Review application would be required for any future monument signs and would require separate Planning Commission approval.

7. Glazing or image reflective surfaces (specular reflectance) shall be limited to a maximum reflectance value of twenty five percent (25%). "Specular reflectance" means any mirror like reflection, as contrasted to diffused reflection from such surfaces as concrete or vegetation.

The proposed project includes a variety of windows to provide natural lighting to the building. However, the specifications on the specular reflectance is not provided. A condition of approval requiring that the image reflective surface to be limited to a maximum reflectance value of 25% has been incorporated.

E) Socio-Economic Cost/Benefit Study

Measure U requires a socioeconomic cost/benefit study for projects involving structures larger than 5,000 square-feet, and a Socio-Economic Cost/Benefit Study (see Attachment H) has been prepared for this project. According to the cost/benefit model used by the City, the proposed project will result in annual revenue totaling $8,208.50 and annual costs totaling $7,944.30; therefore, annual revenue generated by the project is anticipated to be approximately $264.20 and results in a positive cost/benefit ratio of +1.03. The proposed project will not create any physical blight or overburden public services in the community, and no additional information or evaluation is needed.

F) Public Comments

The project had been contemplated to go to the Planning Commission for a public hearing in summer 2021, but was not reviewed due to pending site access and design issues at that time (all of which have been satisfactorily resolved with City departments that reviewed the project plans). The mailed public notice generated numerous public comments from neighbors and

residents living near the project site, most of which were opposed (see Attachment I for the written public comments). A total of 28 emails are included, and one petition with nine names. Many of the comments identify concerns about on-site parking, street parking (off-site), traffic and trip generation, vehicular access along a narrow street (North Place), increase in noise, decrease in property values, neighborhood quality, and neighborhood character.

As previously explained in the Background section above, current State law (the Housing Crisis Act of 2019) allows "supportive housing" as a permitted use in residential zoning districts by right, and is designed to lower barriers to building new housing projects (particularly supportive housing, transitional housing, affordable housing, etc., for "target populations" as defined). State law imposes the burden of proof on the City's decision-making body to make specific findings before any qualifying housing project can be denied. To consider a potential denial, a project must have a "a specific, adverse impact upon the public health or safety" that is articulated, and "there is no feasible method to mitigate or avoid the adverse impact" upon public health or safety. In this case, there are no known or identified specific adverse effects in terms of public health or safety. The design problem identified last year during development review (prior to the public hearing) has been resolved. In addition, Conditions of Approval are attached to the Resolution that will ensure the project is constructed and operated in compliance with applicable local zoning regulations, California Building Code, California Fire Code, State regulations pertaining to healthcare facilities, etc.

ENVIRONMENTAL REVIEW

In accordance with the provisions of the California Environmental Quality Act (CEQA), the project qualifies for exemption from environmental review pursuant to Section 15332 (In-Fill Development Projects) of the CEQA Guidelines. Section 15332 pertains to infill development sites and the proposal meets all five criteria for this exemption (listed below). The proposed project will not have any potentially significant effects on the environment, and qualifies for exemption from further environmental review.

(a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with applicable zoning designation and regulations;
(b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses;
(c) The project site has no value as habitat for endangered, rare or threatened species;
(d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality; and,
(e) The site can be adequately served by all required utilities and public services.

Several of the written public comments (Attachment I) stated concerns about utilizing an exemption as provided in CEQA for infill development projects. There is no evidence known at this time indicating the possibility or likelihood of any potentially significant environmental effects as a result of the project (either directly or indirectly), and the Section 15332 exemption is the appropriate determination.

FINDINGS

As explained in the Background section previously, current State law imposes a higher standard upon a local agency if a qualified housing project is being considered for denial by the decision-making body. To consider potential denial, a project must have a "a specific, adverse impact upon the public health or safety" that is articulated, and "there is no feasible method to mitigate or avoid the adverse impact" upon public health or safety. In this case, there are no known or identified specific adverse effects in terms of public health or safety.

Findings for Commission Review & Approval:

1. The site for the intended use is adequate in size and shape to accommodate the use, and all of the required yards, setbacks, walls or fences, landscaping and other features will adjust the use to those existing or permitted future uses of land in the neighborhood.

The proposed project includes the construction of a one-story 12,585 square-foot assisted living senior care facility and related site improvements on approximately one acre. The subject property is adequate in size and shape to accommodate the proposed use, including setbacks, walls, driveways, landscaping, lighting, utilities, and other required improvements necessary to serve the proposed use and structure. A six-foot high perimeter block wall will be constructed around the subject property to buffer the proposed use from surrounding residences (visually and acoustically) and many surrounding properties have large rear yards to provide further separation from the proposed use. The proposed project complies with the development standards for the Residential Suburban (R-S) zone and will be compatible with the surrounding residential uses that surround the project site.

2. The site for the proposed use relates to streets and highways which are properly designed and improved to carry the type and quantity of traffic generated or to be generated by the proposed use.

The subject property will take access from an improved City street, and a new driveway will be constructed to serve the proposed use and accommodate the expected type and quantity of motor vehicle traffic to and from the proposed project. The existing roadway is designed to carry the type and quantity of traffic generated by the proposed use (a residential care facility) including the existing single-family residences along North Place. The site for the proposed use relates to streets that are properly designed and improved to carry the type and quantity of traffic that will be generated by the proposed residential facility.

3. The conditions set forth in the approval and those shown on the approved site plan are deemed necessary to protect the public health, safety and general welfare.

The conditions of approval for the project will protect the public health, safety, and general welfare. Conditions are provided from the Planning Division, Building & Safety Division, and the Land Use Engineering Division, as well as from the Facilities & Community Services Department. The project has been conditioned to comply with the applicable provisions of the Redlands Municipal Code as well as the applicable California Building Code, California Fire Code, and any other applicable regulations.

RECOMMENDATIONS

Staff recommends the Planning Commission adopt Resolution No. 1588, adopt the Socio-Economic Cost Benefit Study for the project, and approve Commission Review & Approval No. 918 based on the analysis and findings in this staff report, and subject to the Conditions of Approval included in Resolution No. 1588.

MOTIONS

If the Planning Commission concurs with Staff's recommendation, the following motions have been provided:

“I move that the Planning Commission adopt Resolution No. 1588, adopt the Socio-Economic Cost/Benefit Study for the project, and approve Commission Review & Approval No. 918 subject to the attached Conditions of Approval.”

RESOLUTION NO. 1588

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF REDLANDS APPROVING COMMISSION REVIEW & APPROVAL NO. 918 TO CONSTRUCT 12,585 SQUARE-FOOT ASSISTED LIVING SENIOR CARE FACILITY AND RELATED ON-SITE IMPROVEMENTS INCLUDING DRIVEWAYS, PARKING LOT, LANDSCAPING, AND LIGHTING ON A ONE ACRE PARCEL. THE PROJECT SITE IS A VACANT LOT LOCATED ON THE NORTH SIDE OF NORTH PLACE, AND APPROXIMATELY 400 FEET EAST OF S. CENTER STREET AND 415 FEET WEST OF S. BUENA VISTA STREET IN THE RESIDENTIAL SUBURBAN (R-S) DISTRICT (APN: 0173-011-39-0000).

WHEREAS, Redlands Assisted Living, LLC, has submitted an application for Commission Review & Approval No. 918 to construct a 12,585 square foot assisted living senior care facility for residents ages sixty (60) years and over with 28 beds, and related on-site improvements including driveways, parking lot, landscaping, and lighting on one-acre site. The project site is a vacant lot located on the north side of North Place, and approximately 400 feet east of S. Center Street and 415 feet west of S. Buena Vista Street, in the Residential Suburban (R-S) District (APN: 0173-011-39-0000); and

WHEREAS, on or about September 2, 2022, notice of the Planning Commission's public hearing for Commission Review & Approval No. 918 was published in the Redlands Daily Facts; and

WHEREAS, on September 13, 2022, the Planning Commission held a public hearing and considered the staff report, oral report, the testimony and the written evidence submitted by and on behalf of the applicant and by members of the public; and

WHEREAS, the proposed project qualifies for exemption from environmental review pursuant to California Environmental Quality Act Guidelines Section 15332 (In-Fill Development Projects); and

WHEREAS, following the hearing for Commission Review & Approval No. 918, the Planning Commission determined that approval of the requested entitlement is in the best interests of the public health, safety and general welfare.

NOW, THEREFORE, BE IT RESOLVED BY THE PLANNING COMMISSION OF THE CITY OF REDLANDS AS FOLLOWS:

SECTION 1. CALIFORNIA ENVIRONMENTAL QUALITY ACT. The proposed project is exempt from environmental review in accordance with the California Environmental Quality Act, Section 15332 (In-Fill Development Projects) of the CEQA Guidelines.

SECTION 2. FINDINGS FOR APPROVAL OF COMMISSION REVIEW & APPROVAL NO. 918. Commission Review & Approval No. 918 is hereby approved based upon the following findings, and subject to the Conditions of Approval attached hereto as Exhibit "A," Exhibit "B," Exhibit "C."

1. The site for the intended use is adequate in size and shape to accommodate the use, and all of the required yards, setbacks, walls or fences, landscaping and other features will adjust the use to those existing or permitted future uses of land in the neighborhood.

The proposed project includes the construction of a one-story 12,585 square-foot assisted living senior care facility and related site improvements on approximately one acre. The subject property is adequate in size and shape to accommodate the proposed use, including setbacks, walls, driveways, landscaping, lighting, utilities, and other required improvements necessary to serve the proposed use and structure. A six-foot high perimeter block wall will be constructed around the subject property to buffer the proposed use from surrounding residences (visually and acoustically) and many surrounding properties have large rear yards to provide further separation from the proposed use. The proposed project complies with the development standards for the Residential Suburban (R-S) zone and will be compatible with the surrounding residential uses that surround the project site.

2. The site for the proposed use relates to streets and highways which are properly designed and improved to carry the type and quantity of traffic generated or to be generated by the proposed use.

The subject property will take access from an improved City street, and a new driveway will be constructed to serve the proposed use and accommodate the expected type and quantity of motor vehicle traffic to and from the proposed project. The existing roadway is designed to carry the type and quantity of traffic generated by the proposed use (a residential care facility) including the existing single-family residences along North Place. The site for the proposed use relates to streets that are properly designed and improved to carry the type and quantity of traffic that will be generated by the proposed residential facility.

3. The conditions set forth in the approval and those shown on the approved site plan are deemed necessary to protect the public health, safety and general welfare.

The conditions of approval for the project will protect the public health, safety, and general welfare. Conditions are provided from the Planning Division, Building & Safety Division, and the Land Use Engineering Division, as well as from the Facilities & Community Services Department. The project has been conditioned to comply with the applicable provisions of the Redlands Municipal Code as well as the applicable California Building Code, California Fire Code, and any other applicable regulations.

SECTION 3. EXPIRATION DATE. Commission Review & Approval No. 918 shall expire and on September 13, 2024, unless a building permit is issued or an extension of time is requested prior to the expiration date in accordance with the conditions of approval.

SECTION 4. EFFECTIVE DATE. This Resolution shall become effective upon adoption.

ADOPTED, SIGNED AND APPROVED this 13th day of September, 2022.

Steven Frasher, Chair
Planning Commission

ATTEST:

Linda McCasland, Secretary to the Planning Commission

I, Linda McCasland, Secretary to the Planning Commission of the City of Redlands, hereby certify that the foregoing resolution was duly adopted by the Planning Commission at a regular meeting thereof held on the 13th day of September, 2022, by the following vote:

AYES: 7
NOES: 0
ABSENT: 0
ABSTAIN: 0

Linda McCasland
Secretary to the Planning Commission

EXHIBIT A
CONDITIONS OF APPROVAL
DEVELOPMENT SERVICE DEPARTMENT
PLANNING DIVISION

COMMISSION REVIEW & APPROVAL NO. 918

1. This approval is for Commission Review & Approval No. 918 to construct a 12,585 square-foot assisted living senior care facility (i.e., supportive housing according to the Housing Crisis Act of 2019) and related on-site improvements including driveways, parking lot, landscaping, and lighting on a one acre site. The project site is a vacant lot located on the north side of North Place, and approximately 400 feet east of S. Center Street and 415 feet west of S. Buena Vista Street, in the Residential Suburban (R-S) District (APN: 0173-011-39-0000).

2. Unless construction has commenced pursuant to the issuance of a building permit, or a time extension is granted in accordance with Code, this approval shall expire two (2) years from the date of Planning Commission approval (will expire on September 13, 2024).

3. The issuance of any permits shall comply with all applicable provisions of the Redlands Municipal Code, the California Building Code, and the California Fire Code currently in effect.

4. All plans submitted to the City shall reflect the Planning Commission approval and any other changes required by the Commission and/or staff. This condition applies to the site plan, landscape plans, building elevations and materials, and all other illustrations, text, or plans submitted to the City in connection with this project.

5. The applicant shall not make any modifications or changes during construction that are in conflict or contrary to the project's approved site design, grading plan, landscaping plan, or building elevations without first consulting with the Development Services Director or designee.

6. A copy of the approved Conditions of Approval shall be included on the cover page of the construction plans submitted to the Building Division.

7. No Certificate of Occupancy shall be granted until all conditions of approval have been satisfied.

8. Pursuant to Government Code Section 66020(d), certain fees, dedications, reservations or exactions imposed by the City as a condition of approval of this project are subject to a statutory ninety (90) day protest period. Please be advised that the ninety (90) day protest period for those fees, dedications, reservations and exactions which are subject to Government Code Section 66020(a) has commenced to run on the date this project was approved by the City.

9. The property owner and applicant and their successors and assigns, shall defend, by paying for the defense costs of the City of Redlands (for counsel retained by the City), indemnify and hold harmless the City of Redlands, and its elected officials, officers, employees, and agents, from and against any and all claims, actions, and proceedings (collectively "Claims") to attack, set aside, void or annul the approval of this Conditional Use Permit by the City, or Claims brought against the City due to acts or omissions in any way connected to the applicant's project that is the subject of this permit. This indemnification shall include, but not be limited to, damages, fees, costs, liabilities, and expenses incurred in such actions or proceedings, including damages for the injury to property or persons, including death of a person, and any award of costs or attorneys' fees. In the event any such action is commenced to attack, set aside, void or annul all, or any, provisions of this permit, or is commenced for any other reason against the City for acts or omissions relating to the applicant's project, within fourteen (14) City business days following notice of such action from the City, the applicant shall file with the City a performance bond or irrevocable letter of credit, or other form of security satisfactory to the City (the "Security") in a form satisfactory to the City, and in the amount of $300,000, to ensure applicant's performance of its defense and indemnity obligations under this condition. The Security amount shall not limit the total indemnity obligation of the applicant pursuant to this condition. The failure of the applicant to provide the Security shall be deemed an express acknowledgement and agreement by the applicant that the City shall have the authority and right, without objection by the applicant, to revoke all entitlements granted for the project pursuant to this permit. The City shall have no liability to the applicant for the exercise of City's right to revoke this permit.

10. Plans submitted by Developer with building permit applications shall show on the building elevation sheets all exterior building materials and colors, including product and finish manufacturer name, color name and number, and surface finish type (such as: stucco with sand finish, plaster with smooth finish) to be used in construction.

11. Transformer cabinets and commercial gas meters shall not be located within required setbacks and shall be screened from public view either by architectural treatment or with landscaping. Multiple electrical meters and panels shall be fully enclosed and incorporated into the overall architectural design of the building(s). Backflow preventers shall be enclosed with landscaping that will provide complete screening upon maturity. The location and method of enclosure or screening of this equipment shall be shown on the construction plans and landscape plans prior to building permit issuance. Location of said equipment shall be coordinated with appropriate utility company (e.g., Southern California Gas Company or Southern California Edison Company). The applicant shall submit plans showing details of screening subject to review and approval by the Development Services Director, prior to issuance of building permits.

12. Ground mounted equipment shall be screened from public view on all sides subject to review and approval by the Development Services Director, prior to issuance of building permits.

13. During the plan check review process, the Developer shall provide a lighting plan that provides design details (light standards, bollards, wall mounted packs, etc.) and illumination site information within pathways, streetscapes, and open spaces proposed throughout the

development. An electrical engineer shall prepare the site lighting and/or photometric plan demonstrating that adequate lighting ranges will be provided throughout the development without creating light spillover, light pollution, or conflicts with surrounding factors such as tree locations, off-site or adjacent lighting. The illumination within the parking lot shall be a minimum of 0.5-foot candle and illumination along all property lines of the project site shall not exceed 0.5-foot candle. Walkway lighting shall have a maximum height of 10 feet, all parking lot lighting shall have a maximum height of 20 feet, and such light fixtures shall include shielding permanently attached to fixtures to contain illumination and prevent glare overspill onto abutting or nearby residential properties.

14. Plans submitted for plan check shall include an exterior lighting plan, including fixture and pole designs, for review and approval by the Development Services Director or designee.

15. All lighting shall be shielded, and no light or glare shall impact the surrounding properties.

16. Prior to issuance of building permits, Developer shall demonstrate that light standards will not conflict with tree locations. Developer shall submit a plan showing both the lighting and landscape on the same sheet.

17. Prior to the issuance of any permits, the applicant/developer shall obtain an easement from neighboring properties for the purpose of storm drainage.

18. Prior to the issuance of any permits, the applicant/developer shall obtain an easement from neighboring properties for the purpose of providing sewer line access, construction, and operation.

19. Prior to the issuance of any permits, applicant/developer shall obtain a shared driveway easement from the adjacent vacant property located on APN: 0173-011-40.

20. The project shall be operated to comply with the City's Noise Ordinance as contained in RMC Chapter 8.06 (Community Noise Control).

21. All landscaped areas noted on the site plan shall be permanently maintained with healthy planting material, and whenever necessary shall be replanted with suitable vegetation.

22. Landscape and Irrigation Plans shall provide water use calculations on the submitted plans, and Developer shall demonstrate compliance with the Model Water Efficient Landscape Ordinance prior to permit issuance. The plans shall be prepared by a California-licensed landscape architect.

23. The Final Landscape Plans shall incorporate the following:

    a. The landscape plan shall comply with all requirements for landscaping in pursuant to the Redlands Municipal Code.
    b. The landscape plans shall be detailed and show the specific distribution, size, and amount of each species of trees, shrubs, and groundcover;

c. All plant material shall be sized so that the landscaping has an attractive appearance at the time of installation and a mature appearance within three (3) years;
d. Trees with a trunk height of not less than six feet (6') shall be installed in the planters at each end of an aisle, at three (3) space intervals throughout the parking area, and at twenty-foot (20') intervals along the periphery of the parking area. Within parking areas, trees may be clustered in groups to achieve a more natural setting provided the total number of trees meets the previous planting requirements;
e. At least fifty percent (50%) of the trees shall be an evergreen variety and shall be evenly distributed throughout the parking area;
f. At least fifty percent (50%) of the trees shall be fifteen (15) gallon in size, twenty five percent (25%) shall be twenty-four-inch (24") box size, and twenty five percent (25%) shall be thirty-six-inch (36") box in size. All trees shall meet the following minimum caliper sizes. If the caliper size cannot be met at the container size, then the developer shall increase the container size to meet the required caliper;
g. All trees identified on the landscape plan are to be maintained and the trimming or maintenance of them shall serve the purpose to bring them into a full canopy type configuration. If applicant/developer fails to maintain and trim said trees to allow for full canopy type configuration, applicant/developer shall be in violation of its conditions of approval and subject to enforcement as allowed by law;
h. All landscape planters that are ten feet (10') or less in width shall utilize measures such as root barriers or other deep watering system to minimize heaving of parking area pavement and curbs by tree roots; and
i. An automatic irrigation system shall be utilized to irrigate the site's approved landscape design;
j. Where automobile bumpers overhang landscaped planters, two feet (2') of clear areas unobstructed by trees or shrubs shall be provided for overhang.

24. The landscape architect responsible for the design of the project's landscape plan shall review and certify, prior to a request by the applicant for a final occupancy inspection, that the installed landscaping meets the specifications of the approved landscape plan, except as modified in the conditions of approval.

25. Before placing or constructing any signs on the project property, Developer shall obtain a sign permit from the City and comply with the applicable sign code criteria. Sign locations and illumination are subject to review and approval by the Planning Division under separate permit.

26. Prior to the issuance of building permits, the applicant shall submit plans detailing that roof screening is of adequate height to screen any roof-top equipment from public view on all sides, subject to review and approval by the Development Services Director. Screening of air conditioning units and other equipment on the buildings shall be incorporated into or compatible with the architectural design of the buildings. All equipment shall be screened from public view of adjacent roadways and freeways.

27. Prior to issuance of any building permits, ground mounted equipment shall be screened from public view on all sides subject to review and approval by the Development Services

Director.

28. In the event of an accidental discovery or recognition of any human remains or funerary objects, Public Resource Code Section 5097.98 must be followed. In this instance, once project-related earthmoving begins and if there is accidental discovery or recognition of any human remains, the following steps shall be taken:

    a. There shall be no further excavation or disturbance of the site or any nearby area (within a 100-foot buffer of the find), as reasonably suspected to overlie adjacent human remains, until the City of Redlands Police Department and San Bernardino County Coroner are contacted to determine if the remains are Native American and if an investigation of the cause of death is required. If the coroner determines the remains to be Native American, the coroner shall contact the NAHC within 24 hours, and the NAHC shall identify the person or persons it believes to be the "most likely descendant" of the deceased Native American. The most likely descendant may make recommendations to the landowner or the person responsible for the excavation work, for means of treating or disposing of, with appropriate dignity, the human remains and any associated grave goods as provided in Public Resource Code Section 11 5097.98; or

    b. Where the following conditions occur, the landowner or his/her authorized representative shall rebury the Native American human remains and associated grave goods with appropriate dignity either in accordance with the recommendations of the most likely descendent or on the project area in a location not subject to further subsurface disturbance:

        - The NAHC is unable to identify a most likely descendent or the most likely descendent failed to make a recommendation within 48 hours after being notified by the commission;
        - The descendent identified fails to make a recommendation; or
        - The landowner or his authorized representative rejects the recommendation of the descendent, and the mediation by the NAHC fails to provide measures acceptable to the landowner.

29. Prior to issuance of a building permit, the applicant shall be required to obtain approval of a construction site safety plan by the Redlands Police Department providing adequate security measures such as lights, video cameras, vehicle transponders, locks, alarms, trained security personnel, fencing etc. The nature of the measures will depend on the specific requirements of the site and may vary with the different stages of construction. The applicant shall be responsible for the compliance of all sub-contractors working on the site.

30. The project site shall be kept in a weed and dust free condition throughout all periods of development.

Other City Departments/Divisions

31. Conditions of Approval from the following City Departments/Divisions are applicable to the project, and are hereby incorporated by reference:

DEVELOPMENT SERVICES DEPARTMENT
LAND USE ENGINEERING
DEVELOPMENT REQUIREMENTS
CONDITIONAL USE PERMIT NO. 1145

Date of P.C. Meeting:	**September 13, 2022**
Applicant:	**Redlands Assisted Living, LLC**
Location:	**North Side of North Place and East of South Center Street (APN 0173-011-39)**
Project Description:	**Construct an Approximately 12,224 Square Foot Resident Care Facility**

The applicant shall comply with the following engineering requirements to allow for the orderly development of the surrounding area and for public health and safety.

All requirements for development shall be consistent with requirements set forth in the General Plan; applicable sections of Redlands Municipal Code; latest edition of "Redlands Standard Specifications and Detail Drawings for Design and Construction of Public Improvements"; latest edition of American Public Works Association "Standard Plans for Public Works" and "Standard Specifications for Public Works Construction – Greenbook"; latest edition of "Redlands Water Systems Standard Specifications"; latest edition of "Redlands Sanitary Sewer Systems Standard Specifications"; and current Redlands policies and guidelines relative to development projects.

A. The following items are required prior to issuance of the GRADING PERMIT.

1. Pay plan check fee as established per resolution. The amount will be determined at plan check submittal.

2. Plans required to be submitted include:
   a. Precise Grading Plan. Grading plans shall be coordinated with the existing and proposed off-site improvements. (RMC 15.04)
   b. SWPPP/Erosion Control Plan. Erosion/Sediment Control Plan shall be submitted for review and approval. A copy of the project's Storm Water Pollution Prevention Plan (SWPPP) shall be submitted for review. SWPPP Best Management Practices (BMPs) to prevent and control discharges to the municipal separate storm sewer (drain) system shall be in effect for the entire duration of project construction to its completion and acceptance by the City. (RMC 13.54)
   c. Water Quality Management Plan. Submit final Water Quality Management Plan (WQMP) for review and approval. WQMP shall consist of post construction Best Management Practices (BMPs) prepared in accordance with the requirements and guidelines of the San Bernardino County Stormwater Program. The requirements of the WQMP shall remain in effect throughout the life of the project. (California State Order No. R8-2010-0036)

All plans used as reference for design shall be listed on title sheet of all plans with reference numbers. All plans shall be submitted on 24" x 36" size sheets. Six (6) copies of each are required. After final review, grading and SWPPP plans shall be submitted on 24" x 36" size, min. 4 mil, mylar sheets for City's approval.

3. Submission of plan sets shall be complete and include all required engineering designs and drawings listed in No. 2 above. All plans submitted shall be substantially complete, and no plan check queue place-holder plans will be accepted. An incomplete plan submittal will not be accepted for plan check.

4. All support documentation shall be submitted with the plans to be checked. Submission shall include:
   a. Hydrology Report and Hydrologic Calculations; (RMC 18.192.050)
   b. Geotechnical Report; (RMC 15.04)
   c. Easement Documents. (RMC 18.192.050)

5. The post-construction stormwater discharge rate (Q) into the open channel along the northeasterly property line from a 100 year storm event shall not be greater than the pre-construction stormwater discharge rate (Q). The post-construction stormwater discharge along all other property boundaries from a 100 year storm event shall not be greater than the pre-construction stormwater discharge as measured by both rate and volume along any part of the property boundary.

6. A final WQMP that is in substantial conformance with the preliminary WQMP and in full conformance with the WQMP Guidance Document shall be submitted and approved prior to the approval of precise grading plans.

7. Cash cleanup deposit shall be submitted ($1,000.00). Deposit will be reimbursed after the work is completed and accepted by the City upon written request. (RMC 12.16.290)

8. Truck route permit is required for all construction vehicles 5 tons and over gross vehicular weight (e.g. concrete trucks) using streets other than established truck routes. (RMC 10.54)

   NOTE: Cash cleanup deposit and truck route permit submitted during the grading process could be transferred to be used during building construction or off-site improvement construction if it is within the time limit specified in the truck route permit, otherwise a new truck route permit must be issued.

9. For all development requiring coverage under the state of California General Storm Water Permit, in effect at the time of permit issuance, and whom have filed with the State Board a Notice of Intent (NOI), a copy of the Waste Discharge Identification Number (WDID) and NOI shall be submitted for review and file. Call (866) 563-3107.(RMC 13.54)

10. The Final WQMP shall also include a site trash plan detailing the installation, operation, and maintenance of a Full Capture System (FCS) for loose trash. The intent of the FCS is to capture loose trash preventing the trash from entering the site storm drains and basins. BMPs or devices used as FCS devices shall require acceptance by the City Engineer. Full Capture Systems are defined as treatment controls (either a single device or a series of devices) capable of trapping all particles 5 mm or greater. In addition, the FCS shall trap trash from the greater of:

    a. A flow not less than the peak flow rate, Q, resulting from a one-year, one-hour, storm. Precipitation intensity shall be determined using the NOAA ATLAS 14 Point Precipitation Frequency Estimates web site; or
    b. A flow rate equal to the on-site storm water conveyance system including pipes, channels, and swales.

11. Provide a private sewer and drainage easement over APN(s) 0173-011-12 and 0173-011-40, or other location, as accepted by the City Engineer. Alternatively, a private sewer pump capable of discharging all onsite sewer effluent into the City owned sewer main in North Place shall be submitted for review and approval by the City Building Official.

12. Provide a reciprocal access easement over APN(s) 0173-011-12 and 0173-011-39 as accepted by the City Engineer.

13. Easement documents, if required, shall be prepared by a licensed Land Surveyor or registered Civil Engineer (registered prior to January 1982) and a recorded copy must be submitted prior to grading plan approval.

B. The following items are required prior to RECORDATION OF TRACT/PARCEL MAP.

No map is required for this application.

C. The following items are required prior to issuance of the BUILDING PERMIT.

1. Pay plan check fee as established per resolution. The amount is to be determined at plan check submittal.

2. Plans required to be submitted shall include:
    a. Grading; and
    b. Erosion Control.

    All plans used as reference for design shall be listed on title sheet of all plans with reference numbers. All plans shall be submitted on 24" x 36" size sheets. Three (3) copies of each are required. After final review, plans shall be submitted on 24" x 36" size, min. 4 mil, mylar sheets for City's approval.

3. All support documentation shall be submitted with the plans to be checked. Submission shall include:
   a. Hydrology Report and Hydrologic Calculations; (RMC 18.192.050)
   b. Geotechnical Report; (RMC 15.04)
   c. Easement Documents. (RMC 18.192.050)

4. The approximate locations of existing underground utilities shall be shown on the improvement/site/grading plans. The utilities shall be plotted from record and field data. The City of Redlands and the Engineer assume no liability as to the exact location of said lines where locations are not shown.

5. Provide pad certification and compaction report to the Building and Safety Department.

6. Pay the required development impact fees per ordinance in effect at time of issuing the building permit. The exact amount will be determined based upon the review of the final building plan or project information. Development Impact Fees shall include:
   - Transportation Facilities; (RMC 3.54)
   - Fire Facilities; (RMC 3.60)
   - General Government Facilities; (RMC 3.60)
   - Library Facilities; (RMC 3.60)
   - Open Space/Park; (RMC 3.32)
   - Police Facilities; (RMC 3.60)
   - Storm Drain Facilities; (RMC 3.56)
   - Water Capital Improvement Charge; (RMC 3.48)
   - Water Source Acquisition Charge; (RMC 13.40)
   - Sewer Capital Improvement Charge; (RMC 3.44)
   - Solid Waste Capital Improvement Charge; (RMC 3.70) and
   - Water/Sewer Frontage Charges. (RMC 13.44 and 13.12.)

7. Final City approved mylars for all public improvements shall be on file with the Municipal Utilities and Engineering Department.

8. Although this project will have an on-going inspection throughout construction, a final inspection for all off-site improvements must be scheduled by developer to certify that these improvements comply with City specifications. (RMC 12.16.090)

9. Requirements for North Place Lane (RMC 18.192.050):

   a. Construct City standard driveway approach.
   b. Repair/replace altered, broken or substandard existing off-site improvements to the project boundary. This is to include, but is not limited to the replacement of damaged curb & gutter;
   c. Provide full depth construction/reconstruction consistent with the City standard or alternative method of street rehabilitation as accepted by the

City Engineer between the new curb and gutter to the street centerline verified through a geotechnical report;

d. Construct standard sidewalk along the entire street frontage and ramps at all curb returns;

e. Coordinate with SCE to replace the existing sodium vapor street light on power pole with a LED luminaire with the equivalent illumination of a 100 watt sodium vapor street light;

f. Use traffic index of 5.0; and

g. Install residential/commercial fire hydrants as required by the Redlands Fire Department.

11. Provide for adequate drainage facilities. (RMC 192.050)

12. Install reduced pressure principle backflow devices as required by City Engineer. (RMC 13.20)

13. Install onsite fire line with double detector check valve backflow devices at service connection satisfactory to the City Fire Department. (RMC 13.20)

14. Comply with the Solid Waste Recycling Access Act of 1991 (AB 1327) and install double solid waste bin enclosure(s). Submit a plan prepared by a licensed engineer showing bin enclosure(s) location on the site plan with solid waste truck turning and/or turnaround track template superimposed.

15. Submit recycling plans for site demolition/construction for review and approval in accordance with Chapter 13.66 of the Redlands Municipal Code.

D. The following items are required prior to approval of APPLICATION FOR WATER SERVICE CONNECTION and prior to WATER METER INSTALLATION.

1. Pay the Water Capital Improvement Charge; (RMC 3.48.030)

2. Pay Water Source Acquisition Charge; (RMC 13.40)

3. Pay Water Frontage Charges. (RMC 13.12.)

4. Pay the Water Meter Charge. (Redlands Ordinance No. 2830)

E. The following items are required prior to issuance of the ENCROACHMENT PERMIT.

1. Cash cleanup deposit shall be submitted ($1,000.00). Deposit will be reimbursed after the work is completed and accepted by the City upon written request. (Required unless previously submitted under Sections A, B or C.) (RMC 12.16.290)

2. Truck route permit is required for all construction vehicles 5 tons and over gross vehicular weight (e.g. concrete trucks) using streets other than established truck routes. (RMC 10.54)

3. Section 4216/4217 of the Government Code requires a Dig Alert Identification Number be issued before a "Permit to Excavate" will be valid. For your Dig Alert Identification Number, call Underground Service Alert toll free, 1-800-227-2600, two (2) working days prior to conducting any excavation. (RMC 12.20.120)

4. Encroachment Permit application and two (2) sets of City approved plans must be submitted for all off-site improvements. Encroachment Permit fees shall be paid prior to issuance of Encroachment Permit. (RMC 12.16.010)

5. A California OSHA Permit Number for all work that is 5 feet deep or deeper shall be provided. Call (909)383-4321. (RMC 12.16.040)

6. A copy of soils report is required with recommendation for the final pavement structural section to be submitted prior to placing of the street pavement. The report shall include test results and boring/sampling locations.

7. A traffic control plan shall be prepared in accordance with the latest revision of CA MUTCD or W.A.T.C.H. manual, submitted and accepted by the City Engineer prior to issuance of an encroachment permit. The plan shall show all required construction signage, warning devices, road closures, detours, delineation, phasing schedules and anticipated durations of closures and detours for any work within the public right-of-way. The plans shall provide names and 24-hour phone numbers of individuals who can be contacted regarding traffic control measures.

F. The following items are required prior to issuance of CERTIFICATE OF OCCUPANCY.

1. All requirements as described in Sections A, B, C, D and E of these conditions of approval shall be met.

2. All work shall be completed to the satisfaction of the City Engineer. All as-built plans shall be delivered to the Municipal Utilities and Engineering Department for review and approval.

3. The Engineer of Record shall file a Final Certification for all grading and improvements relating to the project development.

4. Owner's Licensed Land Surveyor shall reset survey points, monuments, record corners, and centerline ties that were destroyed during construction and shall file Corner Records for those points prior to completion of the project with San Bernardino County Surveyor. Copies of information shall be furnished to the

Municipal Utilities and Engineering Department. [California B&P Code 8762, 8767, 8768, 8771, and 8773(b)]

5. Streets may be required to have a seal coat applied at the option of the City Engineer. Type of seal coat is to be determined by the City Engineer.

6. Resurface existing roadway as directed by the City Engineer due to utility installations and construction damage.

7. Existing striping shall be removed and replaced as necessary. New striping and pavement markings shall be installed as required by the City Engineer.

8. Owner/Developer shall provide recycling receipts as required by the recycling plan.

G. The following items are required prior to release of SECURITIES/WARRANTIES/DEPOSITS.

1. Prior to the release of the securities for the project, all improvements shall be reviewed and accepted by the City Engineer.

2. The release of securities/warranties/deposits must be requested in writing to the City Engineer. Allow 30 days for processing.

☐ Special Reports/Comments needed
☐ DRAFT Conditions of Approval
☒ FINAL Conditions of Approval

Reference Number: North Place Residential Care Facility

The following conditions have been applied to the above reference project pursuant to the City of Redlands Fire Department adopted codes and standards, the 2019 California Fire Code and applicable rules, regulations and standards. Conditions must be complied with as directed by Redlands Fire Department and shall be reviewed, permitted, inspected, tested and approved in accordance with the requirements set forth.

Required	Not Required	Reports and Comments
☐	☒	Special Reports or Comments - Prior to final conditions.

☐ Draft Conditions ☒ **Final Conditions**

PRIOR TO MAP

Required	Not Required	Condition
☐	☒	Minimum road width for fire apparatus in Planned Residential Developments is ☐20 ft. ☐ 26 ft. ☐28 ft. ☐____ft., if no parking is allowed, 30 feet if parking allowed on one side and 40 feet if parking is allowed on both sides.
☐	☒	The applicant shall grant an easement for the fire lane on the tentative tract map.
☐	☒	The applicant shall submit covenants or CC&Rs for review and approval by the Community Development Department, Engineering Division and Fire Department. The covenants or CC&Rs shall be recorded concurrently with the final map, and shall provide for the following: A. The maintenance of the required fire lane, with no obstructions, within an area that is a minimum of ☐ 20 ft. ☐ 26 ft. ☐ 28 ft. ☐____ft. wide and 13.6 ft. in height. Designated fire apparatus roads, streets, cul-de-sacs and turn-around (hammerhead) and/or any other emergency access within the development shall be maintained accessible and usable by emergency vehicles. Usable conditions include but are not limited to the following: 1. An all-weather road surface shall be maintained, first lift of asphalt minimum. 2. Road shall support imposed loads of fire apparatus at 75,000 pounds.

		3. No parking-fire lane signs shall be repaired or replaced as needed. 4. A monument entry sign with required address numbers shall be provided. 5. Fire lanes, streets and roads or other areas designated no parking-fire lane at time of development shall remain free at all times of any obstruction including but not limited to: vehicles, storage, debris, etc. B. The provision and maintenance of fire resistive trees for the project. Trees shall not overhang or grow into the fire lane or hammerhead turn-around. Trees shall not grow within five feet of any proposed chimneys. Vegetation, other than ground cover, shall not be permitted within five feet of fire protection systems. C. Dwellings constructed with required fire and life safety features including fire sprinklers, ignition resistant construction, smoke and carbon monoxide detectors and fire resistive landscaping shall maintain these features in accordance with state and local codes in use and applicable at the time of construction or installation. These codes include the California Fire Code, California Building Code, California Vehicle Code (fire lanes), City of Redlands Municipal Code and any other applicable codes, standards and law.
☐	☒	Private residential, public residential, commercial and industrial fire access roads shall provide an access roadway with a minimum unobstructed width of ☐ 20 ft. ☐ 26 ft. ☐ 28 ft. ☐____ft., wide and a minimum 13'6" vertical clearance. Additional width requirements may be applied to individual projects as determined by the Fire Marshal.
☐	☒	Roadways shall be extended to within one hundred and fifty feet (150) feet of all portions of the exterior walls as measured by an approved path of travel. An approved turn around shall be provided when the roadway exceeds one hundred and fifty (150) feet as directed by Redlands Fire Department. Fire Department turn around requirements shall be installed as directed, pursuant to the California Fire Code, Appendix D.
☐	☒	Grades for driveway and fire apparatus access roads shall not exceed 12%. Fire Department approval and additional conditions are required for grades above 12% maximum. Angle of approach and departure for driveways shall not exceed 7 degrees. Grades exceeding 12% shall be concrete with a deep broom finish perpendicular to the access roadway.
☐	☐	

PRIOR TO ISSUANCE OF A BUILDING OR GRADING PERMIT

Required	Not Required	Condition
☒	☐	A hazardous materials inventory and disclosure shall be provided with a complete listing of SDS sheets, storage locations, how they are stored, and types of containers. A technical report and opinion prepared by an approved consultant shall be submitted for review and approval prior to or as part of the submission for a building permit. Operational permits may be required and must be applied for prior to certificate occupancy. Application and permits shall be made to San Bernardino County Fire Department for CUPA compliance. Compliance with disclosure and requirements placed on the project for the CUPA shall be complied with prior to certificate of occupancy.
☐	☒	The building has the potential for storage of combustible stock in excess of ☐ 6 ft. ☐ 12 ft. (rubber tires) in height, meeting the requirements of high-piled combustible storage as defined in Chapter 32 of the California Fire Code. Significant modifications to the structure, including but not limited to, smoke and heat vents or mechanical ventilation, draft curtains, special access doors, upgraded sprinkler systems and hose connection requirements must be achieved in

PRIOR TO ISSUANCE OF A BUILDING OR GRADING PERMIT

Required	Not Required	Condition
		compliance with the California Fire Code Chapter 32 should such storage occur. Minimum design densities for fire sprinkler systems within spec. buildings shall be 0.33/3000. If high-piled combustible storage is proposed then plans, specifications, and a technical opinion and report shall be submitted from an approved consultant with the construction drawings to ensure fire protection requirements. High piled combustible storage requires an annual operational permit pursuant to the California Fire Code with appropriate fees paid prior to issuance and renewal.
☐	☒	To determine the acceptability of technologies, processes, products, facilities, materials and uses attending the design, operation or use of a building or premises subject to inspection by the fire code official, the fire code official is authorized to require the owner or agent to provide, without charge to the jurisdiction, a technical opinion and report. The opinion and report shall be prepared by a qualified engineer, specialist, laboratory, or fire safety specialty organization acceptable to the fire code official and shall analyze the fire safety properties of design, operation or use of the building or premises and the facilities and appurtenances situated thereon, to recommend necessary changes. The fire code official is authorized to require design submittals to be prepared by, and bear the stamp of, a registered design professional.
☒	☐	Redlands Fire Department at time of plan or permit submission will charge certain fees for plan review and inspections. Fees will be determined at time of plan review and/or inspections.
☒	☐	Redlands Fire Department at time of operational permit application will charge certain fees for permit issuance which will have, at a minimum, annual fees charged. Failure to pay required annual fees will be cause to issue a "Cease and Desist" order.
☒	☐	The proposed project shall comply with the applicable codes and standards of Title 24, Part 1-12.
☒	☐	The proposed project shall pay all applicable development impact fees, pursuant to the City of Redlands Ordinances in effect at the time and that are amended from time to time.
☐	☒	A fire command center for fire department operations shall be provided for Factories, Mercantile, and storage occupancies that are greater than 50,000 square feet. The fire command center shall be a minimum of 200 square feet and meet the requirements of the California Fire Code as amended by Local Ordinance 2900 - RMC Section 15.20.500.
☒	☐	The required fire flow shall be 1,500 GPM for a 2-hour duration at 20 PSI residual operating pressure. Documentation is required from the Municipal Utilities & Engineering Department (MUED) or an approved third party verifying that the system is capable of meeting the required fire flow prior to conditions of approval being established. If a third party is being used they must be approved by the Fire Marshal. If the system is not capable of meeting the required fire flow documentation shall be provided showing financial arrangements have been made and water system improvement plans have been submitted and approved by Redlands Fire Department and MUED to upgrade the existing system prior to release of building permits.
☐	☐	

PRIOR TO CONSTRUCTION

Required	Not Required	Condition
☒	☐	Private residential, public residential, commercial and industrial fire access roads shall provide an access roadway with a minimum unobstructed width of ☐ 20 ft. ☒ 26 ft. ☐ 28 ft. ☐ ____ ft. and

PRIOR TO CONSTRUCTION

Required	Not Required	Condition
		a minimum 13'6" vertical clearance. Additional width requirements may be applied to individual projects as determined by the Fire Marshal. **Project complies as shown on the site plan**
☒	☐	Roadways shall be extended to within one hundred and fifty feet (150) feet of all portions of the exterior walls as measured by an approved path of travel. An approved turn around shall be provided when the roadway exceeds one hundred and fifty (150) feet as directed by Redlands Fire Department, pursuant to the California Fire Code, Chapter 5 & Appendix D and as amended locally. Fire Department turn around requirements shall be installed as directed and shall be inspected and approved prior to lumber drop. **Project complies as shown on the site plan**
☒	☐	All fire apparatus access roadways must be maintained unobstructed and drivable by fire apparatus throughout the construction process. Access roadways shall be hard surfaced (paved/concrete) and capable of holding an imposed load of 75,000 pounds including in adverse weather conditions.
☐	☒	Prior to combustible construction, grades for driveway and fire apparatus access roads shall not exceed 12%. Fire Department approval and additional conditions are required for grades exceeding 12% maximum. Angle of approach and departure for driveways shall not exceed 7 degrees. Grades exceeding 12% shall be concrete with a deep broom finish perpendicular to the access roadway along with other conditions as determined by the Fire Marshal.
☐	☒	The development and each phase thereof shall have a minimum of 2-points of vehicular access for fire and emergency equipment and for routes of safe egress of citizens regardless of the cul-de-sac length and shall be required as directed by Redlands Fire Department.
☒	☐	All required fire apparatus access roads, fire lanes, fire department turn- around and entry/exit drives shall have a minimum ☐ 20 ft. ☒ 26 ft. ☐ 28 ft. ☐____ft. turning radius for fire apparatus depending on size, location and type of project. Site plans shall provide a fire department turning radius template along the fire access roadway or within a detail confirming that the radius meets Redlands Fire Department requirements.
☒	☐	Fire Apparatus Access roads (all roads in project) shall be usable (paved), accessible and fire hydrant(s) shall be capable of flowing required GPM and shall be tested/accepted by Fire Dept. prior to dropping any lumber for construction.
☐	☒	Loading zones are required adjacent to loading doors and shall be designated on the Development Site or Plot Plan and shall be marked on the appropriate ground surface. Loading zones shall not interfere with required Fire Lanes or emergency egress capabilities.
☒	☐	Roadway design features (speed humps, bumps, speed control dips, etc.) which may interfere or delay emergency apparatus responses shall not be installed or allowed to remain on the emergency access roadways.
☒	☐	Any gate or barrier across a fire access roadway, whether manual or automatic, must meet the Redlands Fire Department requirements and have specific plans and permits approved prior to installation. Gates serving multi-family, assembly, educational, hazardous, institutional, or storage structures must be automatic and meet UL 325 and ASTM F 2200 standards. Knox brand key-operated electric key switch keyed to Redlands Fire Department specification are required. The Knox switch shall override all gate functions and open the gate. Other access control systems, such as Opticom, are required and must be installed as directed by the Fire Marshal.

PRIOR TO CONSTRUCTION

Required	Not Required	Condition
☒	☐	Water improvement plans shall be approved by Redlands Fire Department. The Developer shall furnish Redlands Fire Department with three (3) copies of the water improvement plans designed by a Registered Engineer and/or Licensed Contractor. On-site private fire service mains shall have a minimum of eight (8) inch water mains with six (6) inch laterals and risers. Larger pipes maybe required to meet required fire flow requirements. Fire hydrants shall provide one 4" port and 2- 2 ½ ports and must be an approved fire hydrant type. The private fire hydrant system must be approved, installed, tested, and accepted, prior to combustible construction.
☐	☒	Fire hydrant water mains that supply two (2) or more fire hydrants shall be looped to provide adequate supply.
☐	☒	Buildings that exceed 200,000 square feet, or meet the requirements of the Municipal Utilities & Engineering Department, shall have at least two separate points of connection to a water supply, as approved by Redlands Fire Department.
☒	☐	The existing fire hydrant system is insufficient to provide the required fire flow. This system is required to be upgraded to meet the required fire flow as identified above. **On-site FH required**
☒	☐	Prior to combustibles being brought to the site, the developer shall provide written certification from Municipal Utilities & Engineering Department (MUED), dated within the last thirty days, that: A. All public fire hydrants or water purveyor connections required of the project have been installed, tested, and approved by MUED, and B. Are permanently connected to the public water main system, and C. Are capable of supplying the required fire flow as required by Redlands Fire Department.
☐	☒	Group R-3 and U Occupancies: An approved water supply capable of supplying the required fire flow for fire protection shall be provided to all premises upon which facilities, buildings, or portions of buildings are hereafter constructed or moved into or within the jurisdiction. When any portion of the facility or building protected is in excess of 600 feet (122 mm) from a water supply on a public street, as measured by an approved route around the exterior of the facility or building, on-site fire private hydrants and mains capable of supplying the required flow shall be provided when required by the Fire Code official. The size of fire hydrant outlets shall be a minimum of one 4 inch and one 2-½ inch NST outlet or greater as required by the Fire Code official.
☒	☐	In multi-family zones and in commercial and industrial zones, fire hydrants shall be installed at intersections, at the beginning radius of cul-de-sacs, and every 300 feet of fire access roadways, regardless of parcel size. The size of fire hydrant outlets shall be a minimum of one 4 inch and two 2-½ inch NST outlet as required by the Fire Code official. **Exception:** When improved methods of fire protection are provided, beyond those required by the Code, and accepted by the Fire Code official, adjusted spacing of fire hydrants from those set forth above may be considered.
☒	☐	Fire hydrants shall be painted per Redlands Fire Department and Municipal Utilities & Engineering Department standards and be maintained free of obstructions. Blue reflective raised pavement markers shall be installed on the pavement at approved locations marking each fire hydrant location.
☒	☐	Public and private water utility mains must provide the level of reliability/redundancy determined necessary by Redlands Fire Department and the Municipal Utilities & Engineering Department.

PRIOR TO CONSTRUCTION

Required	Not Required	Condition
☒	☐	If any fire hydrant is taken "OUT OF SERVICE" – Redlands Fire Department shall be notified immediately and the hydrant marked, bagged, or otherwise identified as OUT OF SERVICE as directed by the Fire Marshal.
☒	☐	Buildings on easement shall have additional street number signs at the intersections of the easement and/or the roadway, and at additional locations as required by Redlands Fire Department.
☐	☒	Street signs meeting the requirements of the City Engineer standards shall be installed at all intersections prior to final occupancy approval. Temporary street signs may be required, during construction, at the discretion of the fire code official.
☐	☒	All flammable vegetation shall be removed from each building site with slopes less that 15% at a minimum distance of thirty (30) feet from all structures or to the property line, whichever is less.
☐	☒	A fuel modification or fire protection plan is required. An approved Fire Protection Consultant that specializes in these types of complex plans shall prepare the plan. Plans and specifications shall be submitted, reviewed and approved by Redlands Fire Department prior to issuance of building construction permits.
☐	☒	The minimum fire flow in the Very High Fire Hazard Severity Zone is 2,500 GPM at 20 PSI for two hours for new subdivisions, tracts, multi-family and commercial/industrial buildings.
☒	☐	All mitigation measures relating to fire access must be addressed through the construction plan review and fire protection system review and be installed, tested and accepted by Redlands Fire Department.

PRIOR TO OCCUPANCY

Required	Not Required	Condition
☒	☐	Fire lane designations shall be required for all fire access roadways as determined by Redlands Fire Department. Posted signs which state "FIRE LANE, NO PARKING" shall be installed every 50 feet. Curbs shall be painted red and stenciled with white letters indicating the same on the face and top of any curb as directed by Redlands Fire Department. All Fire lanes shall be marked and identified prior to Certificate of Occupancy.
☒	☐	Prior to Fire Department clearance for occupancy, an automatic fire sprinkler system shall be installed. The system shall comply with **NFPA #13** Standards for Automatic Fire Sprinkler Systems. Three sets of plans, two sets of hydraulic calculations, and two material specification's sheets for all equipment used in the system shall be submitted by a State of California Licensed C-16 Contractor for review, approval, and permits must be issued prior to commencing work. **This is a mitigation measure and must meet these requirements**
☐	☒	Prior to Fire Department clearance for occupancy, an automatic fire sprinkler system shall be installed. The system shall comply with **NFPA #13-D** Standard for Automatic Fire Sprinkler Systems-Single Family Dwelling. Three sets of plans, two sets hydraulic calculations, and two material specification's sheets for all equipment used in the system shall be submitted by a State of California Licensed C-16 Contractor for review, approval, and permits must be issued prior to commencing work.

PRIOR TO OCCUPANCY

Required	Not Required	Condition
☐	☒	Prior to Fire Department clearance for occupancy, and automatic fire sprinkler system shall be installed. The system shall comply with **NFPA #13-R** Standard for Automatic Fire Sprinkler Systems-Multi-Family Dwellings. Three sets of plans, two sets of hydraulic calculations, and two sets of material specification's sheets for all equipment used in the system shall be submitted by a State of California Licensed C-16 Contractor for review, approval, and permits must be issued prior to commencing work.
☐	☒	A class _____ standpipe system is required. A State of California Licensed C-16 Contractor shall submit three (3) sets of plans, specifications, and two sets of hydraulic calculations to the Fire Department for review, approval, and permits must be issued prior to commencing work.
☒	☐	Prior to Fire Department Clearance for occupancy, and automatic fire alarm system shall be installed. The system shall comply with NFPA #72 standard for Fire Alarm Systems. Three sets of plans, two sets of material specification's sheets for all equipment used in the system and California State Fire Marshal listings shall be submitted by a State of California Licensed C-7 and/or C-10 Contractor for review, approval, and permits must be issued prior to commencing work.
☒	☐	Prior to final inspection or occupancy, hand portable fire extinguishers are required to be installed as directed by Redlands Fire Department Community Risk Reduction staff. The size, location, and markings shall be illustrated on the floor plan of the construction documents. Prior to installation the client is directed to request a fire inspection to confirm the locations of the fire extinguishers due to field changes with business systems that could conflict with the construction documents.
☐	☒	An automatic smoke removal system is required. This system shall comply with the California Fire Code, NFPA and all other applicable standards. The applicant shall submit three (3) sets of detailed plans, two sets of specifications, and testing criteria to Redlands Fire Department for review, approval and permits must be issued prior to commencing work.
☐	☒	An automatic smoke removal ventilation system (fusible link type) is required. Roof vents, venting ratios and draft curtains shall be provided in accordance with the California Fire Code, NFPA and all other applicable standards. This information shall be provided in sufficient detail on the building construction drawings and submitted to Redlands Fire Department for review, approval and permits must be issued prior to commencing work.
☒	☐	An automatic hood and duct fixed fire suppression system is required. A State of California licensed C-16 Contractor shall submit three (3) sets of detailed plans and two sets of specifications to Redlands Fire Department for review, approval and permits must be issued prior to commencing work.
☒	☐	Permanent commercial/industrial three-dimensional street numbers, minimum 12 inches in height with a ½ inch stroke, shall be provided on the address side of the building at the highest point and furthest projection of the structure. The address shall be illuminated and be visible from the street and shall not be obstructed in any manner.
☐	☒	Permanent residential three-dimensional street numbers, minimum 4 inches in height, shall be provided on the address side of the building at the highest point and furthest projection of the structure. The address shall be illuminated and be visible form the street and shall not be obstructed in any manner.

PRIOR TO OCCUPANCY

Required	Not Required	Condition
☐	☒	Permanent Multi-family three-dimensional street numbers, minimum 12 inches in height, shall be provided on the address side of the building at the highest point and furthest projection of the structure. The address shall be illuminated and be visible from the street and shall not be obstructed in any manner. Building letter designations shall be a minimum of 12 inches in height and shall be installed as directed by Redlands Fire Department fire code official.
☐	☒	Address numbers and suite numbers are required to be installed or painted on the rear of access doors to multiple suite facilities. Numbers or letters shall be a minimum of four (4) inches in height and placed on a contrasting background and be durable for the weather conditions exposed.
☐	☒	A lighted directory (site map) meeting Redlands Fire Department specifications is required at each entrance to the complex as directed by Redlands Fire Department. A site plan with all building locations identified by a number or letter, space numbers, fire protection equipment, etc. and shall be reviewed and approved by Redlands Fire Department prior to installation.
☒	☐	Knox emergency access key box is required at each building, with specific mounting locations approved by Redlands Fire Department. Recessed mount key boxes are required. Premise keys for all buildings and areas shall be marked and placed in the box prior to final inspection to ensure emergency access. The building owner/occupants shall provide replacement keys whenever locks are changed.
☒	☐	An emergency responder radio coverage plan is required to be submitted, reviewed, approved and permits issued, prior to commencing work. Emergency responder radio coverage must meet the requirements of the California Fire Code, Chapter 5, Section 510 and Redlands Fire Department. Field tests are required prior to final inspection or occupancy. **Requires field report to determine if required**
☒	☐	A fire department operational permit is required for certain specific operations regulated by the California Fire Code. The permit is issued after application has been made to Redlands Fire Department and full compliance of the requirements for the operation has been adhered to. An annual fee is charged to the applicant for review and inspection of such permits on an annual basis. Some permits require additional inspections and permit compliance that may require additional fees to be paid semi-annually.
☒	☐	Provide plans as a PDF file for pre-fire planning use by the fire department. Information shall include locations of all exits, stairwells and roof access. Also, the location of fire hydrants, fire department connections, post indicator valves, backflow prevention, gas, electrical, water, fire sprinkler risers and standpipe valves and shutoffs, and elevator and electrical equipment rooms, fire alarm panels, and remote annunciators. The symbols used for the pre-fire plan must be obtained from Redlands Fire Department.
☒	☐	Final fire protection plans, hydraulics, specifications, and technical books shall be submitted in a PDF file and checked for quality control, prior to occupancy. The PDF must contain the approved plan stamps from Redlands Fire Department.
☐	☐	

Yours in Service,

Christopher P. Jensen

Christopher P. Jensen, Fire Marshal

RESOLUTION NO. 8614

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF REDLANDS APPROVING A ONE-YEAR EXTENSION OF THE EXPIRATION DATE FOR COMMISSION REVIEW AND APPROVAL NO. 918 FOR THE CONSTRUCTION OF A 12,585 SQUARE-FOOT SUPPORTIVE HOUSING FACILITY (ASSISTED LIVING FOR SENIORS) WITH 28 BEDS, AND RELATED ON-SITE IMPROVEMENTS LOCATED ON THE NORTH SIDE OF NORTH PLACE (APN: 0173-011-39-0000).

WHEREAS, Redlands Assisted Living, LLC, applicant and owner, has submitted an application for Extension of Time No. 1 to construct the project approved with Commission Review and Approval No. 918 for the construction of a 12,585 square-foot supportive housing facility (assisted living for seniors) with 28 beds, and related on-site improvements including driveways, parking lot, landscaping, and lighting on a one-acre property. The project site is a vacant lot located on the north side of North Place (APN: 0173-011-39-0000), and approximately 400 feet east of S. Center Street and 415 feet west of S. Buena Vista Street, in the Residential Suburban (R-S) District; and

WHEREAS, on September 13, 2022, the Redlands Planning Commission held a public hearing, and adopted Resolution No. 1588 to approve Commission Review and Approval No. 918 and the associated Socio-Economic Cost/Benefit Study for the project; and

WHEREAS, Redlands Municipal Code section 18.12.130 permits an applicant to request a one-year extension of time to extend the expiration date for a Commission Review and Approval, provided the total number of such one-year extensions do not exceed three; and

WHEREAS, the applicant intends to develop the project approved by Commission Review and Approval No. 918, and requests the extension to allow more time to allocate appropriate funding and submit plans for plan check; and

WHEREAS, following the meeting for the extension of time to Commission Review and Approval No. 918, the City Council determined that the approval of the requested one-year extension of time is in the best interests of the public health, safety, and general welfare.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF REDLANDS AS FOLLOWS:

SECTION 1. California Environmental Quality Act. Approval of this Resolution is exempt from further environmental review pursuant to Section 15061(b)(3) of the State Guidelines implementing the California Environmental Quality Act, as there is no possibility of any potentially significant environmental effects as a result of the time extension. Planning Commission Resolution No. 1588 was adopted on September 13, 2022, and determined the project was exempt from environmental review in accordance with the California Environmental Quality Act. There are no changes proposed to the approved project as part of the extension of time.

SECTION 2. Approval of Extension of Time. The proposed one-year extension of time for Commission Review and Approval No. 918 is hereby approved in accordance with Redlands Municipal Code Section 18.12.130.

SECTION 3. Expiration Date. The new expiration date for Commission Review and Approval No. 918 shall be September 13, 2025. The project shall remain subject to all original Conditions of Approval (contained in Planning Commission Resolution No. 1588).

SECTION 4. Effective Date. This Resolution shall become effective upon adoption.

ADOPTED, SIGNED AND APPROVED this 16th day of July, 2024.

_____
Eddie Tejeda, Mayor

ATTEST:

_____
Jeanne Donaldson, City Clerk

I, Jeanne Donaldson, City Clerk of the City of Redlands, hereby certify that the foregoing resolution was duly adopted by the City Council at a regular meeting thereof held on the 16th day of July, 2024, by the following vote:

AYES:
NOES:
ABSENT:
ABSTAIN:

_____
Jeanne Donaldson, City Clerk

City Council Meeting **H. 13.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Reject all bids for the Recycled Water for California Street Orange Groves Project, Project No. S531021, and direct staff to solicit new bids for the project (Municipal Utilities and Engineering Director Harris)

MOTION(S):

If City Council determines the staff recommendation is appropriate, the following motion is provided:

I move that the City Council reject all bids received for the Recycled Water for California Street Orange Groves Project, Project No. S531021, and direct staff to solicit new bids for the project.

RECOMMENDATION:

Staff recommends City Council reject all bids received for the Recycled Water for California Street Orange Groves Project, Project No. S531021, and direct staff to solicit new bids for the project.

DISCUSSION:

The City operates and maintains two (2) orange groves along California Street south of I-10 between California Department of Transportation (CalTrans) and San Bernardino County Transportation Authority (SBCTA) rights-of-way. Currently, these groves are being irrigated with potable water supplied from the City's water distribution system. A City recycled water source exists on Lugonia Avenue approximately 1,600 feet north of the groves. Municipal Utilities and Engineering Department (MUED) staff engineered a project to extend this recycled water distribution pipeline south of I-10 on California Street to provide recycled water to these orange groves.

The goal of this project is to transition the City's California Grove and West Gateway Grove from potable water irrigation to recycled water irrigation. This will be the first expansion of the recycled water distribution system south of I-10 and will reduce potable water usage by approximately twenty (20) acre-ft (AF) or over six (6) million gallons each year. The project crosses the CalTrans right-of-way and connects to an existing 12-inch pipeline under the railroad within SBCTA right-of-way.

The plans were prepared by MUED staff and a bid notice was issued on May 29, 2024. The City Clerk's office received six (6) bids for the project. The Bid Opening report is attached to the report and summarized below:

BID OPENING REPORT SUMMARY	
Bidder	**Bid Amount**
1. CEM Construction, Montebello, CA	$917,400.00
2. Tryco General Engineering, Rimforest, CA	$943,310.00
3. MCC Pipeline, Inc., Yucaipa, CA	$996,593.86
4. Pacific West Underground, Inc., Yucaipa, CA	$1,185,005.00
5. Creative Home/DBA: CHI Construction, Fullerton, CA	$1,275,700.00
6. Kirtley Construction, Inc., San Bernardino, CA	$1,946,340.00

All bids significantly exceed the construction cost estimate and available Project funding. Staff recommends that the City Council reject all bids and direct staff to revise and re-advertise the Project. If approved, the Project will be re-advertised later this year combined with the annual water CIP project.

ALTERNATIVES:

City Council may deny the staff recommendation and provide alternate direction.

STRATEGIC PLAN:

City of REDLANDS "A City That Works"

City Council Meeting **H. 14.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Adopt Ordinance No. 2962 and Ordinance No. 2968 related to Development Impact Fees Adjustments (Municipal Utilities and Engineering Director Harris)

MOTION(S):

If the City Council determines that staff's recommendation is appropriate, the following motions are provided:

I move to adopt Ordinance No. 2962 and I move to adopt Ordinance No. 2968.

RECOMMENDATION:

It is recommended the City Council consider adoption of Ordinance No. 2962, amending Chapters 3.32, 3.44, 3.48, 3.54, 3.56, 3.60, 3.70, and 13.40 of the Redlands Municipal Code relating to storm drain facilities fees and public facilities fees; and Ordinance No. 2968 adopting Development Impact Fees for new development and rescinding Resolution No. 7951.

DISCUSSION:

The proposed ordinance and staff report prepared for the introduction of these ordinances are available in the City Clerk's office.

ALTERNATIVES:

The Council may continue this matter in order to allow additional time to review Ordinance No. 2962 and Ordinance No. 2968.

STRATEGIC PLAN:

Not Applicable.

Ordinance No. 2962 Amending RMC Open Space Park Fees Sewer CIP
Ordinance No. 2968 New DIF Adjustments

ORDINANCE NO. 2962

AN ORDINANCE OF THE CITY OF REDLANDS AMENDING CHAPTERS 3.32, 3.44, 3.48, 3.54, 3.56, 3.60, 3.70, AND 13.40 OF THE REDLANDS MUNICIPAL CODE RELATING TO OPEN SPACE AND PARK FEES, SEWER CAPITAL IMPROVEMENT FUND, WATER CAPITAL IMPROVEMENT FUND, TRANSPORTATION IMPROVEMENT FEES, STORM DRAIN FACILITIES FEES, PUBLIC FACILITIES FEES, SOLID WASTE CAPITAL IMPROVEMENT FUND, AND ACQUISITION OF WATER STOCKS AND WATER RIGHTS

WHEREAS, Chapters 3.32, 3.44, 3.48, 3.54, 3.56, 3.60, 3.70, and 13.40 of the Redlands Municipal Code establish, respectively, Open Space and Parks, Sewer Capital Improvement, Water Capital Improvement, Transportation Improvements, Storm Drain Facilities, Public Facilities Fees, Solid Waste Improvement, and the Acquisition of Water Stock And Water Rights to implement the City's General Plan to ensure that public facilities improvements which meet City standards are available concurrent with the need caused for such facilities by new development in the City; and

THE CITY COUNCIL OF THE CITY OF REDLANDS DOES ORDAIN AS FOLLOWS:

Section 1. Section 3.32 of the Redlands Municipal Code, entitled "Open Space and Park Fees," is hereby amended to read as follows:

"3.32.040: FEE IMPOSITION:

Open space and parks fees shall be collected from all applicants for development projects for the purpose of acquiring, developing, improving and expanding open space and park lands identified in the city's open space and park lands acquisition and development capital improvement plan in accordance with the fees approved by the City Council. No building permit shall be issued unless the fees required by this chapter are first paid. Fees collected pursuant to this chapter shall be deposited into a separate account or fund in a manner to avoid any commingling of such fees with other revenue of the city and the fees shall be expended solely for the purposes for which the fees were collected.

3.32.060: ADJUSTMENT OF FEE:

On July 1 of each fiscal year, the city's finance director, in coordination with the city's facilities and community services director, shall make annual adjustments to the specific amounts of open space and parks fees approved by the City Council by a percentage equal to the percentage change in the construction cost index of the "Engineering News-Record" twenty (20) cities annual average for the preceding twelve (12) month period. The purpose of this adjustment is to offset the effects of inflation related construction cost increases or any deflation related decreases. If this index should cease publication, the finance director shall use any appropriate official index published by the bureau of labor statistics, or similar agency as may then exist or may then be most nearly equivalent thereto. Land costs shall also be evaluated annually and adjusted as necessary based on the current market conditions at the time. "

Section 2. Section 3.44 of the Redlands Municipal Code, entitled "Sewer Capital Improvement Fund," is hereby amended to read as follows:

"3.44.030: CHARGES:

The specific amounts of the sewer capital improvement charges shall be approved by the City Council and shall be paid as a condition of issuing building permits, or other City approved entitlement, as determined within the sole discretion of the City, for buildings containing plumbing fixtures and required to have new sewer services tapping into the City's sewage system or increasing flow into the City's sewer system as estimated by the City. The charges shall be those in effect on the date the permit is issued or as such other entitlement issued by the City.

3.44.040: ADJUSTMENT OF CHARGES:

On July 1 of each fiscal year, the City's Finance Director, in coordination with the City's Municipal Utilities and Engineering Director, shall make annual adjustments to the specific amounts of the sewer capital improvement fees adopted by the City Council by a percentage equal to the percentage change in the construction cost index of the Engineering News-Record's "Construction Cost Index" - twenty (20) cities annual average for the preceding twelve (12) month period. The purpose of this adjustment is to offset the effects of inflation related construction cost increases or any deflation related decreases. If this index should cease publication, the Finance Director shall use any appropriate official index published by the Bureau of Labor Statistics, or similar agency as may then exist or may then be most nearly equivalent thereto."

Section 3. Section 3.48 of the Redlands Municipal Code, entitled "Water Capital Improvement Fund," is hereby amended to read as follows:

"3.48.030: CHARGES:

A. Except as otherwise provided for in this section, the water capital improvement fees shall be approved by the City Council and shall be paid as a condition of approval of an application for a new water connection or, for any property or use having an existing water connection and which is increasing its water demand on the City's utilities system, as a condition of issuance of any building permit, business license, or other entitlement from the City associated with the change in the property or use that is causing such increased demand. The charge due shall be that charge in effect on the date the application for a connection is approved or on the date the entitlement authorizing the increased demand is issued. All water capital improvement charges shall be deposited into the City's Water Capital Improvement Fund.

3.48.040: ADJUSTMENT OF CHARGES:

On July 1 of each fiscal year, the City's Finance Director, in coordination with the City's Municipal Utilities and Engineering Director, shall make annual adjustments to the specific amounts of the water capital improvement fees approved by the City Council by a percentage equal to the percentage change in the construction cost index of the Engineering News-Record's "Construction Cost Index" - twenty (20) cities annual average for the preceding twelve (12) month period. The purpose of this adjustment is to offset the effects of inflation related construction cost increases or any deflation related decreases. If this index should cease publication, the Finance Director shall

use any appropriate official index published by the Bureau of Labor Statistics, or similar agency as may then exist or may then be most nearly equivalent thereto."

Section 4. Section 3.54 of the Redlands Municipal Code, entitled "Transportation Improvement Fees," is hereby amended to read as follows:

"3.54.040: COLLECTION OF TRANSPORTATION IMPROVEMENT FEES:

Transportation improvement fees shall be collected from applicants for development projects as provided in this chapter and approved by the City Council implementing this chapter. No building permit shall be issued unless the fees required by this chapter are first paid and the development project is consistent with the city's general plan. Fees collected pursuant to this chapter shall be deposited in a special fund established for the purpose of constructing the transportation improvements provided for in the city's general plan and approved capital improvement programs. The fees required by this chapter are in addition to any other means of financing facilities or improvements identified in the city's general plan which may be imposed on the development of property under the provisions of state law, this code or city policy.

3.54.080: ESTABLISHMENT OF FEE:

In accordance with the city's general plan, the transportation improvement fees shall cover one hundred percent (100%) of the city's estimated costs for transportation improvements required by new development projects. The transportation improvement fees to be paid by a development project shall be based upon a determination of the number of vehicle trips generated by the development project, and the specific transportation improvement fee per trip generated shall be approved by the City Council. The transportation improvement fees collected shall be allocated to various transportation improvements comprising the city's street system, traffic signal system and freeway interchanges in percentages established by resolution of the city council.

3.54.090: ADJUSTMENT OF FEE:

On July 1 of each fiscal year, beginning in July 2007, the director of finance shall make annual adjustments to the specific amounts of fees approved by the City Council by a percentage equal to the percentage chain (in the construction cost index of the "Engineering News-Record" - 20 cities annual average) for the preceding twelve (12) month period. This adjustment will offset the effects of inflation related construction cost increase (or any deflation related decreases). If this index should cease publication, the director of finance shall use any appropriate official index published by the bureau of labor statistics, or similar agency as may then exist or may then be most nearly equivalent thereto. Land costs may be evaluated annually and adjusted as necessary based on the current market conditions at the time."

Section 5. Section 3.56 of the Redlands Municipal Code, entitled "Storm Drain Facilities Fees," is hereby amended to read as follows:

"3.56.020: DEFINITIONS:
Whenever the following terms are used in this chapter, they shall have the meanings established by this section:

ACCESSORY DWELLING UNIT: An attached or a detached residential dwelling unit which provides complete independent living facilities for one or more persons. It shall include permanent provisions for living, sleeping, eating, cooking, and sanitation on the same parcel as the single-family dwelling is situated. An accessory dwelling unit also includes the following:

(A) An efficiency unit, as defined in Section 17958.1 of the Health and Safety Code.

(B) A manufactured home, as defined in Section 18007 of the Health and Safety Code.

ADMINISTRATIVE AUTHORITY: The director of municipal utilities and engineering of the city.

COMMERCIAL DEVELOPMENT: Any building in which wholesale or retail selling or educational activities may occur, and hotel/motel development.

DEVELOPMENT: Any use to which land is put, and any building, construction, or other alteration of land incident thereto.

INDUSTRIAL DEVELOPMENT: All manufacturing and warehouse development.

MASTER STORM DRAIN PLAN: The storm drain plan prepared by or under the direction of the city public works director and approved by the city and which identifies facilities and improvements required on a citywide basis to serve the projected population of the city as established by the city's general plan.

MULTI-FAMILY UNIT: Each unit of an apartment, duplex, multiple- dwelling structure or dwelling group or condominium, and a manufactured or mobilehome located in a mobilehome park on a temporary, semi-permanent or permanent basis.

OFFICE DEVELOPMENT: All general, professional and medical office development.

SENIOR RESTRICTED DWELLING UNIT: For purposes of this chapter, is defined as:

(A) A unit restricted by a covenant that runs with the land addressing the required age restriction to the satisfaction of the city.

(B) The unit's water meter serves only internal water use. Landscape irrigation shall be provided through a separate water meter service.

(C) The dwelling unit shall be less than 1,500 square feet of livable area.

Removal of the age restriction or an increase in the size of the unit will result in a reassessment of the charges.

SINGLE-FAMILY DEVELOPMENT: An attached or detached one-family dwelling unit.

3.56.040: STORM DRAIN FEES:

Storm drain fees shall be collected from applicants for development permits as approved by the City Council. No building permit shall be issued unless the fees approved by the City Council are

first paid and the permit is consistent with the city's master storm drain plan. Fees collected as approved by the City Council shall be deposited in a special fund established for the purpose of constructing the storm facilities provided in the city's master storm drain plan. The fees approved by the City Council are in addition to any other means of financing facilities or improvements identified in the city's master storm drain plan which may be imposed on the development of property under the provisions of state law, this code or city policy.

3.56.070: DETERMINATION AND PAYMENT:

The storm drain fees approved by the City Council are collected for the construction of storm drain facilities and improvements for which the city has established an account, appropriated funds and adopted a proposed construction schedule or plan prior to final inspection or issuance of a certificate of occupancy for the development project for which the fees are imposed, or the fees are to reimburse the city for expenditures previously made, and shall be determined and become due and payable to the city at the time of issuance of a building permit for the development project.

3.56.080: ADJUSTMENT OF FEE:

On July 1 of each fiscal year, the city's finance director, in coordination with the city's public works director, shall make annual adjustments to the specific amounts of storm drain fees approved by the City Council by a percentage equal to the percentage change in the construction cost index of the "Engineering News-Record" - twenty (20) cities annual average for the preceding twelve (12) month period. The purpose of this adjustment is to offset the effects of inflation related construction cost increases or any deflation related decreases. If this index should cease publication, the director of finance shall use any appropriate official index published by the bureau of labor statistics, or similar agency as may then exist or may then be most nearly equivalent thereto. Land costs may be evaluated annually and adjusted as necessary based on the current market conditions at the time."

Section 6. Section 3.60 of the Redlands Municipal Code, entitled "Public Facilities Fees," is hereby amended to read as follows:

"3.60.020: DEFINITIONS:
Whenever the following terms are used in this chapter, they shall have the meanings established by this section:

ACCESSORY DWELLING UNIT: An attached or a detached residential dwelling unit which provides complete independent living facilities for one or more persons. It shall include permanent provisions for living, sleeping, eating, cooking, and sanitation on the same parcel as the single-family dwelling is situated. An accessory dwelling unit also includes the following:

(A) An efficiency unit, as defined in Section 17958.1 of the Health and Safety Code.

(B) A manufactured home, as defined in Section 18007 of the Health and Safety Code.

ADMINISTRATIVE AUTHORITY: The director of municipal utilities and engineering of the city.

COMMERCIAL DEVELOPMENT: Any building in which wholesale or retail selling or educational activities may occur, and hotel/motel development.

DEVELOPMENT: Any use to which land is put, and any building, construction, or other alteration of land incident thereto.

INDUSTRIAL DEVELOPMENT: All manufacturing and warehouse development.

MULTI-FAMILY UNIT: Each unit of an apartment, duplex, multiple- dwelling structure or dwelling group or condominium, and a manufactured or mobilehome located in a mobilehome park on a temporary, semi-permanent or permanent basis.

OFFICE DEVELOPMENT: All general, professional and medical office development.

SENIOR RESTRICTED DWELLING UNIT: For purposes of this chapter, is defined as:

(A) A unit restricted by a covenant that runs with the land addressing the required age restriction to the satisfaction of the city.

(B) The unit's water meter serves only internal water use. Landscape irrigation shall be provided through a separate water meter service.

(C) The dwelling unit shall be less than 1,500 square feet of livable area.

Removal of the age restriction or an increase in the size of the unit will result in a reassessment of the charges.

SINGLE-FAMILY DEVELOPMENT: An attached or detached one-family dwelling unit.

3.60.040: FEES:

Public facility fees shall be collected from applicants for development projects for the purpose of constructing, improving, providing and maintaining public facilities identified in the city's public facility program in accordance with the amounts approved by the City Council. No building permit shall be issued unless the fees approved by the City Council are first paid. Fees collected as approved by the City Council shall be deposited into separate capital facilities accounts or funds in a manner to avoid any commingling of such fees with other revenues of the city and the fees shall be expended solely for the purposes for which the fees were collected. The fees required of an applicant for a development project approved by the City Council are in addition to any other means of financing public facilities or related improvements identified in the city's public facility program which may be imposed upon the applicant for the development project under the provisions of federal, state or local law

3.60.050: PAYMENT:

The public facility fees approved by the City Council shall be paid by the applicant for a development project as a condition of, and at the time of issuance of, a building permit for the development project. The City Council has determined that the approved fees will be collected for public improvements and public facilities for which an account has been established and funds appropriated and for which the city has adopted a proposed construction schedule or plan prior to the dates of final inspection or issuance of a certificate of occupancy for new development, and/or fees approved by the City Council are to reimburse the city for expenditures previously made.

3.60.060: ADJUSTMENT OF FEE:

On July 1 of each fiscal year, the city's finance director, in coordination with the city's public works director, shall make annual adjustments to the specific amounts of public facilities fees approved by the City Council by a percentage equal to the percentage change in the construction cost index of the "Engineering News-Record" - twenty (20) cities annual average for the preceding twelve (12) month period. The purpose for this adjustment is to offset the effects of inflation related construction cost increases or any deflation related decreases. If this index should cease publication, the director of finance shall use any appropriate official index published by the bureau of labor statistics, or similar agency as may then exist or may then be most nearly equivalent thereto. Land costs shall also be evaluated annually and adjusted as necessary based on the current market conditions at the time. ”

Section 7. Section 3.70 of the Redlands Municipal Code, entitled “Solid Waste Capital Improvement Fund,” is hereby amended to read as follows:

“3.70.030: CHARGES:

A. The solid waste capital improvement charge for the following categories shall be approved by the City Council and shall be paid as a condition of issuance of building permits for buildings required to have new solid waste services from the City’s solid waste system or increasing the solid waste stream into the City’s solid waste system as estimated by the City. The charges shall be those in effect on the date the permit is issued.

1. Accessory dwelling units: The charge for this category shall be per accessory dwelling unit.
2. Single-family dwelling units: The charge for this category shall be per dwelling or unit.
3. Multiple-family dwelling units, apartments, and mobilehome park lots or space: The charge for this category shall be per dwelling or unit or mobilehome space.
4. Nonresidential development: The charge for this category shall be a charge per pound per day estimated solid waste as estimated by the Public Works Department.
5. All solid waste capital improvement charges shall be credited to the Solid Waste Capital Improvement Fund.

B. 1. The owner of the property shall pay to the City the difference in the solid waste capital improvement charges calculated on the basis of currently established charges.

a. If a building or the use of a building on a parcel of property which building had been served by the solid waste system is charged in a way that would make the solid waste capital improvement charge greater; or

b. If a building is replaced on a parcel of property, which building had been served by the solid waste system, and the replacement building would have a greater solid waste capital improvement charge than the building replaced.

The difference in charges shall be due prior to final approval of a conditional use permit, if applicable, or, if not, prior to building permit issuance. If not collectible in this manner, such difference shall be invoiced with the next billing for solid waste service and collectible in the same manner as the billing for solid waste service.

2. If a building or the use of a building on a parcel of property is changed in any way that would make the solid waste capital improvement charge less, no refund shall be made, but the property shall retain the amount of credit established for its previous use.

3.70.040: ADJUSTMENT OF CHARGES:

On July 1 of each fiscal year, the City's Finance Director, in coordination with the City's Municipal Utilities and Engineering Director, shall make annual adjustments to the specific amounts of the solid waste capital improvement fees approved by the City Council by a percentage equal to the percentage change in the construction cost index of the Engineering News-Record's "Construction Cost Index" - twenty (20) cities annual average for the preceding twelve (12) month period. The purpose of this adjustment is to offset the effects of inflation related construction cost increases or any deflation related decreases. If this index should cease publication, the Finance Director shall use any appropriate official index published by the Bureau of Labor Statistics, or similar agency as may then exist or may then be most nearly equivalent thereto."

Section 8. Section 13.40 of the Redlands Municipal Code, entitled "Acquisition of Water Stocks and Water Rights," is hereby amended to read as follows:

"13.40.030: DEVELOPER REQUIREMENTS:

For any development project that will require water service or incremental water demand from the City, a water source acquisition charge shall be approved by the City Council and shall be paid as a condition of final approval of that development. The charge due shall be that amount in effect on the date approval of the development is given by the City.

13.40.040: ADJUSTMENT OF CHARGES:

On July 1 of each fiscal year, the City's Finance Director, in coordination with the City's Municipal Utilities and Engineering Director, shall make annual adjustments to the specific amounts of the water source acquisition fees approved by the City Council by a percentage equal to the percentage change in the construction cost index of the Engineering News-Record's "Construction Cost Index" - twenty (20) cities annual average for the preceding twelve (12) month period. The purpose of this adjustment is to offset the effects of inflation related construction cost increases or any deflation related decreases. If this index should cease publication, the Finance Director shall use any appropriate official index published by the Bureau of Labor Statistics, or similar agency as may then exist or may then be most nearly equivalent thereto."

Section 9. The City Council hereby determines that the adoption of this ordinance is exempt from review under the California Environmental Quality Act ("CEQA") pursuant to State CEQA Guidelines section 15061(b)(3) because this City Council determines that it can be seen with certainty that approval of this ordinance will have no direct or indirect impact on the physical environment, and that approval of this ordinance is not a "project" under CEQA as that term is defined in Public Resources Code section 21065.

Section 10. Severability. If any section, sentence, clause or phrase of this ordinance or the application thereof to any entity, person or circumstance is held for any reason to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect other provisions or applications of this ordinance which can be given effect without the invalid provisions or application, and to this end the provisions of this ordinance are severable. The City Council of the City of Redlands hereby declares that it would have adopted this ordinance and each section, sentence, clause or phrase thereof, irrespective of the fact that any one or more section, subsections, sentences, clauses or phrases be declared invalid or unconstitutional

Section 11. The Mayor shall sign this ordinance and the City Clerk shall certify to the adoption of this ordinance and shall cause it, or a summary of it, to be published once in a newspaper of general circulation within the City, and thereafter, this ordinance shall take effect as provided by law.

Jeanne Donaldson, City Clerk

ORDINANCE NO. 2968

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF REDLANDS ESTABLISHING DEVELOPMENT IMPACT FEES FOR NEW DEVELOPMENT WITH RESPECT TO STORM DRAIN, SEWER, WATER, SOLID WASTE, ACQUISITION OF WATER STOCK AND WATER RIGHTS, OPEN SPACE AND PARKS, TRANSPORTATION, AND PUBLIC FACILITIES, AND RESCINDING RESOLUTION NO. 7951

WHEREAS, Chapters 3.32, 3.44, 3.48, 3.54, 3.56, 3.60, 3.70, and 13.40 of the Redlands Municipal Code establish, respectively, Open Space and Parks, Sewer Capital Improvement, Water Capital Improvement, Transportation Improvements, Storm Drain Facilities, Public Facilities Fees, Solid Waste Improvement, and the Acquisition of Water Stock And Water Rights to implement the City's General Plan and Master Plans to ensure that public facilities improvements which meet City standards are available concurrent with the need caused for such facilities by new development in the City; and

WHEREAS, new residential and non-residential development within the City will generate additional residents and employees who will require additional public facilities. Land for these facilities will have to be acquired and public facilities and equipment will have to be expanded, constructed or purchased to meet this increased demand; and

WHEREAS, the Development Impact Fee Nexus Study ("Fee Study") has been prepared in response to the projected direct and cumulated effect of future development. Each new development will contribute to the need for new public facilities. Without future development many of the new public facilities on the Needs Lists would not be necessary as the existing facilities are adequate for the City's present population. In instances where facilities would be built regardless of new development, the costs of such facilities have been allocated to new and existing development based on their respective level of benefit; and

WHEREAS, the proposed impact fee will be charged to all new/future development, irrespective of location, in the City. Even future "in fill" development projects contribute to impacts on public facilities because they are an interactive component of a much greater universe of development located throughout the City. First, the property owners and/or the tenants associated with any new development in the City can be expected to place additional demands on City facilities funded by the fee. Second, these property owners and tenants are dependent on and, in fact, may not have chosen to utilize their development, except for residential, retail, employment and recreational opportunities located nearby on other existing and future development. Third, the availability of residents, employees, and customers throughout the City has a growth inducing impact without which some of the "in-fill" development would not occur. As a result, all development projects in the City contribute to the cumulative impacts of development; and

WHEREAS, the fee will be used for the acquisition, installation, and construction of the public facilities identified on the Needs Lists, included in Section IV of the Fee Study and other appropriate costs to mitigate the direct and cumulative impacts of new development in the City. The fee will provide a source of revenue to the City to allow for the acquisition, installation, and construction of public facilities, which in turn will maintain the current standard of service, preserve the quality of

life in City and protect the health, safety, and welfare of the existing and future residents, visitors, and employees; and

WHEREAS, it is the projected direct and cumulative effect of future development that has prompted the preparation of the Fee Study. Each development will contribute to the need for new public facilities. Without future development, the City would have no need to construct many of the public facilities on the Needs Lists. For all other facilities, the costs have been allocated to both existing and new development based on their level of benefit. Even future "infill" development projects, which may be adjacent to existing facilities, further burden existing public facilities. Consequently, all new development within the City, irrespective of location, contributes to the direct and cumulative impacts of development on public facilities and creates the need for new facilities to accommodate growth; and

WHEREAS, the fees will be expended for the acquisition, installation, and construction of the public facilities identified on the Needs Lists and other authorized uses, as that is the purpose for which the Fee is collected. As previously stated, all new development creates either a direct impact on public facilities or contributes to the cumulative impact on public facilities. Moreover, this impact is generally equalized among all types of development because it is the increased demands for public facilities created by the future residents and employees that create the impact upon existing facilities; and

WHEREAS, all new development within the City, irrespective of location, contributes to the direct and cumulative impacts of development on public facilities and creates the need for new facilities to accommodate growth. Without future development, many of the facilities on the Needs Lists would not be necessary. For certain other facilities, the costs have been allocated to both existing and new development based on their level of benefit; and

WHEREAS, it is now the desire of the City Council of the City of Redlands ("this City Council") to establish development impact fees for new development; and

WHEREAS, on May 2, 2024, David Taussig and Associates, Inc. dba DTA, prepared a study in accordance with Assembly Bill (AB) 1600 and Government Code Section 66000, *et. seq*. for the City recommending the amounts of development impact fees which may be imposed for new development; and

WHEREAS, the development impact fee provisions of the Redlands Municipal Code provide that the specific amounts of fees shall be established by this City Council;

WHEREAS, the term "Residential Property" includes Accessory Dwelling Unit above 750 sq.ft., Single Family, Multi-Family, and Transit Oriented; and

WHEREAS, by purposes of efficiency, it is further the desire of this City Council to establish the development impact fees for new development in this ordinance.

THE CITY COUNCIL OF THE CITY OF REDLANDS DOES ORDAIN AS FOLLOWS:

Section 1. The Open Space and Parks Fee is hereby established in the following amounts:

Residential Development	Fee per Building Sq.Ft.
Residential Property	$ 1.1794

Section 2. The Library Fee is hereby established in the following amounts:

Residential Development	Fee per Building Sq.Ft.
Residential Property	$ 0.5997

Section 3. The Storm Drain Facilities Fee is hereby established in the following amounts:

Residential Development	Fee per Building Sq.Ft.
Residential Property	$ 0.5113

	Non-Residential	Fee per 1,000 Building Sq.Ft.
1.	Retail	$ 611.00
2.	Commercial	$ 611.00
3.	Food Service and Entertainment	$ 611.00
4.	Office	$ 611.00
5.	Warehousing – Standard	$ 611.00
6.	Warehousing – High Cube	$ 611.00
7.	Manufacturing and Assembly	$ 611.00
8.	Industrial/Other	$ 645.00
9.	Industrial and Health Care	$ 645.00

Non-Residential	Fee per Room
Hotel/Motel	$ 351.00

Section 4. The Public Facilities Fee is hereby established in the following amounts:

Residential Development	Fee per Building Sq.Ft.
Residential Property	$ 0.7145

	Non-Residential	Fee per 1,000 Building Sq.Ft.
1.	Retail	$ 1,052.00
2.	Commercial	$ 261.00
3.	Food Service and Entertainment	$ 5,243.00
4.	Office	$ 3,296.00
5.	Warehousing – Standard	$ 1,414.00
6.	Warehousing – High Cube	$ 283.00
7.	Manufacturing and Assembly	$ 381.00
8.	Industrial/Other	$ 3,900.00
9.	Industrial and Health Care	$ 874.00

Non-Residential	Fee per Room
Hotel/Motel	$ 226.00

Section 5. The Fire Protection Facilities Fee is hereby established in the following amounts:

Residential Development	Fee per Building Sq.Ft.
Residential Property	$ 0.4503

Non-Residential	Fee per 1,000 Building Sq.Ft.
1. Retail	$ 663.00
2. Commercial	$ 165.00
3. Food Service and Entertainment	$ 3,305.00
4. Office	$ 2,077.00
5. Warehousing – Standard	$ 891.00
6. Warehousing – High Cube	$ 178.00
7. Manufacturing and Assembly	$ 240.00
8. Industrial/Other	$ 2,458.00
9. Industrial and Health Care	$ 551.00

Non-Residential	Fee per Room
Hotel/Motel	$ 143.00

Section 6. The Police Facilities Fee is hereby established in the following amounts:

Residential Development	Fee per Building Sq.Ft.
Residential Property	$ 0.5197

Non-Residential	Fee per 1,000 Building Sq.Ft.
1. Retail	$ 765.00
2. Commercial	$ 190.00
3. Food Service and Entertainment	$ 3,814.00
4. Office	$ 2,397.00
5. Warehousing – Standard	$ 1,029.00
6. Warehousing – High Cube	$ 206.00
7. Manufacturing and Assembly	$ 277.00
8. Industrial/Other	$ 2,837.00
9. Industrial and Health Care	$ 636.00

Non-Residential	Fee per Room
Hotel/Motel	$ 165.00

Section 7. The Transportation System Improvements Fee is hereby established in the following amounts:

Residential Development	Fee per Building Sq.Ft.
Residential Property	$ 1.3954

Non-Residential	Fee per 1,000 Building Sq.Ft.
1. Retail	$ 7,382.00
2. Commercial	$ 7,150.00

3.	Food Service and Entertainment	$14,979.00

Hotel/Motel	$ 2,253.00

Section 8. The Sewer Capital Improvement Fee is hereby established in the following amounts:

Residential Development	Fee per Building Sq.Ft.
Residential Property	$ 0.2696

	Non-Residential	Fee per 1,000 Building Sq.Ft.
1.	Retail	$ 450.00
2.	Commercial	$ 450.00
3.	Food Service and Entertainment	$ 450.00
4.	Office	$ 450.00
5.	Warehousing – Standard	$ 480.00
6.	Warehousing – High Cube	$ 480.00
7.	Manufacturing and Assembly	$ 480.00
8.	Industrial/Other	$ 480.00
9.	Industrial and Health Care	$ 150.00

Non-Residential	Fee per Room
Hotel/Motel	$ 392.00

Note, the Sewer Capital Improvement Fee shall not be applicable to any accessory dwelling unit created within the existing space of a single-family residence or accessory structure, including but not limited to, a studio, pool house, or other similar structure.

Section 9. The Water Capital Improvement Fee is hereby established in the following amounts:

Residential Development	Fee per Building Sq.Ft.
Residential Property	$ 2.3657

	Non-Residential	Fee per 1,000 Building Sq.Ft.
1.	Retail	$ 438.00
2.	Commercial	$ 951.00
3.	Food Service and Entertainment	$ 951.00
4.	Office	$ 1,141.00
5.	Warehousing – Standard	$ 190.00
6.	Warehousing – High Cube	$ 190.00

7.	Manufacturing and Assembly	$ 951.00
8.	Industrial/Other	$ 951.00
9.	Industrial and Health Care	$ 3,139.00

Non-Residential	Fee per Room
Hotel/Motel	$ 1,902.00

Note, the Water Capital Improvement Fee shall not be applicable to any accessory dwelling unit created within the existing space of a single-family residence or accessory structure, including but not limited to, a studio, pool house, or other similar structure.

Section 10. The Solid Waste Capital Improvement Fee is hereby established in the following amounts:

Residential Development	Fee per Building Sq.Ft.
Residential Property	$ 0.0702

	Non-Residential	Fee per 1,000 Building Sq.Ft.
1.	Retail	$ 60.00
2.	Commercial	$ 60.00
3.	Food Service and Entertainment	$ 60.00
4.	Office	$ 60.00
5.	Warehousing – Standard	$ 60.00
6.	Warehousing – High Cube	$ 60.00
7.	Manufacturing and Assembly	$ 60.00
8.	Industrial/Other	$ 60.00
9.	Industrial and Health Care	$ 60.00

Non-Residential	Fee per Room
Hotel/Motel	$ 10.00

Section 11. The Acquisition of Water Stocks and Water Rights Fee is hereby established in the following amounts:

Residential Development	Fee per Building Sq.Ft.
Residential Property	$ 0.6633

	Non-Residential	Fee per 1,000 Building Sq.Ft.
1.	Retail	$ 123.00
2.	Commercial	$ 267.00
3.	Food Service and Entertainment	$ 267.00
4.	Office	$ 320.00
5.	Warehousing – Standard	$ 53.00
6.	Warehousing – High Cube	$ 53.00
7.	Manufacturing and Assembly	$ 267.00
8.	Industrial/Other	$ 267.00
9.	Industrial and Health Care	$ 880.00

Non-Residential	Fee per Room
Hotel/Motel	$ 533.00

Note, the Acquisition of Water Stocks and Water Rights Fee shall not be applicable to any accessory dwelling unit created within the existing space of a single-family residence or accessory structure, including but not limited to, a studio, pool house, or other similar structure.

Section 12. The City Council hereby determines that the adoption of this ordinance is exempt from review under the California Environmental Quality Act ("CEQA") pursuant to State CEQA Guidelines section 15061(b)(3) because this City Council determines that it can be seen with certainty that approval of this ordinance will have no direct or indirect impact on the physical environment, and that approval of this ordinance is not a "project" under CEQA as that term is defined in Public Resources Code section 21065.

Section 13. Notwithstanding any other section of this ordinance, the development impact fees established herein shall take effect January 1, 2025 and Resolution No. 7951 shall be rescinded.

Section 14. Severability. If any section, sentence, clause or phrase of this ordinance or the application thereof to any entity, person or circumstance is held for any reason to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect other provisions or applications of this ordinance which can be given effect without the invalid provisions or application, and to this end the provisions of this ordinance are severable. The City Council of the City of Redlands hereby declares that it would have adopted this ordinance and each section, sentence, clause or phrase thereof, irrespective of the fact that any one or more section, subsections, sentences, clauses or phrases be declared invalid or unconstitutional.

Section 15. The Mayor shall sign this ordinance and the City Clerk shall certify to the adoption of this ordinance and shall cause it, or a summary of it, to be published once in a newspaper of general circulation within the City, and thereafter, this ordinance shall take effect as provided by law.

Jeanne Donaldson, City Clerk

I, Jeanne Donaldson, City Clerk, City of Redlands, hereby certify that the foregoing Ordinance was duly adopted by the City Council at the regular meeting thereof, held on the 16th day of July 2024, by the following vote:

AYES:
NOES:
ABSENT:
ABSTAIN:

_____
Jeanne Donaldson, City Clerk

City Council Meeting **H. 15.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve the termination of the Non-Potable Irrigation Water System Memorandum of Understanding with the San Bernardino Community College District and determine that this action is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act (Municipal Utilities and Engineering Director Harris)

MOTION(S):

If City Council determines the staff recommendation is appropriate, the following motions are provided:

1. I move that City Council determine the termination of the Non-Potable Irrigation Water System Memorandum of Understanding with the San Bernardino Community College District is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act; and,

2. I move that City Council authorize the Director of Municipal Utilities and Engineering to execute a letter of termination of the Non-Potable Irrigation Water System Memorandum of Understanding with the San Bernardino Community College District.

RECOMMENDATION:

Staff recommends that City Council authorize the Director of Municipal Utilities and Engineering to execute a letter of termination of the Non-Potable Irrigation Water System Memorandum of Understanding with the San Bernardino Community College District is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act.

Staff further recommends that City Council authorize the Director of Municipal Utilities and Engineering to execute a letter of termination of the Non-Potable

Irrigation Water System Memorandum of Understanding with the San Bernardino Community College District.

DISCUSSION:

On November 15, 2016, the City Council approved a Memorandum of Understanding (MOU) with the San Bernardino Community College District (District) for the funding, design, installation, and operation of a non-potable irrigation water system at Crafton Hills College. The project was completed soon after and the responsibilities of both Parties detailed in the MOU were satisfied. Since completion of the project, Crafton Hills College has received non-potable irrigation water from the South Mountain Water Company (SMWC) system through SMWC shares owned by Redlands.

In February 2024, City Council approved the sale of the City's SMWC shares to Yucaipa Valley Water District (YVWD). The City no longer owns shares in SMWC and is no longer entitled to receive water from the SMWC system. Subsequently, Crafton Hills College disconnected its non-potable irrigation water system from the SMWC system and now receives non-potable irrigation water through the YVWD recycled water system. As such, the MOU is no longer applicable to the Crafton Hills College landscape irrigation practices and must be terminated. If City Council approves the recommendation to terminate this MOU, staff will provide a written thirty (30) day notice to the District.

Termination of this MOU is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act since it can be seen with certainty that doing so will not negatively impact the environment.

ALTERNATIVES:

City Council may deny the staff recommendation and provide alternate direction.

STRATEGIC PLAN:

SBCCD MOU

MEMORANDUM OF UNDERSTANDING BETWEEN THE CITY OF REDLANDS AND THE SAN BERNARDINO COMMUNITY COLLEGE DISTRICT REGARDING FUNDING, DESIGN, INSTALLATION, AND OPERATION OF A NON-POTABLE IRRIGATION WATER SYSTEM AT CRAFTON HILLS COLLEGE

This **MEMORANDUM OF UNDERSTANDING** ("MOU") is hereby authorized this 15TH day of NOVEMBER, 2016, by and between the CITY OF REDLANDS, a public body and corporate and politic, on behalf of itself and the SAN BERNARDINO COMMUNITY COLLEGE DISTRICT (hereinafter referred to as the "College"; collectively, the City, District, and College are referred to as the "Parties"), and is made with reference to the funding and construction of a non-potable irrigation water system at Crafton Hills College (the "Non-Potable Water Project"):

RECITALS

WHEREAS, the City of Redlands is responsible for meeting the water demands for the College; and,

WHEREAS, the College desires to enhance their water supply services by connecting their irrigation system to the City's non-potable water supply located at the west entrance to the campus on Sand Canyon Road; and,

WHEREAS, the City of Redlands is willing to provide the said service in accordance with the applicable rules and ordinances regarding non-potable water service; and,

WHEREAS, the College desires to assist the City in obtaining their goal to reduce potable water consumption; and,

NOW THEREFORE the College and the City agree to pay for, design, and construct the non-potable water system as follows:

Section 1. Responsibilities of the Parties

City: The City is responsible to design and construct the non-potable water system from the existing point of connection on Sand Canyon Road to the meter located on the southeast corner of Campus Drive and Emerald View Drive (near Parking Lot A) including any necessary modifications or enhancements to existing pumping stations, equipment, piping, or facilities. Construction of the system shall include all necessary permits, utility investigation, demolition and removal, excavation, installation, compaction, inspections, and complete restoration of the affected areas.

In consideration for the City designing and constructing this portion of the system, the College shall reimburse the City up to $224,894.91.

Payment by College to City shall be made within thirty (30) days after College's receipt of City's invoice, by warrant payable to City.

College: The College is responsible for design and construction of the non-potable water system from the service side of the water meter to be located on the southeast corner of Campus Drive and Emerald View Drive (near Parking Lot A). Costs for this portion of the system are the responsibility of the College.

Section 2. System Capacity Requirements

Flow: The City shall design and construct equipment, facilities, and infrastructure necessary to supply a minimum of 540 gallons per minute.

No Guarantee of Service: The City will make a reasonable effort to maintain non-potable service to the College; however, service outages may periodically occur.

Time of Use: The City shall supply water to the College between the hours of 10:00pm and 10:00am unless otherwise coordinated with the City.

Section 3. Installation Standards

College shall design and construct a non-potable irrigation system with material and installation that conforms to the City of Redlands Municipal Water Division Standard Specifications.

Section 4. Schedule

The City shall commence installation, and construction upon execution of this agreement. The construction schedule shall be coordinated with College staff in such a manner to permit vehicular access to/from the campus during operating hours (7:00AM through 10:00PM, Monday through Friday) or otherwise as coordinated with College staff. On site construction shall be completed by January 13, 2017.

Section 5. Liability; Indemnification.

The College shall, to the fullest extent permitted by law, indemnify, defend, protect, and hold harmless the City of Redlands and its respective officers, board members, council members, representatives and agents, and their respective successors ("City Parties"), from and against any and all claims, responsibilities and/or liabilities for any costs, losses, liabilities, damages, expenses (including all reasonable out-of-pocket litigation costs and attorneys' fees) and demands of any nature whatsoever related directly or indirectly to, or arising out of or in connection with the design and construction of the non-potable water system, except to the extent caused by the sole negligence or willful misconduct of the City or the City Parties.

The City, including, but not limited to, the City's successors, shall, to the fullest extent permitted by law, indemnify, defend, protect, and hold harmless the College and its officers, board members, employees, representatives, and agents, and their respective successors ("College Parties"), from and against any and all claims, responsibilities and/or liabilities for any costs, losses, liabilities, damages, expenses (including all reasonable out-of-pocket litigation costs and attorneys' fees) and demands of any nature whatsoever related directly or indirectly to,

or arising out of or in connection with the design and construction of the non-potable water system, except to the extent caused by the sole negligence or willful misconduct of the College or the College Parties.

IN WITNESS WHEREOF, the Parties hereto have executed this Agreement on the day and year first above written.

Dated: 11/15, 2016.	**CITY OF REDLANDS** Signature: _____ Print Name: Paul W. Foster Title: Mayor ATTEST: Sam Irwin, City Clerk _____
Dated: 11/15, 2016.	**SAN BERNARDINO COMMUNITY COLLEGE DISTRICT** By: _____ Steve Sutorus, Business Manager

City Council Meeting **H. 16.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve Amendment No. 1 to the San Bernardino County Transportation Authority (SBCTA) Master License Agreement (Contract No. 23-1002930) for City utilities within SBCTA rights-of-way, and determine that approval of the amendment is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act (Municipal Utilities and Engineering Director Harris)

MOTION(S):

If City Council determines the staff recommendation is appropriate, the following motions are provided:

1. I move that the City Council determine that approval of Amendment No. 1 to the San Bernardino County Transportation Authority Master License Agreement (Contract No. 23-1002930) is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act; and

2. I move that City Council approve Amendment No. 1 to the SBCTA Master License Agreement (Contract No. 23-1002930).

RECOMMENDATION:

Staff recommends that City Council determine approval of Amendment No. 1 to the November 21, 2023 SBCTA Master License Agreement (Contract No. 23-1002930) is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act, and approve Amendment No. 1 to the SBCTA Master License Agreement.

DISCUSSION:

MUED staff is preparing to extend an existing recycled water distribution pipeline on California Street from Lugonia Avenue to a point south of I-10, with the goal of transitioning the City's California Grove and West Gateway Grove from potable water irrigation to recycled water irrigation. This will be the first expansion of the recycled water distribution system south of I-10. The extension of the recycled waterline will go through CalTrans rights-of-way and will connect the existing twelve inch (12") pipeline under the Redlands Passenger Rail, which is San Bernardino County Transportation Authority (SBCTA) right-of-way. SBCTA requires a license agreement to govern the operation and maintenance of this facility.

On November 21, 2023, City Council approved a Master License Agreement with SBCTA (Contract No. 23-100293). This agreement governs the operation of a City potable waterline crossing along the east side of University Street that parallels the rail to the east along the north side of Orange Blossom Trail to Judson Street. This amendment consolidates twelve (12) similar utility crossings, including the proposed recycled water pipeline crossing at California Street, into a single agreement.

Location	**Facilities**
California Street	12-inch DIP Non-potable, 12-inch AC Potable Waterline and 12-inch VCP Sewerline
New York Street	8-inch DIP Non-potable Waterline, 24-inch VCP Sewerline and 16-inch CML&C Potable Waterline
Colton Avenue	36-inch RCP Storm Drain line and 12-inch AC Potable Waterline
6th Street	16-inch DIP Potable Waterline
University Street	8-inch DIP Potable Waterline
Texas Street	66-inch RCP Storm Drain line and 12-inch DIP Potable Waterline
Mountain View Avenue	12-inch CML&C Potable Waterline, 12-inch Recycled Waterline and 2-12-inch and 1-6-inch PVC Sewerline
Alabama Street	8-inch VCP Sewer line, 39-inch RCP Storm Drain and 12-inch DIP Potable Waterline
Eureka Street	8-inch DIP Non-potable Waterline, 12-inch PVC Potable Waterline and 8-inch AC Potable Waterline

Orange Street	12-inch DIP Potable Waterline
7th Street	8-inch DIP Potable Waterline
9th Street	8-inch VCP Sewerline, 8-inch DIP Potable Waterline and 60-inch RCP Storm Drain line

Approval of Amendment No. 1 to the Master License Agreement is exempt from environmental review pursuant to Section 15061(b)(3) of the State's guidelines implementing the California Environmental Quality Act as approval of the amendment to the Master License Agreement will not have a significant impact on the environment.

ALTERNATIVES:

City Council may deny the staff recommendation and provide alternate direction.

MASTER LICENSE AMENDMENT No. 1

For SBCTA Contract No. 23-1002930

This AMENDMENT is made and entered into as of the date executed by SAN BERNARDINO COUNTY TRANSPORTATION AUTHORITY (SBCTA), pursuant to Public Utility Code §§130800 et seq. ("SBCTA"), and CITY OF REDLANDS, a municipal corporation and general law city ("LICENSEE").

RECITALS:

SBCTA and LICENSEE are parties to a master license agreement dated November 21, 2023, known to SBCTA as Contract No. 23-1002930 a true and correct copy of which is attached hereto as Attachment 1 and hereby incorporated by reference, together with any and all modifications, supplements, and amendments thereto, being hereinafter referred to as the "Original License", the basic terms of which are provided in Part I thereunder.

The parties desire to modify the Original License as hereinafter provided, effective the date the last Party signs it. Except as specifically amended by this Amendment, all other provisions of the Original License shall remain in full force and effect.

AMENDMENT TERMS:

It is mutually agreed that the Original License is hereby changed, as follows:

I. DELETE Section 3.1.1 in its entirety and REPLACE it as follows:

"3.1.1 Administration Fee. The Administration Fee set forth in each SLE, the aggregate total thereof which may be discounted as described in Exhibit E, shall be due and payable annually in advance prior to January 1st of each year."

II. ADD the following to Exhibit A, "Specific License Exhibit" attached hereto as Attachment 2:

Exhibit A-2, "Specific License Exhibit – Location 2"
through
Exhibit A-13, "Specific License Exhibit – Location 13"

III. Exhibit E is DELETED in its entirety and is REPLACED by the Exhibit E, "Control Master Ledger" is attached hereto as Attachment 3.

IV. All other provisions of the Original License shall remain unchanged by this Amendment No. 1 and in effect.

V. This Amendment may be executed in counterparts, each of which shall be deemed an original, but all of which, together, shall constitute one and the same instrument.

IN WITNESS WHEREOF, this AMENDMENT was duly executed by the LICENSEE and SBCTA on the dates below and is effective as the date executed by SBCTA.

LICENSEE:	SBCTA:
CITY OF REDLANDS	SAN BERNARDINO COUNTY TRANSPORTATION AUTHORITY, a county transportation authority pursuant to Public Utility Code §§130800 et seq.

Exhibit "A-2"

SBCTA Contract No. 23-1002930

SPECIFIC LICENSE EXHIBIT TO MASTER LICENSE AGREEMENT

This Specific License Exhibit ("SLE") to Master License Agreement is entered into as of the date executed by the San Bernardino County Transportation Authority ("SBCTA" or "Licensor") and CITY OF REDLANDS ("Licensee"), pursuant to the provisions of the Master License Agreement dated November 21, 2023, which is incorporated herein by reference, and all terms and definitions contained in the Master Agreement shall apply to this SLE.

1. DESCRIPTION OF UTILITY PROJECT AND USE.

Description of Improvements, Utility and/or Appurtenances:

One (1) 12-inch, 0.28 inch thick, ductile iron pipe waterline within a 24-inch steel casing.

One (1) 12-inch, asbestos concrete waterline within a 20-inch steel casing.

One (1) 12-inch, vitrified clay pipe sewer line within a 24-inch steel casing.

Use of Premises:
Operation, maintenance and repair of Improvements.

The facility described in this SLE shall be referred to as the "Utility Project." To the extent that plans, or permits are prepared or required for the Utility Project, Licensee shall submit such plans or permits to SBCTA prior to Licensee's commencement of the Utility Project. Exhibit "E": SLE Control Master Ledger summarizes features of each Utility Project and tracks associated payments with each facility.

2. DESCRIPTION OF THE PREMISES.

City: Redlands Subdivision: San Gabriel

Address and/or Milepost Location:
Transverse crossings 25 feet east (DIP waterline), 22 feet west (AC waterline) and 7 feet east (sewer) of California Street.
Mile Post 63.02

Approximate Area: 1,500 square feet; 0.034 acres

[See Attachment No. 1 – SLE: Map/Depiction of Premises]

Exhibit "A-2"

Description and Dimensions of the Premises Area:

An underground non-potable waterline transverse crossing of SBCTA's San Gabriel Subdivision 25 feet east of the centerline of California Street, 50 feet in length and 10 feet in width.

An underground non-potable waterline transverse crossing of SBCTA's San Gabriel Subdivision 22 feet west of the centerline of California Street, 50 feet in length and 10 feet in width.

An underground sewer line transverse crossing of SBCTA's San Gabriel Subdivision 7 feet east of the centerline of California Street, 50 feet in length and 10 feet in width.

This SLE supersedes the following agreements:
Agreement/Contract Number RRND007369, License Agreement between Atchison, Topeka and Santa Fe Railway Company (ATSF) (SBCTA's predecessor in interest) and the City of Redlands, dated March 19, 1968.

Agreement/Contract Number RRND007350, License Agreement between ATSF (SBCTA's predecessor in interest) and the City of Redlands, dated March 10, 1978.

3. TERM.

The term of this License shall commence on the date this SLE is executed.

Term (check one):

(_X_) A. Month-to-Month
(___) B. Until End Date: _____ (subject to termination pursuant to the terms of the SLE – see especially Standard Master License Agreement Provisions).

4. PARTIES.

The Utility Project will be performed or constructed by the Licensee. The Licensee representative or other person responsible for the Utility Project can be contacted at:

Name:	Goutam K. Dobey
Address:	35 Cajon Street, Suite 15A, Redlands, CA 92373
Phone Number:	(909) 798-7584 Ext. 2
Email Address:	gdobey@cityofredlands.org

5. ADMINISTRATION FEE.

Licensee shall pay Licensor an Administration Fee of ONE THOUSAND TWO HUNDRED DOLLARS ($1,200.00) for Licensor's costs for processing this SLE as set forth in Section 3.1.1 of the MLA. This payment shall be made within five (5) days of execution of this SLE, and then annually in advance prior to each anniversary of the execution of the SLE for as long as this SLE is in effect. The Administration Fee, at the sole discretion of the Licensor, may be revised to reflect the Licensor's annual costs of administering this SLE as those costs may change over time as set forth in Section 3 of the MLA. The annual Administration Fee identified herein may be further subject to a discounted rate based on number of Utility Projects under the MLA as further described in Exhibit "E": SLE Control Master Ledger enumerating all Utility Projects under the MLA.

6. ANNUAL USE FEE.

Licensee shall pay Licensor an Annual Base Use Fee of ZERO DOLLARS ($0.00) as set forth herein and subsequently adjusted pursuant to Section 3.2 of the MLA. Such Annual License Fee shall be due and payable on upon Licensee's execute of the SLE; and the Annual License Fee Payment Date as set forth in Section 3 of the MLA during each succeeding year for as long as this SLE is in effect. The Annual License Fee, at the sole discretion of the Licensor, may be revised as set forth in Section 3 of the MLA.

7. ADDITIONAL USE FEE.

Pursuant to Section 3.1.4 of the Standard Master License Provisions, an Additional Use Fee for the Utility Project in the amount of ZERO DOLLARS ($0.00) shall be due and payable upon execution of the SLE by Licensee.

8. INDEMNITY AND INSURANCE REQUIREMENTS.

Licensee shall fully comply with all terms and obligations contained within the MLA, which are incorporated herein by this reference, including payment of prevailing wages if applicable, as well as all insurance and indemnity requirements. However, if SBCTA allows, in its sole discretion, Licensee to obtain insurance varying from the requirements set forth in the MLA, which requirements shall be attached hereto in Attachment No. 2 – SLE: Varying Insurance Requirements and incorporated herein by reference. Such varying insurance shall be subject to the requirements set forth in Section 9 of the MLA.

Exhibit "A-2"

IN WITNESS WHEREOF, the Licensee acknowledges that it understands and agrees to all of the above terms in this Specific License Exhibit on the day and year first above written.

SPECIFIC LICENSE EXHIBIT TO MASTER LICENSE AGREEMENT

This Specific License Exhibit ("SLE") to Master License Agreement is entered into as of the date executed by the San Bernardino County Transportation Authority ("SBCTA" or "Licensor") and CITY OF REDLANDS ("Licensee"), pursuant to the provisions of the Master License Agreement dated November 21, 2023, which is incorporated herein by reference, and all terms and definitions contained in the Master Agreement shall apply to this SLE.

1. DESCRIPTION OF UTILITY PROJECT AND USE.

Description of Improvements, Utility and/or Appurtenances:

One (1) 8-inch, 0.312 inch thick, ductile iron pipe waterline within an 18-inch steel casing.

One (1) 24-inch, vitrified clay pipe sewer line within a 48-inch steel casing.

One (1) 16-inch, steel waterline within a 24-inch steel casing.

Use of Premises:
Operation, maintenance and repair of Improvements.

The facility described in this SLE shall be referred to as the "Utility Project." To the extent that plans, or permits are prepared or required for the Utility Project, Licensee shall submit such plans or permits to SBCTA prior to Licensee's commencement of the Utility Project. Exhibit "E": SLE Control Master Ledger summarizes features of each Utility Project and tracks associated payments with each facility.

2. DESCRIPTION OF THE PREMISES.

City: Redlands Subdivision: San Gabriel

Address and/or Milepost Location:
Transverse crossings 19 feet east (16" water) and 50 feet east (8" water) of New York Street; Longitudinal crossing 15 feet south of the north SBCTA right of way line (24" sewer).

Mile Post 64.82

Approximate Area: 2,360 square feet; 0.054 acres

[See Attachment No. 1 – SLE: Map/Depiction of Premises]

Exhibit "A-3"

Description and Dimensions of the Premises Area:
An underground recycled waterline transverse crossing of SBCTA's San Gabriel Subdivision along the east side of New York Street, 100 feet in length and 10 feet in width.

An underground sewer longitudinal installation along SBCTA's San Gabriel Subdivision along the north side of the rail right of way between New York Street and Stuart Street, 240 feet in length and 10 feet in width.

An underground waterline transverse crossing of SBCTA's San Gabriel Subdivision along the east side of New York Street, 102 feet in length and 10 feet in width.

This SLE supersedes the following agreements:
Agreement/Contract Number 21-1002608 (RRND007747), License Agreement between SANBAG (SBCTA's predecessor in interest) and the City of Redlands, dated June 25, 2015.

Agreement/Contract Number RRND007352, License Agreement between Atchison, Topeka and Santa Fe Railway Company (SBCTA's predecessor in interest) and the City of Redlands, dated December 12, 1990.

Agreement/Contract Number RRND007390, License Agreement between Atchison, Topeka and Santa Fe Railway Company (SBCTA's predecessor in interest) and the City of Redlands, dated May 15, 1963.

3. TERM.

The term of this License shall commence on the date this SLE is executed.

Term (check one):

The Utility Project will be performed or constructed by the Licensee. The Licensee representative or other person responsible for the Utility Project can be contacted at:

Name:	Goutam K. Dobey
Address:	35 Cajon Street, Suite 15A, Redlands, CA 92373
Phone Number:	(909) 798-7584 Ext. 2
Email Address:	gdobey@cityofredlands.org

5. ADMINISTRATION FEE.

Licensee shall pay Licensor an Administration Fee of ONE THOUSAND TWO HUNDRED DOLLARS ($1,200.00) for Licensor's costs for processing this SLE as set forth in Section 3.1.1 of the MLA. This payment shall be made within five (5) days of execution of this SLE, and then annually in advance prior to each anniversary of the execution of the SLE for as long as this SLE is in effect. The Administration Fee, at the sole discretion of the Licensor, may be revised to reflect the Licensor's annual costs of administering this SLE as those costs may change over time as set forth in Section 3 of the MLA. The annual Administration Fee identified herein may be further subject to a discounted rate based on number of Utility Projects under the MLA as further described in Exhibit "E": SLE Control Master Ledger enumerating all Utility Projects under the MLA.

6. ANNUAL USE FEE.

Licensee shall pay Licensor an Annual Base Use Fee of ZERO DOLLARS ($0.00) as set forth herein and subsequently adjusted pursuant to Section 3.2 of the MLA. Such Annual License Fee shall be due and payable on upon Licensee's execute of the SLE; and the Annual License Fee Payment Date as set forth in Section 3 of the MLA during each succeeding year for as long as this SLE is in effect. The Annual License Fee, at the sole discretion of the Licensor, may be revised as set forth in Section 3 of the MLA.

7. ADDITIONAL USE FEE.

Pursuant to Section 3.1.4 of the Standard Master License Provisions, an Additional Use Fee for the Utility Project in the amount of ZERO DOLLARS ($0.00) shall be due and payable upon execution of the SLE by Licensee.

8. INDEMNITY AND INSURANCE REQUIREMENTS.

Licensee shall fully comply with all terms and obligations contained within the MLA, which are incorporated herein by this reference, including payment of prevailing wages if applicable, as well as all insurance and indemnity requirements. However, if SBCTA allows, in its sole discretion, Licensee to obtain insurance varying from the requirements set forth in the MLA, which requirements shall be attached hereto in Attachment No. 2 – SLE: Varying Insurance Requirements and incorporated herein by reference. Such varying insurance shall be subject to the requirements set forth in Section 9 of the MLA.

Exhibit "A-3"

IN WITNESS WHEREOF, the Licensee acknowledges that it understands and agrees to all of the above terms in this Specific License Exhibit on the day and year first above written.

SBCTA Contract No. 23-1002930

SPECIFIC LICENSE EXHIBIT TO MASTER LICENSE AGREEMENT

This Specific License Exhibit ("SLE") to Master License Agreement is entered as of the date executed by the San Bernardino County Transportation Authority ("SBCTA" or "Licensor") and CITY OF REDLANDS ("Licensee"), pursuant to the provisions of the Master License Agreement dated November 21, 2023, which is incorporated herein by reference, and all terms and definitions contained in the Master Agreement shall apply to this SLE.

1. DESCRIPTION OF UTILITY PROJECT AND USE.

Description of Improvements, Utility and/or Appurtenances:

One (1) 36-inch, reinforced concrete pipe storm drain within a 60-inch steel casing and 18" reinforced concrete pipe lateral collection lines.

One (1) 12-inch, asbestos cement pipe waterline within a 20-inch steel casing.

Use of Premises:
Operation, maintenance and repair of Improvements.

The facility described in this SLE shall be referred to as the "Utility Project." To the extent that plans, or permits are prepared or required for the Utility Project, Licensee shall submit such plans or permits to SBCTA prior to Licensee's commencement of the Utility Project. Exhibit "E": SLE Control Master Ledger summarizes features of each Utility Project and tracks associated payments with each facility.

2. DESCRIPTION OF THE PREMISES.

City: Redlands Subdivision: San Gabriel

Address and/or Milepost Location:
Transverse crossing west of Colton Avenue.
Mile Post 64.21

Approximate Area: 7,650 square feet; 0.176 acres

[See Attachment No. 1 – SLE: Map/Depiction of Premises]

Description and Dimensions of the Premises Area:
An underground storm drain transverse crossing of SBCTA's San Gabriel Subdivision along the west side of Colton Avenue, an irregular shaped area approximately 7,150 square feet.

This SLE supersedes the following agreement: Agreement/Contract Number 21-1002511 (RRND007738), License Agreement between SANBAG (SBCTA's predecessor in interest)

and the City of Redlands, dated March 17, 2015.

An underground waterline transverse crossing of SBCTA's San Gabriel Subdivision west of the original Colton Avenue, 50 feet in length and 10 feet in width.

This SLE supersedes the following agreement: Agreement/Contract Number RRND007738, License Agreement between Atchison, Topeka and Santa Fe Railway Company (SBCTA's predecessor in interest) and the City of Redlands, dated October 19, 1923

3. TERM.

The term of this License shall commence on the date this SLE is executed.

Term (check one):

(_X_) A. Month-to-Month
(___) B. Until End Date: _____ (subject to termination pursuant to the terms of the SLE – see especially Standard Master License Agreement Provisions).

4. PARTIES.

The Utility Project will be performed or constructed by the Licensee. The Licensee representative or other person responsible for the Utility Project can be contacted at:

Name:	Goutam K. Dobey
Address:	35 Cajon Street, Suite 15A, Redlands, CA 92373
Phone Number:	(909) 798-7584 Ext. 2
Email Address:	gdobey@cityofredlands.org

5. ADMINISTRATION FEE.

Licensee shall pay Licensor an Administration Fee of ONE THOUSAND TWO HUNDRED DOLLARS ($1,200.00) for Licensor's costs for processing this SLE as set forth in Section 3.1.1 of the MLA. This payment shall be made within five (5) days of execution of this SLE, and then annually in advance prior to each anniversary of the execution of the SLE for as long as this SLE is in effect. The Administration Fee, at the sole discretion of the Licensor, may be revised to reflect the Licensor's annual costs of administering this SLE as those costs may change over time as set forth in Section 3 of the MLA. The annual Administration Fee identified herein may be further subject to a discounted rate based on number of Utility Projects under the MLA as further described in Exhibit "E": SLE Control Master Ledger enumerating all Utility Projects under the MLA.

6. ANNUAL USE FEE.

Licensee shall pay Licensor an Annual Base Use Fee of ZERO DOLLARS ($0.00) as set forth herein and subsequently adjusted pursuant to Section 3.2 of the MLA. Such Annual License Fee shall be due and payable on upon Licensee's execute of the SLE; and the Annual License Fee Payment Date as set forth in Section 3 of the MLA during each succeeding year for as long

as this SLE is in effect. The Annual License Fee, at the sole discretion of the Licensor, may be revised as set forth in Section 3 of the MLA.

7. ADDITIONAL USE FEE.

Pursuant to Section 3.1.4 of the Standard Master License Provisions, an Additional Use Fee for the Utility Project in the amount of ZERO DOLLARS ($0.00) shall be due and payable upon execution of the SLE by Licensee.

8. INDEMNITY AND INSURANCE REQUIREMENTS.

Licensee shall fully comply with all terms and obligations contained within the MLA, which are incorporated herein by this reference, including payment of prevailing wages if applicable, as well as all insurance and indemnity requirements. However, if SBCTA allows, in its sole discretion, Licensee to obtain insurance varying from the requirements set forth in the MLA, which requirements shall be attached hereto in Attachment No. 2 – SLE: Varying Insurance Requirements and incorporated herein by reference. Such varying insurance shall be subject to the requirements set forth in Section 9 of the MLA.

IN WITNESS WHEREOF, the Licensee acknowledges that it understands and agrees to all of the above terms in this Specific License Exhibit on the day and year first above written.

SPECIFIC LICENSE EXHIBIT TO MASTER LICENSE AGREEMENT

This Specific License Exhibit ("SLE") to Master License Agreement is entered into as of the date executed by the San Bernardino County Transportation Authority ("SBCTA" or "Licensor") and CITY OF REDLANDS ("Licensee"), pursuant to the provisions of the Master License Agreement dated November 21, 2023, which is incorporated herein by reference, and all terms and definitions contained in the Master Agreement shall apply to this SLE.

1. DESCRIPTION OF UTILITY PROJECT AND USE.

Description of Improvements, Utility and/or Appurtenances:

One (1) 12-inch, CML&C potable waterline in steel casing.

One (1) 12-inch, ductile iron pipe recycled waterline.

Two (2) 12-inch and one (1) 6-inch polyvinyl chloride sewer lines all within a concrete encasement.

Use of Premises:
Operation, maintenance and repair of Improvements.

The facility described in this SLE shall be referred to as the "Utility Project." To the extent that plans, or permits are prepared or required for the Utility Project, Licensee shall submit such plans or permits to SBCTA prior to Licensee's commencement of the Utility Project. Exhibit "E": SLE Control Master Ledger summarizes features of each Utility Project and tracks associated payments with each facility.

2. DESCRIPTION OF THE PREMISES.

City: Redlands Subdivision: San Gabriel

Address and/or Milepost Location:
Transverse crossings 22 feet (potable waterline), 30 feet (recycled water) and 31.25 feet (sewer) east of Mountain View Avenue.
Mile Post 61.87

Approximate Area: 3,900 square feet; 0.090 acres

[See Attachment No. 1 – SLE: Map/Depiction of Premises]

Exhibit "A-8"

Description and Dimensions of the Premises Area:

An underground potable waterline transverse crossing of SBCTA's San Gabriel Subdivision 22 feet east of the centerline of Mountain View Avenue, 130 feet in length and 10 feet in width.

An underground recycled waterline transverse crossing of SBCTA's San Gabriel Subdivision 30 feet east of the centerline of Mountain View Avenue, 130 feet in length and 10 feet in width.

An underground sewer line encasement transverse crossing of SBCTA's San Gabriel Subdivision 31.25 feet east of the centerline of Mountain View Avenue, 130 feet in length and 10 feet in width.

This SLE supersedes the following agreement: Agreement/Contract Number 21-1002489 (RRND007647), License Agreement between SBCTA and the City of Redlands, dated July 12, 2021.

3. TERM.

The term of this License shall commence on the date this SLE is executed.

Term (check one):

(_X_) A. Month-to-Month
(___) B. Until End Date: _____ (subject to termination pursuant to the terms of the SLE – see especially Standard Master License Agreement Provisions).

4. PARTIES.

Phone Number:	(909) 798-7584 Ext. 2
Email Address:	gdobey@cityofredlands.org

5. ADMINISTRATION FEE.

Licensee shall pay Licensor an Administration Fee of ONE THOUSAND TWO HUNDRED DOLLARS ($1,200.00) for Licensor's costs for processing this SLE as set forth in Section 3.1.1 of the MLA. This payment shall be made within five (5) days of execution of this SLE, and then annually in advance prior to each anniversary of the execution of the SLE for as long as this SLE is in effect. The Administration Fee, at the sole discretion of the Licensor, may be revised to reflect the Licensor's annual costs of administering this SLE as those costs may change over time as set forth in Section 3 of the MLA. The annual Administration Fee identified herein may be further subject to a discounted rate based on number of Utility Projects under the MLA as further described in Exhibit "E": SLE Control Master Ledger enumerating all Utility Projects under the MLA.

6. ANNUAL USE FEE.

Licensee shall pay Licensor an Annual Base Use Fee of ZERO DOLLARS ($0.00) as set forth herein and subsequently adjusted pursuant to Section 3.2 of the MLA. Such Annual License Fee shall be due and payable on upon Licensee's execute of the SLE; and the Annual License Fee Payment Date as set forth in Section 3 of the MLA during each succeeding year for as long as this SLE is in effect. The Annual License Fee, at the sole discretion of the Licensor, may be revised as set forth in Section 3 of the MLA.

7. ADDITIONAL USE FEE.

Pursuant to Section 3.1.4 of the Standard Master License Provisions, an Additional Use Fee for the Utility Project in the amount of ZERO DOLLARS ($0.00) shall be due and payable upon execution of the SLE by Licensee.

8. INDEMNITY AND INSURANCE REQUIREMENTS.

Licensee shall fully comply with all terms and obligations contained within the MLA, which are incorporated herein by this reference, including payment of prevailing wages if applicable, as well as all insurance and indemnity requirements. However, if SBCTA allows, in its sole discretion, Licensee to obtain insurance varying from the requirements set forth in the MLA, which requirements shall be attached hereto in Attachment No. 2 – SLE: Varying Insurance Requirements and incorporated herein by reference. Such varying insurance shall be subject to the requirements set forth in Section 9 of the MLA.

Exhibit "A-8"

IN WITNESS WHEREOF, the Licensee acknowledges that it understands and agrees to all of the above terms in this Specific License Exhibit on the day and year first above written.

SBCTA Contract No. 23-1002930

SPECIFIC LICENSE EXHIBIT TO MASTER LICENSE AGREEMENT

This Specific License Exhibit ("SLE") to Master License Agreement is entered into as of the date executed by the San Bernardino County Transportation Authority ("SBCTA" or "Licensor") and CITY OF REDLANDS ("Licensee"), pursuant to the provisions of the Master License Agreement dated November 21, 2023, which is incorporated herein by reference, and all terms and definitions contained in the Master Agreement shall apply to this SLE.

1. DESCRIPTION OF UTILITY PROJECT AND USE.

Description of Improvements, Utility and/or Appurtenances:

One (1) 8-inch, vitrified clay pipe sewer line within an 18-inch steel casing and under an 8 inch (min.) concrete blanket.

One (1) 39-inch, reinforced concrete pipe storm drain line within a 54-inch steel casing.

One (1) 12-inch, ductile iron pipe waterline within a 24-inch steel casing

Use of Premises:
Operation, maintenance and repair of Improvements.

The facility described in this SLE shall be referred to as the "Utility Project." To the extent that plans, or permits are prepared or required for the Utility Project, Licensee shall submit such plans or permits to SBCTA prior to Licensee's commencement of the Utility Project. Exhibit "E": SLE Control Master Ledger summarizes features of each Utility Project and tracks associated payments with each facility.

2. DESCRIPTION OF THE PREMISES.

City: Redlands Subdivision: San Gabriel

Address and/or Milepost Location:
Transverse crossing 25 feet east (water), 21 feet east (storm drain), and 25 feet east (sewer) of Alabama Street.
Mile Post 64.03

Approximate Area: 1,500 square feet; 0.034 acres

[See Attachment No. 1 – SLE: Map/Depiction of Premises]

Exhibit "A-9"

Description and Dimensions of the Premises Area:
An underground sewer line transverse crossing of SBCTA's San Gabriel Subdivision along the east side of Alabama Street, 50 feet in length and 10 feet in width.

An underground storm drain line transverse crossing of SBCTA's San Gabriel Subdivision along the east side of Alabama Street, 50 feet in length and 10 feet in width.

An underground waterline transverse crossing of SBCTA's San Gabriel Subdivision along the east side of Alabama Street, 50 feet in length and 10 feet in width.

This SLE supersedes the following agreements:
Agreement/Contract Number RRND007359, License Agreement between Atchison, Topeka and Santa Fe Railway Company (SBCTA's predecessor in interest) and the City of Redlands, dated October 10, 1980.

Agreement/Contract Number RRND007638, License Agreement between SANBAG (SBCTA's predecessor in interest) and the City of Redlands, dated April 1, 2007.

3. TERM.

The term of this License shall commence on the date this SLE is executed.

Term (check one):

(_X_) A. Month-to-Month
(___) B. Until End Date: _____ (subject to termination pursuant to the terms of the SLE – see especially Standard Master License Agreement Provisions).

4. PARTIES.

The Utility Project will be performed or constructed by the Licensee. The Licensee representative or other person responsible for the Utility Project can be contacted at:

Name:	Goutam K. Dobey
Address:	35 Cajon Street, Suite 15A, Redlands, CA 92373
Phone Number:	(909) 798-7584 Ext. 2
Email Address:	gdobey@cityofredlands.org

5. ADMINISTRATION FEE.

Licensee shall pay Licensor an Administration Fee of ONE THOUSAND TWO HUNDRED DOLLARS ($1,200.00) for Licensor's costs for processing this SLE as set forth in Section 3.1.1 of the MLA. This payment shall be made within five (5) days of execution of this SLE, and then annually in advance prior to each anniversary of the execution of the SLE for as long as this SLE is in effect. The Administration Fee, at the sole discretion of the Licensor, may be revised to reflect the Licensor's annual costs of administering this SLE as those costs may change over time as set forth in Section 3 of the MLA. The annual Administration Fee identified herein may be further subject to a discounted rate based on number of Utility Projects under the MLA as further described in Exhibit "E": SLE Control Master Ledger enumerating all Utility Projects under the MLA.

6. ANNUAL USE FEE.

Licensee shall pay Licensor an Annual Base Use Fee of ZERO DOLLARS ($0.00) as set forth herein and subsequently adjusted pursuant to Section 3.2 of the MLA. Such Annual License Fee shall be due and payable on upon Licensee's execute of the SLE; and the Annual License Fee Payment Date as set forth in Section 3 of the MLA during each succeeding year for as long as this SLE is in effect. The Annual License Fee, at the sole discretion of the Licensor, may be revised as set forth in Section 3 of the MLA.

7. ADDITIONAL USE FEE.

Pursuant to Section 3.1.4 of the Standard Master License Provisions, an Additional Use Fee for the Utility Project in the amount of ZERO DOLLARS ($0.00) shall be due and payable upon execution of the SLE by Licensee.

8. INDEMNITY AND INSURANCE REQUIREMENTS.

Licensee shall fully comply with all terms and obligations contained within the MLA, which are incorporated herein by this reference, including payment of prevailing wages if applicable, as well as all insurance and indemnity requirements. However, if SBCTA allows, in its sole discretion, Licensee to obtain insurance varying from the requirements set forth in the MLA, which requirements shall be attached hereto in Attachment No. 2 – SLE: Varying Insurance Requirements and incorporated herein by reference. Such varying insurance shall be subject to the requirements set forth in Section 9 of the MLA.

Exhibit "A-9"

IN WITNESS WHEREOF, the Licensee acknowledges that it understands and agrees to all of the above terms in this Specific License Exhibit on the day and year first above written.

SBCTA Contract No. 23-1002930

SPECIFIC LICENSE EXHIBIT TO MASTER LICENSE AGREEMENT

This Specific License Exhibit ("SLE") to Master License Agreement is entered as of the date executed by the San Bernardino County Transportation Authority ("SBCTA" or "Licensor") and CITY OF REDLANDS ("Licensee"), pursuant to the provisions of the Master License Agreement dated November 21, 2023, which is incorporated herein by reference, and all terms and definitions contained in the Master Agreement shall apply to this SLE.

1. DESCRIPTION OF UTILITY PROJECT AND USE.

Description of Improvements, Utility and/or Appurtenances:
One (1) 8-inch, 0.25 inch thick, ductile iron pipe waterline within a 16-inch steel casing.

One (1) 12-inch, polyvinyl chloride pipe waterline within a 24-inch steel casing.

One (1) 8-inch, asbestos concrete waterline within a 16-inch steel casing.

Use of Premises:
Operation, maintenance and repair of Improvements.

The facility described in this SLE shall be referred to as the "Utility Project." To the extent that plans, or permits are prepared or required for the Utility Project, Licensee shall submit such plans or permits to SBCTA prior to Licensee's commencement of the Utility Project. Exhibit "E": SLE Control Master Ledger summarizes features of each Utility Project and tracks associated payments with each facility.

2. DESCRIPTION OF THE PREMISES.

City: Redlands Subdivision: San Gabriel

Address and/or Milepost Location:
Transverse crossings, Two waterlines 16 feet west of and one waterline 25 feet east of Eureka Street.
Mile Post 65.36

Approximate Area: 1,200 square feet; 0.028 acres

[See Attachment No. 1 – SLE: Map/Depiction of Premises]

Description and Dimensions of the Premises Area:
Two underground waterlines transverse crossing of SBCTA's San Gabriel Subdivision along the west side of Eureka Street, 40 feet in length and 10 feet in width.

An underground potable waterline transverse crossing of SBCTA's San Gabriel Subdivision along the east side of Eureka Street, 40 feet in length and 10 feet in width.

This SLE supersedes the following agreements:
Agreement/Contract Number RRND007392, License Agreement between Atchison, Topeka and Santa Fe Railway Company (SBCTA's predecessor in interest) and the City of Redlands, dated September 1, 1961.

Agreement/Contract Number RRND007603, License Agreement between SANBAG (SBCTA's predecessor in interest) and the City of Redlands, dated September 19, 1998.

3. TERM.

The term of this License shall commence on the date this SLE is executed.

Term (check one):

(_X_) A. Month-to-Month
(___) B. Until End Date: _____ (subject to termination pursuant to the terms of the SLE – see especially Standard Master License Agreement Provisions).

4. PARTIES.

The Utility Project will be performed or constructed by the Licensee. The Licensee representative or other person responsible for the Utility Project can be contacted at:

Name:	Goutam K. Dobey
Address:	35 Cajon Street, Suite 15A, Redlands, CA 92373
Phone Number:	(909) 798-7584 Ext. 2
Email Address:	gdobey@cityofredlands.org

5. ADMINISTRATION FEE.

Licensee shall pay Licensor an Administration Fee of ONE THOUSAND TWO HUNDRED DOLLARS ($1,200.00) for Licensor's costs for processing this SLE as set forth in Section 3.1.1 of the MLA. This payment shall be made within five (5) days of execution of this SLE, and then annually in advance prior to each anniversary of the execution of the SLE for as long as this SLE is in effect. The Administration Fee, at the sole discretion of the Licensor, may be revised to reflect the Licensor's annual costs of administering this SLE as those costs may change over time as set forth in Section 3 of the MLA. The annual Administration Fee identified herein may be further subject to a discounted rate based on number of Utility Projects under the MLA as further described in Exhibit "E": SLE Control Master Ledger enumerating all Utility Projects under the MLA.

6. ANNUAL USE FEE.

Licensee shall pay Licensor an Annual Base Use Fee of ZERO DOLLARS ($0.00) as set forth herein and subsequently adjusted pursuant to Section 3.2 of the MLA. Such Annual License Fee shall be due and payable on upon Licensee's execute of the SLE; and the Annual License

Fee Payment Date as set forth in Section 3 of the MLA during each succeeding year for as long as this SLE is in effect. The Annual License Fee, at the sole discretion of the Licensor, may be revised as set forth in Section 3 of the MLA.

7. ADDITIONAL USE FEE.

Pursuant to Section 3.1.4 of the Standard Master License Provisions, an Additional Use Fee for the Utility Project in the amount of ZERO DOLLARS ($0.00) shall be due and payable upon execution of the SLE by Licensee.

8. INDEMNITY AND INSURANCE REQUIREMENTS.

Licensee shall fully comply with all terms and obligations contained within the MLA, which are incorporated herein by this reference, including payment of prevailing wages if applicable, as well as all insurance and indemnity requirements. However, if SBCTA allows, in its sole discretion, Licensee to obtain insurance varying from the requirements set forth in the MLA, which requirements shall be attached hereto in Attachment No. 2 – SLE: Varying Insurance Requirements and incorporated herein by reference. Such varying insurance shall be subject to the requirements set forth in Section 9 of the MLA.

Exhibit "A-10"

IN WITNESS WHEREOF, the Licensee acknowledges that it understands and agrees to all of the above terms in this Specific License Exhibit on the day and year first above written.

Notes:

* Annual Use Fees are exempt for this Master License pursuant to Policy 31602 IX.C.8 due to the licensee being an incorporated city within San Bernardino County.

** Administrative Fees by location is for illustrative purposes only and not specific to specific individual locations but rather based upon the total number of locations. Base Admin Fee is established by SBCTA Resolution 14-027 at $1,200 per location and a discount is provided for Master License Agreement Administrative Fees based upon the total number of locations per SBCTA Resolution 20-051.

SBCTA Contract No. 23-1002930

MASTER LICENSE AGREEMENT

BETWEEN

SBCTA

AND

CITY OF REDLANDS

MASTER LICENSE AGREEMENT

This MASTER LICENSE AGREEMENT ("MLA" or "License") is made and entered into as of the date executed by SAN BERNARDINO COUNTY TRANSPORTATION AUTHORITY, a county transportation authority pursuant to Public Utility Code §§130800 et seq. ("SBCTA") and, CITY OF REDLANDS ("Licensee"), upon and in consideration of the agreements, covenants, terms and conditions below.

PART I – BASIC MASTER LICENSE PROVISIONS

The Basic Master License Provisions provided in Part I and the Standard Master License Provisions set forth in Part II of this MLA, together with all Exhibits and Attachments referenced are incorporated into and made part of this MLA. In the event of conflict between Part I, individual SLEs, and Part II, or between Part I and any Exhibits or Attachments, Part I shall control. In the event of conflict between Part II and any Exhibits or Attachments, Part II shall control, except in the event of a conflict between Part II and Exhibit "D", in which case Exhibit "D" shall control. In the event of conflict between Exhibit "A", which is inclusive of each individual Specific License Exhibit, and Exhibit "E", Exhibit "A" shall control.

2. ***Recitals***

2.1 SBCTA. SBCTA is the owner in fee of certain properties located throughout San Bernardino County.

2.2 Licensee. LICENSEE wishes to enter certain of the properties owned by SBCTA in order to do the following: (1) maintain existing utilities and appurtenant facilities in, on, over, under or across such properties; and/or (2) install and maintain new utilities and appurtenant facilities in, on, over, under or across such properties.

2.3 Scope of License. The MLA will serve as an agreement permitting the LICENSEE to maintain existing utilities and appurtenant facilities and to install and maintain new utilities and appurtenant facilities and are preliminarily approved by SBCTA. A *Specific License Exhibit* ("SLE") has been developed and attached to this Master License Agreement, substantially in the form of Exhibit "A" attached hereto. Each SLE shall be subject to the terms of this Master License Agreement and shall become a part hereof. Each SLE shall be executed by the Licensee. No SLE provision shall be revised without the SBCTA's written permission, which shall be granted at the SBCTA's sole discretion. Each SLE shall be accompanied by the following attachments: Attachment No. 1 – Map, or Depiction of the Premises and Improvements, and Attachment No. 2 – Varying Insurance Requirements, if applicable, that may exceed or complement standard insurance provisions. SBCTA reserves the right to reject any proposed utility and appurtenant facilities in its sole and absolute discretion, or to request changes thereto prior to acceptance.

2.4 Consideration. This Master License Agreement is made in consideration of the terms, conditions and mutual covenants herein, the sufficiency of which are hereby acknowledged.

IN WITNESS WHEREOF, this License was duly executed by the LICENSEE and SBCTA on the dates below, and is effective as the date executed by SBCTA.

PART II - STANDARD MASTER LICENSE PROVISIONS

1. GRANT AND SCOPE OF LICENSE

1.1. Grant of License. SBCTA hereby grants a non-exclusive, revocable license to LICENSEE in, on, over, under, across and along the real property of SBCTA in the location described in the Specific License Exhibit ("SLE"). The locations described in each SLE, the ("Premises"), are permitted for construction, installation, operation, alteration, maintenance, reconstruction and/or removal of the Improvements described in SLE, and any usual and necessary related appurtenances thereto (the "Improvements"), for the purposes described in the SLE, together with rights for access and entry onto the Premises as necessary or convenient for the use of the Improvements and for no other purpose. In connection with this grant of license, LICENSEE, its employees, agents, customers, visitors, invitees, licensees, consultants and contractors (collectively, "LICENSEE's Parties") subject to the provisions hereof, may have reasonable rights of entry and access onto adjoining real property of SBCTA if necessary for the use of the Improvements or the Premises, with the time and manner of such entry and access to be subject to SBCTA's prior written approval. The Premises, adjoining real property of SBCTA and personal property of SBCTA located thereon shall hereinafter collectively be referred to as "SBCTA Property." Notwithstanding the foregoing grant of license, a Right of Entry Permit is required in each instance where an activity requires Railroad Protective Liability in SBCTA's sole discretion.

1.2. Condition of Premises. LICENSEE acknowledges that it has inspected the Premises in its present condition, including without limitation, all existing environmental conditions. LICENSEE accepts the Premises "as is" as suitable for the purpose for which the Premises are licensed and assumes all risk with respect to all present conditions of the Premises, whether patent or latent, including, without limitation, all existing environmental conditions. Taking of possession by LICENSEE shall be conclusive to establish that the Premises are in good and satisfactory condition when possession is taken.

1.3. Use. The Premises and the Improvements shall be used only for the purposes specified in the SLE and for such lawful purposes as may be directly incidental thereto, and no other purpose. No change shall be made by LICENSEE in the use of the Premises, the Improvements or the commodity or product being conveyed through the Improvements (if any) without SBCTA's prior written approval.

1.4. Non-exclusive and Revocable Nature of License. The License granted herein is not exclusive and SBCTA specifically reserves the right to grant other licenses within the Premises. LICENSEE agrees that notwithstanding the Improvements made by LICENSEE to the Premises or other sums expended by LICENSEE in furtherance of this License, the license granted herein is fully revocable by SBCTA in accordance with the terms of this License.

1.5. Easements. SBCTA reserves to itself the right, from time to time, to grant such easements, rights and dedications that SBCTA deems necessary or desirable, and to cause the recordation of parcel maps, easement agreements and covenants, conditions

and restrictions, so long as such easements, rights, dedications, maps and covenants, conditions and restrictions do not unreasonably interfere with the permitted use of the Premises by LICENSEE. LICENSEE shall sign any of the aforementioned documents upon request of SBCTA and failure to do so shall constitute a material breach of this License.

2. TERM, TERMINATION AND SURRENDER

2.1. Term of License. The term of this MLA shall commence on the "Commencement Date" specified in the SLE. This MLA shall continue in full force and effect on a month-to-month basis until the termination of all SLEs associated with this MLA, unless otherwise terminated earlier as provided herein. The term of this MLA as provided above is referred to as the "Term."

2.2. Termination.

2.2.1. Convenience. This MLA and each SLE shall continue in full force and effect on a month-to-month basis until terminated by either Party on thirty (30) days' prior written notice. The "Termination Date" shall be 30 days from the provisions of written notice of termination as set forth below, unless a specific termination date is provided in the notice. SBCTA may terminate this MLA, or any SLE subject to this MLA, on thirty (30) days' prior written notice, but SBCTA shall also return to LICENSEE, within thirty (30) days after termination, the pro-rata portion of any Annual Use fee paid by the LICENSEE for the portion of the agreed term that will not be used by LICENSEE.

2.2.2. Cause. SBCTA may terminate this MLA, or any SLE subject to this MLA, for cause in accordance with the provisions hereof, including, without limitation, Sections 24 (Abandonment), 7 (Default, Breach and Remedies) and 25.11 (Assignment). In addition, SBCTA shall have the right, at LICENSEE's expense, to terminate this License in accordance with the provisions of Section 7.2.1 upon discovery of any default set forth in Section 8.1(d).

2.2.3. Public Use. In addition to any and all other termination rights of SBCTA described herein, LICENSEE hereby expressly recognizes and agrees that the Premises are located on SBCTA property that may be developed for public projects and programs which may be implemented by SBCTA or other public agencies, such as, but not limited to: rail and bus transitways, bikeways, walkways, beautification projects, roadways, parking facilities, flood control and drainage facilities, and/or any other public or other governmental uses (collectively and individually "Public Use"); and that LICENSEE's use of the Premises under this MLA and each SLE is a temporary, interim use as to which LICENSEE has no right to nor expectation of use for any particular length of time that may be terminated by SBCTA by thirty (30) days written notice to LICENSEE as set forth in Section 2.2.1 above. Accordingly, as a condition to entering into this MLA, LICENSEE expressly acknowledges and agrees that:

(a) SBCTA may terminate this License as set forth above for any Public Use, to be determined in the sole and absolute discretion of SBCTA's Executive Director, or designee;

(b) LICENSEE shall **NOT** object to, oppose, or protest at any approval proceeding, nor file suit to prevent or delay, any Public Use when planned, proposed or implemented on or adjacent to the Premises;

(c) If SBCTA's Executive Director, or designee, at any time, or from time to time, determines in his or her sole and absolute discretion, that there is a need for the Premises or any adjoining property for a Public Use and such Public Use requires relocation or removal of the Improvements, LICENSEE shall reconstruct, alter, modify, relocate or remove its Improvements, as directed by SBCTA or any parties having operating rights over the Premises, at LICENSEE's sole cost and expense, within thirty (30) days after written notice from SBCTA; and

(d) LICENSEE expressly assumes all risk of any future Public Use as determined by SBCTA and in the event SBCTA terminates this License and requires LICENSEE to vacate the Premises for any Public Use, LICENSEE shall not, as a result of such termination and vacation of the Premises, be entitled to receive any:

(i) relocation assistance, moving expenses, goodwill or other payments under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, 42 U.S.C. §4601 et seq. and/or the California Relocation Assistance Law, as amended, California Government Code §7260 et seq; and

(ii) compensation under any eminent domain or inverse condemnation law.

2.2.4. Penalty: If LICENSEE fails to terminate use of the Premises and/or restore the Premises as required in Item 2.3 below, on or before the Termination Date, then, in addition to any and all other remedies available to SBCTA under the terms of this MLA or at law or equity, LICENSEE shall pay a Penalty equal to twice the Annual Use Fee in effect on the day prior to the Termination Date, plus twice any Additional Use Fee, calculated and payable on a monthly basis, for the number of months (partial months counting as whole months) from the Termination Date to the date that LICENSEE has terminated use and restored the Premises to the required condition. In the event that any Additional Use Fee is set as a percentage of revenues, or on some other variable basis, it shall be calculated based on the average for the prior twelve-month period or if in effect less than one year, the monthly average from the effective date to the day prior to the Termination Date.

2.3. Termination of Use and Restoration of Premises. Upon the Termination Date, unless otherwise requested in writing by SBCTA prior to the Termination Date, LICENSEE, at its own cost and expense, shall immediately remove all alterations, additions and Improvements made by LICENSEE to the Premises and restore the SBCTA Property as nearly as possible to the same state and condition as existed prior to the construction, reconstruction or installation of said Improvements. Should LICENSEE fail to comply with the requirements of the preceding sentence, SBCTA may at its option (i) perform the same at LICENSEE's expense (including costs, interest, and fees), which LICENSEE agrees to pay to SBCTA, on demand, or (ii) assume title and ownership of said Improvements. No termination hereof shall release LICENSEE from any liability

or obligation hereunder, whether of indemnity or otherwise, resulting from any acts, omissions or events happening prior to the date the Improvements are removed and the SBCTA Property is restored.

3. PAYMENTS

3.1. Fees. As consideration for the rights herein granted, LICENSEE agrees to pay to SBCTA the Administration and Use Fees specified in each SLE, adjusted as set forth in Section 3.2.

3.1.1. Administration Fee. The Administration Fee set forth in each SLE shall be due and payable annually in advance prior to each anniversary of the Commencement Date of this MLA.

3.1.2. Annual Use Fee. The first Annual Use Fee noted each SLE shall be due and payable upon LICENSEE's execution of said SLE. The Annual Use Fee amount, as such fee may be adjusted pursuant to the provisions of Section 3.2, shall be due and payable, without demand, annually in advance on or before the anniversary month of the Commencement Date of the MLA for the convenience of both Parties, without affecting the Term of this License as specified in Section 2.1 of the Basic Master License Provisions.

3.1.3. Application Fee. LICENSEE agrees to pay a processing/application fee, per SBCTA's current policy, when applying for the installation of a new facility. The Application fee shall be submitted concurrently with the Application Form for the new SLE.

3.1.4. Additional Use Fee. If additional use fees are indicated on an SLE, the fee noted therein shall be due and payable upon execution of said SLE by LICENSEE.

3.2. Use Fee Adjustment.

3.2.1. Annual CPI Adjustment. The Annual Use Fee shall be increased, but not decreased, as provided below on the first day of each month during which an annual anniversary of the Commencement Date (the "Adjustment Date"). If no adjustment is made at the annual anniversary date, an adjustment may nevertheless be made at a subsequent date and thereafter at not less than annual intervals. The adjusted Annual Use Fee as of each Adjustment Date shall be the greater of the Annual Use Fee on the day preceding that Adjustment Date or that amount multiplied by a fraction, the numerator of which is the latest CPI figure as of the month that is three (3) months prior to the month during which the particular Adjustment Date occurs and the denominator of which is the latest CPI figure as of the month that is three (3) months prior to the month containing the prior Adjustment Date or, if there has been no prior Adjustment, three (3) months prior to the first day of the anniversary month of the Commencement Date. As used in this section, the "CPI" means the Consumer Price Index for Urban Wage Earners and Clerical Workers, Riverside - San Bernardino - Ontario, all items, not seasonally adjusted (DECEMBER 2017 = 100), published by the U.S. Department of Labor, Bureau of Labor Statistics (Bureau) under the Series Id: CWURS49CSA0, or if such index is no longer published,

the U.S. Department of Labor's most comprehensive official index then in use that most nearly corresponds to the index named above. If it is calculated from a base different from the base period DECEMBER 2017 = 100, figures used for calculating the adjustment shall first be converted to the base period used under a formula supplied by the Bureau. If a comparable index shall no longer be published by the U.S. Department of Labor, another index generally recognized as authoritative shall be substituted by SBCTA.

3.2.2. Fair Market Adjustment. At intervals of not less than three (3) years, the Annual Use Fee (as such fee may be adjusted by Section 3.2.1, above) payable under this Section 3 shall be increased, but not decreased, in order to adjust the fee to the then fair market rental value of the Premises as determined by SBCTA in good faith. Such increases shall be effective as of thirty (30) days after written notice from SBCTA to LICENSEE of such adjustment, or the date specified in such written notice, whichever is later. If no adjustment is made at any three (3) year interval, an adjustment may nevertheless be made on any subsequent date and thereafter at intervals of not less than three (3) years apart.

3.3. Late Charge. LICENSEE acknowledges that late payment by LICENSEE of any payment owed to SBCTA under this License will cause SBCTA to incur costs not contemplated by this License, the exact amount of such costs being extremely difficult and impracticable to determine. Therefore, if any payment due from LICENSEE is not received by SBCTA within five (5) days of when due, LICENSEE shall pay to SBCTA an additional sum of ten percent (10%) of the overdue payment as a late charge, up to a maximum amount of $500 for each late payment. The Parties agree that this late charge represents a fair and reasonable estimate of the administrative costs that SBCTA will incur by reason of a late payment by LICENSEE. Acceptance of any late payment charge shall not constitute a waiver of LICENSEE's default with respect to the overdue payment, nor prevent SBCTA from exercising any of the other rights and remedies available to SBCTA under this License, at law or in equity. In addition, any payment not made within 15 days of when due shall bear interest at the rate of eighteen percent (18%) per annum, or the highest legally allowable rate, whichever is lower, until paid in full.

4. TAXES

LICENSEE shall be liable for and agrees to pay promptly and prior to delinquency, any applicable tax or assessment, including but not limited to any possessory interest tax as described in California Revenue and Taxation Code Section 107, levied by any governmental authority: (a) against the Improvements, the Premises and/or any

personal property, fixtures or equipment located on or placed on the Premises, whether owned by LICENSEE or any person or entity acting for or at the request of LICENSEE; or (b) as a result of the LICENSEE's or the Improvements' operations.

5. LIENS

LICENSEE will fully and promptly pay for all materials joined or affixed to the Improvements or Premises, and fully and promptly pay all persons who perform labor upon said Improvements or Premises. LICENSEE shall not suffer or permit to be filed or enforced against the Premises or the

Improvements, or any part thereof, any mechanics', materialmen's, contractors', or subcontractors' liens or stop notices arising from, or any claim for damage growing out of, any testing, investigation, maintenance, Work, activities, or operations of LICENSEE, or out of any other claim or demand of any kind. The term "Work" under this MLA means any construction, reconstruction, installation, restoration, alteration, repair, replacement, or removal, other than normal maintenance. LICENSEE shall provide SBCTA with immediate written notice of any such liens, claims, demands, or stop notices that are placed against the Premises or the Improvements. LICENSEE shall pay or cause to be paid all such liens, claims or demands, including sums due with respect to stop notices, together with attorney's fees incurred by SBCTA with respect thereto, within ten (10) business days after notice thereof and shall indemnify, hold harmless and defend SBCTA from any and all such obligations and claims, including attorney's fees. LICENSEE shall furnish evidence of payment upon request of SBCTA. LICENSEE may contest any lien, claim or demand by furnishing a statutory lien bond or equivalent with respect to stop notices to SBCTA in compliance with applicable California law. If LICENSEE does not discharge any mechanic's lien or stop notice for works performed for LICENSEE, SBCTA shall have the right to discharge same (including by paying the claimant) and LICENSEE shall reimburse SBCTA for the cost of such discharge, as well as any associated costs and fees, within ten (10) business days after billing. In such circumstances, LICENSEE shall pay an additional fee to SBCTA of twenty five percent (25%) of the costs of the discharge of the lien or stop notice in order to cover SBCTA's administrative costs. SBCTA reserves the right at any time to post and maintain on the Premises such notices as may be necessary to protect SBCTA against liability for all such liens and claims. The provisions of this section shall survive the termination of this MLA.

6. ASSUMPTION OF RISK AND WAIVER

To the maximum extent allowed by law, LICENSEE assumes any and all risk of loss, damage or injury of any kind to any person or property, including without limitation, the Improvements, the SBCTA Property and any other property of, or under the control or custody of, LICENSEE, which is on or near the Premises. LICENSEE's assumption of risk shall include, without limitation, loss or damage caused by defects in any structure or improvement on the SBCTA Property, accident or fire or other casualty on the SBCTA Property, and electrical discharge, noise or vibration resulting from SBCTA's transit operations on or near the SBCTA Property. The term "SBCTA" as used in this section shall include: (i) any transit or rail-related company validly operating upon or over SBCTA's tracks or other property, and (ii) any other persons or companies employed, retained or engaged by SBCTA. LICENSEE, on behalf of itself and its officers, directors, affiliates, employees, agents, independent contractors and subcontractors and anyone directly or indirectly employed by LICENSEE or for whose acts LICENSEE is liable (collectively, "Personnel"), as a material part of the consideration for this License, hereby waives all claims and demands against SBCTA for any such loss, damage or injury of LICENSEE and/or its Personnel. **In that connection, LICENSEE expressly waives the benefit of California Civil Code Section 1542, which provides as follows:**

> **A general release does not extend to claims which the creditor does not know or suspect to exist in his favor at the time of executing the release, which if known by him must have materially affected his settlement with the debtor.**

The provisions of this section shall survive the termination of this License.

7. DEFAULT, BREACH AND REMEDIES

7.1. Licensee Default. LICENSEE shall be deemed to have breached and be in default under this License when any of the following occurs:

(a) LICENSEE shall fail to make any payment or any reimbursement to SBCTA required herein when due;

(b) LICENSEE shall vacate all or a substantial portion of the Premises, whether or not LICENSEE is in default of the payment or other charges due under this License;

(c) LICENSEE shall fail to comply with any other term, provision or covenant of this License, and shall not cure such failure within thirty (30) days after written notice thereof to LICENSEE; or

(d) LICENSEE shall create or maintain, or allow any other person or entity to create or maintain, any public nuisance or any condition that fails to comply with any applicable federal, state, SBCTA or rail operator specifications or safety regulations or that presents a danger to public safety or a safety hazard to any operations, personnel, passengers or property of SBCTA or any rail carrier operating upon the affected rail line(s) on the Premises or SBCTA's adjacent right of way.

7.2. SBCTA's Remedies.

7.2.1. Termination. Upon the occurrence of LICENSEE's default and breach, SBCTA shall have the right, upon reasonable notice or demand, to terminate this License, and at any time thereafter to recover possession of the Premises or any part thereof and expel and remove therefrom LICENSEE and any other person occupying the same, by any lawful means, and again repossess and enjoy the Premises without prejudice to any of the remedies that SBCTA may have under this License, at law or equity by reason of LICENSEE's default or of such termination.

7.2.2. Corrective Measures. Should LICENSEE default on, breach, or fail to keep, observe or perform any agreement, covenant, term or condition on its part herein contained, then, in addition to any other available rights and remedies, SBCTA at its option may perform any corrective measures deemed by SBCTA in its sole and absolute discretion to be necessary or appropriate to protect public health or safety or SBCTA's legitimate governmental or proprietary interests or the interests of its railroad operators, at LICENSEE's expense (including fees, costs and interest) which LICENSEE agrees to pay to SBCTA upon demand.

7.2.3. Costs. If SBCTA incurs any cost or expense occasioned by the default of LICENSEE (including but not limited to attorneys' fees and costs), then SBCTA shall be entitled to receive such costs together with interest on all funds SBCTA expends at the lesser of eighteen percent (18%) per annum or the maximum rate allowed by law, whichever is lower, including without limitation: brokers' fees incurred by SBCTA in connection with relicensing the whole or any part of the Premises; the costs of removing and storing LICENSEE's or other occupant's property; the costs of repairing, altering,

and/or otherwise restoring the Premises to a safe and suitable condition, useable and acceptable to SBCTA, rail operators and future licensees; and all reasonable expenses incurred by SBCTA in enforcing or defending SBCTA's rights and remedies, including reasonable attorneys' fees whether or not suit is actually filed.

7.2.4. Remedies Cumulative. All rights, privileges and remedies of the parties are cumulative and not alternative or exclusive to the extent permitted by law except as otherwise provided herein.

7.3. SBCTA Default and Licensee's Remedies. SBCTA shall not be in default under this License unless SBCTA fails to perform obligations required of SBCTA within sixty (60) days after written notice is delivered by LICENSEE to SBCTA specifying the obligation which SBCTA has failed to perform; provided, however, that if the nature of SBCTA's obligation is such that more than sixty (60) days are required for performance, then SBCTA shall not be in default if SBCTA commences performance within such sixty (60) day period and thereafter diligently prosecutes the same to completion. LICENSEE's exclusive remedies shall be an action for specific performance.

8. INDEMNIFICATION

8.1. LICENSEE, on behalf of itself and its successors and assigns, agrees to indemnify, defend (by counsel satisfactory to SBCTA), and hold harmless SBCTA in all its capacities, and its members, commissioners, officers, directors, employees, agents, consultants, contractors, partners, affiliated entities, subsidiaries, permittees, licensees, successors and assigns (individually and collectively, "Indemnitees"), to the maximum extent allowed by law, from and against all loss, liability, claims, demands, suits, liens, claims of lien, damages (including consequential damages), costs and expenses (including, without limitation, any fines, penalties, judgments, litigation expenses, and experts' and attorneys' fees), that are incurred by or asserted against Indemnitees arising out of or connected in any manner with (i) the acts or omissions to act of the LICENSEE or its Personnel (as defined in Section 6, Assumption of Risk and Waiver) or invitees of LICENSEE in connection with the SBCTA Property or the presence upon or performance of activities by LICENSEE or its Personnel with respect to the SBCTA Property, (ii) bodily injury to or death of any person (including employees of Indemnitees) or damage to or loss of use of property resulting from such acts or omissions of LICENSEE or its Personnel, or (iii) non-performance or breach by LICENSEE or its Personnel of any term or condition of this License, in each case whether occurring during the Term of this License or thereafter.

8.2. The LICENSEE acknowledges that any construction allowed on the Premises pursuant to this License is not being performed for SBCTA's benefit or on SBCTA's account and that this is an agreement allowing LICENSEE and/or its contractor(s) to enter upon SBCTA's Property as an accommodation within the meaning of California Civil Code Section 2782.1. Therefore, the foregoing indemnity shall be effective regardless of any negligence (whether active, passive, gross, derivative, sole, joint, concurring or comparative) on the part of Indemnitees, unless caused solely by the gross negligence or willful misconduct of Indemnitees, and is in addition to any other rights or remedies

which Indemnitees may have under the law or under this License. Upon request of SBCTA, LICENSEE shall provide insurance coverage for possible claims or losses covered by the indemnification and defense provisions of this License.

8.3. Claims against the Indemnitees by LICENSEE or its Personnel shall not limit the LICENSEE's indemnification obligations hereunder in any way, whether or not such claims against Indemnitees may result in any limitation on the amount or type of damages, compensation, or benefits payable by or for LICENSEE or its Personnel under workers' compensation, disability benefits or other employee benefits laws or insurance.

8.4. The indemnification and defense obligations of LICENSEE set forth in this section shall survive the termination of this License.

9. INSURANCE

9.1. SBCTA's Insurance. SBCTA may maintain insurance covering the Premises and SBCTA's ownership and operation thereof in such types and amounts as it deems necessary in its sole discretion. Such insurance shall be for the sole benefit of SBCTA and under its sole control. LICENSEE's insurance policies shall provide primary coverage to SBCTA; when any such policy issued to SBCTA provides duplicate coverage or is similar in coverage, SBCTA's policy will be excess over LICENSEE's policies.

9.1.1. Licensee's Insurance. LICENSEE, at its sole cost and expense, shall obtain and maintain in full force and effect during the Term of this License insurance as required by SBCTA in the amounts and coverages specified and issued by insurance companies as described in, and meeting all other requirements set forth in, Exhibit "B". SBCTA reserves the right, throughout the Term of this License, to review and change the amount and type of insurance coverage it requires in connection with this License or any Work to be performed on the Premises. Prior to (i) entering the Premises or (ii) performing any Work or maintenance on the Premises, LICENSEE shall furnish SBCTA with insurance endorsements and/or certificates evidencing the existence, amounts and coverages of the insurance required to be maintained hereunder. SBCTA shall not be liable for the payment of any premiums or assessments for insurance required to be maintained by LICENSEE under this License. Self-insurance is not permitted. However, SBCTA may, in its sole and absolute discretion, permit self-insurance on a case by case, coverage by coverage basis where the LICENSEE has documented, to SBCTA's sole satisfaction, sufficient available assets and/or available funds and sufficient legal security in those assets to assure SBCTA that its risk is not greater than it would have been with acceptable insurance coverage, and otherwise meeting SBCTA's self-insurance requirements. The privilege to self-insure with respect to any coverage required to be maintained hereunder may be granted or revoked by SBCTA at its sole and absolute discretion at any time. Upon revocation of self-insurance privilege, LICENSEE shall immediately provide all required insurances.

9.2 Increases to Insurance. If any increase in the fire and extended coverage insurance premiums paid by SBCTA is caused by LICENSEE's use and occupancy of the Premises, or if LICENSEE vacates the Premises and causes any increase in such premiums, then LICENSEE shall pay as an additional fee the amount of such increase to SBCTA, and, upon demand by SBCTA, the amount required to correct at LICENSEE's expense the cause of such disallowance, penalty or surcharge to the satisfaction of the particular insurance authority.

10. MAINTENANCE AND REPAIR

LICENSEE, at LICENSEE's sole expense, shall during the Term of this License maintain the Improvements in a first-class condition, shall maintain the Premises in a good condition, free from weeds, litter, debris, refuse or other nuisance, and shall perform all maintenance and clean-up of the Premises and the Improvements as necessary to keep the Premises and the Improvements in good order and condition to SBCTA's sole satisfaction. If any portion of the SBCTA Property, including improvements or fixtures, suffers damage by reason of the access to or use of the Premises by LICENSEE or LICENSEE's employees, agents, customers, invitees, licensees, consultants, and contractors (collectively, "LICENSEE's Parties"), including but not limited to damage arising from any tests or investigations conducted upon the Premises, LICENSEE shall, at its own cost and expense, immediately repair all such damage and restore the SBCTA Property to as good a condition as before such cause of damage occurred. Repair of damage shall include, without limitation, re-grading and resurfacing of any holes, ditches, indentations, mounds or other inclines created by any excavation by LICENSEE or LICENSEE's Parties. LICENSEE shall not perform any maintenance on railroad tracks and facilities without express prior written approval of and direction from SBCTA or the railroads with valid operating authority over SBCTA's lines and compliance with all applicable standards, specifications and safety requirements in each instance.

11. ALTERATIONS AND CONSTRUCTION

Except as otherwise provided herein, LICENSEE shall make no alterations, additions or Improvements to the Premises without obtaining the prior written consent of SBCTA in each instance. Any work performed or caused to be performed by LICENSEE on the Improvements or the Premises shall be performed: (a) at LICENSEE's sole cost and expense; (b) in accordance with any and all applicable permit requirements, laws, rules, regulations and safety requirements (including SBCTA's rules and regulations); and (c) in a manner which is (i) equal to or greater than the then applicable standards of the industry for such work, and (ii) satisfactory to SBCTA. LICENSEE shall submit written notice and work plans to SBCTA for review and approval at least thirty (30) days prior to commencement of any work on the Premises. Any such work must be carried out pursuant to the work plans approved in writing by SBCTA and in compliance with any and all SBCTA rules, regulations and other requirements. SBCTA shall have the right at any time and from time to time to post and maintain notices of non-responsibility. Unless otherwise requested by SBCTA, upon completion of any work, LICENSEE shall restore the SBCTA Property to its condition immediately preceding the commencement of such work.

12. CONTRACTORS; APPROVAL AND INSURANCE

Any contractors of LICENSEE performing Work on the Improvements or the Premises shall first be approved in writing by SBCTA and acquire all required right of entry permits and authorizations from SBCTA and any rail operator utilizing affected or adjacent railroad tracks. With respect to such Work, LICENSEE shall, at its sole cost and expense, obtain and maintain in full force and effect throughout the term of such Work, insurance, as required by SBCTA, in the amounts and coverage specified on and issued by insurance companies as described in Exhibit "B". Additionally, LICENSEE shall cause any and all of its contractors and subcontractors which may (i) be involved with such Work, or (ii) may, for any reason, need to enter onto the Premises, to obtain and maintain in full force and effect during the Term of this License, or throughout the term of such Work (as applicable), insurance, as required by SBCTA, in the amounts and coverage specified on, and issued by insurance companies as described in Exhibit "B". SBCTA reserves the right, throughout the Term of this License, to review and change the amount and type of insurance coverage it requires in connection with this License or the Work to be performed on the Premises.

13. REIMBURSEMENT

LICENSEE agrees to reimburse SBCTA for all reasonable costs and expenses that SBCTA incurs in connection with Work on or maintenance of the Premises or the Improvements, including, but not limited to, costs incurred by SBCTA in furnishing any materials or performing any labor, reviewing LICENSEE's Work plans and inspecting any Work, installing or removing protection beneath or along SBCTA's tracks, furnishing of watchmen, flagmen and inspectors as SBCTA deems necessary and such other items or acts as SBCTA in its sole discretion deems necessary to monitor or aid in compliance with this License, protect the safety of, and railway operations upon, its tracks and right-of-way, and to otherwise protect its interests. The costs and expenses addressed in this Section 13 shall include all costs that SBCTA incurs in complying with the work or maintenance requirements of the railroads with valid operating authority over SBCTA's lines.

14. LANDSCAPING

If required by SBCTA, then LICENSEE, at its sole cost and expense, shall install barrier landscaping to shield the Improvements from public view. SBCTA shall have the right to review and approve landscaping plans prior to installation. All landscaping activities shall be done in accordance with the provisions of Section 11 above (Alterations and Construction).

15. MARKERS

Except as modified by any additional provisions attached at Exhibit "D", project markers in form and size satisfactory to SBCTA, identifying the Improvements and their owner(s), shall be installed and constantly maintained by and at the expense of LICENSEE at such locations as SBCTA shall designate. Such markers shall be relocated or removed upon request of SBCTA without expense to SBCTA. Absence of markers in or about SBCTA Property does not constitute a warranty by SBCTA of the absence of subsurface installations.

16. COMPLIANCE WITH LAWS

LICENSEE shall comply with all applicable federal, state and local laws, regulations, rules and orders in its Work on, or maintenance, inspection, testing or use of, the SBCTA Property, and shall furnish satisfactory evidence of such compliance promptly upon request of SBCTA. LICENSEE shall obtain all required permits or leases required by any governmental authority for its use of the Premises, at its sole cost and expense. LICENSEE shall comply with all SBCTA policies, rules and regulations applicable to its properties. Subject to SBCTA's approval, LICENSEE shall at its own cost and expense install and construct all physical improvements to or needed to serve the Premises that are required by any federal, state or local building code or other law or regulation applicable to the Premises, or that are made necessary by the nature of LICENSEE's use of the Premises. LICENSEE shall promptly comply with all governmental orders and directives for the correction, prevention and abatement of nuisances in or upon, or connected with, the Premises, all at LICENSEE's sole expense.

17. SBCTA'S RIGHT OF ACCESS

17.1. Inspections. SBCTA shall have the right at any time (upon provision of reasonable notice of inspection to LICENSEE) or in case of emergency (without notice), to inspect the Premises in order to protect SBCTA's interests therein and to monitor compliance with this License, including compliance with applicable federal, state and local laws, regulations, rules and orders. Failure to submit to or cooperate with any inspection may result in termination of the License.

17.2. Tests. If, in SBCTA's sole judgment, any installation on, or use or condition of the Premises may have an adverse effect on the Premises or SBCTA Property, adjacent property or SBCTA's operations, SBCTA shall be permitted to conduct any tests or assessments, including but not limited to environmental assessments, of, on or about the Premises, as it determines to be necessary or useful to evaluate the condition of the Premises. LICENSEE shall cooperate with SBCTA in any tests or inspections deemed necessary by SBCTA.

17.3. Costs. LICENSEE shall pay or reimburse SBCTA, as appropriate, for all reasonable costs and expenses incurred due to tests, inspections or any necessary corrective Work, maintenance and inspections thereafter. SBCTA may establish an inspection fee, which may be changed from time to time, as part of an inspection program. The user shall pay such fee for each such inspection. Failure to pay the fee may result in termination of the License.

17.4. Sale or Lease of Premises. SBCTA may at any time place on or about the Premises (including the Improvements) any ordinary "for sale" and "for lease" signs. LICENSEE shall also permit SBCTA and its agents, upon request, to enter the Premises or any part thereof, at reasonable times during normal business hours, to show the Premises to prospective tenants, purchasers or mortgagees.

18. ENVIRONMENTAL ASSESSMENT

Upon execution of this License, SBCTA may, in its sole discretion and if applicable, require LICENSEE to retain a duly licensed environmental consultant acceptable to SBCTA who shall perform an environmental assessment of the Premises and LICENSEE's and LICENSEE's Parties' business activities and prepare a report on LICENSEE's and/or LICENSEE's Parties' compliance with the provisions of this section. SBCTA may require LICENSEE to cause a similar environmental assessment to be conducted on an annual basis, and/or upon or within one (1) year after the expiration or earlier termination of this License, the cost of which shall be the sole responsibility of LICENSEE. LICENSEE shall provide a copy of the report or reports from the consultant(s) promptly to SBCTA upon receipt, and upon request shall promptly provide to SBCTA a copy of all data, documents and other information prepared or gathered in connection therewith.

19. HAZARDOUS/TOXIC MATERIAL USE AND INDEMNITY

19.1. LICENSEE shall operate and maintain the Premises in compliance with all Environmental Laws, and shall not cause or permit the Premises to be in violation of any Environmental Law which is now or may hereafter become applicable to LICENSEE or the Premises. As used herein, "Environmental Law(s)" means any federal, state or local environmental, health and/or safety-related law, regulation, standard, decision of a court, permit or permit conditions, currently existing or as amended or adopted in the future. Except for any Hazardous Material expressly approved by SBCTA in writing as shown on Exhibit "C", LICENSEE shall not cause or permit, or allow any of LICENSEE's Parties to cause or permit, any Hazardous Material to be brought upon, stored, used, generated, treated or disposed of on or about the SBCTA Property. Any Hazardous Material on the site shall be stored, used, generated and disposed of in accordance with all applicable Environmental Laws. As used herein, "Hazardous Material" means any chemical, substance or material, including any mixture or solution, which by virtue of its properties or effects is potentially harmful to health, safety or property, or which is now or becomes in the future listed, defined or regulated in any manner under any Environmental Law as a hazardous or dangerous material or substance.

19.2. LICENSEE shall indemnify, defend (by counsel acceptable to SBCTA) and hold harmless the Indemnitees (as defined in Section 8, Indemnification) from and against all loss, liability, claim, damage, cost or expense (including without limitation, any fines, penalties, judgments, litigation expenses, attorneys' fees, and consulting, engineering, and construction fees and expenses) incurred by Indemnitees as a result of (a) LICENSEE's breach of any prohibition or provision of this section, or (b) any release of Hazardous Material upon or from the Improvements or the Premises or contamination of the SBCTA Property which (i) occurs due to the use and occupancy of the Improvements or the Premises by LICENSEE or LICENSEE's Parties, or (ii) is made worse due to the act or failure to act of LICENSEE or LICENSEE's Parties.

19.3. The foregoing indemnity shall be effective regardless of any negligence (whether active, passive, derivative, joint, concurring or comparative) on the part of Indemnitees, unless caused solely by the gross negligence or willful misconduct of Indemnitees;

shall survive expiration or termination of this License; and is in addition to any other rights or remedies which Indemnitees may have under the law or under this License.

19.4. In addition, in the event of any release on or contamination of the Premises, LICENSEE, at its sole expense, shall promptly take all actions necessary to clean up the affected property (including the SBCTA Property and all affected adjacent property – whether or not owned by SBCTA) and to return the affected property to the condition existing prior to such release or contamination, to the satisfaction of SBCTA and any governmental authorities having jurisdiction.

20. UNDERGROUND STORAGE TANKS

20.1. NEITHER LICENSEE NOR LICENSEE'S PARTIES SHALL INSTALL OR USE ANY UNDERGROUND STORAGE TANKS ON THE PREMISES UNLESS SPECIFICALLY APPROVED IN ADVANCE IN WRITING BY SBCTA, WHICH APPROVAL MAY BE WITHHELD IN SBCTA'S SOLE DISCRETION.

20.2. At SBCTA's option, upon the termination of this License at any time and for any reason, LICENSEE shall, prior to the effective date of such termination, remove and close all underground storage tanks and related equipment and clean up and remove all Hazardous Material in, on, under and about the Premises, in accordance with the requirements of all Environmental Laws and to the satisfaction of SBCTA and any governmental authorities having jurisdiction thereover, and deliver to SBCTA a copy of a certificate of closure issued for such tanks by the appropriate governmental authority.

21. CONDEMNATION

In the event all or any portion of the Premises shall be taken or condemned for public use by another governmental agency or any other party having the power of eminent domain (including conveyance by deed in lieu of or in settlement of condemnation proceedings), LICENSEE shall receive compensation (if any) only for the taking and damage to the Improvements. Any other compensation or damages arising out of such taking or condemnation awarded to LICENSEE are hereby assigned by LICENSEE to SBCTA.

22. BROKER'S FEES

LICENSEE represents and warrants that it has dealt with no broker, agent or other third party in connection with this transaction and LICENSEE agrees to indemnify and hold SBCTA harmless from and against any claims by any broker, agent or other party claiming a commission or other form of compensation by virtue of having dealt with LICENSEE with regard to obtaining this License.

23. SUBORDINATE RIGHTS

This License is subject and subordinate to the prior and continuing rights and obligation of SBCTA, its successors and assigns, to use the SBCTA Property in the exercise of its powers and in the performance of its duties, including those as a public transportation body, and to all Bonds, and their respective indentures, issued by SBCTA in any of its capacities and/or by any of its affiliated entities now in place or hereafter issued. Accordingly, there is reserved and retained

unto SBCTA, its successors, assigns and permittees, the right to construct, reconstruct, operate, maintain, use and/or relocate existing and future rail tracks, facilities and appurtenances and existing and future transportation, communication, pipeline and other facilities and appurtenances in, upon, over, under, across and along the SBCTA Property or any portion thereof, and in connection therewith the right to grant and convey to others, rights and interests to the SBCTA Property or the Premises and in the vicinity of the Improvements, regardless of any effect or impact on the Improvements. LICENSEE shall bear all costs and losses it incurs associated with any modifications to the Improvements necessary to accommodate SBCTA's exercise of any right hereunder. This License is subject to all licenses, leases, easements, restrictions, conditions, covenants, encumbrances, liens, claims and other matters of title ("title exceptions") which may affect the SBCTA Property now or hereafter. This License is executed and delivered by SBCTA without any warranty of title, express or implied, and the words "grant" or "convey" as used herein shall not be construed as a warranty of title or a covenant against the existence of any such title exceptions.

24. ABANDONMENT

Should LICENSEE at any time abandon the use of the Improvements or the Premises, or any part thereof, or fail at any time for a continuous period of ninety (90) days to use the same for the purposes contemplated herein, then this License shall terminate to the extent of the portion so abandoned or discontinued, and in addition to any other rights or remedies, SBCTA shall immediately be entitled to exclusive possession and ownership of the portion so abandoned or discontinued, without the encumbrance of this License.

25. GENERAL PROVISIONS

25.1. Notices. All notices and demands which either of the Parties is required to or desires to give to the other shall be made in writing by personal delivery, by express courier service or by certified mail postage prepaid, and addressed to the other Party at its address set forth in the Basic Master License Provisions. Either of the Parties may change its address for the receipt of notice by giving written notice thereof to the other Party in the manner herein provided. Notices shall be effective only upon receipt by the Party to whom notice or demand is given.

25.2. Governing Law. This License shall be governed by the laws of the State of California.

25.3. Binding Effect. The terms, provisions and covenants and conditions contained in this License shall apply to, inure to the benefit of, and be binding upon, the parties hereto and upon their respective heirs, legal representatives, successors and permitted assigns, except as otherwise herein expressly provided. If more than one person executes this License as LICENSEE, then each shall be jointly and severally liable for all obligations of LICENSEE hereunder.

25.4. No Third Party Beneficiaries. This License is not intended by either party to confer any benefit on any third party other than the constituent members of SBCTA, including without limitations any broker, finder, or brokerage firm.

25.5. Severability. If any term, covenant, condition or provision of this License, or the application thereof to any person or circumstance, shall to any extent be held by a court

of competent jurisdiction to be invalid, void or unenforceable, the remainder of the terms, covenants, conditions, or provisions of this License, or the application thereof to any person or circumstance, shall remain in full force and effect and shall in no way be affected, impaired or invalidated thereby.

25.6. Interest on Past-due Obligations. Except as expressly herein provided, any amount due to SBCTA that is not paid when due shall bear interest, beginning on the 61st day from the date of receipt of invoice therefor, at the maximum rate then allowable by law. Such interest will be due SBCTA as it accrues. Payment of such interest shall not excuse or cure any default by LICENSEE under this License, provided, however, that interest shall not be payable on late charges incurred by LICENSEE.

25.7. Captions. The captions included in this License are for convenience only and in no way define, limit, or otherwise describe the scope or intent of this License or any provision hereof, or in any way affect the interpretation of this License.

25.8. Survival of Obligations. All obligations of LICENSEE hereunder not fully performed as of the expiration or earlier termination of the Term of this License shall survive the expiration or earlier termination of this License, including without limitation all indemnity and defense obligations, all payment obligations with respect to Fees and all obligations concerning the condition of the SBCTA Property and the Improvements.

25.9. Waiver of Covenants or Conditions. The waiver by either Party of any term, covenant, agreement or condition under this License shall not invalidate this License, nor shall it be considered a waiver by it of any other covenant or condition or of the same covenant or condition in another instance. To the extent patterns of practice between the Parties are inconsistent with the terms of this License, such patterns of practice shall not waive in part or in full SBCTA's right to insist upon strict accordance with any of the provisions of this License. The subsequent acceptance of payments hereunder by SBCTA shall not be deemed to be a waiver of any preceding breach by LICENSEE of any provisions, covenant, agreement or condition of this License, other than the failure of LICENSEE to pay the particular payment so accepted, regardless of SBCTA's knowledge of such preceding breach at the time of acceptance of such payment.

25.10. Effective Date/Nonbinding Offer. Submission of this License for examination or signature by LICENSEE does not constitute an offer of or option for a license and it is not effective as a license or otherwise until executed and delivered by both SBCTA and LICENSEE. Each individual executing this License on behalf of SBCTA or LICENSEE represents and warrants to the other Party that he or she is authorized to do so.

25.11. Assignment. This License and the license granted herein are personal to the LICENSEE. LICENSEE shall not assign or transfer (whether voluntary or involuntary) this License in whole or in part, or permit any other person or entity to use the rights or privileges hereby conveyed, without the prior written consent of SBCTA, which may be withheld in SBCTA's sole and absolute discretion, and any attempted act in violation of the foregoing shall be void and without effect and be a material breach of this License, which gives SBCTA the right to immediately terminate this License and seek all other available remedies for breach.

25.12. Entire Agreement; Amendments. This License, including all attached Exhibits, constitutes the entire agreement between the Parties and supersedes all prior verbal or written agreements and understandings between the Parties with respect to the items set forth in this License. The Parties each acknowledge that no representations, inducements, promises or agreements, oral or written, have been made by either SBCTA or LICENSEE, or anyone acting on behalf of SBCTA or LICENSEE, other than those contained in this License. No amendments, changes, revisions, or discharges, at any time in whole or in part, of this License shall be binding upon the Parties unless they are in writing and executed by the Parties.

25.13. Attorneys' Fees. If either SBCTA or LICENSEE commences or engages in, or threatens to commence or engage in, an action by or against the other party arising out of or in connection with this License or the Premises, the prevailing party shall be entitled to have and recover from the losing party reasonable attorneys' fees and other costs incurred in connection with the action, preparation for such action, any appeals relating thereto and enforcing any judgments rendered in connection therewith. If SBCTA becomes involved in any action, threatened or actual, by or against anyone not a party to this License, but arising by reason of or related to any act or omission of LICENSEE or LICENSEE's Parties, LICENSEE agrees to pay SBCTA's reasonable attorneys' fees and other costs incurred in connection with the action, preparation for such action, any appeals relating thereto and enforcing any judgments rendered in connection therewith.

25.14. Nondiscrimination. LICENSEE certifies and agrees that all persons employed by LICENSEE and LICENSEE's affiliates, subsidiaries, or holding companies, and any contractors retained by LICENSEE with respect to the Premises, are and shall be treated equally without regard to or because of race, religion, ancestry, national origin, or sex, and in compliance with all federal and state laws prohibiting discrimination in employment, including but not limited to the Civil Rights Act of 1964; the Unruh Civil Rights Act; the Cartwright Act; and the California Fair Employment Practices Act.

25.15. Further Acts. LICENSEE agrees to perform any further acts and to execute and deliver in recordable form any documents which may be reasonably necessary to carry out the provisions of this License, including, at SBCTA's sole discretion, the relocation of the Improvements and the license granted hereby.

25.16. Time of Essence. Time is of the essence for this License.

25.17. Certificates. LICENSEE agrees from time to time within ten (10) days after request of SBCTA, to deliver to SBCTA, or SBCTA's designee, all financial statements for the previous three (3) fiscal years of LICENSEE, and an estoppel certificate stating that this License is in full force and effect, the date to which all applicable payments have been paid, the unexpired Term of this License and such other matters pertaining to this License as may be requested by SBCTA.

25.18. Security Measures. LICENSEE hereby acknowledges that the payments payable to SBCTA hereunder do not include the cost of guard service or other security measures, and that SBCTA shall have no obligation whatsoever to provide same. LICENSEE assumes all responsibility for the protection of LICENSEE, LICENSEE's Parties and their property from acts of third parties.

25.19. Performance Under Protest. If at any time a dispute shall arise as to any amount or sum of money to be paid by one Party to the other under the provisions hereof, the Party against whom the obligation to pay the money is asserted shall have the right to make payment "under protest" and such payment shall not be regarded as a voluntary payment, and there shall survive the right on the part of said party to institute suit for recovery of such sum. If it shall be adjudged that there was no legal obligation on the part of said Party to pay such sum or any part thereof, said Party shall be entitled to recover such sum or so much thereof as it was not legally required to pay under the provisions of this License.

25.20. No Recording. LICENSEE shall not record or permit to be recorded in the official records of the county where the Premises are located, this License, any memorandum of this License or any other document giving notice of the existence of this License or the license granted hereby.

25.21. Flagmen. Where applicable, as a part of or in addition to all other safety obligations, LICENSEE shall maintain, at LICENSEE's expense, competent flagmen to protect and control movement of vehicles and equipment of LICENSEE or any other user of the Premises while upon the Premises, consistent with any applicable laws and regulations regarding work protection, including the rules and policies of SBCTA and/or any railroad operator having rights to utilize any affected or adjacent railroad tracks.

25.22. Additional Provisions. Those additional provisions set forth in Exhibit "D", if any, are hereby incorporated by this reference as if fully set forth herein.

Exhibit "A"

SPECFIC LICENSE EXHIBIT (SLE) to

MASTER LICENSE AGREEMENT

[To Be Inserted]

Exhibit "A"

SBCTA Contract No. 23-1002930

SPECIFIC LICENSE EXHIBIT TO MASTER LICENSE AGREEMENT

This Specific License Exhibit ("SLE") to Master License Agreement is entered into this _____ day of _____, 2023, by and between the San Bernardino County Transportation Authority ("SBCTA" or "Licensor") and CITY OF REDLANDS ("Licensee"), pursuant to the provisions of the Master License Agreement dated _____, 2023, which is incorporated herein by reference, and all terms and definitions contained in the Master Agreement shall apply to this SLE.

1. DESCRIPTION OF UTILITY PROJECT AND USE.

Description of Improvements, Utility and/or Appurtenances:

One (1) 8-inch, 10 gauge ductile iron pipe potable waterline with warning tape.

Use of Premises:
Operation, maintenance and repair of Improvements.

The facility described in this SLE shall be referred to as the "Utility Project." To the extent that plans, or permits are prepared or required for the Utility Project, Licensee shall submit such plans or permits to SBCTA prior to Licensee's commencement of the Utility Project. Exhibit "E": SLE Control Master Ledger summarizes features of each Utility Project and tracks associated payments with each facility.

2. DESCRIPTION OF THE PREMISES.

City: Redlands Subdivision: Redlands

Address and/or Milepost Location:
Transverse crossing at University Street then continuing along the north side of University Station and further east within Orange Blossom Trail to Judson Street.
Mile Post 9.76 to Mile Post 10.40

Approximate Area: 32,400 square feet; 0.744 acres

[See Attachment No. 1 – SLE: Map/Depiction of Premises]

Description and Dimensions of the Premises Area: An underground potable waterline transverse crossing along the east side of University Street then continuing easterly longitudinally for 3,160 linear feet, more or less, 10 feet in width along the north side of SBCTA's Redlands Subdivision.

Exhibit "A"

3. TERM.

The term of this License shall commence on the "Commencement Date".

Term (check one):

(_X_) A. Month-to-Month
(___) B. Until End Date: _____ (subject to termination pursuant to the terms of the SLE – see especially Standard Master License Agreement Provisions).

4. PARTIES.

The Utility Project will be performed or constructed by the Licensee. The Licensee representative or other person responsible for the Utility Project can be contacted at:

Name: Gerard Nepomuceno
Address: 35 Cajon Street, Suite 15A, Redlands, CA 92373
Phone Number: (909)
Email Address: gnepomuceno@cityofredlands.org

5. ADMINISTRATION FEE.

Licensee shall pay Licensor an Administration Fee of ONE THOUSAND TWO HUNDRED DOLLARS ($1,200.00) for Licensor's costs for processing this SLE as set forth in Section 3.1.1 of the MLA. This payment shall be made within five (5) days of execution of this SLE, and then annually in advance prior to each anniversary of the execution of the SLE for as long as this SLE is in effect. The Administration Fee, at the sole discretion of the Licensor, may be revised to reflect the Licensor's annual costs of administering this SLE as those costs may change over time as set forth in Section 3 of the MLA. The annual Administration Fee identified herein may be further subject to a discounted rate based on number of Utility Projects under the MLA as further described in Exhibit "E": SLE Control Master Ledger enumerating all Utility Projects under the MLA.

6. ANNUAL USE FEE.

Licensee shall pay Licensor an Annual Base Use Fee of ZERO DOLLARS ($0.00) as set forth herein and subsequently adjusted pursuant to Section 3.2 of the MLA. Such Annual License Fee shall be due and payable on upon Licensee's execute of the SLE; and the Annual License Fee Payment Date as set forth in Section 3 of the MLA during each succeeding year for as long as this SLE is in effect. The Annual License Fee, at the sole discretion of the Licensor, may be revised as set forth in Section 3 of the MLA.

7. ADDITIONAL USE FEE.

Pursuant to Section 3.1.4 of the Standard Master License Provisions, an Additional Use Fee for the Utility Project in the amount of ZERO DOLLARS ($0.00) shall be due and payable upon execution of the SLE by Licensee.

8. INDEMNITY AND INSURANCE REQUIREMENTS.

Licensee shall fully comply with all terms and obligations contained within the MLA, which are incorporated herein by this reference, including payment of prevailing wages if applicable, as well as all insurance and indemnity requirements. However, if SBCTA allows, in its sole discretion, Licensee to obtain insurance varying from the requirements set forth in the MLA, which requirements shall be attached hereto in Attachment No. 2 – SLE: Varying Insurance Requirements and incorporated herein by reference. Such varying insurance shall be subject to the requirements set forth in Section 9 of the MLA.

IN WITNESS WHEREOF, the Licensee acknowledges that it understands and agrees to all of the above terms in this Specific License Exhibit on the day and year first above written.

INSURANCE REQUIREMENTS

[To Be Inserted]

Exhibit "B"

INSURANCE REQUIREMENTS

1. AGREEMENT shall mean the license to which this Exhibit is attached. WORK shall mean any activity or use permitted under the AGREEMENT. The holder of the AGREEMENT is hereinafter referred to as PERMITTEE. PERMITTEE shall at all times during the term of the AGREEMENT or for such other periods as required herein, procure and maintain broad form insurance against claims for injuries to persons or damages to property that may arise from, or in connection with, the use of SBCTA property hereunder by the PERMITTEE, its agents, representatives, employees, or subcontractors, with coverage at least as broad as the following minimum requirements specified below. Selected subparagraphs to this Paragraph 1 shall apply:

1.1. ☒ Worker's Compensation/Employer's Liability. The policies must include the following:

- Coverage A. Statutory Benefits
- Coverage B. Employer's Liability
- Bodily Injury by accident - $1,000,000 per accident
- Bodily Injury by disease - $1,000,000 policy limit/$1,000,000 each employee

Such policies shall contain a waiver of subrogation in favor of the parties named as Indemnitees below. Such insurance shall be in strict accordance with the applicable workers' compensation laws in effect during performance of the WORK by PERMITTEE, any subcontractor of any tier. All subcontractors of any tier performing any portion of the WORK for PERMITTEE shall also obtain and maintain the same insurance coverage as specified in this subparagraph, with a waiver of subrogation in favor of PERMITTEE and all parties named as Indemnitees by the AGREEMENT. Where coverage is provided through the California State Compensation Insurance Fund, the requirement for a minimum A.M. Best rating does not apply.

1.2. ☒ Commercial General Liability. The policy must include the following:

- PERMITTEE shall maintain commercial general liability (CGL) insurance (Insurance Services Office (ISO) Form CG 00 01), and if necessary excess/umbrella commercial liability insurance, with a combined limit of liability of not less than **$7,000,000 each occurrence**. If the AGREEMENT value is equal to or in excess of *$25,000,000*, then the combined limit of liability shall be no less than **$25,000,000 each occurrence**.

- The policy shall, at a minimum, include coverage for any and all of the following: bodily injury, property damage, personal injury, broad form contractual liability (including coverage to the maximum extent possible for the indemnifications in the AGREEMENT), premises-operations (including explosion, collapse and underground coverage), duty to defend in addition to (without reducing) the limits of the policy(ies), and products and completed operations.

    - $2,000,000 per occurrence limit for property damage or bodily injury
    - $1,000,000 per occurrence limit for personal injury and advertising injury
    - $2,000,000 per occurrence limits for products/completed operations coverage (ISO Form 20 37 10 01) if SBCTA's Risk Manager determines it is in SBCTA's best interests to require such coverage,
    - If a general aggregate applies, it shall apply separately to this project/location. The project name must be indicated under "Description of Operations/Locations" (ISO Form CG 25 03).

- Coverage is to be on an "occurrence" form. "Claims made" and "modified occurrence" forms are not acceptable.

- A copy of the declaration page or endorsement page listing all policy endorsements for the CGL policy must be included.

All subcontractors of any tier performing any portion of the WORK for PERMITTEE shall also obtain and maintain the CGL insurance coverage with limits not less than:

- Each occurrence limit: $1,000,000
- General aggregate limit: $2,000,000
- Personal injury and advertising limit $1,000,000
- Products-completed operations aggregate limit $2,000,000

All subcontractors' deductibles or self-insured retentions must be acceptable to SBCTA's Risk Manager.

1.2.1. ☐ Contractual Liability – Railroads. The CGL policy shall not exclude coverage of contractual lability relating to railroads or shall be endorsed by ISO Form CG 24 17, or equivalent acceptable to SBCTA, to remove such exclusions to coverage.

1.3. ☒ Umbrella/Excess CGL. The policy must include the following:

- If the PERMITTEE elects to include an umbrella or excess policy to cover any of the total limits required beyond the primary commercial general liability policy limits and/or the primary commercial automobile liability policy limits, then the policy must include the following:
  - The umbrella or excess policy shall follow form over the PERMITTEE's primary general liability coverage and shall provide a separate aggregate limit for products and completed operations coverage.
  - The umbrella or excess policy shall not contain any restrictions or exclusions beyond what is contained in the primary policy.
  - The umbrella or excess policy shall contain a clause stating that it takes effect (drops down) in the event the primary limits are impaired or exhausted.
  - The umbrella or excess policy must also extend coverage over the automobile policy if it is to be used in combination with the primary automobile policy to meet the total insurance requirement limits.

There shall be no statement limiting the coverage provided to the parties listed as additionally insureds or as indemnitees in the AGREEMENT.

1.4. ☒ Commercial Auto. The policy must include the following:

- A total limit of liability of no less than **$5,000,000 each accident**. This total limit of liability may be met by combining the limits of the primary auto policy with an umbrella or excess policy in accordance with Section 1.3 (Umbrella/Excess CGL), above.
- Such insurance shall cover liability arising out of any vehicle, including owned, hired, leased, borrowed and non-owned vehicles assigned to or used in performance of the WORK.
- Combined Bodily Injury and Property Damage Liability insurance

  The commercial automobile liability insurance shall be written on the most recent edition of ISO Form CA 00 01 or equivalent acceptable to SBCTA.

1.5. ☐ Pollution Liability The policy must include the following:

- $2,000,000 per claim or occurrence limits/$4,000,000 in the aggregate
- If the WORK involves mold identification / remediation, the policy shall not contain a mold exclusion and the definition of "Pollution" shall include microbial matter including mold.
- If the WORK involves lead-based paint or asbestos identification/remediation, the policy shall not contain lead-based paint or asbestos exclusions.

1.6. ☐ Railroad Protective Liability Insurance: Insurance Services Office Form Railroad Protective Liability, AAR-AASHTO (ISO/RIMA), in the name of SCRRA with respect to the operations they or any of their subcontractors perform on the Property. Minimum Limits: **$2 million per occurrence**, combined single limit, for coverage and for losses arising out of injury to or death of all persons and for physical loss or damage to or destruction of Property, including the loss of use thereof. A **$6 million annual aggregate** shall apply. If providing coverage on the London claims-made form, the following provisions shall apply:

- The limits of liability shall be not less than $3 million per occurrence, combined single limit. A $9 million aggregate may apply.
- Declarations item 6, extended claims made date, shall allow an extended claims made period no shorter than the length of the original policy period plus one year.
- If equivalent or better, wording is not contained in the policy form, the following endorsement must be included:
    - It is agreed that "physical damage to Property" means direct and accidental loss of or damage to rolling stock and their contents, mechanical construction equipment or motive power equipment, railroad tracks, roadbed, catenaries, signals, bridges or buildings.

In cases of low hazard activity and insignificant risk to rail facilities, and if the exposure to the track is physically separated by a building, floor or a continuous fence (no thoroughfares) and the employees of the Contractor are explicitly notified, trained, and supervised such that they are not permitted to have any contact with the track or its related improvements, the Railroad Protective Liability Insurance requirement may be waived by SBCTA, or its designated representative, in SBCTA's sole and absolute discretion, where SBCTA's agreements and obligations with rail operators allow it.

2. General Provisions

2.1. Qualifications of Insurance Carriers. If policies are written by insurer carriers authorized and admitted to do business in the state of California, then the insurer carriers must have a current A.M. Best rating of A-VIII or better. If policies are written by insurance carriers that are non-admitted but authorized to conduct business in the state of California, then they must meet the current A.M. Best rating of A-:X or better, unless otherwise approved in writing by SBCTA's Risk Manager.

2.2. Additional Insurance Coverage. All policies, except those for Workers' Compensation insurance, shall be endorsed by ISO Form CG 20 36, or if not available, then ISO Form CG 20 35, to name San Bernardino County Transportation Authority and its officers, directors, members, employees, agents and volunteers, as additional insureds ("Additional Insureds"). With respect to general liability arising out of or connected with work or operations performed by or on behalf of the PERMITTEE permitted under this AGREEMENT, coverage for such Additional Insureds shall not extend to liability to the extent prohibited by section 11580.04 of the Insurance Code. The additional insured endorsements shall not limit the scope of coverage for SBCTA to vicarious liability but shall allow coverage for SBCTA to the full extent provided by the policy.

2.3. Proof of Coverage. Evidence of insurance in a form acceptable to SBCTA's Risk Manager, including declarations pages of each policy, certificates of insurance and the required additional insured endorsements, shall be provided to SBCTA's Procurement Analyst prior to issuance of the NTP or prior to commencing any WORK, as SBCTA specifies. Certificate(s) of insurance, as evidence of the required insurance shall: be executed by a duly authorized representative of each insurer; show compliance with the insurance requirements set forth in the AGREEMENT together with Exhibit B; set forth deductible amounts applicable to each policy; list all exclusions which are added by endorsement to each policy; and also include the Contract Number and the SBCTA Project Manager's name on the face of the certificate. If requested in writing by SBCTA, PERMITTEE shall submit complete copies of all required insurance policies within ten (10) business days of a written request by SBCTA.

2.4. Deductibles. Regardless of the allowance of exclusions or deductibles by SBCTA, CONTRACTOR shall be responsible for any deductible or self-insured retention (SIR) amount and shall warrant that the coverage provided to SBCTA is consistent with the requirements of this Article. CONTRACTOR will pay, and shall require its sub-CONTRACTORS to pay, all deductibles, co-pay obligations, premiums and any other sums due under the insurance required in this Article. Any deductibles or self-insured retentions must be declared to and approved in writing by SBCTA's Risk Manager. At the option of SBCTA, if the deductible or SIR is greater than $50,000 or five (5) percent of the amount of coverage required under this Contract, whichever is less, the CONTRACTOR shall guarantee that either: (1) the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects to SBCTA, its directors, officials, officers, employees and agents; or, (2) the CONTRACTOR shall procure a bond guaranteeing the amount of the deductible or self-insured retention. SBCTA will have the right, but not the obligation, to pay any deductible or SIR due under any insurance policy. If SBCTA pays any sums due under any insurance required above, SBCTA may withhold said sums from any amounts due to CONTRACTOR. The Contractor's policies will neither obligate nor prohibit SBCTA or any other Additional Insured, from paying any portion of any Contractor's deductible or SIR.

2.5. PERMITTEE's and Subcontractors' Insurance will be Primary. All policies required to be maintained by the PERMITTEE or any subcontractor with the exception of Professional Liability and Worker's Compensation shall be endorsed, with a form at least as broad as ISO Form CG 20 01 04 13), to be primary coverage, and any coverage carried by any of the Additional Insureds shall be excess and non-contributory. Further, none of PERMITTEE's nor subcontractors' pollution, automobile, general liability or other liability policies (primary or excess) will contain any cross-liability exclusion barring coverage for claims by an additional insured against a named insured.

2.6. Waiver of Subrogation Rights. To the fullest extent permitted by law, PERMITTEE hereby waives all rights of recovery under subrogation against the Additional Insureds named herein, and any other consultant, subconsultant or sub-subconsultant performing work or rendering services on behalf of SBCTA, in connection with the planning, development and construction of the Project. To the fullest extent permitted by law, PERMITTEE shall require similar written express waivers and insurance clauses from each of its subcontractors of every tier. PERMITTEE shall require all of the policies and coverages required in Exhibit B to waive all rights of subrogation against the Additional Insureds (ISO Form CG 24 04 05 09). Such insurance and coverages provided shall not prohibit PERMITTEE from waiving the right of subrogation prior to a loss or claim.

2.7. Cancellation. If any insurance company elects to cancel or non-renew coverage for any reason, PERMITTEE will provide SBCTA thirty (30) days prior written notice of such cancellation or nonrenewal. If the policy is cancelled for nonpayment of premium, PERMITTEE will provide SBCTA ten (10) days prior written notice. In any event, PERMITTEE will provide SBCTA with a copy of any notice of termination or notice of any other change to any insurance coverage required herein which PERMITTEE receives within one business day after PERMITTEE receives it by submitting it to SBCTA at procurement@gosbcta.com to the attention of SBCTA's Procurement Analyst, and by depositing a copy of the notice in the U.S. Mail in accordance with the notice provisions of the AGREEMENT.

2.8. Enforcement. SBCTA may take any steps as are necessary to assure PERMITTEE's compliance with its insurance obligations as identified within the AGREEMENT and / or Exhibit B. Failure to continuously maintain insurance coverage as provided herein is a material breach of contract. In the event the PERMITTEE fails to obtain or maintain any insurance coverage required, SBCTA may, but is not required to, maintain this coverage and charge the expense to the PERMITTEE or

withhold such expense from amounts owed PERMITTEE, or terminate the AGREEMENT. The insurance required or provided shall in no way limit or relieve PERMITTEE of its duties and responsibility under the Contract, including but not limited to obligation to indemnify, defend and hold harmless the Indemnitees named below. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve PERMITTEE for liability in excess of such coverage, nor shall it preclude SBCTA from taking other actions as available to it under any other provision of the Contract or law. Nothing contained herein shall relieve PERMITTEE, or any subcontractor of any tier, of their obligations to exercise due care in the performance of their duties in connection with the WORK, and to complete the WORK in strict compliance with the AGREEMENT.

2.9. No Waiver. Failure of SBCTA to enforce in a timely manner any of the provisions of Exhibit B shall not act as a waiver to enforcement of any of these provisions at a later date.

2.10. Contractors and Subcontractors Insurance. Insurance required of the PERMITTEE shall be also provided by subcontractors, or by PERMITTEE on behalf of all subcontractors, to cover WORK, performed by said subcontractors, permitted under the AGREEMENT. PERMITTEE may reduce types and the amounts of insurance limits provided by subcontractors to be proportionate to the amount of the subcontractor's contract and the level of liability exposure for the specific type of work performed by the subcontractor. PERMITTEE shall be held responsible for all modifications, deviations, or omissions in these insurance requirements as they apply to subcontractor.

2.11. Higher limits. If PERMITTEE maintains higher limits than the minimums shown above, SBCTA shall be entitled to coverage for the higher limits maintained by PERMITTEE. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to SBCTA.

2.12. Special Risks or Circumstances. SBCTA reserves the right to modify any or all of the above insurance requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Exhibit "C"

PERMITTED HAZARDOUS MATERIAL

No hazardous material is permitted to be used or stored on Premises.

Exhibit "D"

ADDITIONAL REQUIREMENTS

[To Be Inserted]

Exhibit "D"

ADDITIONAL REQUIREMENTS

The following Additional Requirements are imposed on the Tenant/Licensee/Permittee and all of its contractors, subcontractors, employees, laborers or other persons performing any work upon SBCTA property on behalf of Tenant/Licensee/Permittee, and are made part of the terms of the Lease/License/Permit to which this Exhibit D is attached ("Agreement").

As used hereinafter, the term "Contractor" shall include the Tenant/Licensee/Permittee and each and every one of its contractors, subcontractors, employees, laborers, agents or other persons performing any work upon SBCTA property on behalf of Tenant/Licensee/Permittee; and the term "railroad operator" or "operating railroad" shall mean Southern California Regional Rail Authority (SCRRA), Burlington Northern Santa Fe Railroad Railway Company (BNSF) and/or any other railroad company or rail carrier having operating rights over rail lines owned or controlled by SBCTA.

Contractor shall fully comply with each and every one of the Additional Requirements below which is in any way applicable to the type of use, construction, installation or facility allowed under the Contractor's Agreement and approved by SBCTA as required thereunder ("Permitted Use"). The inclusion of an Additional Requirement below that is not in any way applicable to the Contractor's Permitted Use shall not imply any right, permission or consent to expand the Permitted Use in any way.

1. Contractor agrees to execute and deliver to each railroad operator prior to commencing any work within the rail right-of-way, a railroad Right of Entry Agreement which will include agreement to abide by each railroad operator's rules and requirements for construction on railway property. Contractor shall secure approval from SBCTA and each railroad operator of the design of any structures and facilities prior to commencing work on their construction or installation.

2. Contractor will acquire and comply with any and all additional permits required by the railroad operator(s), affected public utilities and/or by any government agency having jurisdiction. Any permit fees, inspection fees, flagging fees, or costs associated with the use or maintenance of the Premise by any governmental agency, department, or organization, and any labor expenses for the installation or maintenance of any permitted improvements are the Contractor's sole responsibility. Fully conformed copies of all permits are to be provided to SBCTA. Additional permits required of the Contractor may include but are not limited to encroachment permits, Storm Water Pollution Prevention Plans, environmental permits, temporary use permits, regulatory permits and third party utility permits. Contractors shall have all original executed agreements and permits on hand while on site and will present them on demand of representative of SBCTA and/or the railroad operator(s). Prior to the commencement of work, the contractor shall submit to SBCTA for review and approval, a description of the work process including a detailed schedule of all work activities to be carried out on SBCTA property.

   SCRRA's Right of Way Engineers Office - (909) 394 - 3418;

   BNSF's Roadmaster Office - (909) 386 - 4061

3. Contractor at its sole cost and expense shall obtain and maintain, in full force and effect, insurance, as required by SBCTA and the railroad operator(s) during the entire construction period. The Contractor shall furnish copies of the insurance certificates to SBCTA and all affected railroad operators.

4. Contractor agrees to comply with instructions of SBCTA and each railroad operator's Employee-In-Charge (EIC) and other representatives in relation to the proper manner of protection of the tracks and the traffic moving thereon, pole lines, signals and other property of SBCTA or its member agencies, tenants or licensees at or in the vicinity of the work, and shall perform the work at such times as not to endanger or interfere with safe and timely operations of railroad operators or of SBCTA's track and other facilities.

5. Contractor will call the appropriate operating railroad to arrange for flagging services a minimum of fifteen (15) working days prior to beginning work. Although every effort is made to accommodate schedules, prior notification does not guarantee the availability of protective/flagging services for the proposed date of work. The SCRRA/BNSF flagman/EIC has sole authority to protect safe railroad operations and infrastructure, therefore, only they and their representatives are permitted to perform flagging operations within the railroad right-of-way. At all times the contractor shall follow the flagman/EIC's direction. Contractor's work may not proceed in the absence of a flagman in accordance with applicable rules. At no time shall any contractor be permitted to cross any track or place or maintain any personnel or equipment within the railroad right-of- way without the permission of the railroad flagman.

   SCRRA's Flagging Office (213) 305-8424

   BNSF's Flagging Office (909) 386-4061

6. Prior to the start of construction and at the contractor's expense, all personnel including subcontractors and third parties shall complete SCRRA's/BNSF's Third Party Safety Training course, which is required for all work near or within the railroad right-of-way. Evidence of training must be supplied upon request of SBCTA and its representatives. No work may commence on the railroad right-of-way until this training has been completed. The contractor shall make the necessary arrangements for each equipment operator to have constant and direct radio contact with their foreman. The foreman will in turn have constant and direct contact with the SCRRA/BNSF flagman/EIC.

7. Contractor shall be responsible for the location and protection of any and all surface, sub- surface, and overhead lines, structures and improvements. Contractor shall not damage, destroy or interfere with any existing encumbrances, licenses and rights (whether public or private), granted upon or relating to the railroad right-of-way. It shall be the Contractor's responsibility to contact Underground Alert and locate all underground facilities prior to the commencement of construction. At the same time, the contractor shall notify the operating railroad for signal and communications cables and conduits mark-outs. Contractor shall obtain permission from the owners of any fiber optic, gas, electrical, water, oil or other lines which may be impacted by work on or any use of the Premises by Contractor.

   SCRRA Signal Department (909) 592-1346

   BNSF Signal Department (909) 386-4051

8. **In case of signal emergencies or grade crossing problems, the contractor shall call the following emergency numbers.**

   SCRRA Signal Emergency Department (888) 446-9721

   BNSF Signal Emergency Department (909) 386-4051

9. Contractor shall prepare and submit traffic control plan for SBCTA/SCRRA approval for projects that will affect vehicular traffic at an existing highway-rail grade crossing.

10. If SBCTA or any of its associated rail entities or railroad operators deem it necessary in the future, to modify, or to build additional, track or tracks or other facilities in connection with the operation of its railroad, at the request of SBCTA, contractor shall modify, at its own expense, any or all of its permitted facilities to conform to the rail facilities.

11. Both Contractor and SBCTA acknowledge that the Premises is Licensed in "AS IS" condition and any track removal, grading, paving and fencing as may be necessary or required to meet Contractor's needs will be the sole responsibility and at the sole cost of the Contractor and subject to SBCTA's and any affected operating railroad's prior review and approval, which may be withheld in SBCTA's or the affected operating railroad's sole and absolute discretion. SBCTA or the affected operating railroad may require that any track removal and/or other work within the right-of-way be done by SBCTA or the railroad operator, respectively, but all such work shall remain at the sole cost of the Contractor, who may be required to deposit the estimated cost plus 25% in advance of the work, subject to refund or additional charge at the conclusion of the work. No permanent structures may be constructed on the premises without SBCTA's prior written approval. Contractor will be responsible for the removal of any or all permitted improvements upon termination of Agreement as directed by SBCTA.

12. Contractor shall pay for any and all utilities for its benefit, security and use.

13. SBCTA makes no warranties as to the suitability of the location for Contractor's intended use, and Contractor assumes all risks as to environmental compliance, zoning, visibility, or any other factors which may affect Contractor's intended use of the premises.

14. Boring of carrier or direct burial utilities by directional boring methods is prohibited.

15. Signs are not permitted on or along the perimeter of the Premises unless such signs were requested and approved under Contractor's original proposal and covered by the required insurance. The contractor shall install permanent signs identifying the location of pipes at the edge of the railroad right-of-way unless within a public grade crossing.

16. Contractor shall not bring upon or use any import soil on the Premises in conjunction with any purposes allowed under this Agreement, until said import soil has been laboratory tested by a *certified hazardous waste testing laboratory* and the test results have been approved by SBCTA. Additionally, any soil currently existing on the Premises may not be spread on the Premises unless and until it is characterized as clean soil to the reasonable satisfaction of SBCTA. All soil piles are to be placed on a barrier to prevent intermingling with surface soils.

17. Contractor shall keep the Premises free and clear of weeds, trash, vegetation, unauthorized vehicle parking and graffiti and from occupancy by transients/homeless persons or individuals. Contractor shall be fully responsible for all maintenance and maintenance of adjoining SBCTA property that is required or necessary in connection with Contractor's use of Premises.

18. Prior to commencement of construction, the contractor shall submit to SBCTA / SCRRA a plan showing the proposed method of casing installation, construction access, stockpile locations, SWPPP control measures, fencing type and location and a milestone schedule.

19. For pipelines carrying flammable or hazardous materials, the contractor shall adhere to special conditions stated in the Right of Entry (ROE) Agreement.

20. The jacking and receiving pits shall be constructed outside of the railroad right of way unless shown on the SBCTA approved plans and shall not be located between any track and the automatic signal gate arms. The contractor shall layout the proposed jack and bore pits prior to the commencement of work. Only after the SBCTA/SCRRA inspector has approved the layout will the Contractor be allowed to begin work.

21. Contractor shall construct a temporary fence along the railroad right–of-way, or along the edge of pits closest to the track, on both sides of the pit, extending 50-feet in both directions from the pit, and measuring a minimum of 6-feet high. Fences are not required for work at grade crossings. Contractor shall pave the Premises area with asphalt or concrete, when requested, around the entire perimeter of the property as described in the Agreement in Part I and Exhibit "A". Contractor shall be responsible for total expense of fencing and asphalt.

22. All jack and bore operations within the railroad right-of-way shall be performed continuously on a 24-hour basis until work is completed with a SCRRA/BNSF flagman and SCRRA/BNSF inspector present at all times. Should work begin without the flagman and inspector present, the work will be halted and any casing installed will be abandoned in place, pressure grouted full, and capped to the satisfaction of SBCTA.

23. The contractor shall submit to SBCTA/SCRRA for review, drawings and calculations for any shoring that may affect or be influenced by the railroad tracks. All shoring designs shall comply with the requirements of, and be approved by, SBCTA and/or the affected operating railroad. All drawings and calculations shall be signed and stamped by a California licensed Civil or Structural Professional Engineer.

24. Prior to commencement of work, the contractor shall submit to SBCTA/SCRRA for review, load calculations for the proposed jacking casing with applied load as defined by Cooper E-80 with a 50% added impact load. The calculations shall be signed and stamped by a California licensed Civil or Structural Professional Engineer.

25. Should ground water or loose or unstable soils conditions be encountered during construction, the contractor shall immediately stop work, notify the railroad flagman, provide necessary structural support to track and other railroad structures, and notify the affected operating railroads and SBCTA. It shall be the responsibility of the contractor to make necessary corrections to the construction process to allow for said conditions.

26. All underground utilities under railroad tracks shall be encased in a larger pipe or conduit called the "casing pipe". Said casing pipe shall be installed across the entire width of the

railroad right-of-way and shall extend beyond the right of way a minimum of 10-feet. The top of the casing shall have a minimum depth of 6-feet below the top of tie and a minimum depth of 5-feet below ground surface including bottom of ditches and other low points within the railroad right-of-way. All ends of the casing pipe shall be sealed unless otherwise authorized by SBCTA. Casing and carrier pipes shall be constructed to prevent leakage of any substance. When casing pipes are sealed at each end, vent pipes shall be installed. All casing pipes shall be installed with a minimum slope of 1%. Installation of casing pipes by open trenching is prohibited.

27. Abandoned pipes shall be removed from their casing pipes. The empty casing pipe shall be pressure grouted full for the entire length of the pipe. Should there be no casing pipe; the abandoned pipe shall be pressure grouted full the entire length of the pipe. A SBCTA / SCRRA inspector must be present during the grouting process.

28. Casing jacking shall adhere to the following requirements:

    a. This method shall be in accordance with the American Railway Engineering and Maintenance of Way Association recommended practices, Volume 1, Chapter 1, Part 4, "Earth Boring and Jacking Culvert Pipe Through Fills." This operation shall be conducted without hand-mining ahead of the pipe and without the use of any type of boring, augering, or drilling equipment.

    b. Bracing and backstops and jacks shall be designed and used with sufficient rating so that the jacking can progress without stoppage (except for adding lengths of pipe) until the leading edge of the pipe reaches the receiving pit.

    c. During jacking, an earth plug 1.5 times the diameter of the casing shall be maintained at all times. Jacking operations shall be continuous on a non-stop, 24-hour per day basis until the jacking operation is completed.

29. Casing boring shall adhere to the following requirements:

    a. This method consists of pushing the pipe into the fill with a boring auger rotating within the pipe to remove the spoil. When augers or similar devices are used for casing replacement, the front of the pipe shall be provided with mechanical arrangements or devices that will positively prevent the auger from leading the casing so that there will be no unsupported excavation ahead of the casing. The auger and cutting head arrangement shall be removable from within the pipe in the event an obstruction is encountered. The over-cut by the cutting head shall not exceed the outside diameter of the pipe by more than one-half inch. The face of the cutting head shall be arranged to provide reasonable obstruction to the free flow of soft or poor material.

    b. The use of water or other liquids to facilitate casing placement and /or spoil removal is prohibited.

    c. Plans and descriptions of the auger stop arrangement to be used shall be submitted to SBCTA / SCRRA for approval prior to commencement of work.

d. Any method which employs simultaneous boring and jacking or drilling and jacking for pipes over 8-inches in diameter that does not adhere to the above requirements will not be permitted. For casings 8-inches and smaller in diameter, augering or boring without the same requirements may be considered if approved by SBCTA/SCRRA.

30. If an obstruction is encountered during installation of the casing pipe that will stop the forward action of the pipe, and it becomes evident that it is impossible to advance the pipe, operations will cease and the pipe shall be abandoned in-place and pressure grouted full before continuing with work. Location, length, and depth of abandoned casing pipes and carrier pipes shall be shown on the as-built drawings.

31. Bored or jacked installations shall have a bored-hole diameter essentially the same as the outside diameter of the casing plus the thickness of the protective coating. If voids should develop or if the bored-hole diameter is greater than the outside diameter of the casing pipe, plus coating, by more than approximately 1-inch, grouting or other methods as approved by SBCTA/SCRRA shall be employed to fill such voids.

32. Pressure grouting of the soils before or during jacking or boring may be required to stabilize the soil, control water, prevent loss of material, and prevent settlement or displacement of the ground and/or tracks. Grout shall be cement, chemical or other special injection material selected to accomplish the necessary stabilization. The grouting contractor shall be a specialist in the field with a minimum of 5-years continuous experience of successfully grouting soil. Materials to be used and the method of injection shall be prepared by a California licensed Geotechnical Engineer, or by an experienced and qualified company specializing in this work and submitted for approval by SBCTA/SCRRA prior to the commencement of work. Proof of experience and competency shall accompany the submission.

33. When water is known or expected to be encountered, pumps of sufficient capacity to handle the flow shall be maintained at the site and be constantly attended operationally on a 24-hour per day basis until the SBCTA/SCRRA inspector determines their operation can be safely halted. When dewatering, close observation shall be maintained to detect any settlement or displacement of track, ground, or facilities.

34. The dewatering system shall lower and maintain the ground water level a minimum of 2-feet below the invert at all times during construction by utilizing well points, vacuum well points, or deep wells to prevent the inflow of water or water and soil into the heading. Ground water observation wells may be required to demonstrate that the dewatering requirements are being complied with.

35. The proposed methods of dewatering shall be submitted to SBCTA/SCRRA prior to the commencement of work. The discharge from the dewatering operations in the vicinity of the railroad shall be carefully monitored. Should excessive fine soils particles, pollutants, or hazardous materials or fluids be observed at any time during the dewatering process, the dewatering shall be halted immediately and cannot resume until the unsatisfactory condition is remedied to the satisfaction of the SBCTA/SCRRA inspector.

36. All backfilling shall be at 90% relative dry compaction. For areas within or that affect the railroad right-of-way, the contractor shall submit a compaction report prepared by a California licensed Geotechnical Professional Engineer prior to release of any deposited fund balance.

37. The Contractor shall remove all temporary facilities constructed on the railroad right-of-way, debris, and other items not originally at the site prior to construction and shall notify SBCTA and any affected operating railroad that all construction has been completed. After as-builts have been received, SBCTA inspects the construction site and signs-off the work, SBCTA will release any unused deposit funds it holds. Contractor shall be responsible to arrange refunds due from any affected operating railroads.

38. A minimum of five feet (5') clearance is required above signal and communication lines for overhead crossings.

39. Poles for any use within the railroad right-of-way must be located fifty-feet (50') out from the centerline of the railroad main, branch and running tracks, CTC sidings, and heavy tonnage spurs. Pole locations adjacent to industry track must provide at least a ten foot (10') clearance from the centerline of track, when measured at right angles. If located adjacent to curved track, then said clearance must be increased at the rate of 1.5 inches per degree of curved track.

40. Regardless of the voltage, un-guyed poles shall be located a minimum distance from the centerline of any track, equal to the height of the pole above the ground–line plus ten feet (10'). If guying is required, the guys shall be placed in such a manner as to keep the pole from leaning/falling in the direction of the tracks.

41. Poles must be located a minimum distance from the railroad signal and communication line equal to the height of the pole above the ground-line or else be guyed at right angles to the lines. High voltage towers (34.5 kV and higher) must be located off railroad right-of-way.

42. Grade crossings or temporary grade crossing must not be installed under or within five-hundred feet (500') of the end of any railroad bridge, or three hundred feet (300') from the centerline of any culvert or switch area.

43. For overhead crossings, complete spanning of the property is encouraged with supportive structures and appurtenances located outside of the railroad property. For electric supply and communication lines, normally the crossing span shall not exceed one-hundred fifty-feet (150') with adjacent span not exceeding 1.5 times the crossing span length. For heavier type construction, longer spans will be considered.

44. To ensure that overhead crossings are clear from contact with any equipment passing under such wires, communication lines shall be constructed with a minimum clearance above top of rail of twenty-eight feet (28').. Electric lines must have a fluorescent ball marker on low wire over centerline track.

45. The utility owner will label the poles closest to the crossing with the owner's name and telephone number for emergency contact.

46. Overhead flammable and hazardous material lines are prohibited.

47. Because inductive interference from certain types of lines have the potential to disrupt the railroad signal and communication systems causing failures with the signals, communication, and at-grade crossing warning devices, . SBCTA may require that an inductive coordination study be performed prior to approval of the permitted use at the expense of the utility owner for proposed electrical lines crossing tracks.

48. Joint-use construction is encouraged at locations where more than one utility or type of facility is involved. However, electricity and petroleum, natural gas or other flammable materials shall not be combined.

City Council Meeting **H. 17.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve a Professional Services Agreement with Willdan Engineering for code enforcement services for an amount not-to-exceed $160,000 (Facilities and Community Services Director Crocker)

MOTION(S):

If the City Council determines that this request is appropriate, the following motion is provided:

1. I move that the City Council approve a Professional Services Agreement with Willdan Engineering for code enforcement services in an amount not-to-exceed $160,000.

RECOMMENDATION:

Staff recommends City Council approve a Professional Services Agreement with Willdan Engineering for code enforcement services in an amount not-to-exceed $160,000.

DISCUSSION:

The Code Enforcement Division is responsible for improving the quality of life, protecting property values, and ensuring the health and safety of our community through fair and consistent enforcement of the Redlands Municipal Code. Such enforcement activities include, but are not limited to, enforcement of codes related to property maintenance, graffiti, inoperative vehicles, unsafe conditions, unsafe buildings, un-permitted (unsafe) construction, and the eradication of neighborhood blight.

The Facilities and Community Services Department has priorities included in the FY 2024-25 budget that require additional code enforcement services. The agreement will allow for expanded monitoring and citing of sidewalk vendors,

blight, priority cases, and general property cases.

In addition, the City was awarded the Local Assistance Grant from CalRecycle to assist with the compliance with Senate Bill (SB) 1383, related to Mandatory Organic Waste Disposal Reduction. This agreement will provide for contracted staff to conduct organic waste inspections, writing inspection reports, and providing technical assistance to organic producers and handlers.

On April 9, 2024, staff issued a Request for Proposals (RFP) for professional services to perform code enforcement services. Nine vendors were solicited, and one responsive bid from Willdan Engineering was received on April 30, 2024.

In accordance with Chapter 2.16.180 of the City's Municipal Code, an evaluation committee reviewed and rated the proposal based on the firm's demonstrated competence and professional qualifications in accordance with specific evaluation criteria identified in the RFP. Willdan Engineering was identified as qualified to perform the tasks as outlined in the scope of services. City staff negotiated a reasonable consultant fee and is recommending the City Council approve an agreement with Willdan Engineering for an amount not-to-exceed $160,000.

ALTERNATIVES:

The City Council may elect not to approve the agreement. However, this will prolong the time required to address code enforcement and other regulatory concerns.

STRATEGIC PLAN:

Not applicable.

SUBMITTED BY:
Tabitha Crocker, Facilities and Community Services Director

RECOMMENDED BY:
Charles M. Duggan Jr., City Manager

REVIEWED BY:
Yvette M. Abich Garcia, City Attorney
Christopher Boatman, Assistant City Manager
Danielle Garcia, Management Services/Finance Director
Dana Abramovitz-Daniel, Procurement Manager

PREPARED BY:
Joe Bierma, Administrative Analyst

Fiscal Impact

Fiscal Year: FY 2024-25
Amount: $160,000
Budgeted Y/N: Yes
Account No.: 101306, 511910
Discussion:

Sufficient funding for this service is included in the Code Enforcement (101306) and Solid Waste (511910) operating budget for Fiscal Year 2024-25 as approved by City Council.

Agreement with Willdan Engineering

AGREEMENT TO PERFORM PROFESSIONAL SERVICES

This agreement for the provision of Code Enforcement Services ("Agreement") is made and entered in this 16th day of July, 2024 ("Effective Date"), by and between the City of Redlands, a municipal corporation ("City") and Willdan Engineering, a California corporation. ("Consultant"). City and Consultant are sometimes individually referred to herein as a "Party" and, together, as the "Parties." In consideration of the mutual promises contained herein, City and Consultant agree as follows:

ARTICLE 1 – ENGAGEMENT OF CONSULTANT

1.1 City hereby engages Consultant to provide Code Enforcement services for City (the "Services").

1.2 The Services shall be performed by Consultant in a professional manner, and Consultant represents that it has the skill and the professional expertise necessary to provide the Services to City at a level of competency presently maintained by other practicing professional consultants in the industry providing like and similar types of Services.

ARTICLE 2 – SERVICES OF CONSULTANT

2.1 The Services that Consultant shall perform are more particularly described in Exhibit "A," titled "Scope of Services," which is attached hereto and incorporated herein by this reference.

2.2 Consultant shall comply with applicable federal, state and local laws and regulations in the performance of this Agreement including, but not limited to, any applicable State prevailing wage laws.

ARTICLE 3 – RESPONSIBILITIES OF CITY

3.1 City designates Tabitha Crocker, Facilities & Community Services Department Director, as City's representative with respect to performance of the Services, and such person shall have the authority to transmit instructions, receive information, interpret and define City's policies and decisions with respect to performance of the Services.

ARTICLE 4 – PERFORMANCE OF SERVICES

4.1 Consultant shall perform and complete the Services in a prompt and diligent manner in accordance with the schedule set forth in Exhibit "A," titled "Scope of Services," which is attached hereto and incorporated herein by this reference.

4.2 The term of this Agreement shall be for a period of one (1) year commencing as of July 1, 2024, unless terminated earlier as provided herein.

4.3 If Consultant's Services include deliverable electronic visual presentation materials, such materials shall be delivered in a form, and made available to City, consistent with City Council-adopted policy for the same. It shall be the obligation of Consultant to obtain a copy of such policy from City staff.

ARTICLE 5 – PAYMENTS TO CONSULTANT

5.1 Compensation: Total compensation for Consultant's performance of the Services shall not exceed the amount of One Hundred Sixty Thousand Dollars ($160,000). City shall pay Consultant on a time and materials basis up to the not to exceed amount in accordance with Exhibit "B," titled ("Fee Schedule") which is attached hereto and incorporated herein by reference.

5.2 Consultant shall submit monthly invoices to City describing the Services performed during the preceding month. Consultant's invoices shall include a brief description of the Services performed, the dates the Services were performed, the number of hours spent and by whom, and a description of reimbursable expenses related to the Services. City shall pay Consultant no later than thirty (30) days after receipt and approval by City of Consultant's invoice.

5.3 Any notice or other communication required, or which may be given, pursuant to this Agreement, shall be in writing. Any such notice shall be deemed delivered (i) on the date of delivery in person; (ii) five (5) days after deposit in first class registered mail, with return receipt requested; (iii) on the actual delivery date if deposited with an overnight courier; or (iv) on the date sent by facsimile or electronic mail transmission (including PDF), if confirmed with a copy sent contemporaneously by first class, certified, registered or express mail; in each case properly posted and fully prepaid to the appropriate address set forth below, or such other address as a Party may provide notice in accordance with this section:

Phone: (909) 798-7531	Fax: 714-940-4920

ARTICLE 6 – INSURANCE AND INDEMNIFICATION

6.1 The following insurance coverage required by this Agreement shall be maintained by Consultant for the duration of its performance of the Services. Consultant shall not perform any Services unless and until the required insurance listed below is obtained by Consultant. Consultant shall provide City with certificates of insurance and endorsements evidencing

such insurance prior to commencement of the Services. Insurance policies shall include a provision prohibiting cancellation or modification of the policy except upon thirty (30) days prior written notice to City.

A. Workers' Compensation and Employer's Liability insurance in the amount that meets statutory requirements with an insurance carrier acceptable to City, or certification to City that Consultant is self-insured or exempt from the workers' compensation laws of the State of California. Consultant shall execute and provide City with Exhibit "C," titled "Workers' Compensation Insurance Certification," which is attached hereto and incorporated herein by this reference, prior to performance of the Services.

B. Comprehensive General Liability insurance with carriers acceptable to City in the minimum amount of One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate, for public liability, property damage and personal injury is required. City shall be named as an additional insured and such insurance shall be primary and non-contributing to any insurance or self-insurance maintained by City.

C. Consultant shall secure and maintain professional liability insurance throughout the term of this Agreement in the amount of One Million Dollars ($1,000,000) per claim made.

D. Business Auto Liability coverage, with minimum limits of One Million Dollars ($1,000,000) per occurrence, combined single limit bodily injury liability and property damage liability. This coverage shall include all Consultant owned vehicles used in connection with Consultant's provision of the Services, hired and non-owned vehicles, and employee non-ownership vehicles. City shall be named as an additional insured and such insurance shall be primary and non-contributing to any insurance or self-insurance maintained by City.

E. Consultant is expressly prohibited from assigning or subcontracting any of the Services without the prior written consent of City. In the event of mutual agreement by the Parties to assign or subcontract a portion of the Services, Consultant shall add such assignee or subcontractor as an additional insured to the insurance policies required hereby and provide City with the insurance endorsements prior to any Services being performed by the assignee or subcontractor.

6.2 Consultant shall defend, indemnify and hold harmless City and its elected and appointed officials, employees and agents from and against any and all claims, losses or liability, including attorneys' fees, arising from injury or death to persons or damage to property occasioned by any negligent act or omission by, or the willful misconduct of, Consultant, or its officers, employees and agents in performing the Services.

ARTICLE 7 – CONFLICTS OF INTEREST

7.1 Consultant covenants and represents that it does not have any investment or interest in any real property that may be the subject of this Agreement or any other source of income,

interest in real property or investment that would be affected in any manner or degree by the performance of Consultant's Services. Consultant further covenants and represents that in the performance of its duties hereunder, no person having any such interest shall perform any Services under this Agreement.

7.2 Consultant agrees it is not a designated employee within the meaning of the Political Reform Act because Consultant:

A. Does not make a governmental decision whether to:

(i) approve a rate, rule or regulation, or adopt or enforce a City law;
(ii) issue, deny, suspend or revoke any City permit, license, application, certification, approval, order or similar authorization or entitlement;
(iii) authorize City to enter into, modify or renew a contract;
(iv) grant City approval to a contract that requires City approval and to which City is a party, or to the specifications for such a contract;
(v) grant City approval to a plan, design, report, study or similar item;
(vi) adopt, or grant City approval of, policies, standards or guidelines for City or for any subdivision thereof.

B. Does not serve in a staff capacity with City and in that capacity, participate in making a governmental decision or otherwise perform the same or substantially the same duties for City that would otherwise be performed by an individual holding a position specified in City's Conflict of Interest Code under Government Code section 87302.

7.3 In the event City determines that Consultant must disclose its financial interests, Consultant shall complete and file a Fair Political Practices Commission Form 700, Statement of Economic Interests, with the City Clerk's office pursuant to the written instructions provided by the City Clerk.

ARTICLE 8 – GENERAL CONSIDERATIONS

8.1 In the event any action is commenced to enforce or interpret any of the terms or conditions of this Agreement the prevailing Party shall, in addition to any costs and other relief, be entitled to the recovery of its reasonable attorneys' fees, including fees for the use of in-house counsel by a Party.

8.2 Consultant shall not assign any of the Services, except with the prior written approval of City and in strict compliance with the terms and conditions of this Agreement. Any assignment or attempted assignment without such prior written consent may, in the sole discretion of City, result in City's immediate termination of this Agreement.

8.3 Consultant is for all purposes under this Agreement an independent contractor and shall perform the Services as an independent contractor. Neither City nor any its agents shall have control over the conduct of Consultant or Consultant's employees, except as herein

set forth. Consultant shall supply all necessary tools and instrumentalities required to perform the Services. Assigned personnel employed by Consultant are for its account only, and in no event shall Consultant or personnel retained by it be deemed to have been employed by City or engaged by City for the account of, or on behalf of City. Consultant shall have no authority, express or implied, to act on behalf of City in any capacity whatsoever as an agent, nor shall Consultant have any authority, express or implied, to bind City to any obligation.

8.4 This Agreement may be terminated by City, in its sole discretion, by providing not less than five (5) days prior written notice to Consultant of City's intent to terminate. If this Agreement is terminated by City, an adjustment to Consultant's compensation shall be made, but (1) no amount shall be allowed for anticipated profit or unperformed Services, and (2) any payment due Consultant at the time of termination may be adjusted to the extent of any additional costs to City occasioned by any default by Consultant. Upon receipt of a termination notice, Consultant shall immediately discontinue its provision of the Services and, within five (5) days of the date of the termination notice, deliver or otherwise make available to City, copies (in both hard copy and electronic form, where applicable) of project related data, design calculations, drawings, specifications, reports, estimates, summaries and such other information and materials as may have been accumulated by Consultant in performing the Services. Consultant shall be compensated on a pro-rata basis for Services completed up to the date of termination.

8.5 Consultant shall maintain books, ledgers, invoices, accounts and other records and documents evidencing costs and expenses related to the Services for a period of three (3) years, or for any longer period required by law, from the date of final payment to Consultant pursuant to this Agreement. Such books shall be available at reasonable times for examination by City at the office of Consultant.

8.6 This Agreement, including the Exhibits incorporated herein by reference, represents the entire agreement and understanding between the Parties as to the matters contained herein, and any prior negotiations, written proposals or verbal agreements relating to such matters are superseded by this Agreement. Except as otherwise provided for herein, any amendment to this Agreement shall be in writing, approved by City and signed by City and Consultant.

8.7 This Agreement shall be governed by and construed in accordance with the laws of the State of California, without regard to its conflicts of laws provisions. The Parties agree that all actions or proceedings arising in connection with this Agreement shall be tried and litigated only in the state courts located in San Bernardino County, California, and the federal courts located in Riverside County, California.

8.8 If one or more of the sentences, clauses, paragraphs or sections contained in this Agreement is declared invalid, void or unenforceable by a court of competent jurisdiction, the same shall be deemed severable from the remainder of this Agreement and shall not affect, impair or invalidate the remaining sentences, clauses, paragraphs or sections contained

herein, unless to do so would deprive a Party of a material benefit of its bargain under this Agreement.

IN WITNESS WHEREOF, duly authorized representatives of City and Consultant have signed in confirmation of this Agreement.

ATTEST:

_____
Jeanne Donaldson, City Clerk

EXHIBIT "A"

SCOPE OF SERVICES

Services will include, but are not limited to:

A minimum of one (1) full-time Code Enforcement Officer to perform as-needed services for the City. Depending on the needs of the City, the number of staff may be increased to two full-time and one part-time officer. The assigned officer(s) shall be dedicated to working in partnership with residents, tenants, landlords, and business owners to promote and maintain a safe and desirable living and working environment. The assigned officer(s) shall work toward a goal of resolving problems efficiently and safely. Additionally, they shall have experience in investigative practices that aid in substantiating the validity of a complaint on a property and in turn addressing verified violations through proper due process noticing.

The assigned officer(s) shall

- Comply with the City's procedures for reporting inspection results and deficiencies.
- Use City inspection correction forms.
- Complete necessary digital entries that capture site inspection results, case status communications and any documentation of notices provided to responsible parties and stakeholders.
- Conduct follow-up inspections as needed.
- Maintain records as needed for the efficient and effective operation of the City.
- Meet with members of the general public and municipal staff on a daily basis as needed.

The most common areas of concern for the City are as follows:

- Blight Enforcement

Through field contact with tenants and property owners, work efficiently in providing guidance to address blighted conditions such as overgrown weeds, trash, debris, and graffiti.

- Vendor Enforcement

Education and enforcement of unpermitted vending activity, generate inspection reports, issue Administrative Citations to vendors. Specifically related to enforcement of unpermitted vending ordinances on municipality-owned or controlled property such as parks, public rights of way (sidewalks) and areas outside the permitted vending spaces.

- Sign Enforcement

Ensuring signage, advertisements, and public notices comply with established guidelines and regulations, fostering a well-informed and compliant community.

- Rental Housing Enforcement

Assist with the inspection of residential rental properties on a routine and comprehensive basis to assure the overall quality of the unit meets the requirements of the Health and Safety Code and property maintenance guidelines. This includes educating property owners, property managers, and tenants about those requirements.

Organics Inspection Services

Perform inspection site visits, including lid flipping of residential and commercial containers. Coordinate regular on-site inspections and evaluations of residential and business recycling efforts for compliance with SB 1383.

Record keeping; track compliance levels; addresses visited, and letters issued.

Ensure all residents and businesses have a green organic waste bin or the required 60-gallon (Tan) organics containers for businesses.

Qualifications

Code Enforcement personnel shall be certified through the International Code Council, CACEO, and/or other various training programs offered through accredited institutions. In addition, personnel shall a PC832.

Scheduled Hours of work

The assigned code enforcement officer(s) will work a 5/40 schedule from Tuesday through Saturday. The hours of work may fluctuate between 8 am and 4:30 pm and 1pm to 9 pm to address vendor enforcement in the afternoon, evening and weekend hours. Changes to the set schedule will be made with a minimum of two weeks' notice.

EXHIBIT "B"

Fee Schedule

Willdan shall provide contract code enforcement services to the City of Redlands for a flat hourly rate based on the rate schedule below. All contract code enforcement services shall be billed at the Code Enforcement Officer rate for all services outlined in the Scope of Work.

In the case additional services are requested during the term of this agreement, the following hourly rates will be applied.

Service Provided	Hourly Rate	Hourly Rate with Vehicle
Code Enforcement Officer	$75	$85
Code Enforcement Officer II	$85	$95
Code Enforcement Officer II	$95	$105
Code Enforcement Officer II	$115	$125
Code Enforcement Officer II	$135	$145
Overtime	Billed at 1.5 times the hourly rate	

EXHIBIT "C"

WORKERS' COMPENSATION INSURANCE CERTIFICATION

Every employer, except the State, shall secure the payment of compensation in one or more of the following ways:

(a) By being insured against liability to pay compensation by one or more insurers duly authorized to write compensation insurance in this State.

(b) By securing from the Director of Industrial Relations, a certificate of consent to self-insure, either as an individual employer, or as one employer in a group of employers, which may be given upon furnishing proof satisfactory to the Director of Industrial Relations of ability to self-insure and to pay any compensation that may become due to his or her employees.

CHECK ONE

_____I am aware of the provisions of Section 3700 of the Labor Code which requires every employer to be insured against liability for Workers' Compensation or to undertake self-insurance in accordance with the provisions of that Code, and I will comply with such provisions before commencing the performance of the work and activities required or permitted under this Agreement. (Labor Code §1861).

_____I affirm that at all times, in performing the work and activities required or permitted under this Agreement, I shall not employ any person in any manner such that I become subject to the workers' compensation laws of California. However, at any time, if I employ any person such that I become subject to the workers' compensation laws of California, immediately I shall provide the City with a certificate of consent to self-insure, or a certification of workers' compensation insurance.

I certify under penalty of perjury under the laws of the State of California that the information and representations made in this certificate are true and correct.

City Council Meeting **H. 18.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Accept the sculpture artwork donation "*Reflections"* by artist Saim Caglayan, from Tampa Tarzana, LLC (Facilities and Community Services Director Crocker)

MOTION(S):

If the City Council agrees with the Commission's recommendation, the following motion has been provided:

I move that the City Council accept the donation of the sculpture artwork *Reflections.*

RECOMMENDATION:

Commission Recommendation:

At their regular meeting on May 9, 2022, the Cultural Arts Commission (Commission) unanimously recommended that the City Council accept the donation of this sculpture artwork.

Staff Recommendation:

Staff recommends City Council direct staff accordingly in regard to the donation of the sculpture artwork.

DISCUSSION:

The Cultural Arts Commission (Commission) promotes public interest in the Arts, recommends new art programs and funding for those programs, and recommends to the City Council policies to encourage, develop, and support the arts in Redlands. The Commission also advises the City Council on the administration of the City's Art in Public Places program.

In 2020, the City Council adopted Resolution No. 8069 establishing a donation acceptance policy that provides for uniform criteria and procedures to guide the review and acceptance of donations, confirm that the City has relevant and adequate resources to administer such donations and ensure that the City appropriately acknowledges the generosity of the donor. Per the Policy, all donations will be evaluated by the City prior to acceptance to determine whether the donation is consistent with the corresponding department or program's mandate; is in the City's best interest; and is consistent with applicable City laws, policies, ordinances, and resolutions.

Early in 2022, representatives of Tampa Tarzana, LLC, owners of La Farge Plaza (Owners), contacted one of the Commission members with a proposal to donate the subject artwork. The current location of the artwork is within the interior of La Farge Plaza, located on the northwest corner of the intersection of Eureka Street and West State Street. The Owners indicated that at sometime in the near future La Farge Plaza would be undergoing development changes, and they expressed interest in donating the piece to the City. Early in 2024, the Owners contacted the Commission member again and indicated they were ready to move forward with their plans for renovation and were interested in donating the artwork at this time.

Titled *Reflections*, the artwork by Saim Caglayan is composed of four white Carrara marble slabs, with black marble strips on the edges of the white marble. Joan Dotson, a Redlands resident that served eight years on the Redlands Planning Commission was personally responsible for the installation of five sculptures in public places in the City. One of the five pieces was *Reflections* by Saim Caglayan, which was commissioned in 1988 and placed as a fountain sculpture within the center of La Farge Plaza. Those five art pieces then inspired the Cultural Arts Commission in the 1980s to bring more public art to Redlands.

At their regular meeting on May 9, 2022, the Commission moved to recommend that the City Council accept the donation of the artwork titled *Reflections* from Saim Caglayan. At their regular meeting on May 13, 2024, the Commission voted unanimously to recommend the City Council that the sculpture artwork be installed at either the northwest corner of Center Street and Brookside Avenue or on the State Street side of the facility located at 300 E. State Street. The Commission also recommended that lighting be integrated into the display of the artwork and an informational plaque be placed in recognition of the artist and the long-term history of the artwork. The art has been appraised by the owner at a value of $96,000.

Both of the recommended locations currently have improvements underway, and authorization to install the artwork may be required. Therefore, staff recommends that if the City Council approve the donation of the artwork, the artwork will be stored until such time that a report can be brought to City Council for consideration of installation locations.

ALTERNATIVES:

City Council may elect not to accept the donation and provide alternative directions for staff.

STRATEGIC PLAN:

Supports Priority A - Quality of Life; Strategic Objective 1 - Beautification, Arts and Culture

SUBMITTED BY:
Tabitha Crocker, Facilities and Community Services Department Director

RECOMMENDED BY:
Charles M. Duggan Jr., City Manager

REVIEWED BY:
Christopher Boatman, Assistant City Manager
Danielle Garcia, Management Services/Finance Director

PREPARED BY:
Joe Bierma, Administrative Analyst

Fiscal Impact

Fiscal Year:	FY 2024-25
Amount:	$5,000.00
Account No.:	101300

Discussion:

The cost of materials and labor related to the removal and storage of the sculpture artwork is estimated at $5,000. Sufficient funding for this expense is included in the Facilities & Community Services operating budget for Fiscal Year 2024-25 as approved by City Council.

ABOUT THE ARTIST – SAIM CAGLAYAN

Saim Caglayan was born in Istanbul, Turkiye and came to the United States in 1968 to study architecture. After three years his interest changed and he went on to complete his BA in Sculpture from California State University, Long Beach. For over twenty years he taught art at various California Community Colleges.

His love of landscape painting in 1996 motivated him to create Laguna Plein Air Painters Association. His goal was to revive the tradition of the early California painters who lived and painted in and near Laguna Beach. Today LPAPA, a non-profit, has become a well-respected art organization throughout the country.

PROPOSED LOCATION – 700 BROOKSIDE AVENUE (MUSEUM OF REDLANDS)

PROPOSED LOCATION AT 300 E. STATE STREET (FUTURE CITY HALL FACILITY)

RESOLUTION NO. 8069

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF REDLANDS ESTABLISHING A DONATION ACCEPTANCE POLICY

WHEREAS, as part of City staff's continuing effort to enhance the fiscal and operational practices of the City, a Donation Acceptance Policy has been developed and submitted to the City Council for review; and

WHEREAS, the purpose for establishing a Donation Acceptance Policy is to accept donations in a transparent and accountable manner that is consistent with the City's strategic goals when individuals, community groups, charitable organizations, and businesses wish to make donations to the City of Redlands; and

WHEREAS, the Donation Acceptance Policy will provide for uniform criteria and procedures to guide the review and acceptance of such donations, confirm that the City has relevant and adequate resources to administer such donations, and ensure that the City appropriately acknowledges the generosity of the donor; and

WHEREAS, California Education Code section 18920 provides the Library Board of Trustees with the authority to accept donations made to the A.K. Smiley Public Library, and as such, any donations made to the A.K Smiley Public Library are not subject to this policy;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF REDLANDS AS FOLLOWS:

Section 1. The City Council hereby rescinds Resolution 7868.

Section 2. The City Council hereby adopts the amended Donation Acceptance Policy attached hereto as Exhibit "A."

Section 3. This Resolution, and the Donation Acceptance Policy established by this Resolution, shall become effective April 15, 2020.

ADOPTED, SIGNED AND APPROVED this 15th day of April, 2020.

Paul W. Foster, Mayor

ATTEST:

Jeanne Donaldson, City Clerk

I, Jeanne Donaldson, City Clerk of the City of Redlands, hereby certify that the foregoing resolution was duly adopted by the City Council at a special meeting thereof held on the 15th day of April, 2020, by the following vote:

AYES:	Councilmembers Barich, Tejeda, Momberger, Davis; Mayor Foster
NOES:	None
ABSENT:	None
ABSTAIN:	None

Jeanne Donaldson, City Clerk

Exhibit "A"

City of Redlands

DONATION ACCEPTANCE POLICY
Amended April 15, 2020

PURPOSE

The purpose of this policy is to establish a policy that is consistent with the City's strategic goals for accepting donations in a transparent and accountable manner from individuals, community groups, charitable organizations, and businesses who wish to make donations to the City of Redlands. Additionally, this policy will provide for uniform criteria and procedures to guide the review and acceptance of such donations, confirm that the City has adequate resources to administer such donations, and ensure that the City appropriately acknowledges the generosity of the donor.

DEFINITIONS

Donation or Gift shall mean a monetary contribution, personal property, real property, equipment, or any other asset that the City has accepted and for which the donor has not received any legal consideration in return. For purposes of this Policy, the terms "donation" and "gift" shall be synonymous.

Donor shall mean a person or legal entity that proposes or provides a donation to the City.

Endowment shall mean monetary donations that are restricted by the respective donor to the extent that only earnings, and not principal, may be expended by the City for the donor's designated or intended purposes. Such donations are restricted donations in the sense that the donor-specified purpose is to preserve the corpus of the initial donation.

Restricted Donation shall mean monetary donations whose expenditure is restricted to a Donor-specified purpose, which may identify a particular City department, program, project, or other purpose as the beneficiary of the donation. For example: such donations may include the funds directed to support a public art initiative or to support construction of a skate park.

Unrestricted Donation shall mean a donation made to the City by a donor without any limitations or restrictions being placed upon its use.

GENERAL GUIDELINES

1. Donations do not become the property of the City until accepted by the City in a manner consistent with this Policy.
2. In the event that any City employee, volunteer, or elected official is offered a restricted donation on behalf of the City, that City employee, volunteer, or elected official shall direct the donor to provide such restricted donation directly to the City's Management Services / Finance Department for processing and acceptance.
3. The City's Management Services / Finance Department shall be responsible for authorizing acceptance of restricted donations.
4. In the event that any City employee, volunteer, or elected official is offered an unrestricted donation, they may accept the donation on behalf of the City and are required to bring the donation to the Revenue Division of the Management Services / Finance Department for

deposit.

5. In order to efficiently accept, expend, and account for funds donated to the City,

    a. The City Manager and his or her designee in coordination with the Management Services / Finance Department may review and decide to accept or decline individual donations up to the amount of $30,000.
    b. The City Council shall review and decide to accept or decline individual donations exceeding the amount of $30,000.

6. All donations will be evaluated by the City prior to acceptance to determine whether the donation is consistent with the corresponding department or program's mandate; is in the City's best interest; and is consistent with applicable City laws, policies, ordinances, and resolutions.

7. The City has no obligation to accept any donation proposed by a donor. The City reserves the right to decline any donation if, upon review, acceptance of the donation is determined in the sole discretion of the City to not be in the best interests of the City.

8. The City does not provide legal, accounting, tax or other such advice to donors. Each donor is ultimately responsible for ensuring the donor's proposed donation meets and furthers the donor's charitable, financial, and estate planning goals. As such, each donor is encouraged to meet with a professional advisor before making any donation to the City.

9. On behalf of the City and depending on the amount of an individual donation, the City Manager, or the City Council must determine whether an expenditure of City funds, either a direct outlay of City funds or the use of City employees and materials, is associated with or required by acceptance of that individual donation prior to acceptance.

10. The donation must be used for official City business, and not for political activities or other personal business. Donations may not confer a personal benefit to any City employee or City official.

11. No undue public benefit or similar advantage is to accrue to the donor or to any person affiliated with, related to, or not dealing at arm's length with the donor as a result of the donation.

12. A donor may restrict a donation for a particular City department, location or purpose, but not designate the City official who may use the donation.

13. If required, the City will report a donation made to the City to the Fair Political Practices Commission (FPPC) in accordance with the timelines and directives described in title 2, section 18944 of the California Code of Regulations.

14. If a donation to the City is made at an elected City official's behest from a single source in a calendar year, and the donation meets or exceeds the amount established by the FPPC, the elected City official must file a FPPC Form 803 with the City Clerk disclosing this information.

15. The City department or office administering the donation is responsible for acknowledging receipt of and thanking, on behalf of the City, the donors of donations.

16. The City shall comply with all applicable laws and regulations of the Internal Revenue Service regarding the acceptance of donations.

17. The City department or office administering the donation shall work with the Management Services / Finance Director or his or her designee to determine the appropriate accounting for the donation.

18. Donors are required to advise the City if the donor is making a donation to the City on a date that falls within thirty (30) days from when the donor, or the donor's organization or company, was, is, or plans to be involved with an application for a City permit or planning approval or with responding to an active City solicitation for goods and/or services.

POLICY

Unrestricted Donations of Monetary or Tangible Items

All donations to the City shall immediately be submitted for consideration for acceptance. City staff shall review every donation and determine if the benefits to be derived warrant acceptance of the donation.

A. Unrestricted monetary donations will be deposited into the City's General Fund donation account.

B. Donations for gratuitous purposes (e.g. holiday gift baskets, etc.) to any City employee are governed by the City's Gift Policy, as adopted by the City Council on September 3rd, 2008. In brief, it is the policy of the City to prohibit acceptance of gifts by City employees.

Council Notification: The Management Services / Finance Department will notify the City Council on an annual basis of all accepted and rejected monetary donations received and processed.

Restricted Donations of Monetary or Tangible Items

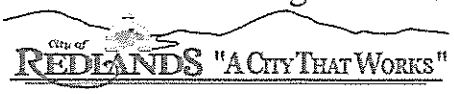
The Management Services / Finance Department will evaluate whether the donation:

- is in the City's best interest and is consistent with applicable City ordinances, resolutions, and policies;
- has any special restrictions and if so, if those restrictions are acceptable to the City;
- obligates the City to make an immediate or initial City expenditure which has not been included in the approved City budget; or
- creates a new, one-time or an on-going general maintenance obligation for the City.

Based on such evaluation, recommendations for acceptance or rejection of the donation will be made to the City Manager or his or her designee.

Donations of Real Property

All determinations for acceptance of donations of real property shall be made by the City Council.



The Facilities and Community Services Department shall administer the donation of real property, in conjunction with any other City departments deemed appropriate.

Donations of Trust and Endowment Funds

Donations of trust and endowment funds shall be administered by the Management Services / Finance Department in accordance with Generally Accepted Accounting Principles applying the relevant Governmental Accounting Standards Board pronouncements.

In general, endowments exist to invest resources for the purpose of generating income. As such, in order for a donation to be considered for the establishment of an endowment fund at the request of the donor, the City in its sole discretion shall apply minimum dollar amount thresholds in keeping with the best interests of the City.

City Council Meeting **H. 19.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve the in-kind support request of $6,848 from Kid's Cures Foundation, for the Downtown Redlands Artwalk to be held on October 27, 2024; a request to close East State and 5th Street; and determine that the approval of the request is exempt from environmental review pursuant to Section 15311(c) of the state's guidelines implementing the California Environmental Quality Act (Facilities and Community Services Crocker)

MOTION(S):

If the City Council determines that staff's recommendation is appropriate, the following motions are provided:

1. I move that the City Council determine that approval of the event is exempt from environmental review pursuant to Section 15311(c) of the state's guidelines implementing the California Environmental Quality Act; and

2. I move to approve the request for in-kind support for this event; and authorize the temporary street closures on October 27, 2024.

RECOMMENDATION:

Staff recommends that City Council determine that approval of the event is exempt from environmental review pursuant to Section 15311(c) of the state's guidelines implementing the California Environmental Quality Act (CEQA) and approve the temporary street closure of East State St. and 5th St. on October 27, 2024, for the Artwalk event. Additionally, staff recommends that the City Council direct staff accordingly concerning the request for in-kind support.

DISCUSSION:

The Facilities and Community Services Department manages the administration and issuance of permits for special events held in public areas of the City. Upon the issuance of a special event permit, the event may take place contingent on the event organizer paying the required fees. The City recognizes the value of partnering with non-profit agencies and organizations to provide services beneficial to the community. In an effort to provide support for programs that provide a community benefit, the City Council will, from time to time, consider the authorization of in-kind support including the use of city resources and facilities in support of a special event.

The Kid's Cures Foundation has reserved Ed Hales Park for Sunday, October 27, 2024, from 9:00 a.m. to 7:00 p.m., for the Downtown Redlands Artwalk event. They are also requesting approval to temporarily close East State Street from Orange Street to 7th Street and 5th Street from Redlands Boulevard to Orange Street Alley, for the event, from 7:00 a.m. to 8:00 p.m. Additionally, they are requesting in-kind support in the amount of $6,848 for departmental resources including police personnel, and the reservation of Ed Hales Park. The Kid's Cure Foundation anticipates an attendance of 2500 people and the presence of 45 vendors. In 2023, the City Council approved an in-kind support request for $8,344 relating to The Downtown Redlands Artwalk event hosted by the Kid's Cures Foundation held on October 29, 2023. The Kid's Cures foundation is a non-profit organization operating out of the City of Beaumont, CA.

The event is exempt from the requirements of the California Environmental Quality Act’s guidelines pursuant to Section 15311(c). Section 15311(c), accessory structures Class 11, consists of construction, or replacement of minor structure accessory to existing commercial, industrial, or institutional facilities, including placement of seasonal or temporary use items such as mobile food units, portable restrooms or similar items in generally the same locations from time to time in publicly owned parks or other facilities designed for public use.

ALTERNATIVES:

The City Council may deny the request or waive a portion of the fees.

City of Redlands *In-Kind Support Request*

Event Name: Downtown Redlands Artwalk

Event Date(s): October 27, 2024 **Location(s):** State Street (orange to 7th), Ed Hales Park

Rain Out Date: **Beginning Time:** 9 am **End Time:** 7pm

Describe Your Request:

This completed form with all supporting documentation shall be submitted a minimum of 60 days prior to the scheduled event. Additional information may be attached to this application form, as needed.

Looking to bring back the official DTR Artwalk we have held for many years. We are planning on including a Car/Motorcycle section with this event. We will have live music as many years past. Jacks Toys will also have an area for children and other business owners on the street are excited to be a part of this event.

Select and Describe All City Provided Services That May Apply to Your Request :

- [x] Traffic (*Personnel, equipment, cones, barricades, no-parking* — no parking signs, barricades blocking the street
- [x] Police (*Public Safety Personnel)* — security
- [ ] Fire (*Paramedics, Inspectors)*
- [x] Parks *(Cleanup Personnel, Ball Field Lights)* — Ed Hales Park
- [x] Facility — Port-a-Potties (4reg, 1 ADA, 1 handwash station), recycling event boxes

Refuse/Recycling *(Event Receptacles, Roll-Off Service)* acquired by Event Organizers through Redlands Customer Service

Section 13.65 of the Redlands Municipal Code requires that events that serve more than 2,000 individuals per day will be required to submit for review and approval a Large Venue Recycling Plan. The Quality of Life Department may require smaller events to comply with City recycling practices as a condition of waiving fees.

As a part of our commitment to fiscal responsibility, the City of Redlands gathers data associated with the economic and social benefits associated with in-kind support. Please provide estimates, as applicable, for your event.

Positive outcomes for your organization from this

Bring awareness to a great organization that was built from such a tragic loss. A commitment to bring funds to help/supply/show children that art can be therapeutic to their healing and struggle. This organization also provides gifts for children during the holidays so parents can focus on being with their children and not worry about them feeling left out when it comes to gifts and support.

Describe what economic benefit and impact this event will bring to the City:

It brings people to downtown state street where it benefits the businesses that are open on Saturday. Knowing that this giving city played a part in providing for children that are struggling is just another motion that reflects what this city stands for. We have businesses on State St that are involved in the return of this event. The last event was a great success with tons of positive feedback from so many people in the community. We had guests from out of state to come and visit Redlands and shop at the local businesses that were opened on Sunday.

In April 2002, the City Council adopted Resolution No. 6038, which encourages groups or organizations requesting in-kind support from the City to use local businesses when procuring goods and services associated with the event. Receipts will need to be submitted through a follow up form. Failure to submit post event documentation (within 15 days) may affect future requests.

	Proposed Event	Previous Event Actuals	Vendors

Chapter 12, Redlands Municipal Code

Applicant shall comply with all City laws governing use of Redlands parks. Applicant shall defend, indemnify and hold harmless the City and its respective officials, officers and employees from and against any and all claims, lawsuits, damages, losses, injuries, costs and liabilities for injury (including death) to persons or property arising from or associated with applicant's and applicant's officers', employees', agents' and invitees', negligent or intentionally wrongful acts or omissions in conducting applicant's activity allowed by the approved reservation request (Permit). Applicant Initial _____

NOTE: This permit is subject to immediate cancellation by any Police Officer or agent of the City who determines that any provision(s) of the City's Municipal Code have been violated.

Applicant may be required to provide the City, for review and approval, certificates of insurance for public liability insurance to protect against loss from liability for damages on account of bodily injury and property damage arising from applicant's activity. Such insurance shall name on the policy or endorsement, as additional insureds, the City of Redlands and its respective elected officials, officers, employees and agents. Such insurance shall include not less than One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) in the aggregate of comprehensive general liability insurance, including bodily injury and property damage coverage, together with such other additional coverage as the City's Risk Manager may determine to be prudent. Insurance coverage shall be maintained for the duration of applicant's activity. Proof of Insurance Policy No. PLF047372-AA266163 Insurance Company ACT Insurance

In anticipation of the City Council's consideration of this request, staff has compiled the following table outlining costs related to fees established by Resolution of the City Council and departmental charges pertaining to personnel and equipment resources necessary for the support of the event. The departmental charges are costs outside of normal City operations that would not be incurred by the City if the special event was not taking place.

Departmental Charges (Personnel & Equipment)	**2024 Amount**	**Type**	**2023 Amount**
Police Personnel[1]	$4,864.00	Hard Cost	$5,450.00
Fire Personnel[1]	$0.00	Hard Cost	$0.00
Facilities & Community Services Personnel[1]	$1,200.00	Hard Cost	$2,800.00
Personnel & Equipment Subtotal	**$6,064.00**		$8,250.00
Fees Established by City Council Resolution			
Park Reservation	$94.00	Soft Cost	94.00
FCS Equipment	$690.00	Soft Cost	
Fire Equipment	$0.00	Soft Cost	
Fees Subtotal			
Total Departmental Charges and Fees	**$784.00**		$94.00
	$6,064.00 (hard) **$784.00** (soft) **$6,848.00 (Total)**		**$8,250.00** **$94.00** **$8,344.00**

[1]*Personnel costs are calculated conservatively assuming the highest staff cost scenario. Actual costs may vary on the day of the event based on the actual staff present. Actual costs will be confirmed following the event and will be included in a reconciliation report presented to the City Council.*

The following table summarizes the total estimated costs associated with the use of City resources and waiver of fees approved for events scheduled during Fiscal Year 2024-25 to date:

TABLE 2: FY 2024-25 Fee Waivers to date

Hard Costs	**Soft Costs**	**Deposits Refunded**	**Waiver Amount**	**Net Amount**
$0.00	$0.00	$0.00	$0.00	$0.00

City Council Meeting **H. 20.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Approve the request to hold Vibe Health and Wellness Festival event hosted by University of Redlands, Alliance For Community Transformation and Wellness (ACTW) on September 29, 2024, within Sylvan Park and the surrounding area; authorize street closures related to the event; approve a request for in-kind support in the amount of $13,820 related to the event and determine that the approval of the request is exempt from environmental review pursuant to Section 15311(c) of the state's guidelines implementing the California Environmental Quality Act (Facilities and Community Services Director Crocker)

MOTION(S):

If the City Council determines that the requests are appropriate, the following motions are provided:

1. I move that the City Council determine that approval of the event is exempt from environmental review pursuant to Section 15311(c) of the State's guidelines implementing the California Environmental Quality Act; and
2. I move to authorize the expenditure of city resources and in-kind support related to this event, and approve the associated street closures.

RECOMMENDATION:

Staff recommends that City Council determine that approval of the event is exempt from environmental review pursuant to Section 15311(c) of the state's guidelines implementing the California Environmental Quality Act (CEQA). Staff further recommends that the City Council direct staff accordingly concerning the request for in-kind support and approve the temporary street closures related to the event.

DISCUSSION:

The Facilities and Community Services Department manages the administration and issuance of permits for special events held in public areas of the City. Upon the issuance of a special event permit, the event may take place contingent on the event organizer paying the required fees. The City recognizes the value of partnering with non-profit agencies and organizations to provide services beneficial to the community. In an effort to provide support for programs that provide a community benefit, the City Council will, from time to time, consider the authorization of in-kind support including the use of city resources and facilities in support of a special event.

The Alliance For Community Transformation and Wellness has reserved Sylvan Park for the annual Vibe Health and Wellness Festival event on Sunday, September 29, 2024, from 6:00 a.m. to 1:00 p.m. This request also includes the temporary closure of portions of East High Avenue, Division Street, East Park Avenue, North University Street, Sylvan Boulevard, North Grove Street, East Brockton Avenue, and Chapel Street for a 5k family fun run as well as the in-kind support in the amount of $13,820 for departmental resources including Police personnel, and Facilities and Community Services personnel and equipment, and the reservations for Sylvan Park. Alliance For Community Transformation and Wellness is a non-profit organization operating out of the City of Redlands, CA. According to the submitted application, the event will highlight the eight domains of health and wellness.

Furthermore, the event is exempt from the requirements of the California Environmental Quality Act's guidelines pursuant to Section 15311(c). Section 15311(c), accessory structures Class 11 facilities, consists of the construction, or replacement of minor structure accessory to existing commercial, industrial, or institutional facilities, including placement of seasonal or temporary use items such as mobile food units, portable restrooms or similar items in generally the same locations from time to time in publicly owned parks or other facilities designed for public use.

ALTERNATIVES:

The City Council may elect to deny the request and direct staff accordingly.

STRATEGIC PLAN:

Priority A - Quality of Life, Strategic Objective 1. Beautification, Arts and Culture

City of Redlands

In-Kind Support Request

Event Name: VIBE Health and Wellness Festival and 5K Family Fun Run

Event Date(s): 9/29/2024 **Location(s):** Sylvan Park

Rain Out Date: **Beginning Time:** 6:00 am **End Time:** 1:00 pm

Describe Your Request:

This completed form with all supporting documentation shall be submitted a minimum of 60 days prior to the scheduled event. Additional information may be attached to this application form, as needed.

The Alliance for Community Transformation and Wellness (ACTW) group at University of Redlands (501C) are asking for city support to hold the 2nd Annual VIBE festival and 5K in and around Sylvan Park.

Select and Describe All City Provided Services That May Apply to Your Request :

- ☐ Traffic (*Personnel, equipment, cones, barricades, no-parking* — Street closures and setup
- ☐ Police (*Public Safety Personnel*) — Traffic and safety
- ☐ Fire (*Paramedics, Inspectors*) — Paramedic support for 5K participants
- ☐ Parks (*Cleanup Personnel, Ball Field Lights*) — Sylvan Park reservation, park attendant
- ☐ Facility — Show Mobile stage rental and transportation

Refuse/Recycling (*Event Receptacles, Roll-Off Service*) acquired by Event Organizers through Redlands Customer Service

Section 13.65 of the Redlands Municipal Code requires that events that serve more than 2,000 individuals per day will be required to submit for review and approval a Large Venue Recycling Plan. The Quality of Life Department may require smaller events to comply with City recycling practices as a condition of waiving fees.

- ☐ Other — Event boxes throughout the park

Group/Organization Name: University of Redlands, ACTW

Is your Group/Organization a Registered Non-Profit: ☐ Yes ☐ No **Non-Profit Federal Tax ID Number:** 95-1643389

Does your Group/Organization Presently Have Liability Insurance? ☐ Yes ☐ No

Please be advised that depending upon your request, you may be required to provide proof of insurance coverage in an amount determined by the City and naming the City as an additional insured.

Has your Group/Organization received fee waivers from the City in the past? Yes, 2023

Primary Contact Name & Title: Lana Frausto, ACTW Board Secretary

Mailing Address: 1200 E Colton Ave, Redlands CA 92374

Phone Number: (909) 485-4129 **E-Mail Address:** lanafrausto@gmail.com

As a part of our commitment to fiscal responsibility, the City of Redlands gathers data associated with the economic and social benefits associated with in-kind support. Please provide estimates, as applicable, for your event.

Positive outcomes for your organization from this	Support heath and wellness for the Redlands community
Describe what economic benefit and impact this event will bring to the City:	Provides free event for the city to educate and encourage healthy living/lifestyle, while highlighting the 8 domains of wellness: Physical, Emotional, Social, Intellectual, Environmental, Spiritual, Vocational, and Financial. Physical activity for all ages (5K as well as Family Fun Run through park).

In April 2002, the City Council adopted Resolution No. 6038, which encourages groups or organizations requesting in-kind support from the City to use local businesses when procuring goods and services associated with the event. Receipts will need to be submitted through a follow up form. Failure to submit post event documentation (within 15 days) may affect future requests.

	Proposed Event	Previous Event Actuals	Vendors
Attendance: Redlands Residents	500	500	20
Attendance: Non-Residents	100	100

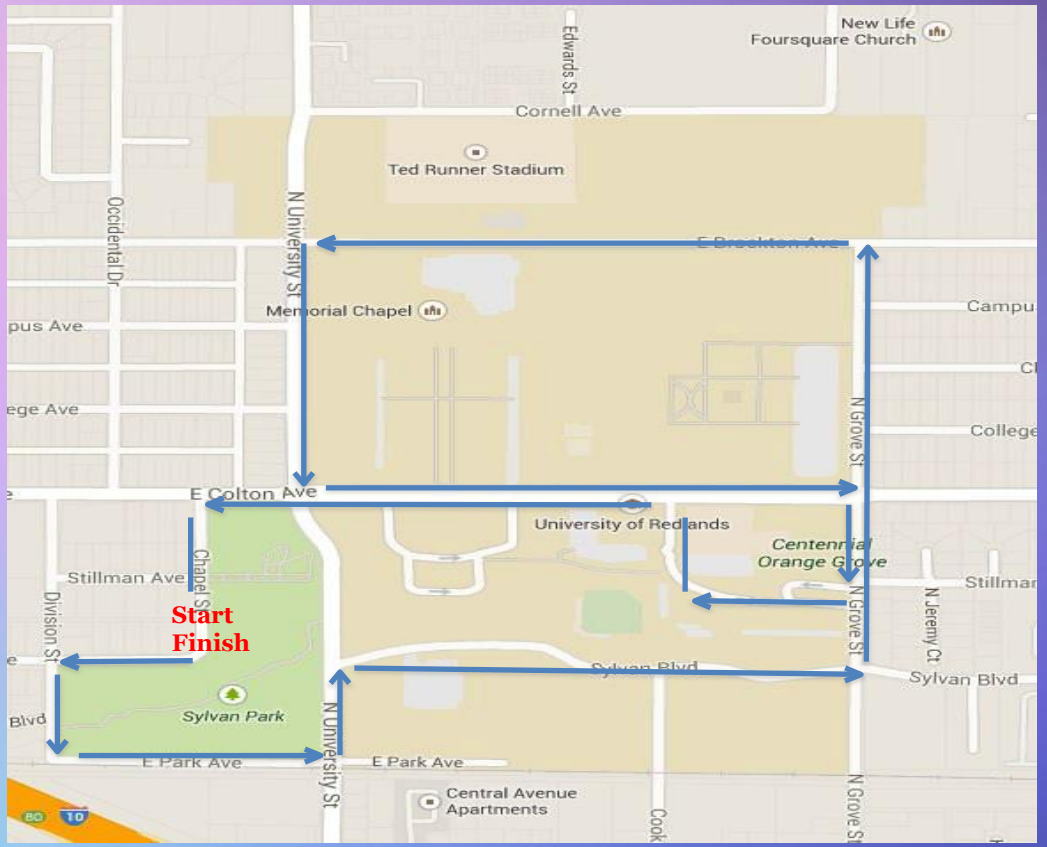
Event Information

Event Organizer: Alliance for Community Transformation and Wellness (ACTW)

Race Coordinator: Ken Lane, (909) 725-5776, KENLANE@AOL.COM

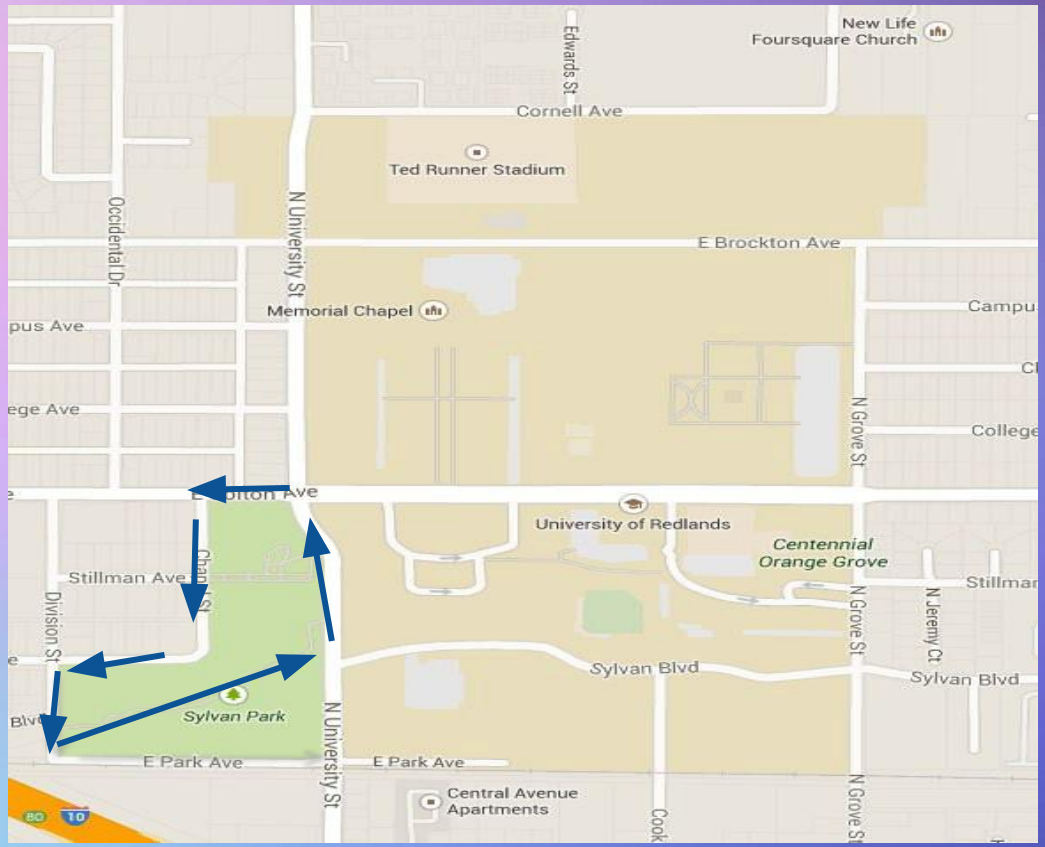


Race Day Schedule

- Morning Checking **7 am**
- 1K Family Fun Run **7:45 am**
- 5K Race Start: **8 am**
- Last Finisher: **9:30 am**
- Awards: **10 am**
- Cleanup: **10-11 am**

Breakfast: TBD? Patty

5K Course

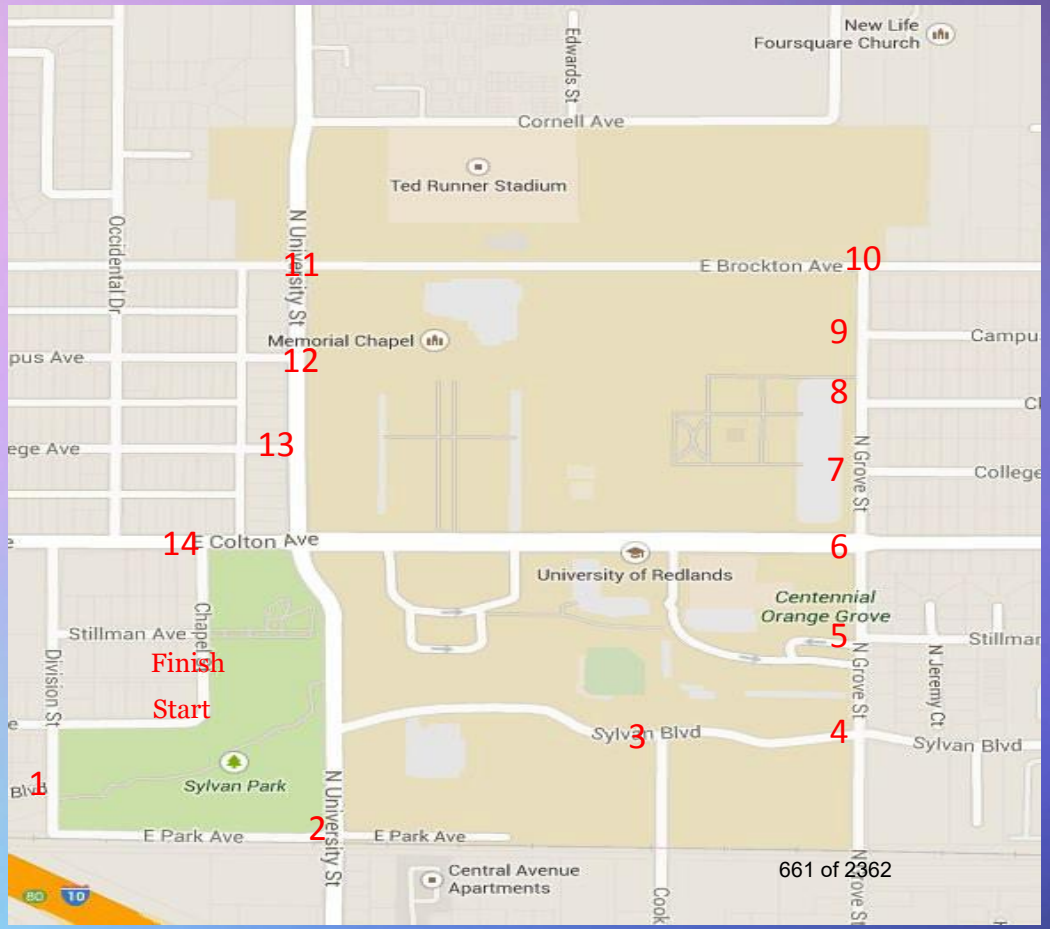


1. Start in Sylvan park on the corner of Chapel St. and Division St.
2. Participants will run west on E High Ave
3. South on Division St.
4. East on E Park Ave
5. North on University
6. East on Sylvan Blvd
7. North on Grove St
8. West on Brockton Ave.
9. South on University
10. East on Colton Ave
11. South on Grove St
12. West on Unnamed University Road (see photos)*
13. North on Unnamed University Road (see photos)*
14. West on E Colton Ave.
15. South on Chapel St. to the Finish

Family Fun Run 1k

The kids (12 and under) 1K fun run course will be the same as every other year:

1. Start in Sylvan park on the corner of Chapel St. and Division St.
2. Participants will run west on E High Ave
3. South on Division St.
4. East along the path in Sylvan Park to University St.
5. North on University
6. West on Colton Ave.
7. South on Chapel St. to the Finish



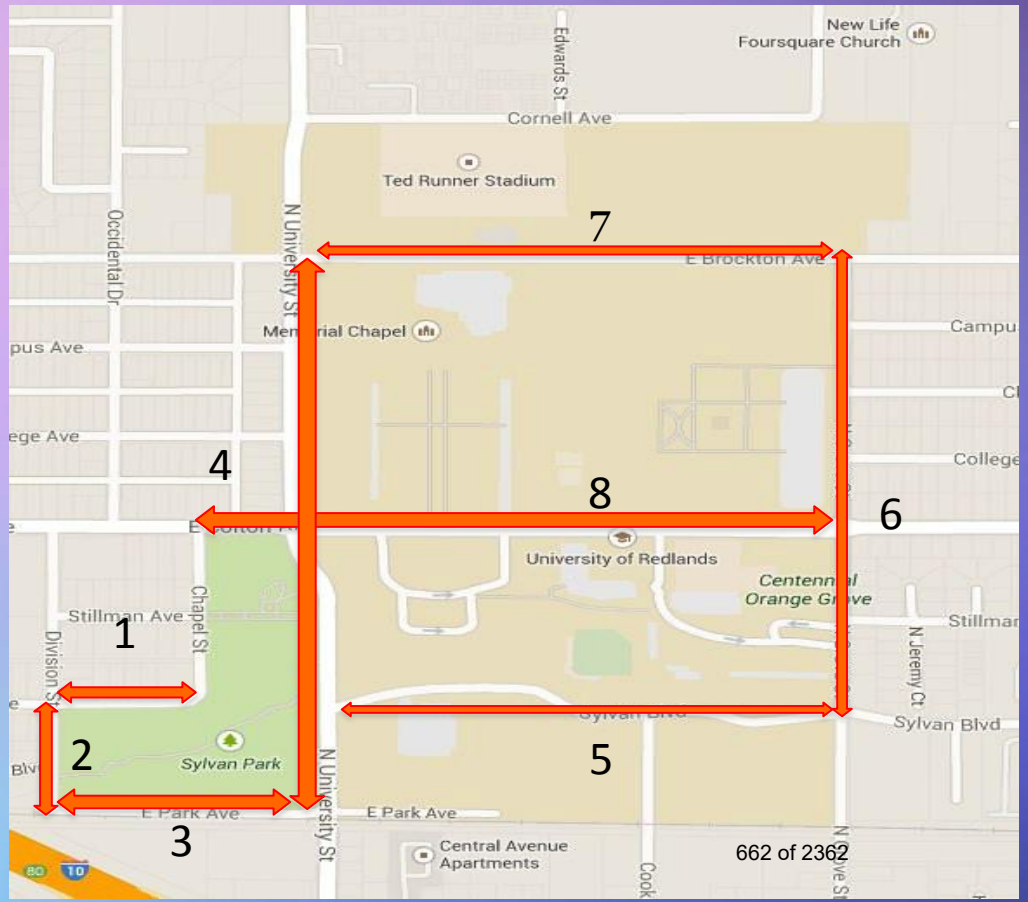
Traffic Monitor Locations (Alana/Janee/Lorena will work with Uof F trackand)

Traffic Monitor Intersections:

1. Division Street and E High Ave.
2. Sylvan Blvd and Cook St.
3. N University Ave and E Park Ave.
4. Grove St. and Sylvan Blvd.
5. Grove St. and Stillman Ave.
6. Grove St. and E Colton Ave.
7. Grove St. and College Ave.
8. Grove St. and Clock Ave.
9. Grove St. and Campus Ave.
10. Grove St. and E. Brockton Ave.
11. N. University St. and Brockton Ave.
12. N. University St. and Campus Ave.
13. N. University St. and College Ave.
14. E Colton Ave. and Chapel St.

At least two monitors will be at each intersection.

Busier intersections (2, 4, 6, 10, 11, and 14) will have 4 monitors.



Street Closures

The following street closures are proposed for the event.

1. High Ave. between Chapel St. and Division St.
2. Division St. between E High Ave. and Park Ave.
3. E Park Ave. between Division Street and University Street.
4. N University Street between E Park Ave and Brockton Ave.
5. Sylvan Blvd between N University St and N Grove St.
6. N Grove St between Sylvan Blvd and E Brockton Ave
7. E Brockton Ave between N Grove St and N University St.
8. E Colton Ave between Chapel St. and N Grove St

Street closures will likely last two hours from 7:00 to 10:30 a.m. (estimated time when last runner will finish the 5K).

Roads will remain open and accessible to emergency vehicles as well as any residents that live on a street that is closed.

Start/Finish Line (Ken with sponsor deadline)

The race start is at E High Ave and the finish line is on Chapel Ave.

Double sided START/FINISH sign with sponsor logos, attached to road barricades.

One EZ up is near the finish line and used by the timing company. Two other EZ ups are placed on the curb which are for volunteer check-in and First Aid.

There are other EZ ups placed further back in the park which are for participants check-in and same day registration.

Safety (Patty)

First Aid

- One EMT located at start/finish line.
- Area Urgent Care / ER notified of event
- Any other provisions/recommendations from the City

Post Race Overview

- Potential post race expo involving local vendors/sponsors
- Hand out participant t-shirts
- Awards
- Appropriate health permits (as needed) for post-race food (bananas and orange slices)
- Port-a-potties + hand wash stations at start/finish line
- Clean-up area and dispose of trash

In anticipation of the City Council's consideration of this request, staff has compiled the following table outlining costs related to fees established by Resolution of the City Council and departmental charges pertaining to personnel and equipment resources necessary for the support of the event. The departmental charges are costs outside of normal City operations that would not be incurred by the City if the special event was not taking place.

Departmental Charges (Personnel & Equipment)	**2024 Amount**	**Type**	**2023 Amount**
Police Personnel[1]	$11,250.00	Hard Cost	$11,250.00
Fire Personnel[1]	$0.00	Hard Cost	$0.00
Facilities & Community Services Personnel[1]	$1,650.00	Hard Cost	$2,100.00
Personnel & Equipment Subtotal	**$12,900.00**		$13,350.00
Fees Established by City Council Resolution			
Park Reservation	$225.00	Soft Cost	$121.00
FCS Equipment	$695.00	Soft Cost	$0.00
Fire Equipment	$0.00	Soft Cost	$0.00
Fees Subtotal	**$920.00**		
Total Departmental Charges and Fees	**$920.00**		$121.00
	$12,900.00 (hard) **$920.00** (soft) **$13,820.00 (Total)**		**$13,350.00** **$121.00** **$13,471.00**

[1]*Personnel costs are calculated conservatively assuming the highest staff cost scenario. Actual costs may vary on the day of the event based on the actual staff present. Actual costs will be confirmed following the event and will be included in a reconciliation report presented to the City Council.*

The following table summarizes the total estimated costs associated with the use of City resources and waiver of fees approved for events scheduled during Fiscal Year 2024-25 to date:

TABLE 2: FY 2024-25 Fee Waivers to date

Hard Costs	**Soft Costs**	**Deposits Refunded**	**Waiver Amount**	**Net Amount**
$0.00	$0.00	$0.00	$0.00	$0.00

City Council Meeting **I. 1.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Redlands Conservancy Report presented by Executive Director Sherli Leonard (Facilities and Community Services Director Crocker)

DISCUSSION:

For this evening's City Council Meeting, Executive Director Sherli Leonard will be presenting an annual report for the Redlands Conservancy.

City Council Meeting **J. 1.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Public Hearing to consider Resolution No. 8611- Delinquent Municipal Services Account Report
(Mayor to declare the meeting open as a public hearing)

A. Resolution No. 8611 will approve the Delinquent Municipal Services Account Report and submittal of the Report to the Auditor-Controller of San Bernardino County for Lien Processing (Management Services/Finance Director Garcia)

PROCEDURE FOR PUBLIC HEARING:

1. Mayor declares the meeting open as a public hearing.
2. Mayor calls upon Department Director for report.
3. Mayor calls for questions/comments from members of the City Council.
4. Mayor calls upon City Clerk for comments/questions/testimony received from members of the public.
5. Mayor closes the public hearing.
6. City Council considers the motion and votes.

MOTION(S):

If the City Council determines that staff's recommendation is appropriate, the following motion is provided:

I move to adopt Resolution No. 8611.

RECOMMENDATION:

Staff recommends that the Council adopt Resolution No. 8611, a resolution of the City Council of the City of Redlands approving the Delinquent Municipal Services Account Report and subsequent submittal of this report to the Auditor-Controller of San Bernardino County for recordation of a Special Assessment on the 2024-2025 tax roll against properties resulting from

non-payment of certain City of Redlands municipal services accounts.

DISCUSSION:

To maintain healthy and sanitary conditions, Redlands Municipal Code Section 13.64.070 states that "The fact that any property is occupied shall be prima facie evidence that solid waste is being generated and accumulated upon such property and that service charges for the collection and disposal thereof are due to the City. Every person owning or occupying any property in the City shall keep such property in a clean and sanitary condition and shall not cause or permit solid waste to collect or accumulate upon; provided, however, that this provision shall not be construed to interfere with any customer keeping building materials upon property during the construction, reconstruction, or repair of a building or structure thereon under a valid building permit, nor with the keeping of wood neatly piled upon such property for household use." This section further states, "Every property shall subscribe to automated or non-automated solid waste services. It is unlawful for any property to keep, accumulate, or permit to be kept or accumulated, any solid waste in or upon any private place unless the same shall be in a container for such as specified in this chapter. It is unlawful for any property to fail or neglect to provide for the removal of solid waste from such property in accordance with the provisions of this chapter."

The Customer Service Division's standard procedures include regular bills, reminder notices, final notices, courtesy phone calls, and special certified letters when attempting to collect payment for delinquent municipal service bills, which include solid waste and recycling services, household hazardous waste disposal services, and street cleaning services. Delinquent accounts are sent letters indicating that the City may move forward with procedures in accordance with the Redlands Municipal Code section 13.64.060 "B" which states, in part, that "In addition to any other remedies it may have for the collection of delinquent accounts, the city may cause notice of a hearing on delinquent accounts in accordance with Government Code sections 25830.1 and 38790.1. Such notice shall be mailed to property owners listed as delinquent accounts not less than ten (10) days prior to the date of the hearing. At the hearing, the City Council shall hear any objections or protests of such property owners. The City Council may make such revisions, corrections or deletions to the report of delinquent accounts as it deems just, after which, by resolution, the report shall be confirmed. The delinquent charges set forth in the delinquent account report may be placed as a lien on such properties for the amount of such delinquent charges plus legal fees and administration costs. A certified copy of the confirmed report shall be filed with the city clerk, for the current tax roll."

Thirty-nine (39) letters were mailed to property owners on July 1, 2024, providing them with notice that the City Council would hold a public hearing on July 16, 2024 "to consider the submittal of a report to the Auditor-Controller of San Bernardino County for recordation of a special assessment on the 2024-2025

tax roll against [their specific] property resulting from non-payment of a City of Redlands municipal services account".

If these delinquent accounts are not paid by August 23, 2024, they will be included on the 2024-2025 tax roll that staff will submit to the County no later than the final deadline of August 30, 2024. Staff will accept payments on delinquent accounts up until August 23rd, such that any and all accounts that are brought current as a result will be excluded from the list being sent to the County for recordation.

The cost to apply a Special Assessment to the next tax roll is $1.20 per submission, charged to the property owner. At the time the notices were prepared for mailing, 39 accounts totaling $37,609.86 were delinquent. However, the amounts reported to the County Auditor-Controller for inclusion on the tax roll may be less if any or all of these accounts are paid by August 23, 2024. For accounts that are still active and receiving service, additional bi-monthly charges will continue to accrue and will be billed to the current accounts of record. In the event the accounts fail to pay future bills in a timely manner and additional delinquencies accrue, future special assessments may be placed on the tax roll to secure payment from the customer.

ALTERNATIVES:

The City Council could direct staff to enlist the services of a collection agency for all delinquent accounts, including owner-occupied, that would attempt to collect the delinquent revenues due the City. This option would require the city to forfeit a portion of any amounts the collection agency was successful in collecting on behalf of the City, which is approximately 30% of the total receivable. It may also have an adverse effect on the account holder's credit score.

NOTICE OF PUBLIC HEARING

This notice is to inform you that on Tuesday, July 16, 2024, at 6:00 p.m. in the City of Redlands Council Chambers located at 35 Cajon St., Suite 2, Redlands, California, the Redlands City Council will hold a public hearing to consider the submittal of a report to the Auditor of San Bernardino County for recordation of a Special Assessment on the 2024-2025 tax roll against your property resulting from non-payment of a City of Redlands municipal services account. As the property owner of record, you have the opportunity to present to the City Council comments and/or testimony regarding this matter.

To prevent this impending lien action, please remit your past due balance in full no later than Friday, August 23, 2024.

Please be informed that if the assessment is imposed on your property, the property may be sold after three years by the tax collector for unpaid delinquent assessments. The tax collector's power of sale shall not be affected by the failure of a property owner to receive notice. The assessment may be collected at the same time and in the same manner as ordinary municipal taxes are collected and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for ordinary municipal taxes.

For questions regarding this matter, please contact Cindy Tryon, Utility Customer Service Supervisor, at (909) 798-7678 Ext. 1, or Aimee Hoover, Revenue Manager at (909) 798-7596.

Sincerely,

Danielle Garcia
Management Services/Finance Director

RESOLUTION NO. 8611

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF REDLANDS APPROVING THE DELINQUENT MUNICIPAL SERVICES REPORT AND SUBMITTAL OF THE REPORT TO THE AUDITOR OF SAN BERNARDINO COUNTY FOR LIEN PROCESSING

WHEREAS, the City of Redlands has provided service and properly billed and noticed delinquent accounts based on a preliminary report dated June 28, 2024 for solid waste and recycling collection and disposal, household hazardous waste disposal, and street cleaning services; and

WHEREAS, certain property owners receiving such services, as shown on the last available assessment roll, have failed to take action to pay the outstanding delinquent balance owed to the City; and

WHEREAS, measures are being taken in accordance with Chapter 13.64 of the Redlands Municipal Code which states "…in the event of non-payment of any portion of the municipal services statement, any charges for service shall be deemed the responsibility of the property owner and may result in a lien against the property;" and

WHEREAS, pursuant to Chapter 13.64 of the Redlands Municipal Code, a duly noticed public hearing was held on July 16, 2024, so that the property owners could object or protest the proposed adoption of this resolution, and

WHEREAS, the City Council of the City of Redlands, having considered the delinquent solid waste service accounts, together with any objections and protests by property owners, desires to declare the delinquent accounts as special assessments and cause such accounts to be recorded as a lien against the properties benefitting from the provision of such services.

NOW, THEREFORE, be it resolved by the City Council of the City of Redlands as follows:

Section 1. The City Council approves the submittal of delinquent solid waste service accounts to the auditor of San Bernardino County, who will record and enter the assessments on the property tax roll against the properties that remain delinquent as of August 26, 2024.

Section 2. The City Clerk of the City of Redlands is hereby authorized and directed to send a certified copy of this resolution, to the auditor, or the officer holding the equivalent position of auditor, for the County of San Bernardino.

ADOPTED, SIGNED AND APPROVED this 16th day of July, 2024.

Eddie Tejeda, Mayor

City Council Meeting **J. 2.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Public Hearing to consider Resolution No. 8618 - Delinquent Administrative Citation and Fine Report
(Mayor to declare the meeting open as a public hearing)

A. Resolution No. 8618 will adopt the Delinquent Administration Citation Fine Report and submittal to the Auditor-Controller of San Bernardino County for Lien Processing (Facilities and Community Services Director Crocker)

PROCEDURE FOR PUBLIC HEARING:

1. Mayor declares the meeting open as a public hearing.
2. Mayor calls upon Department Director for report.
3. Mayor calls for questions/comments from members of the City Council.
4. Mayor calls for comments/questions/testimony from members of the public (3 minutes per speaker).
5. Mayor calls upon City Clerk to note any written comments received.
6. Mayor closes the public hearing.
7. City Council considers the motion and votes.

MOTION(S):

If the City Council determines that staff's recommendation is appropriate, the following motion is provided:

I move to adopt Resolution No. 8618.

RECOMMENDATION:

Staff recommends that the City Council adopt Resolution No. 8618, and approve the delinquent fines report and submittal of a Notice of Lien to the San Bernardino County Auditor- Controller/Treasurer/Tax Collector for recordation as a special assessment on the 2023-2024 tax roll against the properties identified

in the report resulting from non-payment of City of Redlands' administrative citation fines.

DISCUSSION:

The property owners, identified in the report, have been found in violation of various sections of the Redlands Municipal Code (RMC). To date, 52 delinquent administrative citations have been issued to the property owners listed in the report with a total unpaid fine balance of $53,325 as of July 1, 2024. In this report, the delinquent 52 administrative citations are related to Chapter 5.04 business license required, Chapter 2.24, 8.04, 8.08, 8.10, 8.20, 8.72, 9.16, 9.32, property maintenance, weeds, trash, graffiti, permits needed, noise disturbance, inoperative vehicles, vacant registration, prohibited RV/boat parking, emergency response, unlawful possession, unsightly appearance, fire hazard, public nuisance, Chapters 12.12, 12.32, 12.46, 13.52, 13.54, 15.04, 15.36, 18.164, 18.168, 18.188, 18.20, HS17920.3 - permits not obtained, mechanical/ electrical/building code violations, property alteration of buildings, no landscaping or maintenance of parkway, unsecured property, illegal grading/no permit, maintenance, lack of paint, dumping/burying, prohibited acts/open space, no address posted, premature demo, CUP needed, prohibited signs, buildings not for human habitation, and items in the parkway.

Section 1.22.140 (B) of the RMC states that the fines levied by administrative citations are deemed a special assessment against each lot or parcel of land upon which the violation existed, and as thus made and confirmed, shall also become the personal obligation of each lot or parcel of land. Prior to recording a lien against a property, a report must be prepared by the City Manager in accordance with Section 1.22.140 (B), detailing the fines and additional information on the property and violation. A comprehensive report of the fines and corresponding information has been prepared by staff in accordance with the Redlands Municipal Code and is attached for the City Council's reference. Recording a lien for non-payment does not relieve the property owner from correcting the violation.

The property owners were mailed a notice of the City Council's consideration of this report on July 1, 2023, which specifies that objections may be presented at the hearing or filed in writing five days in advance of the hearing. The City Council must consider the report, together with any objections or protests which may be raised by any person. The City Council may make corrections, revisions or modifications to the report as it may deem appropriate. If the City Council approves the Resolution confirming the special assessments, the City Clerk will be directed to file a Notice of Lien with the County Auditor-Controller/Treasurer/ Tax Collector. The cost to submit the special assessments for the next tax roll is $1.20 per parcel, charged to the property owner. The current total amount of delinquencies for these citations is $53,325. In the event the violations are not corrected, and additional citations accrue, future special assessments may be

placed on the tax roll to secure payment from the property owner.

ALTERNATIVES:

The City Council may make corrections, revise or modify the report as it may deem appropriate.

RESOLUTION NO. 8618

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF REDLANDS APPROVING A DELINQUENT ADMINISTRATIVE CITATION FINE REPORT AND SUBMITTAL OF A NOTICE OF LIEN TO THE SAN BERNARDINO COUNTY AUDITOR-CONTROLLER/TREASURER/TAX COLLECTOR FOR PROCESSING

WHEREAS, the City of Redlands has issued administrative citations to the owners of various properties located within the City; and

WHEREAS, the property owners who received the administrative citations are identified in the City Manager's report and have failed to pay the delinquent fines for such citations; and

WHEREAS, Section 1.22.140 of the Redlands Municipal Code provides that "…fines levied by administrative citation, or by administrative hearing order, constitute a special assessment against each lot or parcel of land upon which the violation existed, and as thus made and confirmed shall also become the personal obligation of each lot or parcel of land;" and

WHEREAS, pursuant to Section 1.22.140 of the Redlands Municipal Code, on July 16, 2024, a duly noticed public hearing was held at which the property owners were provided the opportunity to object or protest the proposed adoption of this resolution; and

WHEREAS, the City Council of the City of Redlands, having considered the City Manager's report regarding delinquent administrative citations, together with any objections and protests by the property owners of various locations, desires to declare the delinquent fines as special assessments and cause such fines to be recorded as a lien against the properties identified in the report;

NOW, THEREFORE, be it resolved by the City Council of the City of Redlands as follows:

Section 1. The City Council approves the delinquent administrative citation fines report submitted by the City Manager and confirms such delinquent fines to be entered as special assessments on the property tax roll against the properties identified in the report.

Section 2. The City Clerk of the City of Redlands, and the City's Finance Director, are hereby authorized and directed to send a certified copy of this resolution and a Notice of Lien for the delinquent fines (as special assessments), and all other appropriate documentation to place the fines in the tax roll to the San Bernardino County Auditor-Controller/Treasurer/Tax Collector for the County of San Bernardino.

ADOPTED, SIGNED AND APPROVED this 16th day of July 2024.

NOTICE OF PUBLIC HEARING

This notice is to inform you that on Tuesday, July 16, 2024 at 6:00 p.m., or as soon thereafter as the matter may be heard, in the City of Redlands Council Chambers located at 35 Cajon St., Suite 2, Redlands, California, the Redlands City Council will hold a public hearing to consider the submittal of a report to the Auditor of San Bernardino County for recordation of a Special Assessment on the 2024-2025 tax roll against your property resulting from non-payment of a City of Redlands Administrative Citation.

Pursuant to Section 1.22.130 of the Redlands Municipal Code, you have the opportunity to present objections to the City Council regarding this matter. Alternatively, you may submit your objections in writing at least five (5) days in advance of the hearing, or by Thursday, July 11, 2024.

To prevent this impending lien action, please remit your past due balance in full no later than 5:00 p.m. on Monday, August 19, 2024.

Please be informed that if the assessment is imposed on your property, that the property may be sold after three years by the tax collector for unpaid delinquent assessments. The tax collector's power of sale shall not be affected by the failure of a property owner to receive notice. The assessment may be collected at the same time and in the same manner as ordinary municipal taxes are collected, and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for ordinary municipal taxes.

For questions regarding this matter, please contact Glenn Vargas, Code Enforcement Supervisor at (909) 798-7655.

City Council Meeting **J. 3.**

DATE: 07/16/2024

TO: Honorable Mayor and City Council Members

SUBJECT: Public Hearing to consider the following applications for a used automobile sales and service facility located on a 18.56 gross acre site located on the west side of New York Street at West Brockton Avenue, approximately 1000 feet north of West Colton Avenue (APNs: 0169-011-38-0000 and 0169-011-39-0000) in the General Commercial (EV/CG) District of the East Valley Corridor Specific Plan.
(Mayor to declare meeting open as a public hearing)

A. Consideration of **Resolution No. 8615** for adoption of a **Mitigated Negative Declaration** and Mitigation Monitoring & Reporting Program prepared for the project in accordance with Section 15074 of the California Environmental Quality Act, and adoption of a Socio-Economic Cost/Benefit Study prepared in accordance with Measure "U."
B. Consideration of **Resolution No. 8616** for **Amendment No. 52 to the East Valley Corridor Specific Plan** – A proposal to amend Section EV3.0713 of the East Valley Corridor Specific Plan (Specific Plan 40) to allow sales of pre-owned automobiles as a conditionally permitted land use, without related sales of new automobiles, within the Commercial General (EV/CG) District.
C. Consideration of **Resolution No. 8617** for approval of **Conditional Use Permit No. 1179 and Commission Review & Approval No. 962** – A request to establish a pre-owned automobile sales and service/reconditioning facility within the Commercial General (EV/CG) District of the East Valley Corridor Specific Plan, and construction of a pre-owned automobile sales and service/reconditioning facility (consisting of a 4,958 square-foot sales building, a 39,621 square-foot service/reconditioning building, a 3,708 square-foot quality control building with private carwash, a private fuel tank/dispenser, and a six acre outdoor vehicle storage area). Related site improvements include customer and employee

parking lots, driveways, landscape areas, lighting. walls and fences, and vehicle display and storage areas. (Development Services Director Desatnik)

PROCEDURE FOR PUBLIC HEARING:

1. Mayor declares the meeting open as a public hearing.
2. Mayor calls upon Department Director for report.
3. Mayor calls for questions/comments from members of the City Council.
4. Mayor calls upon applicant, or his/her representative, for comments and testimony.
5. Mayor calls for comments/questions/testimony from members of the public
   (3 minutes per speaker).
6. Mayor calls upon City Clerk to note any written comments received.
7. Mayor calls upon the applicant, or representative, for rebuttal comments (5 minutes).
8. Mayor closes the public hearing.
9. City Council considers the motion and votes.

MOTION(S):

If the City Council determines that the Planning Commission recommendation is appropriate, the following motions are provided:

1. I move that the City Council adopt Resolution No. 8615 for the Mitigated Negative Declaration and Mitigation Monitoring & Reporting Program, and adopt the Socio-Economic Cost/Benefit Study for the project; and

2. I move that the City Council adopt Resolution Nos. 8616 and 8617 to approve Amendment No. 52 to the East Valley Corridor Specific Plan, and approve the Conditional Use Permit No. 1179 and Commission Review & Approval No. 962 for the project.

RECOMMENDATION:

On June 11, 2024, the Planning Commission reviewed the proposed project and adopted resolutions recommending approval of the project to the City Council. The Planning Commission held a public hearing and received presentations from staff as well as the applicant. Commissioners asked questions about the proposed land use, traffic study, truck traffic to be generated by the proposed use, truck routing along City streets, truck access to the I-10 and I-210 freeways, landscape screening along the project site's frontage

adjacent to the I-210 freeway, and wall height along the I-210 freeway. Staff and the applicant responded by providing additional information, and the Commission's concerns were satisfactorily addressed.

Public comments were received from a local carpenter's union (regarding the hiring of local labor during construction of the project). There were no written comments received, and no comments received via Zoom.

The Planning Commission voted 6 to 1 (Commissioner Smith opposed) adopting Resolution Nos. 1683 and 1684 recommending approval of the environmental document, Specific Plan Amendment, and project entitlements to the City Council. The Commission modified a Condition of Approval to require additional screen trees to be placed between the proposed palm tees along the I-210 freeway frontage (to provide a denser green screen above the 6'0" wall height and adequately screen the 6-acre outdoor vehicle storage area). The Commission did not find it necessary to require an 8'0" high wall along the freeway frontage on the westerly side of the project site, and the proposed 6'0" wall was considered to be sufficient.

BACKGROUND:

The 18.5-acre project site is located on the west side of New York Street at West Brockton Avenue (see Attachment A - Location Map). The entire site is vacant, unimproved, and thinly covered with non-native grasses and shrubs due to semi-regular weed abatement. There are no entitlement or other permits for the property.

Surrounding Land Uses: The subject property sits to the east of the SR-210/I-10 Junction, approximately 30 feet below the travel lanes of the freeway. The surrounding properties and vicinity have been developed with predominantly retail-oriented uses and retail/commercial services. A shopping center is located to the north. To the west, the Mountain Grove and Citrus Plaza shopping centers were developed in the unincorporated "donut hole" area (also within the East Valley Corridor Specific Plan). To the south is Toyota of Redlands. To the east, the area is primarily service retail and residential in character, with the exception of the Teledyne Battery facility (established in 1920).

PROPOSAL:

The applicant's proposal is a request to construct and operate a used automotive dealership and reconditioning facility on approximately 18 acres of vacant land located on the west side of New York Street at West Brockton Avenue (see Attachment A- Location Map and Aerial Photo). The proposal is for constructing buildings and site improvements including the following (see Attachment B - Site Plan):

- 4,958 sq. ft. sales and administration building;

- 39,621 sq. ft. service/repair/reconditioning facility;
- 2,772 sq. ft. quality control building and carwash
- Customer and employee parking lot with 292 spaces;
- Outdoor vehicle storage lot with space for 1,105 repair/reconditioning vehicles; and
- Related site improvements including vehicle unloading and staging areas, driveways, landscaping, lighting, walls and fences, drainage detention basin, and utility connections to and through the site.

The CarMax national business model consists entirely of the sale of used automobiles, both as a retail operation and wholesale, although the subject application does not include any wholesale operations. CarMax acquires its pre-owned vehicle inventory from its customers and the general public at its retail stores, or by purchasing wholesale pre-owned vehicles from third party sellers. Those vehicles are prepared for sale through the reconditioning process, which may involve minor work (e.g., cleaning, repairing scratches, replacing tires, or other cosmetic treatment, etc.) or more major work to the interior or exterior (e.g., engine or mechanical repairs, body repair, repainting, etc.). A full analysis of the project was presented to the Planning Commission on June 11, 2024, and the staff report (See Attachment C - Planning Commission staff report) contained a detailed analysis that is referenced throughout this report.

Table 1-A: Building Floor Area Summary

Land Use	*Floor Area*	*Size (square feet)*
Retail Sales	Sales area, administration, operational support desks, and other administrative functions	4,958
	Vehicle presentation area	1,232
	Sub-total:	6,190 (12.5%)
Vehicle Repair & Reconditioning	Vehicle repair & service areas, cosmetic area, paint booths, photo booths, and related areas	35,669
	Training room, break rooms, managers & employee offices, parts receiving & storage rooms	3,952
	Carwash, quality control offices	3,675
	Sub-total:	43,296 (87.5%)
TOTAL:		49,491

Table 1-B below summarizes the project site areas for customer and employee parking, sales display lot, and screened vehicle storage areas.

Table 1-B: Parking Area Summary

Parking Areas	*Dimensions (approximate)*	*Size (approximate)*
For Sale vehicles display lot (318 parking spaces)	225' wide by 405' long	2.09 acres
Customer & Employee parking (303 parking spaces)	300' wide by 440' long	3.03 acres
Repair vehicles storage lot (1,105 parking spaces)	Sum of areas = 261,500 sq. ft.	6.0 acres
Future Expansion Area (to remain vacant)	246' wide by 308' deep	1.74 acres

As the sale of used automobiles (without the sales of new automobiles) is not permitted within the Commercial General (EV/CG) District of the East Valley Corridor Specific Plan, the proposal also includes a Specific Plan Amendment to the East Valley Corridor Specific Plan to allow used automobile sales (not in conjunction with sales of new automobiles) in the EV/CG District as a conditionally permitted use, requiring a Conditional Use Permit application.

ANALYSIS

A) General Plan

Land Use Designation: The General Plan provides two land use designations for the project site (See Attachment D - Existing General Plan). The majority of the project site (totaling approximately 16.36 acres) are within the "Commercial/Industrial" land use designation, and the northwest corner of the project site is designated for "Commercial" land use (totaling approximately 2.2 acres adjacent to the 210 Freeway). The Commercial/Industrial land use category designates areas where certain types of commercial and light industrial uses may be compatibly located.

General Plan Policies: The project is consistent with several general plan policies related to the development of high quality regional commercial uses that serve the community and facilitate employment, while being responsive to physical and environmental constraints, as analyzed in the Planning Commission staff report.

B) Current Zoning and Specific Plan

The entire project site is located within the General Commercial (EV/CG) District

of the East Valley Corridor Specific Plan (See Attachment E - Zoning Map). Uses within EV/CG include a wide range of retail stores, restaurants, personal services, retail services for individuals and businesses, service commercial uses conducted indoors, and repair/servicing of items permitted to be sold within the district.

New automobile sales are currently a permitted use. At the present time, the sale of used automobiles is only allowed in conjunction with (ancillary to) the sale of new automobiles as an accessory use.

The open outdoor storage of materials, products, equipment, etc., is generally not permitted in EV/CG district. However, the applicable Automobile Sales Development Standards (Section EV3.0720(g)(6)) permit related "service areas and facilities" if they are completely screened from view from the public right-of-way. Based on staff's review of the application, the outdoor vehicle storage yard appears to be proposed as an ancillary activity to the pre-owned automobile retail sales and vehicle repair/reconditioning operations, which are proposed to be conditionally permitted pursuant to a Specific Plan Amendment as detailed below.

C) Specific Plan Amendment

The proposal includes a request to amend the text and list of conditionally permitted land uses within the EV/CG district (EVCSP Section EV3.0713) to allow the sale of pre-owned (used) automobiles as a conditionally permitted land use, without the sale of new automobiles. Currently, the EV/CG district only allows used automobile sales in conjunction with new auto sales (i.e., used auto sales being ancillary and subordinate to a primary land use as new automobile sales). Additional minor text amendments are included to ensure that used automobile sales will be subject to the same development standards that are required of new automobile sales establishments (EVCSP Section EV3.0720). The proposed text amendments to the Specific Plan are shown on Attachment F. The proposed Specific Plan Amendment is entirely discretionary by the decision-making body. If approved, the proposed amendment would apply to all properties located within the EV/CG District. On June 11, 2024, the Planning Commission found that the Specific Plan Amendment would be consistent with the 2035 General Plan and the East Valley Corridor Specific Plan.

D) Used Automobile Sales & Reconditioning Facility

As described above, the specific plan (as amended) would require a Conditional Use Permit. The Commission Review & Approval permit is for site plan approval, site construction, and architectural design review for the proposed facility.

Operational Characteristics: CarMax's national business model consists entirely of the sale of used automobiles, both as a retail operation and wholesale (however, this application does not propose any wholesale operations). Vehicles

may also be transported to and from this location at the request of customers who are interested in test-driving or purchasing vehicles. CarMax acquires its preowned vehicle inventory from its customers and the general public at its retail stores, or by purchasing wholesale pre-owned vehicles from third party sellers. Those vehicles are prepared for sale through the reconditioning process.

"Reconditioning" is the process by which CarMax prepares a car, truck, or SUV for resale, and consists of two stages: inspection and repair/refurbishing. It may include minor repairs (replacement of small parts) and can also include major repairs (such as paint, engine, and body work). Inventory that does not meet standards for sale to retail customers will be transported off-site to other CarMax facilities for wholesale. As such, the reconditioning operations and outdoor storage at this site may also serve as a regional refurbishing facility for other CarMax stores outside Redlands. The proposed facility will contain parking areas for employees, an approximately 6-acre vehicle staging area for inventory arriving or departing from the facility, loading and unloading areas for vehicle transporters, and a fully enclosed service building (with vehicle lifts, paint booth, photo booths, parts receiving and storage room,employee break rooms, etc.). The reconditioning facility will also be equipped with an attached quality control building, carwash, and private fuel pumps for inventory vehicles. The vehicle staging area and reconditioning facility are the Project's "back of house" area where vehicles are stored and staged while awaiting inspection, sales, reconditioning, or pickup for distribution elsewhere. Access to the non-public staging area will also be secured with embassy-style security gates.

To ensure the development operates as proposed, a condition of approval has been added that requires the sales building (i.e., the floor area shown for conducting retail sales as shown on the project plans) (See Attachment G) shall be regularly operated and staffed for conducting onsite retail sales of automobiles on all days that the subject property is in operation. The other activities on-site shall not be operated unless the retail sales component of the business is also being operated during daytime hours on the same day.

Site Design, Access and Circulation: The buildings on-site are centered on the property, and access is provided via one unsignalized full movement driveway at the intersection of New York Street and Brockton Avenue. An additional driveway for test drives only and emergency access with Knox Box access only will be at the north end of the sales/display lot. The customer and employee parking area will be located on the southern side of the site, adjacent to New York Street and the existing automobile dealership to the south. In addition to passenger vehicle parking, four car-carrier loading spaces are provided in the southwestern portion of the lot. A paved and striped "vehicle sales display area" visible from the public right-of-way is located at the northeast corner of the property and will be surrounded by a low guardrail system for security purposes. The sales building, 4,958 square feet in size, will be prominent and visible as it fronts New York Street and all three areas of the site. Additionally, the service/reconditioning building 39,621-square feet in size will be prominent as it

comprises most of the building area, has the largest expanse of walls and is highly visible from the freeway and other portions of the site. The Quality Control building and non-public carwash are located within the screened staging area and are connected by a covered, passthrough "presentation" lane where vehicles are exchanged between customers and employees.

Development Standards: As analyzed in the Planning Commission staff report, the project meets the minimum requirements and development standards for the EV/CG District (See Attachment H).

Walls, Fences and Screening: The applicant has provided a landscape plan (Attachment I-1) and wall and fence exhibit (Attachment I-2) within the project plans. All required fencing and landscape screening have been provided. At the south property line, the existing 6-foot wrought iron fence installed on the Toyota property (adjacent to customer and employee parking) will remain. Three other types of fencing are proposed:

- Sales Display Area: 2.5-foot vehicle guardrail/fence, set behind a landscape screen of shrubs for screening views from New York Street.
- Detention Basin: 4-foot-high ornamental fencing around the perimeter of the basin (wrought iron or equivalent).
- Vehicle Storage Lot: 6-foot-high split-face block wall around the perimeter of the vehicle storage lot.

Architectural Design Review: The building elevations (see Attachment J) show that the building facade will be constructed of a dark brown colored split-face and smooth concrete masonry unit (CMU) block that have smooth stucco exterior in light brown. A blue gabled standing seam metal roof characteristic of CarMax (maximum height of 27'4") is proposed for the sales building, which also employs blue tinted glazing and metal awnings at the pedestrian level. Massing for the service/reconditioning building will be articulated by a tonal color banding around the building, and the addition of pilasters to break up long expanses of wall, while providing for variations in the roofline. The architectural treatments will be applied consistently to all building facades to create a cohesive look. Variated roof forms distinguish the main customer entry points and the differentiate the buildings. The roofline (height of 24'0") consists of a parapet with cornice features and is painted white. Roof-top equipment will be screened by a pre-finished earthtone metal screen and parapet walls. As analyzed in the Planning Commission staff report, the proposed design is consistent with the City's Architectural Design Guidelines and conforms to the Architectural Review Criteria in RMC Section 18.12.170.

Grading and Drainage: The preliminary grading and utility plan (See Attachment K) indicates that excessive grading is not required to support development of the project. No large retaining walls are proposed. The majority of runoff from the site will be intercepted by inlets and swales that convey the flows downstream to an infiltration basin for detention. The detention basin will infiltrate stormwater and discharge additional runoff.

Traffic Impact Assessment: In accordance with Measure U, a traffic study was prepared for the project (Attachment L), to evaluate the potential for transportation impacts resulting from the development of the proposed project. The study, prepared by Kimley-Horn and Associates, Inc., analyzed existing conditions without the project, existing conditions plus the project and analyzed the specific roadway and site access improvements that are included as part of the project. The project is estimated to generate approximately 552 trips on a daily basis, with 15 trips in the morning peak hour and 27 trips in the evening peak hour. The applicant estimates that there will be 170 total "production" employees over 2 shifts (7:00 AM to 3:00 PM; and 3:00 PM to 11 :00 PM) on a daily basis, and that employees would arrive and exit their shifts during non-peak hours of adjacent street traffic. As a result, the concludes that the "production" employees will not generate additional peak hour traffic. Data estimates provided by the applicant show that there will be 10 car carrier trucks per day to the project site, for a total of 20 truck trips per day. Using these estimates based on CarMax's operation characteristics, the study concludes that the addition of the proposed project does not degrade the Levels of Service below the current Levels of Service grade. Therefore, the proposed project is forecast to result in no substantial transportation impacts.

Future Expansion Area: The Site Plan and Landscape Plan note a "Proposed Expansion Area" on the north side of the project site (abutting the Lowe's store on the west side and another approved shopping center project on the north side). The Expansion Area is approximately 308' by 246' for a total of 1.74 acres. A condition of approval has been added that requires sufficient irrigation, maintenance, and/or replanting as needed to maintain a viable groundcover moving forward. No fencing is currently shown around the area, and any future installation of fencing to enclose or secure the area will need to be decorative (such as tube steel) to match the CarMax development. As no land uses or construction are authorized for the Expansion Area, any future expansion or development in this area will require a formal application for a Revision to the CUP and CRA (including review and approval by the Planning Commission).

E) Socio-Economic Cost/Benefit Study

In accordance with Measure U, the project was required to undergo a Socio-Economic Cost Benefit study (Attachment M). The study recommends that the project will not create an unmitigable physical blight or overburden public services in the community because project design features as well as mitigation measures described in the Initial Study/Mitigated Negative Declaration, and incorporated in the Socio-Economic Cost Benefit Study and Conditions of Approval will reduce effects to a less than significant level. In addition, the project will result in a positive annual revenue/cost ratio of 12.10, with annual residential revenues anticipated to be approximately $57,743.50 to the City upon project completion and annual ongoing costs of approximately $4,772.10. This results in an annual positive balance of approximately

$52,791.40 (or ratio +12.10).

ENVIRONMENTAL REVIEW:

The City retained an environmental consultant to fully analyze the project and prepare an Initial Study (Attachment N-1) in accordance with the California Environmental Quality Act (CEQA). Pursuant to the CEQA Guidelines, the Initial Study/Mitigated Negative Declaration (IS/MND) was made available for public review and comment for 30 days (State Clearinghouse No. 2024050187). A Notice of Intent was filed with the County Clerk on May 2, 2024, and with the State Clearinghouse. The IS/MND was circulated for over 30 days between May 3, 2024, and June 3, 2024. No public comments were received during the public review and comment period.

The Initial Study recommends a Mitigated Negative Declaration with twelve (12) mitigation measures which pertain to Biological Resources, Cultural Resources, Tribal Cultural Resources, Geology and Soils, and Hazards and Hazardous Materials. All mitigation measures will ensure that any potential effects will remain less than significant. After mitigation, no significant effects were identified as a result of the project, and the recommended mitigation measures will be incorporated into the project as mandatory Conditions of Approval.

The City's consultant has prepared a Final IS/MND that includes the errata, response to comments and a Mitigation Monitoring & Reporting Program (MMRP), included with the IS/MND as Attachment N-2. The full ISMND and all technical studies is available at the City's website (www.cityofredlands.org/post/environmental-documents).

ALTERNATIVES:

1. The City Council may continue the public hearing and direct staff to address any issues or bring back additional information; or
2. The City Council may wish to deny the project, continue the public hearing and direct staff to prepare findings supporting denial of the project.

REQUEST FOR PLANNING COMMISSION ACTION

Planning Commission **Agenda Item NO. 5.C.**
Meeting Date: 06/11/2024

APPLICANT:
CarMax AUTO SUPERSTORES, INC.
(PROJECT PLANNER: RYAN MURPHY, SENIOR PLANNER)

PUBLIC HEARING to consider the following applications, for 18.56 acres of land located on the west side of New York Street at West Brockton Avenue, approximately 1,000 feet north of West Colton Avenue in the General Commercial (EV/CG) District of the East Valley Corridor Specific Plan (APNs: 0169-011-38-0000 and 0169-011-39-0000):

1. A recommendation to the City Council on **Specific Plan Amendment No. 52 to the East Valley Corridor Specific Plan** – A request to amend the East Valley Corridor Specific Plan to allow pre-owned automobile sales as a conditionally permitted land use (without sales of new automobiles) within the Commercial General (EV/CG) District of the East Valley Corridor Specific Plan.

2. A recommendation to the City Council on **Conditional Use Permit No. 1179** – A request to establish a pre-owned automobile sales and service/reconditioning facility within the Commercial General (EV/CG) District of the East Valley Corridor Specific Plan.

3. A recommendation to the City Council on **Commission Review & Approval No. 962** – A request for site plan approval and architectural design review to construct a pre-owned automobile sales and service/reconditioning facility consisting of a 4,958 square foot sales building, a 39,621 square foot service/reconditioning building, a 2,772 square foot quality control building with 936 square foot non-public carwash, a private fuel tank/dispenser, and an outdoor vehicle storage lot approximately six acres in size. Related site improvements include customer and employee parking lots, driveways and associated landscape areas, vehicle staging and storage areas.

SYNOPSIS

1. General Plan Designation:	Commercial/Industrial, and Commercial
2. Existing Zoning:	Commercial General (EV/CG) District of the East Valley Corridor Specific Plan
3. Surrounding Zoning:	North: EV/CG District South: EV/CG District East: Light Industrial (M-1) District; Neighborhood General (NG1) and Village General (VG) of the Transit Villages Specific Plan West: Interstate 210 Freeway; EV/CG District
4. Existing Land Use:	Vacant and unimproved land
5. Surrounding Land Use:	North: Home Depot, 7-Eleven gas station, Jack in the Box restaurant, car wash facility, and vacant land South: Toyota of Redlands and Interstate 10 Freeway; retail stores, restaurants, and Redlands Ford south of I-10 freeway East: Teledyne Battery facility, Bill & Wag's Towing, multi-tenant office building, Empire Bowl, and single-family neighborhoods West: Interstate 210 Freeway right-of-way; commercial and retail development

6. Area / Topography:	Flat property sloping approximately 2% to the west.	
7. Environmental Determination:	An Initial Study and Mitigated Negative Declaration was prepared for the project in accordance with the California Environmental Quality Act.	
8. Socio-Economic Cost / Benefit Study:	A Socio-Economic Cost/Benefit Study was prepared per the requirements of Measure 'U,' and the project has a positive Cost/Benefit ratio of +12.10.	
9. Planning Commission Submittal Dates:	(A) Date Submitted: (B) Date Accepted As Complete: (C) Planning Commission Meeting:	February 23, 2023 July 3, 2023 June 11, 2024

PROPOSAL

The proposal is a request to construct and operate a used automotive dealership and reconditioning facility on approximately 18 acres of vacant land located on the west side of New York Street at West Brockton Avenue (see Attachment A – Location Map and Aerial Photo). The proposal is for constructing buildings and site improvements including the following (see Attachment B – Site Plan):

- 4,958 sq. ft. sales and administration building;
- 39,621 sq. ft. service/repair/reconditioning facility;
- 2,772 sq. ft. quality control building and carwash
- Customer and employee parking lot with 292 spaces;
- Outdoor vehicle storage lot with space for 1,105 repair/reconditioning vehicles; and
- Related site improvements including vehicle unloading and staging areas, driveways, landscaping, lighting, walls and fences, drainage detention basin, and utility connections to and through the site.

The CarMax national business model consists entirely of the sale of used automobiles, both as a retail operation and wholesale, although the subject application does not include any wholesale operations. CarMax acquires its pre-owned vehicle inventory from its customers and the general public at its retail stores, or by purchasing wholesale pre-owned vehicles from third party sellers. Those vehicles are prepared for sale through the reconditioning process, which may involve minor work (e.g., cleaning, repairing scratches, replacing tires, or other cosmetic treatment, etc.) or more major work to the interior or exterior (e.g., engine or mechanical repairs, body repair, repainting, etc.). Reconditioning activities are described in further detail in the Analysis section of this report.

Table 1-A below summarizes the building floor areas and square footage within the proposed project.

Table 1-A: Building Floor Area Summary

Land Use	*Floor Areas*	*Size (square feet)*
Retail Sales	Sales area, administration offices, operational support desks, and other administrative functions	4,958
	Vehicle presentation area	1,232
	Sub-total:	6,190 (12.5%)
Vehicle Repair & Reconditioning	Vehicle repair & service areas, cosmetic area,paint booths, photo booths, and related areas	35,669
	Training room, break rooms, managers & employee offices, parts receiving & storage rooms	3,952
	Carwash, quality control offices	3,675
	Sub-total:	43,296 (87.5%)
TOTAL:		49,486

Table 1-B below summarizes the project site areas for customer and employee parking, sales display lot, and screened vehicle storage areas.

Table 1-B: Parking Area Summary

Parking Areas	*Dimensions (approximate)*	*Size (approximate)*
For Sale vehicles display lot (318 parking spaces)	225’ wide by 405’ long	2.09 acres
Customer & Employee parking (303 parking spaces)	300’ wide by 440’ long	3.03 acres
Repair vehicles storage lot (1,105 parking spaces)	Sum of areas = 261,500 sq. ft.	6.0 acres
Future Expansion Area (to remain vacant)	246’ wide by 308’ deep	1.74 acres

As the sale of used automobiles (without the sales of new automobiles) is not permitted within the Commercial General (EV/CG) District of the East Valley Corridor Specific Plan, the proposal also includes a Specific Plan Amendment to the East Valley Corridor Specific Plan to allow used automobile sales (not in conjunction with sales of new automobiles) in the EV/CG District as a conditionally permitted use, requiring a Conditional Use Permit application.

BACKGROUND

The 18.5-acre project site, located on the west side of New York Street at West Brockton Avenue, is vacant, unimproved, and thinly covered with non-native grasses and shrubs due to semi-regular weed abatement. Aerial photographs show that it was used for citrus cultivation until the 1970's. There are no development-related permits or entitlements for the site.

The applicant's initial inquiries about the project site in early 2022 were for a vehicle reconditioning facility, large outdoor vehicle storage yard, and wholesale non-public sales of used vehicles, without sale to the general public. In June 2022, the applicant was informed that because the current zoning allowed only retail uses, the proposed industrial uses could not be permitted. The applicant was also advised that rezoning or a specific plan amendment would not be considered to accommodate industrial uses on the project site. In response to staff's comments, the applicant revised the proposal to include retail sales of pre-owned automobiles vehicles on the site (without new vehicle sales as required by the current zoning) and submitted a formal development application in February 2023.

Surrounding Land Uses: The subject property sits to the east of the SR-210/I-10 Junction, approximately 30 feet below the travel lanes of the freeway. The surrounding properties and vicinity have been developed with predominantly retail-oriented uses and retail/commercial services. A shopping center is located to the north. To the west, the Mountain Grove and Citrus Plaza shopping centers were developed in the unincorporated "donut hole" area (also within the East Valley Corridor Specific Plan). To the south is Toyota of Redlands. To the east, the area is primarily service retail and residential in character, with the exception of the Teledyne Battery facility (established in 1920).

ANALYSIS

A) General Plan

Land Use Designation: The General Plan provides two land use designations for the project site (See Attachment C – Existing General Plan). The majority of the project site (totaling approximately 16.36 acres) are within the "Commercial/Industrial" land use designation, and the northwest corner of the project site is designated for "Commercial" land use (totaling approximately 2.2 acres adjacent to the 210 Freeway). The Commercial/Industrial land use category designates areas where certain types of commercial and light industrial uses may be compatibly located.

General Plan Policies: The project is consistent with the following general plan policies and actions.

> *Action 4-A.3* – Ensure that infill development complements existing development in use, design, and scale, and that it supports the cohesion and integration of the city's development pattern.
> *Policy 4-P.21* – Provide for the development of regional commercial destinations near highways and major transportation corridors.
> *Policy 4-P.27* – Promote high-quality development in the East Valley Corridor by using the East Valley Corridor Specific Plan (EVCSP) to provide opportunities for a range of office, commercial, industrial, and residential uses, and associated services and amenities.
> *Action 4-A.27* – Provide space for expansion of existing industries and protect them from encroachment by inharmonious uses, but encourage most new industries to locate in the East Valley Corridor where impacts on residential areas will be minimized.
> *Action 4-A.46* – Maintain, implement, and update (as necessary) the EVCSP in order to promote and facilitate high-quality commercial and industrial development in the EVCSP planning area while being responsive to physical and environmental constraints and opportunities.
> *Action 4-A.48* – Facilitate the development of a wide range of commercial uses to serve

the region, local industry, and residential neighborhoods and facilitate employment of local residents.

B) Current Zoning and Specific Plan

The entire project site is located within the General Commercial (EV/CG) District of the East Valley Corridor Specific Plan (See Attachment D – Zoning Map). Per Section EV3.0705 (Locational Standards) of the East Valley Corridor Specific Plan, "the area is occupied or will be occupied by stores and businesses which provide retail sales and services." As such, permitted uses within EV/CG include a wide range of retail stores, restaurants, personal services, retail services for individuals and businesses, service commercial uses conducted indoors, and repair/servicing of items permitted to be sold within the district.

New automobile sales are currently a Permitted use. At the present time, the sale of used automobiles is only allowed in conjunction with (ancillary to) the sale of new automobiles as an accessory use.

The open outdoor storage of materials, products, equipment, etc., is generally not permitted in EV/CG district. However, the applicable Automobile Sales Development Standards (Section EV3.0720(g)(6)) permit related "service areas and facilities" if they are completely screened from view from the public right-of-way. Based on staff's review of the application, the outdoor vehicle storage yard appears to be proposed as an ancillary activity to the pre-owned automobile retail sales and vehicle repair/reconditioning operations, which are proposed to be conditionally permitted pursuant to a Specific Plan Amendment as detailed below.

C) Specific Plan Amendment

The proposal includes a request to amend the text and list of conditionally permitted land uses within the EV/CG district (EVCSP Section EV3.0713) to allow the sale of pre-owned (used) automobiles as a conditionally permitted land use, without the sale of new automobiles. Currently, the EV/CG district only allows used automobile sales in conjunction with new auto sales (i.e., used auto sales being ancillary and subordinate to the primary land use of new automobile sales).

The issue before the Planning Commission is if this entire proposal is consistent with other permitted and conditionally permitted uses in the EV/CG District, and if it were to be approved, the use would not cause major detrimental costs or externalities on other uses permitted within the same zone. Prior to approving a Specific Plan Amendment, the Planning Commission must first determine that the proposal will be in conformity with the General Plan. Text amendments should also be consistent with the purpose and intent of the subject zoning district.

The intent of the General Commercial (EV/CG) District states,

> "The General Commercial District creates, preserves, and enhances areas for businesses which provide a variety of goods and services serving a community of regional market. The District provides for the grouping of retail and service uses that are compatible in the type of commodity sold, the scope of services provided, or the method of operation.
>
> The District may contain major department stores, administrative/professional headquarters, and community or regional shopping centers. Smaller businesses which benefit from the customer drawing power of the larger stores and provide specialty goods and services may be located there. The creation of a pleasant and efficient environment for shopping and business is the primary function of this District."

Additional minor text amendments have been recommended by staff to ensure that used automobile sales will be subject to the same development standards that are required of new automobile sales

establishments (EVCSP Section EV3.0720), and to clarify the applicability of those development standards to the Redlands Municipal Code. The proposed text amendments to the Specific Plan are shown on Attachment E. If approved, the proposed amendment would apply to all properties located within the EV/CG District.

D) Used Automobile Sales & Reconditioning Facility

As described above, the specific plan (as amended) would require a Conditional Use Permit. The Commission Review & Approval permit is for site plan approval, site construction, and architectural design review for the proposed facility.

Operational Characteristics: CarMax's national business model consists entirely of the sale of used automobiles, both as a retail operation and wholesale (however, this application does not propose any wholesale operations). Vehicles may also be transported to and from this location at the request of customers who are interested in test-driving or purchasing vehicles. CarMax acquires its pre-owned vehicle inventory from its customers and the general public at its retail stores, or by purchasing wholesale pre-owned vehicles from third party sellers. Those vehicles are prepared for sale through the reconditioning process (described below).

To ensure the development operates as proposed, a condition of approval has been added that requires the sales building (i.e., the floor area shown for conducting retail sales as shown on the project plans) (See Attachment F) shall be regularly operated and staffed for conducting onsite retail sales of automobiles on all days that the subject property is in operation. The other activities on-site shall not be operated unless the retail sales component of the business is also being operated during daytime hours on the same day. The retail sales building shall be operated for a minimum of eight hours (e.g., 9:00 AM to 5:00 PM) on every day that other non-retail uses/activities/operations are occurring.

*Reconditioning Operations: "*Reconditioning" is the process by which CarMax prepares a car, truck, or SUV for resale. Reconditioning or refurbishing may include minor repairs (such as the replacement of small parts) and can also include major repairs (such as paint, engine, and body work). Inventory that does not meet the CarMax standards for sale to retail customers will be transported off-site to other CarMax facilities for wholesale. As such, the reconditioning operations and outdoor storage at this site may also serve as a regional refurbishing facility for other CarMax stores outside Redlands. The reconditioning process consists of two stages: inspection and repair/refurbishing. The proposed facility will contain parking areas for employees, a secured parking area for inventory arriving or departing from the facility, loading and unloading areas for vehicle transporters, and a fully enclosed service building (with vehicle lifts, paint booth, photo booths, parts receiving and storage room, employee break rooms, etc.). The reconditioning facility will also be equipped with an attached quality control building, carwash, and private fuel pumps for inventory vehicles.

These operations are proposed as an ancillary use, whereby the primary use of the site would be the retail of used automobiles.

Development Standards: As proposed, the project meets the minimum requirements and development standards for the EV/CG District, summarized in Table 2 (see Attachment G for detailed list).

Table 2: EV/CG District Development Standards

Development Standard	*Requirement*	*Proposed*
Lot Area	50,000 square feet (approx. 1.14 acres)	18.56 acres

Floor Area Ratio	0.25 maximum	0.067
Building Height: - Service bldg.: - Sales bldg.:	No requirement	24'0" 19'4" (roofline) 27'4" (gable)
Front Setback	25 feet min.	approx. 230 feet
Freeway setback (for buildings)	50 feet min.	300 feet
Freeway setback (for landscaping)	25 feet min.	25 feet
Lot Coverage	No requirement	6.7%
Site Landscaping (automobile dealership)	10% min.	29%
Parking Lot Landscaping	7% min.	14%
Parking Spaces	133 spaces min.	292 customer / employee spaces; 304 display spaces; 1105 vehicle storage spaces

Site Design: The buildings on-site are centered on the property. The sales building, 4,958 square feet in size, will be prominent and visible as it fronts New York Street, and all three areas of the site. Additionally, the service/reconditioning building 39,621-square feet in size will be prominent as it comprises most of the building area, has the largest expanse of walls and is highly visible from the freeway and other portions of the site. The 2,772-square foot Final Quality Control building and 936-square foot non-public carwash are located primarily within the screened staging area. The sales building and service/reconditioning/FQC/carwash buildings are connected by a covered, pass-through "presentation" lane where vehicles are exchanged between customers and employees. The total building square footage proposed for the site is 49,491 SF.

Outdoor Vehicle Storage: Of the 11.92 acres of impervious surface proposed on the plan, over half of the site (approximately 9 acres) is allocated to the paved "vehicle staging area" that is located to the west and north side of the property and will be surrounded by a masonry wall for screening and security purposes. This staging area is the Project's "back of house" area where vehicles are stored and staged while awaiting inspection, sales, reconditioning, or pickup for distribution elsewhere. Access to the non-public staging area will also be secured with embassy-style security gates. Although fire access/circulation lanes will be striped (see Attachment H), no other striping plan is provided. Plans for the project state that 1,105 vehicle spaces are provided for "non-sales" parking.

Parking, Access, and Circulation: Access to the site is provided via one unsignalized full movement driveway at the intersection of New York Street and Brockton Avenue. An additional driveway for test drives only and emergency access with Knox Box access only will be at the north end of the sales/display lot. The customer and employee parking area will be located on the southern side of the site, adjacent to New York Street and the existing automobile dealership to the south. In addition to passenger vehicle parking, four car-carrier loading spaces are provided in the southwestern portion of the lot. A paved and striped "vehicle sales display area" visible from the public right-of-way is located at the northeast corner of the property and will be surrounded by a low guardrail system for security purposes. This sales display area is the "outdoor showroom" for vehicles available for retail purchase. Vehicular access to the sales display area is secured with embassy-style security gates

and pedestrian access is only available by passing through the building's sales offices.

Traffic Impact Assessment: In accordance with Measure U, a traffic study was prepared for the project (Attachment I), to evaluate the potential for transportation impacts resulting from the development of the proposed project. The study, prepared by Kimley-Horn and Associates, Inc,, analyzed existing conditions without the project, existing conditions plus the project and analyzed the specific roadway and site access improvements that are included as part of the project.

The project is estimated to generate approximately 552 trips on a daily basis, with 15 trips in the morning peak hour and 27 trips in the evening peak hour. The applicant estimates that approximately 170 total “production” employees over 2 shifts (7:00 AM to 3:00 PM; and 3:00 PM to 11:00 PM) on a daily basis. With this scheduling, the applicant estimates that employees would arrive and exit their shifts during non-peak hours of adjacent street traffic. As a result, the concludes that the “production” employees will not generate additional peak hour traffic. Data estimates provided by the applicant show that there will be 10 car carrier trucks per day to the project site, for a total of 20 truck trips per day. Using these estimates prepared by CarMax that were based on their site operation characteristics, the study concludes that the addition of the proposed project does not degrade the Levels of Service below the current Levels of Service grade. Therefore, the proposed project is forecast to result in no substantial transportation impacts.

Walls, Fences, and Screening: The applicant has provided a wall and fence exhibit within the project plans (see Attachment J). Three types of fencing are proposed:

- Sales Display Area: 2.5-foot vehicle guardrail/fence, set behind a landscape screen of shrubs for screening views from New York Street.
- Detention Basin: 4-foot-high ornamental fencing around the perimeter of the basin (wrought-iron or equivalent).
- Vehicle Storage Lot: 6-foot-high split-face block wall around the perimeter of the vehicle storage lot.

Within the East Valley Corridor Specific Plan, all loading areas, mechanical equipment, outside storage, refuse areas, or other uses are required to be screened. Additional development standards for automobile sales uses (including the sale of used automobiles, if the Specific Plan Amendment is approved) requires that service areas and facilities be completely screened from the public right-of-way. Screening methods may include the use of decorative walls, earthen berms, landscaping, or a combination of these methods. Currently, the applicant is proposing a 6-foot split-face block wall to screen and enclose the vehicle storage area. As CarMax sells vehicles that are taller than 6-feet high (such as vans and trucks), and due to the high visibility of the site from the elevated freeway, staff recommends that the Planning Commission add a condition of approval requiring enhanced screening for the rear outdoor vehicle storage area, to include a minimum 8-foot high decorative screen wall and the planting of additional trees and shrubs within the landscaped freeway setback. This will ensure maximum land use compatibility in that taller vehicles will be less visible from New York Street and neighboring retail properties, and views onto the site from the freeway are appropriately screened.

At the south property line, the existing 6-foot wrought iron fence installed on the Toyota property (adjacent to customer and employee parking) will remain.

Architectural Design Review: The building elevations (see Attachment K) show that the building façade will be constructed of a dark brown colored split-face and smooth concrete masonry unit (CMU) block that have smooth stucco exterior in light brown. A blue gabled standing seam metal roof characteristic of CarMax (maximum height of 27’4”) is proposed for the sales building, which also employs blue tinted glazing and metal awnings at the pedestrian level.

Massing for the service/reconditioning building will be articulated by a tonal color banding around the building, and the addition of pilasters to break up long expanses of wall, while providing for variations in the roofline. The architectural treatments will be applied consistently to all building facades to create a cohesive look. Variated roof forms will be incorporated to distinguish the main customer entry points and the different to buildings. The roofline (height of 24'0") consists of a parapet with cornice features and is painted white. Roof-top equipment will be screened by a pre-finished earth-tone metal screen and parapet walls. The proposed design is consistent with the applicable Architectural Design Guidelines (see Attachment L - Table of Architectural Guidelines).

New construction is subject to review by the Planning Commission per RMC Chapter 18.12 and requires Commission Review & Approval. The Commission reviews the project to determine whether the proposed development is in conformity with RMC Section 18.12.170 (Architectural Review Criteria) and if approval of the site plan is in the best interest of the public health, safety, and general welfare. It is intended that design submittals be compatible with the character of adjacent and surrounding developments, and that they be of comparable composition, materials, textures and colors. The proposed project may be found to be consistent with the Architectural Review Criteria contained in RMC Section 18.12.170 (listed below).

1. Site layout, orientation, location of structures and relationship to one another, as well as open spaces and topography.

The proposed project meets all applicable development standards in terms of building coverage, setbacks, and the landscape requirements. The proposed site layout, building orientation, location of structures and relationship to one another are physically suitable in size and shape to support the development. The site's main entry will be accessed from a two-way driveway on New York Street.

2. Harmonious relationship of building with existing and proposed adjoining developments.

The project site is surrounded by commercial and service developments on all three sides, and the building is similar in size and scale to those adjacent developments. In addition, landscaping and screening is proposed that will increase the land use compatibility with neighboring developments by reducing views onto storage areas. The building materials (concrete block and stucco) and brown earth-tone colors with white and blue accents will complement the adjoining developments, such as the Home Depot to the north, and the Toyota of Redlands to the south,

3. Maximum height, area, setbacks and overall mass of buildings, as well as other structures such as walls, screens, towers or signs, and effective concealment of all mechanical equipment.

The project will conform to the development standards in terms of maximum height, area, setbacks, and overall mass of the building. The roofing plan provided identifies screening methods for rooftop equipment. A screen wall and landscaping is proposed to conceal equipment and storage areas from view from the public right-of-way, and the landscaping plan indicates all ground mounted equipment will be screened.

4. Harmony of construction materials and colors in relation to all exterior elevations.

The proposed architectural element of the building is consistent with the surrounding buildings in terms of material, color, scale, and mass. Thematic architectural features are incorporated on all elevations visible from public vantage points. The building's modern design elements include pilasters, an enhanced cornice at the roofline, variation in

materials between plaster and textured block, variation in neutral toned colors (brown, beige and white), building articulation, and detail elements. The proposed color palette will consist of a light brown tone at the ground-floor level, a white accent color at the roofline/cornice, and enhanced blue aluminum and glazing elements such as windows and door openings at main entry points.

5. Location and type of planting, with due regard for the preservation of specimen trees upon a site.

The proposal meets the landscaping development standards for the EV/CG district and other requirements for automotive dealerships within the East Valley Corridor Specific Plan. No specimen tree exist on the current site. andscaping is proposed around the perimeter of the site and within public parking areas (See Attachment M). The landscape palette consists of palm trees, deciduous trees and shrubs, evergreen shrubs, groundcover, wood mulch, and rock. A condition of approval has been added requiring rock ground cover to be used in combination with shrubs and live plants to ensure that the landscape plan continues to comply with the Redlands Municipal Code and EVCSP.

Enhanced landscaping is provided at the site entrance at New York Street. The minimum landscaping requirement for automobile dealerships in the EVCSP is 10% of the project site, and the proposed project provides 29% of landscaping lot coverage which exceeds the minimum requirement. All landscaping will be designed to meet the City's Water Efficient Landscape requirements.

6. Design and appropriateness of signs in relation to the architectural style of the building.

Any future signage would be subject to the signage standards for the EV/CG District and Redlands Municipal Code, and require a separate permit and approval. Signs are intended to be placed below the roofline in areas that will not interfere with the building or expose residents or businesses to unsightly views from the public right-of-way. Freeway signage will likely be accommodated on the existing freeway sign for Toyota of Redlands.

7. Glazing or image reflective surfaces (specular reflectance) shall be limited to a maximum reflectance value of twenty five percent (25%). "Specular reflectance" means any mirror like reflection, as contrasted to diffused reflection from such surfaces as concrete or vegetation.

A condition of approval has been added to the project that glazing or image reflective surfaces (specular reflectance) shall be limited to a maximum reflectance of 25%.

Grading and Drainage: The preliminary grading and utility plan (See Attachment N) indicates that excessive grading is not required to support development of the project. No large retaining walls are proposed. The majority of runoff from the site will be intercepted by inlets and swales that convey the flows downstream to an infiltration basin for detention. The detention basin will infiltrate stormwater and discharge additional runoff.

Site Lighting: The Proposed Project will use LED lighting fixtures mounted on 26-foot-tall light poles for visibility and security. Fixtures will be shielded and aimed downward to reduce light spillover onto adjacent properties.

Future Expansion Area: The Site Plan and Landscape Plan note a “Proposed Expansion Area” on the north side of the project site (abutting the Lowe’s store on the west side and another approved shopping center project on the north side). The Expansion Area is approximately 308’ by 246’ for a total of 1.74 acres, and the Landscape Plan indicates “non-irrigated hydroseed” (i.e., natural

groundcover such as grasses and wildflowers) which implies the area will not be regularly maintained as part of the CarMax project. A condition of approval has been added that requires sufficient irrigation, maintenance, and/or replanting as needed to maintain a viable groundcover moving forward. No fencing is currently shown around the area, and any future installation of fencing to enclose or secure the area will need to be decorative (such as tube steel) to match the CarMax development. As no land uses or construction are authorized for the Expansion Area, any future expansion or development in this area will require a formal application for a Revision to the CUP and CRA (including review and approval by the Planning Commission).

ENVIRONMENTAL REVIEW

The City retained an environmental consultant to fully analyze the project and prepare an Initial Study (Attachment P) in accordance with the California Environmental Quality Act (CEQA). Pursuant to the CEQA Guidelines, the Initial Study/Mitigated Negative Declaration (IS/MND) was made available for public review and comment for 30 days (State Clearinghouse No. 2024050187). A Notice of Intent was filed with the County Clerk on May 2, 2024, and with the State Clearinghouse. The IS/MND was circulated for over 30 days between May 3, 2024, and June 3, 2024. The environmental documents were also made available via the City's website (www.cityofredlands.org/post/environmental-documents). No public comments were received during the public review and comment period.

The Initial Study recommends a Mitigated Negative Declaration with twelve (12) mitigation measures which pertain to Biological Resources, Cultural Resources, Tribal Cultural Resources, Geology and Soils, and Hazards and Hazardous Materials. All mitigation measures will ensure that any potential effects will remain less than significant. After mitigation, no significant effects were identified as a result of the project, and the recommended mitigation measures will be incorporated into the project as mandatory Conditions of Approval.

FINDINGS

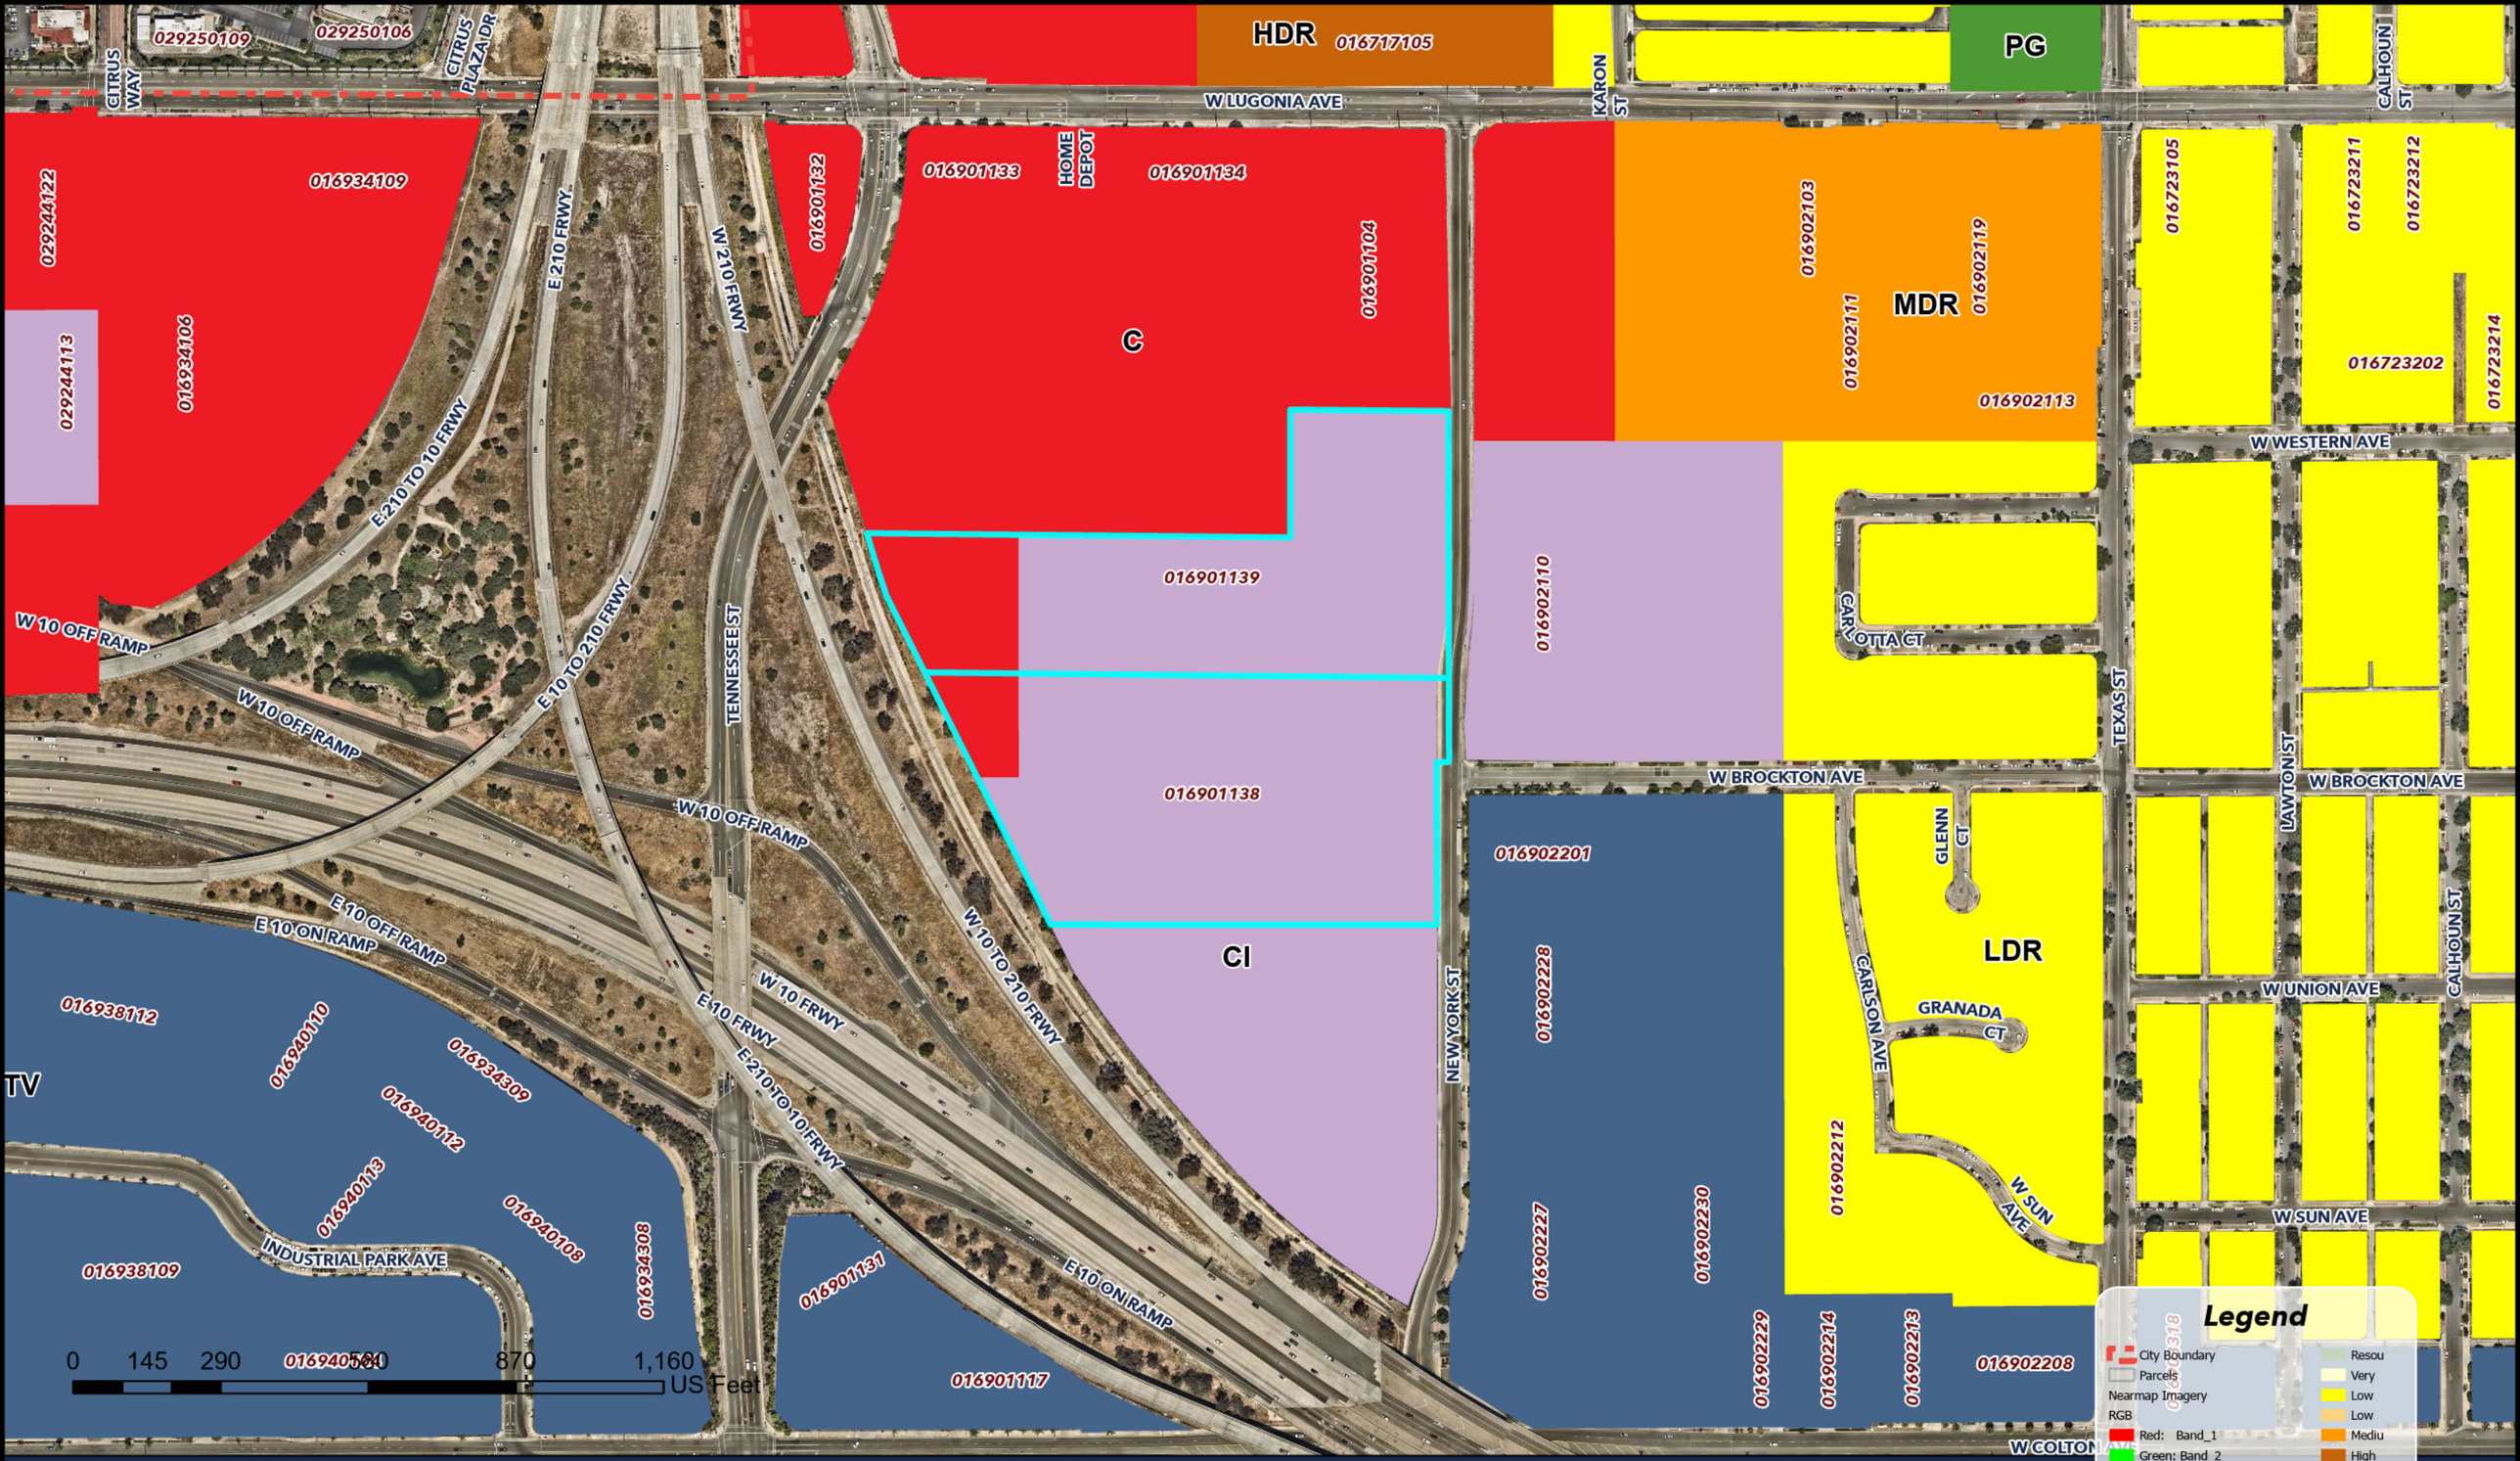
Each of the entitlements for the proposed project has specific findings, which are established by the Redlands Municipal Code, and are required to be made by the Planning Commission before the Commission can recommend approval of the entitlements for the project. In addition, for the project entitlements (CUP and CRA permits) to be approved, it is first necessary for a Specific Plan Amendment to be approved (to allow the requested land use as a conditionally permitted use). Approval of a Specific Plan Amendment is a discretionary decision (i.e., at the discretion of the City Council with a recommendation from the Planning Commission), with a finding that the proposed amendment would be in conformance with the 2035 General Plan.

Complete lists of applicable findings are included in the Planning Commission Resolutions (see Attachments Q-1, Q-2, and Q-3).

RECOMMENDATIONS

Based on the above analysis and findings, staff recommends that the Planning Commission adopt Resolution Nos. 1683 and 1684 recommending adoption of the Initial Study/Mitigated Negative Declaration, adoption of the Socio-Economic Cost/Benefit Study for the project, approval of the Specific Plan Amendment, and approval of the project entitlements to the City Council.

MOTIONS



If the Planning Commission concurs with the staff recommendation, the following motions is provided:

"I move that the Planning Commission adopt Resolution Nos. 1683 and 1684 and recommend that the City Council:

- Adopt the Mitigated Negative Declaration and Mitigation Monitoring & Reporting Program for the proposed project;
- Adopt the Socio-Economic Cost/Benefit Study for the project;
- Approve Specific Plan 40 Amendment No. 52;
- Approve Conditional Use Permit No. 1179; and
- Approve Commission Review & Approval No. 962."

CHAPTER 7. GENERAL COMMERCIAL

Section EV3.0701 Intent

The General Commercial District creates, preserves and enhances areas for businesses which provide a variety of goods and services serving a community or regional market. The District provides for the grouping of retail and service uses that are compatible in the type of commodity sold, the scope of services provided or the method of operation.

The District may contain major department stores, administrative/ professional headquarters and community or regional shopping centers. Smaller businesses which benefit from the customer drawing power of the larger stores and provide specialty goods and services may also be located here. The creation of a pleasant and efficient environment for shopping and business is the primary function of this District.

Section EV3.0705 Locational Standards

(a) The area is occupied or will be occupied by stores and businesses which provide retail sales and services for a wide range of consumer needs, characterized by relatively long-term utility.

(b) The District is located either at the intersection of major streets or along major streets and freeways.

(c) The area is free of environmental constraints and has physical conditions which can sustain commercial development, including all required parking, circulation, landscaping and yards.

(d) The location shall be consistent with the General Plan text and maps.

Section EV3.0710 Permitted Land Uses

The following uses are permitted within the General Commercial District. New construction shall require Commission Review and Approval as required by the Redlands Municipal Code. Determinations regarding similar uses not specifically listed shall be made pursuant to §EV3.0135(b).

(1) Agriculture as a continuation of the existing land use, including orchards, groves, nurseries, field crops, tree crops, berry crops, bush crops, truck gardening and commercial flower growing, and structures and appurtenances thereof.

(2) Uses permitted in the Neighborhood Commercial District and Administrative Professional District.

(3) Retail sale of goods generally characterized by relatively long-term utility or consumption, including but not limited to the following types of goods and/or stores:

- Antiques
- Appliances
- Art galleries, print and frame shops
- Auto and motorcycle parts and accessories (new)
- Automobiles, motorcycles and other motor vehicles (new)
- Bicycles and parts
- Boats
- Commercial nursery, retail
- Computers and accessories
- Department and general merchandise stores
- Draperies, curtains, upholstery
- Fur goods and apparel
- Furniture and home furnishings
- Home improvement centers
- Jewelry, precious metals, coin and stamp dealers
- Office supplies and equipment
- Photographic equipment and supplies
- Plumbing and heating equipment and supplies
- Radio, TV, stereo
- Secondhand merchandise and thrift shops
- Swimming pools and spas
- Vintage or collectible vehicles
- Wall and floor coverings

(4) Provision of services to individuals and business establishments, generally including but not limited to the following types of services:

- Automobile rental (limited to offices and storage of vehicles only; no on-site repair or maintenance of rental vehicles permitted)
- Car washes
- Eating establishments (including on-site sale of alcoholic beverages), with the exception of drive-through restaurants, which shall require a Conditional Use Permit
- Funeral parlors and mortuaries
- Furniture repair and re-upholstery
- Medical massage therapy; provided, that (a) a minimum of eighty percent (80%) of the establishment's clients are from referrals by state-licensed health care providers, and (b) the establishment's records are kept on the premises and made accessible to the City upon request for compliance
- Pet grooming
- Restaurants *See "Eating establishments"*

- Taxidermy
- Telephone exchanges
- Veterinarians and animal hospitals
- Vocational and trade schools

(5) Repair and servicing of any article which is permitted to be sold in this District.

Section EV3.0712 Accessory Land Uses

The following uses are permitted as an accessory use to a primary permitted or conditionally permitted use:

(1) Sale of used automobiles and other vehicles, if accessory to the sale of new vehicles.
(2) Nightclubs
(3) Recreation centers
(4) Skating rinks indoor)
(5) Hotels and Motels
(6) Conditionally permitted uses in the Administrative Professional District and Neighborhood Commercial District.

Section EV3.0713 Conditionally Permitted Uses

The following uses may be permitted subject to approval of a Conditional Use Permit by the Planning Commission. Determinations regarding similar uses not specifically listed shall be made pursuant to §EV3.0135(b):

(1) Auto service and repair centers

(2) Commercial repair garages for motor vehicles and equipment (including body and paint work)

(3) Cultural, Entertainment and Recreational Facilities, generally including but not limited to the following:

- Arcades, pool halls, discotheques
- Bars and cocktail lounges
- Bowling alley and miniature golf
- Drive-in theaters
- Gymnasiums, health and athletic clubs, figure salons
- Live theaters (except adult theaters as defined by the Redlands Municipal Code)
- Meeting halls (lodge and union)
- Motion picture theaters
- Nightclubs
- Recreation centers
- Skating rinks (indoor)

(4) Hotels and Motels

(5) Conditionally permitted uses in the Administrative Professional District and Neighborhood Commercial District.

(6) Retail sales of pre-owned or used automobiles (as a primary use) not in conjunction with new auto sales.

Section EV3.0715 Prohibited Uses

Any use not listed as permitted, conditionally permitted, or permitted as an accessory use is prohibited in the General Commercial District.

Section EV3.0720 Development Standards

(a) All lots shall have adequate width, depth and area to accommodate all required parking, setbacks, landscaping, loading, trash enclosures, and access requirements.

(b) No maximum building height is established. Height limits shall be determined in accordance with Part 77 of the FAA regulations. Also refer to Floor Area Ratio-Section EV4.0240(a).

(c) Minimum building setbacks shall be as follows:

(1)

Front yard	25 feet
Street side yard	25 feet
Side and rear yards	None except where adjoining residential district

(2) Where district abuts a street designated as a Special Landscaped Street in Section EV4.0115 (a), see Section EV4.0155 for setback and landscaping requirements.

(3) Where district abuts a residential district or residential portion of a Planned Development, see Section EV4.0225 (d) for setback and landscape buffer requirements.

(4) See Section EV 3.0620 (i) for exceptions for front yard and street side yard setbacks for unenclosed, architectural type projections such as portico's, porte-cochere's, and pedestrian walkways for drive through restaurants and services.

(d) For requirements on landscaping, walls, access, parking, loading, trash enclosures, lighting and storage, the provisions of Division 4 shall apply.

(e) The provisions of Division 4 shall apply to signs. In addition, the maximum area of any sign facing a residential district shall be 75 feet.

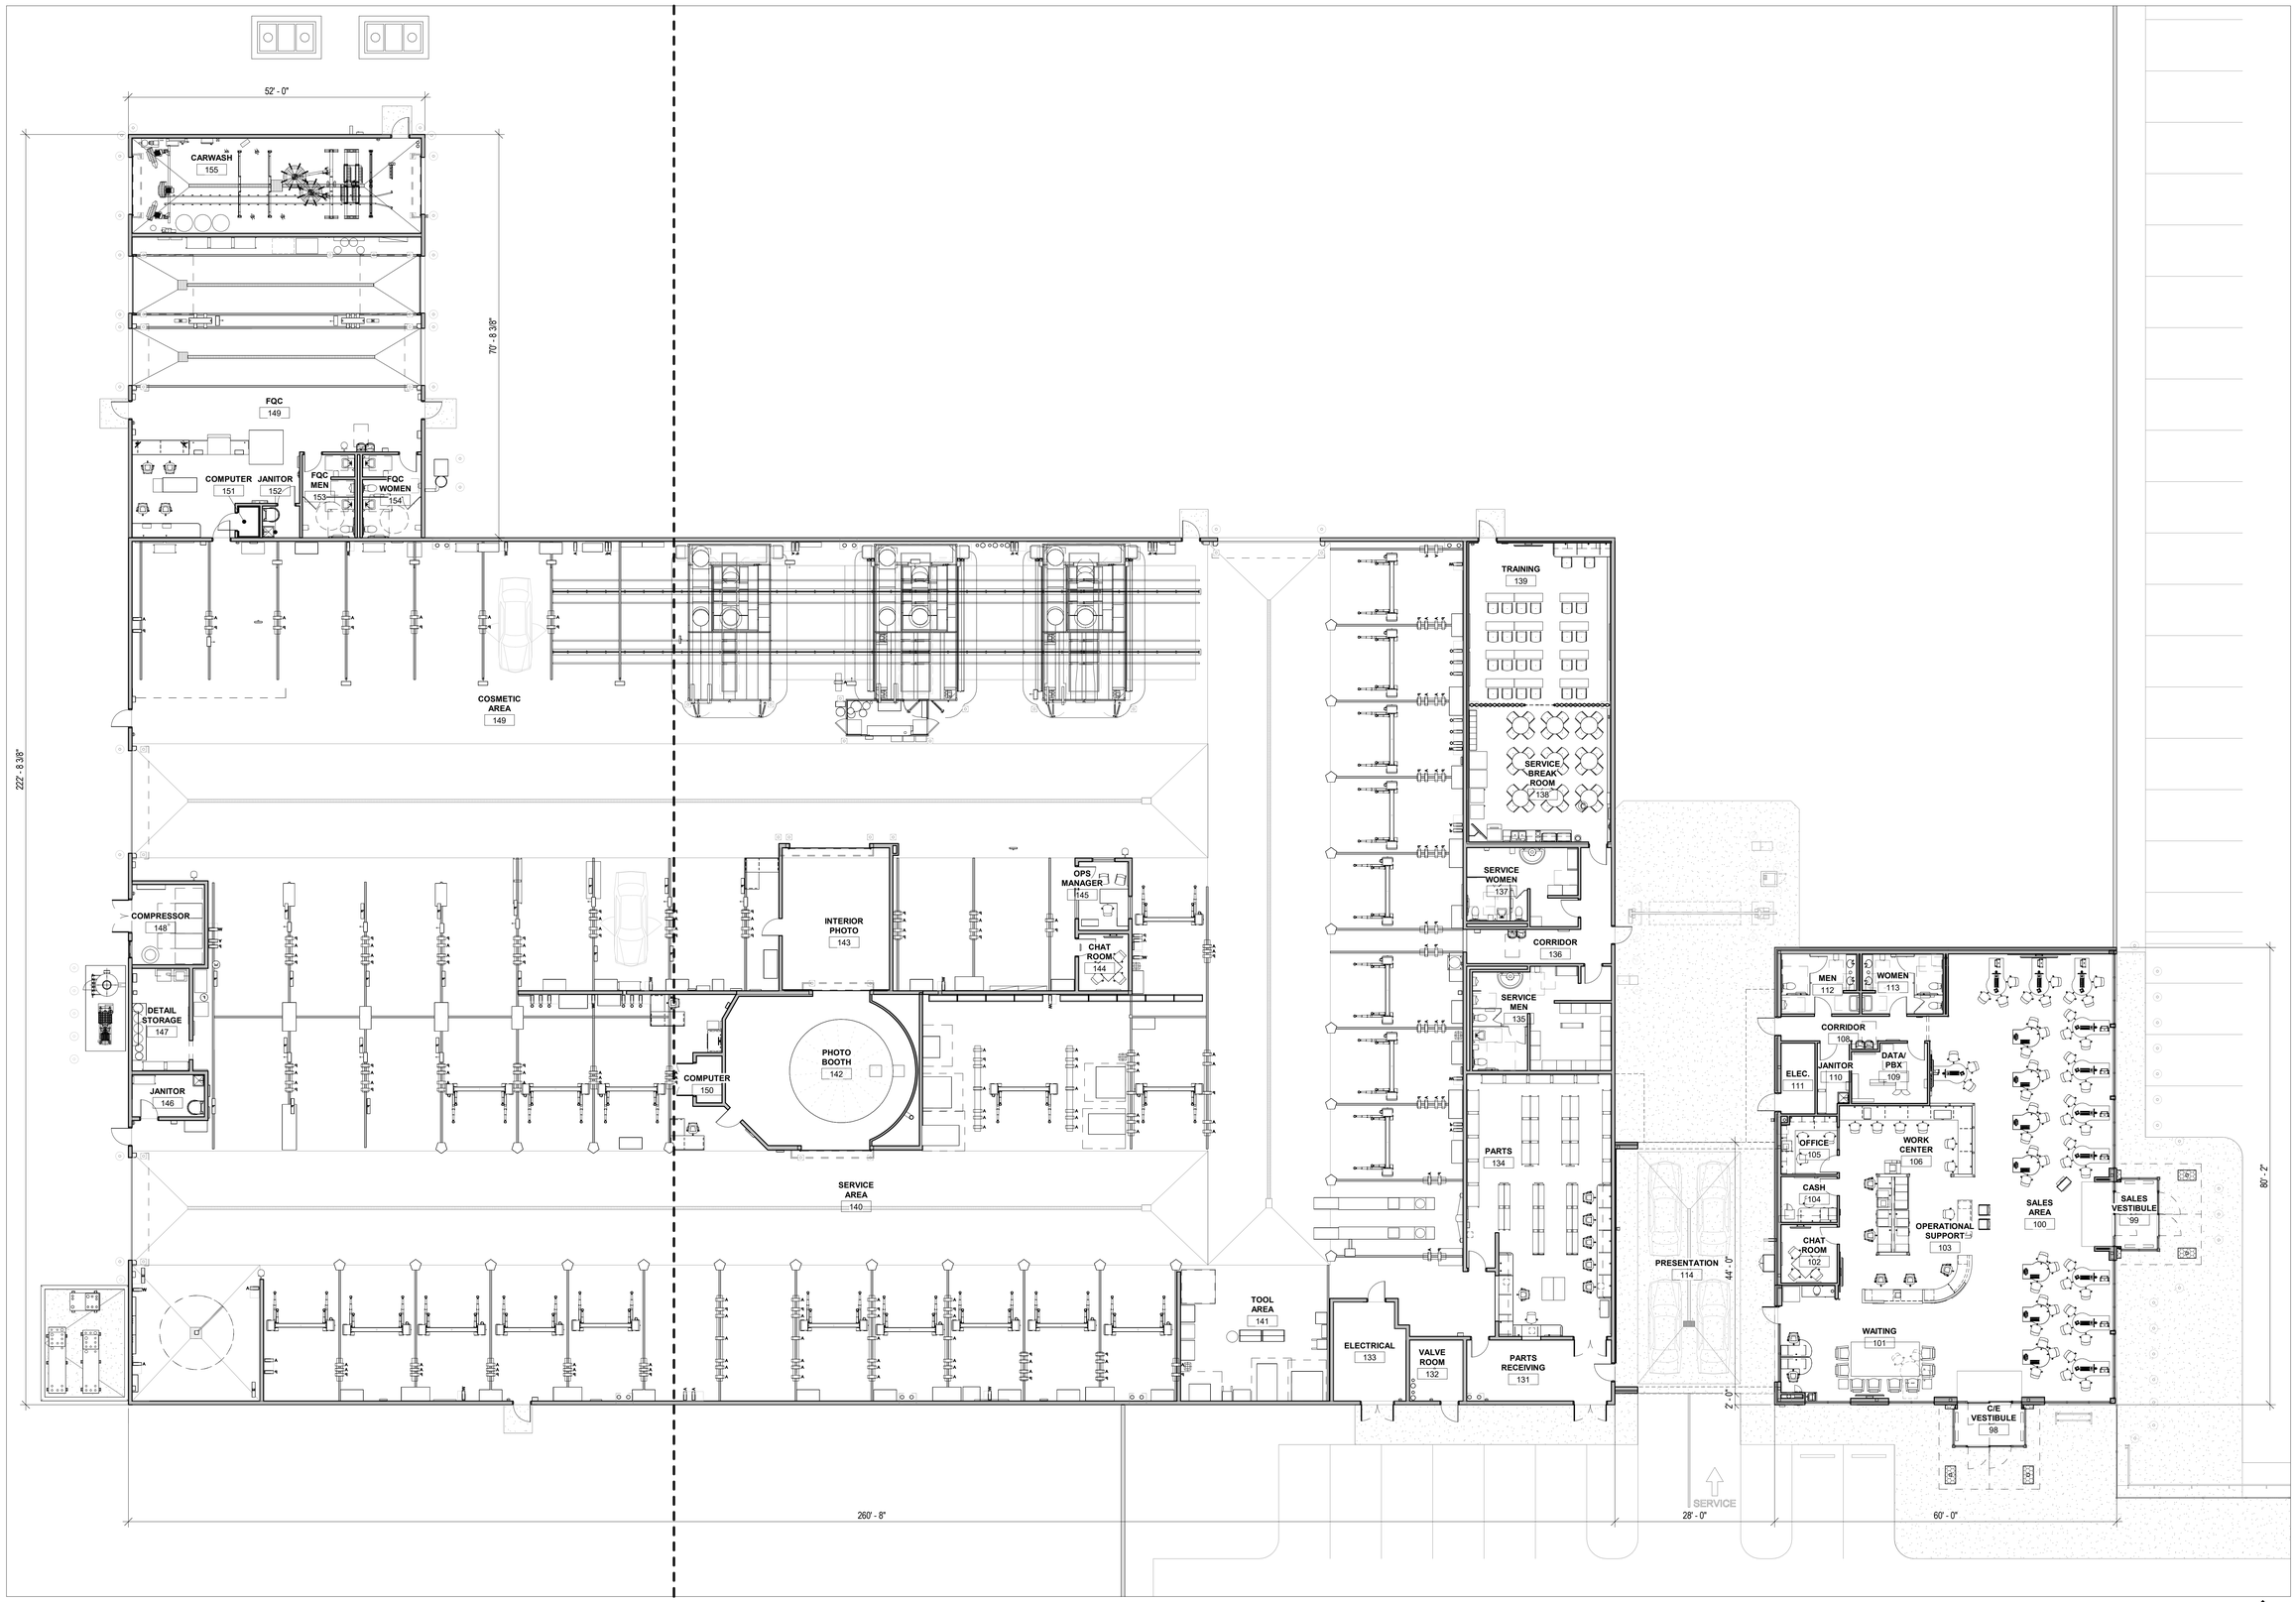
(f) All access ways to a public street shall be located not less than seventy-five (75) feet from the intersection of any street lines, and shall be designed in a manner conducive to safe ingress and egress. Where practical, exits shall be located on a minor street. Frequency of access ways shall be at intervals of not less than one hundred (100) feet.

(g) Automobile Sales Development Standards

The purpose of these provisions are to establish standards for the development of new and pre-owned automobile sales facilities where sales are conducted outdoors.

The following property development standards shall apply when they are more restrictive than the development standards for the particular zone in which new automobile sales are proposed to be conducted:

(1) Site Area. Each site shall have a minimum area of 50,000 square feet.



(2) Site Dimensions. The minimum lot width and depth dimensions shall be 200 feet.

(3) Parking. Off-street parking shall be provided in accordance with the provisions of Chapter 18.164 of the Redlands Municipal Code.

(4) Landscaping. A minimum of ten percent of the site shall be landscaped. Landscaping shall be placed along the entire street frontage, except for driveway openings and walkways. Landscaping shall be oriented to enhance public views and accent on-site structures.

(5) Architectural Treatment. It is the policy of the City to require high quality architectural treatment. The design of the facilities shall be harmonious with the character and quality of the neighborhood and community.

(6) Service Areas and Facilities. Service areas and facilities, and outdoor motor vehicle holding areas for operational vehicles (not including display areas for auto sales), shall be completely screened from view from the public right of way. Screening shall be by use of walls, earth berms, landscaping or a combination thereof.

25 JAN 2023

COMMERCIAL GENERAL (EV/CG) DISTRICT
(East Valley Corridor Specific Plan)
Conditional Use Permit No. 1179, Commission Review and Approval No. 962

DEVELOPMENT STANDARD	REQUIREMENT	PROPOSED	COMPLIES?
Min. Lot Area EV3.0720(a)	All lots shall have adequate width, depth, and area to accommodate all required parking, setbacks, landscaping, loading, trash enclosures, and access req.	18.56 acres (existing)	Yes
Max. Structure Height EV3.0720(b)	No height limit.	24'0" to roofline; 27'4" to top of entrance canopy	Yes
Floor Area Ratio EV4.0240	Retail/Commercial: 0.25 49,491 SF / 808,473 SF = 0.06 FAR	0.06	Yes
Front Yard EV3.0720(c)	25 ft. minimum	180 feet	Yes
Street Side Yard EV3.0720(c)	25 ft. minimum	180 feet	Yes
Side & Rear Yards EV3.0720(c)	None, except where adjoining residential district.	<u>Side Setbacks</u> North: 251 feet South: 324 feet <u>Rear Setback</u> 298 feet	Yes
Freeway Landscape Setback EV4.0140(b)	Minimum 25 ft. landscape setback adjacent to freeway rights-of-way.	25'0" Landscaped with trees and shrubs	Yes
Freeway Building Setback EV4.0140(c)	50 ft. building setback required	298 feet	Yes
Freeway Special Open Space Edge Treatment EV4.0260(d)(3)	100 ft. building setback from freeway ROW line; For extra open space, unless it would severely constrain development of the site.	298 feet	Yes
Parking Requirements EV4.0201	Retail & Office floor area: 1 per 250 sq. ft. GFA *Sales Area: 4,958 sq. ft. / 250 = 20 spaces* *Presentation: 1,204 sq. ft. / 250 = 5 spaces* Repair Services: 1 per 400 sq. ft. of GFA *39,621 sq. ft. / 400 = Requires 99 spaces* Auto Repair: 5 spaces per service bay; minimum of 6. *45 service bays = Total Requirement: 9 spaces* *Total Requirement: 133 spaces*	292 customer and employee spaces <u>Uncounted spaces:</u> 304 display area spaces 1105 screened vehicle storage spaces	Yes
Parking Standards EV4.0205	• Located on same lot which parking serves. • Dimensions: 9 ft. wide by 19 ft. deep (min.). • Parallel spaces: 8 ft. wide by 24 ft. deep (min.). • Compact spaces permitted (per Municipal Code). • Min. aisle widths – 0-degree: 13 ft. 45-degree: 14 ft. 60-degree: 17 ft.	Customer spaces: 9' by 19' minimum Aisle width: 26 ft. in customer parking areas	Yes Yes

DEVELOPMENT STANDARD	REQUIREMENT	PROPOSED	COMPLIES?
	90-degree: 26 ft. • No part of parking space area to be used for driveways, aisles, walkways, or other improvements. • Visitor parking shall be near visitor entrances. • Pedestrian walkways shall be provided. • Vehicles must not enter a street to circulate within the parking areas. • Vehicles must be able to maneuver forward onto a street. • Areas cannot be within ultimate street right-of-way. • Parking bumpers prohibited. • Parking structures: architect. treated like main bldg. • If change of use occurs, must meet req. for new use. • If addition or expansion, additional parking req'd. • If 2 or more uses, provide parking for both uses. • Min. 0.5 foot-candle uniform illumination.		
Access ways EV3.0720(f)	Min. 75 ft. from intersection of any street lines. Where practical, exits shall be on a minor street. Min. 100 ft. intervals for access ways.	One main driveway, 295' from adjacent driveway to south	Yes
Loading Areas EV4.0210	• All industrial, commercial, institutional, hospitals. • Min. 10' wide, 20' deep, 14 ft. high clearance. • Number of LZ varies based on square-footage – see EV4.0210(a) • LZ only at rear or interior side areas (not front). • Loading areas must be screened from public view. • Parking areas separate from loading areas. • Trucks cannot back-out into street right-of-way (except at ends of cul-de-sacs). • Aisle width: 26 ft. (two way) or 16 ft. (one way). • Loading docks: min. 50 ft. wide drive aisle. • Adjacent to freeways, LZ to be oriented away from public view from fwy (from oncoming traffic). • Concrete pads for loading bays.	Loading zones and staging areas provided at rear of parking lot area (400' or more from the street frontage) 26 ft. in customer parking area (300' approximately from 210 freeway)	Yes Yes Yes Yes
Commercial Building Design EV4.0240(d)	Architectural treatment on all sides equally. Architectural façade treatments on all visible sides. Changes in texture, relief, or materials. Varied roof lines; include roofline treatment. Minimize large, continuous treatments of 1 material. Decorative windows and accent panel treatment. Encourage features such as planters and trellis. Accessory buildings to be treated similarly.	Combination of materials and colors provided (stucco, split-face CMU, steel roof) Articulation provided with pilasters/popouts along façade, awnings and windows at pedestrian level, roofline variation)	Yes
Rooftop Treatment EV4.0240(f)	Screen rooftop equipment. Parapet walls or rooftop wells. Ducts, fans, vents shall be painted to match roof color. Reflective features should be placed to prevent glare and obstruction of views from surrounding uses/structures.	Rooftop equipment screen provided, and parapet walls cover over appurtenances	Yes

DEVELOPMENT STANDARD	REQUIREMENT	PROPOSED	COMPLIES?
	Rooftop radio, TV, microwave antenna are prohibited unless approved by PC.		
Screening, Fencing, Walls EV4.0235	• Open fences 4 ft. max. within front yard (90% open). • Fences & Walls 6 ft. max. on side or rear P/L. • No solid wall or fence more than 3 ft. high is allowed within any required front yard area. • Not within corner cutoff area – see EV4.0120. • Screened if within 70 ft. of front P/L. • 6 ft. wall required around all open storage areas. • Fences over 6 ft. high in rear half of lot may be permitted subject to special findings (see section 'g'). • W.I. fence up to 6 ft. may be possible within street-side setback for security reasons (w/ City approval). • All required screening within Industrial & Commercial land use designations shall be architecturally integrated with the surrounding bldg. design though concrete, masonry, or other similar materials. • Solid walls within the buildable lot area shall not exceed 8 ft. high (landscape may be used above 8 ft.) • Minor Exception Comm.: over 6 ft. high in rear half of lot; except, may be up to 16 ft. high if not less than 10 ft. from any P/L. • Minor exceptions: see 18.168.040 to 18.168.100.	6-foot ornamental fence (wrought-iron or equivalent) around drainage basin 2.5-foot guardrail fence behind landscape screen for sales display lot 6-foot split-face CMU block wall surrounding vehicle storage area. **Conditions of approval recommended to increase landscaping along freeway area to allow for greater screening from freeway**.	Yes Yes **Yes, with conditions of approval**
Landscape Guidelines EV04.0250	• Shrubs – 5 gallon sizes (min.). • Trees – 15 gallon sizes (min.). • Incorporate furnishings & features: lighting, seating, paving, fountains, etc., are integral components. r • Large scale bldgs. require large scale landscape treatments. • Existing mature trees should be incorporated. • Encourage L/S incorporated into bldg. design, such as trellises, arbors, planters, atriums, etc. • List of allowable trees in Tables 4-1 and 4-2 (additional trees may be used, subject to approval). • List of drought-tolerant shrubs & groundcover in Table 4-3. • Gravel or colored rock not permitted; except in functional activity areas such as patios or rear entry walks, or as groundcover up to 20% of L/S area.	5 gallon shrubs 15 gallon trees Gravel proposed in parking areas. **A condition of approval is proposed to require use of gravel and stone in combination with live plants.**	Yes Yes **Yes, with conditions of approval.**
Planting Guidelines EV4.0265	• Commercial & Industrial areas: Min. 1 street tree per 30 ft. of street frontage • Areas of public view adjacent to structures: Min. 1 tree per 30 linear ft. of bldg. area. • Parkways: turf or groundcover (in addition to trees), and do not impede pedestrians moving across it. • Street tree placement: - 25 ft. back of beginning of curb returns; - 10 ft. from light standards, fire hydrants, meters,		

DEVELOPMENT STANDARD	REQUIREMENT	PROPOSED	COMPLIES?
	and underground utilities; - Min. 1" trunk diameter at 1 ft. above base; - Min. 15 gallon size; - Palm trees: 10 ft. min. brown trunk height. • L/S should define entrances and walkways.		
Parking Lot Landscape EV4.0255	• Min. 7% of total parking area must be landscaped.	15% within parking area	Yes
	• Perimeter planters (side/rear): 5 ft. minimum • Interior planters: 5 ft. minimum	Perimeter & interior planters = 5'0" minimum	Yes
	• No L/S planter < 5 ft. wide may be counted. • Curbs, mow strips, etc., not included in dimensions.		Yes
	• Vehicles may overhang up to 2 ft. (with clear area).	No overhang needed for 19'	Yes
	• One L/S island per 20 spaces. • Breaks or gaps may be allowed for pedestrian access and drainage purposes only.	Parking rows with 20 spaces, and planters on ends	Yes
	• Plant palette – maturity in 3 years. • Planters to include shrubs and groundcover.		
	• Trees: 6 ft. trunk height; min. 50% evergreens. • Trees: 50% 15-gallon; 25% 24-inch box; 25% 36-inch box; and meet specified caliper sizes.	Tree sizes to comply; to be verified in plan check	Yes
	• Trees: ends of aisles; at 3 space intervals in interior; at 20 ft. intervals around perimeter.	Trees at ends of aisles and 3-space intervals (customer parking lots)	Yes
	• Trees may be clustered for natural appearance.	Trees clustered around perimeter, 20-foot intervals	Yes
	• Mature trees should be preserved, where feasible. • State drought-tolerance requirements may modify these specifications, with water use calcs provided. • Parking areas not accessible to public & completely screened, these requirements may be modified.		
Other Site Landscaping Requirements EV4.0260	• Minimum portion of site to be landscaped: Auto Dealership: 10%	29% (with future expansion area as groundcover)	Yes
	• Significant L/S open space areas at entry/exit points. • Special open space edge treatments – EV4.0260(d) • L/S may be reduced with provision of public art, up to 5% max., see EV4.0260(e)	19.3% (minus the 77,714 SF future expansion area)	Yes
Automobile Sales Standards EV3.0720(g)	1. Site area: 50,000 sq. ft. minimum 2. Site dimensions: 200' by 200' minimum 3. Parking: per code requirements for the use 4. Landscape: minimum 10.0% of the entire site, including entire street frontage.		Yes Yes Yes Yes

DEVELOPMENT STANDARD	REQUIREMENT	PROPOSED	COMPLIES?
	5. Architectural treatment: require high-quality architectural treatment 6. Service Areas & Facilities: shall be completely screened from view from public right-of-way, to include by use of walls, earth berms, landscaping, or a combination of these methods.		Yes **Yes - Conditions of Approval require additional screening.**
Corner Cutoff EV4.0125	• Street intersections – specified in EV4.0125(a) • 45 degree angle with side or front P/L. • Minimum 25 ft. deep for 45 degree angle. • No visual obstruction within corner cutoff area.	n/a	n/a
Refuse Areas EV4.0230	• Enclosed area & accessible to service vehicles. • 6 ft. high masonry wall on all sides. • Solid wood or metal doors. • Placed outside of front setback, and not between frontage street and bldg. line, or adjacent to or visible from freeways.	**CMU wall to match.**	**Yes – condition of approval**
Site Lighting EV4.0215	• Parking & driveway lighting: 0.5 foot-candle minimum uniform illumination. • Parking lot fixtures/poles: 30 ft. high maximum. • Lighting required for: pedestrian walkways & plazas; building entries, driveway entries, and parking areas' hazardous locations such as stairways & grade changes. • All light fixtures shall be concealed source fixtures. • Security lighting shall be shielded. • Exterior wall-mounted flood lights are prohibited. • Lighting of building faces is permitted. • Walkway fixtures: 12 ft. high maximum. • Prevent excessive light spillage over property lines. • All illuminated signs shall be internally lit.	Photometrics to be required in Plan Check (if project approved)	**Yes – condition of approval**
Site Utilities EV4.0220	• All utility appurtenances shall be placed behind the bldg. setback line where possible; and screened. • All Existing & New 12KV lines within project & along adjacent major arterials shall be underground. • Where possible, all overhead lines more than 12KV shall be along rear property line, away from major arterials. • All equipment for non-potable water shall be installed.	Required to be shown in plan check.	**Yes – condition of approval**

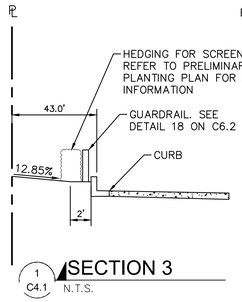
THE CONTRACTOR IS NOT AUTHORIZED TO USE THE ESTIMATES HEREIN FOR BIDDING AND CONSTRUCTION PURPOSES WITHOUT THE EXPLICIT WRITTEN PERMISSION OF THE ENGINEER OF RECORD. NO REPRESENTATIONS OF SUCH QUANTITIES OR A BALANCED SITE CONDITION ARE MADE BY THE ENGINEER OF RECORD. UNLESS EXPLICITLY STATED OTHERWISE HEREIN, THE ABOVE QUANTITIES ARE APPROXIMATE, IN PLACE VOLUMES CALCULATED FROM THE EXISTING GROUND TO THE PROPOSED FINISHED GRADE. EXISTING GROUND IS DEFINED BY THE CONTOURS AND SPOT GRADES ON THE BASE SURVEY. PROPOSED FINISHED GRADE IS DEFINED AS THE FINAL GRADE AS INDICATED ON THE GRADING PLAN(S) AS FINISHED GROUND, FINISHED SURFACE, AND FINISHED FLOOR ELEVATIONS.

UNLESS EXPLICITLY STATED OTHERWISE HEREIN, THE ABOVE GRADING QUANTITIES HAVE NOT BEEN FACTORED TO ACCOUNT FOR CHANGES IN VOLUME DUE TO BULKING, CLEARING AND GRUBBING, SHRINKAGE, SUBSIDENCE, OVER-EXCAVATION AND RE-COMPACTION, AND CONSTRUCTION METHODS. NOR DO THEY ACCOUNT FOR THE THICKNESS OF PAVEMENT SECTIONS, STORMWATER QUALITY MEDIA SECTIONS, UTILITY PIPES, TRENCHING AND BEDDING MATERIALS, BUILDING OR WALL FOOTINGS, BUILDING SLAB THICKNESSES AND UNDERLYING BASE OR SAND LAYERS, REUSE OF PULVERIZED MATERIALS THAT WILL UNDERLIE NEW PAVEMENTS, ETC.



ANY OVEREXCAVATION AND RECOMPACTION DEPTHS AND VOLUMES, SHRINKAGE FACTORS, PAVEMENT SECTIONS, BUILDING PAD SECTIONS, AND BULKING FACTORS ARE BASED ON A SEPARATE GEOTECHNICAL REPORT. ANY BUILDING SLAB THICKNESSES ARE BASED ON THE SEPARATE BUILDING STRUCTURAL ENGINEERING PLANS. ANY UTILITY, STORMWATER MITIGATION, AND FOOTING SPOILS ARE BASED ON ESTIMATES PROVIDED BY THE OWNER OR CONTRACTOR.

TRAFFIC STUDY
FOR THE PROPOSED
USED AUTO SALES AND SERVICE FACILITY PROJECT
IN THE CITY OF REDLANDS

EXECUTIVE SUMMARY

This traffic study has been prepared to address the traffic-related effects of the proposed Used Auto Sales and Service Facility project in the City of Redlands. This traffic study has been conducted in accordance with the City of Redlands traffic study requirements, including Measure "U", and in accordance with the San Bernardino Association of Governments (SANBAG) Congestion Management Program (CMP) requirements.

In accordance with the traffic study requirements of the City of Redlands, the project will be evaluated in the morning and evening peak hours for the following conditions:

- Existing Conditions
- Existing Conditions Plus Project

Existing traffic volumes for the study intersections were collected in June 2023, while school was in session. Under Existing Conditions, all study intersections currently operate at an acceptable Level of Service during the morning and evening peak hours.

The project is estimated to generate approximately 552 trips on a daily basis, with 15 trips in the morning peak hour and 27 trips in the evening peak hour.

Project-related traffic volumes were added to existing volumes to establish the conditions for the Existing Conditions Plus Project scenario. With the addition of project traffic to existing volumes, all study intersections would continue to operate at an acceptable Level of Service.

Vehicular access provisions for the project site would be provided via one unsignalized full-movement driveway at the intersection of New York Street and Brockton Avenue.

Based on review of the VMT screening criteria, the proposed project meets the Project Type Screening thresholds. Therefore, the project would result in a less-than-significant transportation impact, and no additional VMT analysis is required for the proposed project.

TRAFFIC STUDY
FOR THE PROPOSED
USED AUTO SALES AND SERVICE FACILITY PROJECT
IN THE CITY OF REDLANDS

INTRODUCTION

Purpose and Study Objectives

This traffic study has been prepared to address the traffic-related effects of the proposed Used Auto Sales and Service Facility project in the City of Redlands. This traffic study has been conducted in accordance with the City of Redlands traffic study requirements, including Measure "U", and in accordance with the San Bernardino Association of Governments (SANBAG) Congestion Management Program (CMP) requirements.

This report includes a description of existing traffic conditions in the surrounding area, estimated project trip generation and distribution, and an assessment of project-related effects on the roadway system. Where necessary, circulation system improvements have been identified to address the project's effect at the study locations.

Project Overview

The project site is located in the northwestern region of the City of Redlands, west of the intersection of New York Street and Brockton Avenue. The project site is currently vacant and is shown in its regional setting on Figure 1.

The applicant proposes to develop a Used Auto Sales and Service Facility with an approximately 7,098 square-foot (SF) sales area for Used Automobile sales and an approximately 42,393 SF building area for the Production portion of the project, for a total building square footage of 49,491 SF for the proposed project. It should be noted that the Production portion of the project has separate operations from the Used Automobile sales area of the project. The proposed site plan is shown on Figure 2.

Regional access to the project is provided by the State Route 210 (SR-210) and Interstate 10 (I-10) freeway systems. Vehicular access provisions for the project site would be provided via one unsignalized full-movement driveway at the intersection of New York Street and Brockton Avenue.

NOT TO SCALE

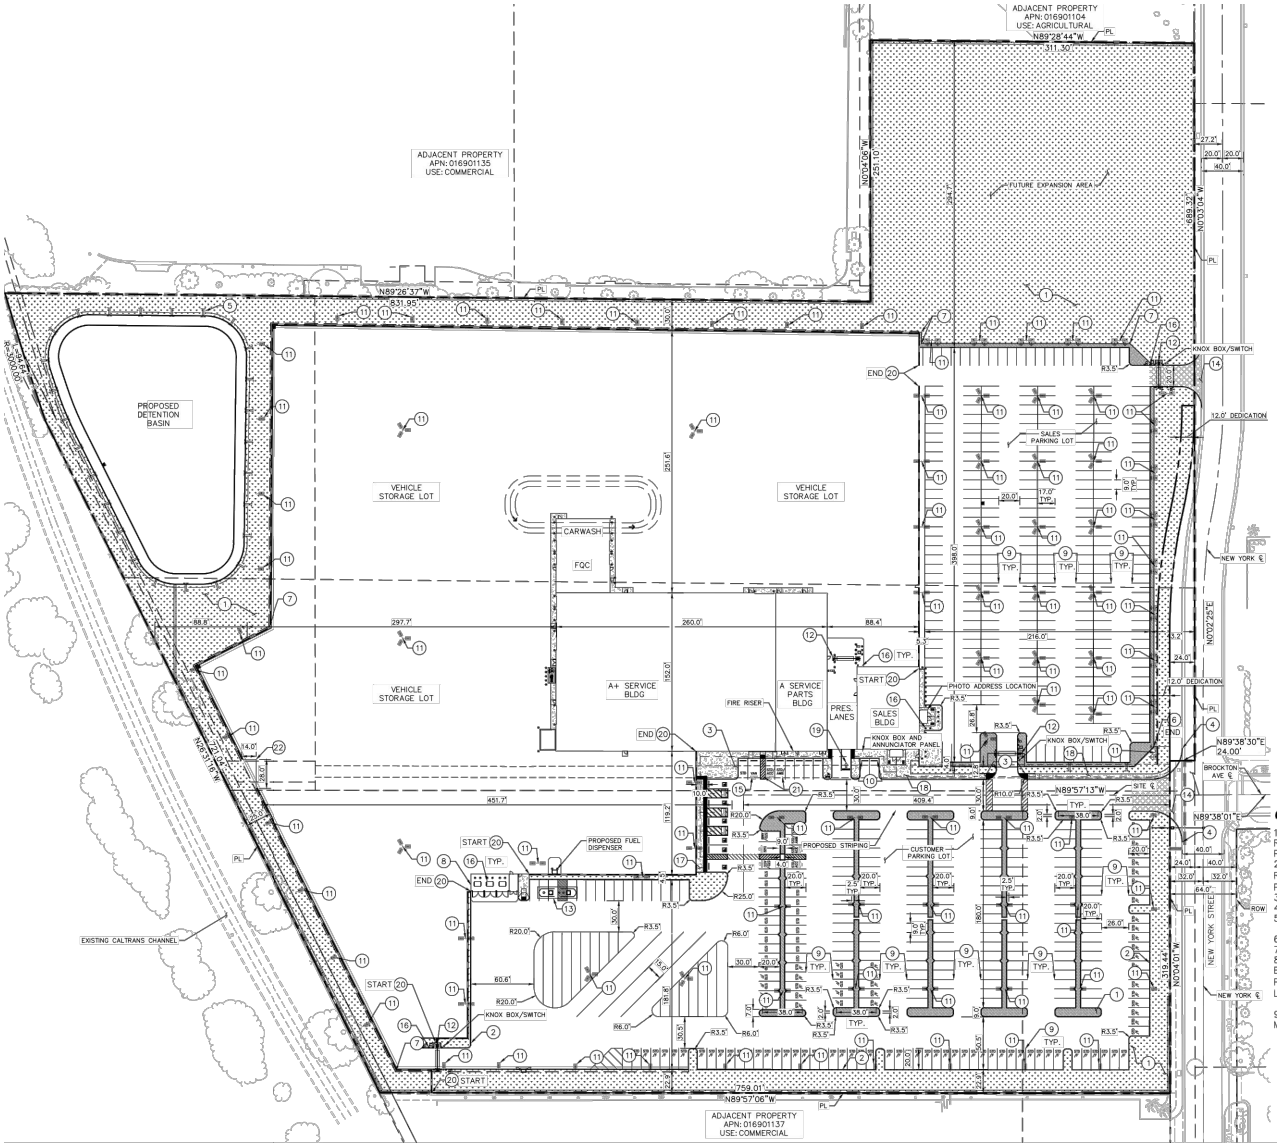

FIGURE 2
PROJECT SITE PLAN

ANALYSIS SCENARIOS AND METHODOLOGY

The analysis scenarios and methodology were established in consultation with City of Redlands staff through the Scoping Agreement process. A copy of the approved Scoping Agreement is provided in *Appendix A*.

Analysis Scenarios

In accordance with the traffic study requirements of the City of Redlands, the project will be evaluated in the morning and evening peak hours for the following conditions:

- Existing Conditions
- Existing Conditions Plus Project

Intersection Analysis – HCM Methodology

Peak hour intersection operations at the study intersections were evaluated using the methods prescribed in the Highway Capacity Manual 7th Edition (HCM), consistent with the traffic study requirements of the City of Redlands. The intersection analysis was conducted using the Vistro software program and using the input parameters specified in the San Bernardino County CMP.

For signalized intersections, the HCM methodology estimates the average delay (in average seconds per vehicle) for each of the movements through the intersection, considering a number of factors, including the number of lanes, volume of traffic, and the signal timing phasing.

For unsignalized intersections, the HCM methodology analysis determines the average total delay for each vehicle making any movement from the stop-controlled minor street, as well as left turns from the major street. Delay values are calculated based on the relationship between traffic on the major street and the availability of acceptable gaps in the traffic stream through which conflicting traffic movements can be made.

The HCM delay forecast translates to a Level of Service (LOS) designation, ranging from LOS A to LOS F. A summary of each LOS and the corresponding delay is provided in the following charts:

LEVEL OF SERVICE DEFINITIONS	
Level of Service	Description
A	No approach phase is fully utilized by traffic and no vehicle waits longer than one red indication. Typically, the approach appears quite open, turns are made easily and nearly all drivers find freedom of operation.
B	This service level represents stable operation, where an occasional approach phase is fully utilized, and a substantial number are approaching full use. Many drivers begin to feel restricted within platoons of vehicles.
C	This level still represents stable operating conditions. Occasionally drivers may have to wait through more than one red signal indication, and backups may develop behind turning vehicles. Most drivers feel somewhat restricted but not objectionably so.
D	This level encompasses a zone of increasing restriction, approaching instability at the intersection. Delays to approaching vehicles may be substantial during short peaks within the peak period; however, enough cycles with lower demand occur to permit periodic clearance of developing queues, thus preventing excessive backups.
E	Capacity occurs at the upper end of this service level. It represents the most vehicles that any particular intersection approach can accommodate. Full utilization of every signal cycle is seldom attained no matter how great the demand.
F	This level describes forced flow operations at low speeds, where volumes exceed capacity. These conditions usually result from queues of vehicles backing up from a restriction downstream. Speeds are reduced substantially, and stoppages may occur for short or long periods of time due to the congestion. In the extreme case, both speed and volume can drop to zero.

LEVEL OF SERVICE CRITERIA FOR SIGNALIZED AND UNSIGNALIZED INTERSECTIONS		
Level of Service	Signalized Intersection (Average delay per vehicle, in seconds) [1]	Unsignalized Intersections (Average delay per vehicle, in seconds) [2]
A	≤ 10	0 – 10
B	> 10 – 20	> 10 – 15
C	> 20 – 35	> 15 – 25
D	> 35 – 55	> 25 – 35
E	> 55 – 80	> 35 – 50
F	> 80	> 50

[2] Source: Highway Capacity Manual (HCM 7th Edition), Exhibit 20-2.

Level of Service Standards and Measure of Significance

The City of Redlands Measure "U" establishes minimum Level of Service standards, which require that City intersections be maintained at LOS C or better during the morning and evening peak hours.

Traffic effects at an intersection are considered to be significant if the addition of project traffic causes an intersection to operate deficiently (LOS D, E, or F). According to Measure "U", "…any location where the level of service is below LOS C at the time an application is submitted, mitigation shall be imposed on that development project to assure, at a minimum, that the level of traffic service is maintained at levels of service that are no worse than those existing at the time of application for development is filed, except as provided in Section 5.20b."

New development is required to offset effects where the project results in a significant effect according to the City of Redland's Measure "U" requirements, as shown above. The Level of Service with improvements must be improved to offset the project's effect.

STUDY AREA

This traffic study includes documentation of existing conditions, analysis of future traffic conditions, and identification of project-related effects at the following study intersections:

Intersections:

1. Lugonia Avenue at Tennessee Street
2. Lugonia Avenue at New York Street
3. I-10 WB Ramps at Tennessee Street
4. I-10 EB Ramps at Tennessee Street
5. Colton Avenue at Tennessee Street
6. Colton Avenue at New York Street
7. New York Street at Project Driveway/Brockton Avenue

The study locations were established in consultation with City staff through the Scoping Agreement process. A copy of the approved Scoping Agreement is provided in *Appendix A*.

AREA CONDITIONS

Existing Street System

Regional access to the site is provided by the State Route 210 (SR-210) Freeway, located just west of the project site, and the Interstate 10 (I-10) Freeway, located just south of the project site.

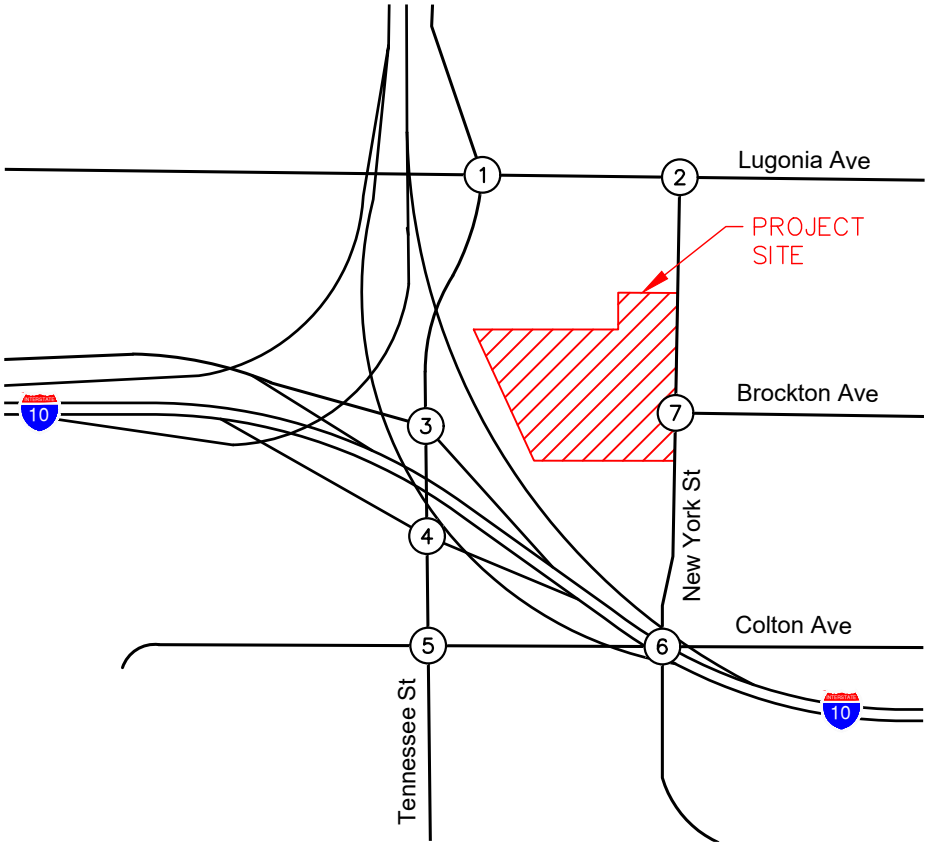
Existing lane configurations and intersection controls at the study intersections are shown on Figure 3. A copy of the City of Redlands General Plan Roadway Classification Map is provided on Figure 4. The following provides a description of the roadways surrounding the project site.

Tennessee Street is an undivided north-south roadway with one lane in each direction north of Lugonia Avenue and two lanes in each direction south of Lugonia Avenue within the project vicinity. The posted speed limit is 40 miles per hour (mph) and on-street parking is prohibited on both sides. Tennessee Street is designated as a Collector Street from Lugonia Avenue to the I-10 Freeway and a Minor Arterial south of the I-10 Freeway in the City of Redlands General Plan.

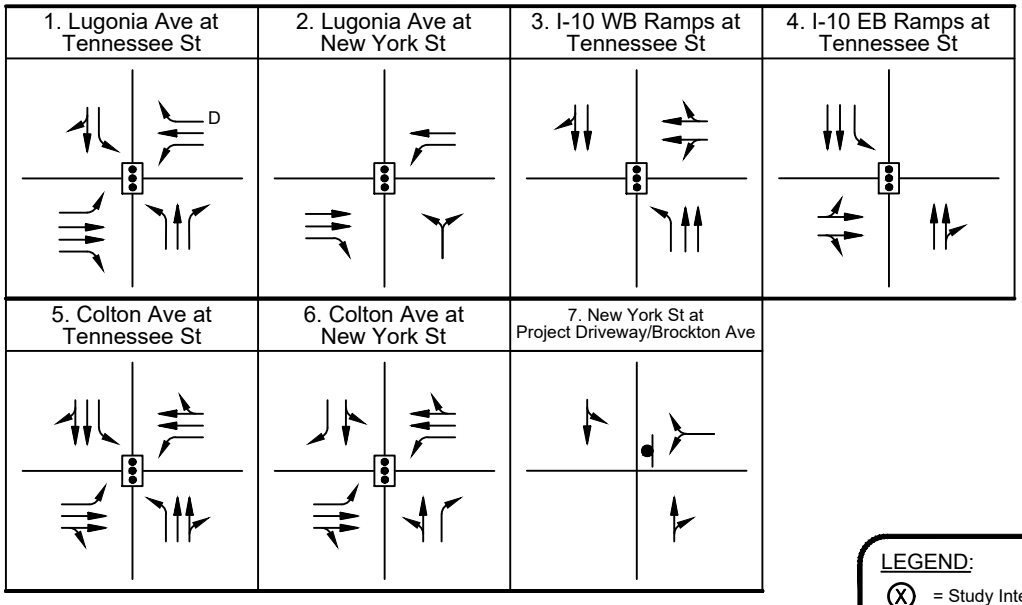
New York Street is an undivided north-south roadway with one lane in each direction within the project vicinity. The posted speed limit is 40 mph and on-street parking is prohibited on both sides. New York Street is designated as a Collector Street in the City of Redlands General Plan.

Lugonia Avenue is a divided east-west roadway with two lanes in the eastbound direction, one lane in the westbound direction, and a painted center median within the project vicinity. The posted speed limit is 45 mph and on-street parking is prohibited on both sides. Lugonia Avenue is designated as a Major Arterial from the SR-210 Freeway to Orange Street in the City of Redlands General Plan.

Brockton Avenue is an undivided east-west roadway with one lane in each direction within the project vicinity. The posted speed limit is 35 mph and on-street parking is permitted on both sides. Brockton Avenue is designated as a Local Road in the City of Redlands General Plan.



Colton Avenue is a divided east-west roadway with one to two lanes in each direction and a painted center median within the project vicinity. The posted speed limit is 35 mph and on-street parking is prohibited on both sides. Colton Avenue is designated as a Boulevard west of 6th Street and as a Minor Arterial east of 6th Street in the City of Redlands General Plan.



Existing Transit Service

Transit service within the project area is provided by OmniTrans, which serves the City of Redlands and surrounding cities. The OmniTrans bus stop closest to the project site is located on the south side of Lugonia Avenue, approximately 900 feet west of the intersection of Lugonia Avenue at New York Street.

A description of the bus route serving the project area is provided below.

OmniTrans Route 15 operates within the communities of Redlands and Fontana, traveling along Lugonia Avenue. Route 15 operates on weekdays from approximately 4:05 AM to 10:15 PM with approximately 60-minute headways (the time between bus arrivals), and on weekends from approximately 5:45 AM to 7:15 PM with approximately 60-minute headways.

FIGURE 3
EXISTING LANE CONFIGURATION AND TRAFFIC CONTROL

NOT TO SCALE

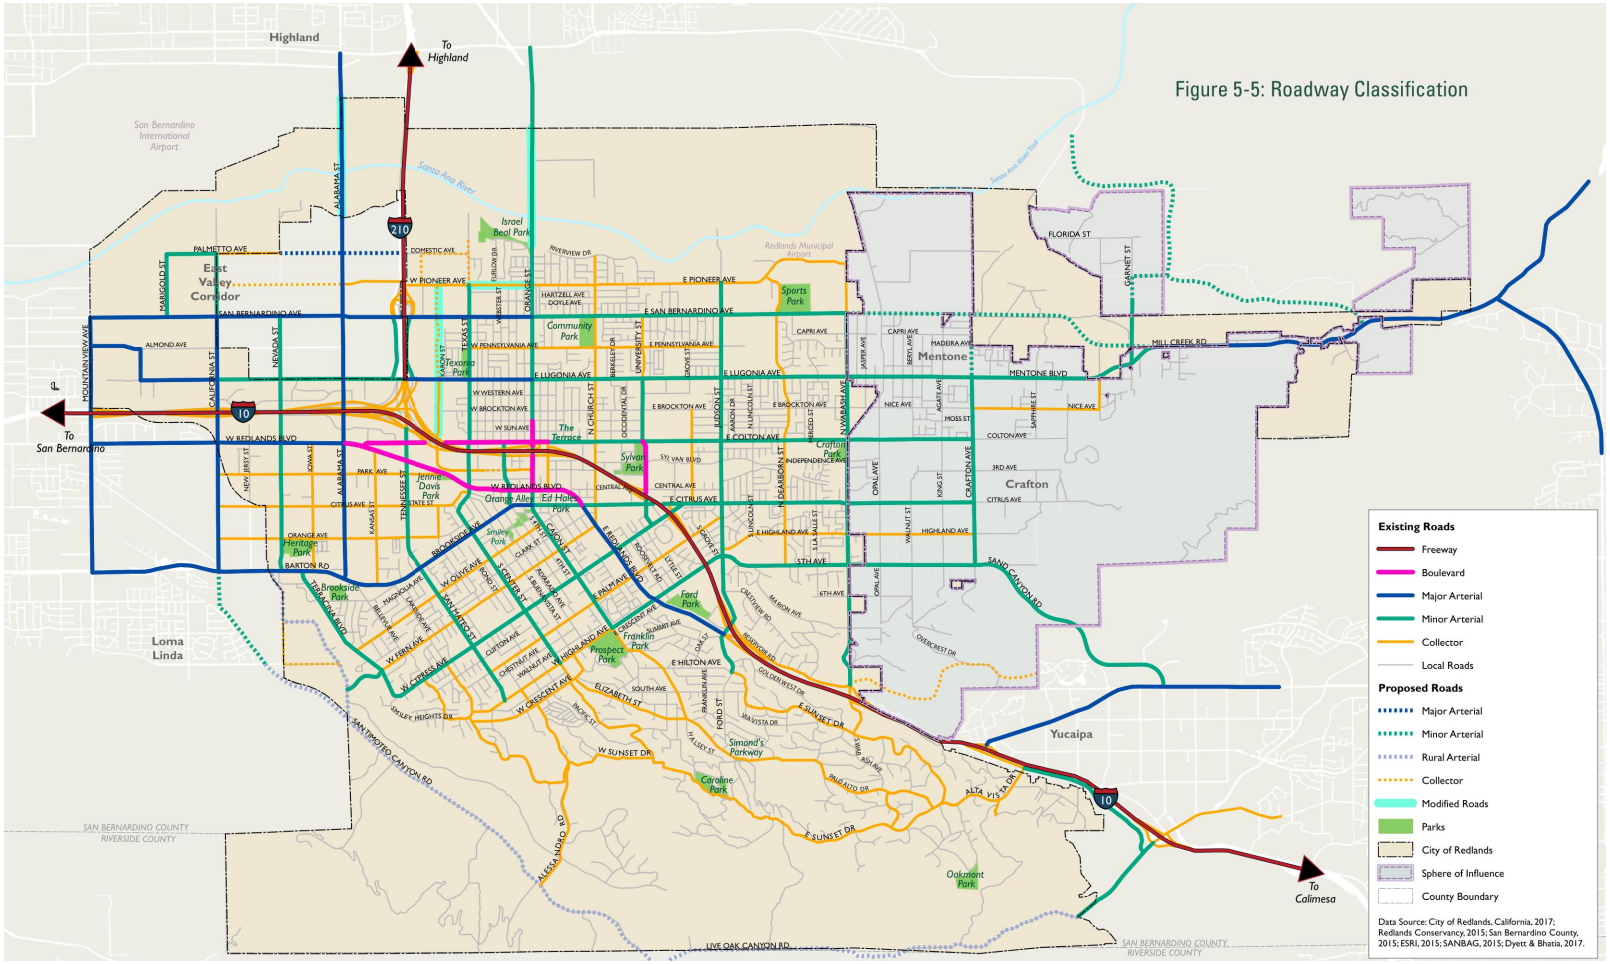

FIGURE 4
CITY OF REDLANDS ROADWAY CLASSIFICATION MAP

Existing Traffic Volumes

Existing morning peak hour and evening peak hour turning movement volumes were collected in June 2023, while school was in session, and are presented on Figure 5. Peak hour intersection traffic count worksheets are provided in *Appendix B*.

Peak Hour Operating Conditions

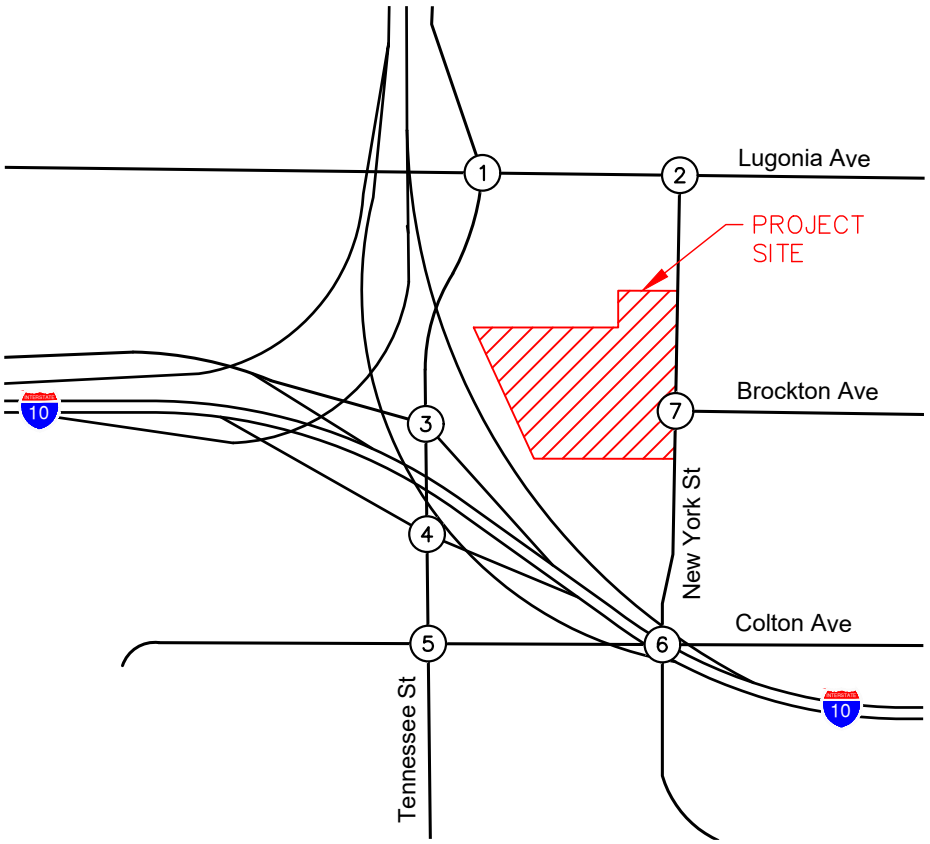
Intersection Level of Service analysis was conducted for the morning and evening peak hours using the analysis procedures and assumptions described previously in this report. Intersection analysis worksheets are provided in *Appendix C*. The results of the intersection analysis for Existing Conditions are shown on Table 1.

Review of this table indicates that all study intersections currently operate at an acceptable Level of Service during the morning and evening peak hours.

PROJECT TRAFFIC

Project Trip Generation

Trip generation estimates have been broken down into the following two categories based on the various uses proposed on-site by the applicant:



- Automobile Sales (Used)
    - ITE Trip Generation Manual (11th Edition)
- Production
    - Based on employee information provided by the applicant

Automobile Sales (Used) Trips

Trip generation estimates for the Automobile Sales (Used) portion of the project are based on the Institute of Transportation Engineers (ITE) Trip Generation Manual (11th Edition) trip rates for Automobile Sales (Used) (ITE Land Use 841).

The trip generation rates, and the resulting trip generation for the Automobile Sales (Used) portion of the project are shown on Table 2. The Automobile Sales (Used) portion of the proposed project is estimated to generate 192 total daily trips, with 15 total trips (11 inbound and 4 outbound) in the morning peak hour and 27 total trips (13 inbound and 14 outbound) in the evening peak hour.

Total Project Trips			552	11	4	15	13	14	27

[1] Source: Institute of Transportation Engineers (ITE) Trip Generation Manual, 11th Edition

[2] Trip estimates for the production portion of the proposed project are based on employee and truck information provided by the applicant . There is anticipated to be approximately 170 total production employees over 2 shifts (7am to 3pm; 3pm to 11pm) on a daily basis. It should be noted that employees would arrive and exit their shifts during non-peak hours of adjacent street traffic. As a result, the production portion of the project site does not generate additional peak hour traffic. The daily trips has been adjusted to account for the employee trips for the production portion of the project site. The production portion of the project is anticipated to generate approximately 10 car carrier trucks per day to the project site (20 total truck trips). The truck trips have been incorporated into the total daily trips.

Production Trips

As noted earlier in the report, the Production portion of the project has separate operations from the Used Automobile sales area of the project. As such, the trip generation estimates for the Production portion of the proposed project were based on employee and truck information provided by the applicant, which is provided in *Appendix E*. There is anticipated to be approximately 170 total production employees over two (2) shifts (7am to 3pm; 3pm to 11pm). It should be noted that employees for the Production portion of the project would arrive and exit their shifts during non-peak hours of adjacent street traffic. As a result, the Production portion of the project site does not generate additional peak hour traffic. On a typical weekday, the Production portion of the project is anticipated to generate approximately 10 car carrier trucks per day to the project site.

Based on the information noted above, the Production portion of the proposed project is estimated to generate approximately 360 total daily trips, with no trips during the morning and evening commute peak hours of adjacent street traffic.

Total Project Trips

The trip generation rates, and the resulting trip generation for the proposed project are shown on Table 2 (previously mentioned). The proposed project is estimated to generate approximately 552 total daily trips[1], with 15 total trips (11 inbound and 4 outbound) in the morning peak hour and 27 total trips (13 inbound and 14 outbound) in the evening peak hour.

Trip Distribution and Assignment

Trip distribution assumptions for the project were developed taking into account the proposed site use, likely origins and destinations of employees and customers, and existing traffic patterns on the surrounding street system. Trip distribution assumptions are shown on Figure 6.

Trip distribution percentages at each study intersection were applied to the project trip generation to determine the project trips through each intersection. The resulting project-related peak hour trips are shown on Figure 7.

[1] It should be noted that other environmental technical studies (i.e. Greenhouse Gas, etc.) for the proposed project assumed up to 715 daily trips as a worst-case scenario for the respective analyses.

FIGURE 7
PROJECT-RELATED
TRAFFIC VOLUMES

EXISTING CONDITIONS PLUS PROJECT

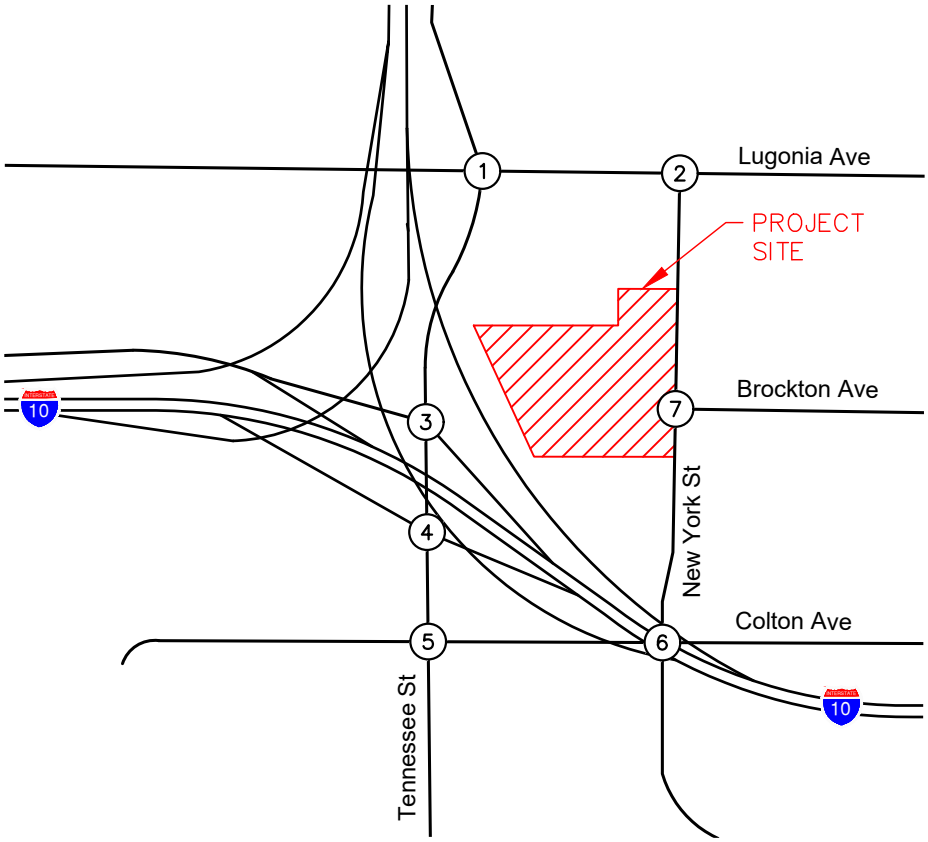
Project-related traffic was added to the Existing Conditions traffic volumes, and the resulting morning and evening peak hour volumes are presented on Figure 8.

Peak Hour Operating Conditions

Intersection Level of Service analysis was conducted for the morning and evening peak hours for the Existing Conditions Plus Project. Intersection analysis worksheets are provided in *Appendix C*. The results of the intersection analysis for Existing Conditions Plus Project are shown on Table 3.

Review of this table indicates that all study intersections would continue to operate at an acceptable Level of Service during the morning and evening peak hours.

It should be noted that other recent traffic studies for nearby projects (Neighborhoods at Lugonia Village; 1005 West Lugonia Commercial) yielded different intersection delay and Level of Service values than those noted in this Traffic Study at the intersections of Tennessee Street at Lugonia Avenue (#1) and Tennessee Street at the I-10 Ramps (#3 and #4). There are many variables that can affect the overall intersection delay value at a study intersection, such as turning movement volumes, peak hour factors, lane geometries, and signal timing parameters. Based on review of the results from the other traffic studies and the Traffic Study for the proposed project, while there is variability in the assumptions noted above, each traffic analysis was conducted in line with general traffic engineering principles and consistent with the City of Redlands traffic study requirements and the parameters noted in the San Bernardino County Congestion Management Program (CMP).



It should be noted that in the other traffic studies (Neighborhoods at Lugonia Village; 1005 West Lugonia Commercial), no improvements were recommended at the intersection of Tennessee Street at Lugonia Avenue (#1) since the addition of project traffic would not degrade the Level of Service to a lower Level of Service (LOS E or F), compared to the existing Level of Service (LOS D), consistent with the City of Redlands traffic analysis requirements. Also, no improvements were recommended at the intersections of Tennessee Street at I-10 Ramps since the intersections would operate at an acceptable Level of Service (LOS D or better for Caltrans intersections).

RECOMMENDED IMPROVEMENTS

Based on the City of Redland's Measure "U" requirements discussed previously, no improvements are required for the proposed project.

SITE ACCESS AND CIRCULATION

Vehicular access provisions for the project site would be provided via one unsignalized full-movement driveway at the intersection of New York Street and Brockton Avenue. A copy of the project site plan with truck turning templates on-site and at the project driveway are provided in *Appendix D*.

Notes:
- **Bold** values indicate intersections operating at an unacceptable Level of Service
- Delay values for unsignalized intersections represent the average vehicle delay on the worst (highest delay) intersection approach.

S = Signalized; U = Unsignalized

VEHICLE MILES TRAVELED (VMT) ANALYSIS

Senate Bill 743 (SB 743) was approved by California legislature in September 2013. SB 743 requires changes to California Environmental Quality Act (CEQA), specifically directing the Governor's Office of Planning and Research (OPR) to develop alternative metrics to the use of vehicular "Level of Service" (LOS) for evaluating transportation projects. OPR has prepared a technical advisory ("OPR Technical Advisory") for evaluating transportation impacts in CEQA and has recommended that Vehicle Miles Traveled (VMT) replace LOS as the primary measure of transportation impacts. The Natural Resources Agency has adopted updates to CEQA Guidelines to incorporate SB 743 that requires VMT for the purposes of determining a significant transportation impact under CEQA.

The City of Redlands *CEQA Assessment VMT Analysis Guidelines* (VMT Guidelines) provide details on appropriate screening thresholds that can be used to identify when a proposed land use project is anticipated to result in a less-than-significant impact without conducting a more detailed level analysis. Screening thresholds are broken into the following three steps:

1. Transit Priority Area (TPA) Screening
2. Low VMT Area Screening
3. Project Type Screening

Land development projects that meet one or more of the above screening thresholds may be presumed to create a less-than-significant impact on transportation and circulation. The screening thresholds were reviewed and evaluated for this project.

Transit Priority Area (TPA) Screening

Projects located within a TPA may be presumed to have a less-than-significant impact. A TPA is defined as a half-mile area around an existing major transit stop of an existing stop along a high-quality transit corridor. 'Major transit stop' means a site containing an existing rail station, a ferry terminal served by either a bus or rail transit service, or the intersection of two or more major bus routes with a frequency of service interval of 15 minutes or less during the morning and evening peak commute periods. A 'high-quality transit corridor' means a corridor with a fixed route bus service with service intervals no longer than 15 minutes during the peak commute hours.

The City of Redlands VMT Guidelines also notes that the TPA screening may not be appropriate for a project if the project:

- Has a Floor Area Ratio (FAR) of less than 0.75
- Includes more parking for use by residents, customers, or employees of the project more than required by the jurisdiction
- Is inconsistent with the applicable Sustainable Communities Strategy
- Replaces affordable residential units with a smaller number of moderate- or high-income residential units.

Based on the San Bernardino County Transportation Authority (SBCTA) VMT Screening Tool (see the Approved Scoping Agreement in *Appendix A*), the project is located within a TPA. However, based on discussion with City staff, because the project has a FAR of less than 0.75 and includes more parking than required by the jurisdiction, the TPA screening would not apply to this project.

The TPA Screening criteria is not met.

Low VMT Area Screening

Projects located within a low VMT generating area (VMT per worker, 15% below County baseline) may be presumed to have a less-than-significant impact. Based on the SBCTA VMT Screening Tool, the project is not located in a Low VMT Area. The results of the SBCTA VMT Screening Tool are provided in the Approved Scoping Agreement in *Appendix A*.

The Low VMT Area Screening criteria is not met.

Project Type Screening

Projects which serve the local community and have the potential to reduce VMT should not be required to complete a VMT assessment. These local-serving projects include:

- Local-serving retail less than 50,000 SF
- K-12 schools
- Local parks
- Day care centers
- Local serving gas station
- Local serving banks
- Local-serving hotels
- Student housing projects
- Local serving community colleges

Projects which generate less than 3,000 MT CO2e per year can be presumed to have a less-than-significant impact on VMT. Projects which generate less than 3,000 MT CO2e per year include the following:

- Single family residential – 167 dwelling units or fewer
- Multi-family (low-rise) – 232 dwelling units or fewer
- Multi-family (mid-rise) – 299 dwelling units or fewer
- Office – 59,100 SF or less
- Local Serving Retail – 112,400 square feet or less
- Warehousing – 463,600 SF or less
- Light Industrial – 74,600 SF or less

Additional detail is provided in Attachment 1 (*Substantial Evidence for Trip-Based Screening Threshold)* of the City of Redlands *CEQA Assessment VMT Analysis Guidelines.*

The proposed Used Auto Sales and Service Facility project is intended to serve the local community. The nearest CarMax locations in the Redlands/Calimesa/Beaumont area (along the I-10 freeway) is approximately 20 to 30 miles away to the west in the City of Riverside (7980 Auto Drive) and even farther way to the east in the City of Palm Desert (73450 Dinah Shore Drive). With the proposed project location in the City of Redlands, residents and employees in the Redlands/Calimesa/Beaumont area would not need to travel as far to work or receive the services that the proposed project can provide. As a result, the overall VMT in the noted area would be reduced by providing a retail project that is local serving in nature. As such, the proposed project meets the intent of SB 743 and reducing VMT by providing a local-serving use.

With regards to the less than 3,000 MT CO2e per year threshold noted in this Project Type screening, a *Greenhouse Gas Emissions Assessment* (GHG Assessment, May 2023) was prepared for the proposed project. The GHG Assessment assumed up to 715 daily trips for the proposed project as a worst-case scenario. Based on the GHG Assessment, the proposed project would generate less than 3,000 MT CO2e per year (2,823.70 MT CO2e per year). Therefore, the proposed project can be presumed to have a less-than-significant impact on VMT and would meet the Project Type Screening criteria.

The Project Type Screening criteria is met.

Based on review of the VMT screening criteria, the project meets the Project Type Screening thresholds. Therefore, the project would result in a less-than-significant transportation impact, and no additional VMT analysis is required for the proposed project.

APPENDIX A

APPROVED SCOPING AGREEMENT

Subject: RE: Traffic Scoping Letter - Proposed CarMax Project - City of Redlands

Good afternoon CarMax Team,

MUED has accepted your scoping letter. Please proceed with the study.

In addition, Planning is in receipt of the Data Needs response provided by your team and has routed it to the consultant for their use.

Sincerely,

Ryan Murphy
Senior Planner
City of Redlands

Hi Ryan and Don,

I just want to follow-up on the below email regarding the **updated Traffic Scoping Letter** with accompanying **Response to Comment (R2C) matrix** (see both attached) for the proposed **CarMax project** in the **City of Redlands**.

Let me know if you have any questions or comments. If no further comments on the Traffic Scoping Letter, please send email approval or a signed Traffic Scoping Letter for our records.

Thanks!

RE: ***Scoping Letter Agreement for Traffic Study for the Proposed CarMax Project in the City of Redlands***

Dear Mr. Young:

Kimley-Horn and Associates, Inc. is submitting this Scoping Letter Agreement to the City of Redlands to provide a Traffic Study for the proposed CarMax project in the City of Redlands. The proposed scope for the Traffic Study is presented below.

PROJECT DESCRIPTION

The project site is located on the west side of the intersection of New York Street and Brockton Avenue. The site is currently an 18.63-acre vacant lot. The applicant proposes to develop a CarMax dealership with 7,098 square-foot sales area for Used Automobile sales. A copy of the project site plan is provided on **Attachment 1**.

Vehicular access provisions for the project site would be provided via one full-movement driveway at the unsignalized intersection of New York Street and Brockton Avenue. The proposed opening year for the project is Year 2025. The project will be developed in a single project phase.

SCOPE OF TRAFFIC STUDY

This scope is based on the City of Redlands traffic study requirements, including Measure "U", the City of Redlands *CEQA Assessment VMT Analysis Guidelines* and in accordance with the San Bernardino County Association of Governments (SANBAG) Congestion Management Program (CMP) requirements.

The following two traffic assessments will be evaluated for the proposed project: 1.) a VMT analysis for compliance with CEQA and 2.) a LOS analysis for compliance with Measure "U."

Trip Generation

Trip generation estimates for the automobile sales (used) area are based on the Institute of Transportation Engineers (ITE) Trip Generation Manual (11th Edition) trip rates for Automobile Sales (Used) (ITE Land Use 841).

The trip generation rates and the resulting trip generation estimates for the proposed project are summarized on **Attachment 2**. Based on Attachment 2, the proposed project (7,098 SF of Automobile Sales area) is estimated to generate 192 total daily trips, with 15 total trips (11 inbound and 4 outbound) in the morning peak hour and 27 total trips (13 inbound and 14 outbound) in the evening peak hour.

Trip Distribution

Project distribution assumptions were developed based on existing travel patterns, and the likely origins and destinations of site employees and patrons. Trip distribution assumptions are shown on **Attachment 3.**

Suggested Study Area

The following is a list of study intersections to be included in the study, as shown on Attachment 3 (previously mentioned).

Intersections:

1. Lugonia Avenue at Tennessee Street
2. Lugonia Avenue at New York Street
3. I-10 WB Ramps at Tennessee Street
4. I-10 EB Ramps at Tennessee Street
5. Colton Avenue at Tennessee Street
6. Colton Avenue at New York Street
7. Project Driveway/Brockton Avenue at New York Street

The study intersection will be analyzed using the Highway Capacity Manual (HCM) methodology. The intersection analysis for the traffic study will be accomplished using the Vistro software program.

Level of Service (LOS) standards for the traffic study will be in accordance with Measure "U" in the City of Redlands.

Study Scenarios

- Existing Conditions
- Existing Conditions Plus Project

VEHICLE MILES TRAVELED (VMT) ANALYSIS

The City of Redlands *CEQA Assessment VMT Analysis Guidelines* provide details on appropriate screening thresholds that can be used to identify when a proposed land use project is anticipated to result in a less-than-significant impact without conducting a more detailed level analysis. Screening thresholds are broken into the following three steps:

1. Transit Priority Area (TPA) Screening
2. Low VMT Area Screening
3. Project Type Screening

Transit Priority Area (TPA) Screening

Projects located within a TPA may be presumed to have a less-than-significant impact. A TPA is defined as a half-mile area around an existing major transit stop of an existing stop along a high-quality transit corridor. 'Major transit stop' means a site containing an existing rail station, a ferry terminal served by either a bus or rail transit service, or the intersection of two or more major bus routes with a frequency of service interval of 15 minutes or less during the morning and evening peak commute periods. A 'high-quality transit corridor' means a corridor with a fixed route bus service with service intervals no longer than 15 minutes during the peak commute hours.

Based on the San Bernardino County Transportation Authority (SBCTA) VMT Screening Tool (see **Attachment 4**), the project is located within a TPA.

The TPA Screening criteria is met.

Low VMT Area Screening

Projects located within a low VMT generating area (VMT per worker, 15% below County baseline) may be presumed to have a less-than-significant impact. Based on the SBCTA VMT Screening Tool, the project is not located in a Low VMT Area. The results of the SBCTA VMT Screening Tool are provided in Attachment 4 (previously mentioned).

The Low VMT Area Screening criteria is not met.

Project Type Screening

Projects which serve the local community and have the potential to reduce VMT should not be required to complete a VMT assessment. These local-serving projects include:

- Local-serving retail less than 50,000 SF
- K-12 schools
- Local parks
- Day care centers
- Local serving gas station
- Local serving banks
- Local-serving hotels
- Student housing projects
- Local serving community colleges

Projects which generate less than 3,000 MT CO2e per year can be presumed to have a less-than-significant impact on VMT. Projects which generate less than 3,000 MT CO2e per year include the following:

- Single family residential 0 167 dwelling units or fewer
- Multi-family (low-rise) – 232 dwelling units or fewer
- Multi-family (mid-rise) – 299 dwelling units or fewer
- Office – 59,100 SF or less
- Local Serving Retail – 112,400 square feet or less
- Warehousing – 463,600 SF or less
- Light Industrial – 74,600 SF or less

Additional detail is provided in Attachment 1 (*Substantial Evidence for Trip-Based Screening Threshold)* of the City of Redlands *CEQA Assessment VMT Analysis Guidelines.*

The proposed CarMax used car dealership is intended to serve the local community. In addition, per Attachment 1 of the City of Redlands *CEQA Assessment VMT Analysis Guidelines,* based on the proposed use and estimated daily trips for the project, the proposed project would generate less than 3,000 MT CO2e per year. As a result, the proposed project can be presumed to have a less-than-significant VMT impact and would meet the Project Type Screening criteria.

The Project Type Screening criteria is met.

Based on review of the VMT screening criteria, the project meets the TPA and Project Type screening thresholds. Therefore, the project would result in a less-than-significant transportation impact, and no additional VMT analysis is required.

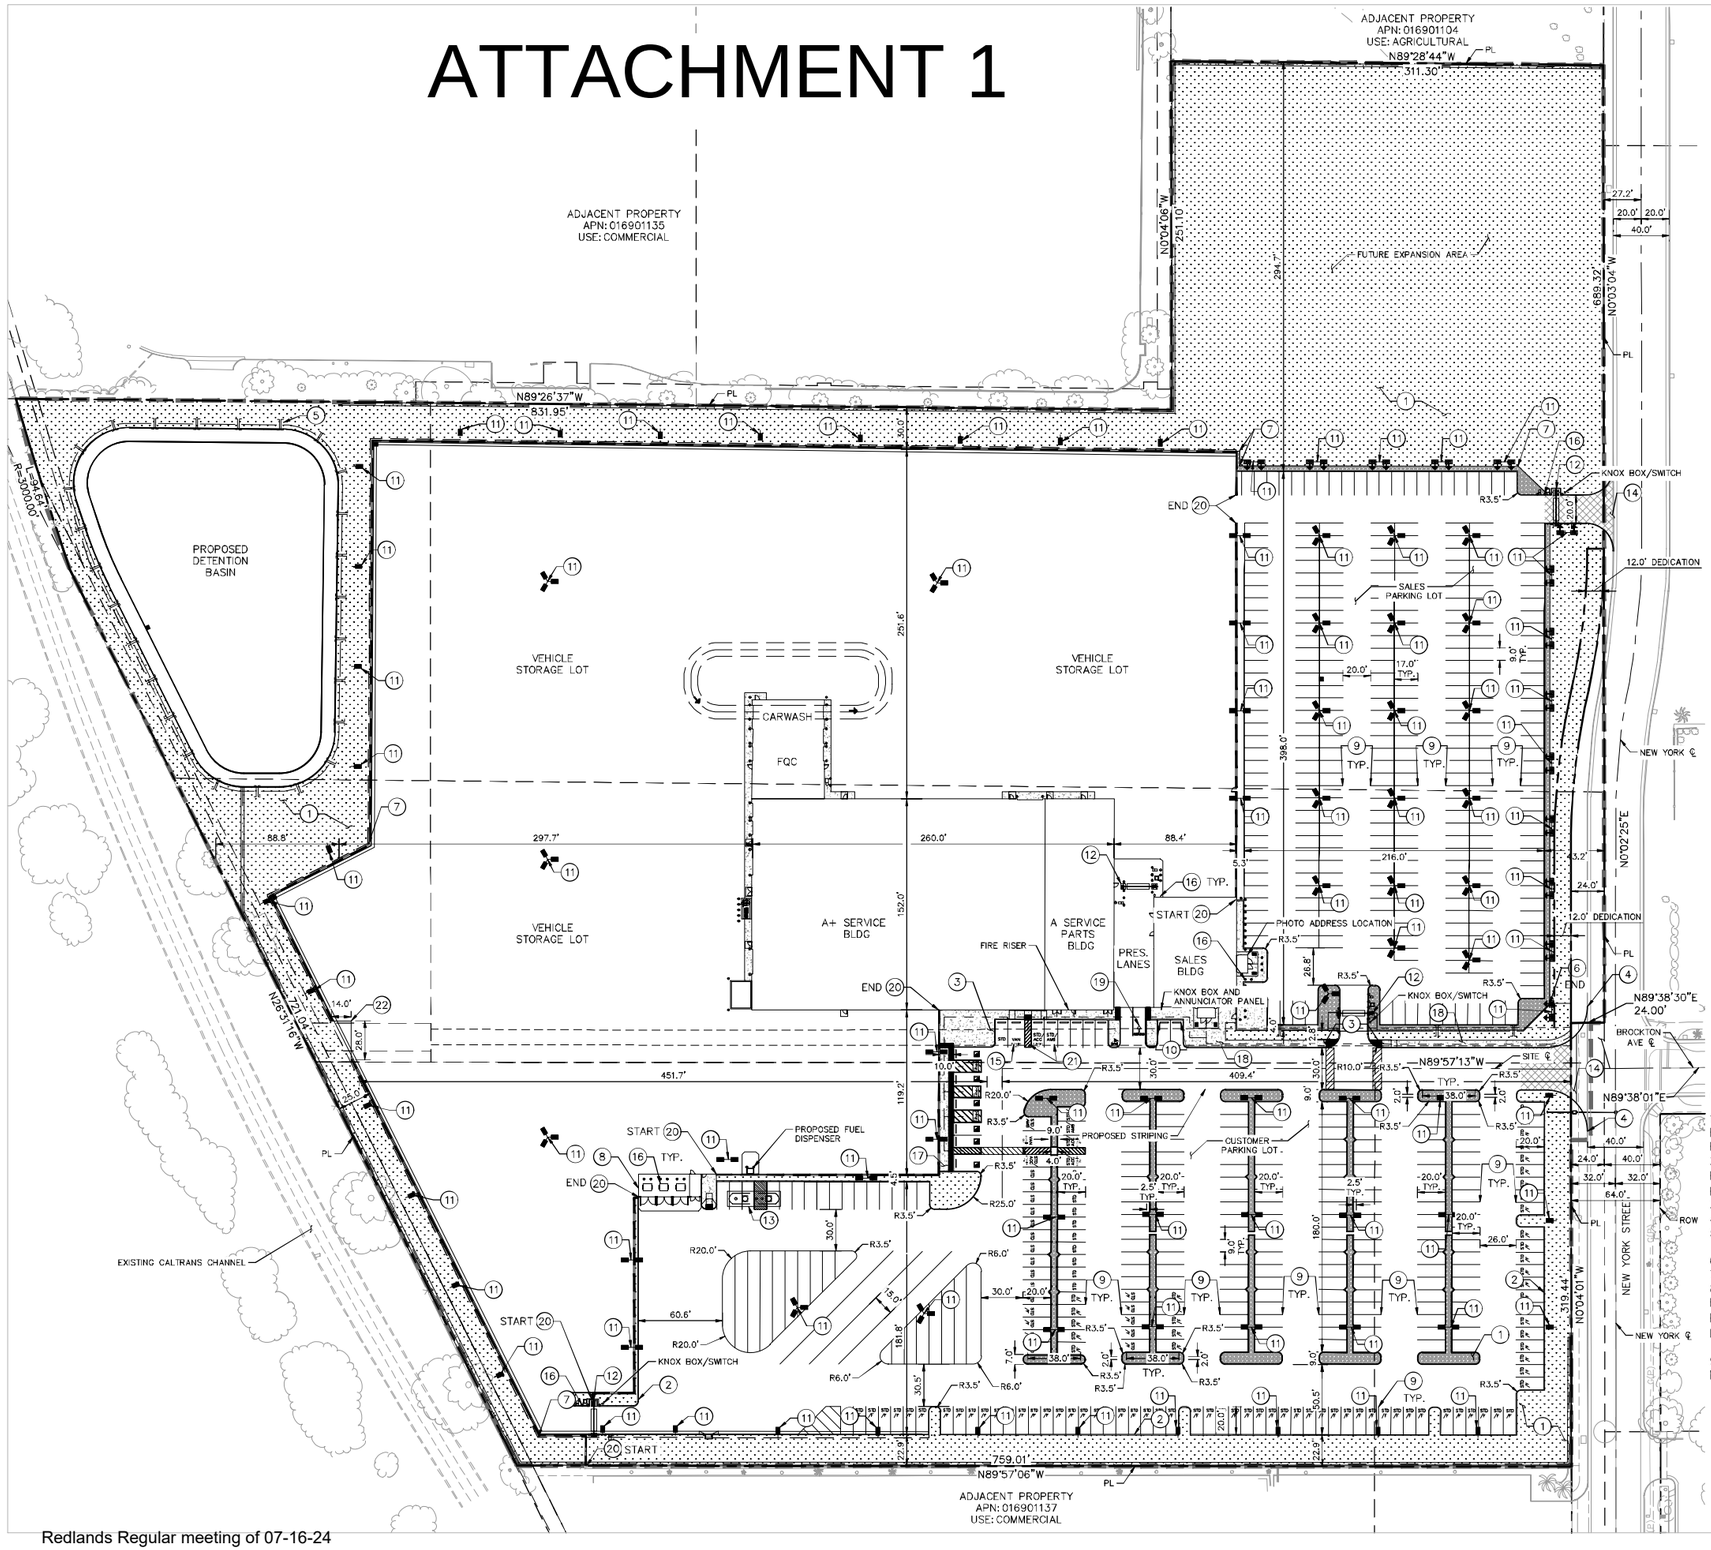
Additional Items

A discussion of Measure "U," as it relates to traffic, will be included in the traffic study The traffic study will also include an evaluation of site access, on-site circulation, and truck turning templates.

Please contact me if you have any questions, comments, or concerns.

Sincerely,

KIMLEY-HORN AND ASSOCIATES, INC.



Trevor Briggs, P.E. (C87664)
Traffic Engineer

11/13/2023

Intersection Analysis Summary

ID	Intersection Name	Control Type	Method	Worst Mvmt	V/C	Delay (s/veh)	LOS
1	Lugonia Ave at Tennessee St	Signalized	HCM 7th Edition	SB Left	0.374	33.1	C
2	Lugonia Ave at New York St	Signalized	HCM 7th Edition	WB Left	0.361	11.0	B
3	I-10 WB Ramps at Tennessee St	Signalized	HCM 7th Edition	WB Left	0.368	20.9	C
4	I-10 EB Ramps at Tennessee St	Signalized	HCM 7th Edition	SB Left	0.521	23.1	C
5	Colton Ave at Tennessee St	Signalized	HCM 7th Edition	NB Left	0.363	34.1	C
6	Colton Ave at New York St	Signalized	HCM 7th Edition	WB Left	0.202	20.7	C
7	New York St at Project Driveway/Brockton Ave	Two-way stop	HCM 7th Edition	WB Left	0.045	11.3	B

V/C, Delay, LOS: For two-way stop, these values are taken from the movement with the worst (highest) delay value. For all other control types, they are taken for the whole intersection.

Intersection Level Of Service Report
Intersection 1: Lugonia Ave at Tennessee St

Control Type:	Signalized	Delay (sec / veh):	33.1
Analysis Method:	HCM 7th Edition	Level Of Service:	C
Analysis Period:	15 minutes	Volume to Capacity (v/c):	0.374

5	Colton Ave at Tennessee St	Signalized	HCM 7th Edition	WB Left	0.497	31.8	C
6	Colton Ave at New York St	Signalized	HCM 7th Edition	WB Left	0.375	20.9	C
7	New York St at Project Driveway/Brockton Ave	Two-way stop	HCM 7th Edition	WB Left	0.113	15.6	C

V/C, Delay, LOS: For two-way stop, these values are taken from the movement with the worst (highest) delay value. For all other control types, they are taken for the whole intersection.

Intersection Level Of Service Report
Intersection 1: Lugonia Ave at Tennessee St

Control Type:	Signalized	Delay (sec / veh):	34.9
Analysis Method:	HCM 7th Edition	Level Of Service:	C
Analysis Period:	15 minutes	Volume to Capacity (v/c):	0.661

Intersection Analysis Summary

ID	Intersection Name	Control Type	Method	Worst Mvmt	V/C	Delay (s/veh)	LOS
1	Lugonia Ave at Tennessee St	Signalized	HCM 7th Edition	SB Left	0.376	33.1	C
2	Lugonia Ave at New York St	Signalized	HCM 7th Edition	WB Left	0.362	11.1	B
3	I-10 WB Ramps at Tennessee St	Signalized	HCM 7th Edition	WB Left	0.369	21.0	C
4	I-10 EB Ramps at Tennessee St	Signalized	HCM 7th Edition	SB Left	0.523	23.1	C
5	Colton Ave at Tennessee St	Signalized	HCM 7th Edition	NB Left	0.364	34.2	C
6	Colton Ave at New York St	Signalized	HCM 7th Edition	WB Left	0.207	21.1	C
7	New York St at Project Driveway/Brockton Ave	Two-way stop	HCM 7th Edition	WB Left	0.047	11.5	B

V/C, Delay, LOS: For two-way stop, these values are taken from the movement with the worst (highest) delay value. For all other control types, they are taken for the whole intersection.

Intersection Level Of Service Report
Intersection 1: Lugonia Ave at Tennessee St

Control Type:	Signalized	Delay (sec / veh):	33.1
Analysis Method:	HCM 7th Edition	Level Of Service:	C
Analysis Period:	15 minutes	Volume to Capacity (v/c):	0.376

Intersection Analysis Summary

ID	Intersection Name	Control Type	Method	Worst Mvmt	V/C	Delay (s/veh)	LOS
1	Lugonia Ave at Tennessee St	Signalized	HCM 7th Edition	EB Left	0.661	34.9	C
2	Lugonia Ave at New York St	Signalized	HCM 7th Edition	WB Left	0.504	13.6	B
3	I-10 WB Ramps at Tennessee St	Signalized	HCM 7th Edition	NB Left	0.537	20.5	C
4	I-10 EB Ramps at Tennessee St	Signalized	HCM 7th Edition	SB Left	0.728	31.1	C
5	Colton Ave at Tennessee St	Signalized	HCM 7th Edition	WB Left	0.501	31.8	C
6	Colton Ave at New York St	Signalized	HCM 7th Edition	WB Left	0.376	21.2	C
7	New York St at Project Driveway/Brockton Ave	Two-way stop	HCM 7th Edition	WB Left	0.118	16.2	C

V/C, Delay, LOS: For two-way stop, these values are taken from the movement with the worst (highest) delay value. For all other control types, they are taken for the whole intersection.

Intersection Level Of Service Report
Intersection 1: Lugonia Ave at Tennessee St

Control Type:	Signalized	Delay (sec / veh):	34.9
Analysis Method:	HCM 7th Edition	Level Of Service:	C
Analysis Period:	15 minutes	Volume to Capacity (v/c):	0.661

PRODUCTION FACILITY TRAFFIC INFORMATION

Redlands, CA - Production Facility

Employee and Traffic Data

Employees

Production: 170 Total Employees (Managers, Mechanical, Logistics, Reconditioning, Clerical)
50% 7am-3pm shift
50% 3pm-11pm shift

Truck Traffic

Inbound Trucks to Supply Production	Total Cars on Trucks per Week	330	cars to be delivered to Redlands site per week
	Daily Inbound Trucks	7.8	(6 cars per truck, avg over 7 days)
Outbound Trucks to Transfer Cars	Total Cars on Trucks per Week	260	cars to be carried out of Redlands site per week for transfers
	Daily Outbound Trucks (Transfer)	6.2	(6 cars per truck, avg over 7 days)
Outbound Trucks for Trade Ins	Total Cars on Trucks per Week	140	cars to be carried out of Redlands site per week for trade-ins
	Daily Outbound Trucks (Trade-In)	3.3	(6 cars per truck, avg over 7 days)

*Truck trips are assumed to come in with vehicles and leave with vehicles.

9.5 outbound trucks = approximately 20 total truck trips (inbound and outbound) per day

**Total truck trips estimated from the greater of either inbound or outbound trucks used for the site

SOCIO-ECONOMIC EVALUATION CHECKLIST FORM

BACKGROUND

1. Project Title: Amendment No. 52 to the East Valley Corridor Specific Plan (Specific Plan No. 40), CUP No. 1179, CRA No. 962

2. Lead Agency Name and Address:
City of Redlands
Development Services Department
35 Cajon Street, Suite 20
Redlands, CA 92373

Mailing Address:
City of Redlands
Development Services – Planning
P.O. Box 3005
Redlands, CA 92373

3. Contact Person and Phone Number: Ryan Murphy, Senior Planner, (909) 798-7555 ext. 7308

4. Project Location: The project site on the west side of New York Street at West Brockton Avenue, approximately 1,000 feet north of West Colton Avenue in the General Commercial (EV/CG) District of the East Valley Corridor Specific Plan (APNs: 0169-011-38-0000 and 0169-011-39-0000).

5. Project Sponsor's Name and Address: CarMax Auto Superstores, Inc., 12800 Tuckahoe Creek Parkway, Richmond, VA 23238

6. General Plan Designation: The General Plan provides two land use designations for the project site. Westerly portions of the two properties are designated for “Commercial” land use (totaling approximately 2.2 acres adjacent to the 210 Freeway), and remaining area of the parcels are within the “Commercial/Industrial” land use designation (totaling approximately 16.36 acres).

7. Zoning Designation: The project site is currently located within the General Commercial (EV/CG) zoning district of the East Valley Corridor Specific Plan.

8. Description of Project: The applicant proposes to amend the East Valley Corridor Specific Plan to allow pre-owned automobile sales as a conditionally permitted land use (without sales of new automobiles) within the Commercial General (EV/CG) District of the East Valley Corridor Specific Plan and construct/operate a pre-owned automobile sales and service/reconditioning facility consisting of a 4,958 square foot sales building, a 39,621 square foot service/reconditioning building, a 3,708 square foot quality control/auction building with 936 square foot non-public carwash, a private fuel tank/dispenser, and an outdoor vehicle storage lot approximately nine acres in size. Related site improvements include customer and employee parking lots, driveways and associated landscape areas, vehicle staging and storage areas. A Socio-Economic Cost/Benefit Study was prepared for the project.

9. Existing On-Site Land Use and Settings: The project site is currently vacant.

10. Surrounding Land Uses and Setting: To the north, is vacant land and a Home Depot shopping center with a drive through restaurant and gas station. To the west is the 210 freeway, to the south is an automobile dealership (Toyota of Redlands), and to the east is vacant land, Teledyne Battery and accessory parking areas, Bill & Wags towing service yard, and a service commercial shopping center.

11. Other public agencies whose approval is required (e.g., permits, financing approval, or participation agreement): None.

COST BENEFIT FACTORS:

The cost benefit factors are evaluated independently using the cost benefit model. A positive or negative cost/benefit ratio will be derived by evaluating projects. A complete model used to evaluate the project is available in the Development Services Department. A summary of that analysis is provided here:

According to the Cost Benefit Model used by the City, the project is projected to result in annual non-residential revenues of $57,743.50 to the City upon project implementation, and annual ongoing costs of $4,772.10. The surplus is $52,971.40 annually. The cost benefit ratio has a factor of +12.10. The complete Cost/Benefit Model results are attached herein.

PUBLIC INFRASTRUCTURE AND EFFECT ON THE CITY OF REDLANDS:

Identify the public infrastructure required for development of this project and identify the source(s) of funding for these improvements. Identify the effects of such development upon the City of Redlands.

a) *List of public infrastructure required for the project:*

The applicant will provide the infrastructure as required by the Municipal Utilities and Engineering Department. The developer will be installing all required off-site improvements, including but not limited to:

- Traffic Signal at New York Street and Brockton Avenue
- Repaired and/or relocated sidewalks, curb and gutter
- Streetlights
- Utility laterals

b) *Sources of funding for these improvements to include developer installed payment of impact fees, assessment districts, etc.:*

The developer will be required to pay applicable Development Impact Fees and permit fees for self-funded improvements as required by the Redlands Municipal Code.

c) *The effect of the project upon the City of Redlands relative to public infrastructure is as follows:*

Apart from the new traffic signal at New York Street and Brockton Avenue, this project will utilize the existing public infrastructure systems within the City. This utilization of city infrastructure is offset by the payment of Development Impact Fees and construction of various infrastructure improvements to accommodate the new use.

BENEFITS OF THE PROJECT TO THE CITY OF REDLANDS

The following is a list of benefits that can be attributed to the proposed project. The benefits may fall into the categories identified or a miscellaneous category. Each benefit identified will be described in detail with supporting reasons as to how the item benefits the community.

A. Citrus Enhancements or Preservation. Does the project preserve citrus? The following are accepted ways to enhance or preserve citrus which may be determined to be a benefit to the City of Redlands.

1. Provide conservation easement(s) on citrus groves the City hopes to preserve.
2. Acquire citrus grove(s) and donate all or a portion of the grove to the City.
3. Enhance viability and productivity of existing groves by enhancing irrigation or adding frost water.
4. Maintain a viable buffer of citrus around the project (at least 3 rows).
5. Other ways to preserve citrus.

If this project provides benefit(s) that apply to citrus enhancement or preservation, describe in detail the benefit(s) with supporting reasons as to how the item(s) benefits the community.

Proposed Project: There are no citrus trees that are currently on the subject property. The project site currently is vacant.

Based on historic aerial photographs, the project site and the surrounding parcels were orchards until the 1970's. The citrus groves that were on the subject property were removed prior to 1980. Based on the historic aerial photographs, there were no citrus or agricultural uses on the subject on the subject property since 1980, and the property has remained vacant.

B. Cultural Enhancements or Preservation. Does the project enhance or preserve cultural aspects of the community? The following are accepted ways to enhance and/or preserve cultural aspects of the community which may be determined to be a benefit to the City of Redlands.

1. Contributes to "art in public places" concept to a minimum of 1% of total project

value.
2. Contributes to the alleviation of problems at cultural sites.
3. Provides an electronic library available to the public.
4. Enhances or contributes to current services or cultural resources.
5. Contribute to performing arts venues.

If this project provides benefit(s) that apply to cultural enhancements or preservation, describe in detail the benefit(s) with supporting reasons as to how the item(s) benefits the community.

Proposed Project: The proposed project will not directly provide benefit(s) that apply to cultural enhancements or preservation. However, the project will pay City established Development Impact Fees and provide additional revenue from increased property tax assessment, business license tax, and other revenue sources that will indirectly provide funding that will contribute to enhancing and/or maintaining some of the cultural facilities within the City.

C. Heritage Enhancements or Preservation. Does the project enhance or preserve heritage aspects of the community? The following are accepted ways to enhance and/or preserve heritage aspects of the community which may be determined to be a benefit to the City of Redlands.

1. Renovates existing historic homes.
2. The project has design features which include garage doors do not face street; 50% wrap around porch on 1-1/2 sides; broad overhangs on roof; driveway located on the side of house or a circular drive; decorative wood, masonry or wrought iron fence.
3. Adaptive reuse of historic structures in appropriate zones.
4. Forming a new or annexing to an existing historic district.
5. Designation of a structure as an individual historic resource.

If this project provides benefit(s) that apply to heritage enhancements or preservation, describe in detail the benefit(s) with supporting reasons as to how the item(s) benefits the community.

Proposed Project: The project site is currently vacant and no historic structures are present. As such there is no opportunity to enhance or preserve the heritage aspects of the community as these types of resources do not exist on-site.

D. Architectural Enhancements. Does the project enhance architectural aspects of the community? The following are accepted ways to enhance architectural aspects of the community which may be determined to be a benefit to the City of Redlands.

1. Provide architectural or decorative enhancements to the project which exceed normal architectural standards.
2. Trees or other landscaping amenities that exceed minimum requirements.

3. Contribution of off-site enhancements in the public right-of-way, such as sidewalk installation and street tree replacement.
4. Assisting in undergrounding of utility lines.

If this project provides benefit(s) that apply to architectural enhancements, describe in detail the benefit(s) with supporting reasons as to how the item(s) benefits the community.

Proposed Project:

The building façade will be constructed of a dark brown colored split-face and smooth concrete masonry unit (CMU) block that have smooth stucco exterior in light brown. A blue gabled standing seam metal roof characteristic of CarMax (maximum height of 27'4") is proposed for the sales building, which also employs blue tinted glazing and metal awnings at the pedestrian level.

Massing for the service/reconditioning building will be articulated by a tonal color banding around the building, and the addition of pilasters to break up long expanses of wall, while providing for variations in the roofline. The architectural treatments will be applied consistently to all building facades to create a cohesive look. Variated roof forms will be incorporated to distinguish the main customer entry points and the different to buildings. The roofline (height of 24'0") consists of a parapet with cornice features and is painted white. Roof-top equipment will be screened by a pre-finished earth-tone metal screen and parapet walls.

The proposed plant palette consists of a combination of trees, shrubs, and ground cover. The minimum landscaping requirement for auto dealerships in the EVCSP is 10% of landscaping, and the proposed project will exceed those requirements and provide 29% landscape coverage. The architecture that is proposed meets the minimum requirements of EVCSP but does not necessarily exceed standards.

E. Historic Downtown Enhancements or Preservation. Does the project enhance or preserve the historic downtown of the community? The following are accepted ways to enhance and/or preserve the historic downtown of the community which may be determined to be a benefit to the City of Redlands.

1. Contributes financially to viability of core downtown within expanded downtown.
2. Renovate old buildings.
3. Within an expanded downtown extends DRBA streetscape enhancements.
4. Contributing to the restoration of original building facades of existing structures
5. Re-establishing historical "pedestrian oriented" street frontages where original buildings have been removed.
6. Provides unique adaptive use of historic building.
7. Contributes to alternative means of transportation.

If this project provides benefit(s) that apply to historic downtown enhancements or

preservation, describe in detail the benefit(s) with supporting reasons as to how the item(s) benefits the community.

Proposed Project: The project is not located within the historic downtown district. The project will pay City established Development Impact Fees and provide additional revenue from increased property tax assessment, business license tax, and other revenue sources that will indirectly provide funding that could be utilized to enhance and/or maintain the downtown district.

F. Job Enhancements. Does the project enhance jobs for the community? The following are accepted ways to enhance jobs for the community which may be determined to be a benefit to the City of Redlands.

1. Provides jobs for the community.
2. Brings in revenue from outside the city.
3. Internship opportunities for students at universities, high school and colleges.

If this project provides benefit(s) that apply to job enhancements, describe in detail the benefit(s) with supporting reasons as to how the item(s) benefits the community.

Proposed Project: The anticipated job creation at for the project is approximately 200 employees. Due to the location of the project site and the nature of the development, the project can be expected to provide a new source of employment for residents of the City of Redlands as well as residents of surrounding communities. The project will be bring in additional revenue to the City and businesses.

G. Open Space Enhancements or Preservation. Does the project enhance or preserve open space aspects of the community? The following are accepted ways to enhance and/or preserve open space within the community which may be determined to be a benefit to the City of Redlands.

1. Hardscape feature that enhances wildlife- water/food/ shelter.
2. Enhanced landscape on commercial project which conceals infrastructure.
3. Waterscaping which increases illusion of open space.
4. Provides open space in addition to zoning requirement.
5. Provides a Planned Residential Development
6. Provides a usable conservation easement across open space in perpetuity.
7. Preserves access for wildlife migration corridor.
8. Provides undisturbed refuge area for wildlife.

If this project provides benefit(s) that apply to open space enhancements or preservation, describe in detail the benefit(s) with supporting reasons as to how the item(s) benefits the community.

Proposed Project: The project will provide landscaping improvements consisting of parking area landscaping planters exceeding minimum requirements. The project will

conceal related infrastructure which will be placed underground or screened with landscaping. The project site is located in an urbanized area that is surrounded primarily by commercial/industrial uses and no wildlife corridors or refuge areas are located on the site. Therefore, the project does not involve the preservation of any wildlife migration corridor or undisturbed refuge area.

H. Park Enhancements or Preservation. Does the project enhance or preserve parks of the community? The following are accepted ways to enhance and/or preserve parks within the community which may be determined to be a benefit to the City of Redlands.

1. Adds improved parkland.
2. Adds parkland beyond requirements.
3. Provides pedestrian and/or bike trails to parks or provides extension of existing pedestrian and/or bike trails from the project site.
4. Adds meeting rooms accessible to local groups on a frequent basis.
5. Improves or adds to existing landscape and/or street scape at or near the project site.

If this project provides benefit(s) that apply to park enhancements or preservation, describe in detail the benefit(s) with supporting reasons as to how the item(s) benefits the community.

Proposed Project: The project site will be developed with curb, gutters, sidewalks, and landscape parkways. The project will pay City established Development Impact Fees and provide significant additional revenue from increased property tax assessment, business license tax, and other revenue sources that will directly and indirectly provide funding that may be used to benefit City parks.

I. Public Safety Enhancements. Does the project enhance public safety aspects of the community? The following are accepted ways to enhance public safety within the community which may be determined to be a benefit to the City of Redlands.

1. Security infrastructure is provided in an architecturally acceptable manner.
2. Exterior television monitoring on commercial project.
3. Provide a building site or fully equipped fire station or contributes to dedicated City account for future construction.
4. Provides significant additional fire equipment as determined by the Fire Department.
5. Provides for a police substation (subject to City approval).
6. Provides for a building site for a new facility.

If this project provides benefit(s) that apply to public safety enhancements, describe in detail the benefit(s) with supporting reasons as to how the item(s) benefits the community.

Proposed Project: Security gates are decorative in nature and meet the design guidelines within the East Valley Corridor Specific Plan. In addition, it will be monitored my security

cameras. The project will pay Development Impact Fees which have been established by the City to fund public facilities, including police. The project will also provide significant additional revenue from increased property tax assessment, business license tax, and other revenue sources that may assist in funding police services.

J. School Enhancements. Does the project enhance schools or their operations within the community? The following are accepted ways to enhance schools within the community which may be determined to be a benefit to the City of Redlands.

1. Senior citizen development adds revenue but no impact.
2. Provides day care and after school program(s).
3. Project is close to schools serving the project.
4. Contributes equipment or other enhancements to existing day care and after school programs.
5. Assist schools with land or financing (such as Mello Roos).

If this project provides benefit(s) that apply to schools, describe in detail the benefit(s) with supporting reasons as to how the item(s) benefits the community.

Project Site: The project is not a residential development and is not considered growth inducing in nature, either directly or indirectly. The project will pay State established school fees that will assist in the future funding of school facilities.

K. Traffic. Does the project reduce traffic, enhance systems to improve traffic conditions or otherwise improve traffic within the community? The following are accepted ways to improve traffic within the community which may be determined to be a benefit to the City of Redlands.

1. Provide financial mitigation which helps alleviate parking problems in town i.e. by contributing to the parking district.
2. Incorporate “traffic calming” elements into the design of the circulation system.
3. Support for alternative forms of public transportation or public transportation facilities.
4. Add biking and pedestrian access to off campus intellectual or entertainment resources.
5. Have a unique method of product/inventory delivery.

If this project provides benefit(s) that apply to traffic, describe in detail the benefit(s) with supporting reasons as to how the item(s) benefits the community.

Project Site: Off-site improvements have been or will be installed in accordance with the East Valley Corridor Specific Plan and the Redlands General Plan Circulation Element. The project will also pay Development Impact Fees established by the City as a fair share contribution toward the development’s impacts on the local street system.

L. Wastewater System Enhancements. Does the project enhance the wastewater system

within the community? The following are accepted ways to improve the wastewater system within the community which may be determined to be a benefit to the City of Redlands.

1. Provide a dual system to use potable and non-potable water.
2. Provide financial contributions to tertiary facilities at the Wastewater Treatment Plant.
3. Improve water quality.

If this project provides benefit(s) that apply to the wastewater system, describe in detail the benefit(s) with supporting reasons as to how the item(s) benefits the community.

Proposed Project: The project will comply with requirements of the City of Redlands. The Applicant has not proposed any special features related to water system enhancements. The proposed project would be served by the City of Redlands sewer collection system. The proposed project would generate wastewater that can be discharged to a municipal system with sufficient capacity.

M. Miscellaneous Preservation or Enhancements. Does the project enhance or preserve elements within the community?

If this project provides benefit(s) that apply to enhancement or preservation of elements that are important to the City, describe in detail the benefit(s) with supporting reasons as to how the item(s) benefits the community.

Proposed Project: The project does not provide any additional enhancements or preservation of elements within the community than previously identified.

SOCIAL FACTORS POTENTIALLY AFFECTED:

This project may create unmitigable physical blight or overburden public services for those social factors checked below within the "Potentially Significant," “Potentially Significant Unless Mitigation” or "Less Than Significant" as indicated by the checklist on the following pages.

__ Agricultural/Citrus Removal	___ Police Services	___ Recreational Programs
__ Wildlife/Habitat	___ Downtown Impacts	___ Land Use Compatibility
__ Traffic	___ Residential Design	___ Schools
__ Fire Services	___ Cultural Facilities	
__ Paramedic Services	___ Park Facilities	

DETERMINATION

On the basis of this initial evaluation:

_X_ I find that the proposed project will not create unmitigable physical blight or overburden public services in the community, and no additional information or evaluation is needed.

___ I find that although the proposed project could create unmitigable physical blight or overburden public services in the community, there will not be a significant effect in this case because the mitigation measures described on an attached sheet have been added to the project by the applicant.

___ I find that the proposed project may create unmitigable physical blight or overburden public services in the community, and additional information or evaluation is needed in the following areas:

___ I find that the proposed project has already been evaluated for socio-economic impacts and the prior evaluation adequately evaluated this project.

Signed:

Ryan Murphy
Senior Planner
City of Redlands
May 31, 2024

EVALUATION OF SOCIAL FACTORS

Explanations of all "Potentially Significant," "Potentially Significant Unless Mitigation Incorporated," "Less Than Significant Impact," and "No Impact" answers are provided on the attached sheets.

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
1. AGRICULTURAL/CITRUS REMOVAL. Would the proposal:				
a) Affect agricultural resources or operations (e.g. impacts to soils or farmlands, or impacts from incompatible land uses)?	___	___	___	✓
b) Remove active citrus groves from production?	___	___	___	✓

Agricultural/Citrus Removal.

1.a,b) There are no citrus trees that are currently on the subject property. The project site currently is vacant.

Based on historic aerial photographs, the project site and the surrounding parcels were orchards until the 1970's. The citrus groves that were on the subject property were removed prior to 1980. Based on the historic aerial photographs, there were no citrus or agricultural uses on the subject on the subject property since 1980, and the property has remained vacant.

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
2. WILDLIFE/HABITAT/OPEN SPACE PRESERVATION. Would the proposal:				
a) Eliminate or have negative impact upon wildlife corridors?	___	___	___	✓
b) Tend to urbanize open space impacting preservation and conservation of natural resources?	___	___	___	✓
c) Interfere with use of recognized trails used by joggers, hikers, equestrians or bicyclists?	___	___	___	✓

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
d) Eliminate, reduce, or have any negative impact upon wildlife habitat areas to include the protection of fringe or buffer areas?	___	___	___	✓

Wildlife/Habitat/Open Space Preservation.

2.a) The project site is within an urbanized area and is not known as an area that contains biological resources or wildlife corridors. Based on available historic aerial photographs, the site has been graded and vacant since 1980, and formerly had citrus groves until the 1970s. The site does not contain sensitive plant species that would support wildlife foraging.

2.b) The subject site is located in an urbanized area. The General Plan designation for the site is Commercial and the use is conditionally permitted within the General Commercial (EV/CG) land use designation of the East Valley Corridor Specific Plan, as amended. The project will not impact open space preservation and conservation of natural resources.

2.c) The project does not interfere with any existing recognized trails used by joggers, hikers, equestrians or bicyclists as the project site is not within close proximity to any existing recognized trails. The project will be conditioned to construct off-site improvements as required by the Municipal Utilities and Engineering Department.

2.d) The project site is located within an urbanized area. The project will not eliminate, reduce, or have any negative impact upon wildlife habitat areas to include the protection of fringe or buffer areas. The project site is currently vacant, located within an urbanized area, and is surrounded by development. Overall, the site is not a significant habitat area for any species.

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
3. TRAFFIC. Would the proposal:				
a) Result in increased vehicle trips or congestion?	___	___	✓	___
b) Create additional traffic so as to be in conflict with the policies of the General Plan?	___	___	✓	___

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
c) Does traffic impact livability of a residential neighborhood on streets which, due to design or terrain features, street side development or other factors, have greater than usual sensitivity to increased traffic?	___	___	___	✓
d) Create additional traffic so as to increase the level of service on roadways that are adjacent to or in the vicinity of the project?	___	___	___	✓

Traffic Impacts.

3.a,b,d) The project is estimated to generate approximately 552 trips on a daily basis, with 15 trips in the morning peak hour and 27 trips in the evening peak hour. The applicant estimates that approximately 170 total "production" employees over 2 shifts (7:00 AM to 3:00 PM; and 3:00 PM to 11:00 PM) on a daily basis. With this scheduling, the applicant estimates that employees would arrive and exit their shifts during non-peak hours of adjacent street traffic. As a result, the concludes that the "production" employees will not generate additional peak hour traffic. Data estimates provided by the applicant show that there will be 10 car carrier trucks per day to the project site, for a total of 20 truck trips per day. Using these estimates prepared by CarMax that were based on their site operation characteristics, the study concludes that the addition of the proposed project does not degrade the Levels of Service below the current Levels of Service grade. Therefore, the proposed project is forecast to result in no substantial transportation impacts.

3.c) The project site is within an area designated for commercial uses as allowed by the underlying zoning district. Access to the project site will be taken from New York Street, which is designated as a Collector Street. The project site will provide a two-way driveway along New York Street, as well as an additional entry point via along New York Street at the north boundary of the project. The main entrance/exit will provide access to the parking lots and to the loading areas located in the interior yards along the south/west elevation of the buildings. The site is located adjacent to commercial development to the north and south and is otherwise surrounded by the freeway to the west and commercial/industrial uses to the east, and the traffic generated by the project will not impact the livability of the surrounding businesses or streets as there is a range of development within the vicinity of the project site.

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
4. FIRE AND PARAMEDIC SERVICES. Will the proposal result in:				
a) Requiring fire and paramedic services that are beyond the current capabilities of the Fire Department?	___	___	✓	___
b) An increase in response time for essential fire or paramedic services to the remainder of the community?	___	___	✓	___
c) The need for additional fire or paramedic facilities or equipment?	___	___	✓	___

Fire and paramedic services.

4.a) According to the 2035 General Plan, the site is not within an area that is a high fire danger area. The project will incorporate fixed fire protection systems which will mitigate any impacts relative to this issue.

4.b) The City of Redlands Fire Department will provide fire and emergency medical services to the Project. Other services include the household hazardous waste disposal site, CPR classes, sharps container exchange program, blood pressure checks and public education programs. Station No. 263 is in the closest proximity to the project site, and services are financed through the General Fund. The new city services required by this project would be able to be supported by the City of Redlands Fire Department and will not have a not have a significant impact on fire or paramedic services to the remainder of the community.

4.c) Present capabilities of the Fire Department will not require additional fire or paramedic facilities or equipment as a result of this project. The project will pay Development Impact Fees which have been established by the City to fund public facilities, including fire and paramedic services. Also, the project will provide additional revenue from increased property tax assessment, business license tax, and other revenue sources that will assist in funding fire operations.

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
5. POLICE SERVICES. Would the proposal result in:				

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Requiring police services that are beyond the current capabilities of the Police Department?	___	___	✓	___
b) An increase in response time for essential police services to the remainder of the community?	___	___	✓	___
c) The need for additional police facilities or equipment?	___	___	✓	___
d) Increase in crime as a result of the type of business?	___	___	✓	___

Police Services.

5.a-d) Present capabilities of the Redlands Police Department would not be adversely impacted with project development; however, cumulatively the project will along with future development, require increased police services. The project will pay Development Impact Fees which have been established by the City to fund public facilities, including police. The project will also provide additional revenue from increased property tax assessment, business license tax, and other revenue sources that may assist in funding police services.

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
6. DOWNTOWN IMPACTS. Would the proposal result in:				
a) A reduction of the number or types of businesses located in the downtown?	___	___	___	✓
b) An unfair or unreasonable competitive disadvantage to existing businesses downtown?	___	___	___	✓
c) Creation of vacant buildings and the potential for blight?	___	___	___	✓
d) Cause an unreasonable increase in traffic downtown?	___	___	___	✓

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
e) Economic and social effects of businesses competing with downtown businesses?	___	___	___	✓

Downtown Impacts.

6.a-e) The project site will consist of a shopping center and two drive thru restaurants that are located northwest of the City's downtown area. The proposed project does not have the ability to negatively affect the businesses located within the Downtown Business District as the proposed project is not located within the vicinity of the Downtown Business District.

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
7. RESIDENTIAL DESIGN. Would the proposal:				
a) Conflict with existing codes and or standards?	___	___	___	N/A
b) Meet minimum point standards of the Residential Development Allocation process?	___	___	___	N/A

Residential Design.

7.a,b) No part of this project contains a residential component. No further additional information or evaluation is needed.

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
8. CULTURAL FACILITIES. Would the proposal result in:				
a) Impacts to an historic residential structure, neighborhood, or district?	___	___	___	✓
b) Impacts to an historic commercial structure or district?	___	___	___	✓

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
c) Impacts to cultural facilities such as the Smiley Library, Redlands Bowl, Lincoln Shrine, Joslyn Center, Community Center, etc.?	___	___	___	✓
d) Have the potential to cause a physical change which would affect unique ethnic cultural values?	___	___	___	✓
e) Potential to disturb existing religious facilities	___	___	___	✓
f) Impact or restrict religious or sacred uses.	___	___	___	✓

Cultural Facilities.

8.a,b) There are no historic residential structures on the project site, nor is the project site located within a historic neighborhood or district.

8.c) As the project is located away from any cultural facilities and is not growth inducing in nature, cultural facilities such as the Smiley Library, Redlands Bowl, Lincoln Shrine, Joslyn Center, Community Center, etc., will not be impacted by the construction of the proposed project. The project will pay Development Impact Fees and provide an increase in revenue to the City from increased property tax assessment, business license tax, and other revenue sources that may assist in providing funding for existing cultural facilities. Thus, the project will not have an adverse impact to cultural facilities.

8.d) No part of this project has the potential to affect unique ethnic cultural values.

8.e,f) No part of this project will result in impacts to existing religious facilities or restrict religious uses.

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
9. PARK FACILITIES AND RECREATIONAL PROGRAMS. Will the proposal result in:				

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Increases in use or demand for park facilities or programs to include manpower, facilities or equipment?	___	___	___	✓
b) A ratio of parkland to population which exceeds standards and or goals established by the General Plan?	___	___	___	✓

Park Facilities and Recreational Programs.

9.a,b) The proposed project does not consist of a residential component. Therefore, the project will not adversely affect existing or planned park facilities or recreational programs within the City nor create a significant new demand for additional recreational facilities. The project will pay development impact fees and provide an increase in revenue to the City from increased property tax assessment, business license tax, and other revenue sources that may assist in providing funding that could be used to benefit park facilities and recreational programs.

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
10. LAND USE COMPATIBILITY. Would the proposal result in:				
a) Land uses that are not compatible or consistent with the General Plan?	___	___	✓	___
b) Economic impacts on businesses and small property owners from a project?	___	___	✓	___
c) Physical separation or division of an existing community?	___	___	___	✓
d) Loss of jobs for the community?	___	___	___	✓
e) Overcrowding of housing?	___	___	___	✓

Land Use Compatibility.

10.a) The majority of the project site (totaling approximately 16.36 acres) are within the “Commercial/Industrial” land use designation, and the northwest corner of the project site is designated for “Commercial” land use (totaling approximately 2.2 acres adjacent to the 210 Freeway). The Commercial/Industrial land use category designates areas where certain types of commercial and light industrial uses may

be compatibly located. The project is located within the Commercial/Industrial (EV/CG) District of the East Valley Corridor Specific Plan which allows for automobile dealerships. While used automotive dealerships as a primary use are not permitted, a Specific Plan Amendment is proposed that will permit them subject to the same standards as regular auto dealerships. If the Specific Plan Amendment is approved, the project will not result in land uses that are incompatible or inconsistent with the General Plan or surrounding area.

10.b) The proposed project is consistent with the General Plan Land Use Designation as Commercial. The proposed project conforms to the development standards for the EV/CG District of the EVCSP. The project does not pose an economic impact on businesses or small property owners, as it is located in an area that supports and is adjacent to regional scale commercial development. The retail components that are proposed provide services that are generally corporate in nature that would not impact small retail businesses located in the City.

10.c) The subject property will be developed with a shopping center and two drive thru restaurants within an area designated for commercial uses. Nearby parcels of land have previously been developed with similar uses, or are designated for commercial development. The proposed project has been designed to be compatible with the surrounding development.

10.d) The project will result in approximately 200 new jobs, in addition to temporary construction jobs. No job loss will result from this project.

10.e) No residential component is proposed as part of the project. Based upon the absence of a residential component, no part of this project has the potential to result in overcrowding of the current housing stock within the City.

Issues and Supporting Information Sources:	Potentially Significant Impact	Potentially Significant Unless Mitigation Incorporated	Less Than Significant Impact	No Impact
11. SCHOOLS. Would the proposal result in:				
a) Creating an overcapacity in schools?	___	___	___	✓
b) The need for additional school facilities or equipment?	___	___	___	✓
c) Land uses not consistent with or compatible with existing educational facilities in community?	___	___	___	✓
d) Social or academic impacts on students resulting from school closures.	___	___	___	✓

Schools.

11.a-d) Based on the absence of a residential component to this project and a determination that the project will not manifest a growth-inducing impact, the project does not have the potential to adversely impact schools. Any potential direct and/or indirect impacts attributable to the project will be offset through the payment of State established school fees assessed at the time of building permit issuance.

TABLE 1

SHADED CELLS ARE VARIABLE ASSUMPTIONS OR INPUTS UNIQUE TO THE PROJECT.

NOTES:

1. Average number of residents per Dwelling Unit ("DU") provided by the California Department of Finance.
   Residents per DU = 2.801 OTHER

2. Assumes residential acreage per unit of the following:

Rural Living (less than 0.2 - 0.4 du/acre)	NA
Very-Low-Density Residential (0 - 2.7 du/acre)	NA
Low-Density Residential (0 - 6.0 du/acre)	NA
Low-Medium-Density Residential (0 - 8.0 du/acre)	NA
Medium-Density Residential (0 - 15.0 du/acre)	NA
High Density (0 - 27.0 du/acre)	NA

3. Assumes average non-residential site coverage of the following (based on the General Plan):

Retail	25.0%
Industrial	50.0%
Other Non-Residential	0.0%

4. Assumes non-residential equivalent dwelling units of the following:
   EDUs per acre = 6.0 OTHER

GENERAL PLAN BUILDOUT	PROJ. Sq. Ft.*	F.A.R.*	Projected Acreage	
RETAIL	8,646,200	0.30	661.63	
INDUSTRIAL	10,048,400	0.40	576.70	OTHER
OTHER NON-RESIDENTIAL	21,641,990	0.45	1,104.07	
	40,336,590		2,342.40	

*As disclosed in the General Plan

Typical Home Size: 2,835 OTHER
Estimated Equivalency: 6.07

TABLE 6
CITY OF REDLANDS : MODEL
POLICE DEPARTMENT, FIRE DEPARTMENT, PUBLIC WORKS & PER CAPITA COSTS
FISCAL IMPACT ANALYSIS

POLICE DEPARTMENT COSTS

RESIDENTIAL CALLS	16,562	CITY
COST PER DWELLING UNIT	$295	
NON-RESIDENTIAL RETAIL CALLS	8,987	
COST PER BUILDING SQUARE FOOT	$0.47	
NON-RESIDENTIAL INDUSTRIAL CALLS	344	
COST PER BUILDING SQUARE FOOT	$0.02	
OTHER NON-RESIDENTIAL CALLS	7,948	
COST PER BUILDING SQUARE FOOT	$0.42	
MISCELLANEOUS CALLS /2	17,628	
TOTAL CALLS	51,469	

1. Based on Net Cost and number of calls to residential or non-residential properties.
2. Based on conversations with the Police Chief, these incidences are not related to residences or businesses in the City.

EXISTING DWELLING UNITS	25,984	CITY
EXISTING NON-RESIDENTIAL SQUARE FOOTAGE	8,824,690	

RESIDENTIAL FIRE DEPARTMENT COSTS [1]

RESIDENTIAL CALLS	3,579	CITY
COST PER DWELLING UNIT	$168	
NON-RESIDENTIAL RETAIL CALLS	446	
COST PER BUILDING SQUARE FOOT	$0.06	
NON-RESIDENTIAL INDUSTRIAL CALLS	155	
COST PER BUILDING SQUARE FOOT	$0.02	
OTHER NON-RESIDENTIAL CALLS	1,459	
COST PER BUILDING SQUARE FOOT	$0.20	
MISCELLANEOUS CALLS /2	1,988	
TOTAL CALLS	7,627	

1. Based on Net Cost and number of calls to residential or non-residential properties.
2. Based on information from Fire Chief, these incidences are not related to residences or businesses in the City.

PUBLIC INFRASTRUCTURE REQUIREMENTS /1

ROADS (LANE MILES)	0.0	DEVELOPER
TRAFFIC INTERSECTIONS REQUIRING SIGNALS	0.0	
AGGREGATE LANDSCAPING (ACRES)	0.0	
PARK ACREAGE (GROSS)	0.0	
STREET LIGHTS	3.0	DEVELOPER
OPEN SPACE (ACRES)	0.0	
TRAILS (LINEAL MILE)	0.0	
STORM DRAINS (MILES)	0.0	

1. Infrastructure should exclude privately maintained facilities.

PUBLIC WORKS MAINTENANCE COSTS

PAVEMENT MAINTENANCE PER LANE MILE /1	$5,000	CITY
STREET SWEEPING PER CURB MILE - ALL STREETS /1	$9	
TRAFFIC SIGNAL OPERATIONS & MAINTENANCE PER INTERSECTION /1	$5,560	
LANDSCAPE MAINTENANCE PER ACRE /1	$12,500	
PARK MAINTENANCE PER ACRE /1	$7,000	
STREET LIGHT MAINTENANCE COST PER LIGHT /1	$125	
OPEN SPACE MAINTENANCE PER ACRE /2	$125	
TRAIL MAINTENANCE PER LINEAL MILE /2	$500	
STORM DRAIN MAINTENANCE PER MILE /2	$750	

1. Based on consultations with the City of Redlands Public Works Department.
2. Based on consultant's experience.

CITY GENERAL GOVERNMENT COSTS*

CITY COUNCIL	$174,090
CITY CLERK	$285,939
CITY MANAGER	$314,819
FINANCE	$605,155
CITY TREASURER	$2,875,064
CITY ATTORNEY	$1,159,167
TOTAL, CITY GENERAL GOVERNMENT COSTS	$5,414,234

*Costs have been reduced to reflect department specific revenues.

CITY GENERAL GOVERNMENT COSTS CONTINUED

TOTAL CITY OPERATING BUDGET*	##########
*Excludes Debt Service, Utilities and Capital Improvements.	
OVERHEAD AS A % OF OPERATING BUDGET	11.04%

SECTION 1.0 – PROJECT DESCRIPTION AND ENVIRONMENTAL SETTING

1.1 PROJECT PURPOSE AND BACKGROUND

The Project Applicant is proposing the construction of a pre-owned automobile sales and service/reconditioning facility within the East Valley Corridor Specific Plan area of the City of Redlands (City). The development will consist of a sales building, service/reconditioning building, final Quality Control building, a non-public carwash, private fuel tank/dispenser, automobile sales display area (retail), vehicle staging areas (reconditions, sales, inspection and pick-up/drop-off), public parking lots, truck loading/unloading driveways and associated landscaped areas (Proposed Project or Project).

The Proposed Project will include an amendment to the Specific Plan General Commercial District to allow pre-owned automobile sales as a conditional use permitted land use (without sales of new automobiles). The automobile refurbishing and reconditioning facility is a conditionally permitted use.

1.2 PROJECT LOCATION AND SITE CHARACTERISTICS

1.2.1 Project Site Location

The Proposed Project site is located within undeveloped parcels in the City of Redlands, in San Bernardino County, west of New York Street at West Brockton Avenue (adjacent to Interstate 210 [I-210]), between an existing home improvement retailer (to the north), and automobiles dealership (to the south) (Project site) as shown on Figure 1. The Project site is vacant and regularly disced for weed abatement. The Project site is located within the East Valley Corridor Specific Plan (Specific Plan) at the following Associated Parcel Numbers (APNs): APN 0169-011-39, APN 0169-011-38.

1.2.2 General Plan/Zoning

The Project site is zoned as Commercial (City 2022a). The Redlands General Plan Land Use Map provides two land use designations for the project site. Westerly portions of the two properties are designated for "Commercial" land use (totaling approximately 2.2 acres adjacent to the 210 Freeway), and remaining area of the parcels are within the "Commercial/Industrial" land use designation (totaling approximately 16.36 acres)(City 2022b) Zoning to the north and south of the Project site is EV/CG, to the east are Agricultural (A-1) and Industrial (M-1), and to the west is the I-210. Existing uses surrounding the Project site are a home improvement retailer to the north, automobile dealership to the south, and undeveloped properties and various commercial buildings to the east.

The General Commercial District area within the Specific Plan may contain major department stores, professional headquarters, small customer, and specialty businesses, eating establishments, and regional shopping centers as well as a variety other business. Retail sales of goods for automobiles, automobile rentals, and car washes are permitted uses. Repair and servicing facilities are allowed for any article which is permitted to be sold in this General Commercial District.

1.3 PROJECT DESCRIPTION

The Proposed Project includes Commission Review and Approval No. 962, which would include the construction of a pre-owned automobile sales, refurbishing, and reconditioning facility with outdoor vehicle storage. The Project site will be constructed on undeveloped parcels west of New York Street and east of the I-210 on parcels 0169-001-38 and 0169-011-39 on approximately 18.627 acres.

Additional components of the project include: a Specific Plan Amendment to the East Valley Corridor Specific Plan (to allow pre-owned automobile sales without the sale of new vehicles as a conditionally permitted use), and a Conditional Use Permit (CUP). Project details are described further below.

1.3.1 Circulation

The site is proposed to be publicly accessed from a single full movement driveway on New York Street, that will be directly aligned with the Brockton Avenue intersection. An additional driveway for test drives only and emergency access with Knox Box access only will be at the north end of the sales/display lot. The customer and employee parking area will be located on the southern side of the site, adjacent to New York Street and the existing automobile dealership to the south. In addition to passenger vehicle parking, four car-carrier loading spaces are provided in the southwestern portion of the lot. A paved and striped area known as the vehicle sales display area will be located along the northeast portion of the property and will be surrounded by a low guardrail system for security purposes. This sales display area is the "outdoor showroom" for vehicles available for retail purchase. Vehicular access to the sales display area is secured with embassy-style security gates and pedestrian access is only available by passing through the building's sales offices. A paved area known as the vehicle staging area will be located to the west and north side of the property and will be surrounded by a 6-foot high masonry wall for screening and security purposes. This staging area is the Project's "back of house" area where vehicles are staged while awaiting inspection, sales, reconditioning, or pickup for distribution elsewhere. Access to the non-public staging area will also be secured with embassy-style security gates.

1.3.2 Site Plan

The buildings on-site are centered on the property as shown in Figure 2. The sales building (4,958 square feet (SF) will be the most prominent building as it fronts all three areas of the site (public parking lot/sales display area/staging area) while the service/reconditioning building (39,621 SF), Final Quality Control (FQC) building (2,772 SF), and non-public carwash (936 SF) are located primarily within the screened staging area. The sales building and service/reconditioning/FQC/carwash buildings are connected by a pass-through "presentation" lane (1,204 SF) where vehicles are exchanged between customers and employees. The total building square footage proposed for the site is 49,491 SF. The development details are provided below:

BUILDING	SQUARE FOOTAGE/ACRES
Sales and Administration	4,958 SF
Production	39,621 SF
Non-Public Car Wash / FQC	3,708 SF
Presentation Lane	1,204 SF
Total Building Area	1.24 acres
Pavement/Impervious Areas	12.1 acres
Landscape/Grass Areas	5.22 acres
Total Area	18.63acres
Customer/Employee Parking Spaces	Customers/Employees: 292 Spaces Sales Display Area: 304 Spaces Production: 1105 Spaces

1.3.3 Architecture

The proposed building facade will be constructed of earth-tone colored split face and smooth concrete masonry unit (CMU) block along with large glazing areas. Massing will be articulated by a tonal color banding in the CMU. The architectural treatments will be applied consistently to all building facades to create a cohesive look. Variated roof forms will be incorporated to distinguish the main customer entry points to the building. These entry features will be constructed of white exterior insulation and finish system (EIFS) pilasters and a blue standing seam gable roof with the company logo above the entry doors. Roof-top equipment will be screened by a pre-finished earth-tone metal Roof Top Unit (RTU) screen and parapet walls.

1.3.4 Landscape and Site Drainage

Landscaping will be incorporated into the public parking lot, around the perimeter of the site. Landscaping will include deciduous trees and shrubs, evergreen shrubs, sod, wood mulch, and rock mulch. All landscaping will be designed to meet the City's Water Efficient Landscape requirements.

The majority of runoff from the site will be intercepted by inlets and swales that convey the flows downstream to an infiltration basin for detention. The detention basin will infiltrate stormwater and discharge additional runoff directly into the California Department of Transportation (Caltrans) Channel via an outlet pipe. Each inlet is being sized to limit ponding depths to less than the curb height of 6 inches.

1.3.5 Site Lighting and Security

The Proposed Project will use light-emitting diode (LED) lighting fixtures mounted on 26-foot-tall light poles for visibility and security. Fixtures will be fully cut off and downcast to reduce light spill onto adjacent properties. Security at the Project site will use interior and exterior security cameras that are tied to its Home Office security system for safety and inventory protection.

1.3.6 Production/Reconditioning

The Proposed Project will acquire its pre-owned vehicle inventory from its customers and the general public at its retail stores or by purchasing wholesale pre-owned vehicles from third party sellers. Those vehicles purchased from the public, meeting company standards for sale at its retail facility, are prepared for sale through the reconditioning process described below. Inventory that does not meet the company standards for sale to retail customers (due to age, mileage, customization, the level of reconditioning required, or the like) will be transported off-site to other wholesale facilities.

The reconditioning process consists of inspection and reconditioning. The proposed reconditioning facility will contain parking areas for associates, a secured parking area for inventory arriving or departing from the facility, loading, and unloading areas for vehicle transporters, and a fully conditioned and enclosed service building with a paint booth. The reconditioning facility will also be equipped with an attached FQC building and attached carwash building along with fuel pumps for fueling inventory vehicles.

The reconditioning facility only performs work on internal inventory, and it is not open to the public. Likewise, the carwash and fuel pumps located on-site are used only for the reconditioning process by the company associates/employees.

1.3.7 Construction

Construction of the Proposed Project will require multiple workers using equipment such as loaders, pick-up trucks, a backhoe, a water truck for dust suppression, a crane, an asphalt paver, and excavators. Project materials will be staged on-site. The Project site will be excavated and graded to construct the proposed buildings and internal driveways and parking lots. Engineered fill will be used beneath building structures, exterior slabs, and pavements. Approximately 1,506 cubic yards of fill will be imported to the site. An existing sewer line on-site will be left in place. Excavated soils will be kept on-site.

The Project is expected to break ground in 2025 and be completed by 2026. Construction activities will take place from 7:00 a.m. to 6:00 p.m. Monday through Saturday. No construction work will occur on Sundays or holidays per the City's Community Noise Control Section Chapter 8.06 of the Municipal Code (City 2023).

1.3.8 Operations

Store management will set operating hours closer to the opening date; however, the showroom (retail sales) areas are typically open to the public Monday through Saturday from 9:00 a.m. to 9:00 p.m. with more limited hours on Sundays. Associates will be present at the store several hours before and after the public operating hours. Service/reconditioning operations will be up to 24 hours a day, 7 days a week for company operations and not for the general public.

There will be approximately 32 sales/administration employees on-site 12 hours daily 6 days per week (10 a.m.-9 p.m.). The production facility will employ 170 total employees, split in half between two 8-hour shifts (7 a.m.-3 p.m. and 3 p.m.-11 p.m.). Therefore, during daytime work hours, there will be up to 117 total employees on-site between 8 a.m. and 9 p.m.

1.4 REQUIRED PERMITS AND APPROVALS

Reviewing Agencies include those agencies that do not have discretionary authority but may review the Initial Study and Negative Declaration for adequacy and accuracy. Responsible Agencies have discretionary approval authority for a project and may rely on this IS/MND for their independent decision-making process. Potential Reviewing Agencies and Responsible Agencies include the following:

Responsible Agencies

- California State Water Resources Control Board (SWRCB) Division of Drinking Water (DDW)- Permit for Domestic Water Supply

Reviewing Agencies

- South Coast Air Quality Management District (SCAQMD) - Permit to Construct a Gasoline Dispensing Facility and compliance with Rules 402,1151, and 1171

1.4.1 Permits and Approvals

The following permits and approvals may be required prior to construction of the Project:

- Commission Review & Approval permit for Site Plan review

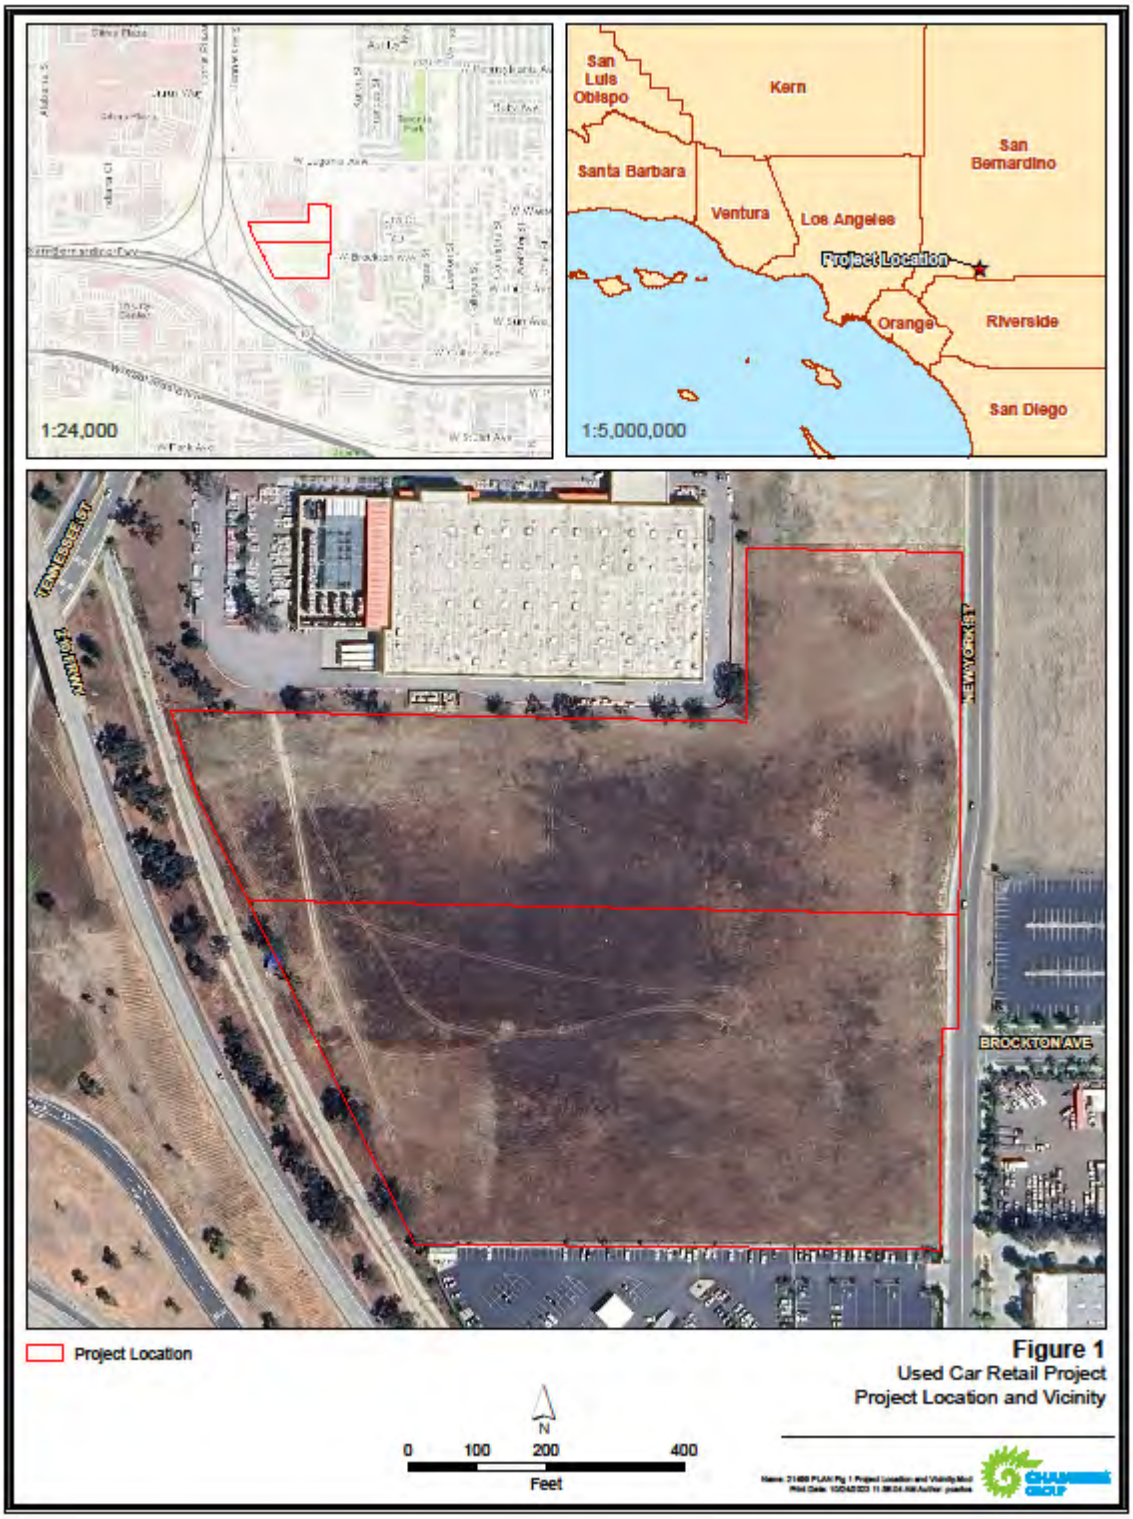
- Grading Permit
- Building Permit
- Compliance with National Pollutant Discharge Elimination System (NPDES) Construction General Permit by the Regional Water Quality Control Board (RWQCB)
- Conditional Use Permit for the proposed land use(s)
- South Coast Air Quality Management Plan (AQMD) permit(s), if applicable, for automobile painting operations and Gasoline Dispensing Facility.

1.5 RELATED TECHNICAL STUDIES

The following technical studies have been prepared to evaluate the proposed project's environmental effects, and are hereby incorporated by reference. Appropriate references are included in the text of this Initial Study in the applicable sections and the studies are included as appendices.

- Air Quality Assessment
- Health Risk Assessment
- Biological Resources Letter Report
- Cultural Resources Survey and Study Letter Report
- Geotechnical Engineering Report
- Greenhouse Gas (GHG) Emissions Assessment
- Phase 1 Environmental Site Assessment
- Preliminary Water Quality Management Plan
- Hydrology and Hydraulics (Drainage Report)
- Acoustic Assessment
- Traffic Study

Figure 1 - Project Vicinity Map



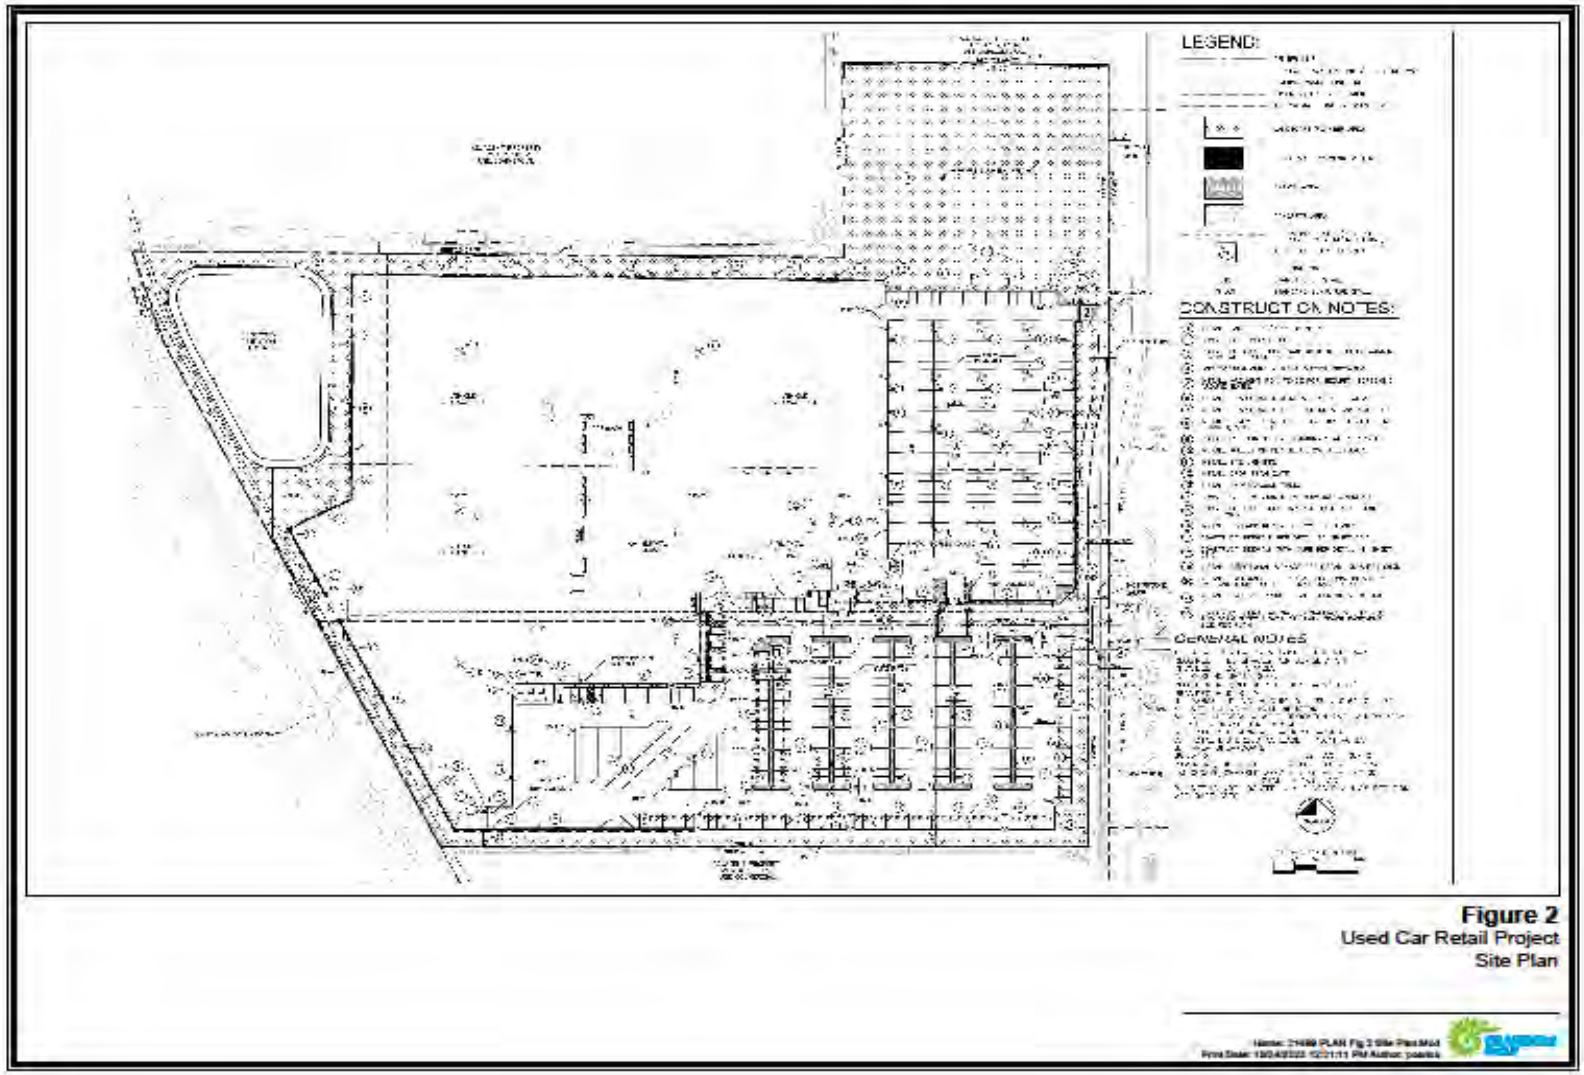


Figure 2 – Preliminary Site Plan

SECTION 2.0 – ENVIRONMENTAL DETERMINATION

2.1 ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would potentially be affected by this project, involving at least one impact that is a "Potentially Significant Impact," as indicated by the checklists on the following pages. For each of the potentially affected factors, mitigation measures are recommended that would reduce the impacts to less than significant levels.

☐ *Aesthetics*	☐ *Agriculture and Forestry Resources*	☐ *Air Quality*
☒ *Biological Resources*	☒ *Cultural Resources*	☐ *Energy*
☒ *Geology /Soils*	☐ *Greenhouse Gas Emissions*	☒ *Hazards & Hazardous Materials*
☐ *Hydrology /Water Quality*	☐ *Land Use / Planning*	☐ *Mineral Resources*
☐ *Noise*	☐ *Population / Housing*	☐ *Public Services*
☐ *Recreation*	☐ *Transportation*	☒ *Tribal Cultural Resources*
☐ *Utilities /Service Systems*	☐ *Wildfire*	☒ *Mandatory Findings of Significance*

2.2 DETERMINATION

On the basis of this initial evaluation:

1. I find that the proposed project **could not** have a significant effect on the environment, and a **NEGATIVE DECLARATION** will be prepared. ☐
2. I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A **MITIGATED NEGATIVE DECLARATION** will be prepared. ☒
3. I find the proposed project **may have a significant effect** on the environment, and an **ENVIRONMENTAL IMPACT REPORT** is required. ☐
4. I find that the proposed project **may have a "potentially significant impact" or "potentially significant unless mitigated impact"** on the environment, but at least one effect (1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and (2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An **ENVIRONMENTAL IMPACT REPORT** is required, but it must analyze only the effects that remain to be addressed. ☐
5. I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or Negative Declaration pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or Negative Declaration, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required. ☐

Ryan Murphy Name	Senior Planner Title

SECTION 3.0 – EVALUATION OF ENVIRONMENTAL IMPACTS

1. A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g., the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g., the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).

2. All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.

3. Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if substantial evidence exists that an effect may be significant. If one or more "Potentially Significant Impact" entries are marked when the determination is made, an EIR is required.

4. "Negative Declaration: Less Than Significant With Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Than Significant Impact." The lead agency must describe the mitigation measures and briefly explain how they reduce the effect to a less than significant level (mitigation measures from earlier analyses may be cross-referenced).

5. Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(D). In this case, a brief discussion should identify the following:

    a. Earlier Analysis Used. Identify and state where they are available for review.

    b. Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.

    c. Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.

6. Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g., general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.

7. Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.

8. The explanation of each issue should identify:

   a. the significance criteria or threshold, if any, used to evaluate each question; and

   b. the mitigation measure identified, if any, to reduce the impact to less than significant.

**Note: Instructions may be omitted from final document.*

SECTION 4.0 – INITIAL STUDY CHECKLIST

4.1 AESTHETICS

1.	**AESTHETICS.** **Except as provided in Public Resources Code Section 21099, would the project:**	**Potentially Significant Impact**	**Less than Significant With Mitigation Incorporated**	**Less Than Significant Impact**	**No Impact**
(a)	Have a substantial adverse effect on a scenic vista?	☐	☐	☒	☐
(b)	Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?	☐	☐	☒	☐
(c)	In non-urbanized areas, substantially degrade the existing visual character or quality of public views of the site and its surroundings? (d)	Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?	☐	☐	☒	☐

4.1.1 Impact Analysis

a) Would the project have a substantial adverse effect on a scenic vista?

Less than Significant. As described in the General Plan EIR, scenic vistas within the City include scenic corridors and views to open spaces, canyonlands, hillsides, groves, and the San Bernardino Mountains. Current and future scenic drives are identified within Chapter 2, Distinctive City, of the General Plan. The General Plan indicates that specific development standards have been adopted by Resolution to protect identified scenic highways, drives, and historic streets.

The project site has a Home Depot to the north, a car dealership to the south, residential neighborhoods to the east, and the intersections of Interstate 10 (I-10) and I-210 and Tennessee Street to the west. California Department of Transportation has indicated I-10 near Redlands is a Scenic Highway location from milepost 0 to milepost 49.5 (Caltrans 2020). The project site is not visible from either scenic segment of highways. Although I-10 passes by the project area, the scenic segment starts approximately 0.67 miles to the southeast from the Project site. The scenic portion of the roadway is towards the east away from the Project site. Highway 38/Orange Street is an eligible scenic Highway on the California Department of Transportation (Caltrans) State Scenic Highway Map. This segment is approximately 0.82 miles northeast of the Project site over commercial buildings and

residential neighborhoods. As a result, implementation of the proposed project would not have a substantial adverse impact on a scenic vista character or damage scenic resources within a State scenic highway; therefore, impacts would be less than significant.

b) *Would the project substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?*

Less Than Significant. As described in a) above, the project site is surrounded by commercial businesses, freeways, and residential neighborhoods. The facility's maximum height at the peak of the roof is 27 feet and 4 inches, which would not block any scenic views due to the relatively flat topography of the site.

The proposed building facade will be earth-tone colored. Massing will be articulated by tonal color banding. All equipment on the roof will be screened with earth toned metal RTUs and parapet walls. These architectural treatments will be applied to all building facades to create a neutral, cohesive look. This architectural design will complement the neighboring businesses. The City of Redlands Architectural Guidelines encourages these design elements and provides a supplement to the development architectural standards of districts outside of the Downtown Area (City 2009). Therefore, the project would not degrade the existing visual character or public views of the site and surroundings resulting in a less than significant impact.

c) *Would the project, in non-urbanized areas, substantially degrade the existing visual character or quality of public views of the site and its surroundings? (Public views are those that are experienced from publicly accessible vantage point). If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality?*

No Impact. As described in a) above, the Project site is surrounded by commercial businesses, freeways, and residential neighborhoods. The project site is on relatively flat ground in the City. The facility has a maximum height of 27 feet and 4 inches and would not affect a scenic vista; therefore, there would be no impact.

d) *Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?*

Less Than Significant. The outdoor lighting will be LED lighting fixtures mounted on 26-foot poles for visibility and security. These fixtures will be shielded to reduce light spill onto adjacent properties. The proposed project would increase the amount of light in the area because it is a vacant lot with no lighting present. Construction may have security lighting during night hours. Refurbishing of vehicles would occur 24 hours a day, 7 days a week, resulting in an increase of lighting in the area. However, although the project area would increase lighting within the area, compliance with City standards for exterior lighting for new developments, as established by the City's General Plan Action 2-A.35, would reduce this impact to a less than significant level.

Additionally, due to the nature of the project, the proposed car retail facility could result in a new source of substantial glare. The project as proposed would conform to applicable zoning requirements, and specific plan requirements of adhering to all architectural standards to prevent the project from utilizing high gloss or reflective materials with properties that would have the potential to result in adverse glare effects. Additionally, the perimeter of the site will incorporate landscaping including trees and shrubs in accordance with specific plan requirements. With adherence to the City's

design standards and specific plan requirements, adverse effects associated with light and/or glare would be less than significant.

4.2 AGRICULTURE & FORESTRY RESOURCES

2.	**AGRICULTURE & FOREST RESOURCES. (In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation as an optional model to use in assessing impacts on agriculture and farmland. In determining whether impacts to forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry and Fire Protection regarding the state's inventory of forest land, including the Forest and Range Assessment Project and the Forest Legacy Assessment project; and forest carbon measurement methodology provided in Forest Protocols adopted by the California Air Resources Board. Would the project:**	**Potentially Significant Impact**	**Less than Significant With Mitigation Incorporated**	**Less Than Significant Impact**	**No Impact**
(a)	Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?	☐	☐	☐	☒
(b)	Conflict with existing zoning for agricultural use, or a Williamson Act contract?	☐	☐	☐	☒
(c)	Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Government Code section 51104(g))?	☐	☐	☐	☒
(d)	Result in the loss of forest land or conversion of forest land to non-forest use?	☐	☐	☐	☒
(e)	Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use or the conversion of forest land to non-forest use?	☐	☐	☒	☐

4.2.1 Impact Analysis

a) Would the project convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?

No Impact. Prime farmland is land that has a combination of characteristics to be used as cropland, pasture, rangeland, and forest land. According to the Department of Conservation (DOC) California Important Farmland Finder mapping system, the Project site is designated as grazing land. Grazing

land is defined as follows: "Land on which the existing vegetation is suited to the grazing of livestock. This category is used only in California and was developed in cooperation with the California Cattlemen's Association, University of California Cooperative Extension, and other groups interested in the extent of grazing activities" (DOC 2022a).

The Proposed Project area is not zoned for agricultural or farmland use, nor is it proposed to be used for farming and other agricultural purposes. The Project site is proposed to be used for commercial purposes, which is consistent with the surrounding uses. The Project site is not designated as Prime Farmland, Farmland of Statewide Importance, or Unique Farmland. Therefore, implementation of the proposed project would not convert Prime Farmland, Farmland of Statewide Importance, or Unique Farmland to a non-agricultural use. No impact would occur, and no mitigation is required.

b) *Would the project conflict with existing zoning for agricultural use, or a Williamson Act contract?*

No Impact. While the DOC indicates that the Project site is designated as grazing land, the Project site is located within a commercial district of the Specific Plan (City 2006). It is not zoned for agricultural uses, nor is the Project being proposed to be rezoned for agricultural use. Therefore, the Proposed Project would not conflict with existing zoning for agricultural use, or a Williamson Act contract.

c) *Would the project conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Government Code section 51104(g))?*

No Impact. The DOC designates the Project site to contain grazing land (DOC 2022a). However, the Project site is within the commercial district of the Specific Plan. While there is existing vegetation and trees along the outer boundaries of the Project site, the area is not designated for forest or timberland use. The trees would not be removed during construction. The Proposed Project would not conflict with existing zoning or cause rezoning of forest or timberland zones. Therefore, the Proposed Project would not conflict with existing zoning for forest or Timberland Production, resulting in no impact.

d) *Would the project result in the loss of forest land or conversion of forest land to non-forest use?*

No Impact. As discussed in the previous section, the Project site is not designated for forest or timberland use nor is it zoned for forest uses. The Project site is located within the commercial district of the Specific Plan and is proposed to be utilized for commercial purposes. Therefore, the Proposed Project would not result in the loss of forest land or conversation of forest land to non-forest use due to its zoning and lack of forest habitats, resulting in no impact.

e) *Would the project involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use or the conversion of forest land to non-forest use?*

Less than Significant Impact. The Project site is zoned as commercial, with a home improvement retailer to the north, automobile dealership to the south, and undeveloped properties and various commercial buildings to the east. West of the Project site is the I-210. While there are existing vegetation and trees around the exterior of the Project boundary, the Project site is not zoned for farmland or forest uses. The Project proposes to utilize the site for automobile related operations.

The Proposed Project would not involve changes in the existing environment involving conversion of farm and forest land to non-agricultural and forest uses. Impacts therefore would be less than significant.

4.3 AIR QUALITY

3.	AIR QUALITY. Where available, the significance criteria established by the applicable air quality management district or air pollution control district may be relied upon to make the following determinations. Would the project:	Potentially Significant Impact	Less than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
(a)	Conflict with or obstruct implementation of the applicable air quality plan?	☐	☐	☒	☐
(b)	Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard?	☐	☐	☒	☐
(c)	Expose sensitive receptors to substantial pollutant concentrations?	☐	☐	☒	☐
(d)	Result in other emissions (such as those leading to odors) adversely affecting a substantial number of people?	☐	☐	☒	☐

4.3.1 Impact Analysis

Kimley-Horn and Associates, Inc. (Kimley-Horn) prepared an Air Quality Assessment for the proposed Project, dated May 2023. The Air Quality Assessment was prepared to evaluate the potential construction and operational emissions associated with the Proposed Project and determine the level of impact it would have on the environment. The results of the Air Quality Assessment indicate that the Proposed Project would have a less than significant impact with regard to air quality. The following impact analysis uses data from the Air Quality Assessment. The complete report can be found in Appendix A.

Kimley-Horn also completed a Health Risk Assessment (HRA) for the Proposed Project, dated January 2024. The purpose of this HRA is to evaluate potential health risks associated with Toxic Air Contaminants (TAC), including Diesel Particulate Matter (DPM), resulting from construction of the proposed Project. The HRA, located in Appendix B, was prepared in accordance with the requirements of the SCAQMD and guidance from the Office of Environmental Health Hazard Assessment (OEHHA) to determine if health risks are likely to occur from the Project.

a) Would the project conflict with or obstruct implementation of the applicable air quality plan?

Less than Significant Impact.

Climate and Meteorology

The California Air Resources Board (CARB) divides the State into 15 air basins that share similar meteorological and topographical features. The Project is located within the South Coast Air Basin (SCAB), which includes the non-desert portions of Los Angeles, Riverside, and San Bernardino counties, as well as all of Orange County. The SCAB is on a coastal plain connecting broad valleys and

low hills, bound by the Pacific Ocean on the southwest and high mountains forming the remainder of the perimeter. Air quality in this area is determined by natural factors such as topography, meteorology, and climate, in addition to the presence of existing air pollution sources and ambient conditions.

Ambient Air Quality

CARB monitors ambient air quality at approximately 250 air monitoring stations across the State. These stations usually measure pollutant concentrations ten feet above ground level; therefore, air quality is often referred to in terms of ground-level concentrations. Existing levels of ambient air quality levels, historical trends, and projections near the Project are documented by measurements made by the SCAQMD, the air pollution regulatory agency in the SCAB that maintains air quality monitoring stations which process ambient air quality measurements. Pollutants of concern in the SCAB include ozone (O_3), particulate matter 10 micrometers or less in diameter (PM_{10}), and particulate matter 2.5 micrometers or less in diameter ($PM_{2.5}$). The closest air monitoring station to the Project that monitors ambient concentrations of these pollutants is the Redlands-Dearborn Monitoring Station (located approximately 2.75 miles to the east of the Project site).

Federal Clean Air Act

Air quality is federally protected by the Federal Clean Air Act (FCAA) and its amendments. Under the FCAA, the Environmental Protection Agency (EPA) developed the primary and secondary National Ambient Air Quality Standards (NAAQS) for the criteria air pollutants including O_3, NO_2, CO, SO_2, PM_{10}, $PM_{2.5}$, and lead. Proposed projects in or near nonattainment areas could be subject to more stringent air-permitting requirements. The FCAA requires each state to prepare a State Implementation Plan to demonstrate how it will attain the NAAQS within the federally imposed deadlines.

The EPA can withhold certain transportation funds from states that fail to comply with the planning requirements of the FCAA. If a state fails to correct these planning deficiencies within two years of federal notification, the EPA is required to develop a federal implementation plan for the identified nonattainment area or areas. The provisions of 40 Code of Federal Regulations Parts 51 and 93 apply in all nonattainment and maintenance areas for transportation-related criteria pollutants for which the area is designated nonattainment or has a maintenance plan. The EPA has designated enforcement of air pollution control regulations to the individual states.

The EPA requires each state with nonattainment areas to prepare and submit a State Implementation Plan that demonstrates the means to attain the federal standards. The State Implementation Plan must integrate federal, state, and local plan components and regulations to identify specific measures to reduce pollution in nonattainment areas, using a combination of performance standards and market-based programs. Similarly, under State law, the California Clean Air Act (CCAA) requires an air quality attainment plan to be prepared for areas designated as nonattainment regarding the state and federal ambient air quality standards. Air quality attainment plans outline emissions limits and control measures to achieve and maintain these standards by the earliest practical date.

The Project is located within the SCAB, which is under the jurisdiction of the SCAQMD. The SCAQMD is required, pursuant to the FCAA, to reduce emissions of criteria pollutants for which the SCAB is in nonattainment. To reduce such emissions, the SCAQMD drafted the 2016 and 2022 Air Quality Management Plans (AQMPs). The AQMPs establish a program of rules and regulations directed at reducing air pollutant emissions and achieving California Ambient Air Quality Standards (CAAQS) and

NAAQS. The AQMPs are a regional and multi-agency effort including the SCAQMD, the CARB, the Southern California Association of Governments (SCAG), and the EPA. The pollutant control strategies in the AQMPs are based on the latest scientific and technical information and planning assumptions, including SCAG's Connect SoCal 2020-2045 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS), updated emission inventory methodologies for various source categories, and SCAG's latest growth forecasts. SCAG's latest growth forecasts were defined in consultation with local governments and with reference to local general plans. The Project is subject to the AQMPs.

Analysis

The criteria for determining consistency with the AQMPs are defined by the following indicators:

- Consistency Criterion No. 1: The Project will not result in an increase in the frequency or severity of existing air quality violations, or cause or contribute to new violations, or delay the timely attainment of air quality standards or the interim emissions reductions specified in the AQMPs.

- Consistency Criterion No. 2: The Project will not exceed the assumptions in the AQMPs or increments based on the years of the Project build-out phase.

According to the SCAQMD's California Environmental Quality Act (CEQA) Air Quality Handbook, the purpose of the consistency finding is to determine if a project is inconsistent with the assumptions and objectives of the regional air quality plans, and thus if it would interfere with the region's ability to comply with California Ambient Air Quality Standards (CAAQS) and National Ambient Air Quality Standards (NAAQS). The violations to which Consistency Criterion No. 1 refers are CAAQS and NAAQS.

Table 1: Construction-Related Emissions

Construction Year	Pollutant (Maximum Pounds per Day)					
	Reactive Organic Gases (ROG)	Nitrogen Oxide (NO_x)	Carbon Monoxide (CO)	Sulfur Dioxide (SO_2)	Coarse Particulate Matter (PM_{10})	Fine Particulate Matter ($PM_{2.5}$)

Notes:
1. Conservatively assumes 10 percent of mobile emissions are on-site.

Source: CalEEMod version 2022.1. Refer to Appendix A: Air Quality Monitoring Data for model outputs.

As shown in Table 1, Table 2, Table 3, and Table 4 above, the Project would not exceed the construction standards, operational standards, or localized significance thresholds. Therefore, the Project would not contribute to an existing air quality violation. Thus, the Project would be consistent with the first criterion.

Concerning Consistency Criterion No. 2, the AQMPs contain air pollutant reduction strategies based on SCAG's latest growth forecasts, and SCAG's growth forecasts were defined in consultation with local governments and with reference to local general plans. The General Plan land use designation for the Project site is Commercial/Industrial and the zoning designation is General Commercial (EV/CG). The Project is consistent with the City's General Plan land use designation and the zoning. As such, the Project would not result in substantial unplanned growth or unaccounted for growth in the General Plan used by the SCAQMD to develop the AQMPs. Thus, a less than significant impact would occur, as the Project is also consistent with the second criterion.

b) Would the project result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard?

Less than Significant Impact.

Air Pollutants of Concern

The air pollutants emitted into the ambient air by stationary and mobile sources are regulated by State and federal laws. These regulated air pollutants are known as "criteria air pollutants" and are categorized into primary and secondary pollutants.

Primary air pollutants are emitted directly from sources. Carbon monoxide (CO), reactive organic gases (ROG), nitrogen oxide (NO_X), sulfur dioxide (SO_2), coarse particulate matter (PM_{10}), fine particulate matter ($PM_{2.5}$), and lead are primary air pollutants. Of these, CO, NO_X, SO_2, PM_{10}, and $PM_{2.5}$ are primary criteria pollutants. ROG and NO_X are criteria pollutant precursors and form secondary criteria pollutants through chemical and photochemical reactions in the atmosphere. A complete description of the pollutants, its man-made sources and potential human effects are provided in Table 1: Air Contaminants and Associated Public Health Concerns in Appendix A.

Toxic Air Contaminants

Toxic Air Contaminants (TACs) are airborne substances that can cause short-term (acute) or long-term (i.e. chronic, carcinogenic or cancer causing) adverse human health effects (i.e. injury or illness). TACs include both organic and inorganic chemical substances. They may be emitted from a variety of common sources including gasoline stations, automobiles, dry cleaners, industrial operations, and painting operations. The current California list of TACs includes more than 200 compounds, including particulate emissions from diesel-fueled engines.

Construction Emissions

Construction associated with the Project would generate short-term emissions of criteria air pollutants. The criteria pollutants of primary concern within the Project area include O_3-precursor pollutants (i.e., ROG and NO_X) and PM_{10} and $PM_{2.5}$. Construction-generated emissions are short term, lasting only as long as construction activities occur, but would be a significant air quality impact if the volume of pollutants generated exceeds the SCAQMD's thresholds of significance.

Construction results in the temporary generation of emissions resulting from site grading, road paving, motor vehicle exhaust associated with construction equipment and worker trips, and the movement of construction equipment, especially on unpaved surfaces. Emissions of airborne particulate matter are largely dependent on the amount of ground disturbance associated with site preparation activities, as well as weather conditions and the appropriate application of water.

Construction of the Project is anticipated to occur over an approximately 18-month period beginning in 2024 and ending in 2025. Construction-generated emissions associated with the Project were calculated using the CARB-approved California Emissions Estimator Model® (CalEEMod) computer program, which is designed to model emissions for land use development projects, based on typical construction requirements. See Appendix A: Air Quality Modeling Data for more information regarding the construction assumptions used in this analysis.

Fugitive dust emissions may have a temporary impact on local air quality. In addition, fugitive dust may be a nuisance to those living and working in the Project vicinity. Uncontrolled dust from construction can become a nuisance and potential health hazard to those living and working nearby. SCAQMD Rules 402 and 403 (prohibition of nuisances, watering of inactive and perimeter areas, track out requirements, etc.), are applicable to the Project and were applied in CalEEMod to minimize fugitive dust emissions.

Table 1 shows that all criteria pollutant emissions would remain below their respective thresholds. While impacts would be less than significant, the Project would be subject to SCAQMD Rules for reducing fugitive dust, described in the Regulatory Framework in the report in Appendix A.

Operational Emissions

The Project's operational emissions would be associated with area sources (e.g., landscape maintenance equipment, architectural coatings, off-road equipment, etc.), energy sources, and mobile sources (i.e., motor vehicle use). Primary sources of operational criteria pollutants are from motor vehicle use and area sources. Long-term operational emissions attributable to the Project are summarized in Table 2: Operational Emissions. The operational emissions sources are described below.

- **Area Source Emissions.** Area source emissions would be generated due to on-site equipment, architectural coating, and landscaping that were previously not present on the site.

- **Energy Source Emissions.** Energy source emissions would be generated due to electricity and natural gas usage associated with the Project. Primary uses of electricity and natural gas by the Project would be for space heating and cooling, water heating, ventilation, lighting, appliances, and electronics.

- **Mobile Source.** Mobile sources are emissions from motor vehicles, including tailpipe and evaporative emissions. Depending upon the pollutant being discussed, the potential air quality impact may be of either regional or local concern. For example, ROG, NOX, PM10, and PM2.5 are all pollutants of regional concern. NOX and ROG react with sunlight to form O3, known as photochemical smog. Additionally, wind currents readily transport PM10 and PM2.5. However, CO tends to be a localized pollutant, dispersing rapidly at the source.

Project-generated vehicle emissions are based on the trip generation within the Project's Traffic Scoping Agreement and incorporated into CalEEMod as recommended by the SCAQMD. Per the Traffic Scoping Agreement, the Project would generate a maximum of 715 daily trips.

As shown in Table 2, the Project's net operational emissions would not exceed SCAQMD thresholds for any criteria air pollutants. Therefore, long-term operational emissions would result in a less than significant impact.

Cumulative Short-Term Emissions

The SCAB is designated nonattainment for O3, PM10, and PM2.5 for the CAAQS and nonattainment for O_3 and $PM_{2.5}$ for the NAAQS. Appendix D of the SCAQMD *White Paper on Potential Control Strategies to Address Cumulative Impacts from Air Pollution*-2003 notes that projects with emissions

that do not exceed the project specific SCAQMD regional thresholds of significance should result in a less than significant impact on a cumulative basis, unless there is other pertinent information to the contrary. The mass-based regional significance thresholds published by the SCAQMD are designed to ensure compliance with both NAAQS and CAAQS and are based on an inventory of projected emissions in the SCAB. Therefore, if a project is estimated to result in emissions that do not exceed the thresholds, the Project's contribution to the cumulative air quality impact in the SCAB would not be cumulatively considerable. As shown in Table 1 above, Project construction-related emissions by themselves would not exceed the SCAQMD significance thresholds for criteria pollutants. Therefore, the Project would not generate a cumulatively considerable contribution to air pollutant emissions during construction.

The SCAQMD has developed strategies to reduce criteria pollutant emissions outlined in the AQMPs pursuant to the FCAA mandates. The analysis assumed fugitive dust controls would be utilized during construction, including frequent water applications. SCAQMD rules, mandates, and compliance with adopted emissions control measures would also be imposed on construction projects throughout the SCAB, which would include related projects. Compliance with SCAQMD rules and regulations would further reduce Project construction-related emissions. Therefore, Project-related construction emissions, combined with those from other projects in the area, would not substantially deteriorate local air quality. The Project's construction-related emissions would not result in a cumulatively considerable contribution to significant cumulative air quality.

Cumulative Long-Term Impacts

The SCAQMD has not established separate significance thresholds for cumulative operational emissions. The nature of air emissions is largely a cumulative impact. As a result, no single project is sufficient in size to, by itself, result in nonattainment of ambient air quality standards. Instead, individual project emissions contribute to existing cumulatively significant adverse air quality impacts. The SCAQMD developed the operational thresholds of significance based on the level above which individual project emissions would result in a cumulatively considerable contribution to the SCAB's existing air quality conditions. Therefore, a project that exceeds the SCAQMD operational thresholds would also be a cumulatively considerable contribution to a significant cumulative impact.

As shown in Table 2, the Project's net operational emissions would not exceed SCAQMD thresholds. As a result, operational emissions associated with the Project would not result in a cumulatively considerable contribution to significant cumulative air quality impacts. Additionally, adherence to SCAQMD rules and regulations would alleviate potential impacts related to cumulative conditions on a project-by-project basis. Project operations would not contribute a cumulatively considerable net increase of any nonattainment criteria pollutant.

Therefore, the Proposed Project would not result in a cumulatively considerable net increase of criteria pollutants because the estimated construction and operational emissions would be below SCAQMD's thresholds. Impacts would be less than significant.

c) Would the project expose sensitive receptors to substantial pollutant concentrations?

Less than Significant Impact.

Sensitive Receptors

Sensitive populations are more susceptible to the effects of air pollution than is the general population. Sensitive receptors that are in proximity to localized sources of toxins are of particular concern. Land uses considered sensitive receptors include residences, schools, playgrounds, childcare centers, long-term health care facilities, rehabilitation centers, convalescent centers, and retirement homes. The Project site is mainly surrounded by commercial land uses to the north, east, and south, and vacant land and the I-10 and I-210 to the west. The nearest sensitive receptor is the single-family residences located 657 feet (200 meters) to the east of the Project site and approximately 740 feet to the northeast of the Project site. In addition, Orangewood High School, and Redlands eAcademy are located approximately 0.4 miles to the southeast of the Project site.

Localized Construction Significance Analysis

To identify impacts to sensitive receptors, the SCAQMD recommends addressing Local Significance Thresholds (LSTs) for construction. LSTs were developed in response to SCAQMD Governing Boards' Environmental Justice Enhancement Initiative (I-4). The SCAQMD provided the Final Localized Significance Threshold Methodology (dated June 2003 [revised 2008]) for guidance. The LST methodology assists lead agencies in analyzing localized impacts associated with Project-specific emissions.

Since CalEEMod calculates construction emissions based on the number of equipment hours and the maximum daily soil disturbance activity possible for each piece of equipment, equipment-specific grading rates is used to determine the maximum daily disturbed acreage for comparison to LSTs. The appropriate State Responsibility Area (SRA) for the localized significance thresholds is the East San Bernardino Valley (SRA 35) since this area includes the Project. LSTs apply to CO, NO_2, PM_{10}, and $PM_{2.5}$. The SCAQMD produced look-up tables for projects that disturb areas less than or equal to 5 acres in size. Project construction is anticipated to disturb a maximum of 4 acres in a single day during the grading phase. As the LST guidance provides thresholds for projects disturbing 1-, 2-, and 5-acres in size and the thresholds increase with the size of the site, the LSTs for a 4-acre threshold were interpolated and utilized for this analysis.

The SCAQMD's methodology states that "off-site mobile emissions from the Project should not be included in the emissions compared to LSTs." Therefore, only emissions included in the CalEEMod "on-site" emissions outputs were considered. LST thresholds are provided for distances to sensitive receptors of 25, 50, 100, 200, and 500 meters. Therefore, LSTs for 200 meters were utilized in this analysis. Table 3: Localized Significance of Construction Emissions, shows the results of localized emissions during construction. This table represents the worst-case scenario and is based on peak earthwork volumes anticipated. As shown, localized Project construction emissions would not exceed SCAQMD thresholds. Impacts would be less than significant in this regard.

Table 5: Equipment-Specific Grading Rates

Construction Phase	Equipment Type	Equipment Quantity	Acres Graded per 8-Hour Day	Operating Hours per Day	Acres Graded per Day
Grading	Tractors	2	0.5	8	1
	Graders	1	0.5	8	0.5
	Dozers	1	0.5	8	0.5
	Scrapers	2	1	8	2
				Total Acres Graded per Day	**4**

Localized Operational Significance Analysis

According to the SCAQMD LST methodology, LSTs would apply to the operational phase of a project only if it includes stationary sources or attracts mobile sources that may spend long periods queuing and idling at the site (e.g., warehouse or transfer facilities). Since the Project is an automobile sales and service facility, the operational phase LST protocol is conservatively applied to both the area source and mobile source emissions. As the nearest receptor is located approximately 657 feet (200 meters) from the Project site, LSTs for 200 meters for SRA 35 were used in this analysis. Although the Project site is approximately 18.56 acres, the 5-acre LST threshold was conservatively assumed for the Project, as the LSTs increase with the size of the site. Therefore, the 5-acre LSTs are conservative for evaluation of an 18.56-acre site.

The LST analysis only includes on-site sources. However, the CalEEMod model outputs do not separate on- and off-site emissions for mobile sources. For a worst-case scenario assessment, the emissions shown in Table 4: Localized Significance of Operational Emissions, conservatively include all on-site Project-related stationary sources and 10 percent of the Project-related new mobile sources, since a portion of mobile sources could include automobiles idling on-site. Table 4 shows that the maximum daily emissions of these pollutants during operations would not result in significant concentrations of pollutants at nearby sensitive receptors. Therefore, significant impacts would not occur concerning LSTs during operational activities.

According to the SCAQMD AQMPs, ozone, NO_X, and ROG have been decreasing in the SCAB since 1975 and are projected to continue to decrease in the future. Although vehicle miles traveled (VMT) in the SCAB continue to increase, NO_X and ROG levels are decreasing because of the mandated controls on motor vehicles and the replacement of older polluting vehicles with lower-emitting vehicles. NO_X emissions from electric utilities have also decreased due to the use of cleaner fuels and renewable energy. Appendix A provides further discussion regarding air quality modeling demonstrating NO_X reductions.

As previously discussed, Project emissions would be less than significant and would not exceed SCAQMD thresholds. Localized effects of on-site Project emissions on nearby sensitive receptors were also found to be less than significant (refer to Table 3 and Table 4). The LSTs represent the maximum emissions from a project that are not expected to cause or contribute to an exceedance of the most stringent applicable CAAQS or NAAQS.

The LSTs were developed by the SCAQMD based on the ambient concentrations of that pollutant for each SRA and distance to the nearest sensitive receptor. The CAAQS and NAAQS establish the levels of air quality necessary, with an adequate margin of safety, to protect public health, including protecting the health of sensitive populations. Information on health impacts related to exposure to ozone and particulate matter emissions published by the EPA and CARB have been summarized in the Air Quality Assessment (Appendix A) and discussed in the Regulatory Framework section. The Project-related emissions would not exceed the regional thresholds or the LSTs, and therefore would not exceed the ambient air quality standards or cause an increase in the frequency or severity of existing violations of air quality standards. Therefore, the Project would not expose sensitive receptors to criteria pollutant levels in excess of the health-based ambient air quality standards.

Carbon Monoxide Hotspots

An analysis of CO "hot spots" is needed to determine whether the change in the level of service of an intersection resulting from the Project would have the potential to result in exceedances of the CAAQS or NAAQS. It has long been recognized that CO exceedances are caused by vehicular emissions, primarily when vehicles are idling at intersections. Vehicle emissions standards have become increasingly stringent in the last 20 years. With the turnover of older vehicles, introduction of cleaner fuels, and implementation of control technology on industrial facilities, CO concentrations have steadily declined. Accordingly, with the steadily decreasing CO emissions from vehicles, even very busy intersections do not result in exceedances of the CO standard.

The SCAB was re-designated as attainment for CO in 2007 and is no longer addressed in the SCAQMD's AQMP. The 2003 AQMP is the most recent version that addresses CO concentrations. As part of the SCAQMD CO Hotspot Analysis, the Wilshire Boulevard/Veteran Avenue intersection, one of the most congested intersections in Southern California with an average daily traffic (ADT) volume of approximately 100,000 vehicles per day, was modeled for CO concentrations. This modeling effort identified a CO concentration high of 4.6 ppm, which is well below the 35-ppm NAAQS.

The Project would not produce the volume of traffic required to generate a CO hot spot in the context of SCAQMD's CO Hotspot Analysis. As CO hotspots were not experienced at the Wilshire Boulevard/Veteran Avenue intersection even though it accommodates 100,000 vehicles daily, it can be reasonably inferred that CO hotspots would not be experienced at any Project area intersections resulting from 715 additional vehicle trips attributable to the Project.

Health Risk Assessment

As described in Appendix B, health risks were analyzed at the point of maximum impact and are a conservative estimate. The pollutant concentrations are used to estimate the long-term cancer health risks to an individual as well as the non-cancer chronic health index associated with construction of the proposed project. The cancer and chronic health risks are based on the annual average concentration of PM_{10} (used as a proxy for DPM). As the Project is proposed near existing sensitive receptors (single-family residences), an analysis of DPM was performed using the EPA-approved AERMOD model (Appendix B).
